Letter to Shareholders

Dear Shareholder,

We are pleased to provide you with the annual report for Franklin Templeton Global Funds Plc (the "Company") for the 12-months ended 28 February 2023. In this report, we highlight the key drivers behind the performance of bond and equity markets over the period.

Global Economic Review

The global economy was impacted by a number of factors during the reporting period, including elevated and persistent inflation, aggressive monetary policy tightening, supply chain issues, the impact from COVID-19, and the repercussions from the war in Ukraine. In its January 2023 World Economic Outlook Update, the International Monetary Fund (the "IMF") modestly increased its growth projections versus its update in October 2022. The IMF said, "The balance of risks remains tilted to the downside, but adverse risks have moderated since the October 2022 World Economic Outlook. On the upside, a stronger boost from pent-up demand in numerous economies or a faster fall in inflation are plausible. On the downside, severe health outcomes in China could hold back the recovery, Russia's war in Ukraine could escalate, and tighter global financing conditions could worsen debt distress. Financial markets could also suddenly reprice in response to adverse inflation news, while further geopolitical fragmentation could hamper economic progress." All told, the IMF expects global growth to moderate from 3.4% in 2022 to 2.9% in 2023. From a regional perspective, the IMF projects 2023 GDP in the Eurozone will be 0.7% (versus +3.5% in 2022), -0.6% in the UK (versus 4.1% in 2022), and 1.8% in Japan (versus 1.4% in 2022).

Market Review - Fixed Incomei

The overall global fixed income market generated weak results during the reporting period. In the US, Treasury yields rose sharply, as inflation hit a multi-decade high. Against this backdrop, the US Federal Reserve Board ("Fed") raised the federal funds rate eight times during the reporting period, with the February 2023 rate hike pushing the fed funds rate to its highest level since 2007. US 10-year Treasury yields began the reporting period at 1.83% and ended the period at 3.92%. Rising yields also occurred in developed market countries outside the US. All told, US Treasuries and investment-grade corporate bonds posted negative returns. Lower-rated US corporate bonds and US dollar-denominated emerging market sovereign debt also generated negative returns.

Market Review - Global Equitiesiv

Global equities experienced periods of heightened volatility and performed poorly during the reporting period. Investor sentiment was impacted by high inflation, central bank tightening, fears of a global recession, and geopolitical issues. For the 12-months ended 28 February 2023, the S&P 500 Index returned -7.69%. Outside the US, international developed equities, as measured by the MSCI EAFE Index (net), returned -3.14%, whereas emerging markets equities, as measured by the MSCI Emerging Markets Index (net), returned -15.28%.

- i Fixed income bonds.
- ii Investment grade a credit rating that means a government or corporate bond has a relatively low risk of default.

We thank you for your continued support.

Yours sincerely,

Franklin Templeton International Services S.à r.l

March 2023

Past performance is no guarantee of future results. The information is not intended to be a forecast of future events, a guarantee of future results or investment advice.

All data as at 28 February 2023 unless otherwise stated.

Franklin Templeton Global Funds plc is an umbrella fund with segregated liability between sub-funds, established as an open-ended investment company with variable capital, authorised in Ireland by the Central Bank of Ireland as an undertaking for collective investment in transferable securities.

All investments involve risk, including the possible loss of principal. Past performance is no guide to future returns and may not be repeated.

This information has been prepared from sources believed reliable but is not guaranteed by Franklin Resources, Inc. company or affiliate (together "Franklin Templeton") and is not a complete summary or statement of all available data.

Opinions expressed are subject to change without notice and do not take into account the particular investment objectives, financial situation or needs of individual investors.

Before investing you should read the key investor information document and the prospectus, which describe the sub-funds' full objectives and risk factors. These and other relevant documents may be obtained in a number of languages at BNY Mellon Fund Services (Ireland) Designated Activity Company, One Dockland Central, Guild Street, IFSC, Dublin 1, Ireland, www.franklinresources.com and the registered office.

- iii Corporate bond a bond issued by a corporation to raise money effectively in order to expand its business.
- iv Equity ownership interest in a corporation in the form of common stock or preferred stock.

Revised Directors' Report

Subsequent to the approval of the Directors' Report but prior to the publication of the annual report to shareholders, the directors of the Company (the "Directors") have included additional information in the section titled "Revised Appendix: Sustainability Finance Disclosure Regulation (unaudited)" pursuant to section 366 (1)(b) and (4)(a) of the Companies Act 2014. The Directors submit their revised annual report together with the audited financial statements for the financial year ended 28 February 2023.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the directors' report and the financial statements in accordance with Irish law.

Irish company law requires the Directors to prepare financial statements for each financial year that give a true and fair view of the Company's assets, liabilities and financial position as at the end of the financial year and of the profit or loss of the Company for the financial year. The Directors have prepared the financial statements in accordance with the accounting standards generally accepted in Ireland, including Financial Reporting Standard ("FRS") 102: "The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland" ("FRS 102").

Under Irish company law, the Directors shall not approve the financial statements unless they are satisfied that they give a true and fair view of the Company's assets, liabilities and financial position as at the end of the financial year and the profit or loss of the Company for the financial year.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards in question, subject to any material departures from those standards being disclosed and explained in the notes to the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for ensuring that adequate accounting records are kept that are sufficient to:

- · correctly record and explain the transactions of the Company;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy; and
- enable the Directors to ensure that the financial statements comply with the requirements of the Companies Act 2014 and enable those financial statements to be audited.

To achieve this, the Directors have appointed an experienced administrator, BNY Mellon Fund Services (Ireland) Designated Activity Company, to maintain the accounting records and perform additional administrative duties.

The Directors are also responsible for safeguarding the assets of the Company. In fulfilment of this responsibility, they have appointed The Bank of New York Mellon SA/NV, Dublin Branch, to safekeep the Company's assets in accordance with the constitution of the Company. In addition, the Directors are responsible for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the financial statements of the Company included on the website of Franklin Templeton affiliates that distribute the Funds. Legislation in Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Review of Business and Future Developments

The Letter to Shareholders on page 16 contains a review of the factors which contributed to the performance of the Funds for the year. The Directors do not anticipate any changes to the investment objectives of the existing Funds, except as noted in Note 16 – Subsequent Events of these Financial Statements.

As at 28 February 2023, the Company has 48 active Funds (2022: 54 Funds) in operation. Details of their net asset values as at 28 February 2023 are disclosed in the Statement of Financial Position on pages 206 to 225.

Effective 27 April 2022, Franklin MV Global Equity Growth and Income Fund^ ceased trading.

Effective 21 June 2022, Legg Mason Western Asset Emerging Markets Corporate Bond Fund^ and Legg Mason Western Asset Euro High Yield Fund^ ceased trading.

Effective 11 July 2022, Franklin MV European Equity Growth and Income Fund^ ceased trading.

Effective 10 October 2022, Legg Mason Western Asset Emerging Markets Total Return Bond Fund^ ceased trading.

Effective 17 November 2022, Legg Mason ClearBridge Emerging Markets Infrastructure Fund^ ceased trading.

Effective 1 December 2022, FTGF Brandywine Global Multi-Sector Impact Fund^ commenced trading.

Effective 5 December 2022, Legg Mason Western Asset Global Inflation Management Fund^ ceased trading.

Effective 23 January 2023, Franklin Responsible Income 2028 Fund^ commenced trading.

Effective 16 February 2023, Legg Mason Western Asset Short Duration High Income Bond Fund^ ceased trading.

Risk Management Objectives and Policies

Information in relation to certain of the Company's risk management objectives and policies are included in Note 12 to financial statements.

Results for the Year and State of Affairs at 28 February 2023

Distributions to Holders of Redeemable Participating Shares

The distributions to holders of Redeemable Participating Shares for the financial years ended 28 February 2023 and 28 February 2022 are set out in the Statement of Comprehensive Income.

Significant Events

See Note 14 for details of significant events during the year.

Subsequent Events

See Note 16 for details of significant events subsequent to the year end.

Directors

The names of the persons who are currently Directors or who served as a Director at any time during the financial year are set out below.

Joseph Carrier (United States) Fionnuala Doris (Ireland) (Independent) William Jackson (United Kingdom) Joseph Keane (Ireland) (Independent) Joseph LaRocque (United States) Jaspal Sagger (United Kingdom) Jane Trust (United States)

Directors' and Secretary's Interests

The Directors and secretary and their families had no interests in the shares of the Company as at 28 February 2023 and 28 February 2022. No Director had at any time during the financial year, a material interest in any contract of significance, subsisting during or at the end of the financial year, in relation to the business of the Company.

Corporate Governance Statement

The Board of Directors of the Company (the "Board") has assessed all measures included in the voluntary Corporate Governance Code for Collective Investment Schemes and Management Companies as published by the Irish Funds in December 2011 (the "Irish Funds Code"). The Board has adopted all corporate governance practices and procedures in the Irish Funds Code.

Director's Compliance Statement

It is the policy of the Company to comply with its relevant obligations (as defined in the Companies Act 2014). As required by Section 225(2) of the Companies Act 2014, the Directors acknowledge that they are responsible for securing the Company's compliance with the relevant obligations. The Directors have drawn up a compliance policy statement as defined in Section 225(3)(a) of the Companies Act 2014 and a compliance policy which refers to the arrangements and structures that are in place and which are, in the Directors' opinion, designed to secure material compliance with the Company's relevant obligations. In discharging their responsibilities under Section 225, the Directors relied upon, among other things, the services provided, advice and/or representations from third parties whom the Directors believe have the requisite knowledge and experience in order to secure material compliance with the Company's relevant obligations.

Relevant Audit Information

So far as the Directors are aware, there is no relevant audit information of which the Company's auditors are unaware and the Directors have taken all the steps that ought to have been taken as Directors in order to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information

Connected Person Transactions

Regulation 43(1) of the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations") states that a "responsible person shall ensure that any transaction between a UCITS and a connected person is (a) conducted at arm's length; and (b) in the best interests of the unit-holders of the UCITS".

As required under Regulation 81(4) of the Central Bank UCITS Regulations, the Board is satisfied that (a) there are arrangements in place, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with connected persons; and (b) all transactions with connected persons that were entered into during the financial year complied with the obligations that are prescribed by Regulation 43(1).

Independent Auditors

PricewaterhouseCoopers have indicated their willingness to remain in office in accordance with Section 383(2) of the Companies Act 2014.

Periodic Reporting for Article 8 SFDR Products only

Transparency of the promotion of environmental or social characteristics and of sustainable investments in periodic reports

The Sustainable Finance Disclosure Regulation ((EU) 2019/2088), (the "SFDR") requires the Company to include a description in its periodic reports of the extent to which any Fund classified pursuant to Article 8 of the SFDR (an "Article 8 Fund") has met its environmental or social characteristics. The SFDR also empowered the European Banking Authority, the European Insurance and Occupational Pensions Authority and the European Securities and Markets Authority (collectively "ESAs") to develop draft regulatory technical standards ("RTS") to specify the information and presentation format in the periodic reports. The following disclosures have been prepared using the common set of sustainability disclosures or reporting requirements of the RTS which came into effect on 1 January 2023.

FTGF Western Asset US Government Liquidity Fund

Investment Objective – To maintain the principal of the Fund and provide a return in line with money market rates.

Investment Policies – The Fund invests at least 99.5% of its net asset value in: (i) eligible money market instruments issued or guaranteed separately by the European Union, the national, regional and local administrations of the Member States or their central banks, the European Central Bank, the European Investment Bank, the European Stability Mechanism, the European Financial Stability Facility, a central authority or central bank of a third country (including the US), the

FTGF Western Asset US Government Liquidity Fund - (continued)

International Monetary Fund, the International Bank for Reconstruction and Development, the Council of Europe Development Bank, the European Bank for Reconstruction and Development, the Bank for International Settlements, and any other relevant international financial institution or organisation to which one or more Member States belong and which issuers may include, without limitation, Federal National Mortgage Association (Fannie Mae), Federal Home Loan Mortgage Corporation (Freddie Mac) Government National Mortgage Association (Ginnie Mae), Student Loan Marketing Association (Sallie Mae) and Federal Home Loan Bank ("Public Debt money market instruments"); (ii) eligible reverse repurchase agreements secured with Public Debt money market instruments; and (iii) cash deposits held in US Dollars.

By way of derogation, the Fund is authorised by the Central Bank to invest up to 100% of its net asset value in Public Debt money market instruments provided that (i) it holds Public Debt money market instruments from at least six different issues by issuer, (ii) and that it limits the investment in Public Debt money market instruments from the same issue to a maximum of 30% of its net asset value. The Fund invests at least two-thirds of its net asset value in Public Debt money market instruments denominated in US Dollars and issued by US issuers. The Fund does not intend to use financial derivative instruments for any purpose.

The Fund is a short-term public debt Constant Net Asset Value ("CNAV") Money Market Fund in accordance with the requirements of the Central Bank Regulations.

FTGF Western Asset US Core Bond Fund

Investment Objective - To maximise total return through income and capital appreciation.

Investment Policies – The Fund invests at least 75 per cent of its net asset value in debt securities that are (i) listed or traded on Regulated Markets located in Developed Countries and Emerging Markets Countries; (ii) denominated in US Dollars and (iii) rated at the time of purchase at least BBB by S&P or equivalent by another NRSRO or, if not rated, deemed by the Fund's Investment Manager and Sub-Investment Manager to be of comparable quality. The Fund may invest in the following types of securities that are listed or traded on Regulated Markets: debt securities issued or guaranteed by the US government, its agencies or instrumentalities and political sub-divisions (including inflation-protected securities), corporate debt securities such as freely transferable promissory notes debentures, bonds (including zero coupon bonds), convertible and non-convertible notes, contingent convertible bonds (a maximum of 10% of the Fund's net asset value may be invested in contingent convertible bonds), credit-linked notes, commercial paper, certificates of deposits, and bankers acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; mortgage-backed and asset-backed securities; preferred shares and other open ended collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS

A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. At least two-thirds of the Fund's net asset value will be invested in investments of issuers or companies that have their registered office in the United States or that conduct a significant portion of their business activities in the United States.

The Fund may be leveraged to up to 100 per cent of its net asset value (as calculated using the commitment approach) as a result of its use of derivative instruments. The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

The Fund promotes environmental characteristics and is classified as an Article 8 pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088)

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its environmental, social and governance ("ESG") methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

The securities comprising the investment universe of the Fund are evaluated using a proprietary system and MSCI's ESG framework in order to determine the ESG rating of the overall investment universe and individual issuer and its securities and thereafter the Investment Manager selects investments for the Fund having regard to the investment policy of the Fund and the ESG ratings of the issuers of the relevant securities. While MSCI data is the primary source of ESG ratings, where MSCI ESG ratings data is unavailable, the portfolio manager may rely on a relevant Western Asset ESG rating for the issuer. As part of the assessment, the Fund uses third party ESG data, from but not limited to, MSCI and the World Bank, to measure, amongst other elements, carbon intensity for corporate and for sovereign issuers, respectively. UNSDG alignment is measured using Western Asset's proprietary framework based on the data obtained from third party data providers.

The Fund seeks to invest in securities of issuers that, in the aggregate, achieve a weighted average portfolio carbon intensity which is at least 20% lower than the Bloomberg US Aggregate Index] (the "Benchmark"). Weighted average carbon emissions intensity refers to the Greenhouse Gas ("GHG") Protocol Scope 1 and Scope 2 carbon emitted by an issuer.

As set out in the investment policy, the Fund's portfolio will maintain an average MSCI ESG rating of BBB or better which, according to MSCI's methodology, is an average or better rating compared to industry peers, indicating a credible alignment to ESG characteristics.

Additionally, the Fund will seek to align, better than the Benchmark, with regards to investments in securities of issuers whose activities contribute to at least 1 of 8 selected United Nations Sustainable Development Goals ("UNSDGs") (collectively, "UNSDGs Issuers").

FTGF Western Asset US Core Plus Bond Fund

Investment Objective - To maximise total return, consisting of capital appreciation and income.

Investment Policies – The Fund invests at least 70 per cent of its net asset value in debt securities listed or traded on Regulated Markets in the United States listed in Schedule III of the Prospectus that are rated Investment Grade or if unrated deemed by the Investment Manager and Sub-Investment Manager to be of comparable credit quality and which are issued by US Issuers. The securities in which the Fund may invest include debt securities issued or guaranteed by the US government, its agencies, instrumentalities and political sub-divisions; debt securities issued by other national governments, their agencies, instrumentalities and political sub-divisions; debt securities of supranational organisations such as freely transferable promissory notes, bonds and debentures; corporate debt securities, including freely transferable promissory notes, debentures, bonds; non-convertible notes; contingent convertible bonds (a maximum of 10% of the Fund's net asset value may be invested in contingent convertible bonds); credit-linked notes, commercial paper, certificates of deposits, and bankers acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; and mortgage-backed and asset-backed securities structured as debt securities.

A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. Subject to the limits set out in the investment policies the Fund may also invest in aggregate up to 30 per cent of its net asset value in non-publicly traded securities, Rule 144A securities, zero coupon securities, money market instruments and debt securities of non-US issuers. The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank.

The allocation and reallocation of the Fund's assets will be undertaken by the Investment Manager and Sub-Investment Manager on the basis of its analysis of economics and market conditions and the relative risks and opportunities of particular types of fixed income securities. The average portfolio duration will vary based on the Sub-Investment Manager's forecast for interest rates.

The Fund may purchase unsecuritised participations in or assignments of floating rate mortgages or other commercial loans that are liquid and will provide for interest rate adjustments at least every 397 days and which may be secured by real estate or other assets. The Fund may invest in certain types of derivatives and may be leveraged to up to 100 per cent of its net asset value as a result of its use of derivatives. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

The Fund promotes environmental characteristics and is classified as an Article 8 pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

FTGF Western Asset US Core Plus Bond Fund - (continued)

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

The securities comprising the investment universe of the Fund are evaluated using a proprietary system and MSCI's ESG framework in order to determine the ESG rating of the overall investment universe and individual issuer and its securities and thereafter the Investment Manager selects investments for the Fund having regard to the investment policy of the Fund and the ESG ratings of the issuers of the relevant securities. While MSCI data is the primary source of ESG ratings, where MSCI ESG ratings data is unavailable, the portfolio manager may rely on a relevant Western Asset ESG rating for the issuer. As part of the assessment, the Fund uses third party ESG data, from but not limited to, MSCI and the World Bank, to measure, amongst other elements, carbon intensity for corporate and for sovereign issuers, respectively. UNSDG alignment is measured using Western Asset's proprietary framework based on the data obtained from third party data providers.

The Fund seeks to invest in securities of issuers that, in the aggregate, achieve a weighted average portfolio carbon intensity which is at least 20% lower than the Bloomberg US Aggregate Index] (the "Benchmark"). Weighted average carbon emissions intensity refers to the Greenhouse Gas ("GHG") Protocol Scope 1 and Scope 2 carbon emitted by an issuer.

As set out in the investment policy, the Fund's portfolio will maintain an average MSCI ESG rating of BBB or better which, according to MSCI's methodology, is an average or better rating compared to industry peers, indicating a credible alignment to ESG characteristics.

Additionally, the Fund will seek to align, better than the Benchmark, with regards to investments in securities of issuers whose activities contribute to at least 1 of 8 selected United Nations Sustainable Development Goals ("UNSDGs") (collectively, "UNSDGs Issuers").

FTGF Western Asset Euro Core Plus Bond Fund

Investment Objective - To maximise total return, through capital appreciation and income.

Investment Policies – The Fund invests at least 70 per cent of its net asset value in debt securities denominated in Euro that are listed or traded on Regulated Markets located in Developed Countries and Emerging Market Countries as set out in Schedule III of the Prospectus. The Fund invests in the following types of securities that are listed or traded on Regulated Markets: debt securities issued or guaranteed by national governments of Developed Countries and Emerging Market Countries, their agencies, instrumentalities, and political sub-divisions (including inflation-protected securities); debt securities of supranational organisations such as freely transferable promissory notes, bonds and debentures; corporate debt securities of issuers located in or whose securities are listed or traded on Regulated Markets in Developed Countries and Emerging Market Countries, including freely transferable promissory notes, debentures, commercial paper, certificates of deposits, and bankers acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; contingent convertible bonds (a maximum of 10% of the Fund's net asset value may be invested in contingent convertible bonds); mortgage-backed and asset-backed securities; preferred shares; and other open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund will not invest in equity securities, including warrants, except for (1) preferred shares to a maximum of 10 per cent of the Fund's net asset value; and (2) equity securities acquired via conversions of convertible debt securities or via corporate actions of issuers (such as issuing equities to replace previously issued debt securities). The Fund may invest in certain types of derivatives and may be leveraged up to 100 per cent of its net asset value (as calculated using the commitment approach) as a result of its use of derivatives. The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value. The Fund may purchase unsecuritised participations in or assignments of floating rate mortgages or other commercial loans that are liquid and will provide for interest rate adjustments at least every 397 days and which may be secured by real estate or other assets.

Legg Mason Western Asset Short Duration High Income Bond Fund^ (ceased trading 16 February 2023)

Investment Objective - To provide a high level of current income.

Investment Policies – The Fund invests at least 80 per cent of its net asset value in high-yielding debt securities and instruments that are (i) denominated in US Dollars and currencies of a variety of other Developed Countries and (ii) listed or traded on Regulated Markets as set out in Schedule III of the Prospectus. Such high-yielding debt securities and instruments include: (i) corporate debt securities, including (a) freely transferable promissory notes, (b) debentures, (c) bonds (including zero coupon bonds), (d) convertible and non-convertible notes, (e) contingent convertible bonds (a maximum of 10% of the Fund's net asset value may be invested in contingent convertible bonds), (f) credit-linked notes, (g) commercial paper, (h) certificates of deposits, and (i) bankers acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; (ii) structured notes that are transferable securities, whose underlying exposure may be to fixed income securities; (iii) mortgage-backed securities; (iv) asset-backed securities; and (v) unsecuritised participations in or assignments of floating rate mortgages or other commercial loans that are liquid and will provide for interest rate adjustments at least every 397 days and which may be secured by real estate or other assets, provided that the Fund invests at least two thirds of its net asset value in non-convertible debt securities. The Fund may invest in debt securities rated as low as D by S&P or the equivalent by another NRSRO, which ratings indicate that the obligations are highly speculative and may be in default or in danger of default as to principal and interest.

The Fund's remaining assets may be invested in the following types of securities that are listed or traded on Regulated Markets: debt securities rated Investment Grade, or unrated securities deemed by the Investment Manager and Sub-Investment Manager to be of equivalent quality; preferred shares and other open ended collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations, as well as cash and Money Market Instruments. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

FTGF Western Asset Global Multi Strategy Fund

Investment Objective - To maximise total return through income and capital appreciation.

Investment Policies – The Fund invests primarily in debt securities denominated in US Dollars, Japanese Yen, Pound Sterling, Euro and a variety of other currencies and that are traded on or listed on any of the Regulated Markets located in Developed Countries and Emerging Market Countries as set out in Schedule III of the Prospectus. The Fund may invest in the following types of securities that are listed or traded on Regulated Markets: debt securities issued or guaranteed by national governments of Developed Countries and Emerging Market Countries, their agencies or instrumentalities and political subdivisions (including inflation-protected securities); debt securities of supranational organisations such as freely transferable promissory notes, bonds and debentures; corporate debt securities of issuers located in or whose securities are listed or traded on Regulated Markets in Developed Countries and Emerging Market Countries, including freely transferable promissory notes, debentures, bonds (including zero coupon bonds), Emerging Market debt securities (including Brady Bonds, Eurobonds, domestic and international bonds issued under the laws of a developing country), convertible and non-convertible notes, contingent convertible bonds (a maximum of 10% of the Fund's net asset value may be invested in contingent convertible bonds), credit-linked notes, commercial paper, certificates of deposits, and bankers acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; mortgage-backed and asset-backed securities; preferred shares and other open ended collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. The Fund may purchase unsecuritised participations in or assignments of floating rate

FTGF Western Asset Global Multi Strategy Fund - (continued)

mortgages or other commercial loans that are liquid and will provide for interest rate adjustments at least every 397 days and which may be secured by real estate or other assets. Such participations, combined with any other investments that are subject to Clause 2.1 in Schedule II.A. of the Prospectus, will not exceed 10 per cent of the net asset value of the Fund in the aggregate.

The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

The Fund promotes environmental characteristics and is classified as an Article 8 pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088)

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

The securities comprising the investment universe of the Fund are evaluated using a proprietary system and MSCI's ESG framework in order to determine the ESG rating of the overall investment universe and individual issuer and its securities and thereafter the Investment Manager selects investments for the Fund having regard to the investment policy of the Fund and the ESG ratings of the issuers of the relevant securities. While MSCI data is the primary source of ESG ratings, where MSCI ESG ratings data is unavailable, the portfolio manager may rely on a relevant Western Asset ESG rating for the issuer. As part of the assessment, the Fund uses third party ESG data, from but not limited to, MSCI and the World Bank, to measure, amongst other elements, carbon intensity for corporate and for sovereign issuers, respectively. UNSDG alignment is measured using Western Asset's proprietary framework based on the data obtained from third party data providers.

The Fund seeks to invest in securities of issuers that, in the aggregate, achieve a weighted average portfolio carbon intensity which is at least 20% lower than the 50% Bloomberg Global Aggregate Index, 25% JP Morgan Global Emerging Markets Diversified Index and 25% Bloomberg US High Yield Index (the "Benchmark"). Weighted average carbon emissions intensity refers to the Greenhouse Gas ("GHG") Protocol Scope 1 and Scope 2 carbon emitted by an issuer.

As set out in the investment policy, the Fund's portfolio will maintain an average MSCI ESG rating of BBB or better which, according to MSCI's methodology, is an average or better rating compared to industry peers, indicating a credible alignment to ESG characteristics.

Additionally, the Fund will seek to invest at least 20% of its Net Asset Value in securities of issuers whose activities contribute to at least 1 of 8 selected United Nations Sustainable Development Goals ("UNSDGs").

FTGF Western Asset US High Yield Fund

Investment Objective - To provide a high level of current income.

Investment Policies – The Fund invests at least 70 per cent of its net asset value in the following types of high-yielding debt securities of US Issuers that are denominated in US Dollars that are listed or traded on Regulated Markets as listed in Schedule III of the Prospectus: corporate debt securities, including freely transferable promissory notes, debentures, bonds (including zero coupon bonds), non-convertible notes, contingent convertible bonds (a maximum of 10% of the Fund's net asset value may be invested in contingent convertible bonds), commercial paper, certificates of deposits, and bankers' acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; structured notes that are transferable securities whose underlying exposure may be to fixed income securities; and mortgage-backed and asset-backed securities that are structured as debt securities; provided that at least two-thirds of the Fund's net asset value is invested in non-convertible debt securities. The Fund may invest in debt securities rated as low as D by S&P or the equivalent by another NRSRO, which ratings indicate that the obligations are highly speculative and may be in default or in danger of default as to principal and interest.

The Fund's remaining assets may be held in debt securities listed or traded on Regulated Markets that are rated above BB+ by S&P or or the equivalent by another NRSRO, or unrated securities deemed by the Investment Manager and Sub-Investment Manager to be of equivalent quality; preferred shares and other equity securities that are listed or traded on Regulated Markets when such investments are consistent with the Fund's investment objective of high current income; as well as cash or short term money market instruments with remaining maturities of 13 months or less. The Fund may invest up to 20 per cent of its net asset value in high-yielding corporate debt securities of non-US Issuers located in Developed Countries and Emerging Market Countries provided that such debt securities are denominated in US Dollars and such issuers are domiciled in or have their principal activities located in OECD member countries. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. At least 95 per cent of the Fund's net asset value will be US\$-denominated. The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

The Fund promotes environmental characteristics and is classified as an Article 8 pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

The securities comprising the investment universe of the Fund are evaluated using a proprietary system and MSCI's ESG framework in order to determine the ESG rating of the overall investment universe and individual issuer and its securities and thereafter the Investment Manager selects investments for the Fund having regard to the investment policy of the Fund and the ESG ratings of the issuers of relevant securities. While MSCI data is the primary source of ESG ratings, where MSCI ESG ratings data is unavailable, the portfolio manager may rely on a relevant Western Asset ESG rating for the issuer. As part of the assessment, the Fund uses third party ESG data, from but not limited to, MSCI and the World Bank, to measure, amongst other elements, carbon intensity for corporate and for sovereign issuers, respectively. UNSDG alignment is measured using Western Asset's proprietary framework based on the data obtained from third party data providers.

The Fund seeks to invest in securities of issuers that, in the aggregate, achieve a weighted average portfolio carbon intensity which is at least 20% lower than the Bloomberg US Corporate High Yield, 2% Issuer Cap Index (the "Benchmark"). Weighted average carbon emissions intensity refers to the Greenhouse Gas ("GHG") Protocol Scope 1 and Scope 2 carbon emitted by an issuer. Furthermore, the Fund seeks to have an absolute annual carbon intensity reduction.

Additionally, the Fund will seek to align, better than the Benchmark, with regards to investments in securities of issuers whose activities contribute to at least 1 of 8 selected United Nations Sustainable Development Goals ("UNSDGs") (collectively, "UNSDGs Issuers").

Legg Mason Western Asset Emerging Markets Total Return Bond Fund^ (ceased trading on 10 October 2022)

Investment Objective - To maximise total return, consisting of income and capital appreciation.

Investment Policies – The Fund invests at least 80 per cent of its net asset value in (i) debt securities of issuers located in Emerging Market Countries (hereinafter "Emerging Market Debt Securities") that are listed or traded on Regulated Markets as listed in Schedule III of the Prospectus, and (ii) units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations and such investments will be for the purpose of gaining exposure to the types of instruments described herein or otherwise to pursue the investment objective and policies of the Fund. The Fund may invest in the following types of securities that are listed or traded on Regulated Market: debt securities issued or guaranteed by national governments located in Developed Countries and Emerging Market Countries, their agencies or instrumentalities and political sub-divisions (including inflation protected securities); corporate debt securities of issuers located in developed and emerging markets whose *Not authorised for sale to the public in Hong Kong.

Legg Mason Western Asset Emerging Markets Total Return Bond Fund^ (ceased trading on 10 October 2022) - (continued)

securities are listed or traded on Regulated Markets, including freely transferable promissory notes, debentures, bonds (including zero coupon bonds), convertible and non-convertible notes, contingent convertible bonds (a maximum of 10% of the Fund's net asset value may be invested in contingent convertible bonds), commercial paper, certificates of deposits, and bankers acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; mortgage-backed securities (including collateralised debt obligations), securitised participations in loans that are freely transferable securities, structured notes that are transferable securities whose underlying exposure may be to fixed income securities; asset-backed securities; preferred shares and other open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations; and provided that at least two-thirds of the Fund's net asset value is invested in non-convertible debt securities.

A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other UCITS or other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. The Fund may purchase unsecuritised participations in or assignments of floating rate mortgages or other commercial loans that are liquid and will provide for interest rate adjustments at least every 397 days and which may be secured by real estate or other assets. Such participations, combined with any other investments that are subject to Clause 2.1 in Schedule II.A. of the Prospectus, will not exceed 10 per cent of the net asset value of the Fund in the aggregate. The Fund's investments may be denominated in currencies other than the Base Currency. The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

Legg Mason Western Asset Emerging Markets Corporate Bond Fund[^] (ceased trading on 21 June 2022)

Investment Objective - To maximise total return, consisting of income and capital appreciation

Investment Policies – The Fund invests at least 70 per cent of its net asset value in Emerging Market Corporate Bonds denominated in any currency, that are listed or traded on Regulated Markets, including (i) freely transferable promissory notes, debentures, fixed and floating rate bonds (including zero coupon bonds), convertible and non-convertible notes, commercial paper, certificates of deposits, and bankers acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; (ii) mortgage-backed securities (including collateralised debt obligations); (iii) securitised participations in loans that are freely transferable securities; (iv) structured notes that are transferable securities whose underlying exposure may be to fixed income securities; and (v) asset-backed securities.

