GENERAL INFORMATION

Background to the ICAV

DWS Invest (IE) ICAV (the "ICAV") is an Irish collective asset-management vehicle constituted as an umbrella fund with segregated liability between Funds with registration number C194848. The ICAV was incorporated under an Instrument of Incorporation, pursuant to the Irish Collective Asset management Vehicles Acts 2015 to 2021 (together, the "Acts"), and was registered with the Central Bank of Ireland (the "Central Bank") on 12 July 2019. The ICAV has been authorised by the Central Bank as an undertaking for collective investment in transferable securities ("UCITS") pursuant to the provisions of the European Communities (undertakings for collective investment in transferable securities) Regulations, 2011 (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (section 48(1)) (undertakings for collective investment in transferable securities) Regulations 2019 (together the "Central Bank UCITS Regulations"). References to statutes, regulations and laws shall include any amendments thereto. All capitalised terms used but not defined herein shall have the meaning ascribed hereto in the ICAV's prospectus dated 28 November 2022 (the "Prospectus").

Schedule of Sub-Funds

As at 31 December 2023, the ICAV has established eight sub-funds namely DWS Qi Global AC Equity Fund, which launched on 23 October 2019, DWS Noor Precious Metals Securities Fund, which launched as a result of a merger on 28 May 2021, Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund, which launched on 1 March 2023, (together the "Funds" and individually "sub-fund" or "Fund"), Xtrackers MSCI World UCITS Fund, Xtrackers MSCI China A UCITS Fund, Xtrackers MSCI ACWI UCITS Fund, Xtrackers MSCI USA UCITS Fund and Xtrackers S&P 500 UCITS Fund, which are approved but not launched as at 31 December 2023 and as such no information for these Funds has been presented in the financial statements.

The manager of the ICAV is DWS Investment S.A. (the "Manager"), which in turn has appointed DWS Investment GmbH as investment manager (the "Investment Manager") of the Funds. The Investment Manager has appointed DWS International GmbH as sub-investment manager of the DWS Qi Global AC Equity Fund and DWS Investment Management Americas Inc. as the sub-investment manager of the DWS Noor Precious Metals Securities Fund (DWS International GmbH and DWS Investment Management Americas Inc. each a Sub-Investment Manager and together being, the "Sub-Investment Managers").

Shares representing interests in different Funds of the ICAV may be issued from time to time by the Directors. Within each Fund, the Directors may issue Shares of more than one Class. All Shares of each Class will rank pari passu save as provided for in the relevant Supplement. A separate portfolio of assets will be maintained for each Fund (and accordingly not for each Class of Shares) and will be invested in accordance with the investment objective and strategies applicable to the particular Fund. As the ICAV has segregated liability between its Funds, any liability incurred on behalf of or attributable to any Fund shall be discharged solely out of the assets of that Fund.

Investment objective and policy

DWS Qi Global AC Equity Fund

The investment objective of the Fund is to achieve long-term capital appreciation in excess of the MSCI ACWI Index (the "Benchmark"). In order to achieve the investment objective, the Fund will primarily invest in equities of large and mid-cap companies which are either listed and/or domiciled in, or have meaningful economic exposure to both developed markets and emerging markets. With the exception of permitted investments in unlisted securities, the Fund's investments will be listed on Regulated Markets, and may be selected without restrictions to geographical, industrial or sectoral exposure. Such investments may include China A-Shares, which the Fund may invest in directly through Stock Connect as further described in the Prospectus. Individual stocks are selected by the Sub-Investment Manager of the Fund, using a proprietary and dynamic multi-factor allocation strategy designed by the DWS Quantitative investments (Qi) group within the Sub-Investment Manager. The strategy seeks to select and weight investments according to criteria typical of fundamental analysis and technical analysis taking into account a balance between opportunity and risk. Fundamental analysis involves analysis of companies' balance sheet data and valuation metrics, whereas technical analysis involves forecasting the direction of stock prices by analysing historical market price data.

GENERAL INFORMATION (continued)

Investment objective and policy (continued)

DWS Noor Precious Metals Securities Fund

The investment objective of the Fund is to achieve capital appreciation in the medium to long term by investing in a portfolio of Sharia compliant equity and equity-related securities of companies engaged in activities (exploration, mining and processing) related to gold, silver, platinum or other precious metals or minerals. The Fund is actively managed and in order to achieve the investment objective, the Fund will invest in a portfolio of Sharia compliant equity and equity related securities (including, without limitation, depositary receipts such as Sharia-compliant global depositary receipts (GDR) and American depositary receipts (ADR), but excluding preferred shares and bonds) listed or traded on a Regulated Market (as set out in Appendix 1 of the Prospectus), of companies engaged in activities (exploration, mining and processing) related to gold, silver, platinum or other precious metals or minerals. The Fund will not invest directly in physical gold or silver bullion or in securities where the underlying investment is in such commodities.

Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund

The investment objective of the Fund is to track the performance before fees and expenses of an index that provides exposure to the global investment grade fixed-rate debt markets, denominated in Euro and US Dollars across developed market countries. In order to achieve the investment objective, the Fund will adopt a Direct Investment Policy to gain exposure to the Global Agg Corp 1-10 Year OECD Senior 1bn 50% USD 50% EUR Select Index (the Benchmark Index).

Dealing

DWS Qi Global AC Equity Fund

For the Fund every Business Day shall be a Dealing Day. The valuation point for the Fund is 9 p.m. (Irish time) on each Dealing Day. State Street Fund Services (Ireland) Limited's (the "Administrator") Dealing Deadline for subscriptions and redemptions is 9 p.m. (Irish time) on each Dealing Day for all Share Classes of the Fund. Subscription proceeds must be received by State Street Custodial Services (Ireland) Limited (the "Depositary"), within 4 Business Days of the relevant Dealing Day.

DWS Noor Precious Metals Securities Fund

For the Fund every Business Day shall be a Dealing Day. The valuation point for the Fund is 10 a.m. (Irish time) on each Dealing Day. The Administrator's Dealing Deadline for subscriptions and redemptions is 9 a.m. (Irish time) on each Dealing Day for all Share Classes of the Fund. Subscription proceeds must be received by the Depositary within 3 Business Days of the relevant Dealing Day.

Applications received after the Dealing Deadline will be dealt with on the next subsequent Dealing Day.

Fax: 353-1-776-8491

GENERAL INFORMATION (continued)

Sharia Investment Guidelines - DWS Noor Precious Metals Securities Fund

DWS Noor Precious Metals Securities Fund undertakes its investment activities in accordance with the Sharia Investment Guidelines. As a consequence, this may mean that the Fund may under-perform, when compared to other investment funds with comparable investment objectives that do not seek to adhere to Islamic investment criteria (for example the inability to invest in interest bearing investment securities and the amount of any donations to charities made up of cash dividends which have been cleansed). The Sharia Investment Guidelines may require the Fund to dispose of investments in circumstances that are less advantageous than might otherwise be the case. In particular, DWS Investment GmbH (the "Investment Manager") will receive the Sharia Supervisory Board's instructions through Khalij Islamic (BVI) Limited (the "Sharia Advisor"), as set out in the Sharia Advisory Agreement executed between the Fund, the Investment Manager and the Sharia Advisor.

Pursuant to such instructions by the Sharia Advisor, the Investment Manager and DWS Investment Management Americas Inc., the Sub-Investment Manager of the Fund, will, for instance, not be allowed to invest in securities and other financial instruments which, in the opinion of the Sharia Supervisory Board of the Sharia Advisor, are not or are no longer, in compliance with the Sharia Investment Guidelines. Similarly, cash balances held by the Fund from time to time may be deposited on terms which shall grant no return on the sum deposited to the benefit of the sub-fund.

Although the Fund intends to observe the Sharia Investment Guidelines at all times, no absolute assurance can be given, as there may be occasions when the Fund's investments do not fully comply with such criteria for factors outside the control of the Fund. The Depositary shall not be responsible for monitoring compliance with the Sharia Investment Guidelines.

Purification of Income - DWS Noor Precious Metals Securities Fund

It is obligatory to purify dividends from prohibited income (e.g. interest earnings, income generated by other impermissible activities, etc).

The Fund may invest only in companies that satisfy the Sharia criteria stated in the Prospectus. Where the Fund invests in a company which satisfies the Sharia Investment Guidelines set out in the Prospectus but which still derives a portion of its revenue from prohibited activities, then the Fund must cleanse, where appropriate, all dividend and income receipts from such a company by donating a certain portion of such dividend receipts to charity.

In order to purify the income received from prohibited activities, an amount equivalent to 5% of all cash dividends received within the Fund will be donated to a charity. The Administrator shall provide a schedule on a semi-annual basis showing the amount to be paid to charities in respect of the prohibited income received from investments of the Fund.

During the course of each financial period, when the Fund receives any dividend, 5% of the dividend will be deducted from the Net Asset Value of the sub-fund and accrued separately.

The Directors shall determine which charities shall benefit from donations (with no direct or indirect benefit accruing to the Sharia Advisor, Sharia Supervisory Committee of the Sharia Advisor, the ICAV, its Funds or any of its investors) and the Fund shall make any donations to such charitable organisations within a reasonable time after such determination in good faith. Such donations will be deducted directly from the assets of the Fund by the Fund. Donations shall be made to charitable institutions as the Directors shall determine from time to time in consultation with the Investment Manager and Sharia Advisor.

It is not permitted to conclude futures or options contracts or other forms of derivative instruments on the Fund's assets without the explicit approval from the Sharia Advisor.

It is not permissible to undertake trading in the shares of a corporation, when the assets of such corporations are exclusively comprised of cash.

The Fund may acquire foreign currency by way of spot currency contracts for the purpose of purchasing listed equity and equity-related transferable securities as well as non-listed securities, for the day-to-day operations of the Fund (subject always to the further restrictions as set out herein i.e. not for the purposes of hedging or entering into short positions) and may sell such foreign currencies by way of spot currency contracts where such foreign currencies are the proceeds of sale of listed or non-listed transferable equity and equity-related transferable securities.

GENERAL INFORMATION (continued)

Sharia Investment Guidelines - DWS Noor Precious Metals Securities Fund (continued)

Purification of Income - DWS Noor Precious Metals Securities Fund (continued)

The Fund may purchase units or shares of one or several UCITS provided they are not prohibited under the restrictions specified under investment restrictions as set out in the section of the Prospectus entitled Investment Restrictions, provided that such UCITS shall comply with the Sharia Investment Guidelines.

Subject to the UCITS Regulations and the requirements of the Central Bank, the Sharia Investment Guidelines as set out in the Fund's Supplement shall continue to be complied with. The Sharia Investment Guidelines may be modified from time to time by the Sharia Advisor as deemed appropriate.

DIRECTORS' REPORT

For the financial year ended 31 December 2023

The Directors present to the shareholders the annual report together with the audited financial statements of DWS Invest (IE) ICAV (the "ICAV") for the financial year ended 31 December 2023.

As at 31 December 2023, the ICAV has established eight sub-funds namely DWS Qi Global AC Equity Fund, which launched on 23 October 2019, DWS Noor Precious Metals Securities Fund, which launched as a result of a merger on 28 May 2021, Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund, which launched on 1 March 2023, (together the "Funds" and individually "sub-fund" or "Fund"), Xtrackers MSCI World UCITS Fund, Xtrackers MSCI China A UCITS Fund, Xtrackers MSCI ACWI UCITS Fund, Xtrackers MSCI USA UCITS Fund and Xtrackers S&P 500 UCITS Fund, which are approved but not launched as at 31 December 2023 and as such no information for these Funds has been presented in the financial statements. Please see general information section for further details on nature of business carried out by the Funds.

Directors' Responsibility Statement

The directors are responsible for preparing the Directors' Report and financial statements, in accordance with applicable law and regulations.

The Irish Collective Asset-management Vehicles Acts 2015 to 2021 (together, the "Acts") requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU and applicable law.

The financial statements are required to give a true and fair view of the assets, liabilities and financial position of the ICAV and the Funds at the end of the financial year and of the increase in net assets attributable to redeemable participating shareholders in the Funds for the financial year. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the ICAV's and the Funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Funds or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the assets, liabilities, financial position and increase in net assets attributable to holders of redeemable participating shares in the Funds and enable them to ensure that the financial statements comply with the Irish Collective Asset-management Vehicles Acts 2015 to 2021 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the ICAV and the Funds. In this regard they have entrusted the assets of the Funds to a trustee for safe-keeping. They are responsible for such internal controls as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and to prevent and detect fraud and other irregularities. The directors are also responsible for preparing a Directors' Report that complies with the requirements of the Irish Collective Assetmanagement Vehicles Acts 2015 to 2021.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the ICAV's website. Legislation in the Republic of Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Results, activities and future developments

The results of operations are set out in the Statement of Comprehensive Income on page 24. A detailed review of activities and future developments is contained in the Investment Manager's Report. There has been no change in the nature of business or principal activities of the Funds during the financial year.

