¹ The Prospectus is available for collection from the Singapore Representative or Natixis Investment Managers Singapore, a division of the Singapore Representative, located at 5 Shenton Way, #22-05 UIC Building, Singapore 068808 or from their appointed Singapore distributors. Unless the context otherwise requires, terms defined in the Prospectus shall have the same meaning when used in this PHS

<ul style="list-style-type: none"> • The volatility of an asset - in the sense of "standard deviation" - is defined by the magnitude of the variation of its returns over a given period. It measures the dispersions of the asset's return around its average. • Implied volatility is defined through an indicator called "Vega". Vega is the sensitivity of the portfolio to an up-shift of the whole volatility surface of 1%. If the portfolio has a +3% Vega and the volatility moves up by 1%, the portfolio's value will move up by 3%. The "Vega" of the Fund will evolve between -2% to +3%. • The Fund invests in listed derivative instruments to gain exposure equity market volatility. The Fund will mainly be exposed to 1Y implied volatility of global equity indices. • The Fund invests up to 100% of its net assets in money-market instruments and Fixed Income securities within a residual maturity < 3 year. • The Fund may also use other derivatives for hedging and investments purposes, as described under the section "Use of Derivatives, Special Investment and Hedging Techniques" in the Luxembourg Prospectus. The Fund does not intend to enter into securities financing transactions. 	<p>SUB FUNDS paragraph in the Prospectus for further information on features of the product.</p>
