KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in a unit trust constituted in Singapore that aims to provide you with long-term capital growth by investing primarily in common stocks and/or securities convertible into common stocks of equities traded in recognised stock exchanges around the world that are engaged in or are best positioned to benefit from their involvement in or support of e-commerce as we may from time to time determine.
- There is currently no distribution policy for the Sub-Fund.

Refer to Paragraphs 1, 16.2, 18 and 56 of the Prospectus for further information on features of the product.

Investment Strategy

- The Sub-Fund will invest in securities issued by companies in any part of the world which will, in our opinion, benefit from the growth and adoption of e-commerce, including (a) companies that provide or enable the provision of e-commerce infrastructure; (b) companies that conduct their businesses fully or partially through the online medium and from which they derive a competitive advantage; and (c) companies whose products or services benefit from e-commerce.

Refer to Paragraphs 16.2, 17.2, 22 and 25.4 of the Prospectus for further information on the investment focus and approach of the Sub-Fund and its exposure to FDIs.

¹ The Prospectus is available for collection at our operating office at 80 Raffles Place, 3rd Storey, UOB Plaza 2, Singapore 048624 or through our authorised agents or distributors during normal business hours, or accessible at uobam.com.sg.

<ul style="list-style-type: none"> • The majority of the companies in the investment universe of the Sub-Fund will come from the technology, telecommunication, media (including dot.com) and online retail sectors. However, companies from other sectors will be included if they fit into our investment criteria stated above. • The Sub-Fund may use or invest in FDIs for the purposes of hedging and efficient portfolio management. • The Units of the Sub-Fund will be Excluded Investment Products and the Sub-Fund will not invest in any product or engage in any transaction which may cause the Units of the Sub-Fund not to be regarded as Excluded Investment Products. • The Sub-Fund is actively managed with reference to its benchmark, MSCI World Information Technology Index, which is used for performance comparison purposes. The benchmark is neither used as a constraint on how the Sub-Fund's portfolio is to be constructed nor set as a target for the Sub-Fund's performance to beat. 	
Parties Involved	
WHO ARE YOU INVESTING WITH? <ul style="list-style-type: none"> • The Managers are UOB Asset Management Ltd. • The Trustee is State Street Trust (SG) Limited. • The Custodian is State Street Bank and Trust Company, acting through its Singapore Branch. 	Refer to Parts II and III and Paragraph 53 of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.
KEY RISKS	
WHAT ARE THE KEY RISKS OF THIS INVESTMENT? The value of the Sub-Fund and its distributions (if any) may rise or fall. These risk factors may cause you to lose some or all of your investment:	Refer to Part VIII of the Prospectus for further information on risks of the product.
Market and Credit Risks	
<ul style="list-style-type: none"> • You are exposed to market risk in the global markets. Prices of securities that the Sub-Fund invests in may be affected by changes in economic conditions, interest rates and the market's perception of the securities which in turn may affect the value of your investment. 	
Liquidity Risks	
<ul style="list-style-type: none"> • The Sub-Fund is not listed and you can redeem only on Dealing Days. There is no secondary market for the Sub-Fund. All realisation forms should be submitted to our authorised agents or distributors. • You are exposed to liquidity risk in the Sub-Fund's investments. Investments by the Sub-Fund in some Asian and/or emerging markets often involve a greater degree of risk due to the nature of such markets which do not have fully developed services such as custodian and settlement services. There may be a greater degree of volatility in such markets because of the speculative element, significant retail participation and the lack of liquidity. 	
Product-Specific Risks	
<ul style="list-style-type: none"> • You are exposed to sectoral risk. A sectoral fund such as the Sub-Fund may present greater opportunities and potential for capital appreciation, but may be subject to higher risks as it may be less diversified than a multi-sectoral portfolio. • You are exposed to political risk. The Sub-Fund's investments may be adversely affected by political instability, exchange controls, changes in taxation, foreign investment policies, restrictions on repatriation of investments and other restrictions and controls. • You are exposed to derivatives risk. The Sub-Fund may use or invest in FDIs. An investment in a FDI may require the deposit of initial margin and additional deposit of margin on short notice if the market moves against the investment position. If the required margin is not provided in time, the investment may be liquidated at a loss. We have the controls for investments in FDIs and have in place systems to monitor the derivative positions of the Sub-Fund. 	

- **You are exposed to foreign exchange and currency risk.** Where the Sub-Fund makes investments which are denominated in foreign currencies, fluctuations in the exchange rates of such foreign currencies against the Sub-Fund's base currency may affect the value of Units. The Sub-Fund's foreign currency exposure may not be fully hedged depending on the circumstances of each case.
- **Other risks to your investment include small and medium capitalisation companies risk, counterparty risk, broker risk, investment management risk and risk of using rating agencies and other third parties.**

 - If you submit the realisation form after 3 p.m. Singapore time on a Dealing Day or on a day not being a Dealing Day, you will be paid a price based on the NAV of the Sub-Fund as at the Valuation Point of the next Dealing Day.
- The net realisation proceeds that you will receive will be the realisation price of the Sub-Fund multiplied by the number of Units realised, less any charges. An example is as follows:

1,000.00 Units Your realisation request	x	S\$0.900 Notional realisation price	=	S\$900.00 Gross realisation proceeds