DIRECTORS' REPORT (continued)

For the financial year ended 31 December 2023

Principal Material Changes

During the financial year, an updated Prospectus and supplements to the Prospectus were adopted and approved to take account of updated registered office, investment policy and restriction and industry risks. Prospectus and supplements are available on request. There have been no changes in the key service providers since inception.

Directors

The Directors of the ICAV are:

Michael Whelan (Non-executive Director, Irish Resident)

Mr. Whelan is a highly experienced financial services professional who is currently Chairman and non-executive director of a number of regulated funds and other financial services companies. Mr. Whelan was Chief Country Officer of Deutsche Bank in Ireland from 2007 until 2015 during which time he led the substantial growth of the business which saw a significant increase in the Bank's footprint in Ireland as well as the development of a number of new business areas. Mr. Whelan's previous experience includes that of managing director of the Irish Futures and Options Exchange, an electronic exchange owned by the major banks and financial institutions in Ireland. Mr. Whelan is a business studies graduate of UCD and a fellow of the Chartered Association of Certified Accountants.

Gerry Grimes (Non-executive Director, Chairman, Irish Resident)

Mr. Grimes has over 30 years investment management and banking experience. Mr. Grimes previously worked in the Central Bank of Ireland in a number of senior investment positions, including Head of Reserve Management. He was a founder and Managing Director of Allied Irish Capital Management Ltd, where he managed a group of investment professionals with circa USD 1.4 billion under management, across a range of asset classes.

Mr. Grimes is an independent director of investment funds and special purpose vehicles and also lectures in Risk Management at University College Cork. He holds a First-Class Honours Degree in Economics and History from University College Dublin and the Diploma for Non-executive Directors from the Financial Times/Pearson. He is a past Deputy President of AIMA, the leading representative body for the global alternative asset management industry.

Felix Jueschke (Non-executive Director, German Resident)

Mr. Jueschke joined Deutsche Bank in 2003 and is currently Global Head of Product Specialists Traditional Fixed Income & Multi Asset within DWS, based in Germany. Mr. Jueschke has extensive experience in structuring and management of UCITS and non-UCITS funds. Mr. Jueschke has a Master of Science in International Business with a specialisation in Finance from Maastricht University.

Directors' and ICAV Secretary's interests in shares and contracts

The Directors or their respective families and Goodbody Secretarial Limited (the "Secretary") who held office at 31 December 2023 had no interest beneficial or non-beneficial in the share capital of the Funds. The Directors are not aware of any contracts or arrangements of any significance in relation to the business of the Funds in which the Directors had any interest.

Dividends

Under the Instrument of Incorporation, the Directors are entitled to declare dividends out of net income (i.e. income less expenses) and/or realised and unrealised gains net of realised and unrealised losses and/or capital as specified in the relevant Supplement.

Unless otherwise provided for in the relevant Supplement, dividends (if any) will be declared out of the net income attributable to the relevant Class. The Directors of the ICAV do not currently intend to pay out a dividend.

DIRECTORS' REPORT (continued)

For the financial year ended 31 December 2023

Risk management objectives and policies

The main risks arising from the Funds' financial instruments are market price, interest rate, foreign currency, liquidity and credit risk. For further information on risk management objectives and policies, please see Note 6 of these financial statements and the Prospectus and Supplements of the ICAV.

Employees

The ICAV and the Funds had no employees during the financial year ended 31 December 2023 (2022: no employees).

Russia/Ukraine Crisis

The conflict between Russia and Ukraine marked a dramatic turning point in Europe, which, among other things, is impacting on Europe's security architecture and energy policies in the long term and has caused considerable volatility. This volatility is likely to continue. However, the specific or possible medium-to-long-term effects of the crisis on the economy, individual markets and sectors, as well as the social implications, cannot be conclusively assessed due to the uncertainty at the time of preparing this report. The Manager is therefore continuing its efforts, within the framework of its risk management strategy, to assess these uncertainties and their possible impact on the activities, liquidity and performance of the respective sub-fund. The direct exposure of the Funds is limited to the DWS Noor Precious Metals Securities Fund holding an equity position in Alrosa PJSC, valued at nil as at 31 December 2023 (31 December 2022: nil). The Board of Directors of the ICAV is ensuring that the Manager is taking all measures deemed appropriate to protect investor interests to the greatest possible extent.

Significant events during the financial year

See Note 10 in Notes to the financial statements.

Significant events since the financial year end

See Note 11 in Notes to the financial statements.

Accounting records

The Directors are responsible for ensuring that adequate accounting records, as outlined in Section 110 of the ICAV Act, 2015, are kept at all times. To achieve this, the Directors have employed State Street Fund Services (Ireland) Limited (the "Administrator"). The adequate accounting records of ICAV are maintained at the registered office of the Administrator at 78 Sir John Rogerson's Quay, Dublin 2, Ireland.

Relevant audit information

The Directors believe that they have taken all steps necessary to make themselves aware of any relevant audit information and have established that the ICAV's statutory auditor is aware of that information in so far as they are aware, there is no relevant audit information of which the ICAV's statutory auditor is unaware.

Sustainable Finance Disclosures Regulation

The underlying investments of the Funds do not take into account the EU criteria for environmentally sustainable economic activities.

Charitable Donations - DWS Noor Precious Metals Securities Fund

The charitable payment for the period 1 July 2022 to 31 December 2022 (USD 32,044) was paid to Healthy Seas in March 2023. The charitable payment for the period 1 January 2023 to 30 June 2023 (USD 27,309) was paid to Healthy Seas in September 2023. The charitable payment for the period 1 July 2023 to 31 December 2023 (USD 29,271) was paid to Healthy Seas in March 2024.

DIRECTORS' REPORT (continued)

For the financial year ended 31 December 2023

Transactions with connected persons

Regulation 43 of the UCITS Regulations "Restrictions of transactions with connected persons" states that "A responsible person shall ensure that any transaction between a UCITS and a connected person is conducted a) at arm's length, and b) in the best interest of the share-holders of the UCITS".

As required under UCITS Regulation 81.4, the Directors, as responsible persons are satisfied that there are arrangements in place, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a connected party; and all transactions with connected parties that were entered into during the period to which the report relates, complied with the obligations that are prescribed by Regulation 43(1).

Details of related parties and related party transactions are disclosed in Note 7 of the notes to the financial statements.

Corporate governance statement

During the financial year under review, the ICAV was subject to corporate governance practices imposed by:

- The ICAV Acts which are available for inspection at the registered office of the ICAV;
- The Instrument of Incorporation of the ICAV which is available for inspection at the registered office of the ICAV at 3 Dublin Landings, North Wall Quay, Dublin 1, D01 C4E0, Ireland;
- The Central Bank in their UCITS Regulations which can be obtained from the Central Bank's website listed below and
 are available for inspection at the registered office of the ICAV:
 https://www.centralbank.ie/regulation/industry-market-sectors/funds/ucits

The ICAV has adopted in full the voluntary Code of Corporate Governance (the "Corporate Governance Code") for Collective Investment Schemes ("CIS") and Management Companies issued by the Irish Funds ("IF"), the text of which is available from the IF website, www.irishfunds.ie.

The ICAV has been in compliance with the Corporate Governance Code during the financial year ended 31 December 2023.

Going Concern

The financial statements have been prepared on a going concern basis. The ICAV and the Funds are able to meet all of their liabilities from their assets. The performance, marketability and risks of the Funds are reviewed on a regular basis throughout the financial year. Therefore, the Directors believe that the ICAV will continue in operational existence for the foreseeable future and is financially sound. The Directors are satisfied that, at the time of approving the financial statements, it is appropriate to adopt the going concern basis in preparing the financial statements.

DIRECTORS' REPORT (continued)

For the financial year ended 31 December 2023

Independent auditors

KPMG, Chartered Accountants, (the "Auditor") indicated their willingness to continue in office in accordance with section 125 of the ICAV Acts.

DEPOSITARY'S REPORT

For the financial year ended 31 December 2023

We have enquired into the conduct of DWS Investment S.A. as the Manager of DWS Invest (IE) ICAV ('the ICAV') and into the conduct of the ICAV itself for the financial year ended 31 December 2023, in our capacity as Depositary to the ICAV.

This report including the opinion has been prepared for and solely for the Shareholders in the ICAV as a body, in accordance with Regulation 34, (1), (3) and (4) in Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, ('the UCITS Regulations'), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Manager and the ICAV in each annual accounting financial period and report thereon to the Shareholders.

Our report shall state whether, in our opinion, the ICAV has been managed in that financial year in accordance with the provisions of the ICAV's Instrument of Incorporation and the UCITS Regulations. It is the overall responsibility of the Manager and the ICAV to comply with these provisions. If the Manager or the ICAV has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depositary's Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the ICAV has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the ICAV's Instrument of Incorporation and the UCITS Regulations and (ii) otherwise in accordance with the ICAV's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the ICAV has been managed during the financial year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the ICAV by the Instrument of Incorporation, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015 ('the Central Bank UCITS Regulations'); and
- (ii) otherwise in accordance with the provisions of the Instrument of Incorporation, the UCITS Regulations and the Central Bank UCITS Regulations.

INVESTMENT MANAGER'S REPORT

For the financial year ended 31 December 2023

DWS Qi Global AC Equity Fund

Investment Manager's report for the financial year ended 31 December 2023

Fund Performance as at 31 December 2023

Net returns (% USD)	FY 2023 ³	Since inception ¹
DWS Qi Global AC Equity Fund	22.34	49.94
MSCI All Country World Net Index USD ²	22.20	47.64

Performance shown is on NAV to NAV basis

For the review period (Dec. 30, 2022-Dec. 29, 2023), the DWS Qi Global AC Equity Fund Class X shares returned +22.34% in absolute terms (NAV to NAV basis). (Source: State Street)

Equity Strategy

The fund aims to generate long-term capital appreciation for investors seeking exposure to global equities. To achieve a relative outperformance versus the MSCI All Country World Index, the fund uses a systematic multi-factor strategy and considers risk forecasts as well as transaction cost estimates.

Performance Review

The MSCI ACWI Index was up 22.20% in 2023 (EOD), led by the strong contribution from large caps, especially from the Magnificent Seven mega-cap stocks (Apple Inc., Microsoft Corp., NVIDIA Corp., Amazon.com Inc., Meta Platforms Inc., Tesla Inc. and Alphabet Inc.).

INVESTMENT MANAGER'S REPORT (continued)

For the financial year ended 31 December 2023

DWS Qi Global AC Equity Fund (continued)

Investment Manager's report for the financial year ended 31 December 2023 (continued)

Performance Review (continued)

After one of the worst years in the history of equity markets in 2022, the global market rallied in HY1 2023. The strong start to the year was driven by investors' increasing confidence on easing inflation and economic growth concerns and the prospect of increased consumer demand from the re-emergence of China after the lift of zero-COVID policies. The collapse of Silicon Valley Bank (SVB) followed by the fall and subsequent takeover of Credit Suisse by UBS in March raised investor concerns and resulted in a severe selloff of banks across the globes. However, as risk of a systemic event faded, investors' focus reverted to interest rates and central bank policy. After the mixed reporting season in April, global markets extended gains in May led by strong earnings from the Technology sector and investor exuberance surrounding AI which overshadowed concerns about a government default and ongoing interest rate hikes. Furthermore, positive sentiment was supported by decreasing inflation readings in June-July turning markets into risk-on mode and boosting performance of high risk/ high beta stocks. The FED paused after a long series of rate hikes.

After two strong quarters, the MSCI World Index was down in Q3 2023, as the persistence of recessionary fears alongside surging oil prices and elevated interest rates suppressed investor optimism. Concerns about slowing Chinese economic growth and a crisis in the domestic real-estate sector weighed down on equity performance in August. September was the worst month of the year as hawkish tones from FED representatives and another rate hike by the ECB fostered the impression that yields will stay higher for longer, leading to rising sovereign bond yields. 10y treasury yields reached levels from 2007 for the first time.

