	KEY PRODUCT FI	EATURES	
 WHAT ARE YOU INVESTING IN? You are investing in a UCITS compliant sub-fund constituted in Luxembourg. If you hold distribution shares, you may receive monthly, quarterly or yearly distributions in accordance with the particular distribution share class. This is at the discretion of the directors and subject to the approval of the shareholders. However, no distribution will be carried out if it is not in your interest nor in that of other shareholders to distribute a dividend at that particular market condition. You should note that where distributions, calculated on the basis of the benchmark dividend yield, exceed the subfund's income, such distributions will be made up of a capital component and will cause a decrease in the net asset value of the sub-fund. Capitalisation shares will retain income to reinvest. 			Please refer to the Luxembourg Prospectus, Book I – General Provisions for further information on the SICAV and "The Shares" for details on the product share classes.
	Investment St	rategy	
This Sub-fund invests indirectly (through funds, i.e. UCITS, UCIs, or ETFs) in bonds or shares of issuers selected based on the best-in-class approach (which selects issuers that demonstrate superior social and environmental responsibility, while implementing robust corporate governance practices within their sector of activity) and/or sustainable thematic approach. Under normal market conditions, the sub-fund will aim to reach its performance objectives by maintaining the below asset class weightings: Equity: 75%, Bonds: 25%. ² The Sub-Fund is an ESG Fund (as defined in the Circular No. CFC 02/2022 on Disclosure and Reporting Guidelines for Retail ESG Funds issued by the Monetary Authority of Singapore).

Sustainable Investment policy

The Investment Manager applies BNP PARIBAS ASSET MANAGEMENT's Sustainable Investment Policy, which takes into account Environmental, Social and Governance (ESG) criteria in the investment process of the sub-fund, falling under the Enhanced ESG + Sustainable Thematic category, as set out in Book I of the Luxembourg Prospectus.

The Equity bucket of the sub-fund will invest indirectly (through funds, i.e. UCITS, UCIs, or ETFs) mainly in:

- companies that offer products, services and solutions helping to address specific environmental and/or social challenges, and, thus, facilitating, for example, the transition towards low-carbon, inclusive economy (sustainable thematic approach), and
- companies that demonstrate superior social and/or environmental responsibility, while implementing robust corporate governance practices within their sector of activity. These companies are selected using the bestin-class approach.

The Fixed Income bucket of the sub-fund will invest indirectly (through funds, i.e. UCITS, UCIS, or ETFs) mainly in:

- issuers whose practices, products and services meet specific environmental, social and governance criteria assessed using the best-in-class approach,
- green bonds issued by corporates, supranational sovereign agencies, local entities and/or government to support environmental projects,
- issuers selected through sustainable thematic approach (e.g., fossil free funds)

In order to meet its environmental and social characteristics and objectives, the Investment Manager selects, for at least 90% of its assets (excluding ancillary liquid assets), funds (i.e. UCITS, UCIs, or ETFs) which comply with either a selectivity approach (exclusion of at least 20% of the worst ESG-rated securities of the investment universe) or a rating upgrade approach (ESG score better than the investment universe from which at least 20% of the worst ESG-rated securities have been excluded).

Derivatives and Securities Financing Transactions

Core financial derivative instruments may be used for efficient portfolio management and hedging as described in points 2 and 3 of Appendix 2 of Book I of the Luxembourg Prospectus.

Information relating to Sustainable Finance Disclosure Regulation ("SFDR")³ and Taxonomy Regulation⁴

The sub-fund promotes environmental and / or social characteristics, provided that the companies in which the investments are made follow good governance practices, in accordance with article 8 of SFDR and will have a minimum proportion of its assets considered as sustainable investments within the meaning of SFDR.

INFORMATION ABOUT THE ENVIRONMENTAL OR SOCIAL CHARACTERISTICS RELATING TO THIS SUB-FUND IS AVAILABLE IN THE ANNEX OF THE LUXEMBOURG PROSPECTUS SET OUT IN BOOK III.

A summary of the commitments is also available in Appendix 5 of Book I of the Luxembourg Prospectus.