The Fund may invest up to 30 per cent of its net asset value in the following types of securities that are listed or traded on Regulated Markets (the following may be denominated in any currency) and where they are not Emerging Market Corporate Bonds: (i) debt securities issued or guaranteed by national governments located in any country, their agencies or instrumentalities and political sub-divisions (including inflation protected securities);(ii) corporate debt securities of issuers located in countries other than Emerging Market Countries whose securities are listed or traded on Regulated Markets, including freely transferable promissory notes, debentures, fixed and floating rate bonds (including zero coupon bonds), convertible and non-convertible notes, commercial paper, certificates of deposits, and bankers acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; (iii) mortgage-backed securities (including collateralised debt obligations); (iv) securities participations in loans that are freely transferable securities; (v) structured notes that are transferable securities whose underlying exposure may be to fixed income securities; (vii) asset-backed securities; (viii) preferred shares; and (viii) other open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund may invest in common stocks, preferred securities, convertible securities, warrants, rights and their equivalents. The Fund will not invest more than 25 per cent of its net asset value in convertible debt securities issued in independent offerings and not more than 10 per cent of its net asset value in preferred shares issued in independent offerings. Investments in common stocks, preferred securities, warrants, rights and their equivalents (including through independent offerings and otherwise) in aggregate will not exceed 30 per cent of the Fund's net asset value. As restrictions to the foregoing, the Fund may not invest more than 10 per cent of its net asset value, respectively, for the following types of securities: (i) mortgage-backed securities (including collateralised debt obligations); (ii) structured notes that are transferable securities whose underlying exposure may be to fixed income securities; and (iii) asset-backed securities. The mortgage-backed securities, asset-backed securities, structured notes and credit-linked notes in which the Fund may invest may contain embedded derivatives and/or leverage. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other UCITS or other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund may be leveraged to up to 100 per cent of its net asset value (as calculated using the commitment approach) as a result of its use of derivative instruments. The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

FTGF Western Asset Global High Yield Fund

Investment Objective - To generate total return. The generation of high current income is a secondary objective.

Investment Policies – The Fund invests at least 70 per cent of its net asset value in high yielding debt securities listed or traded on Regulated Markets as listed in Schedule III of the Prospectus. Higher yields are generally available from securities rated BB+ or lower by S&P, or the equivalent by another NRSRO, or unrated securities of equivalent quality. Debt securities rated below Investment Grade are deemed by these agencies to be predominantly speculative with respect to the issuer's capacity to pay interest and repay principal and may involve major risk of exposure to adverse conditions. The Fund may invest in debt securities rated as low as D by S&P or the equivalent by another NRSRO, which ratings indicate that the obligations are highly speculative and may be in default or in danger of default as to principal and interest. A maximum of 10% of the Fund's net asset value may be invested in contingent convertible bonds. It is not expected that the Fund will invest more than 45 per cent of its net asset value in high yield securities issued in Emerging Market Countries, Emerging European Countries and/or Emerging Asia/Pacific Countries. It is expected that the Fund will invest in at least 10 different countries. The Fund is a global fund, however, and is not confined to investing in any specific country or region. The Fund may purchase unsecuritised participations in or assignments of floating rate mortgages or other commercial loans that are liquid and will provide for interest rate adjustments at least every 397 days and which may be secured by real estate or other assets. Such participations, combined with any other investments that are subject to Clause 2.1 in Schedule II.A. of the Prospectus, will not exceed 10 per cent of the net asset value of the Fund in the aggregate. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund may be leveraged to up to 100 per cent of its net asset value (as calculated using the commitment approach) as a result of its use of derivative instruments. The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

The Fund promotes environmental characteristics and is classified as an Article 8 pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

The securities comprising the investment universe of the Fund are evaluated using a proprietary system and MSCI's ESG framework in order to determine the ESG rating of the overall investment universe and individual issuer and its securities and thereafter the Investment Manager selects investments for the Fund having regard to the investment policy of the Fund and the ESG ratings of the issuers of the relevant securities. While MSCI data is the primary source of ESG ratings, where MSCI ESG ratings data is unavailable, the portfolio manager may rely on a relevant Western Asset ESG rating for the issuer. As part of the assessment, the Fund uses third party ESG data, from but not limited to, MSCI and the World Bank, to measure, amongst other elements, carbon intensity for corporate and for sovereign issuers, respectively. UNSDG alignment is measured using Western Asset's proprietary framework based on the data obtained from third party data providers.

FTGF Western Asset Global High Yield Fund - (continued)

The Fund seeks to invest in securities of issuers that, in the aggregate, achieve a weighted average portfolio carbon intensity which is at least 20% lower than the Bloomberg Barclays Global High Yield Index (Hedged) USD (the "Benchmark"). Weighted average carbon emissions intensity refers to the Greenhouse Gas ("GHG") Protocol Scope 1 and Scope 2 carbon emitted by an issuer.

Additionally, the Fund will seek to align, better than the Benchmark, with regards to investments in securities of issuers whose activities contribute to at least 1 of 8 selected United Nations Sustainable Development Goals ("UNSDGs") (collectively, "UNSDGs Issuers"). This implies that the Fund will have a higher allocation to UNSDG Issuers than the Benchmark.

Legg Mason Western Asset Global Inflation Management Fund[^] (ceased trading on 5 December 2022)

Investment Objective - To generate total return. The generation of current income is a secondary objective.

Investment Policies - The Fund seeks to achieve its investment objective by investing at all times at least 80 per cent of its net asset value in inflation-protected securities or other securities that the Investment Manager and Sub-Investment Manager believe will provide protection against inflation that are issued by national governments of countries that are members of the OECD, their agencies, instrumentalities and political sub-divisions, supranational organisations and corporate issuers such as freely transferable promissory notes, debentures and bonds and are listed or traded on Regulated Markets as set out in Schedule III of the Prospectus. The Fund may also invest up to 20 per cent of its net asset value in any other types of debt securities listed or traded on Regulated Markets listed in Schedule III of the Prospectus that may or may not be indexed to inflation including debt securities issued or guaranteed by the national governments, their agencies, instrumentalities, and political subdivisions (including STRIP securities); corporate debt securities such as freely transferable promissory notes, debentures, bonds (including zero coupon bonds, step-up securities, and payment-in-kind securities), commercial paper, certificates of deposit, and bankers' acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; mortgage-backed and asset-backed securities structured as debt instruments; reverse repurchase agreements with debt securities as the underlying instruments (for efficient portfolio management purposes only and subject to the requirements of the Central Bank); structured notes that are transferable securities whose underlying exposure may be to fixed income securities; securitised participations in loans that are freely transferable securities; Money Market Instruments; units or shares of other open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations; and (subject to a limit of 10 per cent of the Fund's net asset value) preferred shares and other equity and equity related securities. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68 (1)(e) of the UCITS Regulations. The Fund will not invest in securities rated below Investment Grade. A maximum of 5 per cent of the Fund's net asset value may be invested in securities which are listed or traded on a Regulated Market in any Emerging Market Country, Emerging European Country or Emerging Asia/Pacific Country. It is expected that the Fund will maintain an average credit quality between A and AAA (S&P) / A2 and Aaa (Moody's). The Fund's average portfolio duration is expected to be between one and fifteen years. However, the Fund may invest in individual securities of any

The Fund may invest in certain types of derivatives, and may be leveraged to up to 100 per cent of its net asset value (as calculated using the commitment approach) as a result of its use of derivative instruments. The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

FTGF Western Asset Asian Opportunities Fund

Investment Objective - To maximise total return, through income and capital appreciation.

Investment Policies – The Fund invests at least 70 per cent of its net asset value in debt securities issued by Asian issuers and in derivatives on Asian interest rates and currencies, which debt securities and derivatives are listed or traded on Regulated Markets as set out in Schedule III of the Prospectus. The Fund invests primarily in (i) debt securities issued or guaranteed by national governments located in Asian countries, their agencies, instrumentalities or political sub-divisions; (ii) corporate debt securities issued by Asian companies such as freely transferable promissory notes, debentures, bonds (including zero coupon bonds), contingent convertible bonds (a maximum of 10% of the Fund's net asset value may be invested in contingent convertible bonds), commercial paper, certificates of deposits and bankers acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; (iii) securitised participations in loans that are freely transferable securities; (iv) structured notes that are transferable securities whose underlying exposure may be to fixed income securities; (v) mortgage-backed and asset-backed securities that are structured as debt securities; (vi) derivatives on Asian interest rates and Asian bonds concluded with highly rated Asian or global credit institutions; (vii) Asian currencies and derivatives on those currencies. For purposes of this Fund, an Asian company is a company which has its registered office located in an Asian country or that conducts the predominant portion of its economic activities in Asia.

The Fund may invest no more than 10 per cent of its net asset value in units or shares of other open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. A maximum of 25 per cent of the Fund's net asset value may be invested in convertible notes and up to 10 per cent of the Fund's net asset value may be invested in preferred shares, other equity securities and/or warrants. A maximum of 5 per cent of the Fund's net asset value may be invested in warrants.

The Fund may be leveraged to up to 100 per cent of its net asset value (as calculated using the commitment approach) as a result of its use of derivative instruments. The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

FTGF Western Asset Short Duration Blue Chip Bond Fund

Investment Objective - To achieve total return, through income and capital appreciation.

Investment Policies – The Fund invests primarily in debt securities that are (i) rated A- or higher by S&P or the equivalent by another NRSRO, or if unrated deemed to be of comparable quality; (ii) (a) issued by corporate issuers domiciled in any jurisdiction other than an Emerging Market Country which are, at the time of purchase and in the opinion of the Sub-Investment Managers, "blue chip" companies, meaning they have a long-term debt rating of A- or higher by S&P or the equivalent by another NRSRO, or if unrated are deemed to be of comparable quality; and/or (b) issued by supranational organisations which have a long-term debt rating of A- or higher by S&P or the equivalent by another NRSRO, or if unrated are deemed to be of comparable quality; and (iii) listed or traded on Regulated Markets set out in Schedule III of the Prospectus.

The Fund will only invest in those corporate debt securities that in the opinion of the relevant Investment Manager and Sub-Investment Manager are ranked at least senior unsecured corporate debt securities of the relevant issuer. In addition, the Fund may invest in securities issued or guaranteed by national governments (including STRIPS and inflation index-linked securities), their agencies, instrumentalities and political sub-divisions, securities of supranational organisations such as freely transferable promissory notes, bonds and debentures; reverse repurchase agreements with debt securities as the underlying instruments (for efficient portfolio management purposes only and subject to the requirements of the Central Bank of Ireland); and other open-ended collective investment schemes within the meaning of Regulation 68(1) (e) of the UCITS Regulations. The Fund may invest no more than 10 per cent of its net asset value in units or shares of other UCITS or other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund may invest in certain types of derivatives, and the Fund's leverage arising from derivatives is not expected to exceed 50 per cent (as calculated using the commitment approach) of its total net asset value. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable ^ Not authorised for sale to the public in Hong Kong.

FTGF Western Asset Short Duration Blue Chip Bond Fund - (continued)

economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

The securities comprising the investment universe of the Fund are evaluated using a proprietary system and MSCI's ESG framework in order to determine the ESG rating of the overall investment universe and each individual issuer and its securities and thereafter the Investment Manager selects investments for the Fund having regard to the investment policy of the Fund and the ESG ratings of the issuers of relevant securities.

The Fund seeks to invest in securities of issuers that, in the aggregate, achieve a weighted average portfolio carbon intensity which is at least 20% lower than the ICE BofA Global Corporate 1 – 5 year AAA-A Global Large Cap Corporate 30% Financial Constrained Index (the "Benchmark"). The Investment Manager defines carbon footprint as the weighted average of carbon emissions intensity of securities held within the portfolio. Weighted average carbon emissions intensity refers to the Greenhouse Gas ("GHG") Protocol Scope 1 and Scope 2 carbon emitted by an issuer.

The Fund's portfolio will maintain an average MSCI ESG rating of BBB or better which, according to MSCI's methodology, is an average or better rating compared to industry peers, indicating a credible alignment to ESG characteristics. The Fund may invest no more than 10% of its net asset value in securities of issuers with MSCI ESG ratings of BB or below at the time of purchase. As a result of the integrated approach to ESG, the Investment Manager applies ESG ratings to at least 90% of the securities in which the Fund invests. The Fund will maintain a portfolio ESG rating higher than that of the Fund's investment universe. Additionally, the Fund will seek to invest at least 20% of its net asset value in securities of issuers whose activities contribute to at least 1 of 8 selected United Nations Sustainable Development Goals (UNSDGs).

The Fund will exclude investments in securities of the following issuers:

- Issuers that do not follow good governance practices, as determined by the Investment Manager;
- Issuers deriving over 5% of revenue from tobacco production and/or distribution;
- Issuers deriving over 10% of revenue from:
- civilian firearms (manufacturing/ supply),
- any involvement in conventional weapons,
- thermal coal mining (production/distribution),
- Issuers deriving over 5% of revenue from the production of nuclear weapons;
- Issuers that manufacture controversial weapons (i.e. anti-personnel landmines, biochemical weapons, blinding laser weapons, depleted uranium, incendiary weapons, and non-detectable fragments), own a controversial weapons company, or are owned by a controversial weapons company;
- Issuers assessed as "fail" under the UN Global Compact; and
- State and/or sovereign issuers that score inadequately according to the Freedom House Index.

The Investment Manager will engage with issuers on environmental, social and governance practices through conversations with management. The Investment Manager's engagement process seeks to align with the United Nations Global Compact principles.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

FTGF Western Asset Global Core Plus Bond Fund^

Investment Objective – To maximise total return through income and capital appreciation.

Investment Policies – The Fund invests at least two-thirds of its net asset value in the global fixed income markets. The Fund invests primarily in debt securities (either directly or indirectly in other collective investment schemes that primarily invest in such securities, subject to the restrictions herein) that are denominated in US Dollars, Euro, Japanese Yen, Pound Sterling and variety of other currencies and are listed or traded on Regulated Markets in Developed Countries and Emerging Market Countries with a bias toward non-sovereign debt securities, especially corporate debt securities and mortgage-backed securities. The Fund may invest in non-US denominated securities, currencies and derivatives, provided that the aggregate exposure to currencies other than US Dollars (after hedging) is no more than 50 per cent of the Fund's net asset value.

The Fund invests in securities issued or guaranteed by national governments, their agencies, instrumentalities, and political sub-divisions (including STRIPS and inflation index-linked securities); securities of supranational organisations such as freely transferable promissory notes, bonds and debentures; corporate debt securities such as freely transferable promissory notes, debentures, Brady Bonds, adjustable rate bonds, floating rate bonds, planned amortisation bonds, targeted amortisation bonds, principal only bonds, Eurobonds, Eurodollar bonds and Yankee dollar instruments, payment-in-kind bonds, zero coupon bonds, non-convertible notes, contingent convertible bonds (a maximum of 10% of the Fund's net asset value may be invested in contingent convertible bonds), commercial paper, certificates of deposit, and bankers' acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; mortgage-backed and asset-backed securities that are structured as debt securities; and reverse repurchase agreements with debt securities as the underlying instruments (for efficient portfolio management purposes only and subject to the requirements of the Central Bank). The Fund may invest no more than 10 per cent of its net asset value in units or shares of other UCITS or other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund may purchase unsecuritised participations in or assignments of floating rate mortgages or other commercial loans that are liquid and will provide for interest rate adjustments at least every 397 days and which may be secured by real estate or other assets. The Fund may invest in certain types of derivatives and may be leveraged to up to 100 per cent of its net asset value as a result of its use of derivatives. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

The Fund promotes environmental characteristics and is classified as an Article 8 pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

The securities comprising the investment universe of the Fund are evaluated using a proprietary system and MSCI's ESG framework in order to determine the ESG rating of the overall investment universe and individual issuer and its securities and thereafter the Investment Manager selects investments for the Fund having regard to the investment policy of the Fund and the ESG ratings of the issuers of the relevant securities. While MSCI data is the primary source of ESG ratings, where MSCI ESG ratings data is unavailable, the portfolio manager may rely on a relevant Western Asset ESG rating for the issuer. As part of the assessment, the Fund uses third party ESG data, from but not limited to, MSCI and the World Bank, to measure, amongst other elements, carbon intensity for corporate and for sovereign issuers, respectively. UNSDG alignment is measured using Western Asset's proprietary framework based on the data obtained from third party data providers.

The Fund seeks to invest in securities of issuers that, in the aggregate, achieve a weighted average portfolio carbon intensity which is at least 20% lower than the Bloomberg Global Aggregate Index (Hedged) USD (the "Benchmark. Weighted average carbon emissions intensity refers to the Greenhouse Gas ("GHG") Protocol Scope 1 and Scope 2 carbon emitted by an issuer.

As set out in the investment policy, the Fund's portfolio will maintain an average MSCI ESG rating of BBB or better which, according to MSCI's methodology, is an average or better rating compared to industry peers, indicating a credible alignment to ESG characteristics.

FTGF Western Asset Global Core Plus Bond Fund^ - (continued)

Additionally, the Fund will seek to align, better than the Benchmark, with regards to investments in securities of issuers whose activities contribute to at least 1 of 8 selected United Nations Sustainable Development Goals ("UNSDGs") (collectively, "UNSDGs Issuers").

FTGF Western Asset Global Credit Fund^

Investment Objective - To maximise total return through income and capital appreciation.

Investment Policies – The Fund invests at least two-thirds of its net asset value in corporate debt securities and debts securities issued by supranational organisations that are (i) denominated in US Dollars, Japanese Yen, Euro, Pound Sterling and a variety of other currencies, and (ii) listed or traded on Regulated Markets set out in Schedule III of the Prospectus. The types of corporate debt securities in which the Fund may invest include freely transferable promissory notes, fixed and floating rate bonds, zero coupon bonds, debentures, non-convertible notes, contingent convertible bonds (a maximum of 10% of the Fund's net asset value may be invested in contingent convertible bonds), commercial paper, certificates of deposit and bankers' acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations. In addition, the Fund may invest in securities issued or guaranteed by national governments (including STRIPS and inflation index-linked securities), their agencies, instrumentalities and political sub-divisions, securities of supranational organisations such as freely transferable promissory notes, bonds and debentures; securitied participations in loans that are freely transferable securities; tructured notes that are freely transferable securities; mortgage-backed securities debt instruments; reverse repurchase agreements with debt securities as the underlying instruments (for efficient portfolio management purposes only and subject to the requirements of the Central Bank); and other open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund will not purchase equity securities or beneficial interests in equity securities except for preferred shares or warrants, provided that no more than 10 per cent of the Fund's net asset value may be invested in preferred shares and/or warrants; and equity securities acquired via conversions of convertible debt securities or via corporate actions of issuers. The Fund may invest no more than 10 per cent of its net asset value in units or shares of other UCITS or other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund may purchase securities that at the time of purchase are rated below Investment Grade or, if unrated, deemed by the Investment Manager and Sub-Investment Managers to be of comparable quality, so long as such purchase would not cause more than 10 per cent of the Fund's net asset value to be comprised of investments that are rated below Investment Grade or if unrated deemed by the Investment Manager and Sub-Investment Managers to be of comparable quality. The Fund may invest in certain types of derivatives and may be leveraged to up to 100 per cent of its net asset value (as calculated using the commitment approach) as a result of its use of derivatives. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

Legg Mason Western Asset Euro High Yield Fund[^] (ceased trading on 21 June 2022)

Investment Objective - To provide a high level of current income

Investment Policies – The Fund invests at least two-thirds of its net asset value in high-yielding debt securities that are denominated in Euro, listed or traded on Regulated Markets listed in Schedule III of the Prospectus and from issuers located anywhere in the world.

The Fund seeks to achieve its investment objective by investing in debt securities issued or guaranteed by national governments, their agencies, instrumentalities and political sub-divisions; corporate debt securities, including freely transferable promissory notes, debentures, Brady Bonds, adjustable rate bonds, floating rate bonds, planned amortisation bonds, targeted amortisation bonds, principal only bonds, Eurobonds, Eurobonds and Yankee dollar instruments, payment-in-kind bonds, zero coupon bonds, non-convertible notes, commercial paper, certificates of deposit, and bankers' acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; securitised participations in loans that are transferable securities; structured notes that are transferable securities; mortgage-backed securities; and asset-backed securities that are structured as debt securities.

Subject to the above restrictions, the Fund's remaining assets (being not more than one-third of its net asset value) may be held in (i) debt securities rated above BB+ by S&P or the equivalent by another NRSRO, or unrated securities deemed by the Investment Manager and Sub-Investment Managers to be of equivalent quality; (ii) preferred shares and warrants when such investments are consistent with the Fund's investment objective of high current income; as well as (iii) cash or short term money market instruments with remaining maturities of 13 months or less, which are instruments normally dealt in on the money market which are liquid (i.e., capable of being converted to cash within 7 business days at a price closely approximating its current valuation and may include any of the following investments with maturities of 13 months of less: (a) debt securities that are issued or guaranteed by the national governments, their agencies, instrumentalities or political sub-divisions; (b) corporate debt securities including freely transferable promissory notes, debentures, bonds (including zero coupon bonds), convertible and non-convertible notes, commercial paper, certificates of deposit, and bankers' acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; (c) mortgage-backed securities; (d) structured notes that are transferable securities; (e) securities; (e) securities participations in loans that are transferable securities; (f) warrants; (g) asset-backed securities; and (h) reverse repurchase agreements (for efficient portfolio management purposes only and subject to the requirements of the Central Bank). The Fund may invest no more than 10 per cent of its net asset value in units or shares of other UCITS or other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund may invest in certain types of derivatives and may be leveraged to up to 100 per cent of its net asset value (as calculated using the commitment approach) as a result of its use of derivative instruments. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 25 per cent of its net asset value.

FTGF Western Asset Macro Opportunities Bond Fund^

Investment Objective – To maximise total return, consisting of income and capital appreciation.

Investment Policies – The Fund invests in (i) debt securities, convertible bonds, preferred shares and warrants that are listed or traded on Regulated Markets located anywhere in the world, including Emerging Market Countries; (ii) units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations and such investments will be for the purposes of gaining exposure to the types of instruments described herein or otherwise to pursue the investment objective and policies of the Fund, and (iii) derivatives. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund may invest in corporate debt securities such as freely transferable promissory notes, debentures, fixed and floating rate bonds, zero coupon bonds, non-convertible notes, contingent convertible bonds (a maximum of 10% of the Fund's net asset value may be invested in contingent convertible bonds), commercial paper, certificates of deposit, and bankers' acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; structured notes that are transferable securities, whose underlying exposure may be to fixed income securities, provided that the Fund would be permitted to invest directly in such underlying fixed income securities; securities; securities descurities are structured as debt securities; and reverse repurchase agreements with debt securities as the underlying instruments (for efficient portfolio management purposes only); debt securities issued or guaranteed by national governments and their agencies, instrumentalities and political sub-divisions; STRIPS and inflation index-linked securities; and debt securities of supranational organisations such as freely transferable promissory notes, bonds and debentures.

The Fund may extensively invest (whether for investment purposes or the purposes of efficient portfolio management) in certain types of financial derivative instruments. The Fund has a high leverage limit. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

FTGF Western Asset Multi-Asset Credit Fund^

Investment Objective – To generate total return through income and capital appreciation.

Investment Policies – The Fund invests in a globally diverse portfolio of debt securities and derivatives that may provide exposure to debt securities, interest rates, currencies and indices. The Fund may invest in corporate debt securities such as freely transferable promissory notes, debentures, fixed and floating rate bonds, zero coupon bonds, non-convertible notes, contingent convertible bonds (a maximum of 10% of the Fund's net asset value may be invested in contingent convertible bonds), credit-linked notes, commercial paper, certificates of deposit, and bankers' acceptances; Money Market Instruments; securitised participations in loans that are transferable securities; mortgage-backed and asset-backed securities that are structured as debt securities; and reverse repurchase agreements with debt securities as the underlying instruments (for efficient portfolio management purposes only); debt securities issued or guaranteed by national governments and their agencies, instrumentalities and political subdivisions; STRIPS and inflation index-linked securities; and debt securities of supranational organisations such as freely transferable promissory notes, bonds and debentures. Securities participations in loans are listed securities and investment in such securities will be limited to 50 per cent of the Fund's net asset value.

The Investment Manager and Sub-Investment Managers expect the average duration of the Fund's investments to range between 0 and 10 years, depending on the Investment Manager and Sub-Investment Managers' forecast for interest rates and yields. The Fund may invest up to 10 per cent of its net asset value in units or shares of other UCITS or other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations, including open-ended exchange traded funds (including equity exchange traded funds).

The Fund may invest extensively in certain types of derivatives. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

FTGF Western Asset Structured Opportunities Fund^

Investment Objective - To maximise total return, consisting of income and capital appreciation.

Investment Policies – The Fund invests at least 65 per cent of its net asset value in mortgage-backed securities ("MBS") and asset-backed securities ("ABS") which are issued by non-governmental issuers and are not guaranteed by US government-sponsored entities such as FNMA or FHLMC and/or by agencies of the US government such as GNMA. Such securities will be listed or traded on Regulated Markets located anywhere in the world, including Emerging Market Countries.

The types of MBS in which the Fund may invest include interest-only, inverse-interest only, or principal only residential MBS, commercial MBS, collateralised mortgage obligations ("CMOs"), securities issued by Real Estate Mortgage Investment Conduits ("REMICs"), Re-securitised Real Estate Mortgage Investment Conduits ("Re-REMICs") (which comply with the requirements of the Securitisation Regulation, up to a maximum of 7.5% of the Fund's net asset value), pass-through certificates, mortgage forwards or "to be announced" transactions, collateralised loan obligations backed by commercial loans, credit-linked notes and mortgage servicing rights securities. Pass-through certificates are fixed income securities whereby certificates are issued representing interests in a pool of mortgages or mortgage-backed securities.

The Fund may invest up to 35 per cent of its net asset value in aggregate in: mortgage-backed securities issued or guaranteed by an Agency; asset-backed securities which are guaranteed by an Agency; debt issued or guaranteed by corporations such as promissory notes, bonds (including zero coupon bonds), convertible and non-convertible notes and debentures, securitised participations in loans that are transferable securities, structured notes, preferred stocks, commercial paper, certificates of deposit, time deposits, repurchase agreements and reverse repurchase agreements (that may be used for efficient portfolio management purposes) and dollar rolls; bankers acceptances, including debt securities of corporations that are owned, partially owned, or whose obligations are guaranteed by a federal government, its agencies, or other dedral government entities; debt securities issued or guaranteed by federal, state, local and city governments and their agencies, instrumentalities, municipalities, and sub-divisions; commercial paper; cash and Money Market Instruments. The Fund may invest no more than 10 per cent of its net asset value in units or shares of other UCITS or other collective investment schemes (including open-ended exchange-traded funds) within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund may extensively invest (whether for investment purposes or the purposes of efficient portfolio management) in certain types of derivatives. The Fund's maximum exposure to Securities Financing Transactions (SFTs) and total return swaps, based on the notional value of such instruments, is 100 per cent of the Fund's net asset value.

FTGF Western Asset US Mortgage-Backed Securities Fund^

Investment Objective – To maximise total return, consisting of income and capital appreciation.

Investment Policies – The Fund invests at least 80 per cent of its net asset value in mortgage-backed securities (including collateralised mortgage obligations) that are (i) denominated in US Dollars, (ii) issued or guaranteed by the US government, its agencies, instrumentalities and political sub-divisions, and by US-government sponsored entities, and (iii) listed or traded on Regulated Markets located in the United States and set out in Schedule III of the Prospectus. The Fund may invest or hold up to 20 per cent of its net asset value in obligations of the US Treasury, obligations issued or guaranteed by US government agencies, and US Dollar denominated cash equivalents, including money market funds and reverse repurchase agreements (for efficient portfolio management purposes only). The Fund will only purchase debt securities rated at least B- by S&P or its equivalent by another NRSRO or, if unrated, deemed to be of comparable quality by the Investment Manager and Sub-Investment Managers. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund will not be leveraged in excess of 100 per cent of its net asset value. The Fund's maximum exposure to Securities Financing Transactions (SFTs) and total return swaps, based on the notional value of such instruments, is 100 per cent of the Fund's net asset value.

FTGF Western Asset UK Investment Grade Credit Fund^

Investment Objective – To maximise total return through income and capital appreciation.

Investment Policies – The Fund invests at least 70 per cent of its net asset value in corporate debt securities and debt securities issued by supranational organisations that are listed or traded on Regulated Markets in the United Kingdom and other Regulated Markets and are denominated in Pound Sterling.

The Fund may invest in corporate debt securities, including freely transferable promissory notes, fixed and floating rate bonds, zero coupon bonds, debentures, non-convertible notes, contingent convertible bonds (a maximum of 10% of the Fund's net asset value may be invested in contingent convertible bonds), commercial paper, certificates of deposit and bankers' acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations.

In addition, the Fund may invest in securities issued or guaranteed by national governments and their agencies, instrumentalities and political sub-divisions; STRIPS and inflation index-linked securities; securities of supranational organisations such as freely transferable promissory notes, bonds and debentures, securities described participations in loans that are freely transferable securities whose underlying exposure may be to fixed income securities; mortgage-backed securities (including collateralised mortgage obligations) and asset-backed securities that are structured as debt securities. The Fund may invest no more than 10 per cent of its net asset value in units or shares of other UCITS or other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

The Fund promotes environmental characteristics and is classified as an Article 8 pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

FTGF Western Asset UK Investment Grade Credit Fund^ - (continued)

The securities comprising the investment universe of the Fund are evaluated using a proprietary system and MSCI's ESG framework in order to determine the ESG rating of the overall investment universe and individual issuer and its securities and thereafter the Investment Manager selects investments for the Fund having regard to the investment policy of the Fund and the ESG ratings of the issuers of the relevant securities. While MSCI data is the primary source of ESG ratings, where MSCI ESG ratings data is unavailable, the portfolio manager may rely on a relevant Western Asset ESG rating for the issuer. As part of the assessment, the Fund uses third party ESG data, from but not limited to, MSCI and the World Bank, to measure, amongst other elements, carbon intensity for corporate and for sovereign issuers, respectively. UNSDG alignment is measured using Western Asset's proprietary framework based on the data obtained from third party data providers.

The Fund seeks to invest in securities of issuers that, in the aggregate, achieve a weighted average portfolio carbon intensity which is at least 20% lower than the ICE BofA Sterling Non-Gilts Index (the "Benchmark"). Weighted average carbon emissions intensity refers to the Greenhouse Gas ("GHG") Protocol Scope 1 and Scope 2 carbon emitted by an issuer. Furthermore, the Fund seeks to have an annual reduction in weighted average carbon intensity.

As set out in the investment policy, the Fund's portfolio will maintain an average MSCI ESG rating of BBB or better which, according to MSCI's methodology, is an average or better rating compared to industry peers, indicating a credible alignment to ESG characteristics.

FTGF Western Asset US Corporate Bond Fund[^]

Investment Objective - To maximise total return through income and capital appreciation.