The fourth quarter was a turbulent ride on the equity markets. The attack by Hamas on Israel, mixed quarterly reporting results and cautious rhetoric from the central banks coincided with bond and share prices sliding in October. Then, the strong year-end rally began end of that month, following statements from Fed members that suggested that not only the end of the interest rate hike cycle had been reached, but that interest rate cuts for 2024 were already part of the FOMC discussions. Driven by these fresh hopes on rate cuts, global equity markets showed higher risk appetite with underperformance of defensive low-risk stocks and shift to better performance in smaller names, higher beta and higher volatility, and less profitable companies. Also, rate-sensitive sectors such as real estate and in cyclicals such as industrials and materials experienced strong gains in December.

From the regional perspective, the Developed Markets (MSCI World) returned 23.83% (EOD) and outperformed Emerging Markets (9.89%), which were weighed down by China's -11.2% return (as measured by MSCI China Index). Large caps outperformed small and mid caps, and U.S. equities outperformed European equities, with +26.5% and +20.00%, respectively.

Through the factor lens, growth and quality stocks gained the most in 2023 picking up on the Technology/AI theme out of the US market and outperforming value stocks. Only in Q3, MSCI Growth factor experienced a strong setback, as rising sovereign bond yields were particularly negative for rate-sensitive growth stocks. On the contrary, Value style outperformance in Q3 was mainly driven by energy stocks profiting from higher oil prices and financial stocks benefiting from higher interest rates.

The DWS Qi Global AC Equity Fund gained 22.34% in USD (NAV based) while outperforming its respective benchmark (MSCI All Country World Net Index) by 0.14%. Consistently to the factor trends in 2023, the Earnings Growth factor group in DWS Qi multi-factor model contributed the most to the active strategy return, supported by the fundamental analyst momentum as captured by our Analyst Sentiment factor cluster. Additionally, the diversification in the factor exposure of the fund paid off in the course of the year, as Financial Strength exposure supported active return in the market sell off episodes in March and in August-October. Also, Value characteristics of the portfolio delivered positive return contribution in the rising yield environment in Q3 2023.

Regionally, positive active attribution results came from Developed Markets stocks while Emerging Markets block remained behind its benchmark. The fund exhibited controlled moderate sector exposure, thus, no strong allocation effects determine the total active return. In terms of the sectoral breakdown, security selection worked well in Industrials, Materials and Health Care whereas it was the most challenging in Information Technology and Consumer Discretionary.

Performance shown is on NAV to NAV basis

¹On 28 May 2021 the fund was merged from DWS Noor Islamic Funds plc into DWS Invest (IE) ICAV. Investment objective and policy did not change and the historical performance of Class A since its inception on 14 Feb 2007 has been transferred to Class USD LC.

²The S&P BMI Gold and Precious Metals Index (Total Return) is not a Sharia-compliant index. The fund has no official performance benchmark.

For the review period (30 December 2022 to 29 December 2023), the DWS Noor Precious Metals Securities Fund Class LC shares returned -1.61% in absolute terms (NAV to NAV basis). (Source: Bloomberg. The fund has no reference index.)

Market Review

To start the year, gold prices continued the trend from the end of the prior year, climbing higher in January to end the month at \$1,928/oz, the highest price since April of 2022. Gold prices continued their resiliency and maintained their premium versus real rates despite ongoing hawkish comments from the U.S. Federal Reserve (Fed), the European Central Bank, and the Bank of England. Gold also benefited from a strong pickup in investor demand, especially from certain global central banks (i.e. China, Russia). On the other hand, silver, platinum, and palladium all ended January lower. Palladium continued to be pressured by concerns over sustained weak automobile demand.

DWS Noor Precious Metals Securities Fund (continued)

Investment Manager's report for the financial year ended 31 December 2023 (continued)

Market Review (continued)

In February, gold prices declined, reversing most of January's gains, and ended the month at \$1,827/oz, but did manage to hold above the psychologically important \$1,800/oz level. Ongoing hawkish comments from the U.S. Federal Reserve (Fed) and the European Central Bank (ECB) reset interest rate expectations, which saw the U.S. dollar grow stronger. Real rates in the U.S. also reversed their January trend and climbed for most of February, placing additional pressure on gold, as did subdued equity market volatility and the absence of any geopolitical shock events. Other precious metals performed even worse in February. Silver ended the month only slightly behind gold, while the Platinum Group Metals (PGMs), including platinum and palladium, saw steeper declines. Palladium corrected sharply and continued to face headwinds in demand as higher rates in the U.S. and Europe continued to dampen auto demand.

In March, gold reversed its February decline and climbed sharply higher. Gold was helped by the short-lived banking crisis in the U.S., which led to expectations for lower interest rates and a weakening of the U.S. dollar. This led to gold resuming its upward trend, which began in November of last year, and after February's breather, ended the month higher around \$1,969/oz, after briefly eclipsing the \$2,000 level during March. Other precious metals also performed well in March. Silver, with its industrial uses, saw strong demand from India and China and was the best performing precious metal during March. The PGMs, including platinum and palladium, also saw positive price movements in March, but not to the same degree as gold and silver. Ongoing power disruptions in South Africa forced PGM producers to reduce their output. While the lower production was a negative for the equity performance of the miners and smelters in the region, it continued to support the prices of platinum and palladium.

Precious metals were all sharply lower in April, with nearly all members of the complex down for the month. Gold and silver prices suffered following increasingly hawkish commentary from Fed speakers leading up to the FOMC meeting on May 4th. However, despite the negative return for gold, investment demand has remained strong, with ETF holdings of gold continuing to rise. Palladium was the exception, ending the month modestly higher. Of note, palladium prices corrected heavily following a quarterly production report from Norilsk Nickel, which stated that exports were continuing and they expected to achieve full-year guidance issued before the invasion of Ukraine.

Gold prices climbed for the first few days of May, briefly cresting \$2,050/oz before pulling back for the balance of the month to end at a lower level, with front-month gold futures contracts ending around \$1,960/oz. Gold has continued to experience a strong pickup in investor demand, especially from certain global central banks, and while holdings by ETFs have picked up for the past three months, ETF holdings of gold remained well below year ago levels. Even as inflation indicators continued to fall during May, expectations for the terminal Fed Funds target rate rose as did most U.S. Treasury yields, with the front-end portion of the curve making the largest steps higher. Correspondingly, the U.S. dollar rose for most of the month, which weighed on the price of gold. Other precious metals performed worse than gold during May. Palladium saw the steepest decline during May, while platinum and silver also made moves materially lower. Auto demand continues to remain tepid, limiting the demand outlook for the PGMs. Silver also declined in May as manufacturing activity in China remained at a subdued level.

In June, all precious metals declined. Gold prices appeared rangebound for the first half of June before descending in the back half of the month to end at a lower level, ending the month around \$1,920/oz. ETF holdings of gold reversed course and fell during June, though purchases by certain central banks remain robust. Even as inflation indicators continued to fall during June, expectations for the terminal Fed Funds target rate rose higher still. Other precious metals performed worse than gold in June. Palladium fell the most during June, while platinum and silver also made moves lower. Growth in automobile manufacturing remains stalled and continues to weigh on the PGMs. Silver also failed to catch a bid as new indicators continue to show a slump in Chinese industrial and manufacturing activity.

INVESTMENT MANAGER'S REPORT (continued)

For the financial year ended 31 December 2023

DWS Noor Precious Metals Securities Fund (continued)

Investment Manager's report for the financial year ended 31 December 2023 (continued)

Market Review (continued)

The Fed resumed rate hikes in late July, bringing the target rate to its highest level since 2001. Despite Powell's hawkish stance, room for flexibility was acknowledged, and the futures market predicted minimal further hikes with cutting potential in 2024. US inflation data showed a continued decline, with CPI and PPI both coming in lower than expected. Gold miners faced ongoing cost pressures, particularly in labor, though some easing in fuel and other commodity costs was observed. Production volumes declined for many producers, with a shift towards growth projects due to high prices. Free cash flows were down, but differentiation opportunities arose for miners who invested in operational resilience and cost control. M&A activity increased, reflecting a search for production growth by acquiring companies.

In August, gold prices dipped significantly before regaining some ground to finish the month near \$1,940/oz. ETF holdings plunged to their lowest since early 2020, while central banks, particularly China's PBOC, continued their strong buying. Inflation ticked up slightly, driven by energy prices, but core inflation remained on a downward trend. The Fed signaled a potential pause in rate hikes, with only one more likely before year-end. The dollar strengthened but eased by month's end. Among other precious metals, platinum thrived on supply disruptions and healthy demand, while palladium suffered from weak auto demand and potential U.S. strikes. Silver held steady, supported by industrial uses and future solar energy demand.

In September, gold plunged sharply after an initial dip and recovery, ending the month at \$1,850/oz, the lowest since March 2023. ETF holdings tumbled to their lowest level since early 2020, despite robust buying from China and other emerging market central banks. Inflation data was mixed, with headline numbers rising due to energy prices but with core CPI leveling off or declining. The Fed remained hawkish, with Powell emphasizing "higher for longer" rates. U.S. dollar strength pressured gold, though it eased slightly at month's end. Other precious metals declined, with silver falling the most and palladium the only gainer. The UAW strike briefly impacted PGMs but quickly faded as supply deficit concerns returned. Despite hawkish rhetoric, the August PCE Core Deflator showed inflation easing, further fueling our expectation of an imminent end to the U.S. tightening cycle and potential dollar weakness, ultimately benefiting gold prices.

Gold prices rebounded sharply in October, spurred by the outbreak of conflict in Israel, and ended the month near \$1,980/oz, the highest since May. Despite continued ETF outflows, China's aggressive gold buying persisted, with estimated reserves increasing by nearly 4% in Q3. Inflation data remained mixed, with core figures stabilizing while headline prints rose due to energy costs. Fed rate hike expectations eased significantly, with November odds dropping below 20% by month's end. The dollar remained somewhat range-bound, offering less resistance to gold's climb. Other precious metals followed suit, with silver and platinum gaining alongside gold. Palladium, however, suffered due to weak auto demand and increasing platinum substitution in catalytic converters. South African power disruptions and potential escalation in Ukraine continued to threaten PGM supply.

Gold prices soared in November, reaching \$2,036/oz by month's end, the highest since May. Despite continued ETF outflows, strong central bank buying, primarily from China, Poland, and Singapore, boosted global reserves by 800 tons in the first nine months. Inflation data surprised to the downside, leading to expectations of the Fed ending its rate hiking cycle, effectively confirmed by their November meeting and declining Treasury yields. The dollar weakened, further aiding gold's climb.

INVESTMENT MANAGER'S REPORT (continued)

For the financial year ended 31 December 2023

DWS Noor Precious Metals Securities Fund (continued)

Investment Manager's report for the financial year ended 31 December 2023 (continued)

Market Review (continued)

In December, gold continued its ascent, climbing to an all-time high daily close of \$2,103/oz towards the end of the month. This was the third consecutive month of upward momentum, propelled by a confluence of favorable factors. However, compared to November's heady gains, the pace of gold's rally moderated in December, hinting at potential profit-taking or a cautious stance ahead of the new year. Silver, typically more volatile than gold, fared worse. Despite sharing much of the same supportive environment as gold, silver dipped 5.84% in December, as some investors might have chosen to lock in profits, leading to temporary selling pressure. Additionally, with industrial activity expected to remain muted, a potential slowdown disproportionately impacted silver compared to gold's pure haven status. Meanwhile, platinum and palladium, often used in auto catalysts, enjoyed positive returns of 6.71% and 8.99%, respectively. Platinum's rally can be attributed to a couple reasons, including rising in tandem with gold prices, a weaker dollar, positive news in the auto industry, and concerns about potential supply disruptions in South Africa due to increased levels of loadshedding. Palladium's short-lived 30% rally was driven by the same factors but also by the UK's decision to impose new sanctions on Russian metals, though this price rally faded later in the month.

Overall, for the year, the precious metals complex was mixed at the individual metal level. Gold rose, silver was essentially flat, platinum declined, and palladium dropped precipitously. From here, we expect continued volatility across the space in the near-term as the market gauges when the current tightening cycle will turn to one of easing, coupled with elevated geopolitical risk from the ongoing war in Ukraine and escalating conflicts in the Middle East, along with the potential for additional stimulus from the Chinese government to reinvigorate economic growth, which has been lackluster following the reopening of their country post-COVID lockdowns.

Performance Summary

During the year, the fund lost -1.61% in USD.

The top 3 individual contributors to the fund were Gold Fields Limited, Agnico Eagle Mines Limited, and Wheaton Precious Metals Corp.

The top 3 detractors were Impala Platinum Holdings Limited, Franco-Nevada Corporation, and Sibanye Stillwater Limited.

