### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

- The sub-fund is only suitable for you if you:
  - seek a highest possible appreciation of capital invested while accepting a broad distribution of risks
  - seek capital growth over the medium term.
  - are comfortable with the volatility and risks of a bond fund which may make use of financial derivatives as part of its investment policy, for hedging and/or for efficient portfolio management, and may also carry out securities lending transactions.

Further information please refer to the Luxembourg Prospectus, Book II of the Sub-fund for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

- You are investing in a UCITS compliant sub-fund constituted in Luxembourg. The sub-fund seeks to increase the value of its assets over the medium term by investing in debt securities issued by Asian entities supporting the development of Sustainable Asian Cities.
- If you hold distribution shares, you may receive monthly or yearly distributions in accordance with the particular distribution share class. This is at the discretion of the directors and subject to the approval of the shareholders. However, no distribution will be carried out if it is not in your interest nor in that of other shareholders to distribute a dividend at that particular market condition. You should note that where distributions calculated on the basis of the benchmark dividend yield exceed the sub-fund's income, such distributions will be made up of a capital component and will cause a decrease in the net asset value of the sub-fund.
- Capitalisation shares will retain their income to reinvest.

Please refer to the Luxembourg Prospectus, Book I – General Provisions for further information on the SICAV and "The Shares" for further information on the product share classes.

#### Investment Strategy

This thematic Sub-fund invests at least 75% of its total assets in:

- 1) Sustainable labelled bonds as defined by International Capital Market Association (i.e. green bond principles, social bond principles, sustainability bond guidelines, sustainability-linked bond principles) including green bonds, social and sustainability use-of-proceeds bonds of corporate and government issuers domiciled in, or , or exercising the predominant part of their economic activity in, Asian countries such as, but not limited to, China, Indonesia and Korea; and

Please refer to the Luxembourg Prospectus, Book II of the Sub-fund for further information on the product.

<sup>1</sup> You may access the Singapore Prospectus and the full Luxembourg Prospectus at <http://www.bnpparibas-am.com/en-sg>. You may also obtain hardcopies from our Singapore Representative's office at 10 Collyer Quay, #15-01 Ocean Financial Centre, Singapore 049315 or from their authorised distributors.

<sup>2</sup> The Sub-Fund is an ESG Fund (as defined in the Circular No. CFC 02/2022 on Disclosure and Reporting Guidelines for Retail ESG Funds issued by the Monetary Authority of Singapore).

2) non-labelled bonds aligned with the development of sustainable Asian cities and issued by corporate and public entities domiciled in, or exercising the predominant part of their economic activity in Asian countries, for which part of their business contribute to aspects of sustainable Asian cities. The selected issuers must have at least 20% of their revenues in the activities, which are directly contributing to the theme, and/or potentially enablers of the development of sustainable Asian cities.

The concept of Sustainable Asian Cities is multi-sector and multi-aspect, where investments can be broadly about these five aspects:

- Enhancing urban mobility within and across cities, with a preference for low-carbon options e.g. public transport
- Improving Asian cities' basic infrastructure to operate and thrive, as well as improving cities' resilience to extreme weather events such as, but not limited to, storm water management or flood protection
- Promoting integrated development to balance a mix of social, economic, nature-based activities such as, but not limited to, city's special economic zones or urban wetland installation
- Building health and education facilities to increase provision and improve access to healthcare and education
- Supporting innovative and technological solutions to support sustainable development of cities.

The investment universe of this sub-fund is made up of sustainable labelled bonds (per point 1 above) and non-labelled bonds (per point 2 above) from issuers domiciled in, or exercising the predominant part of their economic activity in, Asian countries (such as, but not limited to, China, Indonesia, Korea).

The selected issuers, according to the proprietary methodology, must have at least 20% of their revenues in the activities, which are directly contributing to the theme, and/or potentially enablers of the above concept.

The remaining portion, namely a maximum of 25% of its assets, may be invested in any other debt securities (such as, but not limited to, corporate bonds), money market instruments for maximum 10% of the assets, and other UCITS or UCIs for maximum 10% of the assets.

The sub-fund invests at least 60% in Investment Grade bonds.

The sub-fund may invest in High Yield bonds rated above B- (S&P or equivalent) up to 40% of its assets, and in perpetual callable bonds up to 20% of its assets.

In the event that the ratings criteria are not met, due to downgrades, the Investment Manager shall adjust the portfolio's composition in the best interests of investors and in the timeliest manner.

