Investment Strategy	
<ul style="list-style-type: none"> ■ The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation. ■ The Sub-Fund invests in short term assets and, more precisely, mainly in money market instruments that are denominated in US dollar or hedged against the US dollar. ■ Specifically, the Sub-Fund invests at least 67% of assets in money market instruments (including ABCPs). The Sub-Fund maintains within its portfolio a WAM of 90 days or less. ■ The Sub-Fund does not invest more than 30% of assets in money market instruments issued or guaranteed by any nation, public local authority within the EU, or an international body to which at least one EU member belongs. ■ The Sub-Fund may invest up to 10% of net assets in units/shares of other MMFs. ■ The Sub-Fund may use derivatives for hedging purposes. ■ The Sub-Fund is actively managed and seeks to achieve a stable performance in line with the Compounded Effective Federal Funds Rate Index (the “Benchmark”). ■ The Sub-Fund integrates Sustainability Factors in its investment process. The investment team uses both technical and fundamental analysis, including credit analysis, to select issuers and short term private securities (bottom-up) while constructing a high quality portfolio with a strong focus on liquidity and risk management. Further, the Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of its investment universe. ■ The Sub-Fund promotes environmental characteristics within the meaning of, and may partially invest in economic activities that contribute to environmental objectives prescribed under, the relevant articles of the Taxonomy Regulations. 	<p>Refer to paragraph 3 of the Singapore Prospectus for further information on the investment strategy of the product.</p>
Parties Involved	
<p>WHO ARE YOU INVESTING WITH?</p> <ul style="list-style-type: none"> ■ The Management Company is Amundi Luxembourg S.A. ■ The Investment Manager is Amundi Asset Management. ■ The Depositary is CACEIS Bank, Luxembourg Branch. 	<p>Refer to paragraph 2 of the Singapore Prospectus for further information on these entities and what happens if they become insolvent.</p>
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</p> <p>The value of the product and its dividends may rise or fall. These risk factors may cause you to lose some or all of your investment:</p>	<p>Refer to paragraphs 3 and 5 of the Singapore Prospectus for further information on risks of the product.</p>
Market and Credit Risks	
<ul style="list-style-type: none"> ■ You are exposed to market risk. The value of the Sub-Fund's investments changes continuously, and can fall based on a wide variety of factors. ■ You are exposed to credit risk. A bond or MMI could lose value if the issuer's financial health deteriorates. ■ You are exposed to interest rate risk. When interest rates rise, bond values generally fall. This risk is generally greater the longer the maturity of a bond investment. ■ You are exposed to low interest rate risk. When interest rates are low, the yield on money market instruments and other short-term investments may not be enough to cover the Sub-Fund's management and operating costs, leading to a decline in the value of the sub-fund. 	
Liquidity Risks	
<ul style="list-style-type: none"> ■ The Sub-Fund is not listed and you can redeem only on Luxembourg Business Days. Also, Singapore Distributors may accept and deal with 	