Market Commentary

Fixed Income

United States

In the Q1, The US Federal Reserve (Fed) raised the policy rate by 25 basis points in both February and March (despite collapse of Silicon Valley Bank in March). Followed by Q2, The US 10-year yield climbed back from 3.47% to 3.81%, with the two-year going from 4.03% to 4.87%. The US investment grade posted negative total returns, but outperformed Treasuries over the quarter. Overall US high yield posted positive returns. In Q3, the US global government bond yields peaked in September before slightly retreating at the quarter's end. The US 10-year yield rose from 3.81% to 4.57%, and the two-year yield increased from 4.87% to 5.05%. Finally, Q4, Fed kept rates unchanged, with a much clearer shift to a more dovish tone in December accelerating the market rally. The data reinforced market expectations that the Fed has finished its rate hiking cycle and will move towards cuts in 2024. The US 2-Year and 10-Year US Treasury yields ended lower at 4.25% and 3.86%, respectively, experiencing their lowest close in over four months of 2023.

Eurozone

In the Q1, The European Central Bank (ECB) raised interest rates by 50 basis points in both February and March (despite two consecutive financial turbulences of Silicon Valley bank in the US followed my Credit Suisse which was acquired by UBS in the Europe). Eurozone inflation declined to a one-year low in March however core inflation (excluding food and energy costs) rose to 5.7% from 5.6%. During Q2, ECB raised interest rates twice, taking the main refinancing rate to 4.0%. Headline inflation declined with annual inflation estimated at 5.5% in June, down from 6.1% in May. Germany's 10-year yield increased from 2.31% to 2.39%. Euro high yield outperformed investment grade over this period. However, Eurozone shares fell in in Q3 amid worries over the negative effects of interest rate rises on economic growth, but eurozone inflation slowed to a two-year low of 4.3% in the year to September, down from 5.2% in August and ECB raised interest rates twice in that quarter. Germany's 10-year yield increased from 2.39% to 2.84%. The final quarter (Q4) was a strong one for eurozone shares, Euro area annual inflation fell to 2.4% in November from 2.9% in October. The German 10-year Bund yield ended the quarter 0.81% lower at 2.03%. In all, the interest rate moved from 2.5% beginning of the year to 4.5% by the ending of '23.

United Kingdom

In the Q1, The Bank of England (BoE) approved two rate hikes of 50bps and 25bps which moved the UK 10-year yield moved up from 3.65% to 4.44%. During Q2, market underperformed as the BOE raised rates twice – in May and June. The 0.5 percentage points (pp) increase in June represented a reacceleration in rate hikes after an initial decision to slow the pace in March to 0.25 pp increments. The UK 10-year yield jumped from 3.49% to 4.39% and two-year made even more gains by increasing from 3.44% to 5.26%. On the credit front, UK high yield outperformed UK investment grade. In Q3, BOE raised the base rate to 5.25% in August, signs of slowing inflation allowed the central bank to keep rates unchanged in September. The 10-year gilt remained relatively unchanged over the quarter. Lastly in Q4, the Bank of England's Monetary Policy Committee was divided on further tightening. The UK 10-year gilt yield fell from 4.44% to 3.54%. The year ended with 5.25% interest rate which remained unchanged during December BOE meeting.

Japan

In the Q1, Bank of Japan (BoJ) governor left policy unchanged at the January policy meeting leading to policy stance of new governor Mr. Kazuo Ueda, who was scheduled to replace Mr. Kuroda in April. During Q2, BoJ held the first policy meeting under new governor Kazuo Ueda in April and second in June. There was no change to policy, which suggested their dovish stance continued. Since the US Fed continued to raise interest rates, the yen weakness also accelerated. Q3, in late July, the BOJ made policy adjustments that endorsed a gradual increase in Japanese government bond (JGB) yields, inflation remained solid, and the yen continued weakening. The BOJ made gradual steps to normalize its extraordinary monetary easing policy at October end meeting (Q4) and continued to hint that they are likely to take further actions early 2024.

Global Bonds

The first quarter of 2023 began with positive sentiment on the growth outlook as energy costs fell and China's economy reopened. But there was also evidence that the encouraging inflation picture was starting to reverse as core inflation measures ticked higher. However, the collapse of Silicon Valley Bank in mid-March dwarfed concerns over reaccelerating inflation and prompted a sharp rally in government bond markets. As markets reacted to fears of a banking crisis, government bond markets went from pricing in rate hikes to discounting sizeable rate cuts in some markets. Core CPI delivered upside surprises to inflation in both the US and Europe. Central banks continued with their interest rate hikes, though some adjusted their stance. The Bank of Canada enacted a rate hike of 25bps but signaled a pause immediately upon doing so, while the Bank of Japan (BoJ) made no further adjustments to its yield curve control policy, despite core inflation rising. Convertibles protected well from losses in February and again during the days when liquidity in the financial sector dried up. However, the asset class only participated in 40% of the equity upside.

The second quarter of 2023 saw a significant drop in market volatility. Government bond yields were on the rise again, although there was some divergence, with the UK and Australia underperforming due to higher-than-expected inflation and a greater resolve by central banks to combat inflation. All major central banks kept raising interest rates over the quarter. However, the Fed was the first to pause in June, leaving rates at 5% to 5.25% after more than a year of consecutive rate increases. Global high yield outperformed global investment grade as immediate recessionary concerns were pared back. Convertibles benefited from the tailwinds provided by strong performance from "big tech" stocks which were boosted by the Al narrative. The primary market was very active with US\$22 billion of new convertibles reaching the market.

During Q3 the US economy continued to surprise in its resilience, although concerns over rising US debt issuance weighed on the Treasury market. August saw Fitch Ratings downgrade the US's triple-A rating drop to double-A plus, citing the growing debt burden and an "erosion of governance" as reasons for its decision. Despite a significant rise in oil prices, there were better news on the inflation front, with year-on-year core measures easing across most economies. Both the US Federal Reserve (Fed) and the European Central Bank (ECB) raised rates This allowed many major central banks to indicate a pause in further rate hikes. Corporate bond markets outperformed government bonds, with spreads narrowing across both investment grade (IG) and high yield (HY). Despite a weaker growth trajectory, European credit outperformed the US. Euro IG saw the slowest quarter for net issuance in a decade. The primary market continued to be very strong with US\$22 billion of new convertibles that quarter.

The final quarter of the year was a very positive one for fixed income markets, marking their best quarterly performance in over two decades, according to the Bloomberg Global Aggregate indices. The major driver of this performance was a perceived shift in monetary policy direction, from a "higher-for-longer" stance to prospective rate cuts. Government bond yields fell sharply, and credit markets rallied, outperforming government bonds. Federal Open Market Committee (FOMC) projections for the federal funds rate - indicated that three rate cuts were anticipated for 2024, up from the previously expected two. With more encouraging news on PCE inflation (the Fed's most watched measure), the FOMC appears more comfortable with the progress made in bringing inflation back towards the target.

Despite a slowing growth outlook, the corporate bond market staged an impressive rally on hopes that a deep recession could be averted as financial conditions eased. High yield markets outperformed investment grade in both the US and Europe, with a tightening of spreads also marking significant outperformance over government bonds. Meanwhile, quarterly returns in US and European investment grade credit markets have not been better since Q3 2009. The rally was broad-based across all sectors, with securitized credit, covered bonds, and quasi-government bonds all performing strongly over the quarter. Convertibles delivered strong upside participation in market gains in December.

Independent Auditor's Report to the Shareholders of DWS Invest (IE) ICAV Report on the audit of the financial statements

Opinion

We have audited the financial statements of DWS Invest (IE) ICAV ('the ICAV') for the year ended December 31, 2023 set out on pages 24 to 65, which comprise the Statement of Comprehensive Income, the Statement of Financial Position, the Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders, the Statement of Cash Flows and related notes, including the material accounting policies set out in note 2.

The financial reporting framework that has been applied in their preparation is Irish Law and International Financial Reporting Standards (IFRS) as adopted by the European Union.

In our opinion:

- the financial statements give a true and fair view of the assets, liabilities and financial position of the ICAV as at December 31, 2023 and of its increase in net assets attributable to holders of redeemable participating shares for the year then ended;
- the financial statements have been properly prepared in accordance with IFRS as adopted by the European Union; and
- the financial statements have been properly prepared in accordance with the requirements of the Irish Collective Asset-management Vehicles Acts 2015 to 2021 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the ICAV in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the ICAV's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Independent Auditor's Report to the Shareholders of DWS Invest (IE) ICAV (continued)

Other information

The directors are responsible for the other information presented in the Annual Report together with the financial statements. The other information comprises the information included in the General Information, Directors' Report, Depositary's Report, Investment Manager's Report, Portfolio of Investments (unaudited), Schedule of Portfolio Changes (unaudited), Other Information (unaudited) and Appendices (unaudited). The financial statements and our auditor's report thereon do not comprise part of the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work undertaken during the course of the audit, we have not identified material misstatements in the other information.

Opinion on other matter prescribed by the Irish Collective Asset-management Vehicles Acts 2015 to 2021

In our opinion, the information given in the Directors' Report is consistent with the financial statements.

Matters on which we are required to report by exception

The Irish Collective Asset-management Vehicles Acts 2015 to 2021 requires us to report to you, if in our opinion, the disclosures of Directors' remuneration specified by law are not made. We have nothing to report in this regard.

Respective responsibilities and restrictions on use

Responsibilities of directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 6, the directors are responsible for: the preparation of the financial statements including being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the ICAV's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the ICAV or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A fuller description of our responsibilities is provided on IAASA's website at https://iaasa.ie/publications/description-of-the-auditors-responsibilities-for-the-audit-of-the-financial-statements/.

Independent Auditor's Report to the Shareholders of DWS Invest (IE) ICAV (continued)

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the shareholders of the ICAV, as a body, in accordance with the Section 120 of the Irish Collective Asset-management Vehicles Act 2015. Our audit work has been undertaken so that we might state to the ICAVs shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the ICAV and the ICAV's shareholders, as a body, for our audit work, for this report, or for the opinions we have formed.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

1. General Information about the ICAV

DWS Invest (IE) ICAV (the "ICAV") is an Irish collective asset-management vehicle constituted as an umbrella fund with segregated liability between Funds with registration number C194848. The ICAV was incorporated under an Instrument of Incorporation, pursuant to the Irish Collective Asset management Vehicles Acts 2015 to 2021 (together, the "Acts"), and was registered with the Central Bank of Ireland (the "Central Bank") on 12 July 2019. The ICAV has been authorised by the Central Bank as an undertaking for collective investment in transferable securities ("UCITS") pursuant to the provisions of the European Communities (undertakings for collective investment in transferable securities) Regulations, 2011 (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (section 48(1)) (undertakings for collective investment in transferable securities) Regulations 2019 (together the "Central Bank UCITS Regulations").

As at 31 December 2023, the ICAV has established eight sub-funds namely DWS Qi Global AC Equity Fund, which launched on 23 October 2019, DWS Noor Precious Metals Securities Fund, which launched as a result of a merger on 28 May 2021, Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund, which launched on 1 March 2023, (together the "Funds" and individually "sub-fund" or "Fund"), Xtrackers MSCI World UCITS Fund, Xtrackers MSCI China A UCITS Fund, Xtrackers MSCI ACWI UCITS Fund, Xtrackers MSCI USA UCITS Fund and Xtrackers S&P 500 UCITS Fund, which are approved but not launched as at 31 December 2023 and as such no information for these Funds has been presented in the financial statements.

The investment objective of the DWS Qi Global AC Equity Fund is to achieve long-term capital appreciation in excess of the MSCI ACWI Index (the "Benchmark"). In order to achieve the investment objective, the Fund will primarily invest in equities of large and mid-cap companies which are either listed and/or domiciled in, or have meaningful economic exposure to both developed markets and emerging markets.

The investment objective of the DWS Noor Precious Metals Securities Fund is to achieve capital appreciation in the medium to long term by investing in a portfolio of Sharia compliant equity and equity-related securities of companies engaged in activities (exploration, mining and processing) related to gold, silver, platinum or other precious metals or minerals.

The investment objective of the Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund is to track the performance before fees and expenses of an index that provides exposure to the global investment grade fixed-rate debt markets, denominated in Euro and US Dollars across developed market countries.

2. Material Accounting policies

The principal accounting policies and estimation techniques applied in the preparation of these financial statements are set out below. These accounting policies have been applied consistently throughout the periods presented in these financial statements. Please refer to the general information section of the financial statements for details of how the ICAV is structured.

a) Basis of preparation

The financial statements have been prepared on a going concern basis for the financial year ended 31 December 2023.