Investment Policies – The Fund invests at all times at least two-thirds of its net asset value in corporate debt securities that are (i) denominated in US Dollars, and (ii) listed or traded on Regulated Markets set out in Schedule III of the Prospectus.

The types of corporate debt securities in which the Fund may invest include freely transferable promissory notes, fixed and floating rate bonds, zero coupon bonds, debentures, non-convertible notes, contingent convertible bonds (a maximum of 10% of the Fund's net asset value may be invested in contingent convertible bonds), commercial paper, certificates of deposit and bankers' acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations.

In addition, the Fund may invest in securities issued or guaranteed by national governments (including STRIPS and inflation index-linked securities), their agencies, instrumentalities and political sub-divisions, securities of supranational organisations such as freely transferable promissory notes, bonds and debentures; securitiesd participations in loans that are freely transferable securities; mortgage-backed securities (including collateralised mortgage obligations); asset-backed securities structured as debt instruments; reverse repurchase agreements with debt securities as the underlying instruments (for efficient portfolio management purposes only and subject to the requirements of the Central Bank); and other open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations, and such investments will be for the purposes of gaining exposure to the types of instruments described herein or otherwise to pursue the investment objective and policies of the Fund. The Fund may invest no more than 10 per cent of its net asset value in units or shares of other UCITS or other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund may invest in certain types of derivatives, and may be leveraged to up to 100 per cent of its net asset value as a result of its use of derivative instruments. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

The Fund promotes environmental characteristics and is classified as an Article 8 pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

The securities comprising the investment universe of the Fund are evaluated using a proprietary system and MSCI's ESG framework in order to determine the ESG rating of the overall investment universe and individual issuer and its securities and thereafter the Investment Manager selects investments for the Fund having regard to the investment policy of the Fund and the ESG ratings of the issuers of the relevant securities. While MSCI data is the primary source of ESG ratings, where MSCI ESG ratings data is unavailable, the portfolio manager may rely on a relevant Western Asset ESG rating for the issuer. As part of the assessment, the Fund uses third party ESG data, from but not limited to, MSCI and the World Bank, to measure, amongst other elements, carbon intensity for corporate and for sovereign issuers, respectively. UNSDG alignment is measured using Western Asset's proprietary framework based on the data obtained from third party data providers.

The Fund seeks to invest in securities of issuers that, in the aggregate, achieve a weighted average portfolio carbon intensity which is at least 20% lower than the Bloomberg US Credit Index (the "Benchmark"). Weighted average carbon emissions intensity refers to the Greenhouse Gas ("GHG") Protocol Scope 1 and Scope 2 carbon emitted by an issuer. Furthermore, the Fund seeks to have an annual reduction in weighted average carbon intensity.

As set out in the investment policy, the Fund's portfolio will maintain an average MSCI ESG rating of BBB or better which, according to MSCI's methodology, is an average or better rating compared to industry peers, indicating a credible alignment to ESG characteristics.

Western Asset UCITS SMASh Series Core Plus Completion Fund^

Investment Objective – To maximise total return, consisting of capital appreciation and income.

Investment Policies – The Fund invests at least 70% of its NAV in debt securities listed or traded on Regulated Markets in the United States listed in Schedule III of the Prospectus and which are issued by issuers located anywhere in the world. The types of debt securities in which the Fund may invest include: debt securities issued or guaranteed by the United States government, its agencies, instrumentalities and political sub-divisions; debt securities issued by other national governments, their agencies, instrumentalities and political sub-divisions; debt securities promissory notes, bonds and debentures; corporate debt securities, including freely transferable promissory notes, debentures, fixed or floating bonds; convertible debt; non-convertible notes; credit-linked notes, commercial paper, certificates of deposits, and bankers acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; and mortgage-backed and asset-backed securities structured as debt securities.

The Fund may have exposure of up to 75% of its net asset value to mortgage-backed and asset-backed securities. The mortgage-backed and asset-backed securities and credit-linked notes in which the Fund invests may contain embedded derivatives and/or leverage, and the Fund may be leveraged as a result, subject to the overall leverage limits set forth below.

A maximum of 25% of the Fund's net asset value may be invested in convertible debt securities. Up to 10% of the Fund's net asset value may be invested in preferred shares or other equity securities, including warrants (a maximum of 5% of the Fund's net asset value may be invested in warrants). A maximum of 20% of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. Subject to the above limitations, the Fund may also invest in aggregate no more than 30% of its net asset value in non-publicly traded securities, Rule 144A securities, zero coupon securities (excluding securities issued by the United States government and its agencies), and Money Market Instruments.

FTGF Western Asset Sustainable Global Corporate Bond Fund^

Investment Objective - To maximise total return through income and capital appreciation.

Investment Policies – The Fund invests at least 70% of its net asset value in corporate debt securities and debt securities issued by supranational organisations that are (i) denominated in US Dollars, Japanese Yen, Euro, Pound Sterling and a variety of other currencies, and (ii) listed or traded on Regulated Markets set out in Schedule III of the Prospectus. In addition, the Fund may invest in securities issued or guaranteed by national governments (including STRIPS and inflation index-linked securities), their agencies, instrumentalities and political sub-divisions, securities of supranational organisations such as freely transferable bonds and debentures; Reverse Repurchase Agreements with debt securities as the underlying instruments (for efficient portfolio management purposes only and subject to the requirements of the Central Bank); and other open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

FTGF Western Asset Sustainable Global Corporate Bond Fund^ - (continued)

Subject to the above restriction, a maximum of 10% of the Fund's net asset value may be invested in convertible debt securities and/or debt securities with an option to acquire equity securities. The Fund will not purchase equity securities or beneficial interests in equity securities except for (1) preferred shares, provided that no more than 10% of the Fund's net asset value may be invested in preferred shares; and (2) equity securities acquired via conversions of convertible debt securities or via corporate actions of issuers (such as issuing equities to replace previously issued debt securities). No more than 5% of the Fund's net asset value may be exposed to currencies other than the US Dollar. Subject to the above restrictions, the Fund may invest no more than 10% of its net asset value in units or shares of other UCITS or other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

The securities comprising the investment universe of the Fund are evaluated using both a proprietary system and MSCI's ESG framework in order to determine the ESG rating of the overall investment universe and individual issuer and its securities and thereafter the Investment Manager selects investments for the Fund having regard to the investment policy of the Fund and the ESG ratings of the issuers of the relevant securities.

The Fund seeks to invest in securities of issuers that target an annualised absolute decline in carbon footprint year on year and, in the aggregate, achieve a weighted average portfolio carbon intensity which is at least 20% lower than the Bloomberg Global Aggregate Corporate Index (Hedged) USD (the "Benchmark"). The Investment Manager defines carbon footprint as the weighted average of carbon emissions intensity of securities held within the portfolio. Carbon emissions intensity refers to the Greenhouse Gas ("GHG") Protocol Scope 1 and Scope 2 carbon emitted by an issuer.

As set out in the investment policy, the Fund's portfolio will maintain an average MSCI ESG rating of BBB or better which, according to MSCI's methodology, is an average or better rating compared to industry peers, indicating a credible alignment to ESG characteristics. The Fund may invest no more than 10% of its net asset value in securities of issuers with MSCI ESG ratings of BB or below at the time of purchase, As a result of the integrated approach to ESG, the Investment Manager applies ESG ratings to at least 90% of the securities in which the Fund invests, except for high yield bonds and emerging market debt instruments where the ESG ratings will apply to at least 75% of those particular investments. The Fund will maintain a portfolio ESG rating higher than that of the Fund's investment universe.

Additionally, the Fund will seek to align, better than the Benchmark, with regards to investments in securities of issuers whose activities contribute to at least 1 of 8 selected United Nations Sustainable Development Goals ("UNSDGs") (collectively, "UNSDGs Issuers").

The Fund will exclude investments in securities of the following issuers:

- Issuers that do not follow good governance practices, as determined by the Investment Manager having regard to the governance factors contained in the Prospectus section entitled "Sustainability Risk";
- Issuers deriving over 5% of revenue from tobacco production and/or distribution;
- Issuers deriving over 10% of revenue from:
 - civilian firearms (manufacturing/ supply),
 - any involvement in conventional weapons,
 - thermal coal mining (production/distribution);
- Issuers deriving over 5% of revenue from the production of nuclear weapons;
- Issuers that manufacture controversial weapons (anti-personnel landmines, biochemical weapons, blinding laser weapons, depleted uranium, incendiary weapons, and non-detectable fragments), own a controversial weapons company, or are owned by a controversial weapons company;
- $\bullet\,$ Issuers assessed as "fail" under the UN Global Compact; and
- State and/or sovereign issuers that score inadequately according to the Freedom House Index.

The Investment Manager will engage with issuers on environmental, social and governance practices through conversations with management. The Investment Manager's engagement process seeks to align with the United Nations Global Compact principles.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

FTGF Brandywine Global Fixed Income Fund

Investment Objective – To maximise total return consisting of income and capital appreciation.

Investment Policies – The Fund invests at all times at least two-thirds of its net asset value in debt securities that are (i) listed or traded on Regulated Markets primarily in the following countries; and (ii) denominated in currencies of, or issuers located in, primarily the following countries: the United States, Canada, Australia, Japan, Austria, Belgium, Finland, France, Germany, Greece, Ireland, Italy, the Netherlands, Portugal, Spain, Denmark, Sweden, Switzerland, the United Kingdom, New Zealand, Norway, Hungary, Poland, and the Czech Republic. The Fund may also invest in debt securities that are listed or traded on Regulated Markets located in other Developed Countries as set out in Schedule III of the Prospectus.

All debt securities purchased by the Fund will either be rated Investment Grade or if unrated deemed by the Investment Manager to be of comparable quality at the time of purchase. If an investment so purchased is subsequently downgraded to below Investment Grade after the time of purchase, the Investment Manager may in its discretion continue to hold the debt security if it determines that doing so is the best interests of shareholders. The Fund may invest up to 20 per cent of its net asset value in debt securities of issuers located in countries where both of the following criteria apply: (i) the country's local currency denominated long-term debt is rated below A- by S&P or the equivalent by all NRSROs rating the debt and (ii) the country is not represented in the Citigroup World Government Bond Index. A maximum of 25 per cent of the Fund's net asset value may be invested in convertible debt securities and up to 10 per cent of the Fund's net asset value may be invested in equity securities and/or warrants. No more than 5 per cent of the Fund's net asset value will be invested in warrants. The Fund may invest no more than 10 per cent of its net asset value in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 25 per cent of its net asset value. The Fund will not be leveraged, including any synthetic short positions, in excess of 100 per cent of its net asset value (as calculated using the commitment approach).

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

The Investment Manager utilises a multifaceted approach to assess the ESG factors across at least 90% of its current and prospective holdings. This process entails using a proprietary system for scoring and ranking issuers along with the use of external vendor raw data, metrics, and analysis. The results of this analysis form the basis for portfolio exclusion where the bottom decile, as defined by the environmental and social factors for sovereign issues, of the investable universe will be screened out and the second lowest decile will become automatic engagement candidates.

FTGF Brandywine Global Fixed Income Fund - (continued)

The Fund does not have a specific sector exclusion on government issuers that rely on fossil fuel and/or natural resource exports; however, sovereign issuers that rely on these commodity sectors may be excluded if their Environmental & Social scores fall in the bottom decile according to the ESG methodology used.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

FTGF Brandywine Global Fixed Income Absolute Return Fund^

Investment Objective – To generate positive returns that are independent of market cycles.

Investment Policies – The Fund invests at least 70 per cent of its net asset value in (i) debt securities, convertible securities and preferred shares that are listed or traded on Regulated Markets located anywhere in the world (ii) units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations; and (iii) derivatives providing exposure to any or all of the following: debt securities, interest rates, currencies and fixed income indices meeting the eligibility requirements of the Central Bank. The Fund may not invest more than 10 per cent of its net asset value in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations, and such investments will be for the purposes of gaining exposure to the types of instruments described in the investment policies or otherwise to pursue the investment objective and policy of the Fund.

The Fund may invest extensively in certain types of derivatives whether for investment purposes or the purposes of efficient portfolio management, as described in the "Investment Techniques and Instruments and Financial Derivative Instruments" section of the Prospectus, including, but not limited to, options, futures and options on futures, forward currency exchange contracts and warrants. Reverse repurchase agreements which will have debt securities as the underlying instruments may be utilised for efficient portfolio management purposes. The Fund may also utilise swaps, including but not limited to interest rate, total return and inflation swaps. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 25 per cent of its net asset value.

FTGF Brandywine Global High Yield Fund^

Investment Objective - To generate high levels of income. The generation of capital gains is a secondary objective.

Investment Policies - The Fund invests at all times at least 80 per cent of its net asset value in corporate debt securities considered high yielding by the Investment Manager and listed or traded on Regulated Markets located anywhere in the world. Higher yields are generally available from securities rated BB+ or lower by S&P, or Ba1 or lower by Moody's, or the equivalent or lower from another NRSRO, or if unrated deemed by the Investment Manager to be of comparable quality. Debt securities rated below Investment Grade are deemed by ratings agencies to be predominantly speculative with respect to the issuer's capacity to pay interest and repay principal and may involve major risk of exposure to adverse conditions. The Fund may invest in debt securities rated as low as C by Moody's or D by S&P, which ratings indicate that the obligations are highly speculative and may be in default or in danger of default as to principal and interest. The Investment Manager does not rely solely on the ratings of rated securities in making investment decisions, but instead uses a quantitative and qualitative process to determine which securities offer value. Factors that help determine which corporate debt securities offer value include the strength of the sovereign economy of the issuer, relative value of the currency of the securities, the quality of the issuer's business model, the position of the securities in the capital structure of the issuer, the quality of the covenants in the securities, and the likely recovery rate on the securities in the event of stress. A maximum of 5% of the Fund's net asset value may be invested in contingent convertible bonds. The Investment Manager's investment approach incorporates analysis of material environmental, social and governance (ESG) issues that may impact an investment's performance. The Fund will be able to invest up to 100 per cent of its net asset value in securities issued in Emerging Market Countries. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value. With regard to currency exposure, the Investment Manager may not be net short any currency, or long more than 105 per cent of the net asset value of the Fund.

FTGF Brandywine Global Opportunistic Fixed Income Fund

Investment Objective – To maximise total return consisting of income and capital appreciation.

Investment Policies – The Fund invests at least two-thirds of its net asset value in debt securities that are listed or traded on Regulated Markets located anywhere in the world, including Emerging Market Countries, and as set out in Schedule III of the Prospectus.

The Fund's investments may include: — (i) debt securities issued or guaranteed by national governments, their agencies or instrumentalities and political sub-divisions (including inflation protected securities); (ii) debt securities of supranational organisations such as freely transferable promissory notes, fixed or floating rate bonds and debentures; (iii) corporate debt securities of issuers (diversified across a variety of industry sectors, including but not limited to communications, consumer, energy, financial, industrial, technology and utilities, etc.) located in or whose securities are listed or traded on Regulated Markets, including freely transferable promissory notes, debentures, fixed or floating rate bonds (including zero coupon bonds), convertible and non-convertible notes, commercial paper, certificates of deposits, and bankers acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; and (iv) mortgage-backed securities (including collateralised debt obligations) and asset-backed securities; preferred shares and other open-ended collective investment schemes within the meaning of Regulations. The Investment Manager's investment approach incorporates analysis of material environmental, social and governance (ESG) issues that may impact an investment's performance. The Fund may invest no more than 10 per cent of its net asset value in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 25 per cent of its net asset value. The Fund will not be leveraged, including any synthetic short positions, in excess of 100 per cent of its net asset value. Subject to this limit, the Fund is e

FTGF Brandywine Global Income Optimiser Fund

Investment Objective - To maximise income yield in all market conditions, while preserving capital.

Investment Policies – The Fund invests in: (i) debt securities and convertible securities that are listed or traded on Regulated Markets located anywhere in the world; (ii) units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations; and (iii) derivatives providing exposure to any or all of the following: debt securities, interest rates, currencies, equities and indices (including fixed income, equity and commodity indices) meeting the eligibility requirements of the Central Bank. The Fund invests at least 70 per cent of its net asset value in debt securities and derivatives providing exposure to debt securities. A maximum of 5% of the Fund's net asset value may be invested in contingent convertible bonds. The Fund will invest at least 85% of its net asset value in US Dollars. However, when opportunities are available this may from time to time be a minimum of 80% in US Dollars. The Fund may invest no more than 10 per cent of its net asset value in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. Reverse repurchase agreements which will have debt securities as the underlying instruments may be utilised for efficient portfolio management purposes. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

FTGF Brandywine Global Income Optimiser Fund – (continued)

The Investment Manager utilises a multifaceted approach to assess the ESG factors across at least 90% of its current holdings and 80% of its prospective holdings. This process entails using a proprietary system for scoring and ranking issuers along with the use of external vendor raw data, metrics, and analysis. The results of this analysis form the basis for portfolio exclusion where the bottom decile, as defined by the environmental and social factors for both sovereign and corporate issues, of the investable universe will be screened out and the second lowest decile will become automatic engagement candidates. The Investment Manager also monitors current and prospective holdings for deterioration and improvement for environmental and social factors.

The Fund does not have a specific sector exclusion on fossil fuels; however, corporate issuers in the fossil fuel sector are excluded, if their Environmental & Social scores fall in the bottom decile according to the ESG methodology used.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

FTGF Brandywine Global Credit Opportunities Fund^

Investment Objective - To maximise total return through a high level of income and capital appreciation.

Investment Policies – The Fund seeks to achieve its investment objective primarily by taking a flexible investment approach to debt securities of issuers domiciled in any country, through both long exposure and short exposure (via derivatives). The Fund will invest a maximum of 25% of its net asset value in mortgage-backed securities within a single non-US country. The Fund will also invest, in aggregate, a maximum of 40% of its net asset value in mortgage-backed securities of non-US countries. The Fund will invest a maximum of 10% of its net asset value in collateralised debt obligations and collateralised loan obligations. The Investment Manager's investment approach incorporates analysis of material environmental, social and governance (ESG) issues that may impact an investment's performance. The types of debt securities in which the Fund may invest include: agency and non-agency mortgage-backed securities that are structured as debt securities; asset-backed securities; corporate debt securities, including freely transferable promissory notes; convertible and non-convertible bonds; commercial paper, certificates of deposits, and bankers acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; debt securities issued or guaranteed by national governments, their agencies, instrumentalities and political sub-divisions; debt securities of supranational organisations such as freely transferable promissory notes, bonds and debentures; structured notes that are transferable securities whose underlying exposure may be to fixed income securities; securitised participations in loans that are transferable securities; Eurodollar bonds and Yankee dollar instruments (including senior and subordinated notes); and Rule 144A securities. The structured notes in which the Fund will invest may contain embedded derivatives, and the Fund may be leveraged as a result. The Fund's leverage, as calculated using the sum of the notionals of the derivatives held by the Fund, will be le

FTGF Brandywine Global Defensive High Yield Fund^

Investment Objective - To generate income as well as long-term capital gains.

Investment Policies – The Fund invests at all times at least 80 per cent of its net asset value in corporate debt securities considered high yielding by the Investment Manager and listed or traded on Regulated Markets located anywhere in the world, as set out in Schedule III of the Prospectus, including direct investment or indirect investment through derivatives on such securities, provided that the Fund invests at least 70 per cent of its net asset value directly in such securities.

The Fund may invest in aggregate up to 20 per cent of its net asset value in Money Market Instruments listed or traded on a Regulated Market and debt securities, of the types listed in the Prospectus, which are not listed or traded on a Regulated Market, provided however that a maximum of 10 per cent of the Fund's net asset value may be invested in debt securities not listed or traded on a Regulated Market. A maximum of 20 per cent of the Fund's net asset value may be invested in convertible debt securities. Up to 20 per cent of the Fund's net asset value may be invested in preferred shares. A maximum of 20 per cent may be invested in equity securities, including warrants (a maximum of 15 per cent of the Fund's net asset value may be invested in warrants). A maximum of 10 per cent of the Fund's net asset value may be invested in securities or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value. With regard to currency exposure, the Investment Manager may not be net short any currency, or long more than 105 per cent of the net asset value of the Fund.

FTGF Brandywine Global Enhanced Absolute Return Fund^

Investment Objective - To generate positive returns that are independent of market cycles.

Investment Policies – The Fund invests at least 80 per cent of its net asset value in: (i) debt securities, convertible securities and preferred shares that are listed or traded on Regulated Markets located anywhere in the world, as set out in Schedule III of the prospectus; (ii) units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations; and (iii) derivatives providing exposure to any or all of the following: debt securities, interest rates, currencies and fixed income indices meeting the eligibility requirements of the Central Bank. The Fund may not invest more than 10 per cent of its net asset value in units or shares of other collective investment schemes, and such investments will be for the purpose of gaining exposure to the types of instruments described herein or otherwise to pursue the investment objective and policies of the Fund. Reverse repurchase agreements which will have debt securities as the underlying instruments may be utilised for efficient portfolio management purposes.

The Fund may invest extensively in certain types of derivatives whether for investment purposes or for the purpose of efficient portfolio management, namely options, futures and options on futures, forward currency exchange contracts and warrants. The Fund may also utilise swaps, including but not limited to interest rate, total return, credit default and inflation swaps.

FTGF Brandywine Global Multi-Sector Impact Fund^

Investment Objective – To maximise income yield in all market conditions while preserving capital.

Investment Policies – The Fund invests in: (i) debt securities and convertible securities (including contingent convertible securities, up to a maximum of 5% of the Fund's net asset value), that are listed or traded on Regulated Markets located anywhere in the world, as set out in Schedule III of the prospectus; (ii) units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations; and (iii) derivatives providing exposure to any or all of the following: debt securities, interest rates, currencies and indices (including fixed income and commodity indices) meeting the eligibility requirements of the Central Bank. The Fund invests at least 70% of its net asset value in debt securities and derivatives providing exposure to debt securities. The Fund will invest at least 85% of its net asset value in US Dollars. However, when opportunities are available this may from time be a minimum of 80% in US Dollars. The Fund may not invest more than 10% of its net asset value in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations, and such investments will be for the purposes of gaining exposure to the types of instruments described herein or otherwise to pursue the investment objective and policy of the Fund.

The Investment Manager seeks to achieve the investment objective by investing in the debt and/or debt related issuances of companies and countries (as referred to above) that currently implement, or are expected to implement, clear plans to promote a sustainable and equitable economy, as determined by the Investment Manager.

The Fund may invest extensively in certain types of derivatives whether for investment purposes or the purposes of efficient portfolio management, as described in the "Investment Techniques and Instruments and Financial Derivative Instruments" section of the prospectus, including, but not limited to, options, futures and options on futures, credit linked notes, forward currency exchange contracts and warrants. The Fund may also use swaps, namely, interest rate, total return, inflation and credit default swaps. To the extent that the Fund uses derivatives, and subject to the limit set out here, it will do so to gain exposure to any or all of the following: debt securities, interest ^ Not authorised for sale to the public in Hong Kong.

FTGF Brandywine Global Multi-Sector Impact Fund^ - (continued)

rates, currencies, indices (including fixed income and commodity indices) which meet the eligibility requirements of the Central Bank. With respect to such asset types, the Fund may take short derivative positions, or long derivative positions where direct purchase would not be possible or would be less efficient.

The Fund promotes environmental characteristics and is classified as an Article 8 pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, the minimum proportion of investments that qualify as environmentally sustainable economic activities under the Taxonomy Regulation is zero. However, in line with its ESG methodology, the Fund may hold investments that contribute to climate change mitigation and climate change adaptation.

FTGF Brandywine Global Dynamic US Equity Fund^

Investment Objective - To provide long term capital appreciation.

Investment Policies – The Fund invests at least 80 per cent of its net asset value in equity securities of companies with large market capitalisations that (1) have their seat or registered office in the United States or carry on a predominant portion of their activities in the United States and (2) are listed or traded on Regulated Markets as set out in Schedule III of the Prospectus.

The Fund invests in common stocks and preferred stocks. Subject to the limit above on investment in equity securities, the Fund may also invest in debt securities issued or guaranteed by US-domiciled issuers, including the US government, its agencies, instrumentalities, and political sub-divisions; corporate debt securities that are listed or traded on Regulated Markets, including freely transferable promissory notes, debentures, commercial paper, certificates of deposits, and bankers acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; and warrants. The Fund will only purchase debt securities that are rated Investment Grade at the time of purchase. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

FTGF ClearBridge Value Fund

Investment Objective - To achieve long-term capital appreciation.

Investment Policies – The Fund invests principally in securities of US issuers, which the Investment Manager believes are undervalued. The Fund may also invest up to 20 per cent of its net asset value in the securities of non-US Issuers. At least 50 per cent of the net asset value of the Fund will be invested in equity securities. The Fund may also invest up to 5 per cent of its net asset value in units or shares open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

The Investment Manager uses an established proprietary research and engagement process to determine a company's profile on ESG issues. This includes generating an ESG rating, through its ESG ratings system, by assessing both quantitatively and qualitatively. This system has four rating levels: AAA, AA, A and B assigned to companies based on performance on key ESG issues. Companies that receive a "B" rating per the proprietary ESG rating system may be added to the Fund, though those companies will comprise a smaller percentage of the Fund relative to those rated "A" and above. Further, the Investment Manager will engage directly with those "B" rated companies brought into the Fund, on a regular basis, with the goal of improving on the material environmental and/or social attributes of those companies.

In addition, the Fund will not invest in:

- Companies that generate 10% or more of their turnover from the production and/or distribution of weapons and companies that generate any turnover from (a) banned weapons according to (i) The Convention of the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction and (ii) The Convention on the Prohibition of Cluster Munitions and (b) weapons classed as either B- or C- weapons pursuant to the United Nations Biological Weapons Convention and the United Nations Chemical Weapons Convention respectively; and
- Companies that generate 5% or more of their revenues from tobacco.

The Investment Manager applies its ESG process (as set out above) to 100% of the portfolio of the Fund in order to maintain a portfolio ESG rating higher than that of the Fund's investment universe.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

FTGF ClearBridge US Appreciation Fund

Investment Objective – To generate long-term capital appreciation.

Investment Policies – The Fund will invest at least 70 per cent of its net asset value in equity securities of US Companies, which are listed or traded on Regulated Markets in the United States listed in Schedule III of the Prospectus. The Fund's investments will include common stocks, preferred stocks and equity related securities. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. The Fund may also invest in certain types of derivatives, but only for efficient portfolio management purposes. The Investment Manager may increase the Fund's allocation to Money Market Instruments and ancillary liquid assets when, in the Investment Manager's opinion, market valuation levels become excessive.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

The Investment Manager uses an established proprietary research and engagement process to determine a company's profile on ESG issues. This includes generating an ESG rating, through its ESG ratings system, by assessing both quantitively and qualitatively. This system has four rating levels: AAA, AA, A and B assigned to companies based on performance on key ESG issues. Companies that receive a B rating per the proprietary ESG rating system are not considered for investment in this Fund.

In addition, the Fund will not invest in:

- Companies with significant involvement in the extraction of fossil fuels and mining that analysts feel do not demonstrate clearly better ESG attributes than other similar companies; and
- Companies that generate 10% or more of their turnover from the production and/or distribution of weapons and companies that generate any turnover from (a) banned weapons according to (i) The Convention of the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction and (ii) The Convention on the Prohibition of Cluster Munitions and (b) weapons classed as either B- or C- weapons pursuant to the United Nations Biological Weapons Convention and the United Nations Chemical Weapons Convention respectively.

FTGF ClearBridge US Appreciation Fund - (continued)

The Fund has no exposure to companies that produce tobacco and its products but may invest in companies that indirectly generate 5% or less of their revenues from tobacco. The Investment Manager applies its ESG process (as set out above) to 100% of the portfolio of the Fund in order to maintain a portfolio ESG rating higher than that of the Fund's investment universe.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

FTGF ClearBridge US Large Cap Growth Fund

Investment Objective - To generate long-term capital appreciation.

Investment Policies – The Fund invests at least 70 per cent of its net asset value in equity securities of a concentrated group of US Companies with large market capitalisations, which are listed or traded on Regulated Markets in the United States listed on Schedule III of the Prospectus. The core holdings of the Fund will be large market capitalisation US Companies that are dominant in their respective industries, global in scope and have a long-term history of performance. The Fund's investments will consist of common stocks and to a lesser extent preferred stock and equity-related securities issued by or related to large market capitalisation US Companies, which are believed to afford attractive opportunities for investment growth. The Fund will not invest in securities listed or traded on Regulated Markets in any Emerging Market Countries, Emerging European Countries or Emerging Asia/Pacific Countries. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

The Investment Manager uses an established proprietary research and engagement process to determine a company's profile on ESG issues. This includes generating an ESG rating, through its ESG ratings system, by assessing both quantitively and qualitatively. This system has four rating levels: AAA, AA, A and B assigned to companies based on performance on key ESG issues. Companies that receive a B rating per the proprietary ESG rating system are not considered for investment in this Fund.

In addition, the Fund will not invest in:

- Companies with significant involvement in the extraction of fossil fuels and mining that analysts feel do not demonstrate clearly better ESG attributes than other similar companies; and
- Companies that generate 10% or more of their turnover from the production and/or distribution of weapons and companies that generate any turnover from (a) banned weapons according to (i) The Convention of the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction and (ii) The Convention on the Prohibition of Cluster Munitions and (b) weapons classed as either B- or C- weapons pursuant to the United Nations Biological Weapons Convention and the United Nations Chemical Weapons Convention respectively.

The Fund has no exposure to companies that produce tobacco and its products but may invest in companies that indirectly generate 5% or less of their revenues from tobacco. The Investment Manager applies its ESG process (as set out above) to 100% of the portfolio of the Fund in order to maintain a portfolio ESG rating higher than that of the Fund's investment universe.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

FTGF ClearBridge US Aggressive Growth Fund

Investment Objective – To generate long-term capital appreciation.

Investment Policies – The Fund invests at least 70 per cent of its net asset value in common stocks of US Companies which are listed or traded on Regulated Markets in the United States listed in Schedule III of the Prospectus and that the Investment Manager believes are experiencing, or have potential to experience, growth of earnings and/or cash flow that exceed the average earnings and/or cash flow growth rate of companies having securities included in the Standard & Poor's Daily Price Index of 500 Common Stocks (the "S&P 500 Index"). The Investment Manager focuses its stock selection for the Fund on the diversified group of emerging growth companies that may have passed their "start-up" phase and show positive earnings and the prospect of achieving significant profit gains in the two to three years after the Fund acquires their stocks. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088)

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

The Investment Manager uses an established proprietary research and engagement process to determine a company's profile on ESG issues. This includes generating an ESG rating, through its ESG ratings system, by assessing both quantitatively and qualitatively. This system has four rating levels: AAA, AA, A and B assigned to companies based on performance on key ESG issues. Companies that receive a B rating per the proprietary ESG rating system are not considered for investment in this Fund.

In addition, the Fund will not invest in:

- Companies with significant involvement in the extraction of fossil fuels and mining that analysts feel do not demonstrate clearly better ESG attributes than other similar companies; and
- Companies that generate 10% or more of their turnover from the production and/or distribution of weapons and companies that generate any turnover from (a) banned weapons according to (i) The Convention of the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction and (ii) The Convention on the Prohibition of Cluster Munitions and (b) weapons classed as either B- or C- weapons pursuant to the United Nations Biological Weapons Convention and the United Nations Chemical Weapons Convention respectively.

The Fund has no exposure to companies that produce tobacco and its products but may invest in companies that indirectly generate 5% or less of their revenues from tobacco. The Investment Manager applies its ESG process (as set out above) to 100% of the portfolio of the Fund in order to maintain a portfolio ESG rating higher than that of the Fund's investment universe.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

FTGF ClearBridge Tactical Dividend Income Fund

Investment Objective – To provide a high level of income. Long-term capital appreciation is a secondary objective.

