## **EUROPEAN SELECT - 1UH USD** HEDGED

ISIN: LU1868839694 Share Class Price: 13.0627

# **Share Class Launch Date:** 16 Oct 2018

The Share Class currency, unless indicated as a Hedged Share Class, is a translated price using exchange rates at the official valuation point of the fund. This is intended as a way to access a Share Class in your chosen currency and does not reduce your overall exposure to foreign currency. The fund currency indicates the highest currency exposure of the fund unless the currency breakdown is detailed in the Weightings % table on page 3.

### **Investment Objective & Policy**

The Fund aims to increase the value of your investment over the long term.

The Fund invests at least two-thirds of its assets in shares of companies with growth prospects in Europe, excluding the UK, or companies that have significant operations there. The Fund's "select" investment approach means it will typically hold a small number of investments compared with other funds.

The Fund may use derivatives (sophisticated investment instruments linked to the rise and fall of the value of other assets) for hedging purposes.

The Fund may also invest in asset classes and instruments different from those stated

The Fund is actively managed in reference to the FTSE World Europe ex UK Index. The index is broadly representative of the companies in which the Fund invests, and provides a suitable target benchmark against which Fund performance will be measured and evaluated over time. The Fund promotes environmental and social characteristics by aiming to compare favourably against the index over rolling 12-month periods when assessed according to the Columbia Threadneedle ESG (environmental, social and governance) Materiality Rating. The index is not designed to specifically consider environmental or The fund manager has discretion to select investments with social characteristics. weightings different to the index, and that are not in the index, and the Fund may display significant divergence from the index.

The Fund also aims to exclude companies that breach accepted international standards and principles (e.g. the United Nations Global Compact) unless the fund manager believes that there are tangible mitigating factors for the company to be held.

Further information on the investment guidelines, including the Columbia Threadneedle ESG Materiality Rating methodology and engagement policy is available at columbiathreadneedle.com.

The Fund is categorised as one that promotes environmental or social characteristics under Article 8 of the EU Regulation 2019/2088 on sustainability-related disclosures in the financial services sector (SFDR).

**Cumulative Performance (USD)**

## Annualised Performance (USD)

Share	1M	3M	6M	YTD	1YR	2YR	3YR	5YR	10YR	SI
Share Class (Net)	-8.2	-14.5	-26.1	-26.1	-19.2	2.4	3.9			7.5
Share Class (Net FEL applied)	-12.8	-18.8	-29.8	-29.8	-23.2	-0.2	2.2			2.1

Past performance is not a guide to future performance. The value of investments and any income is not guaranteed and can go down as well as up and may be affected by exchange rate fluctuations. This means that an investor may not get back the amount invested. Index returns assume reinvestment of dividends and capital gains and unlike fund returns do not reflect fees or expenses. The index is unmanaged and cannot be invested directly. All returns assume income is reinvested for a local taxpayer, bid to bid performance (which means performance does not include the effect of any initial charges).

#### **Risks**

- The value of investments can fall as well as rise and investors might not get back the sum originally invested.
- Where investments are in assets that are denominated in multiple currencies, or currencies other than your own, changes in exchange rates may affect the value of the investments.
- The Fund has a concentrated portfolio (holds a limited number of investments and/or has a restricted investment universe) and if one or more of these investments declines or is otherwise affected, it may have a pronounced effect on the Fund's value.
- The Fund may invest in derivatives with the aim of reducing risk or minimising the cost of transactions. Such derivative transactions may benefit or negatively affect the performance of the Fund. The Manager does not intend that such use of derivatives will affect the overall risk profile of the Fund.
- The fund typically carries a risk of high volatility due to its portfolio composition or the portfolio management techniques used. This means that the fund's value is likely to fall and rise more frequently and this could be more pronounced than with other funds.
- The risks currently identified as applying to the Fund are set out in the "Risk Factors" section of the prospectus.

# **Typical Investor Profile**

This Portfolio is suitable for investors who:

- seek capital appreciation;
- seek investment exposure to Continental European equity markets. The investor should be aware that geographic, stock or sector concentration may add more volatility than a more broadly diversified portfolio;
- seek an investment that promotes environmental and social characteristics;
- can tolerate potentially high volatility in the value of their investment;
- have a high level of risk tolerance commensurate with an investment in equity securities;
- have a long-term investment horizon.

### Columbia Threadneedle RI Category

We have categorized our Funds into 4 categories based on the level of RI integration:

RI Informed – Strategies which consider the ESG factors which are embedded in our fundamental research.

RI Tilt – Strategies with a positive bias towards ESG characteristics over time, compared to the Index.

RI Promotion – Strategies that target positive or improving ESG characteristics.

RI Sustainable Outcomes – Strategies that target positive, measurable sustainable outcomes or impact.

Please note, our RI Promotion and RI Sustainable Outcomes strategies also include a positive RI tilt compared to the Index.