The annual financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union, Irish statute comprising the ICAV Acts and the Central Bank UCITS Regulations.

The financial statements are prepared under the historical cost convention except for those financial assets which have been measured at fair value through profit or loss.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2023

2. Material Accounting policies (continued)

a) Basis of preparation (continued)

Significant accounting estimates and judgements

The preparation of financial statements in conformity with IFRS as adopted by the European Union requires the Directors to make certain accounting estimates and assumptions. Actual results may differ from these estimates and assumptions. The Directors believe that any estimates used in preparing the financial statements are reasonable and prudent. The areas of the ICAV's business that typically require such estimates are the determination of the fair value of financial assets and liabilities.

New standards, amendments and interpretations issued and effective for the financial year beginning 1 January 2023

The following new and amended standards and interpretations did not to have a significant impact on the ICAV's financial statements:

- IFRS 17: Insurance Contracts.
- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2).
- Definition of Accounting Estimates (Amendments to IAS 8).
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12).

There are no new standards, amendments or interpretations issued and effective for the financial year beginning 1 January 2023 that have a significant impact on the ICAV's financial position, performance or disclosures in its financial statements.

New standards, amendments and interpretations issued but not effective for the financial year beginning 1 January 2023 and not early adopted

The following new and amended standards and interpretations are not expected to have a significant impact on the ICAV's financial statements:

- Classification of Liabilities as Current or Non-Current (Amendments to IAS 1).
- Lease Liability in a Sale and Leaseback (Amendments to IFRS 16).
- Disclosure of Supplier Finance Arrangements (Amendments to IAS 7 and IFRS 7).
- IFRS S1 General Requirements for Disclosure of Sustainability-related Financial Information.
- Lack of Exchangeability (Amendments to IAS 21).

There are no other standards, amendments or interpretations to existing standards that are not yet effective that would be expected to have a significant impact on the ICAV.

b) Functional and presentational currency

The functional currency of the ICAV and each Fund is the currency of the primary economic environment in which the ICAV and each fund operates. If indicatiors of the primary economic environment are mixed, then management uses its judgement to determine the functional currency that most faithfully represents the economic effect of the underlying transactions, events and conditions. The Directors have determined the functional and presentation currency of the ICAV is U.S. Dollars (USD). The Directors have determined the functional currency of DWS Qi Global AC Equity Fund and DWS Noor Precious Metals Securities Fund is USD and the assets and liabilities of both funds are denominated in USD. The functional currency of Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund is determined as Norwegian Krone ("NOK") and the assets and liabilities of this fund are denominated in NOK, as this currency represents the functional currency of this Fund and as for the purpose of foreign exchange rate determination this Fund is considered to be foreign operations of the ICAV. The Directors have adopted the functional currency of the ICAV and each fund as its presentation currency.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2023

2. Material Accounting policies (continued)

b) Functional and presentational currency (continued)

Foreign currency transactions and conversion

Transactions in foreign currencies are translated into the functional currency at the exchange rate at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated into the functional currency of the Funds at the exchange rate at that date.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated into the functional currency of the Funds at the exchange rate at the date on which fair value was determined.

Any foreign currency differences arising on retranslation are recognised in the Statement of Comprehensive Income within net realised gains/(losses) on financial assets and liabilities at fair value through profit or loss.

Combined totals shown in the financial statements

The financial statements of the ICAV are measured in the currency of the primary economic operating environment in which the ICAV operates. The ICAV has adopted USD as the presentation currency of the combined totals shown in the financial statements.

For the purposes of producing the combined totals in the Statement of Financial Position, the Statement of Financial Position of each of the individual Funds are translated to USD using the exchange rates as at 31 December 2023.

For the purpose of producing the combined totals in the Statement of Comprehensive Income as well as proceeds from the subscription and redemption of shares in the Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders from the accounts of the individual Funds, average exchange rates are used. A translation adjustment arises in the combined totals due to this methodology. This adjustment does not have any impact on the Net Asset Value ("NAV") of any individual Fund. For the financial year ended 31 December 2023, this adjustment amounted to USD 11,528,843 (31 December 2022: USD Nil) and is presented in Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders.

For the purpose of producing the combined totals in the Statement of Cash Flows, the opening exchange rate is used to convert the Statement of Financial Position balances at 31 December 2022, the average exchange rate is used to convert the Statement of Comprehensive Income amounts for the financial year ended 31 December 2023 and the closing exchange rate is used to convert the Statement of Financial Position balances at 31 December 2023. A translation adjustment may arise in the combined totals due to this methodology. This adjustment does not have any impact on the cash flows of any individual Fund. For the financial year ended 31 December 2023, this adjustment amounted to USD 30,440 (31 December 2022: USD Nil).

c) Financial instruments

Classification of financial assets and financial liabilities

IFRS 9 contains three principle classification categories for financial instruments: measured at amortised cost, fair value through other comprehensive income ("FVOCI") and fair value through profit or loss ("FVTPL"). The classification (and subsequent measurement) of financial instrument is based on the business model in which the financial instrument is managed, and where relevant, its cash flow characteristics.

The Funds have classified their financial assets and financial liabilities into the following categories:

- Financial assets at FVTPL investments in transferable securities, financial derivative instruments ("FDIs").
- Financial assets at amortised cost cash and cash equivalents, cash due from broker, dividends receivable, subscriptions receivable.
- Financial liabilities at FVTPL investments in financial derivative instruments ("FDIs").
- Financial liabilities at amortised cost accrued expenses and payable for fund shares redeemed.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2023

2. Material Accounting policies (continued)

c) Financial instruments (continued)

Recognition and derecognition

Recognition and initial measurement

Purchases and sales of investments are recognised as of the day the transaction takes place (trade date), the date on which the Fund commits to purchase or sell the asset. Other financial assets and liabilities are recognised on the date on which they originated. Investments are initially recognised at fair value, and costs for all financial assets and financial liabilities carried at FVTPL are expensed as incurred. A financial asset or financial liability is measured initially at fair value plus, for an item not at fair value, transaction costs that are directly attributable to its acquisition or issue.

De-recognition

Investments are de-recognised when the rights to receive cash flows from the investments have expired or the relevant Fund has transferred substantially all risks and rewards of ownership. On derecognition of a financial asset, the difference between the carrying amount of the asset and consideration received is recognised in the Statement of Comprehensive Income. Financial liabilities are derecognised when the contractual obligations are discharged, cancelled or expired.

Subsequent measurement

Subsequent to initial recognition, all instruments classified at fair value through profit or loss were measured at fair value with changes in their fair value recognised in the Statement of Comprehensive Income. Assets and liabilities not carried at fair value were carried at amortised cost.

Amortised cost

Financial assets and financial liabilities other than those at FVTPL are held at amortised cost. These include cash and cash equivalents, cash due from/to broker and other assets and liabilities. The amortised cost of the financial asset or financial liability is the amount at which the financial asset or financial liability is measured at initial recognition, minus principal repayments, plus or minus the accumulative amortisation using the effective interest method of any difference between the initial amount recognised and the maturity amount, and for financial assets, adjusted for any loss allowance.

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the relevant Fund has access at that date. The fair value of a liability reflects its non-performance risk.

i) Equities and fixed income securities

When available, the Funds measure the fair value of an investment using the quoted price in an active market for that instrument. A market is regarded as 'active' if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The Funds measure instruments quoted in an active market at a last traded price, because this price provides a reasonable approximation of exit price. If there is no quoted price in an active market, then the Funds use valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2023

2. Material Accounting policies (continued)

c) Financial instruments (continued)

ii) Futures contracts

Futures contracts are commitments either to purchase or sell a designated financial instrument, currency, commodity or an index at a specified future date for a specified price and may be settled in cash or another financial asset. Futures are standardised exchange-traded contracts. Initial margin requirements for futures are met in cash or other instruments, and changes in the future contract values are settled daily. Futures contracts have little credit risk because the counterparties are futures exchanges. Daily fluctuations in the value of a futures contract are recorded for financial reporting purposes as unrealised gains or losses by the relevant Fund and are recorded as a realised gain or loss when the position is closed. For the purposes of calculating unrealised gains or losses on futures contracts, a settlement price at the valuation date on the regulated exchange is taken into account.

Forward foreign exchange contracts

Forward foreign exchange contracts are recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at their fair value. All forward foreign exchange contracts are carried as assets when their fair value is positive and as liabilities when their fair value is negative. Any change in fair values are recognised in the Statement of Comprehensive Income. The fair value of forward foreign exchange contracts that are not exchange traded is estimated at the amount that the Funds would receive or pay to terminate the contract at the financial year end date, taking into account current market conditions (volatility, appropriate yield curve) and the current creditworthiness of the counterparties. Specifically, the fair value of a forward foreign exchange contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates on the valuation date. The unrealised gain or loss on open forward foreign exchange contracts is calculated as the difference between the contract price and the forward price.

Impairment

The Funds recognise loss allowances for expected credit losses ("ECLs") on financial assets measured at amortised cost.

The Funds measure loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- · financial assets that are determined to have low credit risk at the reporting date; and
- other financial assets for which credit risk (i.e. the risk of default occurring over the expected life of the asset) has not increased significantly since initial recognition.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Funds consider reasonable and supportable information that is relevant and available without undue cost or effort.

d) Interest income and expense

Interest income and interest expense recognised in the Statement of Comprehensive Income are calculated using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating the interest income or interest expense over the relevant financial period.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2023

2. Material Accounting policies (continued)

e) Dividend income

Dividend income is recognised through profit and loss on an ex-dividend basis. Dividend income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income.

f) Expenses

All expenses are recognised in the Statement of Comprehensive Income on an accruals basis.

g) Net gains/(losses) on financial assets at fair value through profit or loss

Realised gains and losses on sale of investments are calculated based on the first-in first-out ("FIFO") method of the investment in local currency and are included within net gains/(losses) on financial assets at fair value through profit or loss in the Statement of Comprehensive Income.

Unrealised gains and losses on investments are the difference between the original cost of the investment and its value at the reporting year end and are included within net gains/(losses) on financial assets at fair value through profit or loss in the Statement of Comprehensive Income.

h) Cash and cash equivalents

Cash comprises current deposits held with the Depositary. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

i) Cash due from/to broker

Cash due from/to broker is margin cash and cash collateral which is held by or due to brokers for open futures contracts or derivatives and represents the exchange traded futures contracts' margin deposits held with brokers. This amount is the minimum deemed by the brokers and counterparties for collateral requirements and is as such restricted and is reported separately to the unrestricted cash on DWS Qi Global AC Equity Fund's Statements of Financial Position.

j) Transaction cost

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument.

Transaction costs on purchases and sales of equities are included in net gains/(losses) on financial assets at fair value through profit or loss in the Statement of Comprehensive Income. These costs include identifiable brokerage charges, commission, transaction related taxes and other market charges. Transaction cost, when incurred, are expensed immediately in the Statement of Comprehensive Income. Transaction costs are disclosed in Note 4.

k) Receivables and payables

Receivables for investments sold and payables for investments purchased awaiting settlement represent receivables and payables for securities sold and purchased. Receivables and payables for subscriptions and redemptions represent shares subscribed or redeemed that have been contracted for but not yet settled on the Statement of Financial Position. These amounts are recognised initially at fair value plus transaction costs, if applicable, and subsequently measured at amortised cost using the effective interest method. Other receivables are recognised initially at fair value and are subsequently measured at amortised cost.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2023

2. Material Accounting policies (continued)

I) Redeemable participating shares

In accordance with IAS 32 "Financial Instruments: Presentation" entities are required to classify puttable financial instruments, or components of instruments that impose on the entity an obligation to deliver to another party a pro rata share of the net assets of the entity only on liquidation, as liabilities, provided the financial instruments have particular features and meet specific conditions. All shares issued by the Funds in relation to the Funds meet the specific conditions to be classified as financial liabilities, the shares issued provide the shareholders with the right to require redemption for cash at the value proportionate to the investor's share in the relevant Fund's net assets at the redemption date. The Funds may satisfy the redemption request by a distribution of investments in-specie in certain instances.