Investment Policies – The Fund invests at least 80 per cent of its net asset value in equity and equity-related securities that are expected to provide investment income, dividend payments or other distributions, which are listed or traded on Regulated Markets listed in Schedule III of the Prospectus and from issuers located anywhere in the world. The Fund may invest in equity and equity-related securities of issuers with any market capitalisation. In selecting securities, the Investment Manager uses a combined fundamental and macroeconomic approach to identify assets that have attractive dividends and future earnings prospects. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

FTGF ClearBridge US Equity Sustainability Leaders Fund^

Investment Objective – To provide long term capital appreciation.

Investment Policies – The Investment Manager seeks to invest over the long term in companies that it considers to be of high quality with sustainable competitive advantages as evidenced by high returns on capital, strong balance sheets, and capable management teams that allocate capital in an efficient manner. The Fund will not invest in companies with significant direct involvement in extraction of fossil fuels and mining, and instead will seek other attractive sustainable opportunities in the energy, industrials, and materials sectors.

Although the assets of the Fund ordinarily will be invested primarily in common stocks of US companies, the Fund may also invest in aggregate up to 15 per cent of its net asset value in convertible securities (which may contain embedded derivatives and/or leverage), preferred stocks, warrants, REITs, Rule 144A securities and Money Market Instruments securities, which are listed or traded on Regulated Markets in the US. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

The Fund invests at all times at least 85% of its net asset value in US equity securities (including common stock and preferred shares) that are listed or traded on Regulated Markets in the United States as set out in Schedule III of the Company's Prospectus and that are issued by companies that meet the Investment Manager's financial criteria and its criteria for ESG policies ("Sustainability Leaders"). The Investment Manager applies its ESG Sustainability Leader criteria to 100% of the portfolio of the Fund. The Investment Manager's portfolio construction process restricts the companies in the Fund's investable universe by at least 20% to accommodate only those companies that are Sustainability Leaders.

The Investment Manager uses an established proprietary research and engagement process to determine whether a company is a Sustainability Leader. This proprietary process of the Investment Manager includes generating an ESG ratings system based on the Investment Manager's longstanding experience managing ESG investment strategies and identifying ESG best practices. Sustainability leadership may be assessed both quantitatively and qualitatively, through the Investment Manager's ESG ratings system and its direct research and engagement process. The Investment Manager's ESG rating system consists of four rating levels: AAA, AA, A and B, which are assigned to companies based on their sustainability strategy and performance key ESG issues.

The Fund has no exposure to fossil fuel producers, to producers of controversial weapons (i.e., anti-personnel mines, nuclear weaponry, biological & chemical weaponry and cluster munitions) and to companies that generate 5% or more of their revenues from tobacco, or more than 5% of revenues from conventional weapons or 15% of revenues from nuclear power generation.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

FTGF ClearBridge Global Growth Fund[^]

Investment Objective - To provide long-term capital appreciation.

Investment Policies – The Fund invests at least 80 per cent of its net asset value in equity securities that are listed or traded on Regulated Markets located anywhere in the world as set out in Schedule III of the Prospectus. Up to 25 per cent of the Fund's net asset value may be invested in equity securities of issuers located in Emerging Market Countries. The Fund's exposure to Russian securities will not exceed 15 per cent of the Fund's net asset value. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations, and such investments will be for the purposes of gaining exposure to the types of instruments described herein or otherwise to pursue the investment objective and policies of the Fund. No more than 5 per cent of the Fund's net asset value will be invested in warrants. To manage capital flows, the Fund may hold cash or invest in Money Market Instruments.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

The Investment Manager uses an established proprietary research and engagement process to determine a company's profile on ESG issues. This includes generating an ESG rating, through its ESG ratings system, by assessing both quantitatively and qualitatively. This system has four rating levels: AAA, AA, A and B, assigned to companies based on performance on key ESG issues. Companies that receive a B rating per the proprietary ESG rating system are not considered for investment in this Fund.

In addition, the Fund will not invest in:

- Companies with significant involvement in the extraction and/or production of fossil fuels and mining;
- Companies that generate 10% or more of their turnover from the production and/or distribution of weapons and companies that generate any turnover from (a) banned weapons according to (i) The Convention of the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction and (ii) The Convention on the Prohibition of Cluster Munitions and (b) weapons classed as either B- or C- weapons pursuant to the United Nations Biological Weapons Convention and the United Nations Chemical Weapons Convention respectively; and
- Companies that generate 15% or more of their revenues from nuclear power generation.

The Fund has no exposure to companies that produce tobacco and its products but may invest in companies that indirectly generate 5% or less of their revenues from tobacco. The Investment Manager applies its ESG process (as set out above) to 100% of the portfolio of the Fund in order to maintain a portfolio ESG rating higher than that of the Fund's investment universe.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

FTGF ClearBridge Infrastructure Value Fund^

Investment Objective – To achieve long-term stable growth comprised of regular and consistent income from dividends and interest, plus capital growth, from a portfolio of global infrastructure securities.

Investment Policies – The Fund invests at least 80 per cent of its net asset value in infrastructure companies via equity and equity-related securities listed or traded on Regulated Markets in the G7 countries of the United States, United Kingdom, Japan, Germany, France, Italy and Canada, and equity and equity-related securities listed or traded on Regulated Markets of other developed countries and Emerging Market Countries, including India. The equity and equity-related securities in which the Fund may invest includes common stock, preferred stock, depositary receipts, rights, warrants and participation notes of infrastructure companies. The Fund may invest in American and global depositary receipts (ADRs / GDRs) of companies which are listed or traded on a Regulated Market as set out in Schedule III of the Prospectus.

The Fund may invest up to 20 per cent of its net asset value in closed-ended collective investment schemes such as REITs. Any REIT in which the Fund will invest shall be listed or traded on a Regulated Market. The Fund may invest up to 10 per cent of its net asset value in units or shares of other open-ended UCITS or other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations, provided the investment policies and liquidity provisions of these collective investment schemes are consistent with those of the Fund.

FTGF ClearBridge Infrastructure Value Fund^ - (continued)

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

For this Fund, ESG risks and opportunities, to the extent possible, are considered in two major ways. Firstly, in the assessment of cash flows forecasted by the Investment Manager in respect of eligible investee companies as part of a fundamental security valuation. Secondly, if the ESG factors cannot be captured in these forecasted cash flows they are instead captured through an adjustment to the required return, or hurdle rate, of the investment. In these circumstances, the relevant ESG factors, and company management of those factors, are assessed via a proprietary scorecard by the relevant analyst which in turn leads to an adjustment made to the required return, or hurdle rate, applied to each prospective investment.

As a result of the integrated approach to ESG, the Investment Manager applies its ESG process to at least 90% of the portfolio of the Fund. The Fund will maintain a portfolio ESG rating higher than that of the Fund's investment universe.

Consistent with the Fund's valuation approach, which assumes a holding period of five years, sustainability is scored using an ESG score both at the present time, based on current processes, policies and behaviour, and in terms of an expected ESG score in five years, based on management targets and policies. This enables the team to identify companies whose sustainability practices are expected to improve.

The ESG scores are compared on a relative basis for the companies. The companies in the top quartile of are rewarded with a reduction in the required return, or hurdle rate, on a sliding scale. The bottom three-quartiles, based on the ESG scores, are penalised through an increase to the required return, or hurdle rate, on a sliding scale.

Approximately 600 companies are scored for liquidity, infrastructure exposure and infrastructure quality. Once the liquidity analysis has reduced this universe by around 50%, approximately 10% of the remaining companies are excluded due to a low infrastructure exposure where companies with unacceptable exposure to non-infrastructure activities are excluded. A further 20% of companies are excluded due to weak infrastructure quality.

In addition, the Fund will not invest in:

- Companies that derive a majority of their valuation from the extraction or production of fossil fuels;
- Companies that generate 10% or more of their turnover from the production and/or distribution of weapons and companies that generate any turnover from (a) banned weapons according to (i) The Convention of the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction and (ii) The Convention on the Prohibition of Cluster Munitions and (b) weapons classed as either B- or C- weapons pursuant to the United Nations Biological Weapons Convention and the United Nations Chemical Weapons Convention respectively; and
- Companies that generate 5% or more of their revenues from tobacco.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

Legg Mason ClearBridge Emerging Markets Infrastructure Fund^(ceased trading on 17 November 2022)

Investment Objective – To achieve long-term stable growth comprised of regular and consistent income from dividends and interest, plus capital growth, from a portfolio of emerging markets infrastructure securities.

Investment Policies – The Fund invests at least 80 per cent of its net asset value in infrastructure companies via equity and equity-related securities listed or traded on Regulated Markets that are issued by companies that derive at least 50 per cent of their earnings before interest, tax, depreciation and amortisation from assets located in Emerging Market Countries, including India. It is intended that no single Emerging Market Country shall make up more than 40 per cent of the Fund's net asset value. The equity related securities in which the Fund may invest includes common stock, preferred stock, depositary receipts, rights, warrants and participation notes of infrastructure companies.

The Fund may invest up to 20 per cent of its net asset value in securities traded on Russian markets and investment in securities traded on Russian markets will only be made in equity securities which are listed and/or traded on the Moscow Exchange. The Fund may invest in American, international and global depositary receipts (ADRs / GDRs) of companies which are listed or traded on a Regulated Market as set out in Schedule III of the Prospectus. The Fund may invest up to 20 per cent of its net asset value in closed-ended collective investment schemes such as REITs where the investment policies are consistent with the Fund's investment policies. Any REITs in which the Fund will invest shall be listed or traded on a Regulated Market. The Fund may invest up to 10 per cent of its net asset value in units or shares of other open-ended UCITS or other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations, provided the investment policies and liquidity provisions of these collective investment schemes are consistent with those of the Fund.

FTGF ClearBridge Global Infrastructure Income Fund

Investment Objective - To provide income comprised of dividends and interest whilst also achieving long-term capital growth.

Investment Policies – The Fund will invest at least 80% of its net asset value in infrastructure companies via equity and equity-related securities listed or traded on Regulated Markets in the G7 countries of the United States, United Kingdom, Japan, Germany, France, Italy and Canada, and equity and equity-related securities listed or traded on Regulated Markets of other developed countries and Emerging Market Countries (the latter up to 20% of the Fund's net asset value). The equity and equity-related securities in which the Fund may invest includes common stock, preferred stock, depositary receipts, rights, warrants and participation notes of infrastructure companies. Participation notes typically will be used only where direct access to equities in a particular market is limited or delayed, which may include, for example, India.

The Fund may invest up to 20% of its net asset value in REITs. Any REIT in which the Fund will invest shall be listed or traded on a Regulated Market. The Fund may invest up to 10% of its net asset value in units or shares of other open-ended UCITS or other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations, provided the investment policies and liquidity provisions of these collective investment schemes are consistent with those of the Fund.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

For this Fund, ESG risks and opportunities, to the extent possible, are considered in two major ways. Firstly, in the assessment of cash flows forecasted by the Investment Manager in respect of eligible investee companies as part of a fundamental security valuation. Secondly, if the ESG factors cannot be captured in these forecasted cash flows they are instead captured through an adjustment to the required return, or hurdle rate, of the investment. In these circumstances, the relevant ESG factors, and company management of those factors, are assessed via a proprietary scorecard by the relevant analyst which in turn leads to an adjustment made to the required return, or hurdle rate, applied to each prospective investment.

The Investment Manager applies its ESG process to at least 90% of the portfolio of the Fund. The Fund will maintain a portfolio ESG rating higher than that of the Fund's investment universe. Consistent with the Fund's valuation approach, which assumes a holding period of five years, sustainability is scored using an ESG score both at the present time, based on current processes, policies and behaviour, and in terms of an expected ESG score in five years, based on management targets and policies. This enables the team to identify companies whose sustainability practices are expected to improve.

The ESG scores are compared on a relative basis for the companies. The companies in the top quartile of are rewarded with a reduction in the required return, or hurdle rate, on a sliding scale. The bottom three-quartiles, based on the ESG scores, are penalised through an increase to the required return, or hurdle rate, on a sliding scale.

FTGF ClearBridge Global Infrastructure Income Fund - (continued)

Approximately 600 companies are scored for liquidity, infrastructure exposure and infrastructure quality. Once the liquidity analysis has reduced this universe by around 50%, approximately 10% of the remaining companies are excluded due to a low infrastructure exposure where companies with unacceptable exposure to non infrastructure activities are excluded. A further 20% of companies are excluded due to weak infrastructure quality.

In addition, the Fund will not invest in:

- Companies that derive more than 10% of their revenue from the extraction or production of fossil fuels;
- Companies that generate 10% or more of their turnover from the production and/or distribution of weapons and companies that generate any turnover from (a) banned weapons according to (i) The Convention of the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction and (ii) The Convention on the Prohibition of Cluster Munitions and (b) weapons classed as either B- or C- weapons pursuant to the United Nations Biological Weapons Convention and the United Nations Chemical Weapons Convention respectively; and
- Companies that generate 5% or more of their revenues from tobacco.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

FTGF Royce US Small Cap Opportunity Fund

Investment Objective - To achieve long-term capital appreciation.

Investment Policies – The Fund invests at least 70 per cent of its net asset value in a diversified portfolio of equity securities issued by small-cap US companies (i.e., US Companies with market capitalisations of less than US\$3 billion) that are listed or traded on Regulated Markets in the United States. The Investment Manager invests the Fund's assets in these companies in an attempt to take advantage of what it believes are opportunistic situations for undervalued securities. Such opportunistic situations may include turnarounds, emerging growth companies with interrupted earnings patterns, companies with unrecognised asset values or undervalued growth companies. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. The Investment Manager uses a value method in managing the Fund's assets.

FTGF Royce US Smaller Companies Fund

Investment Objective – To achieve long-term capital appreciation.

Investment Policies – The Fund invests at least two-thirds of its net asset value in equity securities issued by US companies with stock market capitalisations less than US\$5 billion, measured at the time of investment, that are listed or traded on Regulated Markets as set out in Schedule III of the Prospectus. Up to one-third of the Fund's net asset value may invested in (i) equity securities (including common stock, preferred shares and convertible securities) of companies with stock market capitalisations exceeding US\$5 billion, measured at the time of investment, that are listed or traded on Regulated Markets, (ii) debt securities issued or guaranteed by national governments and their agencies, instrumentalities and political sub-divisions, (iii) corporate debt securities of issuers located in or whose securities are listed or traded on Regulated Markets, and (iv) cash for efficient portfolio management purposes. No more than 10 per cent of the Fund's net asset value, measured at the time of investment, will be invested in securities of issuers that are listed or traded on Regulated Markets outside of the United States. Furthermore, no more than 5 per cent of the Fund's net asset value may be invested in debt securities rated below Investment Grade at the time of purchase. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

FTGF Royce Global Small Cap Premier Fund^

Investment Objective – To seek long-term capital appreciation.

Investment Policies – The Fund invests at least 80% of its net asset value in small cap companies headquartered in countries worldwide that are listed or traded on Regulated Markets. The Investment Manager considers small cap companies to be those with stock market capitalisations not greater than that of the largest company in the MSCI ACWI Small-Cap Index (the "Benchmark") at the time of its most recent reconstitution. The Investment Manager utilizes an investment strategy which focuses on companies which, in its opinion, will have competitive advantages and persistently high returns on invested capital which it believes will increase the value of these companies over time. In addition, the Investment Manager looks for companies which it considers to have an attractive financial profile, including companies with: (i) conservative balance sheets; (ii) prudent capital allocation; and (iii) attractive reinvestment opportunities.

The Fund will invest a maximum of 60% of the Fund's net asset value in companies headquartered in the United States. Under normal market circumstances, the Fund will invest at least 40% of its net asset value in companies headquartered in at least three different countries outside of the United States. The Fund may also invest up to 30% of its net asset value in companies that are headquartered in Emerging Market Countries.

Franklin MV European Equity Growth and Income Fund[^] (ceased trading on 11 July 2022)

Investment Objective - To provide long-term capital appreciation.

Investment Policies – The Fund invests at all times at least two-thirds of its net asset value in equity securities of companies that are listed or traded on Regulated Markets and that are domiciled in or are conducting a predominant portion of their economic activities in Europe, including but not limited to Austria, Belgium, Denmark, Finland, France, Germany, Greece, Hungary, Ireland, Italy, the Netherlands, Norway, Poland, Portugal, Spain, Sweden, Switzerland, and the United Kingdom, subject to applicable limitations on investments by foreigners. The Fund seeks to achieve its investment objective by investing primarily in securities of companies believed to afford attractive opportunities for long-term capital appreciation. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

FTGF Franklin MV Asia Pacific Ex Japan Equity Growth and Income Fund

Investment Objective - To provide long-term capital appreciation.

Investment Policies – The Fund invests at least two-thirds of its net asset value in equity securities listed or traded on Regulated Markets of companies domiciled in or conducting a predominant portion of their economic activities in one or more of the following emerging Asian countries, subject to applicable limitations established by such countries on investments by foreign investors: China, Hong Kong, Indonesia, Malaysia, the Philippines, Singapore, South Korea, Taiwan, India, Thailand, Australia and New Zealand. In addition, the Fund may, from time to time, also invest in equity securities of companies domiciled in Pakistan and Sri Lanka. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. A maximum of 10 per cent of the Fund's net asset value may be invested in equity-linked or structured notes that are transferable securities, whose underlying exposure may be to equity securities.

Franklin MV Global Equity Growth and Income Fund^ (ceased trading on 27 April 2022)

Investment Objective - To generate long-term capital appreciation.

Investment Policies – The Fund invests at all times at least 70 per cent of its net asset value in equity securities (including common stocks and preferred shares) of companies domiciled in, and listed or traded on any Regulated Market in any country of the world. In seeking to achieve the Fund's investment objective, the Investment Manager will invest primarily in companies that are domiciled and listed in Developed Countries and it will seek to invest in companies domiciled in Developed Countries and Emerging

Franklin MV Global Equity Growth and Income Fund^ (ceased trading on 27 April 2022) - (continued)

Market Countries, across a diversified range of industries. While there are no capitalisation restrictions, the Fund will seek to invest primarily in large-capitalisation companies. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund may be leveraged to up to 100 per cent of its net asset value (as calculated using the commitment approach) as a result of its use of derivatives. The Fund's maximum exposure to total return swaps, based on the notional value of such instruments, is 20 per cent of its net asset value.

The Fund may invest in certain eligible China A-Shares via the Shanghai-Hong Kong Stock Connect and/or Shenzhen-Hong Kong Stock Connect (the "Stock Connects"). Exposure to China A-Shares through the Stock Connects will not be more than 10 per cent of the Fund's net asset value. The Fund may also have exposure to China A-Shares indirectly. The aggregate exposure to Russian securities and China A-Shares will not exceed 15 per cent of the Fund's net asset value.

FTGF Martin Currie Asia Long-Term Unconstrained Fund^

Investment Objective – To capture Asian gross domestic product ("GDP") growth and to provide an attractive risk/return profile in a historically volatile market using a long only equity strategy.

Investment Policies – The Fund invests at least 80 per cent of its net asset value in equities, whether directly or indirectly through equity-related securities or long positions in financial derivative instruments on equities and equity-related securities, that are (i) listed or traded on Regulated Markets located in mainland China, Hong Kong, India, Indonesia, Malaysia, Philippines, Singapore, South Korea, Taiwan and Thailand (collectively, the "Primary Countries") or (ii) listed or traded on Regulated Markets located in countries other than the Primary Countries but are issued by companies whose principal activities are conducted, or who derive the majority of their business profits from, the Primary Countries. The Fund may invest in Chinese equities (meaning equities issued by companies domiciled in or deriving the predominant portion of their revenue from China), including certain eligible China A-Shares via the Shanghai-Hong Kong Stock Connect and/or Shenzhen-Hong Kong Stock Connect (the "Stock Connects"). There is no limit on the maximum overall exposure to Chinese equities, including through the Stock Connects.

The Fund may invest up to 20 per cent of its net asset value in aggregate in: Money Market Instruments; deposits; derivatives and units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations provided that the Fund may invest no more than 10 per cent of its net asset value in units or shares of such other collective investment schemes. The Fund will not take any short positions.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

The Investment Manager assesses ESG factors that could impact the ability of an issuer to generate future sustainable returns. These characteristics are assessed both quantitatively and qualitatively, through the Investment Manager's proprietary ESG ratings system and its direct research and engagement process. The proprietary ESG ratings capture forward-looking analysis with companies assigned a risk rating on each of governance and sustainability (environmental and social) from 1 (low risk) to 5 (high risk) following consideration of environment, social affairs and corporate governance sustainability factors. Companies that have a sustainability risk rating of 4 or higher will not be included in the Fund.

In addition, the Fund will not invest in:

- Companies which generate more than 5% of revenue from tobacco production;
- Companies which generate more than 5% of revenue from direct involvement in extraction of fossil fuels;
- Companies generating revenue from mining of metals and minerals as defined by GICS sub-industries Diversified Metals and Mining, Copper, Gold and Precious Metals and Minerals;
- Companies involved in the production, sale or distribution of dedicated and key components of antipersonnel mines and cluster munitions; and
- Companies assessed as 'fail' under the UN Global Compact.

The Investment Manager applies its ESG process (as set out above) to 100% of the portfolio of the Fund. The Fund will maintain a portfolio ESG rating higher than that of the Fund's investment universe.

The Investment Manager expects that the Fund's portfolio will typically consist of between 20 to 40 different issuers, though the Fund may hold less than 20 issuers or more than 40 issuers in certain circumstances.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

FTGF Martin Currie Global Long-Term Unconstrained Fund^

Investment Objective – To produce long-term capital appreciation

Investment Policies – The Fund invests at least 80 per cent of its net asset value in equities, whether directly or indirectly through equity-related securities or long positions in financial derivative instruments on equities and equity- related securities that are listed or traded on Regulated Markets located anywhere in the world (including Emerging Market Countries), as set out in Schedule III of the Prospectus. The Investment Manager is primarily interested in companies: (1) that it believes have the potential to generate and/or sustain a high return on invested capital in excess of their weighted average cost of capital; (2) where goodwill is not a dominant asset on the balance sheet; and (3) where the free float is in excess of \$3 billion.

The Fund may invest up to 20 per cent of its net asset value in aggregate in: Money Market Instruments; deposits; and units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations provided that the Fund may invest no more than 10 per cent of its net asset value in units or shares of such other collective investment schemes. The Fund may invest in Chinese equities (meaning equities issued by companies domiciled in or deriving the predominant portion of their revenues from China), including certain eligible China A-Shares via the Shanghai-Hong Kong Stock Connect and/or Shenzhen-Hong Kong Stock Connect (the "Stock Connects"). The maximum indirect investment in China A-Shares will be limited to 10 per cent of the Fund's net asset value. There is no limit on the maximum overall exposure to Chinese equities, including through the Stock Connects.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

The Investment Manager assesses ESG factors that could impact the ability of an issuer to generate future sustainable returns. These characteristics are assessed both quantitatively and qualitatively, through the Investment Manager's proprietary ESG ratings system and its direct research and engagement process. The proprietary ESG ratings capture this forward-looking analysis with companies assigned a risk rating on each of governance and sustainability (environmental and social) from 1 (low risk) to 5 (high risk) following consideration of Environment, Social affairs and Corporate Governance sustainability factors. Companies that have a sustainability or governance risk rating of 4 or higher will not be included in the Fund.

^ Not authorised for sale to the public in Hong Kong.

FTGF Martin Currie Global Long-Term Unconstrained Fund^ - (continued)

In addition, the Fund will not invest in:

- Companies which generate more than 5% of revenue from tobacco production, distribution or wholesale trading;
- Companies which generate revenue from the production or distribution of controversial weapons (i.e., antipersonnel mines, nuclear weaponry, biological & chemical weaponry and cluster munitions);
- Companies which generate more than 5% of revenue from the production or distribution of conventional weapons.
- Companies which generate more than 5% of revenue from production of fossil fuels:
- Companies generating more than 5% revenue from coal-based power generation or the mining or distribution of thermal coal;
- Companies generating revenue from mining of metals and minerals as defined by GICS sub industries Diversified Metals and Mining, Copper, Gold and Precious Metals and Minerals;
- Companies that generate 15% or more of their revenues from nuclear power generation; and
- Companies assessed as 'fail' under the UN Global Compact.

The Investment Manager applies its ESG process (as set out above) to 100% of the portfolio of the Fund. The Fund will maintain a portfolio ESG rating higher than that of the Fund's investment universe.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

FTGF Martin Currie Asia Pacific Urban Trends Income Fund

Investment Objective - To provide income. Long-term capital appreciation is a secondary objective.

Investment Policies – The Fund invests at least 80% of its net asset value in equity securities and equity-related securities (including preferred shares, Australian trusts and stapled securities, REITs, depositary receipts and low exercise price warrants on equity securities) that are (i) listed or traded on Regulated Markets (as set out in Schedule III of the Prospectus) located in the Asia Pacific (ex Japan) region, which includes those countries represented in the MSCI AC Asia Pacific ex Japan Index or (ii) listed or traded on Regulated Markets (as set out in Schedule III of the Prospectus) located outside of the Asia Pacific (ex Japan) region but are issued by companies whose principal activities are conducted in countries represented in the MSCI AC Asia Pacific ex Japan Index. This index is currently comprised of approximately 1,200 large- and mid-capitalisation companies from 13 countries in the Asia Pacific (ex Japan) region. The index currently includes four developed countries and nine emerging market countries, and so the Fund may have significant exposure to emerging market securities. The Investment Manager's strategy focuses on issuers from three main sectors: (1) REITs, such as shopping centres, office buildings and industrial buildings; (2) infrastructure, such as toll roads, shipping ports, airports and railroads; and (3) utilities, such as gas and electricity grids and generators. The Fund may from time to time invest in preferred shares when the Investment Manager believes such securities provide a compelling yield opportunity while keeping with the Fund's investment objective. The total amount invested in such assets will not exceed 20% of the Fund's net asset value. The Fund may invest a maximum of 50% of its net asset value in aggregate in equity securities and equity-related securities (including preferred shares, Australian trusts and stapled securities, REITs and low exercise price warrants on equity securities) (i) listed or traded on Regulated Markets (as set out in Schedule III of the Prospectus) located in Australia or New Zealand or (ii) listed or traded on Regulated Markets (as set out in Schedule III of the Prospectus) located outside of Australia and New Zealand but are issued by companies whose principal activities are conducted in Australia or New Zealand. The Fund may invest a maximum of 60% of its net asset value in aggregate in REITs and property related securities (equity and equity related securities (including preferred shares, Australian trusts and stapled securities and low exercise price warrants on equity securities) of property companies as included in MSCI's Global Industry Classification Standard (GICS) Industry Group 6010 - Real Estate). The Fund may invest up to 20% of its net asset value in aggregate in: Money Market Instruments, deposits, derivatives and units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations, provided that the Fund may invest no more than 10% of its net asset value in units or shares of such other collective investment schemes, and investments in such schemes will be for the purposes of gaining exposure to the types of instruments described herein or otherwise to pursue the investment objective and policies of the Fund. The Fund may invest in Chinese equities (meaning equities issued by companies domiciled in or deriving the predominant portion of their revenues from China), including certain eligible China A-Shares via the Shanghai-Hong Kong Stock Connect and/or Shenzhen-Hong Kong Stock Connect (the "Stock Connects"). The Fund's maximum overall exposure to Chinese equities, including through the Stock Connects, is 75% of the Fund's net asset value.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088)

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

The Investment Manager assesses ESG factors/characteristics. These factors/characteristics are assessed both quantitatively and qualitatively, through their proprietary ESG rating system and its direct research and engagement process. The Investment Manager assesses those ESG factors that could impact the ability of an issuer to generate future sustainable returns. The proprietary ESG ratings capture this forward looking analysis with companies assigned a risk rating on each of governance and sustainability (environmental and social) from 1 (low risk) to 5 (high risk) following consideration of environment, social affairs and corporate governance and sustainability factors. Companies that have a sustainability risk rating of 5 will not be included in the Fund.

In addition, the Fund will not invest in:

- Companies which generate more than 5% of revenue from tobacco production;
- $\bullet\,$ Companies which generate more than 5% of revenue from the production of weapons;
- $\bullet \ \ \text{Companies which are part of the GICS Industry classification of Oil, Gas and Consumable Fuels;}$
- Companies involved in the production, sale or distribution of dedicated and key components of anti-personnel mines and cluster munitions; and
- Companies assessed as 'fail' under the UN Global Compact.

The Investment Manager applies its ESG process (as set out above) to 100% of the portfolio of the Fund. The Fund will maintain a portfolio ESG rating higher than that of the Fund's investment universe.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

FTGF Martin Currie Global Emerging Markets Fund^

Investment Objective - To produce long-term capital growth

Investment Policies – The Fund invests at least 80 per cent of its net asset value in equity securities (including warrants) that are listed or traded on a Regulated Market, where the issuer of the equity is domiciled in or derives the predominant portion of their revenue from a country that is included in the MSCI Emerging Markets Index, or the Regulated Market on which the equity is listed or traded, is located in a country that is included in the MSCI Emerging Markets Index. The MSCI Emerging Markets Index includes large- and mid-capitalisation companies across over 20 emerging markets countries and re-balances semi-annually. The Fund's investments in equities may be made directly or indirectly through equity-related securities (including ADRs or GDRs) or long positions in derivatives on equities and equity-related securities. Investments in ADRs and GDRs will not exceed 15 per cent of the Fund's net asset value.

The Fund may invest up to 20 per cent of its net asset value in aggregate in: Money Market Instruments, deposits and units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations, provided that the Fund may invest no more than 10 per cent of its net asset value in units or shares of such other collective investment schemes.

^ Not authorised for sale to the public in Hong Kong.

FTGF Martin Currie Global Emerging Markets Fund^ - (continued)

The Fund may invest in Chinese equities (meaning equities issued by companies domiciled in or deriving the predominant portion of their revenue from China), including certain eligible China A-Shares via the Shanghai-Hong Kong Stock Connect and/or Shenzhen-Hong Kong Stock Connect (the "Stock Connects"). The maximum exposure to Chinese equities, including through the Stock Connects, is the extent of Chinese equities' representation in the MSCI Emerging Markets Index, plus an additional 10 per cent.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

The Investment Manager assesses ESG factors/ characteristics. These factors/characteristics are assessed both quantitatively and qualitatively, through their proprietary ESG rating system and its direct research and engagement process. The Investment Manger assesses those ESG factors that could impact the ability of an issuer to generate future sustainable returns. These characteristics are assessed both quantitatively and qualitatively, through the Investment Manager's proprietary ESG ratings system and its direct research and engagement process. The proprietary ESG ratings capture this forward-looking analysis with companies assigned a risk rating on each of governance and sustainability (environmental and social) from 1 (low risk) to 5 (high risk) following consideration of environment, social affairs and corporate governance sustainability factors. Companies that have a sustainability or governance risk rating of 4 or higher will not be included in the Fund.

In addition, the Fund will not invest in:

- Companies which generate more than 5% of revenue from tobacco production, distribution or wholesale trading;
- Companies which generate more than 5% of revenue from the production or distribution of weapons;
- Companies which generate more than 5% of revenue from coal based power generation or the mining or distribution of thermal coal;
- Companies involved in the production, sale or distribution of dedicated and key components of controversial weapons(i.e., antipersonnel mines, biological & chemical weaponry and cluster munitions); and
- · Companies assessed as 'fail' under the UN Global Compact.

