Some share classes listed are subject to restrictions, please refer to the Fund's Prospectus for further details. Before subscribing please refer to the Prospectus.

For a full glossary of terms, please refer to www.nb.com/glossary

Hedged Class.

¹ As a percentage of the Portfolio's Net Asset Value.

² Benchmark: Not Applicable. There is no suitable benchmark that reflects the Portfolio's investment strategy.

³ Performance returns are calculated in the currency of the relevant Share Class on (i) a NAV to NAV basis (ii) a NAV to NAV basis taking into account an assumed 5% initial sales charge and nil realisation fee indicated in the table above as "with initial sales charge", and both (i) and (ii) are calculated on the assumption that all dividends and distributions made by the relevant Share Class (if any) are reinvested, taking into account all charges which would have been payable upon such reinvestment. Share Classes which are designated in a currency other than USD are hedged into the Base Currency of the Portfolios (i.e. USD). Further details are set out in the Prospectus under the section "Share Class Hedging".

⁴ Up to 5%. The initial sales charge is a percentage of the purchase price and may be charged by either the Distributor or any sub-distributor.

⁵ Details on the distribution policies of the Share Classes are set out in the Prospectus under the section headed "Distribution Policy". Distributing classes may pay dividends out of capital and such dividends may result in an immediate decrease in the NAV of the relevant Shares. Distributions are not guaranteed.

⁶ Credit quality ratings are based on the ICE Bank of America ("ICE BofA") Master High Yield Index composite ratings. The ICE BofA composite ratings are updated once a month on the last calendar day of the month based on information available up to and including the third business day prior to the last business day of the month. The ICE BofA composite rating algorithm is based on an average of the ratings of three agencies (to the extent rated). Generally the composite is based on an average of Moody's, S&P and Fitch. For holdings that are unrated by the ICE BofA Index composite, credit quality ratings are based on S&P's rating. Holdings that are unrated by S&P may be assigned an equivalent rating by the investment manager. No NRSO has been involved with the calculation of credit quality and the ratings of underlying portfolio holdings should not be viewed as a rating of the portfolio itself. Portfolio holdings, underlying ratings of holdings and credit quality composition may change materially over time.

Effective 28th November 2022, the Neuberger Berman Short Duration High Yield Bond Fund changed name to the Neuberger Berman Short Duration High Yield SDG Engagement Fund. From 23 December 2021, the fund complies with the terms of the Sustainable Exclusion Policy. Since inception from 20 December 2011 to 22 December 2021, the fund was managed without making reference to a sustainable policy.

Unless stated otherwise, all information as of 29 February 2024 and sourced from Neuberger Berman, Blackrock Aladdin and Morningstar.