In the event that a relevant Fund chooses to satisfy a redemption request by a distribution of investments of the relevant Fund in-specie, a shareholder will be allocated a portion of the relevant Fund's assets which have a net asset value ("NAV") equal to the NAV of the interest in the relevant Fund represented by the value of the shares being redeemed. Shareholders may then elect to receive such allocated assets. The risk of any decline in the value of an investment in a relevant Fund during the period between submission of a redemption notice and payment of redemption proceeds is borne by the investor.

m) Distributions

Dividends may be paid at the Directors' discretion. Details of the dividend policy can be found in the Prospectus of the ICAV and Supplements for the Funds. The Directors' of the ICAV do not currently intend to pay out dividends in respect of the Funds.

n) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the relevant Fund has a legally enforceable right to offset the amounts and intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously. For the financial year ended 31 December 2023, there were financial assets or liabilities subject to enforceable master netting arrangements or similar agreements which require disclosure (31 December 2022: Nil). See note 6 for more details.

o) Estimates policy

The preparation of financial statements in accordance with IFRS requires the Directors of the ICAV to make judgements, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, contingent assets or liabilities, income and expenses. The estimates and associated assumptions are based on various factors that are believed to be reasonable under the circumstances, the results of which forms the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources.

Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The key estimate made within these financial statements is the determination of fair value for the financial assets held at fair value through profit or loss. The information about assumptions used in determining fair values is included in Note 6.

Judgements

The determination of what constitutes an active market and what inputs are "observable" requires judgment by the Directors. Information about judgements made in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in Note 2b, determination of functional currency. Information regarding active markets is included in the fair value hierarchy disclosure in Note 6.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2023

3. Taxation

Under current law and practice, the ICAV qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a 'chargeable event'. A chargeable event includes any distribution payments to shareholders, any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year period beginning with the acquisition of such shares.

No Irish tax will arise on the ICAV in respect of chargeable events in respect of:

- a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the
 chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes
 Consolidation Act, 1997, as amended, are held by the ICAV, or the ICAV has been authorised by the Irish Revenue to
 make gross payments in the absence of appropriate declarations;
- certain exempted Irish tax resident shareholders who have provided the ICAV with the necessary signed statutory declarations; and
- certain transfer of shares between spouses or civil partners.

Dividends, interest and capital gains (if any) received on investments made by the ICAV may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the ICAV or its shareholders.

4. Fees

The Funds may apply particular arrangements as regards the allocation and payment of the fees and expenses relating to the relevant Fund, namely that a Fund may operate on the basis of either a:

- (i) Platform Fee arrangement or
- (ii) All-in Fee arrangement, (each as described below).

Where such an arrangement is contemplated this will be disclosed in the Supplement for the relevant Fund. If such a fee arrangement is not in place the details of the fees of the Manager, Administrator, Depositary, Investment Manager, Sub-Portfolio Manager and/or relevant Sub-Investment Manager (as applicable), will be set out in the Supplement.

Platform Fee

The ICAV may in respect of each Fund (as specified in the relevant Supplement) enter into an arrangement with a member of the DWS Group (the Platform Fee Arranger), where the Platform Fee Arranger will, in exchange for a Platform Fee (as defined in the relevant Supplement), pay the Platform Costs from time to time of the relevant Fund. For the avoidance of doubt, and as disclosed below, the Manager Fee is charged separately to and is not covered under the Platform Fee. Where applicable, the Platform Fee is calculated on the daily Net Asset Value per Fund or per Class of Shares or the Initial Issue Price (as will be indicated in the Supplement) and is accrued daily and payable monthly.

The Platform Costs are (i) fees and expenses payable to the Depositary and the Administrator and (ii) other Administrative Expenses (as more fully described in the section of the Prospectus entitled Fees and Expenses). The Platform Costs do not include the following fees, expenses and costs:

- (i) the Manager Fee;
- (ii) any taxes or fiscal charges which the Funds may be required to pay, if it should be payable, any value added tax or similar sales or services tax payable by the Funds (VAT) (all such taxes or fiscal charges), unless otherwise specified in the relevant Supplement;
- (iii) expenses arising out of any advertising or promotional activities in connection with the Funds; nor
- (iv) any costs and expenses incurred outside of the Funds' ordinary course of business such as legal fees incurred in prosecuting or defending, a claim or allegation, by or against, the Funds.

Currently only Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund operates a Platform Fee arrangement.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2023

4. Fees (continued)

Platform Fee (continued)

Share Class	Manager Fee	Platform Fee	Total Fee	Total expenses
Classification	(per annum)	(per annum)	(per annum)	(NOK)
				financial
				year ended
				31 December 2023
NOK ICH P Class	Up to 0.04%	Up to 0.11%	Up to 0.15%	(2,165,350)

All-in Fee

The ICAV may in respect of each Fund (as specified in the Supplement) charge an All-in Fee to cover the costs and expenses from time to time of the relevant Fund. Such All-in Fee shall be inclusive of and cover the following fees, expenses and costs:

- (i) the fees and expenses of the Depositary;
- (ii) the fees and expenses of the Administrator;
- (iii) the Manager Fee; and
- (iv) all the other charges and expenses which may be charged against the relevant Fund which are described above as Administrative Expenses.

The All-in Fee does not include any costs and expenses incurred outside of the Funds' ordinary course of business such as legal fees incurred in prosecuting or defending a claim or allegation, by or against, the Funds.

DWS Qi Global AC Equity Fund operates an All-in Fee arrangement with regards to its respective share classes as outlined in the Fund's Supplement and detailed below.

The total annual charges and expenses of the relevant Fund can differ for the various Classes. The total annual charges and expenses per annum of each of the Classes of the Fund are represented by the respective All-in Fee, outlined in the table below for the relevant Share Class Classification, and calculated per annum by reference to the NAV of the relevant Fund attributable to that class. The All-in Fee accrues daily and shall be paid monthly in arrears.

Share Class	All-in Fee	Total expenses	Total expenses
	(per annum)	(USD)	(USD)
		2023	2022
DWS Qi Global AC Equity Fund USD XC Class	0.275%	(451,717)	(505,302)
DWS Qi Global AC Equity Fund EUR TFC Class	0.750%	(112)	(108)

Manager Fee and Expenses

DWS Noor Precious Metals Securities Fund operates neither a Platform Fee arrangement nor an All-in Fee arrangement as detailed in the section of the Prospectus entitled Fee Structures. Instead the Fund operates with a Manager Fee paid to the Manager (the "Manager Fee") for the management of the Fund. In addition to the Manager Fee, fees and expenses of the Administrator and Depositary and other Administrative Expenses are payable by the DWS Noor Precious Metals Securities Fund as further described below.

The Manager receives a fee of 1.50% per annum of the Net Asset Value in respect of the Class USD LC and Class SGD LC Shares and 0.75% per annum of the Net Asset Value attributable to the Class USD IC Shares as specified in the table below. The Manager Fee will accrue daily and be payable quarterly in arrears. The Manager pays the fees of the Investment Manager and DWS Investment Management Americas Inc., the Sub-Investment Manager of the DWS Noor Precious Metals Securities Fund.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2023

4. Fees (continued)

Manager Fee and Expenses (continued)

Share Class	Manager Fixed Fee (per annum)	Total expenses including Manager Fee (USD) 2023	Total expenses including Manager Fee (USD) 2022
DWS Noor Precious Metals Securities Fund USD LC Class	1.50%	(170,136)	(202,895)
DWS Noor Precious Metals Securities Fund USD IC Class	0.75%	(381,632)	(511,470)
DWS Noor Precious Metals Securities Fund SGD LC Class	1.50%	(36,548)	(47,606)

The additional fees and charges payable by the DWS Noor Precious Metals Securities Fund are:

- (i) the fees and expenses of the Administrator and Depositary, will be an aggregate amount of up to 0.06% of the Net Asset Value of the Fund per annum (accruing daily and payable quarterly in arrears). Global custody and transaction charges shall be charged at normal commercial rates;
- (ii) the fees of the Sharia Advisor which will be USD 28,000 per annum (accruing daily and payable quarterly in arrears); and
- (iii) all the other charges and expenses which may be charged against the Fund are described under Administrative Expenses in the section of the Prospectus entitled Fees and Expenses.

The Manager, in its role as distributor of the Fund, and/or any sub-distributors are entitled to receive and retain for their own account the front-end load and may charge different rates ranging from 0% up to 5% for the Class USD LC and Class SGD LC shares. Some sub-distributors may charge other fees not listed in the Prospectus. Investors should check with the relevant sub-distributor for details as such fees may depend on the specific nature of the services provided by such sub-distributor.

Audit fees

Audit fees charged by the Auditor for services rendered during the financial year ended 31 December 2023 were EUR 43,000 (exclusive of VAT) (financial year ended 31 December 2022: EUR 31,000 (exclusive of VAT)) and were paid, inclusive of VAT, as part of administrative expenses mentioned above.

Establishment expenses

The cost of establishing the ICAV and the initial Fund (DWS Qi Global Equity AC Fund), obtaining authorisation of the ICAV and approval of the Fund from the Central Bank, filing fees, the preparation and printing of the Prospectus and other documentation not of a promotional nature, plus the fees of all professionals have been borne by and paid out of the All-in Fee of the initial Fund.

The cost of establishing the DWS Noor Precious Metals Securities Fund is borne by the Manager. The costs of establishing the Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund are borne by the Investment Manager.

Transaction cost

As disclosed in Note 1j, transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of the financial assets or financial liabilities. The total transaction costs incurred by DWS Qi Global AC Equity Fund for the financial year ended 31 December 2023 were USD 107,926 (financial year ended 31 December 2022: USD 77,637). The total transaction costs incurred by DWS Noor Precious Metals Securities Fund for the financial year ended 31 December 2023 were USD 76,174 (financial year ended 31 December 2022: USD 83,737). The total transaction costs incurred by Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund for the financial period ended 31 December 2023 were NOK 58,379.

.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2023

5. Share capital

Authorised

The share capital of the ICAV is 1,000,000,000,000 unclassified participating shares of no par value. The minimum issued share capital of the ICAV is 2 shares of no par value. The maximum share capital of the ICAV is 1,000,000,000,000 unclassified shares of no par value.

The unclassified shares are available for issue as Shares. There are no rights of pre-emption attaching to the Shares in the ICAV.

6. Financial instruments and associated risks

The Funds are exposed to a variety of financial risks in pursuing its stated investment objective and policy such as: credit risk, liquidity risk, leverage risk, stock connect risk, counterparty risk and market risk (which in turn includes currency risk, interest rate risk and price risk). The Funds take exposure to certain of these risks to generate investment returns on its portfolio, although these risks can also potentially result in a reduction in the Funds' net assets. The Investment Manager will use its best endeavours to minimise the potentially adverse effects of these risks on the Funds' performance where it can do so while still managing the investments of the Funds in a way that is consistent with the Funds' investment objective and policy.

a) Market risk

Market price risk is the risk that the fair value of a financial instrument or its future cash flows will fluctuate because of changes in market prices.

The Funds' financial assets at fair value through profit or loss consist of equities, investment funds and futures contracts. The values of these instruments are determined by market forces and accordingly there is a risk that market prices can change in a way that is adverse to the Funds' performance.

DWS Qi Global AC Equity Fund employed the risk management technique known as relative value-at-risk ("VaR") to assess the Fund's global exposure and to ensure that the Fund's use of derivative instruments is within the limits specified by the Central Bank. The relative VaR of the Fund shall not exceed twice the VaR of a reference portfolio that does not contain derivatives. Such reference portfolio is represented by the Benchmark. The relative VaR calculation is carried out daily using a one tailed 99% confidence level for a holding period of 10 business days and a historical observation period of 250 business days.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2023

6. Financial instruments and associated risks (continued)

a) Market risk (continued)

The below table details the approach for the DWS Qi Global AC Equity Fund, the minimum, maximum and average daily VaR utilisation (relative VAR) that occurred during financial year ending 31 December 2023 and 31 December 2022 expressed as a percentage of the VaR limit.

31 December 2023

31 December 2022

	0. 200000. 2020	0.1 2000001 2022
Lowest utilisation of the VaR limit	4.82%	5.79%
Highest utilisation of the VaR limit	9.97%	9.77%
Average utilisation of the VaR limit	7.74%	8.14%

Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund will employ the commitment approach to assess the Fund's global exposure and to ensure that the Fund's use of derivative instruments is within the limits specified by the Central Bank. Global exposure will be calculated daily. While the Fund may be leveraged through the use of the FDIs, any such leverage would not be expected to be in excess of 100% of the Fund's Net Asset Value.

DWS Noor Precious Metals Securities Fund does not currently intend to use financial derivative instruments.

(i) Foreign currency risk

Currency risk is defined as the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Funds are exposed to currency risk as monetary assets and liabilities of the Funds may be denominated in a currency other than the functional currency of the Funds. Currency risk on non-monetary assets i.e. equities, is included in market price risk. All share classes not denominated in USD are exposed to currency risk at the ICAV level. See note 5 for reference to value of non-USD share classes.

