 PRODUCT SUITABILITY WHO IS THE PRODUCT SUITABLE FOR? The Fund is <u>only</u> suitable for investors who: are seeking long term growth potential offered through investment in equities; and are comfortable with the risks of an equity fund investing in a concentrated portfolio of securities with exposure to Asia, excluding Australia, Japan and New Zealand. WHAT ARE YOU INVESTING IN? You are investing in a fund operated by Fullerton Lux Funds ("Company"). The Company is an umbrella-structured open-ended investment company organised as a société anonyme under the laws of Luxembourg and qualifies as a SICAV. The Fund targets to achieve competitive risk adjusted returns on a relative basis. Distributions (if any) may be declared at the Company's absolute discretion out of income, capital gains and/or capital, and this may lower the Fund's NAV. Distributions out of capital may amount to a partial return of your original investment and may reduce future returns. 		in a cluding bany "). mpany g and relative cretion Fund's	Further Information Refer to paragraphs 3 and 5.4 of the Singapore Prospectus for further information on product suitability. Refer to paragraphs 1 and 3 of the Singapore Prospectus for further information on features of the product.	
		ent Strategy		
The Fund invests primarily in equities, index futures, cash and cash equivalents. Typically, the Fund will concentrate the investments in a limited number of holdings. Investments will include equities listed on exchanges in Asia, as well as equities of companies or institutions which have operations in, exposure to, or derive part of their revenue from Asia, wherever they may be listed. Indirect investments in equities may be via P-Notes where the underlying assets would comprise equities defined above. The Fund's investment in China "A" Shares listed on PRC Stock Exchanges may be made through the Stock Connects and/or any other means as may be permitted by the relevant regulations from time to time,		s in a ted on which n Asia, via P- above. Zealand.	
 The Fund may invest in ancillary liquid assets, as described in its investment objective and policy. 	
 The Fund, which Shares are Excluded Investment Products, currently may use FDIs for efficient portfolio management and hedging purposes. 	
Parties Involved	
WHO ARE YOU INVESTING WITH?	Refer to paragraph 2
 The Management Company is Lemanik Asset Management S.A. The Investment Manager and Singapore Representative is Fullerton Fund Management Company Ltd. The Depositary Bank is BNP Paribas, Luxembourg Branch. 	of the Singapore Prospectus for further information on their roles and responsibilities, and what happens if they become insolvent.
KEY RISKS	
WHAT ARE THE KEY RISKS OF THIS INVESTMENT? The value of the product and its distributions may rise or fall. These risk factors may cause you to lose some or all of your investment (including initial principal investment). You should note that the NAV of the Fund has potential for high volatility due to its investment policies or portfolio management techniques.	Refer to paragraph 5 of the Singapore Prospectus for further information on risks of the product.
Market and Credit Risks	
 You are exposed to the risk of investing in emerging and less developed markets. The legal, judicial and regulatory infrastructure of such markets is still developing and there is much legal uncertainty. You are exposed to political, regulatory and economic risks. Economic and/or political instability could lead to legal, fiscal and regulatory changes. Taxes or exchange controls can be imposed suddenly. Assets could be compulsorily re-acquired without adequate compensation. Inflation and deflation may result in a decline in the value of the Fund's portfolio. Tax law and practice in certain countries is not clearly established. Additional taxation that is not anticipated when investments are made, valued or disposed of may be imposed. You are exposed to market custody and settlement risks. Securities markets in some countries lack the liquidity, efficiency and regulatory controls of more developed markets. Provisions for custody and legal/beneficial interests and settlement procedures may be less developed than more mature markets. Depositary Bank and sub-custodians may default. The Fund may be affected by inability to repatriate income, capital or sale proceeds. You are exposed to exchange rate risks. The Fund's investments may be denominated in different currencies and affected by exchange rate fluctuations. The Fund and certain Share Classes are not denominated in the Singapore Dollar and investors may be exposed to exchange rate risks. You are exposed to currency control risks. Certain Asian currencies are not freely convertible and are subject to foreign exchange control policies and regulations. The Fund's investments may also be affected by changes in currency and exchange control policies and regulations. 	
 The Fund is not listed and you can redeem only on Dealing Days via 	
the Singapore Representative or approved distributors.	
Product-Specific Risks	
• You are exposed to concentration risks. The Fund's investment in a concentrated portfolio of securities may or may not result in higher volatility than a more diversified fund.	
 You are exposed to derivatives risks. The Fund may use FDIs and these investments carry their own specific risks. Certain investments may be subject to greater volatility, counterparty risks and higher degree of risks. Further, futures transactions may be "leveraged" or "geared". You are exposed to China QFI risks. The Fund may invest directly in QFI