The Investment Manager applies its ESG process (as set out above) to 100% of the portfolio of the Fund. The Fund will maintain a portfolio ESG rating higher than that of the Fund's investment universe.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

FTGF Martin Currie European Unconstrained Fund^

Investment Objective - To provide long-term capital appreciation through investment in a concentrated portfolio comprised primarily of European equities.

Investment Policies – The Fund invests at least 80 per cent of its net asset value in shares of companies domiciled or listed in Europe, or which conduct the predominant part of their economic activity in Europe. Such investment may be direct or indirect through equity-related securities, depositary receipts or collective investment schemes, or long positions through derivatives. The Fund will invest in companies that, in the opinion of the Investment Manager in accordance with the Investment Manager's investment process, (i) have the potential to generate or sustain a high return on invested capital (ROIC) in excess of their weighted average cost of capital; (ii) have the potential to provide an attractive growth profile and/or cash flow generation over the long term; and (iii) are expected to have supportive accounting practices and environmental, social and governance practices. The Fund may invest in futures on European equity indices for efficient portfolio management and low exercise price warrants for investment purposes, for example where local market access via a local securities account is not available or desirable. Forward currency exchange contracts may be used only with respect to the hedged share classes offered by the Fund. The Fund will not invest in any other types of derivatives.

The Fund may invest up to 20 per cent of its net asset value in aggregate in: Money Market Instruments; deposits; derivatives; non-European equities; and units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations provided that the Fund may invest no more than 10 per cent of its net asset value in units or shares of such other collective investment schemes, and investments in such schemes will be for the purposes of gaining exposure to European equities or otherwise to pursue the investment objective and policies of the Fund. The Fund may invest up to 10 per cent of its net asset value in securities issued by Russian issuers.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

The Investment Manager assesses ESG factors/characteristics. These characteristics are assessed both quantitatively and qualitatively, through the Investment Manager's proprietary ESG ratings system and its direct research and engagement process.

Additional consideration of environmental and social characteristics of investments are achieved by looking at the investments at a portfolio level for possible positive or adverse exposures.

The proprietary ESG ratings capture this forward-looking analysis with companies assigned a risk rating on each of governance and sustainability (environmental and social) from 1 (low risk) to 5 (high risk) following consideration of environment, social affairs and corporate governance sustainability factors (as described in the section of the Prospectus entitled "Sustainability Risk"). Companies that have a sustainability or governance risk rating of 4 or higher will not be included in the Fund.

In addition, the Fund will not invest in:

- Companies which generate more than 5% of revenue from tobacco production, distribution or wholesale trading;
- Companies which generate more than 5% of revenue from the production or distribution of weapons;
- Companies which generate more than 5% of revenue from the production or distribution of fossil fuels;
- Companies which generate more than 5% revenue from coal based power generation or the mining or distribution of thermal coal;
- Companies which produce or distribute controversial weapons (i.e., anti-personnel mines, nuclear weaponry, biological & chemical weaponry and cluster munitions);
- Companies which generate more than 15% of revenue from nuclear power generation; and
- Companies generating revenue from mining of metals and minerals as defined by GICS sub-industries Diversified Metals and Mining, Copper, Gold and Precious Metals and Minerals.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

Franklin Responsible Income 2028 Fund^

Investment Objective - To generate income while seeking to preserve capital.

Investment Policies – The Fund will invest in a diversified portfolio of Euro denominated developed and Emerging Market Country fixed income debt securities, namely, freely transferable promissory notes, debentures, fixed and floating rate bonds, zero coupon bonds, non-convertible notes (i.e. notes which may not be converted into equity securities of the relevant issuer), credit- linked notes, commercial paper, certificates of deposit, and bankers' acceptances; repurchase agreements with debt securities as the underlying instruments (for efficient portfolio management purposes only); STRIPS and inflation index- linked securities (i.e. securities adjusted periodically according to the general movements of inflation in the country of issue, please see the section of the prospectus entitled "Inflation Protected Securities"); denominated in Euros, issued by sovereign, quasi-sovereign, supranational and corporate issuers that are listed or traded on Regulated Markets. The Fund may invest up to 30% of its net asset value in debt securities issued by Emerging Market Countries. The debt securities in which the fund will invest will primarily be non-convertible in nature.

The strategy seeks to generate income over a defined period whilst minimizing single credit issuer risk by building a well-diversified portfolio. Securities are selected with a goal of maintaining a prudent level of diversification among sectors and issuers where the Investment Manager believes there are attractive fundamentals, specifically that securities possess attractive yields relative to the Investment Manager's fundamental view of the underlying credit and the overall level of yields available in the market and that their creditworthiness is deemed sufficient to make income payments and return principal at maturity. The Fund will pursue its investment objective and policy for a period of five years following its launch (the "Maturity Date").

The Fund will invest at least 60% of its net asset value in the debt securities set out within paragraph two and rated above BBB- by S&P, above Baa3 by Moody's or above BBB- by Fitch or, if unrated, deemed to be of comparable quality by the Investment Manager while also aiming to achieve an average credit rating of Investment Grade. The Fund will only buy debt securities set out within paragraph two rated at least B- by S&P, B3 by Moody's or B- by Fitch or, if unrated, deemed to be of comparable quality by the Investment Manager. The Fund may invest up to 10% of its net asset value in debt securities rated B- by S&P, B3 by Moody's or B- by Fitch (including sub-categories or gradations therein).

The Fund may also purchase convertible securities (excluding contingent convertible securities) and other hybrid bond securities up to a maximum of 10% of its net asset value. The Fund may invest in Money Market Instruments including in money market UCITS or eligible collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations denominated in Euros. The Fund may also invest in certain types of derivatives, as described in the "Investment Techniques and Instruments and Financial Derivative Instruments" section in the prospectus, but only for efficient portfolio management purposes.

The Fund promotes environmental characteristics and is classified as an Article 8 pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation at this time and, therefore, the proportion of investments that qualify as environmentally sustainable economic activities under the Taxonomy Regulation is zero. However, in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.

Taxonomy

Transparency of environmentally sustainable investments in period reports

In line with its ESG investment methodology, an Article 8 Fund may hold investments that contribute to climate change mitigation and climate change adaptation. Due to the lack of reliable, timely and verifiable data, it is, however, currently not possible to determine how and to what extent the activities of the underlying investments are in economic activities that qualify as environmentally sustainable under Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088, as may be amended from time to time (the "Taxonomy Regulation") and so it is not possible to commit to a minimum proportion of an Article 8 Fund's underlying investments which take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation.

The investments underlying the Funds in scope of the present "RTS" periodic reporting do not take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Regulation (EU 2020/852) (the "Taxonomy Regulation") at this time, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation (please refer to the below RTS periodic reports' EU Taxonomy dedicated sections). However, in line with its ESG investment methodology, an Article 8 Fund may hold investments that contribute to climate change mitigation and climate change adaptation. Investors should note that the "do no significant harm" principle under Taxonomy Regulation applies only to those investments underlying the Article 8 Fund that take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation. The investments underlying the remaining portion of an Article 8 Fund do not take into account the EU criteria for environmentally sustainable economic activities under the Taxonomy Regulation. The above statement applies in relation to the following Article 8 Funds: FTGF Western Asset US Core Bond Fund, FTGF Western Asset US Core Plus Bond Fund, FTGF Western Asset Global Multi Strategy Fund, FTGF Western Asset US High Yield Fund, FTGF Western Asset Global High Yield Fund, FTGF Western Asset Short Duration Blue Chip Bond Fund, FTGF Western Asset Global Core Plus Bond Fund^, FTGF Western Asset UK Investment Grade Credit Fund^, FTGF Western Asset US Corporate Bond Fund^, FTGF Western Asset Sustainable Global Corporate Bond Fund^, FTGF Brandywine Global Fixed Income Fund, FTGF Brandywine Global Income Optimiser Fund, FTGF Brandywine Global Multi-Sector Impact Fund, FTGF ClearBridge Value Fund, FTGF ClearBridge US Appreciation Fund, FTGF ClearBridge US Large Cap Growth Fund, FTGF ClearBridge US Aggressive Growth Fund, FTGF ClearBridge US Equity Sustainability Leaders Fund^, FTGF ClearBridge Global Growth Fund^, FTGF ClearBridge Infrastructure Value Fund^, FTGF ClearBridge Global Infrastructure Income Fund, FTGF Martin Currie Asia Long-Term Unconstrained Fund^, FTGF Martin Currie Global Long-Term Unconstrained Fund^, FTGF Martin Currie Asia Pacific Urban Trends Income Fund, FTGF Martin Currie Global Emerging Markets Fund^, FTGF Martin Currie European Unconstrained Fund^ and Franklin Responsible Income 2028^

The investments underlying the remaining Funds, not listed above, do not consider the EU criteria for environmentally sustainable economic activities.

A more detailed description of the investment policies of each Fund is set out in the relevant Prospectus.

On behalf of the Board		
Fionnuala Doris Director	Joseph Keane Director

Independent Auditors' Report

Independent auditors' report to the members of Franklin Templeton Global Funds Plc

Report on the audit of the financial statements

Opinion

In our opinion, Franklin Templeton Global Funds Plc's financial statements:

- give a true and fair view of the Company's and sub-funds' assets, liabilities and financial position as at 28 February 2023 and of their results for the year then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish law); and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial Statements, included within the Annual Report and Audited Financial Statements, which comprise:

- the Statement of Financial Position as at 28 February 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares for the year then ended;
- the Portfolio of Investments for each of the sub-funds as at 28 February 2023; and
- the notes to the financial statements for the Company and for each of its sub-funds, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Emphasis of matter - Revised Directors' Report

As set out in the Revised Directors' Report, the original Directors' Report as signed on 15 June 2023 was revised as the information contained in the original Appendix – Sustainability Finance Disclosure Regulation (unaudited) which formed part of the original Annual Report as referenced in the original Directors' Report was revised as the Directors determined that additional required information be included in the original Appendix: Sustainability Finance Disclosure Regulation (unaudited). We are not required to and therefore have not performed a subsequent events review for the period from 15 June 2023 (the date of our previous auditors' report) to the date of this report.

Emphasis of matter - financial statements prepared on a basis other than going concern

In forming our opinion on the financial statements, which is not modified, we draw attention to note 2 to the financial statements which describes the reasons why the financial statements of Legg Mason Western Asset Emerging Markets Corporate Bond Fund, Franklin MV European Equity Growth and Income Fund, Franklin MV Global Equity Growth and Income Fund, Legg Mason Western Asset Global Inflation Management Fund, Legg Mason Western Asset Euro High Yield Fund, Legg Mason Western Asset Emerging Markets Total Return Bond Fund, Legg Mason Western Asset Short Duration High Income Bond Fund and Legg Mason ClearBridge Emerging Markets Infrastructure Fund, FTGF Brandywine Global Defensive High Yield Fund, FTGF Brandywine Global Dynamic US Equity Fund, FTGF Martin Currie Asia Long-Term Unconstrained Fund, Franklin MV Asia Pacific Ex Japan Equity Growth and Income Fund have been prepared on a basis other than going concern.

Conclusions relating to going concern

With the exception of Legg Mason Western Asset Emerging Markets Corporate Bond Fund, Franklin MV European Equity Growth and Income Fund, Franklin MV Global Equity Growth and Income Fund, Legg Mason Western Asset Global Inflation Management Fund, Legg Mason Western Asset Euro High Yield Fund, Legg Mason Western Asset Emerging Markets Total Return Bond Fund, Legg Mason Western Asset Short Duration High Income Bond Fund and Legg Mason ClearBridge Emerging Markets Infrastructure Fund, FTGF Brandywine Global Defensive High Yield Fund, FTGF Brandywine Global Dynamic US Equity Fund, FTGF Martin Currie Asia Long-Term Unconstrained Fund, Franklin MV Asia Pacific Ex Japan Equity Growth and Income Fund where a basis of accounting other than going concern has been adopted as set out in the Emphasis of matter - financial statements prepared on a basis other than going concern above, based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's and sub-funds' ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

With the exception of Legg Mason Western Asset Emerging Markets Corporate Bond Fund, Franklin MV European Equity Growth and Income Fund, Franklin MV Global Equity Growth and Income Fund, Legg Mason Western Asset Global Inflation Management Fund, Legg Mason Western Asset Euro High Yield Fund, Legg Mason Western Asset Emerging Markets Total Return Bond Fund, Legg Mason Western Asset Short Duration High Income Bond Fund and Legg Mason ClearBridge Emerging Markets Infrastructure Fund, FTGF Brandywine Global Defensive High Yield Fund, FTGF Brandywine High Yield Fund, FTGF Brandywine High Yield Fund, FTGF Brandywine High Yield Fund, FTGF Brandy

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Company's and sub-funds' ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report and Audited Financial Statements other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material

Independent Auditors' Report – (continued)

misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Revised Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Revised Directors' Report for the year ended 28 February 2023 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Revised Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities set out on page 17, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's and sub-funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

 $https://www.iaasa.ie/get media/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf.$

This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2014 opinions on other matters

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

Companies Act 2014 exception reporting

Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Andrew O'Callaghan for and on behalf of PricewaterhouseCoopers Chartered Accountants and Statutory Audit Firm Dublin

30 June 2023

Depositary's Report

Report from the Depositary to the Shareholders Dated 30 June 2023

For the period from 1 March 2022 to 28 February 2023 (the "Period")

The Bank of New York Mellon SA/NV, Dublin Branch (the "Depositary" "us", "we", or "our") has enquired into the conduct of Franklin Templeton Global Funds plc (the "Company") for the Period, in its capacity as depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company, in accordance with our role as depositary to the Company and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Regulation 34 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011), as amended (the "Regulations").

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company's constitutional documentation and the Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not been so managed, we as depositary must state in what respects it has not been so managed and the steps which we have taken in respect thereof.

Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of its constitutional documentation and the appropriate regulations and (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the Period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the constitutional documentation and the Regulations; and
- (ii) otherwise in accordance with the provisions of the constitutional documentation and the Regulations.

For and on Behalf of The Bank of New York Mellon SAVNV, Dublin Branch, Riverside Two, Sir John Rogerson's Quay Dublin 2, D02 KV60, Ireland

- 144A Securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These securities may only be resold, in transactions exempt from registration, to qualified institutional buyers. As at 28 February 2023, these securities amounted to \$24,299,000 or 18.40% of net assets.
- Variable rate security. The interest rate shown reflects the rate in effect at 28 February 2023.
- Illiquid.

- Security is valued in good faith at fair value by or at the discretion of the Valuation
- Security is in default as at 28 February 2023 (either principal and / or interest).
- Securities purchased on a to-be-announced basis.
- The rate of interest on this type of security is tied to the Consumer Price Index (CPI)/Retail Price Index (RPI). The coupon rate is the rate as of 28 February 2023.

Perpetual - A bond with no maturity date. Perpetual bonds are not redeemable but pay a

steady stream of interest.

REMIC - Real Estate Mortgage Investment Conduit. TBA - To Be Announced.

- 144A Securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These securities may only be resold, in transactions exempt from registration, to qualified institutional buyers. As at 28 February 2023, these securities amounted to \$140,494,000 or 12.27% of net assets.
- Variable rate security. The interest rate shown reflects the rate in effect at 28 February 2023.
- t Illiquid as at or subsequent to financial year ended 28 February 2023.
- Security is valued in good faith at fair value by or at the discretion of the Valuation Committee.
- ϵ Security is in default as at or subsequent to financial year ended 28 February 2023 (either principal and / or interest).
 - Securities purchased on a to-be-announced basis.
- β The rate of interest on this type of security is tied to the Consumer Price Index (CPI)/Retail Price Index (RPI). The coupon rate is the rate as of 28 February 2023.
- γ Security no longer accruing income during and/or post financial year ended 28 February 2023 due to the uncertainty of interest payments.

ABBREVIATIONS:

Perpetual	 A bond with no maturity date. Perpetual bonds are not redeemable but pay a
	steady stream of interest.

REMIC – Real Estate Mortgage Investment Conduit.

TBA – To Be Announced.

BRL – Brazilian Real

IDR – Indonesian Rupiah

MXN – Mexican Peso RUB – Russian Ruble

- Amounts designated as "-" are either \$0, less than \$1,000, less than 1,000 shares or less than 0.01%.
- 144A Securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These securities may only be resold, in transactions exempt from registration, to qualified institutional buyers. As at 28 February 2023, these securities amounted to \$31,064,000 or 54.09% of net assets.
- Variable rate security. The interest rate shown reflects the rate in effect at 28 February
- ε Security is in default as at or subsequent to financial year ended 28 February 2023 (either principal and / or interest).
- t Illiquid as at or subsequent to financial year ended 28 February 2023.
- γ $\;$ Security no longer accruing income during and/or post financial year ended 28 February 2023 due to the uncertainty of interest payments.

ABBREVIATIONS:

Perpetual – A bond with no maturity date. Perpetual bonds are not redeemable but pay a steady stream of interest.

EUR – Euro
GBP – British Pound
MXN – Mexican Peso
RUB – Russian Ruble

- Amounts designated as "-" are either \$0, less than \$1,000, less than 1,000 shares or less than 0.01%.
- 144A Securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These securities may only be resold, in transactions exempt from registration, to qualified institutional buyers. As at 28 February 2023, these securities amounted to \$8,227,000 or 5.61% of net assets.
- Variable rate security. The interest rate shown reflects the rate in effect at 28 February 2023
- Security (in whole or part) pledged as collateral for derivatives trading as at 28 February 2023.
- Securities purchased on a to-be-announced basis.
- The rate of interest on this type of security is tied to the Consumer Price Index (CPI)/Retail Price Index (RPI). The coupon rate is the rate as of 28 February 2023.

ABBREVIATIONS:

CPI

Consumer Price Index.

Perpetual – A bond with no maturity date. Perpetual bonds are not redeemable but pay a steady stream of interest.

 To Be Announced. BRL - Brazilian Real CAD - Canadian Dollar - Euro EUR GBP - British Pound IDR - Indonesian Rupiah JPY Japanese Yen KRW - South Korean Won MXN - Mexican Peso - Polish Zloty PLN ZAR - South Africa Rand

- Amounts designated as "-" are either \$0, less than \$1,000, less than 1,000 shares or less than 0.01%.
- 144A Securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These securities may only be resold, in transactions exempt from registration, to qualified institutional buyers. As at 28 February 2023, these securities amounted to \$164,595,000 or 59.80% of net assets.
- Variable rate security. The interest rate shown reflects the rate in effect at 28 February 2023.
- t Illiquid as at or subsequent to financial year ended 28 February 2023.
- Security is valued in good faith at fair value by or at the discretion of the Valuation Committee.
- ϵ $\;$ Security is in default as at or subsequent to financial year ended 28 February 2023 (either principal and / or interest).
- Securities purchased on a to-be-announced basis.
- β The rate of interest on this type of security is tied to the Consumer Price Index (CPI)/Retail Price Index (RPI). The coupon rate is the rate as of 28 February 2023.

ABBREVIATIONS:

Perpetual – A bond with no maturity date. Perpetual bonds are not redeemable but pay a steady stream of interest.

REMIC – Real Estate Mortgage Investment Conduit.

TBA – To Be Announced.

- Amounts designated as "-" are either \$0, less than \$1,000, less than 1,000 shares or less than 0.01%.
- 144A Securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These securities may only be resold, in transactions exempt from registration, to qualified institutional buyers. As at 28 February 2023, these securities amounted to \$1,076,000 or 11.97% of net assets.
- * Variable rate security. The interest rate shown reflects the rate in effect at 28 February 2023.
- † Illiquid as at or subsequent to financial year ended 28 February 2023.
- ϵ Security is in default as at or subsequent to financial year ended 28 February 2023 (either principal and / or interest).

ABBREVIATIONS:

Perpetual — A bond with no maturity date. Perpetual bonds are not redeemable but pay a steady stream of interest.

EUR – Euro GBP – British Pound

Notes to Financial Statements

1. Genera

Franklin Templeton Global Funds plc (the "Company", formerly Legg Mason Global Funds plc, re-named on 21 February 2023, in order to reflect the name of the Manager of the Company, Franklin Templeton International Services S. ar.I.; refer to Note 14, Significant Events, for details of Fund name changes) is an open-ended investment company with variable capital incorporated under the laws of Ireland as a public limited company pursuant to the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations") and the Central Bank UCITS Regulations. It was incorporated on 13 January 1998 with registration number 278601.

Its objective, as set out in its constitutional documents is the collective investment in transferable securities and other liquid financial assets of capital raised from the public and which operate on the principle of risk spreading. The Company is organised in the form of an umbrella fund. The constitutional documents of the Company provide that the Company may offer separate classes of shares, each representing interests in a sub-fund (the "Fund" or the "Funds" collectively) comprising a distinct portfolio of investments. A separate portfolio of assets shall not be maintained for a class. The Funds established by the Company are included in the General Information section of this report. Investment objectives and investment policies for all active Funds are listed in the Revised Directors'

2. Significant Accounting Policies

The significant accounting policies and estimation techniques adopted by the Company in the preparation of these financial statements are set out below.

Statement of Compliance

The financial statements for the financial year ended 28 February 2023 have been prepared in accordance with the accounting standards generally accepted in Ireland, including Financial Reporting Standard ("FRS") 102: "The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland" ("FRS 102") and Irish statute comprising the Companies Act 2014, the UCITS Regulations and the Central Bank UCITS Regulations. These policies are consistent with the policies applied in the financial statements for the financial year ended 28 February 2022.

Basis of Preparation

The financial statements have been prepared on a going concern basis for the Company under the historical cost convention as modified by the revaluation of financial assets and liabilities held at fair value through the profit or loss. The financial statements of Legg Mason Western Asset Short Duration High Income Bond Fund^, Legg Mason Western Asset Emerging Markets Total Return Bond Fund^, Legg Mason Western Asset Emerging Markets Corporate Bond Fund^, Legg Mason Western Asset US Short-Term Government Fund^, Legg Mason Western Asset US Adjustable Rate Fund^, Legg Mason Western Asset Global Inflation Management Fund^, Legg Mason Western Asset Euro High Yield Fund^, Legg Mason Western Asset EM Local Currency Debt Fund^, Legg Mason Western Asset Global Total Return Investment Grade Bond Fund^, Legg Mason Brandywine Global Sovereign Credit Fund^, FTGF Brandywine Global Defensive High Yield Fund^, Legg Mason Brandywine Global - US High Yield Fund^, FTGF Brandywine Global Dynamic US Equity Fund^, Legg Mason ClearBridge Growth Fund^, Legg Mason ClearBridge Global Equity Fund^, Legg Mason ClearBridge Emerging Markets Infrastructure Fund^, Legg Mason US Equity Fund^, Franklin MV European Equity Growth and Income Fund^, Legg Mason Global Equity Fund^, Legg Mason Batterymarch International Large Cap Fund^, Legg Mason Martin Currie Asia Pacific Ex Japan Equity Fund^, Legg Mason Martin Currie Asia Pacific European Absolute Alpha Fund^, Legg Mason Martin Currie Global Resources Fund^, Legg Mason Martin Currie Greater China Fund^ and FTGF Martin Currie Asia Long-Term Unconstrained Fund^ have been prepared on a non-going concern basis as these Funds were closed during the current and previous financial years or subsequent to the Statement of Financial Position date.

The format and certain wordings of the financial statements have been adapted from those contained in the Companies Act 2014 so that, in the opinion of the Directors, they more appropriately reflect the nature of the Company's business as an investment fund.

The Company has availed of the exemption available to open-ended investment funds under Section 7 "Statement of Cash Flows" of FRS 102 not to prepare a cash flow statement on the basis that substantially all of the Company's investments are highly liquid and carried at fair value, and the Company provides a statement of changes in net assets attributable to holders of redeemable participating shares.

(a) Investments at Fair Value

The Company classified all financial instruments, including its investments in debt and equity securities, and related derivatives, as financial assets or financial liabilities at fair value through profit or loss. These financial assets and financial liabilities are classified as held for trading at fair value through profit or loss. Financial assets or financial liabilities held for trading are acquired or incurred principally for the purpose of selling or repurchasing in the short term. Derivatives are also categorised as held for trading, as the Company does not classify any derivatives as hedges in a hedging relationship.

Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value. Transaction costs are expensed in the Statement of Comprehensive Income. Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the financial assets or financial liabilities at fair value through profit or loss category are presented in the Statement of Comprehensive Income in the financial year in which they arise.

The fair value of financial instruments traded in active markets (such as publicly traded derivatives and trading securities) is based on quoted market prices at the Statement of Financial Position date. Financial instruments (including bonds) held by the Funds, which are listed or traded on a regulated market, are valued on the basis of the latest available mid-price on the dealing day. The fair value of collective investment schemes is based on the traded net asset value of the relevant fund at the Statement of Financial Position date as provided by the fund's administrator.

The Company may from time to time invest in financial instruments that are not traded in an active market (for example in over-the-counter derivatives). The fair value is determined by using valuation techniques. The Company uses a variety of methods and makes assumptions that are based on market conditions existing at each Statement of Financial Position date. Valuation techniques used include the use of comparable recent arm's length transactions, discounted cash flow analysis and other valuation techniques commonly used by market participants. The values assigned to these instruments are based upon the best available information and because of the uncertainty of the valuation, these values may differ significantly from the values that would have been realised had a ready market for these instruments existed and the differences could be material. Entering into these agreements involves, to varying degrees, elements of credit, legal, market and documentation risk in excess of amounts recognised in the Statement of Comprehensive Income. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparties to the agreements may default on their obligations to perform or disagree as to the meaning of contractual terms in the agreements, or that there may be unfavourable changes in interest rates or the price of the index or security underlying these transactions. The prices used at the year end which have been sourced from a single broker source or based upon valuation techniques are the best estimate of fair value as at the year end date. However, there is a degree of uncertainty in respect of these prices. It may not always be possible to close out the positions at the stated market value with the given counterparty.

(b) Recognition/Derecognition

Regular-way purchases and sales of investments are recognised on trade date plus one – the date on which the Company commits to purchase or sell the asset. Investments are initially recognised at fair value and transaction costs for all financial assets carried at fair value through profit or loss are expensed as incurred. Investments cease to be recognised when the rights to receive cash flows from the investments have expired or the Company has transferred substantially all risks and rewards of ownership.

(c) Single Broker Pricing

The prices used at the year end which have been sourced from a single broker source are the best estimate of fair value as at the year end date. However, there is a degree of uncertainty in respect of these prices. It may not always be possible to close out the positions at the stated mark with the given counterparty. Values of securities for each Fund which have been priced using single broker sources as at 28 February 2023 and 28 February 2022 are disclosed in Note 12.1 (d).

(d) Accounting for Investments

Security transactions are accounted for on trade date plus one. Investments are initially recognised at fair value and transaction costs for all "fair-valued-through profit or loss" securities are expensed as incurred. Gains or losses on the sale of securities are calculated by using the First-In-First-Out ("FIFO") basis.

(e) Income from Investments

Interest income and expense are recognised in the Statement of Comprehensive Income for all debt instruments using the effective interest method. The Investment Managers monitor interest income receivable for any delinquent interest receivable amounts. The accounts have been reviewed for delinquent interest receivable and as at 28 February 2023 and 28 February 2022 all amounts were deemed to be recoverable.

Dividends are reported in the Statement of Comprehensive Income on the dates on which the relevant securities are listed as "ex-dividend". Dividend income is shown gross of any non-recoverable withholding taxes, which is disclosed separately in the Statement of Comprehensive Income.

(f) Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. There are no offsetting financial instruments as at 28 February 2023 and 28 February 2022.

(g) Critical Accounting Estimates and Assumptions

Management makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are outlined below.

Fair Value of Derivative Financial Instruments

The Company may, from time to time, hold financial instruments that are not quoted in active markets, such as over-the-counter derivatives. Fair values of such instruments are determined by using valuation techniques as discussed in Note 2(a). Where valuation techniques (for example, models) are used to determine fair values, they are validated and periodically reviewed and compared to the price provided by an independent pricing service provider, where available.

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require management to make estimates. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

^ Not authorised for sale to the public in Hong Kong.

2. Significant Accounting Policies - (continued)

(g) Critical Accounting Estimates and Assumptions – (continued)

The values assigned to these instruments are based upon the best available information and because of the uncertainty of the valuation, these values may differ significantly from the values that would have been realised had a ready market for these instruments existed and the differences could be material. Entering into these agreements involves, to varying degrees, elements of credit, legal, market and documentation risk in excess of the amounts recognised in the Statement of Comprehensive Income. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparties to the agreements may default on their obligations to perform or disagree as to the meaning of contractual terms in the agreements, or that there may be unfavourable changes in interest rates or the price of the index or security underlying these transactions.

(h) Lending of Securities

Certain Funds may lend securities to brokers, dealers and other financial organisations to earn additional income. Each security loan is collateralised with collateral assets in an amount equal to or greater than the current market value of the loaned securities. There is a risk of delay in receiving collateral or in recovering the securities loaned or even a loss of rights in collateral should the borrower fail financially.

As at 28 February 2023 and 28 February 2022, no Funds were engaged in securities lending.

(i) Equalisation

An equalisation account is maintained so that the amount distributed is the same for all shares of the same type notwithstanding different dates of issue. Equalisation income and expense are recorded in the Statement of Comprehensive Income.

Faualisation Income

A sum equal to that part of the issued price of a share which reflects income (if any) accrued but undistributed up to the date of issue will be deemed to be an equalisation payment and treated as repaid by shareholders in the first dividend to which the shareholder was entitled in the same accounting period as that in which the shares are issued.

Equalisation Expense

A sum equal to that part of the issued price of a share which reflects expense (if any) accrued but undistributed up to the date of issue will be deemed to be an equalisation receipt and treated as repaid to shareholders to the first dividend to which the shareholder was entitled in the same accounting period as that in which the shares are issued.

(j) Expenses

Expenses are accounted for on an accruals basis. Certain expenses are share class specific expenses and are charged directly to the share class. General Fund expenses are allocated to the various share classes on the basis of relative net asset value.

(k) Transaction Costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or financial liability is recognised initially, an entity shall measure it at its fair value with transaction costs for such instruments being recognised directly in the Statement of Comprehensive Income.

Transaction costs charged by the Depositary on the settlement of purchases and sales of investments are disclosed within administrator and depositary fees in the Statement of Comprehensive Income for each Fund.

Transaction costs on purchases and sales of equities, collective investment schemes, futures contracts and options are disclosed in Note 4 for each Fund.

Transaction costs on the purchase and sale of bonds and other derivative instruments are included in the purchase and sale price of the investment. These costs cannot be practically or reliably gathered as they are embedded in the cost of the investment and cannot be separately verified or disclosed.

(I) Foreign Exchange Translation

- (a) Functional and presentation currency: Items included in the Company's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is US Dollars (United States Dollars) for all Funds except FTGF Western Asset Euro Core Plus Bond Fund, Legg Mason Western Asset Euro High Yield Fund, FTGF ClearBridge Infrastructure Value Fund^, Franklin MV European Equity Growth and Income Fund^, Legg Mason Martin Currie European Absolute Alpha Fund^, FTGF Martin Currie European Unconstrained Fund^ and Franklin Responsible Income 2028 Fund^ for which the functional currency is Euro, FTGF Western Asset UK Investment Grade Credit Fund^ for which the functional currency is Japanese Yen. The Company has adopted the functional currency of each Fund as the presentation currency for these financial statements. The financial statements of the Company are presented in US Dollars.
- (b) Purchases and sales of securities, and income and expenses are translated at the rate of exchange quoted on the respective date that such transactions are recorded. Assets and liabilities are translated at the foreign exchange rate at the end of the financial year. Differences between income and expense amounts recorded and collected or paid are recorded as foreign exchange gains/losses in the Statement of Comprehensive Income under net gain/(loss) on financial assets and liabilities at fair value through profit or loss.