The fluctuations in the rate of exchange between the currency in which the asset or liability is denominated and the functional currency could result in an appreciation or depreciation in the fair value of that asset. In accordance with the Funds' policy, the Investment Manager monitors the Funds' currency exposure on a regular basis and the Investment Manager of DWS Qi Global AC Equity Fund and Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund may attempt to mitigate this risk by using financial derivative instruments.

DWS Qi Global AC Equity Fund and Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund may use financial derivative instruments on behalf of a specific Class in order to hedge some or all of the foreign exchange risk for such Class. The Fund that hedges foreign exchange risk for any Class may enter into forward currency contracts in order to hedge some or all of the foreign exchange risk for the relevant Class. To the extent that hedging is successful, the performance of the relevant Class is likely to move in line with the performance of the underlying assets.

The Investment Manager of DWS Noor Precious Metals Securities Fund monitors the Fund's currency exposure on an intraday basis. The Board of Directors monitor these exposures based on reporting from the Investment Manager and the Fund Administrator.

The use of hedged currency Classes may substantially limit holders of the relevant classes from benefiting if the currency of each of these Classes falls against the Functional Currency and/or the currency in which the assets of the Fund are denominated. The Funds had not engaged in any hedging as at 31 December 2023 (31 December 2022: Nil).

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The DWS Qi Global AC Equity Fund and DWS Noor Precious Metals Securities Fund hold equity investments which are non-interest bearing. Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund holds fixed interest securities that expose that Fund to fair value interest rate risk.

The Funds are subject to interest rate risk on the cash it holds, the value of which is as disclosed in the Statement of Financial Position. The Funds are not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates as any excess cash is invested at short term market interest rates.

DWS Qi Global AC Equity Fund also have indirect exposure to interest rate risk through their investments into futures contracts, whereby the value of the underlying asset may fluctuate as a result of a change in interest rates.

The Funds' interest rate risk is monitored on an ongoing basis by the Investment Manager.

The following table explains the monetary impact on the Net Assets of those Funds which hold interest bearing securities, assuming there is a 0.5% movement in interest rates as at 31 December 2023.

The Funds not mentioned below are mainly investing in non-interest bearing assets or its investments have a very short time to maturity. As a result, those Funds are not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates.

Total interest sensitivity gap	13,610,145	1,783,967,102	1,221,938,211		

(iii) Other price risk

Price risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar financial instruments traded in the market. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issue, recessions, or other events could have a significant impact on the relevant Fund and market prices of its investments.

The Funds are exposed to price risk arising from its investments in financial instruments. The exposures of the Funds to price risk are the fair value of the investments held.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2023

6. Financial instruments and associated risks (continued)

b) Liquidity risk

Investors often describe the speed and ease with which an asset can be sold and converted into cash as its liquidity. Most of the investments owned by the Funds can usually be sold promptly at a fair price and therefore can be described as relatively liquid but the Funds may also holds investments that may become illiquid, which means they can't be sold quickly or easily. Some investments are illiquid because of legal restrictions, the nature of the investment itself, settlement terms, or for other reasons. Sometimes, there may simply be a shortage of buyers. If the Funds have trouble selling an investment, it can lose value or incur extra costs. In addition, illiquid investments may be more difficult to value accurately and may experience larger price changes. This can cause greater fluctuations in the Funds' value. Certain securities may be difficult or impossible to sell at the time and the price that the seller would like. The seller may have to lower the price to effect a secondary market sale, sell other securities instead or forego an investment opportunity, any of which could have a negative effect on fund management or performance.

All liabilities of the Funds as at 31 December 2023 and 31 December 2022 including the net assets attributable to redeemable participating shareholders fall due within three months.

The Funds employ appropriate liquidity management procedures to enable it to monitor the liquidity risk of the Funds so as to ensure that the liquidity profile of investments of the Funds comply with the underlying obligations of the Funds taking into account the Funds' investment strategy, liquidity profile and the redemption policy. Tools and arrangements such as the ability to limit redemptions, apply redemption fees and temporary suspension of trading may be imposed with the approval of the Directors in order to manage the liquidity risk of the Funds and to ensure the fair treatment of shareholders. In addition, Shareholders have the ability to redeem their investments in the Funds in accordance with the redemption policies of the Funds as set out in the Prospectus.

The table below sets out the Funds gross-settled derivative financial instruments at 31 December 2023:

Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund

	Less than 1		Greater than	
	month	1-3 months	3 months	Total
Derivative financial assets and liabilities	NOK	NOK	NOK	NOK
Asset - Forward foreign exchange contracts Liability - Forward foreign exchange	3,066,690,677	-	-	3,066,690,677
contracts	(2,912,463,979)			(2,912,463,979)
	154,226,698			154,226,698

c) Leverage risk

Subject to any investment restrictions contained in the relevant Fund's Supplement to the Prospectus, the Funds may use a degree of leverage in making investments. The extent of such leverage is outlined in the relevant Fund's Supplement to the Prospectus.

The Funds may obtain leverage by, among other methods, purchasing or entering into derivative instruments that are inherently leveraged, such as options, futures, forward contracts and swaps.

The use of leverage increases risk and results in material interest expense. A Funds' use of leverage and derivative instruments results in certain additional risks. Leveraged investments, by their nature, increase the potential loss to investors resulting from any depreciation in the value of such investments.

Consequently, a relatively small price movement in the security underlying a leveraged instrument may result in substantial losses.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2023

6. Financial instruments and associated risks (continued)

c) Leverage risk (continued)

Furthermore, the use of leverage exposes the Funds to the risk of counterparties foreclosing on the collateral used to margin leveraged positions, resulting in materially increased losses on such positions. Access to leverage and financing could be impaired by many factors, including market forces or regulatory changes, and there can be no assurance that the Funds will be able to secure or maintain adequate leverage or financing.

Disclosed in the table below is the leverage employed during the financial year ended 31 December 2023 and 31 December 2022:

Fund 31 December 2023 31 December 2022

DWS Qi Global AC Equity Fund

5.95%

4.67%

DWS Noor Precious Metals Securities Fund does not currently leverage through the use of financial derivative instruments.

d) Credit risk

Credit risk is the risk that an issuer or counterparty may be unable to meet a commitment that it has entered into with the Funds. The Funds have exposure to counterparty risk on cash balances held with the Depositary. Investments in equity securities are not exposed to credit risk except for exposure to the Depository.

The ICAV's Depositary is State Street Custodial Services (Ireland) Limited. All of the assets and cash of the Funds, with the exception of margin cash, is held within the custodial network of the Depositary. Bankruptcy or insolvency of the Depositary or of its parent company, State Street Corporation, may cause the Funds' rights with respect to its equity securities and cash held by the Depositary to be delayed or limited. The long-term credit rating of State Street Corporation, the ultimate parent of the Depositary, as of 31 December 2023 rated based on S&P rating agency ratings was A (31 December 2022: A).

All securities and cash at bank balances are held by the Depositary through its affiliates in the State Street group, or through a sub-depositary within the State Street custodial network. Derivatives, cash deposited as margin or other similar investments/monies deposited by or entered into on behalf of the ICAV with a counterparty, options exchange, clearing broker or other parties are not held within the State Street custodial network. The Depositary is therefore not liable in any way for the default of any counterparty.

The Investment Manager may use forward currency contracts to hedge against foreign currency exposure. These have a similar credit or default risk to a regular currency spot transaction. Forward currency contracts are 'Over the Counter' traded and therefore have counterparty risk which arises from the potential failure of counterparties to meet their obligations under the contract or arrangement. Forward contracts also carry roll risk, which is the risk that when a forward contract expires, a new forward to replace the expired one cannot be put into place at the same cost or on the same hedge basis. This may occur due to changes in market liquidity or interest rates, resulting in a potential slippage or loss in the hedge position due to the contract expiration and roll. As at 31 December 2023 the Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund had entered into forward currency contracts. As at 31 December 2023 the DWS Qi Global AC Equity Fund and DWS Noor Precious Metals Securities Fund had not entered into any forward currency contracts (31 December 2022: Nil).

The Funds' credit risk is monitored on an ongoing basis by the Investment Manager.

The Investment Manager utilises well known rating agencies to determine credit quality of interest bearing securities.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2023

6. Financial instruments and associated risks (continued)

d) Credit risk (continued)

The following tables detail the credit rating profile of the debt instruments held by Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund as at 31 December 2023:

	Currency	Investment grade % of debt instruments	Non-investment grade % of debt instruments	Not rated % of debt instruments	Total % of debt instruments

		(2,212,989)	2,212,989	<u>-</u>	-

e) Counterparty risk

The Funds may have credit exposure to counterparties by virtue of investment positions in futures contracts held by the relevant Fund. To the extent that a counterparty defaults on its obligations and the Funds are delayed or prevented from exercising its rights with respect to the investments in its portfolio, it may experience a decline in the value of its position, lose income and incur costs associated with asserting its rights. The Investment Manager may engage in various portfolio strategies on behalf of the Funds through the use of futures contracts.

Due to the nature of futures contracts, cash to meet margin monies may be held by a broker and there can be no guarantee that such monies will be returned to the relevant Fund.

All cash balances are held by State Street Bank London which had a credit rating of AA- (31 December 2022: AA-) at the financial year ended 31 December 2023.

As at 31 December 2023 all margin cash is held with the broker Deutsche Bank AG which has a long-term credit rating of A (31 December 2022: A-) (based on S&P rating agency ratings).

As at 31 December 2023 all forward foreign currency exchange contracts are held with the broker Morgn Stanley which has a long-term credit rating of A+ (based on S&P rating agency ratings).

f) Stock Connect risk

DWS Qi Global AC Equity Fund and DWS Noor Precious Metals Securities may invest in China A Shares. Under Stock Connect, overseas investors may be allowed, subject to the requirements of the Chinese Central Bank and any rules and regulations issued/amended from time to time, to seek exposure to stocks issued by companies listed on exchanges in the People's Republic of China ("PRC") by directly trading certain eligible A-shares through the so-called Northbound Trading Links. Stock Connect comprises two Northbound Trading Links (for investment in A-shares), one between the Shanghai Stock Exchange ("SSE") and The Stock Exchange of Hong Kong Limited ("SEHK"), and the other between the Shenzhen Stock Exchange ("SZSE") and SEHK (the Northbound Trading Links).

The Shanghai-Hong Kong Stock Connect is a securities trading and clearing links program developed by Hong Kong Exchanges and Clearing Limited ("HKEx"), China Securities Depository and Clearing Corporation Limited ("ChinaClear") and SSE, with an aim to achieve mutual stock market access between Shanghai and Hong Kong. Similarly, the Shenzhen-Hong Kong Stock Connect is a securities trading and clearing links program developed by HKEx, ChinaClear and SZSE, with an aim to achieve mutual stock market access between Shenzhen and Hong Kong.

Investors in Funds which seek to gain exposure to China A-shares by investing through Stock Connect should be aware of the additional risks such as Quota limitations risks, suspension risks, custody risk etc. associated with such investments which are detailed in the Prospectus.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2023

6. Financial instruments and associated risks (continued)

g) Fair Value Hierarchy

The Funds are required to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1 Quoted market price in an active market for an identical instrument.
- Level 2 Valuation techniques based on observable inputs. This category includes instruments valued
 using: quoted market prices in active markets for similar instruments; quoted prices for similar instruments in
 markets that are considered less than active; or other valuation techniques where all significant inputs are directly
 or indirectly observable from market data.
- Level 3 Valuation techniques using significant unobservable inputs. This category includes all instruments where
 the valuation technique includes inputs not based on observable data and the unobservable inputs could have a
 significant impact on the instrument's valuation. This category includes instruments that are valued based on
 quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to
 reflect differences between the instruments.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability. The determination of what constitutes 'observable' requires significant judgement by the Investment Manager. The Investment Manager considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

The Funds recognise transfers between levels of the fair value hierarchy as at the end of the reporting period during which the change has occurred. There were no transfers between Level 1, Level 2 and Level 3 of the fair value hierarchy during the financial year ended 31 December 2023. The ongoing conflict between Russia and Ukraine has led to significant disruption and volatility in the global stock market. As a result of this, the fair value of Russian securities held within the Funds experienced a sharp decline. As a consequence of this, the Manager made the determination to value all Russian securities at a fair value of nil. This was based on the current restrictions on trading due to sanctions and market liquidity. During the financial year ended 31 December 2022 DWS Noor Precious Metals Securities Fund transferred equity position Alrosa PJSC with fair value of USD Nil from Level 1 into Level 3. As the transfer took place at the end of the financial year, the level 3 reconciliation from opening balance to closing balance, inclusive of realised and unrealised gain/loss, was nil. This was the only Russian security held within the Funds. During the financial year ended 31 December 2023 an unrealised loss of USD nil is included within net gains/(losses) on financial assets at fair value through profit or loss in the statement of Comprehensive Income in relation to the equity position of Alrosa PJSC at 31 December 2023 (31 December 2022: (1,274,727)). There were no other transfers between Level 1, Level 2 and Level 3 of the fair value hierarchy during financial year ended 31 December 2023 or 31 December 2022.