# Columbia Threadneedle ESG Materiality (ESGM) rating

Columbia Threadneedle ESGM ratings cover over 8,000 global companies. They give an initial, evidence-based assessment of a company, showing how sustainably it is run and how effectively it manages ESG exposures. Our ESG Materiality model is built upon the Sustainability and Accounting Standards Board (SASB®) framework, which in turn identifies material ESG risk factors for 77 industries. This model processes published data for the companies covered and assesses the management approach to ESG exposures and related operating practice standards. We rate issuers from 1 to 5. Issuers rated 1 are those of best quality whereas issuers rated 5 are weakest. We update our ratings daily and changes in an issuer's rating can provide a momentum signal for portfolio managers.

### **Carbon Intensity**

This measures carbon emissions relative to the size of a company, measured by revenues not market capitalisation. The measure used is tonnes of CO2 emitted (tCO2e) per \$1M of revenues. We give data for the overall Fund based on the weightings of the securities held, and a comparison with similar data for the Index. Carbon intensity provides an indication of carbon efficiency. This measure enables comparison with other funds and asset classes.

# **Controversies Exposure**

We assess exposure to controversies using three international frameworks covering standards of operating practice: the UN Global Compact; the International Labour Organisation Core Labour Standards; and the UN Guiding Principles on Business and Human Rights. We measure the proportion of the Fund associated with breaches of the three frameworks and give a comparison with similar data for the index.

### **MSCI ESG Score**

The MSCI score assesses effectiveness at managing ESG exposure. If the Fund score is above the Index, the Fund is overweight in companies that manage their ESG exposures better than others.

# **Responsible Investment continued**

#### Til

The "Tilt" figure shows the bias of the Fund relative to the Index. It is expressed as the arithmetic difference in the weighting. A positive tilt indicates a bias towards a "better" RI profile than the Index.

Measures are being used to compare the ESG characteristics of the fund against the Index. This index also provides a helpful benchmark against which the financial performance can be compared. Accordingly, the index is not designed to specifically consider environmental or social characteristics.

For more information on Responsible Investment (RI) or investment terms used in this document, please see the Glossary published in the Document Centre on our website: https://www.columbiathreadneedle.sg/en/retl/about-us/responsible-investment/. The decision to invest in the promoted Fund should also take into account all the characteristics or objectives of the promoted Fund as described in its prospectus/ in the information which is to be disclosed to investors in accordance with Article 23 of Directive 2011/61/EU.

The ESG materiality and carbon intensity scores are calculated on a trailing 12-month weighted average. For periods less than 12 months the rolling average will be calculated using the months available. Weighted average is computed using an equal weighting of the metric for each of the business days contained in the prior 12-month period. The carbon intensity denominator "sales" figure is a revenue measure. Coverage is the portfolio's percent of market value consisting of holdings for each applicable metric. Cash and derivatives are excluded from coverage. MSCI gives issuers a score of "Pass", "Watch List", or "Fail" depending on the degree to which they measure against principles in three documents: The UN Global Compact, the International Labor Organization Core Labour Standards, and the UN Principles on Business and Human Rights. An assignment of "Fail" for any of the three causes the holdings to reflect as controversial.

### **Important Information**

Threadneedle (Lux) is an investment company with variable capital (Société d'investissement à capital variable, or "SICAV") formed under the laws of the Grand Duchy of Luxembourg. The SICAV issues, redeems and exchanges shares of different classes, which are listed on the Luxembourg Stock Exchange. The management company of the SICAV is Threadneedle Management Luxembourg S.A, who is advised by Threadneedle Asset Management Ltd. and/or selected sub-advisors. The SICAV is registered in Austria, Belgium, France, Finland, Germany, Hong Kong, Ireland, Italy, Luxembourg, The Netherlands, Portugal, Spain, Sweden, Switzerland, Taiwan and the UK; however, this is subject to applicable jurisdictions and some sub-funds and/or share classes may not be available in all jurisdictions. Shares in the Funds may not be offered to the public in any other country and this document must not be issued, circulated or distributed other than in circumstances which do not constitute an offer to the public and are in accordance with applicable local legislation. This material is for information only and does not constitute an offer or solicitation of an order to buy or sell any securities or other financial instruments, or to provide investment advice or services.

This publication does not have regard to the specific investment objective, financial situation and particular needs of any specific person. You may wish to seek advice from a financial adviser before making any investment. In the event that you choose not to do so, you should consider whether the investment selected is suitable for you. Investments in the Threadneedle Funds are not deposits in, obligations of, or guaranteed or insured by Threadneedle Investments Singapore (Pte.) Limited ("TIS") or any of its affiliates, and are subject to investment risks, including possible loss of the principal amount invested. Unit values and income therefrom, if any, may fall or rise. Past performance is not indicative of future performance. You should read the Prospectus (including the 'Risk Factors' section for all risks applicable to investing in any Fund and specifically this Fund) and Product Highlights Sheet ("PHS") before deciding whether to subscribe for units in the Fund or making any investment decision. The Prospectus and PHS of the Fund are available from our appointed distributors or our website at www.threadneedle.sg. This publication is prepared by TIS (Registration number: 201101559W). Registered address: 3 Killiney Road, #07-07 Winsland House 1, Singapore 239519. TIS is regulated in Singapore by the Monetary Authority of Singapore under the Securities and Futures Act (Chapter 289). This advertisement has not been reviewed by the Monetary Authority of Singapore. Columbia Threadneedle Investments is the global brand name of the Columbia and Threadneedle group of companies.