(m) Forward and Spot Foreign Currency Contracts

A forward foreign currency contract ("forward contract") is a commitment to purchase or sell a foreign currency at a future date, at a negotiated rate. Forward contracts are used to seek to manage foreign currency risks and to tactically shift portfolio currency risk. Forward contracts are generally entered into as a hedge upon the purchase or sale of a security denominated in a foreign currency. The Fund will realise a gain or loss upon the closing or settlement of the forward transaction. Unrealised appreciation or depreciation on forward contracts is reported in the Statement of Financial Position and Statement of Comprehensive Income. Realised gains and losses are reported with all other foreign currency gains and losses in the Statement of Comprehensive Income. Risks relating to forward contracts include the potential inability of the counterparty to meet the terms of the contract and unanticipated movements in the value of a foreign currency relative to the base currency of the Fund. Forward contracts are fair valued by an independent price source by reference to the price at which a new forward contract of the same size and maturity could be undertaken. For each relevant Fund, gains or losses on open spot foreign currency contracts are included in cash in the Statement of Financial Position.

(n) Futures Contracts

Initial margin deposits are made upon entering into futures contracts and are generally made in cash. Futures contracts are fair valued based upon their quoted daily settlement prices. Changes in the value of open futures contracts are recognised as unrealised gains or losses on futures contracts until the contracts are terminated, at which time realised gains and losses are recognised as a realised gain or loss and included in net gain/(loss) on financial assets and liabilities at fair value through profit and loss in the Statement of Comprehensive Income. Unrealised appreciation or futures contracts are shown in the Statement of Financial Position. Realised gains and losses not yet delivered are shown within margin accounts and restricted cash in the Statement of Financial

(o) Option Contracts

The premium on purchased put options exercised is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining the realised gain or loss. The premium on purchased call options exercised is added to the cost of the securities or foreign currency purchased. Premiums paid from the purchase of options, which expire unexercised, are treated as realised losses. The unrealised gain or loss on open option positions is calculated and recorded as the fair value of the option less the premium paid on that option. Unrealised gains or losses on open option positions are reflected as assets or liabilities in the Statement of Financial Position.

The premium on written call options exercised is added to the proceeds from the sale of the underlying security or foreign currency in determining the realised gain or loss. The premium on written put options exercised is subtracted from the cost of the securities or foreign currencies purchased. Premiums received from written options, which expire unexercised, are treated as realised gains.

(p) Swap Instruments

Swap Instruments are recognised at fair value on the date on which the derivative contract is entered into and are subsequently remeasured at their fair value. Fair values are obtained from quoted market prices in active markets, including recent market transactions, and valuation techniques, including discounted cash flow models and options pricing models, as appropriate. All derivatives are carried as assets when fair value is positive and as liabilities when fair value is negative. Movement in the fair value of the swap instruments and interest paid and earned from the swap instruments are recognised in the Statement of Comprehensive Income under net gain/(loss) on financial assets and liabilities at fair value through profit or loss.

Credit Default Swap

Each Fixed Income Fund (Fixed Income Fund as defined on page 15), except FTGF Western Asset US Government Liquidity Fund may enter into credit default swap agreements, provided that (i) the credit default swap agreement must be subject to daily valuation by the Funds and independently verified at least weekly, and (ii) the risks attached to the credit default swap must be independently assessed on a half-yearly basis and the report must be submitted to the Directors for review. A Fund may be either the buyer or seller in a credit default swap transaction. The "buyer" in a credit default contract is obligated to pay the counterparty a periodic stream of payments over the term of the contract provided that no event of default on an underlying reference obligation has occurred. If a Fund is a buyer and no event of default occurs, the Fund will lose its investment and recover nothing. On the other hand, if the Fund is a buyer and an event of default does occur, the Fund (the buyer) will

[^] Not authorised for sale to the public in Hong Kong.

2. Significant Accounting Policies – (continued)

(p) Swap Instruments – (continued)

receive the full notional value of the reference obligation that may have little or no value. Conversely, if the Fund is a seller and an event of default occurs, the Fund (the seller) must pay the counterparty the full notional value, or "par value", of the reference obligation in exchange for the reference obligation. As a seller, a Fund receives a fixed rate of income throughout the term of the contract, which typically is between six months and three years, provided that there is no default event.

The Funds purchase credit default swap contracts in order to hedge against the risk of a fall in the capital price, or default, of debt securities they hold. The Funds sell credit default swap contracts in order to get exposure to the rise in the capital price, and the risk of default is transferred from the purchaser of credit default contracts to the Fund as a seller of the credit default swap contract. This involves the risk that the swap may expire worthless and the credit risk that the seller may fail to satisfy its payment obligations to the Funds in the event of a default. The Funds may only enter into such transactions with counterparties rated A- or higher.

Interest Rate Swaps

An interest rate swap or cross currency interest rate swap involves the exchange by a Fund with another party of their respective commitments to pay or receive cash flows e.g., an exchange of floating rate payments for fixed-rate payments in base or foreign currencies. The purchase of a cap entitles the purchaser, to the extent that a specified index exceeds a predetermined value, to receive payments on a notional principal amount from the party selling the cap. The purchase of a floor entitles the purchaser, to the extent that a specified index falls below a predetermined value, to receive payments on a notional principal amount from the party selling the floor. A collar combines elements of buying a cap and selling a floor. Spread locks are contracts that guarantee the ability to enter into an interest rate swap at a predetermined rate above some benchmark rate.

Equity Swaps

Equity swaps are agreements between a Fund and third parties, which allow the Funds to acquire an exposure to the price movement of specific securities without actually purchasing the securities. The changes in contract values are recorded as unrealised gains or losses and the Funds recognise a realised gain or loss when the contract is closed.

Total Return Swaps

Certain of the Funds may invest in total return swaps to reduce their long-term exposure to market risk and credit risk. Total return swaps are contracts in which a Fund pays or receives a series of cash flows based upon the total return of a specified asset in return for paying or receiving, respectively, a fixed or floating rate of interest based upon that same specified asset. Total return swaps are fair valued by an independent pricing vendor. If the price is not available they are fair valued by the Franklin Templeton Global Valuation Committee (the "Valuation Committee"). These positions are reconciled to the counterparty price on a monthly basis.

Cross Currency Swaps

Cross currency swaps involve the exchange of two different currencies with an agreement to reverse the exchange at a later date at specified exchange rates. The exchange of currencies at the inception date of the contract takes place at the current spot rate. The re-exchange at maturity may take place at the same exchange rate, a specified rate, or the then current spot rate. Interest payments, if applicable, are made between the parties based on interest rates available in the two currencies at the inception of the contract.

Inflation Swap

Inflation swaps involve an exchange of a fixed rate on a notional principal amount and a floating rate linked to an inflation index. The party paying the floating rate pays the inflation adjusted rate multiplied by the notional principal amount.

Index Swaps

An index swap refers to a hedging contract in which a party exchanges a predetermined cash flow with a counterparty on a specified date. A debt, equity, or other price index is used as the agreed exchange for one side of this swap. An overnight index swap applies an overnight rate index such as the federal funds or London Interbank Offered Rate (LIBOR) rates. The overnight index swap denotes an interest rate swap involving the overnight rate being exchanged for a fixed interest rate.

(q) Contracts for Difference

A contract for difference is an arrangement between two parties to exchange the difference between the opening price and closing price of a contract. In a long contracts for difference contract, the counterparty agrees to pay the Fund the amount, if any, by which the notional amount of the contract would have increased in value had it been invested in the underlying security or securities, plus any dividends that would have been received on those stocks. In a short contracts for difference contract, the counterparty agrees to pay the Fund the amount, if any, by which the notional amount of the contract would have decreased in value had it been invested in the underlying security or securities. The Fund must also pay the counterparty the value of any dividends that would have been received on those stocks.

(r) Securities Traded on a "To-Be-Announced" Basis

The Funds may trade securities on a "'to-be-announced" ("TBA") basis. In a TBA transaction, a Fund commits to purchase or sell securities for which specific information is not yet known at the time of the trade. Securities purchased on a TBA basis are not settled until they are delivered to or from the relevant Fund, normally 15 to 45 days later. These transactions are subject to market fluctuations and their current value is determined in the same manner as for other securities.

(s) Short-Term Investments

Certificates of deposit, time deposits and other short-term investments maintained with financial institutions are fair valued at their face value with interest accrued, as applicable.

(t) Repurchase and Reverse Repurchase Agreements

Repurchase agreement means any agreement pursuant to which a Fund transfers securities, or any rights related to a title or security, to a counterparty subject to a commitment to repurchase them at a specified price on a future date specified or to be specified. Reverse repurchase agreement means any agreement pursuant to which a Fund receives securities, or any rights related to a title or security, from a counterparty subject to a commitment to sell them back at a specific price on a future date specified or to be specified.

Securities purchased under agreements to resell are fair valued at their face value and adjusted for any movements in foreign exchange rates. Interest rates vary for each agreement and are set at the initiation of the agreement. It is the Company's policy to take custody of securities purchased under reverse repurchase agreements and to value the securities on a daily basis to protect the Company in the event the securities are not repurchased by the counterparty. The Company will generally obtain additional collateral if the market value of the underlying securities is less than the face value of the reverse repurchase agreement plus any accrued interest. In the event of default on the obligation to repurchase, the Company has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. In the event of default or bankruptcy by the counterparty to the agreement, realisation and/or retention of the collateral or proceeds may be subject to legal proceedings. Reverse repurchase agreements have been used during the financial year for the purpose of efficient portfolio management.

(u) Exchange Traded Funds

The Funds may invest in exchange traded funds ("ETFs"). ETFs are securities that track an index, a commodity or a basket of assets like an index fund, but trade like a stock on an exchange. These securities are subject to market fluctuations and their current value is determined in the same manner as for other securities.

(v) Shares in Collective Investment Schemes

The fair value of investments in open-ended investment funds is based upon the unaudited net asset value per share as supplied by the respective funds' administrator.

(w) Swaptions

Certain of the Funds may invest in swaptions for the purposes of hedging against adverse movements in interest rates. Such instruments combine the features of two other financial instruments namely an option and an interest rate swap. The Funds record an unrealised gain/(loss) (fair value) for the amount expected to be received or paid under the agreement if such amount was terminated on valuation. The fair value is provided on a daily basis by Markit as the vendor. The unrealised gain/(loss) are reflected as a financial asset or financial liability in the Statement of Financial Position.

(x) Treasury Inflationary Index Obligations (TIPS)

Certain of the Funds may invest in indexed securities. Indexed securities are securities whose prices are indexed to the prices of securities indices, currencies, or other financial statistics. Indexed securities typically are debt securities or deposits whose value at maturity and/or coupon rate is determined by reference to a specific instrument or statistic. The performance of indexed securities fluctuates (either directly or inversely, depending upon the instrument) with the performance of the index, security or currency. The securities are fair valued daily by the relevant vendor and the change in fair value is recorded by the Funds as an unrealised gain or loss.

(y) Loan Notes & Loan Participations

Loan notes & loan participations are fixed and floating rate loans arranged through private negotiations between a corporation or other type of entity and one or more financial institution. Such investments are expected to be in the form of participations in, or assignment of, the loans, which may or may not be securitised. Loan notes & loan participations are classified by the Company as financial assets at fair value through profit or loss, and are initially recognised at fair value. Gains and losses arising from changes in the fair value of the financial assets are presented in the Statement of Comprehensive Income, in the financial year in which they arise.

2. Significant Accounting Policies – (continued)

(z) Master-Limited Partnership

Certain Funds may invest in master-limited partnerships (MLPs) by purchasing units issued to limited partners of the MLP that are publically traded on regulated markets. MLPs are limited partnerships or limited liability companies that typically derive income and gains from the exploration, development, storage, gathering, mining, production, processing, refining, transportation (including pipelines transporting gas, oil or products thereof) or marketing of any mineral or natural resources. MLPs generally have two classes of owners, the general partner and the limited partners. Limited partners own the remainder of the partnership, through ownership of common units, and have a limited role in the operations and management.

The fair value of an investment in MLP is determined in the same manner as for other securities. The changes in the fair value is recorded as an unrealised gain or loss.

(aa) Interest income and interest expense

Interest income and interest expense include interest income and interest expense on cash, cash equivalents, time deposits and margin cash. Interest income and interest expense are disclosed in the Statement of Comprehensive Income.

(ab) Margin accounts and restricted cash

"Margin accounts and restricted cash" in the Statement of Financial Position represent margin deposits, cash collateral and realised gains and losses on futures contracts not yet delivered.

Margin deposits are held or pledged with / to brokers in respect of open exchange-traded and over-the-counter derivative contracts. Cash collateral provided or received by the Funds for derivatives trading are likewise identified in the Statement of Financial Position within margin accounts and restricted cash and are not included as components of cash and cash equivalents. Cash collateral balances are amounts relating to derivatives trading and are held at the year end with brokers. Cash collateral balances received in relation to derivatives trading are held with The Bank of New York Mellon SA/NV, Dublin Branch and any sub-custodians and are payable to brokers at the year end.

(ac) Receivable for investments / redeemable participating shares sold and payable for investments purchased / redeemable participating shares reacquired

Receivable for investments / redeemable participating shares sold represents receivables for securities / redeemable participating shares sold that have been contracted for but not yet settled or delivered on the Statement of Financial Position date. These amounts are recognised initially at fair value and subsequently measured at amortised cost.

Payable for investments purchased / redeemable participating shares reacquired represents payables for securities purchased / redeemable participating shares reacquired that have been contracted for but not yet settled or delivered on the Statement of Financial Position date. These amounts are recognised initially at fair value and subsequently measured at amortised cost.

(ad) Distributions to holders of redeemable participating shares

Distributions to holders of redeemable participating shares are recognised on an ex-dividend date and presented as "finance costs" in the Statement of Comprehensive Income.

3. Efficient Portfolio Managemen

Subject to the conditions and within the limits from time to time laid down by the Central Bank of Ireland (the "Central Bank"), and except as otherwise stated in the investment objective and policies of a Fund, the Investment Managers and/or the Sub-Investment Managers may employ investment techniques and instruments such as futures, options, forward foreign currency contracts and other derivatives for efficient portfolio management purposes. Furthermore, new techniques and instruments may be developed which may be suitable for use by a Fund in the future and a Fund may employ such techniques and instruments subject to the prior approval of, and any restrictions imposed by, the Central Bank.

For UCITS which have engaged in efficient portfolio management techniques and instruments, disclosures are required under the Central Bank UCITS Regulations. A UCITS is required to disclose the revenues arising from efficient portfolio management techniques and instruments for the entire reporting year together with the direct and indirect operational costs and fees incurred. Please refer to the table below.

Details of open financial derivative instruments at the financial year end are disclosed in the Portfolio of Investments of the Funds. All realised gains and losses arising from the use of derivative contracts for efficient portfolio management purposes are included in net gains/(losses) on financial assets and liabilities at fair value through profit or loss in the Statement of Comprehensive Income.

During the financial year, reverse repurchase agreements were entered into for the purpose of efficient portfolio management. Details of all reverse repurchase agreements at the financial year end are disclosed in the Portfolio of Investments.

Reverse repurchase agreements

A portion of each Fund's assets may be held in ancillary liquid assets. For efficient portfolio management purposes, each Fund may enter into repurchase agreements and reverse repurchase agreements.

The table below shows the revenue earned from reverse repurchase agreements during the financial years ended 28 February 2023 and 28 February 2022:

Fund name	28 February 2023 (000's)	28 February 2022 (000's)
FTGF Western Asset US Government Liquidity Fund	\$5,725	\$70

There have been no transaction costs on the purchases and sales of reverse repurchase agreements.

Stocklending transactions

Certain Funds may also utilise stocklending agreements for efficient portfolio management purposes as described above. In such transactions the Fund may temporarily transfer its securities to a borrower, with agreement by the borrower to return equivalent securities to the Fund at a pre-agreed time. In entering into such transactions the Fund will endeavour to increase the returns on its portfolio of securities by receiving a fee for making its securities available to the borrower. There were no stocklending transactions on any of the Funds for the financial years ended 28 February 2022 and 28 February 2022.

4. Operating Expenses and Other Related Party Transactions

Pursuant to the management agreement between Franklin Templeton International Services S.à r.l (the "Manager" or "FTIS") and the Company (the "Management Agreement"), the Manager shall be entitled to receive a management fee out of the assets of the relevant Fund for its investment management and distribution services, which shall accrue on each dealing day and be payable monthly in arrears (the "Management Fees"). The Company shall also be responsible for the prompt payment or reimbursement to the Manager of any commissions, transfer fees, registration fees, taxes and similar liabilities, costs and out-of-pocket expenses properly payable or incurred by FTIS.

The maximum Management Fee for each share class (expressed as a percentage of the relevant Fund's net asset value attributable to such class) as at financial year end is as follows:

 $^{{}^{\}wedge}$ Not authorised for sale to the public in Hong Kong.

28 February 2022

Notes to Financial Statements – (continued)

4. Operating Expenses and Other Related Party Transactions – (continued)

In the tables above, the Management Fees provided for each Fund apply to any of the share classes listed in the relevant column that are offered by the Fund. Not all share classes are offered by each Fund and not all share classes were in issue as at current and prior financial year end. The Prospectus, as it may be amended or supplemented from time to time, indicates which share classes are offered by each Fund.

Pursuant to each Investment Management Agreement, the Manager shall be responsible for paying the fees and out-of-pocket expenses of the relevant Investment Manager.

The Manager has voluntarily agreed to waive a portion of their fees and/or reimburse for certain expenses so that the total expenses would not exceed certain voluntary expense limitations established for the Funds. The Manager, at its discretion, may revise or discontinue the voluntary waivers and/or expense reimbursements at any time.

28 February 2023

For the financial years ended 28 February 2023 and 28 February 2022, the Management Fees waived, reimbursed and other expenses recouped were as follows:

Pursuant to each Investment Management Agreement, each Investment Manager is entitled to receive an investment management fee and each Investment Manager shall be responsible for paying the fees and out-of-pocket expenses of any Sub-Investment Managers out of its own Investment Management Fee (which may include "performance fees").

Under the terms of the Master Distribution Agreement between the Manager, the Company and Franklin Distributors, LLC (the "Master Distributor"), the Master Distributor is authorised to market, promote, offer and arrange for the sale and redemption of Shares of the Company (collectively, "distribution services"). In addition, the Master Distributor is authorised at its own costs and expenses to engage one or more distributors for the purpose of assisting it with carrying out in duties and responsibilities, provided the appointments of such other firms are made in accordance with the requirements of the Central Bank Rules. Under the terms of the Master Distributor Agreement between the Manager, the Company and the Master Distributor, and the Master Distributor, and the Master Distributor, and the Master Distributor, the Master Distributor, the Master Distributor, and the Master Distributor, the Master Distributor, the Master Distributor, and the Master Distributor and the Master Dist

The Company shall also be responsible for the prompt payment or reimbursement to the Manager of any commissions, transfer fees, registration fees, taxes and similar liabilities, costs and out-of-pocket expenses properly payable or incurred by the Manager.

Shareholder Services Fee

Pursuant to the Management Agreement between the Company and the Manager, the Manager shall be entitled to receive a shareholder services fee out of the assets of the relevant Funds for its services, which shall accrue on each dealing day and be payable monthly in arrears (the "Shareholder Services Fees"). The Shareholder Services Fees shall be payable monthly in arrears and shall accrue on each dealing day. Under the Master Shareholder Servicing Agreement between the Manager, the Company and Franklin Distributors, LLC (the "Master Shareholder Servicing Agent"), the Master Shareholder Servicing Agent shall be entitled to receive from the Manager a shareholder services fee from certain of the share classes for their services as Shareholder Servicing Agent.

Under the terms of the Master Shareholder Servicing Agent Agreement, the Master Shareholder Servicing Agent is authorised at its own costs and expenses to engage one or more parties for the purpose of assisting it with carrying out in duties under the agreement, provided that the Master Shareholder Servicing Agent shall remain responsible to the Manager for the performance of its obligations under such agreement. Pursuant to this, the Master Shareholder Servicing Agent has appointed LMAMHK (ceased as of 1 July 2022), FTIA (effective 1 July 2022) and Templeton Asset Management Ltd. (effective 1 January 2023, formerly Legg Mason Asset Management Singapore Pte. Limited) as additional Shareholder Servicing Agents of the Company. The Manager has authorised Franklin Templeton Securities Investment Consulting (SinoAm) Inc to provide shareholder services in respect of Taiwan.

[^] Not authorised for sale to the public in Hong Kong

4. Operating Expenses and Other Related Party Transactions – (continued)

The aggregate amount of Shareholder Services Fees paid by each share class shall be or has been equal to the following:

- (i) 0.15 per cent, per annum of the net asset value of FTGF Western Asset US Core Bond Fund, FTGF Western Asset US Core Plus Bond Fund, Egg Mason Western Asset Short Duration High Income Bond Fund, FTGF Western Asset Global Multi Strategy Fund, FTGF Western Asset US High Yield Fund, Legg Mason Western Asset Emerging Markets Corporate Bond Fund^, FTGF Western Asset Global High Yield Fund, Legg Mason Western Asset Global Inflation Management Fund^, FTGF Western Asset Asian Opportunities Fund, FTGF Western Asset Short Duration Blue Chip Bond Fund, FTGF Western Asset Global Core Plus Bond Fund^, FTGF Western Asset Global Credit Fund^, Legg Mason Western Asset Euro High Yield Fund^, FTGF Western Asset Macro Opportunities Bond Fund^, FTGF Western Asset Multi-Asset Credit Fund^, FTGF Western Asset Structured Opportunities Fund^, FTGF Western Asset US Mortgage-Backed Securities Fund^, FTGF Western Asset US Corporate Bond Fund^, FTGF Western Asset Sustainable Global Corporate Bond Fund^, FTGF Brandywine Global Fixed Income Fund, FTGF Brandywine Global Fixed Income Fund, FTGF Brandywine Global Credit Opportunities Fund^, FTGF Brandywine Global Fixed Income Fund, FTGF Brandywine Global Credit Opportunities Fund^, FTGF Brandywine Global Defensive High Yield Fund^, FTGF Brandywine Global Enhanced Absolute Return Fund^ and FTGF Brandywine Global Multi-Sector Impact Fund^, and

Performance Fee

In addition to the Investment Management Fees described above, the Investment Manager may be entitled to receive a fee (a "Performance Fee") depending on the performance of the PF Class Shares (Performance Fee Classes, as indicated by "(PF)" in the name of the share class).

Legg Mason Martin Currie European Absolute Alpha Fund^ (ceased trading on 1 June 2021)

For Legg Mason Martin Currie European Absolute Alpha Fund^, for each PF Share Class, the Performance Fee has normally been calculated in respect of each period of twelve months ending on the last dealing day in each fiscal year (a "Calculation Period"). For each PF Share Class, the first Calculation Period was the period commencing on the business day immediately following the dealing day on which the net asset value was first calculated for the share class (the "First Dealing Day") and ending on the last dealing day of the fiscal year in which the First Dealing Day occurs (the "First Calculation Period").

For each Calculation Period for each PF Class Share, the Investment Manager has been entitled to a Performance Fee equal to 20 per cent of the amount, if any, by which the performance of the net asset value per share during that period exceeds the High Water Mark (as defined below) as at the end of the previous Calculation Period. For distributing share classes, for purposes of measuring the performance of the net asset value per share during a Calculation Period, any distributions that were paid during the period were to be added back in to the net asset value. For each PF Share Class, once payable in respect of a Calculation Period, a Performance Fee was not to be affected by any losses experienced by the Funds or the PF Share Class in any subsequent Calculation Period. Any Performance Fee was accrued on each dealing day and would have been normally paid within 21 days of the end of the relevant Calculation Period, after verification by the Depositary. If the Investment Management Agreement was terminated before the last dealing day in any fiscal year, for each PF Share Class the Performance Fee in respect of the then-current Calculation Period would have been calculated and paid as though the date of termination was the end of the Calculation Period. In the event that a shareholder was to redeem their PF Class Shares prior to the end of a Calculation Period, any accrued Performance Fee attributable to their shares was to be crystallised and be paid to the Investment Manager.

The High Water Mark with respect to each PF Share Class of Legg Mason Martin Currie European Absolute Alpha Fund^ meant the greater of: (i) the initial offer price per share; (ii) the highest net asset value per share in effect immediately after the end of any previous Calculation Period; and (iii) if the PF Share Class launched via a merger of a share class in another fund managed by the Sub-Investment Manager, the high water mark for such share class on the date of the merger as calculated according to the relevant offering document for such other fund.

Legg Mason Martin Currie European Absolute Alpha Fund^ did not operate equalisation accounts for shareholders with respect to the performance fee accruals

There have been no Performance Fees charged during the financial year ended 28 February 2023 (28 February 2022: Performance Fees charged are disclosed in the Statement of Comprehensive Income).

Administrator and Depositary Fees

The Bank of New York Mellon SA/NV, Dublin Branch acts as depositary (the "Depositary") and BNY Mellon Fund Services (Ireland) Designated Activity Company acts as administrator (the "Administrator") to all Funds in the Company. For administration, accounting, shareholder, trustee and depositary services, they collectively receive from the Funds a fee of up to 0.15% of the net asset value of each Fund.

Directors' Remuneration

Directors' fees and out-of-pocket expenses charged through profit and loss in the Statement of Comprehensive Income and which pertain to the financial year ended 28 February 2023 were \$143,000 (28 February 2022: \$140,000).

Directors' fees are not payable in respect of Jane Trust, Jaspal Sagger and William Jackson who are employees of the Manager, the Investment Managers or their affiliates. Directors' fees were not payable in respect of Joseph Carrier up to 3 October 2022, the date of cessation of his full-time employment with Franklin Templeton Investments. Mr. Carrier shall continue to act as a non-executive Director of the Company and shall from 3 October 2022 be remunerated in line with the other non-executive Directors of the Company.

Auditors' Remuneration

Fees paid to the auditors, PricewaterhouseCoopers of €1,064,363 (excluding VAT), in respect of the financial year, relate to statutory audit of the financial statements of the Company (28 February 2022: €1,068,650 (excluding VAT)). The total audit fee for the Company as detailed within the Statement of Comprehensive Income on page 226 is inclusive of VAT at 23% and is presented in the presentational currency of the Company (US Dollar).

For the financial year ended 28 February 2023, out-of-pocket expenses paid to the auditors amounted to €11,804 (no out-of-pocket expenses paid to the auditors for the financial year ended 28 February 2022).

5. Distributions to Holders of Redeemable Participating Shares

Distributing Share Classes

The letter in parentheses at the end of the name of each Distributing Share Class indicates a particular frequency of dividend declarations and dividend payments, as detailed in the following table.

0/ 11=1=1:---

Distributing Share Class Designation	Frequency of Dividend Declarations	Frequency of Dividend Payments
(D)	Daily	Monthly
(M)	Monthly	Monthly
(Q)	Quarterly	Quarterly (March, June, September, December)
(S)	Semi-Annually	Semi-Annually (March, September)
(A)	Annually	Annually (March)

For each Distributing Share Class of each Fixed Income Fund (Fixed Income Fund as defined on page 15), at the time of each dividend declaration: (1) all, or some portion of, net investment income, if any, will be declared as a dividend; and (2) all, or some portion, of realised and unrealised capital gains net of realised and unrealised capital losses may be, but is not required to be, declared as a dividend.

For each Distributing Share Class of each Equity Fund (Equity Fund as defined on page 15), at the time of each dividend declaration: all, or some portion of, net investment income, if any, will be declared as a dividend. For each Shareholder of each Distributing Share Class, distributions will be made in the currency in which the Shareholder subscribed for shares, unless the Shareholder requests otherwise.

For each Distributing Share Class of each Multi-Asset Fund (Multi-Asset Fund as defined on page 15), at the time of each dividend declaration, all, or some portion of, net investment income, if any, will be declared as a dividend. For each Shareholder of each Distributing Share Class, distributions will be made in the currency in which the Shareholder subscribed for shares, unless the Shareholder requests otherwise.

The Distributing Plus Share Classes may declare and pay distributions out of capital. Investors in these share classes should be aware that payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or of capital gains attributable to that original investment, and such distributions will result in a corresponding immediate decrease in the net asset value per share of the share class. The payment of distributions out of capital will accordingly lead to capital erosion and may be achieved by forgoing the potential for future capital growth.

During the financial year, the following Funds have paid distributions out of capital on Distributing Plus Share Classes:

	Distributions out of capital for the year ended 28 February 2023 (000's)	Distributions out of capital for the year ended 28 February 2022 (000's)

The Distributing Plus (e) and Distributing Plus (u) Share Classes offered by certain of the Funds may charge certain fees and expenses to capital rather than income. Charging all or part of the fees and expenses to capital will result in income being increased for distribution; however, the capital that these Distributing Plus (e) and Distributing Plus (u) Share Classes have available for investment in the future, and capital growth, may be reduced. Shareholders should note that there is an increased risk that on the redemption of shares of Distributing Plus (e) and Distributing Plus (e) Share Classes, this may result in the erosion of investors' capital investment notwithstanding the performance of the relevant Fund, or capital gains attributable to that original investment, which will likely diminish the value of future returns. The increased dividend payout as a result of charging fees and expenses to capital effectively amounts to a return or withdrawal of an investor's original capital investment or of capital gains attributable to that original investment. The higher level of dividend payout under this charging mechanism will result in a corresponding immediate decrease in the net asset value of the share classes on the ex-dividend date. Shareholders should note that to the extent expenses are charged to capital, some or all of the distributions made by the Distributing Plus (e) and Distributing Plus (u) Share Classes should be considered to be a form of capital reimbursement. All expenses of the Distributing Plus (e) Share Classes have been charged to capital.

During the financial year, the following Funds have charged fees and expenses to capital on Distributing Plus (e) Share Classes:

	Fees and expenses charged to capital for the year ended 28 February 2023 (000's)	Fees and expenses charged to capital for the year ended 28 February 2022 (000's)

Accumulating Share Classes

With respect to Accumulating Share Classes, it is intended that, in the normal course of business, distributions will not be declared and that any net investment income attributable to each Accumulating Share Class will be accumulated daily in the respective net asset value per share of each respective share class.

6. Share Capital and Redeemable Participating Shares

Share Capital

The Company was incorporated with an initial share capital of Euro 39,000 represented by 39,000 subscriber shares of no par value. All but three of the subscriber shares have been repurchased by the Company. Shareholders of these three subscriber shares are entitled to attend and vote at all of the meetings of the Company, but are not entitled to participate in the dividends or net assets of any Fund or of the Company.

Redeemable Participating Shares

The share capital of the Company shall at all times equal the net asset value. The Directors are empowered to issue up to five hundred billion shares of no par value in the Company at the net asset value per share on such terms as they may see fit. There are no rights of pre-emption upon the issue of shares in the Company.

Each of the shares entitles the Shareholder to participate equally on a pro rata basis in the dividends, where applicable, and net assets of the Fund in respect of which they are issued, save in the case of dividends declared prior to becoming a shareholder.

The proceeds from the issue of shares shall be applied in the books of the Company to the relevant Fund and shall be used in the acquisition on behalf of the relevant Fund of assets in which the Fund may invest. The records and accounts of each Fund shall be maintained separately.