As at 31 December 2023 and 31 December 2022 all financial assets and liabilities held at fair value through profit or loss investments held on DWS Qi Global AC Equity Fund and DWS Noor Precious Metals Securities Fund were classified as Level 1 with the exception of equity position Alrosa PJSC held by DWS Noor Precious Metals Securities Fund which was priced at nil and classified as Level 3 as at 31 December 2023 and 31 December 2022. As at 31 December 2023 all financial assets and liabilities held at fair value through profit or loss investments held on Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund were classified as Level 2.

The carrying value of all the assets and liabilities measured at amortised cost approximates their fair value and are classified as Level 2 in the fair value hierarchy.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2023

7. Related party disclosures

Directors

The Directors of the ICAV are Mr. Michael Whelan, Mr. Gerry Grimes and Mr. Felix Jueschke. Mr. Felix Jueschke is an employee of DWS Group.

Mr. Michael Whelan and Mr. Gerry Grimes each are entitled to remuneration for their services as directors provided however that the aggregate emoluments of Directors in respect of any twelve month period shall not exceed EUR 75,000. The Directors will be entitled to be reimbursed for their reasonable out of pocket expenses incurred in discharging their duties as directors. The total Directors' fees earned for the financial year was USD 33,120 (31 December 2022: USD 32,113) of which USD Nil (31 December 2022: USD Nil) was outstanding at the financial year end.

Mr. Felix Jueschke did not receive directors' fees from the ICAV for the financial year ended 31 December 2023 (31 December 2022: Nil), nor did he receive directors' fees from the Investment Manager's fee paid by the ICAV for the financial year ended 31 December 2023 (31 December 2022: Nil).

Transactions with Manager and the delegates

The fee arrangements with the manager, investment manager and sub-investment manager are discussed in Note 4 of these financial statements.

As at 31 December 2023, the Manager of the ICAV held 100 shares of TFC EUR Share class of DWS Qi Global AC Equity Fund and the value of the holdings is USD 13,568.

As at 31 December 2022, the Manager of the ICAV held 100 shares of TFC EUR Share class of DWS Qi Global AC Equity Fund and the value of the holdings is USD 11,144.

Significant shareholders

The following table details the number of shareholders with significant holdings of at least 20% of the Funds and the aggregate value and percentage of that holding as at 31 December 2023.

Fund	Number of shareholders	Number of shares	Value of holdings USD	Holding % of the Fund
DWS Qi Global AC Equity Fund	1	964,776	144,657,452	90.26%
DWS Noor Precious Metals Securities Fund	1	49,832,315	36,125,918	75.45%
Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund*	1	2,546,993	2,708,782,350	89.28%

^{*} This fund launched on 1 March 2023 and therefore no comparative figures are shown.

The following table details the number of shareholders with significant holdings of at least 20% of the Funds and the aggregate value and percentage of that holding as at 31 December 2022.

Fund	Number of shareholders	Number of shares	Value of holdings USD	Holding % of the Fund
DWS Qi Global AC Equity Fund	1	1,204,911	147,679,047	99.99%
DWS Noor Precious Metals Securities Fund	1	55,779,002	40,838,920	76.79%

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2023

7. Related party disclosures (continued)

Related Party Investments

As at 31 December 2023, the Funds did not hold any investments in other funds of DWS Group, or one of its affiliates. (31 December 2022: None).

There were no other transactions with related parties during the financial year other than those already disclosed above.

8. Distribution policy

Dividends may be paid at the Directors' discretion. Details of the dividend policy can be found in the Prospectus. The Directors' of the ICAV do not currently intend to pay out dividends in respect of the Funds.

9. Contingent liability

There are no contingent liabilities as at 31 December 2023 (31 December 2022: None)

10. Significant events during the financial year

Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund launched on 1 March 2023.

Russia/Ukraine crisis

The conflict between Russia and Ukraine marked a dramatic turning point in Europe, which, among other things, is impacting on Europe's security architecture and energy policies in the long term and has caused considerable volatility. This volatility is likely to continue. However, the specific or possible medium-to-long-term effects of the crisis on the economy, individual markets and sectors, as well as the social implications, cannot be conclusively assessed due to the uncertainty at the time of preparing this report. The Manager is therefore continuing its efforts, within the framework of its risk management strategy, to assess these uncertainties and their possible impact on the activities, liquidity and performance of the respective sub-fund. The direct exposure of the Funds is limited to the DWS Noor Precious Metals Securities Fund holding an equity position in Alrosa PJSC, valued at nil as at 31 December 2023 (31 December 2022: nil). During the financial year ended 31 December 2022 the Manager made the decision for the position held in Alrosa PJSC to be written down to nil. The Board of Directors of the ICAV is ensuring that the Manager is taking all measures deemed appropriate to protect investor interests to the greatest possible extent.

There were no other significant events affecting the ICAV during the financial year which require adjustment to or disclosures in these financial statements.

11. Significant events since the financial year end

On 1 February 2024 DWS Investments UK Limited (the UK Distributor) changed address from Winchester House, 1 Great Winchester Street, London, EC2N 2DB to 21 Moorfields, London, EC2Y 9DB.

On 18 April 2024 DWS Customised Global Investment Grade Bond Fund launched.

There were no other significant events affecting the ICAV since the financial year end date which require adjustment to or disclosures in these financial statements.

12. Approval of the financial statements

The financial statements were approved by the Directors of the ICAV on 18 April 2024.

APPENDICES (Unaudited) (continued)

APPENDIX 3

Remuneration Disclosure

DWS Investment S.A. (the "Company") is a subsidiary in DWS Group GmbH & Co. KGaA ("DWS KGaA"), and is subject to the regulatory requirements of the Fifth Directive on Undertakings for Collective Investment in Transferable Securities ("UCITS V Directive") and the Alternative Investment Fund Management Directive ("AIFM Directive") as well as the European Securities and Markets Authority's Guidelines on Sound Remuneration Policies ("ESMA Guidelines") with regard to the design of its remuneration system.

Remuneration Policy & Governance

The Company is governed by the Group-wide Compensation Policy that DWS KGaA has adopted for itself and all of its subsidiaries ("DWS Group" or only "Group").

In line with the Group structure, committees have been set up to ensure the appropriateness of the compensation system and compliance with regulatory requirements on compensation and are responsible for reviewing it.

As such the DWS Compensation Committee was tasked by the DWS KGaA Executive Board with developing and designing sustainable compensation principles, making recommendations on overall compensation and ensuring appropriate governance and oversight with regard to compensation and benefits for the Group.

Furthermore, the Remuneration Committee was established to support the Supervisory Board of DWS KGaA in monitoring the appropriate structure of the remuneration systems for all Group employees. This is done by testing the consistency of the remuneration strategy with the business and risk strategy and taking into account the effects of the remuneration system on the group-wide risk, capital and liquidity management.

The internal annual review at DWS Group level concluded the design of the remuneration system to be appropriate and no significant irregularities were recognized.

Compensation Structure

Employee compensation consists of fixed and variable compensation.

Fixed compensation remunerates employees for their skills, experience and competencies, commensurate with the requirements, size and scope of their role.

Variable compensation takes into account performance at group, divisional and individual level. Variable compensation generally consists of two elements – the "Franchise Component" and the "Individual Component".

The Franchise Component is determined based upon the performance of three Key Performance Indicators (KPIs) at DWS Group level. For the performance year 2023 these were: Adjusted Cost Income Ratio ("CIR"), Net Flows and ESG metrics.

The individual component of variable compensation takes into account a number of financial and non-financial factors, relativities within the peer group, and retention considerations. Variable compensation can be reduced accordingly or cancelled completely in the event of negative performance contributions or misconduct. In principle, it is only granted and paid out if the granting is affordable for the Group. Guaranteed variable compensation is not normally granted to employees. On an exceptional basis, guaranteed variable compensation can be granted to new hires but only during their first year of employment.

The compensation strategy is designed to achieve an appropriate balance between fixed and variable compensation. This helps to align employee compensation with the interests of customers, investors and shareholders, as well as to industry standards. At the same time, it ensures that fixed compensation represents a sufficiently high proportion of total compensation to allow the Group full flexibility in granting variable compensation.

APPENDICES (Unaudited) (continued)

APPENDIX 3 (continued)

Remuneration Disclosure (continued)

Determination of variable compensation and appropriate risk-adjustment

The total amount of variable compensation is subject to appropriate risk-adjustment measures which include ex-ante and ex-post risk adjustments. The robust methodology is designed to ensure that the determination of variable compensation reflects Group's risk-adjusted performance as well as the capital and liquidity position.

A number of considerations are used in assessing the performance of the business units. Performance is assessed in the context of financial and non-financial targets based on balanced scorecards. The allocation of variable compensation to the infrastructure areas and in particular to the control functions depends on the overall results of the Group, but not on the results of the business areas they oversee.

Principles for determining variable compensation apply at individual employee level which detail the factors and metrics that must be taken into account when making IVC decisions. These include, for instance, investment performance, client retention, culture considerations, and objective setting and performance assessment based on the "Total Performance' approach. Furthermore, any control function inputs and disciplinary sanctions and their impact on the VC have to be considered as well.

Sustainable Compensation

Sustainability and sustainability risks are an essential part that determine the variable compensation. Therefore, the remuneration policy is fully in line and consistent with sustainability risks. Hence, DWS Group incentivises behaviour that benefits both interest of clients and the long-term performance of the firm. Relevant sustainability factors are reviewed on a regular basis and incorporated in the design of the compensation system.

Compensation for 2023

The DWS Compensation Committee has monitored the affordability of VC for 2023 and determined that the Group's capital and liquidity levels remain above regulatory minimum requirements, and internal risk appetite threshold.

As part of the overall 2023 variable compensation granted in March 2024, the Franchise Component is awarded to eligible employees in line with the assessment of the defined KPIs. The Executive Board recognizing the considerable contribution of employees and determined a target achievement rate of 82.5% for 2023.

APPENDICES (Unaudited) (continued)

APPENDIX 3 (continued)

Remuneration Disclosure (continued)

Identification of Material Risk Takers

In accordance with the regulatory requirements, the Company has identified Material Risk Takers. The identification process was carried out in accordance with the Group's policies and is based on an assessment of the impact of the following categories of staff on the risk profile of the Company or on a fund it manages: (a) Board Members/Senior Management, (b) Portfolio/Investment managers, (c) Control Functions, (d) Staff heading Administration, Marketing and Human Resources, (e) other individuals (Risk Takers) in a significant position of influence, (f) other employees in the same remuneration bracket as other Risk Takers, whose roles have an impact on the risk profile of the Company or the Group. At least 40% of the VC for Material Risk Takers is deferred. Additionally, at least 50% of both, the upfront and the deferred proportion, are granted in the Group share-based instruments or fund-linked instruments for Key Investment Professionals. All deferred components are subject to a number of performance conditions and forfeiture provisions which ensure an appropriate ex-post risk adjustment. In case the VC is lower than EUR 50,000, the Material Risk Takers receive their entire variable compensation in cash without any deferral.

Aggregate Compensation Information for the Company for 2023¹

Number of employees on an annual average	99
Total Compensation ²	EUR 15,739,813
Fixed Pay	EUR 12,528,700
Variable Compensation	EUR 3,211,113
Thereof: Carried Interest	EUR 0
Total Compensation for Senior Management ³	EUR 1,476,953
Total Compensation for other Material Risk Takers ⁴	EUR 0
Total Compensation for Control Function employees	EUR 2,077,858

¹ In cases where portfolio or risk management activities have been delegated by the Company, the compensation data for delegates are not included in the table.

² Considering various elements of remuneration as defined in the ESMA Guidelines which may include monetary payments or benefits (such as cash, shares, options, pension contributions) or none (directly) monetary benefits (such as fringe benefits or special allowances for car, mobile phone, etc.).

³ Senior Management refers to the members of the Management Board of the Company, only. Members of the Management Board meet the definition of managers. Apart from the members of Senior Management, no further managers have been identified.

⁴ Identified risk takers with control functions are shown in the line "Control Function employees".