<p>redemption orders only on Singapore Business Days, which are also Luxembourg Business Days.</p> <ul style="list-style-type: none"> Redemptions could be subject to delays and other redemption policies set by the Sub-Fund. Any security could become hard to value or to sell at a desired time and price. 													
Product-Specific Risks													
<ul style="list-style-type: none"> The Sub-Fund may involve above-average volatility and risk of loss due to its investment policies or portfolio management techniques. You are exposed to management risk. The management team may be wrong in its analysis, assumptions, or projections. You are exposed to derivatives risk. Certain derivatives could behave unexpectedly or could expose the Sub-Fund to losses that are significantly greater than the cost of the derivative. The pricing and volatility of many derivatives (especially credit default swaps) may diverge from strictly reflecting the pricing or volatility of their underlying references. In difficult market conditions, it may be impossible or unfeasible to place orders that would limit or offset the market exposure or losses created by certain derivatives. You are exposed to hedging risks. Any measures that the Sub-Fund takes to offset specific risks may work imperfectly, may not be feasible at times, or may fail completely. You are exposed to counterparty risk. An entity with which the Sub-Fund does business could become unwilling or unable to meet its obligations to the Sub-Fund. You are exposed to default risk. The issuers of certain bonds could become unable to make payments on their bonds. You are exposed to money market fund risk. A Money Market Fund differs from an investment in deposits. A Money Market Fund is not a guaranteed investment and the principal invested in any Money Market Fund is capable of fluctuation. As a consequence, the risk of loss of the principal is to be borne by the Shareholders. Finally, the Fund does not rely on external support for guaranteeing the liquidity of any MMF or stabilising the NAV per unit or share. 													
FEES AND CHARGES													
<p>WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?</p> <p><u>Payable directly by you</u></p> <ul style="list-style-type: none"> You will need to pay the following fees and charges as a percentage of the gross investment amount of the Shares: <table border="1" data-bbox="245 1330 1129 1424"> <tr> <td>Purchase fee</td> <td>Up to 4.50%</td> </tr> <tr> <td>Switch fee</td> <td>Up to 1.00% (no switching fee is applied for switches to other Classes within the Sub-Fund)</td> </tr> </table> You should check with the distributor through whom you subscribe for Shares whether they impose other fees and charges not included in the Singapore Prospectus. <p><u>Payable by the Sub-Fund from invested proceeds</u></p> <ul style="list-style-type: none"> The Sub-Fund will pay the following fees and charges from its assets to the Management Company and other parties: <table border="1" data-bbox="245 1637 1129 1850"> <tr> <td>Management fee</td> <td>Up to 0.75% p.a.</td> </tr> <tr> <td>(i) Retained by the Management Company</td> <td>(i) 40% to 100% of management fee</td> </tr> <tr> <td>(ii) Paid by the Management Company to financial adviser (trailer fee)³</td> <td>(ii) 0% to 60% of management fee</td> </tr> <tr> <td>Administration fee</td> <td>Up to 0.10% p.a.</td> </tr> </table> 	Purchase fee	Up to 4.50%	Switch fee	Up to 1.00% (no switching fee is applied for switches to other Classes within the Sub-Fund)	Management fee	Up to 0.75% p.a. - Other fees and expenses may be incurred by the Sub-Fund including taxes on assets and income, and standard brokerage and bank charges incurred on business payable.

VALUATIONS AND EXITING FROM THIS INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

Valuations are performed as at each Valuation Day. The NAV calculated on a Valuation Day will generally be published on <http://www.amundi.com/sgp> within 3 Luxembourg Business Days following the relevant Valuation Day, and may also be obtained from the Singapore Representative.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

- You can exit the Sub-Fund by submitting a written redemption order to the Singapore Distributor through whom your Shares were purchased. There is no cancellation period for subscriptions.
- Redemption proceeds will normally be paid 3 Luxembourg Business Days (and 1 Luxembourg Business Day for Class A2) following the relevant Valuation Day on which the redemption order is accepted for processing.
- Your redemption price is determined as follows:
 - If your redemption order is received and accepted (i.e. arrived at the transfer agent and considered complete and authentic) by the Cut-off Time on a Luxembourg Business Day, you will be paid a price based on the NAV per Share applicable to that Valuation Day.
 - If your redemption order is received and accepted after the Cut-off Time on a Luxembourg Business Day, you will be paid a price based on the NAV per Share applicable to the next Valuation Day.
 - Singapore Distributors may have earlier dealing deadlines and may accept redemption orders only on Singapore Business Days. You should confirm the applicable dealing deadline with your Singapore Distributor.
- The redemption proceeds that you receive will be the redemption price multiplied by the number of Shares redeemed, less any charges. An example based on a redemption of 1,000 Class A2 USD (C) Shares at a notional redemption price of USD 107.00 is as follows:

1,000.000 Shares	x	USD 107.00	=	USD 107,000.00
Redemption order		Notional redemption price		Net redemption proceeds

Refer to paragraphs 9 and 11 of the Singapore Prospectus for further information on valuation and exiting from the product.
