### PRODUCT SUITABILITY

**WHO IS THE PRODUCT SUITABLE FOR?**

The Sub-Fund is only suitable for investors who:

- seek investment return through an unconstrained portfolio of Debt Securities with positive E/S characteristics and currencies;
- understand the portfolio may have significant exposure to higher risk assets (such as high yield, emerging market debt and MBS/ABS) and are willing to accept those risks in search of potential higher returns;
- seek an investment that embeds ESG principles; and
- are looking to use it as part of an investment portfolio and not as a complete investment plan.

Further Information

Refer to “Sub-Fund Descriptions – Global Bond Opportunities Sustainable Fund” of the Prospectus for further information on product suitability.

**The principal of the Sub-Fund may be at risk.**

You should consult your financial advisor on the suitability of the Sub-Fund for you if you are in doubt.

### KEY PRODUCT FEATURES

**WHAT ARE YOU INVESTING IN?**

You are investing in a sub-fund of the Fund, an open-ended investment company organised as a société anonyme under the laws of the Grand Duchy of Luxembourg and qualifying as a SICAV and a UCITS.

The Sub-Fund aims to achieve a return in excess of the benchmark by investing opportunistically in an unconstrained portfolio of debt securities (positively positioned towards Debt Securities with positive E/S characteristics and debt securities issued by companies and countries that demonstrate improving E/S characteristics) and currencies, using derivatives where appropriate.

The Management Company may reduce the dividend rate for “(mth)” share classes in response to prevailing market conditions impacting that share class.

Refer to “Fund Business Operations”, “Share Classes and Costs” and “Sub-Fund Descriptions – Global Bond Opportunities Sustainable Fund” of the Prospectus for further information on features of the product.

<sup>1</sup> The Prospectus is available for collection from the Singapore Representative at 88 Market Street, 30th Floor, CapitaSpring, Singapore 048948 or any appointed Singapore distributor.

<sup>2</sup> The Sub-Fund is an “ESG Fund” under the MAS ESG Circular.

## Investment Strategy

The Sub-Fund invests either directly or through derivatives, in a portfolio of debt securities positively positioned towards Debt Securities with positive E/S characteristics and debt securities issued by companies and countries that demonstrate improving E/S characteristics including, but not limited to, debt securities issued by governments and their agencies, state and provincial governmental entities and supranational organisations, corporate debt securities, MBS/ABS, covered bonds and currencies. Issuers may be located anywhere in the world, including emerging markets.

The Sub-Fund is expected to invest between 10% and 30% of its assets in MBS/ABS of any credit quality, however, due to the unconstrained investment approach, the actual investment level may vary.

The Sub-Fund may have significant exposure to below investment grade securities but will not invest in distressed debt securities (at the time of purchase). The Sub-Fund may hold up to 10% in convertible securities and up to 10% in contingent convertible bonds.

The Sub-Fund systematically includes ESG criteria in investment analysis and investment decisions on at least 90% of securities purchased (excluding cash).

The Sub-Fund uses Positive Tilt as part of its ESG approach.

Refer to “Sub-Fund Descriptions – Global Bond Opportunities Sustainable Fund” of the Prospectus for further information on the investment strategy of the Sub-Fund.

## Parties Involved

**WHO ARE YOU INVESTING WITH?**

JPMorgan Funds is the umbrella fund company of the Sub-Fund.

The Management Company is JPMorgan Asset Management (Europe) S.à r.l..

The Investment Manager is J.P. Morgan Investment Management Inc..

The Depositary is J.P. Morgan SE – Luxembourg Branch.

Refer to “Fund Business Operations” of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.

## KEY RISKS

**WHAT ARE THE KEY RISKS OF THIS INVESTMENT?**

The value of your investment may fall as well as rise and you may get back less than you originally invested.

Refer to “Risk Descriptions” and “Sub-Fund Descriptions – Global Bond Opportunities Sustainable Fund” of the Prospectus for further information on risks and other associated risks of the product.

## Market and Credit Risks

**YOU ARE EXPOSED TO MARKET AND CREDIT RISKS**

**Concentration** – When a Sub-Fund invests in a limited number of securities, issuers, industries, sectors or within a limited geographical area, it is likely to be more volatile and risky as its performance will be more strongly affected by political, economic, environmental or market conditions within that area or economic sector.

**China risks** – Investing in the domestic market of the People’s Republic of China (PRC) is subject to the risks of investing in emerging markets and additionally risks that are specific to the PRC market such as risks in investing through China-Hong Kong Bond Connect.

**Contingent convertible bonds** are likely to be adversely impacted should specific trigger events occur. This may result in the bond converting to equity at a discount, the value being written down and/or coupon payments ceasing or being deferred.

**Convertible securities** have characteristics of both debt and equity securities and carry credit, default, equity, interest rate, liquidity and market risks. Convertible securities are usually subordinated to comparable nonconvertible securities and generally do not participate directly in dividend changes of the underlying securities.

**Debt securities** (bonds) including those issued or guaranteed by governments and their agencies carry credit risk and interest rate risk. The Sub-Fund is also exposed to risks associated with investing in Below Investment grade debt, Investment grade debt, Government debt and Unrated debt.

**Emerging markets** may be subject to increased political, regulatory and economic instability, less developed custody and settlement practices, poor transparency, greater financial risks, higher volatility and lower liquidity than developed markets.

**Equities** – The value of equity securities may go down as well as up in response to the performance of individual companies and general market conditions sometimes rapidly or unpredictably.

**MBS and ABS** depend on the cash flows from a specified pool of financial assets and are subject to greater credit, liquidity, pre-payment and interest rate risk and may be more volatile and less liquid than other bonds.

