## UNITED GLOBAL DIVIDEND BALANCED FUND

(the "Sub-Fund"), a sub-fund of United Global Portfolios

Product Type	Unit Trust	Launch Date	28 November 2005
Managers	UOB Asset Management Ltd	Custodian	State Street Bank and Trust Company, Singapore Branch
Trustee	State Street Trust (SG) Limited	Dealing Frequency	Every Dealing Day
Capital Guaranteed	No	Expense Ratio for year ended 30 June 2023	2.88%

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

- The Sub-Fund is only suitable for investors who:
  - o seek regular distributions and long-term growth; and
  - o are comfortable with the volatility and risks of a scheme which invests mainly in global equities, global fixed income and money market instruments.

Further Information  
Refer to paragraph 4 of Appendix 2 of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

- You are investing in a unit trust constituted in Singapore whose investment objective is to provide investors with regular distributions and long-term growth through investments in global equities, global fixed income and money market instruments.
- The current distribution policy is to make regular monthly distributions of 4% per annum (or such other frequency or percentage as the Managers may from time to time determine) of the NAV per Unit on the last Business Day of every calendar month or such other date as the Managers may from time to time determine (each a "Distribution Date"). Distributions will be made within 30 Business Days from the relevant Distribution Date.  
**The making of distributions is at the absolute discretion of the Managers and is not guaranteed.**

Refer to paragraphs 2 and 5 of Appendix 2 of the Prospectus for further information on features of the product.

### Investment Strategy

- The Sub-Fund will primarily invest all or substantially all of its assets into the UGDBF Underlying Funds<sup>2</sup>. The Sub-Fund may also invest in other collective investment schemes.
- The Sub-Fund will invest in approximately equal proportions between its equity asset allocation and fixed income asset allocation. For the purposes of tactical asset allocation, the Managers may deviate from either asset allocation by a 20% margin. The United Global Dividend Equity Fund will represent the equity asset allocation and the other UGDBF Underlying Funds represent the fixed income asset allocation. The Managers may invest into the UGDBF Underlying Funds which represent the fixed income asset allocation in such proportions at their discretion.
- The Sub-Fund may temporarily invest or hold its assets in money market instruments, liquid instruments or cash if at any time there are no suitable investment opportunities, as a defensive measure, or to safeguard the investment portfolio in times of extreme volatility in the markets. The Sub-Fund may hold its assets in liquid instruments or cash for liquidity purposes.

Refer to paragraphs 2 and 3 of Appendix 2 of the Prospectus for further information on the investment strategy of the product.

<sup>1</sup> The Prospectus is available from the Managers (whose operating address is at 80 Raffles Place, 3<sup>rd</sup> Storey, UOB Plaza 2, Singapore 048624) or through their authorised agents or distributors during their respective business hours, or through the Managers' website at [uobam.com.sg](http://uobam.com.sg).

<sup>2</sup> More information on the UGDBF Underlying Funds can be found in the Prospectus or from [uobam.com.sg](http://uobam.com.sg). You should note that each of the UGDBF Underlying Funds are available for direct subscription in Singapore.

<ul style="list-style-type: none"> <li>The Sub-Fund may use or invest in FDIs for the purposes of hedging existing positions in a portfolio, efficient portfolio management, or a combination of both purposes.</li> <li>The Sub-Fund is <b>actively managed with reference to its benchmark</b> (as set out in the Prospectus), which is used for <b>performance comparison</b> purposes. The benchmark is neither used as a constraint on how the Sub-Fund's portfolio is to be constructed nor set as a target for the Sub-Fund's performance to beat.</li> </ul>	
<b>Parties Involved</b>	
<b>WHO ARE YOU INVESTING WITH?</b> <ul style="list-style-type: none"> <li>The Managers are UOB Asset Management Ltd.</li> <li>The Trustee is State Street Trust (SG) Limited.</li> <li>The Custodian is State Street Bank and Trust Company, Singapore Branch.</li> </ul>	Refer to <u>paragraphs 2, 3 and 21.4</u> of the Prospectus for further information on these entities and what happens if they become insolvent.
<b>KEY RISKS</b>	
<b>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</b> <b>The value of the Sub-Fund and its distributions (if any) may rise or fall. These risk factors may cause you to lose some or all of your investment:</b>	Refer to <u>paragraph 9 and paragraph 6 of Appendix 2</u> of the Prospectus for further information on risks of the product.
<b>Market and Credit Risks</b>	
<ul style="list-style-type: none"> <li><b>You are exposed to market risks in the global markets.</b> <ul style="list-style-type: none"> <li>Prices of the securities that the Sub-Fund invests in may be affected by changes in economic conditions, interest rates and the market's perception of the securities, which in turn may affect the value of your investment.</li> </ul> </li> <li><b>You are exposed to equity risks.</b> <ul style="list-style-type: none"> <li>The Sub-Fund (by itself or through a UGDBF Underlying Fund) invests in stocks and other equity securities that historically have greater price volatility than bonds and other fixed income securities. This in turn may affect the value or volatility of the Sub-Fund.</li> </ul> </li> </ul>	
<b>Liquidity Risks</b>	
<ul style="list-style-type: none"> <li><b>The Sub-Fund is not listed and you can redeem only on Dealing Days.</b> <ul style="list-style-type: none"> <li>There is no secondary market for the Sub-Fund. All realisation forms should be submitted to the Managers' authorised agents or distributors.</li> </ul> </li> <li><b>You are exposed to liquidity risk in the Sub-Fund's investments.</b> <ul style="list-style-type: none"> <li>Investments by the Sub-Fund in some Asian and/or emerging markets often involve a greater degree of risk due to the nature of such markets which do not have fully developed services such as custodian and settlement services. There may be a greater degree of volatility in such markets because of the speculative element, significant retail participation and lack of liquidity.</li> </ul> </li> </ul>	
<b>Product-Specific Risks</b>	
<ul style="list-style-type: none"> <li><b>You are exposed to debt securities risk.</b> <ul style="list-style-type: none"> <li>Investments in debt securities are subject to interest rate fluctuations and credit risks, such as risk of default by issuers. Prices of debt securities may go up or down in response to interest rate fluctuations. Adverse changes in the financial condition of the issuer of the debt securities, or in general economic conditions, or both, or an unanticipated rise in interest rates, may increase the potential for default by the issuers of these securities.</li> </ul> </li> <li><b>You are exposed to foreign exchange/currency risk.</b> <ul style="list-style-type: none"> <li>Where investments are denominated in currencies other than SGD (the denomination of the Sub-Fund), exchange rate fluctuations against the SGD may affect the value of Units. The Managers may hedge the foreign currency exposure of the Sub-Fund and may adopt an active currency management approach. Foreign currency exposure may not be fully hedged depending on the circumstances of each case, which include the outlook, hedging costs and market liquidity of the relevant currency.</li> <li>Exchange control regulations or changes thereto may affect the repatriation of funds. Certain countries maintain their currencies at artificial levels and restrict conversion of their currency, and for some currencies, there is no significant foreign exchange market. These can lead to sudden and large adjustments in such currency which can result in losses for the Sub-Fund.</li> </ul> </li> </ul>	