In respect of the above investments limits, the sub-fund's investments into debt securities traded on the China Interbank Bond market may reach up to 25% of its assets.

After hedging, the sub-fund exposure to currencies other than USD may not exceed 5%.

The sub-fund may hold ancillary liquid assets within the limits and conditions described in Book I, Appendix 1 – Eligible Assets, point 7 of the Luxembourg Prospectus.

**Sustainable Investment policy**

The Investment Manager applies BNP PARIBAS ASSET MANAGEMENT's Sustainable Investment Policy, which takes into account Environmental, Social and Governance (ESG) criteria in the investment process of the sub-fund, falling under the Sustainable Thematic category as set out in Book I of the Luxembourg Prospectus.

The sub-fund invests at least 90% of its assets (excluding ancillary liquid assets) in securities issued by issuers that have an ESG score or assessment using the internal methodology, as set out in Book I of the Luxembourg Prospectus.

The objective is deliberately to allocate capital towards projects, activities, assets, or companies that contributes to Sustainable Asian Cities theme. The sub-fund achieves this objective by investing in bonds that are validated by the Sustainability Centre of BNP Paribas Asset Management.

**Derivatives and Securities Financing Transactions**

Core financial derivative instruments, CDS, and volatility Swaps, may be used for efficient portfolio management and hedging as described in points 2 and 3 of Appendix 2 of Book 1 of the Luxembourg Prospectus.

**Information relating to Sustainable Finance Disclosure Regulation ("SFDR")<sup>3</sup> and Taxonomy Regulation<sup>4</sup>**

The sub-fund has a sustainable investment objective in accordance with article 9 of SFDR and it will make a minimum of sustainable investments with environmental

<sup>3</sup> Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector, also known as the Sustainable Finance Disclosure Regulation and that lays down harmonised rules for financial market participants on transparency with regard to the integration of sustainability risks and the consideration of adverse sustainability impacts in their processes and the provision of sustainability-related information with respect to financial products.

<sup>4</sup> Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investments, and amending Regulation (EU) 2019/2088 (Taxonomy Regulation), and that implements the criteria for determining whether an economic activity qualifies as environmentally sustainable.

<b>Liquidity Risks</b>	
<ul style="list-style-type: none"> <li>• <b>You are exposed to liquidity risks</b> <ul style="list-style-type: none"> <li>○ Liquidity risk takes two forms: asset side liquidity risk and liability side liquidity risk. Asset side liquidity risk refers to the inability of a Sub-Fund to sell a security or position at its quoted price or market value due to such factors as a sudden change in the perceived value or credit worthiness of the position, or due to adverse market conditions generally. Liability side liquidity risk refers to the inability of a Sub-Fund to meet a redemption request, due to the inability of the Fund to sell securities or positions in order to raise sufficient cash to meet the redemption request. Markets where the Sub-Fund's securities are traded could also experience such adverse conditions as to cause exchanges to suspend trading activities. Reduced liquidity due to these factors may have an adverse impact on the Net Asset Value of the Sub-Fund and on the ability of the Sub-Fund to meet redemption requests in a timely manner.</li> </ul> </li> </ul>	
<b>Product-Specific Risks</b>	
<ul style="list-style-type: none"> <li>• <b>You are exposed to extra-financial criteria investment risk</b> <ul style="list-style-type: none"> <li>○ An extra-financial approach may be implemented in a different way by management companies when setting investment management objectives for financial products, in particular in view of the absence of common or harmonized labels at European Level. This also means that it may be difficult to compare strategies integrating extra-financial criteria to the extent that the selection and weightings applied to select investments may be based on metrics that may share the same name but have different underlying meanings. In evaluating a security based on the extra-financial criteria, the Investment Manager may also use data sources provided by external extra-financial research providers. Given the evolving nature of the extra-financial field, these data sources may for the time being be incomplete, inaccurate, unavailable or updated. Applying responsible business conduct standards as well as extra-financial criteria in the investment process may lead to the exclusion of securities of certain issuers. Consequently, the sub-fund's financial performance may at times be better or worse than the performance of comparable funds that do not apply such standards. In addition, the proprietary methodologies used to take into account ESG non-financial criteria may be subject to reviews in the event of regulatory developments or updates that may lead, in accordance with the applicable regulations, to the increase or decrease of the classification of products, of the indicators used</li> </ul> </li> </ul>	<p>Please refer to the Luxembourg Prospectus, Book I – Appendix 3 and Book II of the Sub-fund for further information on the specific risks of the product.</p>