**Credit** – A bond will generally lose value if the issuer's financial health deteriorates, or appears likely to. An issuer could go into default (become unwilling or unable to make payments on their bonds), which often will make the bond illiquid or worthless.

## YOU ARE EXPOSED TO CURRENCY RISKS

**Currency** – Movements in currency exchange rates can adversely affect the return of your investment. Investing in a share class not denominated in SGD will expose you to additional currency risks.

**Hedging** – Any measures taken to offset specific risks could work imperfectly. Hedging may be used to mitigate currency, duration, market or credit risk. Hedging involves costs, which reduce investment performance.

### Liquidity Risks

The Sub-Fund is not listed and you can redeem only on a Singapore Dealing Day.

If the total requests for redemptions and switches out of the Sub-Fund on any Valuation Day exceeds 10% of the total value of Shares in issue of the Sub-Fund, the Management Company reserves the right to defer any requests in excess of 10% until the next Valuation Day. On the next Valuation Day(s), deferred requests will be dealt with in priority to later requests.

### Product Specific Risks

## YOU ARE EXPOSED TO DERIVATIVES RISKS

The Sub-Fund may use derivatives to achieve its investment objective. The Sub-Fund may, within its prescribed limits, invest in derivatives for hedging and Efficient Portfolio Management purposes.

The value of derivatives can be volatile because a small movement in the value of the underlying asset can cause a large movement in the value of the derivative, resulting in losses in excess of the amount invested by the Sub-Fund.

**Short positions** – The possible losses from taking a short position on a security may be unlimited as there is no restriction on the price to which a security may rise. Short positions may increase the volatility of the Sub-Fund and this technique could be prejudiced by regulatory change.

## YOU ARE EXPOSED TO SUSTAINABLE FUND RISK

The Sub-Fund applies binding criteria when selecting securities which includes investing a defined percentage of portfolio positions in securities exhibiting positive E/S characteristics. The Sub-Fund also excludes certain sectors, companies, issuers, or practices based on specific norms. Systematically including ESG in investment analysis and as binding on investment decisions may adversely affect the Sub-Fund's performance compared to similar funds that do not apply such criteria. ESG assessment on a company or issuer may require subjective judgements, which may include consideration of third party data that is subjective, incomplete or inaccurate that may affect the Investment Manager's ability to measure and assess the environment and social impact of a potential investment and may cause the Sub-Fund to have exposure to companies or issuers which do not meet the relevant criteria. There can be no guarantee that the Investment Manager will correctly assess the ESG impact on the Sub-Fund's investments.

## FEES AND CHARGES

## WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

Payable directly by you – You will need to pay the following fees and charges as a percentage of your gross investment sum:

<b>Initial Charge</b>	Class A: Up to 3% <sup>#</sup> .
<b>Redemption Charge</b>	Class A: Currently 0% (Max: 0.5%).
<b>Switching Fee</b>	Class A: Up to 1%.

<sup>#</sup> Initial charge is calculated based on a percentage of the net investment amount.

Payable by the Sub-Fund from invested proceeds – The Sub-Fund will pay the following fees and charges to the Management Company and other parties:

<b>Annual Management and Advisory Fee (AMAF)</b>	Class A: 1.00% per annum
(a) Retained by Management Company	(a) 27% to 100% of AMAF
(b) Paid by Management Company to distributor (trailer fee)	(b) 0% to 73% <sup>3</sup> of AMAF
<b>Operating and Administrative Expenses</b>	Class A: 0.20% per annum (Max).

You should check with the agent or distributor through whom you subscribe for Shares of the Sub-Fund whether they impose other fees and charges not included in the Prospectus.

Refer to “Share Classes and Costs” and “Sub-Fund Descriptions – Global Bond Opportunities Sustainable Fund” of the Prospectus for further information on fees and charges.

## VALUATIONS AND EXITING FROM THIS INVESTMENT

## HOW OFTEN ARE VALUATIONS AVAILABLE?

The relevant prices of selected share classes of the Sub-Fund will usually be made available on the website of the Singapore Representative ([www.jpmorgan.com/sg/am/per/](http://www.jpmorgan.com/sg/am/per/)), on the following Singapore Dealing Day after each relevant Singapore Dealing Day.

## HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

There is no cancellation period for the Sub-Fund. You may request for the redemption of your Shares on any Singapore Dealing Day through the relevant appointed Singapore distributor through which your Shares were purchased. The redemption proceeds will normally be paid within 5 Singapore Dealing Days.

Redemption instructions received by the Singapore Representative before 17:00 (Singapore time) on a Singapore Dealing Day will normally be executed at the relevant NAV per Share on that day. Instructions received after 17:00 (Singapore time) on a Singapore Dealing Day will normally be executed at the NAV per Share calculated on the next Singapore Dealing Day. All instructions to convert or redeem Shares shall be dealt with on an unknown NAV basis before the determination of the NAV for that day. Singapore distributors may impose their own dealing deadlines/practices.

The redemption proceeds that you will receive will be the NAV per Share multiplied by the redemption amount, less redemption charge (if any). An example is as follows:

1,000 Shares	X	SGD 10.00	=	SGD10,000.00
Redemption Amount		NAV per Share		Gross Redemption Proceeds
SGD10,000.00	–	Nil	=	SGD10,000.00
Gross Redemption Proceeds		Redemption Charge (0%)		Net Redemption Proceeds

Please note that different share classes offered pursuant to the Prospectus may be denominated in different currencies.

Refer to “Investing in the Sub-Funds” of the Prospectus for further information on valuation and exiting from the product.

<sup>3</sup> The range may change from time to time without prior notice. Your distributor is required to disclose to you the amount of trailer fee it receives from the Management Company.