Each Fund has different share classes offered as indicated in the Company's Prospectus. These different classes of shares differ principally in terms of their sales charges, fees, rates of expenses, distribution policy, and currency denomination. Investors are thus able to choose a share class that best suits their investment needs, considering the amount of investment and anticipated holding period.

Each share class is designated as a Distributing Share Class or an Accumulating Share Class. Accumulating Share Classes do not distribute net income, net realised or net unrealised capital gains whereas Distributing Share Classes will distribute at certain intervals, which will vary depending on the letter in parentheses at the end of the name of the Distributing Share Class, as explained under Note 5 - Distributions to Holders of Redeemable Participating Shares. In addition, the Company has subscriber shares outstanding. The subscriber shares do not entitle the holders to participate in the assets of any Fund.

Each Fund may offer share classes designated in currencies other than the base currency of the Fund. For each such share class, unless indicated by "(Hedged)" in the name of the share class, the relevant Investment Manager and Sub-Investment Manager will not employ any techniques to hedge the share class's exposure to changes in exchange rates between the base currency of the Fund and the currency of the share class.

Class A Shares are available to all investors. Commission/rebate payments may be made by distributors to dealers or other investors who have an agreement with a distributor with respect to such shares. Class B, C, D, E and K Shares are available to all investors who are clients of dealers appointed by a distributor with respect to such shares. Commission payments may be made by distributors to dealers or other investors who have an agreement with a distributor with respect to such shares. Class F Shares are available to professional investors and investors with a discretionary investment agreement with a dealer appointed by the distributor with respect to such shares. Commission/rebate payments may be made by distributors to dealers or other investors who have an agreement with the distributor with respect to such shares. Class J Shares are for Japanese distribution, at the discretion of the Directors or distributors. Class M Shares are available to professional investors and investors with a discretionary investment agreement with a dealer or other entity appointed by a distributor with respect to such shares. Class R Shares are available to all investors who have a fee-based arrangement with an intermediary from whom they have received a personal recommendation in relation to their investment in the Funds. Class T Shares are for Taiwanese distribution, at the discretion of the Directors or Distributors. Class X Shares are available to dealers, portfolio managers or platforms which, according to regulatory requirements or based on fee arrangements with their clients, are

[^] Not authorised for sale to the public in Hong Kong.

6. Share Capital and Redeemable Participating Shares – (continued)

not allowed to accept and retain trail commissions; and institutional investors (for investors in the European Union, this means "Eligible Counterparties" as defined under MIFID II) investing for their own account. Class U, Y and S Shares are available to institutional investors at the discretion of the Directors or distributors. BW LM Share Classes are available at the discretion of the Directors or distributors to qualifying investors who are members of the Franklin Templeton group, retirement schemes and schemes of similar nature sponsored by members of the Franklin Templeton group, retirement schemes and schemes of similar nature sponsored by members of the Franklin Templeton group, or clients of such members. For investors based in the European Union, BW Premier Share Classes are available at the discretion of the Directors or distributors to "Eligible Counterparties" as defined under MIFID II; for investors based outside the European Union, BW Premier Share Classes are available to institutional investors at the discretion of the Directors or distributors or to qualifying investors who are members of the Franklin Templeton group or clients of such members. For investors based in the European Union, Premier Share Classes are available to institutional investors.

For share classes that include "(Hedged)" in their name after the currency denomination, it is intended that such share classes will be hedged against movements in exchange rates between the currency of the share class and the base currency of the relevant Fund. Certain share classes in Funds managed by Brandywine Global Investment Management, LLC are hedged relative to an index, as indicated by the inclusion of an "(IH)" in the Share Class name. The Funds managed by Brandywine Global Investment Management, LLC and the Legg Mason ClearBridge Infrastructure Value Fund managed by ClearBridge Investments (North America) Pty Limited (formerly ClearBridge RARE Infrastructure International Pty Limited) offers portfolio hedged share classes, as indicated by the inclusion of a "(PH)" in the share class name. Legg Mason Martin Currie European Absolute Alpha Fund^ (ceased trading on 1 June 2021) offered share classes that may have paid a performance fee, as was indicated by "(PF)" in the name of the share class.

Certain Funds also have issued shares of Grandfathered Share Classes, as indicated by the inclusion of "GA", "GE", "GP" or "(G)" in the name of the share class. The Grandfathered Share Classes are available only to unitholders of the affiliated funds. The Grandfathered Class Shares are closed to any subsequent subscriptions, both by existing shareholders in the share class and by new investors, except that shares may continue to be acquired through (1) dividend reinvestment; (2) automatic conversions from a Class B (G) Share Class of the Fund to a Class A (G) Share Class of the same Fund; and (3) exchanges of shares of a Grandfathered Share Class with the same letter designation. Notwithstanding the foregoing, as indicated in the Fund Supplements, certain Grandfathered Share Classes for certain Funds may be made available for subsequent subscriptions by existing shareholders in the share class in the sole discretion of the Directors.

7 Taxation

Under current Irish law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997 (as amended). On that basis, the Company will not generally be liable to Irish tax in respect of its income and gains, other than on the occurrence of a chargeable event. Generally a chargeable event arises on any distribution, redemption, repurchase, cancellation, transfer of shares or on the ending of a 'Relevant Period', a 'Relevant Period' being an eight year period beginning with the acquisition of the shares by the Shareholders and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

No Irish tax will arise on the Company in respect of chargeable events in respect of

- (i) a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided an appropriate valid declaration is in place, or the Company has been authorised by Irish Revenue to make gross payments in the absence of appropriate declarations; and
- (ii) certain exempted Irish tax resident shareholders who have provided the Company with the necessary signed statutory declarations.

In addition, any transaction (which might otherwise be a chargeable event) in relation to shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners will not constitute a chargeable event.

In the absence of an appropriate declaration, the Company will be liable to Irish tax on the occurrence of a chargeable event.

Capital gains, dividends and interest received may be subject to taxes, including withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Fund or its shareholders.

8. Cash and Cash Equivalents and Margin Accounts

Cash and cash equivalents are valued at their face value with interest accrued, where applicable. The cash and cash equivalents and cash overdraft balances of any Fund are held with the Depositary. "Margin accounts and restricted cash" in the Statement of Financial Position represent margin deposits, cash collateral and realised gains and losses on futures contracts not yet delivered. Margin deposits and cash collateral, held in relation to OTCs and exchange traded derivatives trading as at 28 February 2023, are held with the following brokers: Bank of America Merrill Lynch, BNP Paribas, BNY Mellon, Citi, Goldman Sachs, HSBC, JP Morgan, Morgan Stanley and UBS (28 February 2022: Bank of America Merrill Lynch, Barclays, BNY Mellon, Citi, Goldman Sachs, HSBC, JP Morgan, Morgan Stanley and UBS).

9. Commitments and Contingent Liabilities

There were no significant commitments or contingent liabilities as at 28 February 2023 and 28 February 2022.

10. Soft Commission Arrangements

The Company has policies designed to ensure that its service providers act in the Funds' best interests when executing decisions to deal on behalf of those Funds in the context of managing the Funds' portfolios. For these purposes, all reasonable steps must be taken to obtain the best possible result for the Funds, taking into account price, costs, speed, likelihood of execution and settlement, order size and nature, or any other consideration relevant to the execution of the order. Any cash rebates received from a broker or dealer in consideration of Fund brokerage transactions directed to that broker or dealer will not be retained by the Investment Manager, the Sub-Investment Manager or any of their connected persons. The Company will not bear the costs of external research obtained by the Investment Managers and the Sub-Investment Managers. Such costs will be borne by the relevant Investment Manager or Sub-Investment Manager. Information about the Funds' execution policies is available to Shareholders at no charge upon request.

During the financial years ended 28 February 2023 and 28 February 2022, Royce & Associates, LP ("Royce") entered into soft commission arrangements with brokers, but reimbursed the relevant Funds for any research costs incurred as part of such arrangements.

11. Exchange Rates

The following exchange rates were used in these financial statements to obtain the equivalent US Dollar, Euro and British Pound amounts for the respective Funds with US Dollar, Euro and British Pound based currencies, respectively:

		Exchange rates as at	Exchange rates as at

12. Risk Exposure and Risk Management

Following its appointment as the UCITS management company of the Company, with responsibility for managing the Company and for certain investment management, administration and distribution functions in respect of the Company as set out in the UCITS Regulations, FTIS (the "Manager") has made the decision to delegate some, but not all investment management activities to relevant Investment Managers and/or Sub-Investment Managers, provided that the Manager remains responsible to the Funds for the performance of their agreed upon obligations (please refer to the General Information pages for the line-up of Investment Managers and Sub-Investment Managers for each Fund, as applicable, as per the Prospectus).

The Company, in conjunction with the Manager and the Investment Managers, has determined that certain of its material risks are market risk, credit risk and liquidity risk. In respect of the use of financial derivative instruments, the risks are counterparty risk, credit risk, increased margin calls and unlimited risk of loss. Further details of these and other risks are set out below and in the Prospectus under "Risk Factors"

Market risk includes market price risk, foreign currency risk, interest rate risk and other price risk.

Market price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The maximum price risk resulting from the ownership of financial instruments is determined by the fair value of financial instruments. The Investment Managers or Sub-Investment Managers may consider the asset allocation of the portfolios in order to minimise the risk associated with particular countries, industry sectors or sectors or sentinuing to follow each Fund's investment objective as outlined in the Revised Directors' Report. Risk is managed by each Investment Manager or Sub-Investment Manager, as applicable, through careful selection of securities and other financial instruments within specified limits and investment mandates. Details of each Fund's investment policies are outlined in the Revised Directors' Report. Details of each Fund's financial liabilities are presented on the Statement of Financial Position.

Foreign currency risk is the risk that the value of a financial instrument will fluctuate because of changes in the rate of exchange between the currency in which the financial asset or financial liability is denominated and the functional currency of the Funds. The value of the investments of a Fund denominated in a currency other than the functional currency may rise and fall due to exchange rate fluctuations by the relevant currencies. There is a risk that large exchange rate fluctuations may have a significant impact on the performance of the Funds.

Where a Fund holds investments in a currency other than that Fund's functional currency, the relevant Investment Manager or Sub-Investment Manager may manage foreign currency risk by either hedging foreign currency into the functional currency of the Fund or alternatively by diversifying investments across multiple currencies using a multi-bank foreign exchange trading network.

Interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rate. The Funds which hold fixed interest rate debt securities and overdraft positions are exposed to interest rate risk where the value of these securities or loans may fluctuate as a result of a change in interest rates. Holdings in floating and variable rate securities may also be subject to interest rate risk although to a lesser degree. Cash assets held via the Depositary have the potential to yield interest income, the level of which will fluctuate according to the prevailing level of market interest rates.

12. Risk Exposure and Risk Management – (continued)

The Equity Funds generally do not invest in any interest bearing securities other than cash balances held with the Depositary. Cash assets yield interest income, the level of which will fluctuate according to the prevailing level of market interest rates. As a result, the Equity Funds are not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates on its financial assets and financial liabilities.

The Fixed Income Funds and the Multi-Asset Funds invest in interest bearing financial assets and financial liabilities which expose them to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on their financial positions and cash flows. The value of investments in fixed rate interest bearing securities may be subject to price volatility due to changes in interest rates. Fluctuations in market interest rates will impact upon the level of interest received by a Fund.

An increase in interest rates will generally reduce the value of debt securities that are issued and outstanding, while a decline in interest rates will generally increase the value of debt securities that are issued and outstanding. The magnitude of these price fluctuations will be greater when the maturity of the outstanding securities is longer. Changes in the value of securities held by a Fund when interest rates change mean that a Fund's net asset value per share can go up or down because of the effect on the value of the Fund's portfolio of debt securities.

The Manager to each Fixed Income Fund monitors the interest-rate environment and evaluates risks on major strategies. Interest rate risk is controlled by monitoring maturities and duration relative to the Funds' benchmarks. Techniques such as key rate duration measurement are used to evaluate portfolio curve exposures.

Details of each Fixed Income Fund's weighted average yield, weighted average years to maturity and an analysis of fixed and non-interest bearing securities are set out in Notes 12.1(b) and 12.1(c) below.

The risks involved with investing in Equity Funds include changing economic conditions, industry and company conditions and security selection. Fixed Income Funds and Multi-Asset Funds are also subject to interest rate risk, credit risk, maturity risk and market risk. International securities are subject to changing exchange rates, less liquid markets and political and economic instability depending on the country. Developing markets are subject to these same risks however it may be to a greater degree. For the purpose of efficient portfolio management, the Funds may enter into exchange traded or over-the-counter ("OTC") derivatives, including but not limited to, futures, swaps, forwards, options and warrants and may enter into stock lending agreements.

The Investment Management and Portfolio Oversight Committee ("IMPOC" or the "Committee") has been established within Franklin Templeton to oversee the delegation of investment management responsibilities for all Funds. The Committee is comprised of members who, as a group, have experience and specialised knowledge in such areas as investment management including equity, fixed income and derivatives; investment analysis and reporting; risk management; and compliance. The Committee, on behalf of the Manager, has been responsible for overseeing that the Funds are managed within the terms of the Funds' investment guidelines and limits set out in the Prospectus and the UCITS Regulations as well as the relevant investment Manager's or Sub-Investment Manager's own internal investment guidelines and limits. The Committee generally meets once a month to oversee that the Funds are being managed in accordance with these limits and regulatory requirements. The respective Investment Managers and/or Sub-Investment Managers, as applicable, report to the Committee matters arising in relation to the monitoring of certain material risks arising from a Fund's investments in financial instruments.

12.1 Market Risk

Each Fund using financial derivative instruments ("FDI"s) seeks to limit the market risk and leverage created through the use of derivatives by using either the commitment approach or by using a sophisticated risk measurement technique known as "value-at-risk" (the "VaR approach"). Each Fund using FDI (other than FTGF Western Asset Macro Opportunities Bond Fund^, FTGF Western Asset Multi-Asset Credit Fund^, FTGF Brandywine Global Fundd^, Western Asset UCITS SMASh Series Core Plus Completion Fund^, FTGF Brandywine Global Fixed Income Absolute Return Fund^ and FTGF Brandywine Global Multi-Sector Impact Fund^), Income Absolute Return Fund^ and FTGF Brandywine Global Multi-Sector Impact Fund^) use the commitment approach. FTGF Western Asset Macro Opportunities Bond Fund^, FTGF Western Asset Multi-Asset Credit Fund^, FTGF Western Asset Structured Opportunities Fund^, Western Asset UCITS SMASh Series Core Plus Completion Fund^, FTGF Brandywine Global Fixed Income Absolute Return Fund^, FTGF Brandywine Global Fixed Income Absolute Return Fund^, FTGF Brandywine Global Fixed Income Absolute Return Fund^, Brandywine Global Fixed Income Absolute Alpha Fund^, Brandywine Global Fixed Income Absolute Alpha Fund^, Brandywine Global

The Manager employs a risk management process to enable it to accurately measure, monitor and manage the risks attached to FDI positions.

The commitment approach calculates leverage by measuring the market value of the underlying exposures of derivatives relative to the relevant Fund's Net Asset Value. VaR is a statistical methodology that seeks to predict, using historical data, the likely maximum loss that a Fund could suffer, calculated to a specific (e.g., "one tailed" 99 per cent) confidence level. FTGF Western Asset Macro Opportunities Bond Fund^, FTGF Western Asset Credit Fund^, FTGF Brandywine Global Fund Pund^, Brandywine Global Fund Pund, FTGF Brandywine Global Fund Fund, Brandywine Global Fund Fund, FTGF Brandywine Global Fund Fund, FTGF Brandywine Global Fund, FTGF Brandywine Global Fund Fund, FTGF Brandywine Global Fund, FTGF Brandywine Global Fund Fund, FTGF Brandywine Global Fund, FTGF Brandywine Global Fund Fund, FTGF Brandywine Global Fund, FTGF Brandywine Global

The effectiveness of the VaR model could be impaired in a similar fashion if other assumptions or components comprised in the VaR model prove to be inadequate or incorrect.

Western Asset Management Company Limited and Western Asset Management Company, LLC ("Western Asset") calculate VaR at a 99% confidence level for a 1 day time horizon using an appropriate sample of historical data. The table below indicates the absolute VaR for the Funds:

Fund	As at 28 February 2023	As at 28 February 2022
FTGF Western Asset Macro Opportunities Bond Fund^	2.48%	2.66%
FTGF Western Asset Multi-Asset Credit Fund^	1.38%	1.02%
FTGF Western Asset Structured Opportunities Fund^	0.62%	0.51%
Western Asset SMASh Series Core Plus Completion Fund^	1.64%	1.65%

Brandywine Global Investment Management, LLC ("Brandywine") calculates VaR at a 95% confidence level for a 1 day time horizon using 2 years of historical data. The table below indicates the absolute VaR for the Funds:

Fund	As at 28 February 2023	As at 28 February 2022
FTGF Brandywine Global Fixed Income Absolute Return Fund^	1.06%	0.50%
FTGF Brandywine Global Income Optimiser Fund	1.11%	0.52%
FTGF Brandywine Global Credit Opportunities Fund^	0.47%	0.53%
FTGF Brandywine Global Enhanced Absolute Return Fund^	1.68%	1.22%
FTGF Global Multi-Sector Impact Fund^	1.11%	n/a

Where FTGF Western Asset Macro Opportunities Bond Fund^, FTGF Western Asset Multi-Asset Credit Fund^, FTGF Western Asset Structured Opportunities Fund^, Western Asset UCITS SMASh Series Core Plus Completion Fund^, FTGF Brandywine Global Fixed Income Absolute Return Fund^, FTGF Brandywine Global Income Optimiser Fund, FTGF Brandywine Global Credit Opportunities Fund^, FTGF Brandywine Global Enhanced Absolute Return Fund^ and FTGF Brandywine Global Multi-Sector Impact Fund^ use an absolute VaR model, in accordance with the requirements of the Central Bank, each of these Funds is subject to an absolute VaR limit of 20% of the Fund's Net Asset Value. However, each of these Funds may from time to time experience a change in Net Asset Value over a 20 day holding period greater than 20% of Net Asset Value.

12. Risk Exposure and Risk Management – (continued)

12.1 Market Risk – (continued)

In addition to using the VaR approach, the Manager of FTGF Western Asset Macro Opportunities Bond Fund^, FTGF Western Asset Multi-Asset Credit Fund^, FTGF Western Asset Structured Opportunities Fund^, Western Asset UCITS SMASh Series Core Plus Completion Fund^, FTGF Brandywine Global Fixed Income Absolute Return Fund^, FTGF Brandywine Global Income Optimiser Fund, FTGF Brandywine Global Fixed Income Absolute Return Fund^, FTGF Brandywine Global Multi-Sector Impact Fund^ monitor the leverage levels on a daily basis to monitor changes due to market movements. In addition, the respective Investment Managers and/or Sub-Investment Managers of each of these Funds shall carry out pre-trade testing to consider the impact that the trade would have on the relevant Fund's overall leverage and to consider the risk/reward levels of the trade.

The lowest, average and highest VaR levels, at a 99% confidence level for a 20 day time horizon, for relevant Western Asset and Brandywine Funds, were as follows:

For the year ended 28 February 2023

Fund	Minimum	Average	Maximum
FTGF Western Asset Macro Opportunities Bond Fund^	5.88%	9.42%	13.64%
FTGF Western Asset Multi-Asset Credit Fund^	3.67%	5.96%	10.72%
FTGF Western Asset Structured Opportunities Fund^	2.19%	3.38%	4.80%
Western Asset SMASh Series Core Plus Completion Fund^	5.02%	8.46%	13.23%
FTGF Brandywine Global Fixed Income Absolute Return Fund^	1.70%	3.78%	6.70%
FTGF Brandywine Global Income Optimiser Fund	1.93%	4.17%	6.99%
FTGF Brandywine Global Credit Opportunities Fund^	1.77%	3.20%	5.69%
FTGF Brandywine Global Enhanced Absolute Return Fund^	6.67%	8.75%	10.62%
FTGF Global Multi-Sector Impact Fund^	1.59%	4.30%	5.04%

For the year ended 28 February 2022

Fund	Minimum	Average	Maximum
FTGF Western Asset Macro Opportunities Bond Fund^	4.70%	5.82%	11.90%
FTGF Western Asset Multi-Asset Credit Fund^	2.42%	2.86%	4.88%
FTGF Western Asset Structured Opportunities Fund^	2.26%	2.47%	2.59%
Western Asset SMASh Series Core Plus Completion Fund^	3.12%	5.10%	10.04%
FTGF Brandywine Global Fixed Income Absolute Return Fund^	1.92%	2.61%	3.61%
FTGF Brandywine Global Income Optimiser Fund^	2.76%	3.31%	4.51%
FTGF Brandywine Global Credit Opportunities Fund^	2.43%	3.81%	4.75%
FTGF Brandywine Global Enhanced Absolute Return Fund^	6.27%	7.40%	8.70%

In accordance with the requirements of the Central Bank, Martin Currie Investment Management Limited calculated VaR based on a 10 business day holding period and a "one-tailed" 95% confidence interval. Legg Mason Martin Currie European Absolute Alpha Fund^ (ceased trading on 1 June 2021) was subject to an absolute VaR limit of 8.5% of the Fund's Net Asset Value. The lowest, average and highest VaR levels were as follows:

For the year ended 28 February 2022

Fund	Minimum	Average	Maximum
Legg Mason Martin Currie European Absolute Alpha Fund^B	0.00%	4.14%	6.16%

 β up to the date when it ceased trading on 1 June 2021.

For Funds using VaR, leverage is calculated as the sum of the notionals of the derivatives used.

Average levels of leverage employed were as follows:

Fund	For the year ended 28 February 2023	For the year ended 28 February 2022
FTGF Western Asset Macro Opportunities Bond Fund^	1,555.99%	1,175.10%
FTGF Western Asset Multi-Asset Credit Fund^	132.04%	113.25%
FTGF Western Asset Structured Opportunities Fund^	34.70%	31.96%
Western Asset SMASh Series Core Plus Completion Fund^	415.50%	389.53%
FTGF Brandywine Global Fixed Income Absolute Return Fund^	216.30%	277.27%
FTGF Brandywine Global Income Optimiser Fund	107.40%	98.08%
FTGF Brandywine Global Credit Opportunities Fund^	98.80%	67.54%
FTGF Brandywine Global Enhanced Absolute Return Fund^	222.50%	267.56%
FTGF Global Multi-Sector Impact Fund^	87.00%*	n/a
Legg Mason Martin Currie European Absolute Alpha Fund^	n/a	88.25%**

- Since 1 December 2022, the date of inception of FTGF Global Multi-Sector Impact Fund^, to the financial year ended 28 February 2023.
- ** The figure for Legg Mason Martin Currie European Absolute Alpha Fund^ is for the period 1 March 2021 up to the date when it ceased trading on 1 June 2021.

Stress testing is the examination of the potential effects on a Fund's financial condition of a set of specific changes in risk factors, relating to exceptional but possible events. Western Asset take a conservative approach by applying stress tests that are beyond the range of reasonably likely occurrences. Western Asset expect (although there is no assurance) that if FTGF Western Asset US Government Liquidity Fund is able to withstand stress tests that are beyond the range of reasonably likely occurrences, that the Net Asset Value per share (or any particular class of share) of this Fund, would remain stable in the event of reasonable negative market events.

A scenario based stress test can be used to meet the sensitivity analysis requirement of FRS 102. FRS 102 does not prescribe a specific basis point movement or percentage movement for sensitivity analyses. Accordingly for the purposes of this annual report, the currency impact on FTGF Western Asset US Government Liquidity Fund of an instantaneous 25 basis points increase in short-term interest rates is shown:

	FTGF Western Asset US Government Liquidity Fund
As at 28 February 2023	(\$62,727)
As at 28 February 2022	(\$206,914)

(a) Market Price Risk

Each Fund's market price risk is monitored, but not managed, relative to an index. The indices as at 28 February 2023 and 28 February 2022 are outlined below.

The following tables set out the index for each Fund, except for FTGF Western Asset Macro Opportunities Bond Fund^, FTGF Western Asset Multi-Asset Credit Fund^, FTGF Western Asset Structured Opportunities Fund^, Western Asset UCITS SMASh Series Core Plus Completion Fund^, FTGF Brandywine Global Fixed Income Absolute Return Fund^, FTGF Brandywine Global Income Optimiser Fund, FTGF Brandywine Global Credit Opportunities Fund^, FTGF Brandywine Global Income Absolute Return Fund^ and FTGF Brandywine Global Multi-Sector Impact Fund^, and personal formation of the net asset value for each Fund based on positive and negative movement in the index, including one year beta for each Fund. Beta is a measure of a Fund's holdings' volatility in relation to the market or index. While beta offers a clear, quantifiable measure, it does not incorporate new information, and past price movements are not accurate predictors of the future.

12. Risk Exposure and Risk Management – (continued)

12.1 Market Risk – (continued)

(b) Foreign Currency Risk

A portion of the financial assets of the Funds are denominated in currencies other than the US Dollar, Euro and British Pound (the functional currencies of the Funds) with the effect that the Statement of Financial Position and total return can be significantly affected by currency movements.

Western Asset have a strong bias to hedge all foreign currencies into the functional currency of the Fund's portfolio. Western Asset will typically leave only a small portion of the portfolio unhedged, and then only if the outlook strongly suggests that currency risk is attractive. In other portfolios, hedges are implemented whenever a currency is seen to be at risk of depreciating by more than the cost of the hedge transaction. Western Asset may cross-hedge into non-functional currencies – when permitted by guidelines, under severe limits (typically less than 5% of the portfolio), and seeking to reflect an exposure relative to the benchmark.

The following tables set out the Funds' net exposure to foreign currency as at 28 February 2023 and 28 February 2022.

Investments in

Investments in

Amounts represented below primarily are monetary assets and monetary liabilities except for investments in non-interest bearing securities, which include equities, which are non-monetary assets. Amounts noted below for forward foreign currency contracts represent the values to be received under the currency contracts and include foreign exchange hedging transactions. Whilst amounts noted for other derivatives represent the unrealised appreciation/(depreciation) at year end.

Certain Funds also have share classes issued in foreign currencies. Certain Funds (as indicated in the relevant Supplement to the Prospectus) may enter into forward foreign currency contracts, both deliverable and non-deliverable, to hedge against exchange risk, to increase exposure to a currency, to shift exposure to currency fluctuations from one currency to another, or to enhance return. Each Fixed Income Fund may also enter into options on forward foreign currency contracts, both deliverable and non-deliverable, which in exchange for a premium gives the Fund the option, but not the obligation, to enter into such a contract at some time before a specified date.

The following table sets out a sensitivity analysis in relation to foreign currency risk and its effect on the net asset value of the Funds where foreign currency risk is deemed significant. A snapshot of the underlying positions for all Funds was taken as at 28 February 2023 and 28 February 2022. Exchange rates were appreciated/depreciated by +/- 5% (given the nature of the markets that the Funds are invested in a 5% increase/decrease has been applied); the corresponding impact was estimated for the total net asset value. All other market parameters are also assumed unchanged.

Impact on net asset value due to movement in foreign exchange rates*

Analysis is shown where significant foreign currency exposure is held on the Fund. Significant exposure is deemed to be in excess of 10% of net assets. Movements in all foreign currency exchange rates will have a direct impact on the net asset value. The foreign currency exchange rates as at 28 February 2023 and 28 February 2022 are listed in Note 11. This sensitivity analysis should not be used as a prediction of future performance.

The foreign currency risk sensitivity analysis for FTGF Western Asset Macro Opportunities Bond Fund^, FTGF Western Asset Multi-Asset Credit Fund^, FTGF Western Asset Structured Opportunities Fund^, Western Asset UCITS SMASh Series Core Plus Completion Fund^, FTGF Brandywine Global Fixed Income Absolute Return Fund^, FTGF Brandywine Global Income Optimiser Fund, FTGF Brandywine Global Credit Opportunities Fund^, FTGF Brandywine Global Enhanced Absolute Return Fund^ and FTGF Brandywine Global Multi-Sector Impact Fund^ has been incorporated into the calculation of the market risk using the VaR approach (Note 12.1 above).

(c) Interest Rate Risk

A sensitivity analysis for the Equity Funds has not been prepared as the majority of the Equity Funds' assets are non-interest bearing assets and therefore the risk is not sufficiently material.

As at 28 February 2023 and 28 February 2022, all of the cash held by the Funds is held with the Depositary or other brokers and have the potential to yield interest income, the level of which will fluctuate according to the prevailing level of market interest rates.

The analysis of fixed, variable and non-interest bearing securities is disclosed in Note 12.1(b) above.

The weighted average yield and weighted average years to maturity of each Fund on its fixed rate instruments per currency as at 28 February 2023 and 28 February 2022 are as follows:

Interest Rate Benchmark Reform

A fundamental reform of major interest rate benchmarks is being undertaken globally, including the replacement of some interbank offered rates (IBORs) with alternative nearly risk-free rates (referred to as 'IBOR reform'). The Funds have exposures to IBORs on its financial instruments that will be replaced or reformed as part of these market-wide initiatives. Certain jurisdictions are currently reforming or phasing out their benchmark interest rates, most notably the London Interbank Offered Rates ("LIBOR") across multiple currencies. Many such reforms and phase outs became effective at the end of calendar year 2021 with select U.S. dollar LIBOR tenors persisting through June 2023. These rate changes may have an impact on existing transactions and contractual arrangements. Management has taken steps to prepare for and mitigate the impact of changing base rates and continues to manage transition efforts and evaluate the impact of prospective changes on existing transactions and contractual arrangements.

(d) Other Price Risk – Fair Value of Financial Assets and Financial Liabilities

In addition to the Committee, Franklin Templeton has established the Valuation Committee to oversee the implementation of the valuation policies and procedures adopted by the Board of Directors (the "Board"). The Valuation Committee, including the Chairperson, is comprised of no fewer than four members and no more than ten members. Representatives of Franklin Templeton Legal and Compliance will serve the Valuation Committee in an advisory capacity. The Valuation Committee meets on a monthly basis to review all securities which are manually priced, broker priced, matrix priced, fair valued, illiquid or stale. A Valuation Committee meeting, however, may be called at any time to consider any question or issue that falls under their procedures. Valuation Committee meetings can be in person, or via email or other writing.

Some Funds entered into derivative contracts during the year. The value of derivatives is based on certain underlying stocks or bonds, interest rates, currencies or indices and includes futures, options, options on futures, contracts for difference and swap agreements. Derivatives may be hard to sell at an advantageous price or time and are sensitive to changes in the underlying security, interest rate, currency or index. Therefore, derivatives can be highly volatile and could result in a loss to the Fund. Refer to the respective Funds' Portfolio of Investments for details of open derivative positions as at the financial year end.

Fair Value Estimation

In accordance with FRS 102, the Company has elected to apply the recognition and measurement provisions of International Accounting Standards ("IAS") 39 "Financial Instruments: Recognition and Measurement" ("IAS 39") as adopted for use in the European Union and the disclosure requirements of Sections 11 and 12 of FRS 102.

The fair value of financial instruments traded in active markets (such as publicly traded derivatives and trading securities) is based on quoted market prices at the Statement of Financial Position date. When a "readily available market quotation" for a security is not available, the Company employs "fair value" methodologies to price securities. As a general principle, fair value is the price that the Fund might reasonably expect to receive upon a current sale. The fair valuation process requires the Valuation Committee to make a determination in good faith as to the value of a particular security or group of securities depending on the particular facts and circumstances involved.

Circumstances in which a market quotation is not readily available may include, trading suspensions prior to the close of the relevant market; events that unexpectedly close entire markets such as natural disasters, power blackouts, or similar major events; market holidays; or volume of trading in a security.

