Portfolio Breakdown

*Due to a change in pricing model, post 31.10.16 (effective date), performance calculations are on a single pricing basis, taking into account any initial and redemption fees. Prior to 31.10.16, performance calculations are on an offer-to-bid basis. The maximum initial charge (if any) is taken into account for performance calculations. Source: J.P. Morgan Asset Management / RIMES (NAV to NAV and charges applied in denominated currency with income reinvested, taking into account all charges which would have been payable upon such reinvestment). Source of bond rating: The manager receives credit quality ratings on underlying securities of the portfolio from six major ratings agencies - S&P, Moody's, Fitch, DBRS, Kroll and Morningstar. When calculating the credit quality breakdown, the manager selects the highest rating of the agencies that have provided a securities rating. Securities that are not rated by all six agencies are reflected as such. Any overweight in any investment holding exceeding the limit set out in the Investment Restrictions was due to market movements and will be rectified shortly. Asset classes that are not displayed in the individual breakdown are grouped under Others. 1)All data is calculated from the month end after inception. 2)This award is issued by Asia Asset Management in the year specified, reflecting performance as at end November 2022.

Investments in funds are not deposits and are not considered as being comparable to deposits.

Past performance is not indicative of future performance and investors may not get back the full or any part of the amount invested. Dividend distributions if any are not guaranteed and are made at the manager's discretion. Fund's net asset value may likely have high volatility due to its investment policies or portfolio management techniques. Funds which are invested in emerging markets, smaller companies and financial derivative instruments may also involve higher risks and are usually more sensitive to price movements. Any applicable currency hedging process may not give a precise hedge and there is no guarantee that any hedging will be successful. Investors in a currency hedged fund or share class may have exposure to currencies other than the currency of their fund or share class. Investors should make their own investigation or evaluation or seek independent advice prior to making any investment.