- **You are exposed to political risk.**
    - o Investments by the Sub-Fund may be adversely affected by political instability as well as exchange controls, changes in taxation, foreign investment policies, restrictions on repatriation and other restrictions and controls imposed by the relevant authorities in the relevant countries.
  - **You are exposed to derivatives risks.**
    - o An investment in a FDI (including foreign exchange forward contracts and equity index future contracts) may require the deposit of an initial margin and additional deposit of margin on short notice if the market moves against the investment position. If the required margin is not provided in time, the investment may be liquidated at a loss. Therefore, it is essential that investments in FDIs are monitored closely. The Managers have controls for investments in FDIs and have in place systems to monitor the FDI positions of the Sub-Fund.
  - **You are exposed to risks relating to distributions.**
    - o Dividend/interest income of the Sub-Fund may be adversely affected by (amongst others) investee entities suffering unexpected losses and/or paying lower than expected dividends. Distributions may also be made out of capital which may amount to a reduction of part of your original investment and may result in reduced future returns to you. Payment of distributions (whether out of capital or otherwise) may have the effect of lowering the Sub-Fund's NAV.
  - **You are exposed to concentration in the UGDBF Underlying Funds.**
    - o The Sub-Fund may have a large concentration of investments in each UGDBF Underlying Fund and could consequently be subject to significant losses where any UGDBF Underlying Fund declines in value or is otherwise adversely affected. The Sub-Fund will be subject to different levels and combinations of risks based on its allocation among the UGDBF Underlying Funds and the potential impact that the losses and risks of an UGDBF Underlying Fund may have on the Sub-Fund would depend on the size of the Sub-Fund's allocation to it.
- You should be aware that the Sub-Fund may be exposed to other risks of an exceptional nature from time to time.**

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

Prices of Units will generally be published 2 Business Days after the relevant Dealing Day in local or foreign publications such as The Straits Times and The Business Times, and on the Managers' website at [uobam.com.sg](http://uobam.com.sg) or any other website designated by the Managers. Prices may also be obtained from authorised agents and distributors of the Managers or by calling the Managers' hotline from 8 a.m. to 8 p.m. daily (Singapore time). To counter dilution and protect investors' interest, the Sub-Fund may apply a technique known as swing pricing as part of its valuation policy.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

- You can exit the Sub-Fund on any Dealing Day by submitting a realisation form to the authorised agent or distributor of the Managers through whom you originally purchased Units. If applicable to you and you wish to exit the Sub-Fund within the cancellation period of 7 calendar days from the time of your subscription, you may do so by submitting a cancellation form and you will not incur the subscription fee and fees stated above. However, you will have to take the risk of any price changes in the NAV of the Sub-Fund since your subscription and pay any bank charges, administrative or other fee imposed by the relevant agent or distributor.
- The Managers may limit the total number of Units which holders of the Sub-Fund may realise and which the Managers are entitled to have cancelled on any Dealing Day to 10% of the total number of Units relating to the Sub-Fund then in issue.
- You will normally receive the realisation proceeds within 7 Business Days from the Dealing Day on which your realisation form is received and accepted.
- The realisation price of your Units is determined as follows:
  - If you submit the realisation form by 3 p.m. Singapore time on a Dealing Day, you will be paid a price based on the NAV of the Sub-Fund as at the Valuation Point of that Dealing Day.
  - If you submit the realisation form after 3 p.m. Singapore time on a Dealing Day or on a day not being a Dealing Day, you will be paid a price based on the NAV of the Sub-Fund as at the Valuation Point of the next Dealing Day.
- The net realisation proceeds that you will receive will be the realisation price of the Sub-Fund multiplied by the number of Units realised, less any charges. An example is as follows:

1,000 Units	x	S\$0.900	=	S\$900.00
Your realisation request		Notional realisation price		Gross realisation proceeds
S\$900.00	–	S\$0.00	=	S\$900.00
Gross realisation proceeds		Realisation charge (0%)		Net realisation proceeds

Refer to paragraphs 10.5, 12 and 14 of the Prospectus for further information on valuation and exiting from the product.
