KEY PRODUCT FEATURES	
WHAT ARE YOU INVESTING IN? <ul style="list-style-type: none"> • You are investing in an open-ended collective investment scheme (referred to as an “undertaking for collective investment in transferable securities” or UCITS) constituted in Luxembourg that aims to provide you with capital appreciation by investing in undervalued securities in a well-diversified global equity fund. • Subject to any legal or regulatory requirements, distributions may also be made out of the capital of the Fund. Should distributions be paid, the net asset value (“NAV”) of the Fund will be reduced by the amount of distribution paid. 	Refer to the “Investment Objective, Focus and Approach of the Funds” section of the Singapore Prospectus, and the “Dividend Policy” section of the Luxembourg Prospectus for further information on features of the product.
Investment Strategy	
<ul style="list-style-type: none"> • The Fund will invest principally in Shariah-compliant equity and equity-related securities of companies located anywhere in the world, including emerging markets. • It may also invest, amongst others, in Shariah-compliant fixed-income securities of governments and companies located anywhere in the world or short term instruments. These include Sukuk, any other shariah-compliant fixed-income securities and Murabaha placements (limited to 25% of its net assets). • When a Fund investment policy states that investments will be made “primarily” or “principally” or “mainly” in a particular type of security, or in a particular country, region or industry, it generally means that at least two-thirds of this Fund’s total assets (without taking into account ancillary liquid assets) shall be invested into such security, country, region or industry. 	Refer to the “Investment Objective, Focus and Approach of Funds” section of the Singapore Prospectus for further information on the investment strategy of the product.

KEY RISKS	
WHAT ARE THE KEY RISKS OF THIS INVESTMENT? The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment.	Refer to the “Risk Factors” section of the Singapore Prospectus for further information on risks of the product.
Market and Credit Risks	
You are exposed to global equity market risks. <ul style="list-style-type: none"> Your investments in equity and equity-related securities (including equity-linked notes) may be subject to significant price movements due to the impact of economic, political, market, and issuer-specific factors globally. You are exposed to emerging markets risk. <ul style="list-style-type: none"> Emerging markets tend to be smaller and less liquid than developed markets as well as being more sensitive to economic, political and regulatory uncertainties. You are exposed to foreign currency risk. <ul style="list-style-type: none"> Since the securities held by the Fund may be denominated in currencies different from its base currency, your investments may be affected favourably or unfavourably by exchange control regulations or changes in exchange rates. 	
Liquidity Risks	
Fund liquidity may be affected during exceptional circumstances. <ul style="list-style-type: none"> The Fund may not be able to easily sell securities during an economic event or due to deterioration in the creditworthiness of issuers in which it invests. Shares may be redeemed on any Dealing Day. However, during a period when trading on relevant exchanges or the over-the-counter market is substantially restricted or when market conditions make it impracticable to dispose of or value any of the Fund’s investments, redemptions of Shares may be suspended. Redemptions of Shares may be deferred when more than 10% of the value of the Fund’s Shares are redeemed or exchanged on any one Dealing Day. The Fund is not listed. <ul style="list-style-type: none"> There is no secondary market for the Fund. All redemption requests should be made to the Singapore representative, either directly or through the financial advisor or distributor from whom you purchased the Fund. 	Refer to the “Sale of Shares” and “Suspension of Valuation, Issue, Sale and Switching of Shares” sections of the Singapore Prospectus.
Product-Specific Risks	
You are exposed to Shariah compliance risk. <ul style="list-style-type: none"> The restriction to invest only in Shariah-compliant securities may place the Fund at a comparative disadvantage vs funds without this restriction. Returns may be reduced due to payments to “purify” dividends and the sale of securities reclassified as Shariah non-compliant. You are exposed to real assets risk. <ul style="list-style-type: none"> The Fund will be subject to specific risks linked to a variety of factors, including local, regional and national economic conditions, interest rates and tax considerations. There is a risk that funds investing in real assets may perform poorly in an otherwise favourable economic environment.
