KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT? You should be aware that the price of Units can go down as well as up. The value of the product and its dividends or coupons may rise or fall. Market and Credit Risks	
<ul style="list-style-type: none"> You are exposed to market risk. You are exposed to the risk of investing in foreign securities. The investments of the Fund may be affected by political instability, exchange controls, changes in taxation, foreign investment policies and other restrictions and controls. The legal infrastructure and accounting, auditing and reporting standards in certain countries may not provide the same degree of investor protection or information to investors as would generally apply in major securities markets. the exchange rates of such currencies against the base currency of the Fund (i.e. USD) may have an impact on the income of the Fund and affect the value of Units. The Manager reserves the discretion to hedge, whether fully, partially or not at all, the foreign currency exposure of the Fund depending on the prevailing foreign exchange rates, and if no hedging or partial hedging is made, the value of the Fund may be affected. In addition, as the Fund is denominated in USD, foreign currency exchange rate movements may affect the returns to investors in Singapore, and such investors may be exposed to exchange rate risks.

- You are exposed to derivatives risk. The Manager may invest in financial derivative instruments (“FDIs”) for the purposes of hedging and/or efficient portfolio management.** FDIs involve risks different from, and in some cases, greater than, the risks presented by more traditional investments. Some of the risks associated with FDIs are market risk, management risk, credit risk, liquidity risk, moratorium risk, capital control risk, tax risk and leverage risk. **The Fund may invest into underlying funds which use or invest in FDIs, and it is possible that the Fund’s NAV may be subject to volatility due to the Fund’s or the underlying funds’ usage or investment in FDIs.**

VALUATIONS AND EXITING FROM THIS INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

The issue price and realisation price of the Units will be available on the Business Day following each Dealing Day. You may check such prices on the Manager's website (www.nikkoam.com.sg).

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

Cancellation of Units

If applicable to you, you may cancel your subscription for Units in the relevant Class by giving written notice to the Manager through the approved distributor(s) from whom you purchased your Units within 7 calendar days from the date of your subscription or purchase of the Units. Any Initial Sales Charge paid will be refunded to you. However, you will have to take the risk for any price changes in the NAV of the relevant Class since you purchased the Units.

Realisation of Units

You can exit the Fund by writing to the Manager through the approved distributor from whom you purchased your Units. If you are an institutional investor who had purchased your Units directly from the Manager, you may submit your realisation request to the Manager.

If your realisation request is received and accepted by 5 p.m. (Singapore time) on a Dealing Day, you will be paid a price based on the value of the Fund for that Dealing Day. If your realisation request is received and accepted after 5 p.m. (Singapore time), you will be paid a price based on the value of the Fund on the immediately following Dealing Day.

The realisation proceeds that you will receive are calculated by multiplying the number of Units to be realised by the realisation price. There is currently no realisation charge imposed. An example is as follows:

$$\begin{array}{rcl}
 \text{Units to be realised} & \times & \text{Realisation price} & = & \text{Realisation proceeds payable} \\
 1,000 & \times & \$1.050 & = & \$1,050.00
 \end{array}$$

The cancellation or realisation proceeds will normally be paid within seven Business Days after the relevant Dealing Day on which the cancellation or realisation request is received.

Refer to Para 10.9, 11 and 13 of the Prospectus for further information on valuation and exiting from the product.
