Schroder International Selection Fund Middle East

A Accumulation SGD | Data as at 31.12.2021

Fund objectives and investment policy

The fund aims to provide capital growth in excess of the MSCI Arabian Markets and Turkey with Saudi Arabia Domestic Capped at 20% after fees have been deducted over a three to five year period by investing in equities of Middle Eastern companies. The fund also invests in companies in emerging Mediterranean markets and North Africa.

This fund may use financial derivative instruments as a part of the investment process. Derivatives carry a high degree of risk and should only be considered by sophisticated investors.

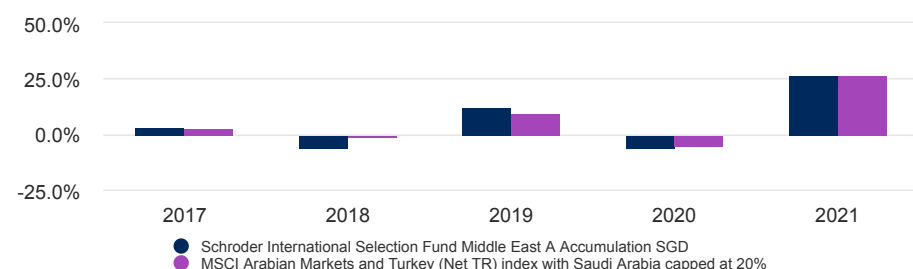

Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of any overseas investments to rise or fall.

Past performance and any forecasts are not necessarily a guide to the future or likely performance.

The value of investments and income from them can go down as well as up and is not guaranteed. The distributions are not guaranteed. Ordinarily, they will be reviewed annually. In the event of the Fund's income and realised gains being less than indicated distribution amount per unit per annum, distributions will be made from capital. Investors should be aware that the distributions may exceed the income and realised gains of the Fund at times and lead to a reduction of the amount originally invested, depending on the date of initial investment. Some performance differences between the fund and the benchmark may arise as the benchmark returns are not adjusted for non-dealing days of the fund. Where 'since inception' performance figures are stated, please note that the inception date is the same as the share class launch date under 'Fund Facts'.

Benchmark and corporate action information

The fund's performance should be assessed against its target benchmark being to exceed the MSCI Arabian Markets and Turkey (Net TR) index with Saudi Arabia capped at 20%. The fund's investment universe is expected to overlap materially, directly or indirectly, with the components of the target benchmark. The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the target benchmark. The investment manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities. The target benchmark has been selected because it is representative of the type of investments in which the fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the fund aims to provide. On 01.09.2012 the MSCI Arabian Markets and Turkey with Saudi Arabia Domestic Capped at 20% replaced the 80% MSCI Arabian Markets and Turkey + 20% S&P Saudi Arabia Large/Mid Cap. The full track record of the previous index has been kept and chainlinked to the new one. On 24.11.2020 the MSCI Arabian Markets and Turkey with Saudi Arabia Domestic Capped at 20% replaced the MSCI Arabian Markets and Turkey (Net TR) index. The full track record of the previous index has been kept and chainlinked to the new one.