When determining the fair value of a portfolio security, the Valuation Committee may consider all relevant methods, including but not limited to any one or all of the following pricing methods:

- (i) A multiple of earnings;
- (ii) A discount from market of a similar freely traded security;
- (iii) A discounted cash-flow analysis;
- (iv) The book value or a multiple thereof;
- (v) A risk premium/vield analysis:
- (vi) Yield to maturity; and/or
- (vii) Fundamental investment analysis.

The Valuation Committee reviews the appropriateness and accuracy of the methods used in fair valuing securities on a monthly basis including a comparison of fair values against the last market price and the next available market price, such as the next-day opening price.

The Company has classified fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 inputs are unadjusted quoted prices in an active market for identical assets or liabilities that the entity can access at the measurement date.

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs (i.e. for which market data is unavailable) for the asset or liability.

An investment is always categorised as level 1, 2 or 3 in its entirety. In certain cases, the fair value measurement for an investment may use a number of different inputs that fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement requires judgement and is specific to the investment.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in these securities.

The following table analyses under the fair value hierarchy the Funds' financial assets and financial liabilities measured at fair value as at 28 February 2023:

Securities which are fair valued by the Manager or the respective Investment Manager as at 28 February 2023 are noted on the Portfolio of Investments. In the event a price is not available from a Pricing Service, the Valuation Committee may obtain one or more indicative quotes from approved broker-dealers.

Matrix pricing is used for Funds when the Valuation Committee is unable to obtain one or more broker-dealer quotes for a security for which there is no price available from a pricing service. Matrix pricing estimates a US Dollar-denominated security's current market value by using the most recent quote received from a broker-dealer and adjusting the price by the change in the yield of the US treasury security most similar in duration to the security being valued.

The following tables set out the value of securities for each Fund which have been priced using single broker sources and fair valued by the Valuation Committee as at 28 February 2023 and 28 February 2022:

As at 28 February 2023	Single Broker Priced (in 000's)	Valuation Committee (in 000's)

12. Risk Exposure and Risk Management – (continued)

12.2 Credit Risk

Credit risk is the risk that a counterparty to or issuer of a financial instrument will fail to discharge an obligation or commitment that it has entered into with a Fund. The Company will be exposed to credit risk on parties with whom it trades and will also bear the risk of settlement default. The relevant Investment Manager and/or Sub-Investment Managers minimise concentrations of credit risk by undertaking transactions with a large number of brokers and counterparties on recognised and reputable exchanges. All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

Each Fund will be exposed to credit risk on the counterparties with whom it trades in relation to options, forward contracts and other derivative financial instruments that are not traded on a recognized exchange. Such instruments are not afforded the same protections as may apply to participants trading swaps, futures or options on organised exchanges, such as the performance guarantee of an exchange clearing house. The Funds will be subject to the possibility of the insolvency, bankruptcy or default of a counterparty with whom the Funds trade such instruments, which could result in substantial losses to the Funds.

The Company is exposed to credit risk on the OTC counterparties with whom it trades. All OTC counterparties must meet the following criteria as set out in the Regulations namely:

- (i) Be a credit institution in accordance with Regulation 7 of the Central Bank UCITS Regulations, or an investment firm authorised in accordance with the Markets in Financial Instruments Directive in an EEA Member State, or is an entity subject to regulation as a Consolidated Supervised Entity by the Securities and Exchange Commission, or
- (ii) Have a minimum credit rating of A2 or equivalent, or in the opinion of the relevant Investment Manager and/or Sub-Investment Managers, an implied credit minimum rating of A2 or equivalent.

Exposures to individual counterparties are normally limited to 10% of net asset value in the case of authorised credit institutions and 5% of net asset value in the case of other counterparties.

Transactions involving derivative financial instruments are usually with counterparties with whom the Company has signed master netting agreements. Master netting agreements provide for the net settlement of contracts for a particular Fund with the same counterparty in the event of default. The credit risk associated with derivative financial assets subject to a master netting arrangement is eliminated only to the extent that financial liabilities due to the same counterparty will be settled after the assets are realised.

Transactions resulting in large unrealised gains to a Fund may require a Fund to hold collateral received from a broker. In these instances, the credit risk to the Fund is reduced by the value of the collateral held. In the event a broker files for bankruptcy, in the U.S. (though regulations may vary by jurisdiction), collateral posted in connection with certain derivative financial instruments is exempt from the automatic stay implemented at the inception of a bankruptcy proceeding. This derivative financial instruments exemption would allow a Fund to immediately foreclose on collateral posted by the insolvent party in order to satisfy claims against such insolvent party.

The value of securities received as collateral in relation to derivatives trading held by the following Funds as at 28 February 2023 and 28 February 2022 was as follows:

Fund	Broker	As at 28 February 2023 Market Value of Collateral 000's	As at 28 February 2022 Market Value of Collateral 000's

FTGF Western Asset Structured Opportunities Fund^	BNP Paribas	\$-	\$692
FTGF Western Asset US Corporate Bond Fund^	Morgan Stanley	\$-	\$71

Amounts designated as "-" are either \$0 or less than \$1,000.

The Company monitors its risk by periodically considering the credit quality and financial positions of the counterparties which the Funds use. The Funds may only trade with approved counterparties. A list of approved counterparties is maintained and the Funds may only trade with these approved counterparties. Additions to this list are reviewed quarterly and a thorough re-evaluation of all counterparties is conducted annually. The review includes analysis of the counterparty's capital adequacy, profitability, liquidity and other factors as may be appropriate.

For efficient portfolio management purposes, each Fund may enter into repurchase agreements, reverse repurchase agreements and stock lending agreements subject to the conditions and limits set out in the Central Bank UCITS Regulations.

Until the expiry of the repurchase agreements, reverse repurchase agreements and the stock lending transactions, collateral obtained under such contracts or transactions:

- (i) must be marked to market daily;
- (ii) must equal or exceed, in value, at all times the value of the amount invested or securities loaned;
- (iii) must be transferred to the trustee, or its agent; and
- (iv) must be immediately available to the scheme, without recourse to the counterparty, in the event of a default by that entity.

Any non-cash collateral received by the Company cannot be sold or repledged; must be held at the credit risk of the counterparty; and must be issued by an entity independent of the counterparty. Credit risk is addressed through diversified use of counterparties and issuers, and through minimum security ratings and average portfolio ratings. The respective Investment Manager and/or Sub-Investment Managers may set portfolio limits and may invest based on internal parameters with mutually agreed limits set at a Fund's inception, including issue and issuer limitations, credit minimums, and an average credit quality, and the account is monitored on an ongoing basis to ensure it continues to meet these parameters. Rigorous independent analysis of all credit securities before purchase, including financial modeling, scenario analysis, and monitoring changes in risk profile may also be performed. Generally no more than 5% of the portfolio may be invested in any single corporate issuer at the time of purchase.

The Valuation Committee meets at least monthly and whenever the circumstances so require, to review and deliberate on valuation concerns including credit risk. The respective Investment Manager and/or Sub-Investment Managers provide risk analysis to the Board and the Committee on a semi-annual basis.

Substantially all of the cash and securities held by the Funds are held via the Depositary, who has a credit rating of AA- (28 February 2022: AA-). Bankruptcy or insolvency by the Depositary may cause the Funds' rights with respect to the cash held by the Depositary to be delayed or limited. The credit rating of the Depositary is highly rated by prominent rating agencies. If the credit quality or financial position of the Depositary deteriorates significantly, the respective Investment Manager and/or Sub-Investment Managers may move the cash holdings to another bank.

Any securities placed as collateral are disclosed on the Portfolio of Investments. Cash and cash equivalents held at the Depositary and margin accounts and restricted cash are disclosed in the Statement of Financial Position.

If a Fund has posted collateral to a counterparty, in a counterparty insolvency, that Fund may have the right under trading agreements with the counterparty to recall such posted collateral. In practice, however, the Fund may seek to reduce any amounts owed to the counterparty to settle any open transactions by setting off the amounts owed against the posted collateral. If the Fund was due back any collateral after setting off against the amounts owed (e.g., the Fund's position was over collateralised), it is likely the Fund would have an unsecured claim against the counterparty in the insolvency proceeding for the excess amount due to it.

12. Risk Exposure and Risk Management – (continued)

12.2 Credit Risk – (continued)

The following table represents the market value of the securities which have been placed as collateral with brokers as at 28 February 2023 and 28 February 2022 in relation to derivatives trading:

Fund	Broker	As at 28 February 2023 Market Value of Collateral 000's	As at 28 February 2022 Market Value of Collateral 000's
FTGF Western Asset US Core Plus Bond Fund	Citi	\$-	\$280
FTGF Western Asset Global Multi Strategy Fund	Morgan Stanley	\$-	\$89
FTGF Western Asset Global Core Plus Bond Fund^	Citi	\$152	\$-
FTGF Western Asset Global Core Plus Bond Fund^	JP Morgan	\$-	\$314
FTGF Western Asset Macro Opportunities Bond Fund^	Bank of America Merrill Lynch	\$1,590	\$-

Amounts designated as "-" are either \$0 or less than \$1,000.

To mitigate counterparty credit risk, certain over-the-counter derivatives are cleared through central clearing houses. Under this arrangement, trades entered with counterparties are given up to clearing houses, which after acceptance effectively replace the counterparty for the risk aspects of the trade.

The tables below set out a summary of the credit exposure based on credit ratings of the debt securities held in the Fixed Income Funds:

The portfolio is constructed on a bottom-up basis using Western Asset's fundamental value process. The investment team does not rely on rating agencies research; however, it evaluates their work and enhancement levels in securities. For securities that are not rated by a nationally recognized statistical rating organisation (NRSRO), the investment team assigns an internal credit rating based on the investment team's fundamental analysis.

12.3 Liquidity Risk

The Company's Prospectus provides for the daily creation and cancellation of shares and the Company is therefore exposed to the liquidity risk of meeting shareholder redemptions at any time.

The Administrator monitors subscription and redemption volumes on a daily basis and notifies the relevant Investment Manager or Sub-Investment Managers of significant movements and unusual trends as appropriate. If redemption requests on any dealing day (as defined in the Prospectus) exceed 10% of the shares in issue in respect of any Fund, the Company may elect to restrict the total number of shares redeemed on that dealing day to 10% of the outstanding shares of the Fund, in which case all the relevant redemption requests shall be scaled down pro rata. The Company shall defer the excess redemption requests, and shall treat the deferred requests as if they were received for each subsequent dealing day (in relation to which the Company has the same power of deferral at the then prevailing limit) until all the shares to which the original request relates have been redeemed. In such cases, the Company may reduce requests pro rata on the next and following dealing days so as to give effect to the above limitation.

The Company may temporarily suspend the determination of the net asset value and the sale or redemptions of shares in any Fund during any period:

- (i) when any market is closed which is the main market for a significant part of the Fund's investments, or when trading thereon is restricted or suspended;
- (ii) when any emergency exists as a result of which disposal by the Company of investments which constitute a substantial portion of the assets of the Fund is not practically feasible;
- (iii) when for any reason the prices of any investments of the Fund cannot be reasonably, promptly or accurately ascertained by the Fund;
- (iv) when remittance of monies which will, or may be, involved in the realisation of, or in the payment for, investments of the Fund cannot, in the opinion of the Directors, be carried out at normal rates of exchange; or
- (v) when proceeds of the sale or redemption of the shares cannot be transmitted to or from the Fund's accounts.

The Company has the ability to borrow in the short term to ensure settlement. In accordance with the UCITS Regulations a Fund may borrow money only as follows:

- (a) a Fund may acquire foreign currency by means of a ''back-to-back'' loan; and
- (b) a Fund may borrow:
 - (i) up to 10% of its net asset value provided that such borrowing is on a temporary basis; and
 - (ii) up to 10% of its net asset value provided that the borrowing is to make possible the acquisition of real property required for the purpose of its business;

provided that such borrowing referred to in subparagraph b (i) and b (ii) may not in total exceed 15% of the borrower's assets.

Global Credit Facility

Effective 5 February 2021, the Company together with other European and U.S. registered investment funds managed by Franklin Templeton Investments (individually, "Borrower", collectively, "Borrowers"), entered into a joint syndicated senior unsecured credit facility totalling US\$2,675 million (the "Global Credit Facility") to provide a source of funds to the Borrowers for temporary and emergency purposes, including the ability to meet future unanticipated or unusually large redemption requests.

[^] Not authorised for sale to the public in Hong Kong.

12. Risk Exposure and Risk Management – (continued)

12.3 Liquidity Risk – (continued)

Global Credit Facility – (continued)

Under the terms of the Global Credit Facility, the Company will, in addition to interest charged on any borrowings made by the Company and other costs incurred by the Company, pay its share of fees and expenses incurred in connected with the implementation and maintenance of the Global Credit Facility, based upon its relative share of the aggregate net assets of all of the Borrowers, including an annual commitment fee based upon the unused portion of the Global Credit Facility.

All of the Funds of the Company, with the exception of FTGF Western Asset US Government Liquidity Fund, are within the scope of the Global Credit Facility.

One of the responsibilities of the Valuation Committee is to review and deliberate on valuation concerns, including illiquid securities. The Company may from time to time invest in derivative contracts traded over-the-counter, which are not traded in an organised public market and may be illiquid. As a result, the Company may not be able to liquidate quickly its investments in these instruments at an amount close to their fair value in order to meet its liquidity requirements or to respond to specific events such as deterioration in the creditworthiness of any particular issuer.

The tables below have been prepared based on the undiscounted gross cash outflows relating to respective financial liabilities. The forward foreign currency contracts included in the tables below settle on a gross basis. Please refer to the relevant Portfolio of Investment for details of gross settlement amounts on these contracts.

Details of residual contractual maturities of financial liabilities for each Fund are outlined below:

13. Disclosure for Cross Investments by Funds within the Company

Certain Funds invest in other Funds of the Company. These cross investments have been eliminated in the financial statements of the Company, as follows:

- the market values of the underlying collective investment schemes have been eliminated in the total Company amounts in the Statement of Financial Position;
- the realised gains and losses, including movements in unrealised gains and losses, and the relevant dividend income and distributions on the cross investments have been eliminated in the total Company amounts disclosed in the Statement of Comprehensive Income; and
- the monetary amounts of purchases and sales of units in such collective investment schemes have been eliminated from the net proceeds from sales of shares and cost of shares reacquired, respectively, in the total Company amounts disclosed in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares.

14. Significant Events

Effective 27 April 2022, Franklin MV Global Equity Growth and Income Fund^ ceased trading.

Effective 21 June 2022, Legg Mason Western Asset Emerging Markets Corporate Bond Fund^ and Legg Mason Western Asset Euro High Yield Fund^ ceased trading.

Effective 11 July 2022, Franklin MV European Equity Growth and Income Fund^ ceased trading.

On 17 June 2022, a Supplemental Prospectus and a Specialist Prospectus were issued by the Company and noted by the Central Bank. The significant amendments included:

- Addition of a new Fund: Western Asset China Bond Fund; and
- Addition of further distribution frequencies for certain distribution share classes for the following Funds: FTGF Brandywine Global Income Optimiser Fund, FTGF ClearBridge Infrastructure Value Fund^, FTGF ClearBridge Global Infrastructure Income Fund and FTGF Martin Currie European Unconstrained Fund^.

Effective 1 July 2022, Franklin Templeton Investments (Asia) Limited replaced Legg Mason Asset Management Hong Kong Limited as additional Distributor and additional Shareholder Servicing Agent of the Company.

From 3 October 2022, Joseph Carrier ceased full-time employment with Franklin Templeton Investments. Mr. Carrier shall continue to act as a non-executive Director of the Company and shall from 3 October 2022 be remunerated in line with the other non-executive Directors of the Company.

Effective 10 October 2022, Legg Mason Western Asset Emerging Markets Total Return Bond Fund^ ceased trading.

Effective 17 November 2022, Legg Mason ClearBridge Emerging Markets Infrastructure Fund^ ceased trading.

On 1 December 2022, a Supplemental Prospectus and a Specialist Prospectus were issued by the Company and noted by the Central Bank. The significant amendments included amendments to the Base Prospectus and to certain Fund supplements as follows:

- Reclassification from an existing Article 6 classification to an Article 8 classification under the Sustainable Finance Disclosure Regulation ((EU) 2019/2088) ("SFDR") for the following Funds: FTGF Western Asset US High Yield Fund, FTGF Western Asset US Core Plus Bond Fund, FTGF Western Asset Global Multi Strategy Fund, FTGF Western Asset US Corporate Bond Fund^, FTGF Western Asset Global Core Plus Bond Fund^, FTGF Western Asset US Core Bond Fund . The Supplements of the relevant Funds have been updated to reflect the necessary Article 8 disclosures. Taxonomy disclosures have been added to clarify that there may be zero investments that qualify as environmentally sustainable economic activities under the Taxonomy Regulation. However, the Funds may hold investments that contribute to climate change adaptation;
- The following Funds' Taxonomy disclosure has been updated to clarify that there may be zero investments that qualify as environmentally sustainable economic activities under the Taxonomy Regulation: FTGF Brandywine Global Fixed Income Fund, FTGF Frandywine Global Income Optimiser Fund, FTGF ClearBridge Global Growth Fund^, FTGF ClearBridge Global Infrastructure Income Fund, FTGF ClearBridge US Aggressive Growth Fund, FTGF ClearBridge US Appreciation Fund, FTGF ClearBridge US Equity Sustainability Leaders Fund^, FTGF ClearBridge US Large Cap Growth Fund, FTGF GlearBridge Value Fund, FTGF Martin Currie Asia Long-Term Unconstrained Fund^, FTGF Martin Currie European Unconstrained Fund^, FTGF Martin Currie Global Emerging Markets Fund^, FTGF Martin Currie Global Long-Term Unconstrained Fund^, FTGF Western Asset Sustainable Global Corporate Bond Fund^. However, the Funds may hold investments that contribute to climate change mitigation and climate change adaptation;

On 28 February 2023, authorisations for Legg Mason ClearBridge Global Equity Income Fund^, Legg Mason Martin Currie Japan Absolute Alpha Fund^ and Legg Mason Martin Currie Global Dividend Opportunities Fund^ were revoked, at the request of the Company, by the Central Bank.

On 24 February 2022, Russia began military operations in the sovereign territory of Ukraine. The ongoing political and financial uncertainty surrounding Russia and Ukraine may increase market volatility and the economic risk of investing in securities in these countries and other impacted countries within the region. Due to the sanctions, actions by governments, developments in Ukraine itself and other circumstances, the Manager continues to assess the impact on valuation and liquidity and will take any potential actions needed, in accordance with the Funds' valuation policies and procedures.

There have been no other significant events during the financial year ended 28 February 2023.

15. Segregated Liability

The Company is an umbrella fund with segregated liability between its Funds. As such, as matter of Irish law the assets of each of the Funds will not be exposed to the liabilities of the Company's other Funds. Notwithstanding the foregoing there can be no assurance that, should an action be brought against the Company in the court of another jurisdiction, the segregated nature of the Funds would necessarily be unheld

[^] Not authorised for sale to the public in Hong Kong

16. Subsequent Events

Effective 24 March 2023, FTGF Brandywine Global Defensive High Yield Fund^ and FTGF Brandywine Global Dynamic US Equity Fund^ ceased trading.

Effective 20 April 2023, FTGF Martin Currie Asia Long-Term Unconstrained Fund^ ceased trading.

With effect from 17 July 2023, Franklin MV Asia Pacific Ex Japan Equity Growth and Income Fund is ceasing trading.

There were no other material events subsequent to the Statement of Financial Position date which require disclosure in the financial statements.

17. Approval of the Annual Report and Audited Financial Statements

The Directors approved the Annual Report and Audited Financial Statements on 30 June 2023.

Ratio of Total Operating Expenses in CU(1) to average Fund daily net assets in CU(1)(%) For the year ended 28 February 2023** Ratio of Total Operating Expenses in CU(1) to average Fund daily net assets in CU(1)(%) For the year ended 28 February 2023**

The method of calculation of the Total Expense Ratios (TER) is described on the website of the Asset Management Association Switzerland (AMAS) (www.am-switzerland.ch).

⁽¹⁾ CU = Currency units in the Fund's accounting currency.

^{**} Annualised for periods less than one year.

[^] Not authorised for sale to the public in Hong Kong.

Statement of Major Portfolio Changes (unaudited)

For the year ended 28 February 2023

In accordance with the UCITS Regulations, a statement of significant changes in the composition of each Fund's Portfolio of Investments during the reporting year is provided to ensure that shareholders can identify changes in the investments held by each of the Funds. These are defined as the aggregate purchases and sales of an investment (including maturities but excluding reverse repurchase agreements, overnight discount notes and time deposits, which are employed chiefly as a mean of seeking to ensure efficient portfolio management) exceeding 1.00% of the total value of purchases and sales for the year. At a minimum the largest twenty purchases and sales are listed. If a Fund entered into less than twenty purchases or sales during the reporting year, then all transactions are presented.

UCITS V Remuneration Policy (unaudited)

Remuneration

Franklin Templeton International Services S.à.r.I. ("FTIS"), as UCITS licensed management company (the "Management Company") has a remuneration policy (the "Policy") in place which applies to all UCITS funds (each a "UCITS" and together the "UCITS") under its management. The Policy has been designed to discourage excessive risk taking, integrating in its performance management systems risk criteria specific to the business units it covers. The policy has a governance structure aimed at preventing internal conflicts of interest.

There are defined procedures in place for the creation, update, review and approval of the Policy as well as for communication and implementation of the Policy. Senior Management, Human Resources, Compliance and other functions are all involved in this process and the Policy is approved by Senior Management and the Board of Directors of the Management Company.

Fixed remuneration is defined as base salary plus other benefits which may include pension contributions, life assurance premiums or private medical insurance premiums. Levels of fixed remuneration are set with reference to job complexity, level of responsibility, performance and market benchmarking data. These levels are reviewed on a regular basis.

Variable remuneration is defined as annual bonuses, long term awards in the form of performance share grants or sales bonus payments. Levels of variable remuneration are set with reference to overall corporate and business unit performance as well as individual performance.

The full Policy is available at the registered office of the Management Company. Quantitative information relevant to the Funds is outlined below:

Total amount of fixed remuneration paid by FTIS and its delegates during the year ended 30 September 2022*,**,***	€10,479,456
Total amount of variable remuneration paid by FTIS and its delegates during the year ended 30 September 2022*,**,***	€ 7,036,351
Number of staff of FTIS and in its delegates as at 30 September 2022	549
Total amount of compensation paid by FTIS and its delegates to Senior managers during the year ended 30 September 2022*,**,***	€ 5,321,053
Total amount paid by FTIS and its delegates to other members of staff who have a material impact on the profile of UCITS during year ended 30 September 2022*,**,***	€ 1,108,336

- * The total amount of compensation paid by FTIS has been allocated to each UCITS based on their pro rata share of the average month end total net assets of FTIS for the year ended 30 September 2022.
- ** The total amount of compensation paid by the FTIS delegates has been allocated to each UCITS based on their pro rata share of the average month end total net assets of the FTIS delegates for the year ended 30 September 2022.
- *** Delegates are Investment Management entities which are subject to regulatory requirements that are equally as effective as those under Article 69(3)(a) of the UCITS Directive.

The following table lists the ten largest collateral issuers based on the value of non-cash collateral received and the currency of non-cash collateral received as at 28 February 2023:

			Aggregate value of collateral held
Fund	Collateral Issuer*	Currency	(000's)
Legg Mason Western Asset US Government Liquidity Fund	United States**	US Dollar	\$249,766

^{*} Where there are less than ten collateral issuers as at 28 February 2023, all issuers have been included.

The following table provides an analysis of the type and quality of non-cash collateral received as at 28 February 2023:

			Aggregate value of collateral held
Fund	Type of collateral	Quality of collateral	(000's)
Legg Mason Western Asset US Government Liquidity Fund	Government Bonds and Notes	Investment Grade	\$249,766

The below maturity tenor analysis has been based on the contractual maturity date of the Reverse Repurchase Agreements and the associated collateral received/(provided) as at 28 February 2023:

Fund	Type of derivative/collateral	Less than 1 day (000's)	1 day to 1 week (000's)	1 week to 1 month (000's)	1 month to 3 months (000's)	3 months to 1 year (000's)	Above 1 year (000's)	Open maturity (000's)	Total (000's)
Legg Mason Western Asset US Government Liquidity Fund	Reverse Repurchase Agreements	-	\$244,848		-	_			\$244,848
	Non-Cash Collateral Received	_	\$ 5	\$76,515	_	\$3,267	\$169,979	_	\$249,766

Reverse Repurchase Agreements held on FTGF Western Asset US Government Liquidity Fund are tri-party agreements. Collaterals received by the Fund, in respect of the open Reverse Repurchase Agreements as at 28 February 2023, are held with The Bank of New York Mellon, in segregated accounts in the name of the Company. Collateral received is not reused.

All costs and returns on Reverse Repurchase Agreements accrue to the Fund in full.

^{**} Underlying bonds & notes held as collateral are issued by the United States Treasury.

Appendix: Connected Persons Disclosure (unaudited)

During the financial year ended 28 February 2023, Pershing Limited, a subsidiary of The Bank of New York Mellon Corporation and a connected person of the Depositary, provided brokerage services in relation to securities trading to the Hong Kong registered Funds, enacted via the Sub-Investment Managers of the respective Funds. The total aggregate value of transactions with the connected persons of the Depositary in regard securities trading amounted to U\$\$193 million which represents 0.11% of the total value of such transactions entered into by these Funds. Brokerage fees and commissions paid by the Funds to Pershing Limited in relation to such securities trading for the financial year ended 28 February 2023 amounted to U\$\$141,301 with an average commission rate of 7 bps. These have been included within the transaction costs on purchases and sales of relevant securities and are disclosed in Note 4 of these Financial Statements.

During the financial year ended 28 February 2023, The Bank of New York Mellon (Institutional Bank) and The Bank of New York Mellon SA/NV, both connected persons of the Depositary, acted in custody foreign exchange transactions and in Currency Administration / Hedging programmes, respectively, for the Hong Kong registered Funds. Total commissions paid in relation to these transactions amounted to US\$833,647 with an average commission rate of 0.20 bps. The total aggregate value of transactions with the connected persons of the Depositary in that regard amounted to US\$40,718 million which represents 2.08% of the total value of such transactions entered into by the Funds.

All transactions with the connected persons of the Depositary were entered into the ordinary course of business and on normal commercial terms.

Revised Appendix: Sustainability Finance Disclosure Regulation (unaudited)

The Sustainable Finance Disclosure Regulation ((EU) 2019/2088), (the "SFDR") requires the Company to include a description in its periodic reports of the extent to which any Fund classified pursuant to Article 8 of the SFDR (an "Article 8 Fund") has met its environmental or social characteristics. The SFDR also empowered the European Banking Authority, the European Insurance and Occupational Pensions Authority and the European Securities and Markets Authority (collectively "ESAs") to develop draft regulatory technical standards ("RTS") to specify the information and presentation format in the periodic reports.

The following Appendix includes each SFDR Article 8 Fund's periodic disclosure, which have been prepared using the common set of sustainability disclosures or reporting requirements of the RTS which came into effect on 1 January 2023. The asset classifications in the following disclosures are based upon MSCI and may differ to the classification of the securities in the Portfolios of Investments.

FTGF Western Asset US Core Bond Fund

Entity LEI: 549300WRHLJECFCSP797

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

inancial product have a sustai YES			·
 ade sustainable investments with an conmental objective:%	×	chara objec	promoted Environmental/Social (E/S) acteristics and while it did not have as its stive a sustainable investment, it had a proportion 30% of sustainable investments
in economic activities that qualify as environmentally sustainable under the EU Taxonomy			with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy			with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
			with a social objective
 ade sustainable investments with a al objective:%			omoted E/S characteristics, but did not make sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social characteristics:

- alignment with one or more UN Sustainable Development Goals ("SDGs") compared to the Fund's benchmark through investment in green, social, sustainable and sustainability-linked bonds and through best-in-class investments;
- alignment with the following PAI indicators:
 - o GHG Intensity (PAI #3 and PAI #15);
 - Social and Employee Matters (PAI #10); and
 - Controversial Weapons (PAI #14).

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- The PAI indicators mentioned in the answer above. Please refer to the values displayed in the section "How did this financial product consider principal adverse impacts on sustainability factors?" which represent the performance of the indicators during the reference period.
- the allocation to green, social, sustainable and sustainability-linked bonds was at 3.30%.

… And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The Fund's sustainable investments were in green, social, sustainable and sustainability-linked bonds which were achieved through a minimum allocation to issuers aligned with the SDGs compared to the Fund's benchmark and issuers that met best-in-class thresholds set by the Investment Manager. Such bonds had sustainability-linked KPIs, or had proceeds which were used for projects which included, but were not limited to:

- Green Projects: renewable energy, energy efficiency, pollution prevention and control, environmentally sustainable
 management of living natural resources and land use, biodiversity, clean transportation, sustainable water and
 wastewater management, climate change adaptation, circular economy and green buildings; and
- Social Projects: affordable housing, affordable infrastructure (clean drinking water, sanitation), employment
 programmes and socio-economic advancement such as, but not restricted to, education, diversity, equality and
 inclusion to name a few.

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used proprietary research and PAIs to ensure that sustainable investments did not cause significant harm to any environmental or social sustainable investment objective.

The Investment Manager's PAI tool used data from multiple sources (external third-parties such as, but not limited to, MSCI ESG, ISS, World Bank, BloombergNEF, S&P Trucost, Transition Pathway Initiative, NGOs, and academic institutions) which, together with its proprietary research, helped to identify issuers that demonstrated weak sustainability attributes/adverse impacts as measured by the reference to PAI indicators. This enabled the Investment Manager to invest in issuers which aligned with the PAI indicators while avoiding issuers which did not. As part of the Fund's investment in green, social, sustainable and sustainability-linked bonds, the Investment Manager applied this approach to determine whether a bond met sustainability criteria.

Additionally, sovereign issuers were subjected to tests based on their political liberties and/or corruption.

When deploying funds to sustainable investments, especially the minimum 1% of portfolio of the Fund committed towards environmental objectives, where relevant, the Investment Manager utilised additional qualitative assessment (based on internal research or on external third-party opinion) of the issuers and of the projects "do no significant harm" eligibility.

Further, a number of exclusions were applied to the Fund to preclude issuers that may cause significant harm, as detailed further below

--How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager developed a proprietary PAI tool which took into account material PAIs and which helped measure the Fund's alignment with respect to PAI indicators that were deemed to be material to the Fund. The PAI tool identified issuers that lagged their peers with respect to their PAIs and allowed the Investment Manager to assess the Fund's exposure to PAIs compared to its benchmark.

PAIs served as a useful barometer to gauge which issuers to seek to invest in. More specifically, PAI #3 was utilised for assessment of corporate GHG intensity and PAI #15 for sovereign GHG intensity respectively; PAI #10 was utilised to identify issuers that fail as per UNGC Principles and OECD Guidelines; and PAI #14 was utilised to identify issuers that fail controversial weapons screens across the whole Fund compared to those in the investable universe. In addition to the PAI components, the PAI tool also encompassed assessment of investee countries that were deemed ineligible based on the Investment Manager's own assessment and third-party data. As a result of the comprehensive nature of data points incorporated, the PAI tool supported identification of actions taken with respect to issuers, including, but not limited to engagements and divestments.

While the Fund did not commit to having a PAI average better than its benchmark, the difference between the two metrics helped to inform how successful the Fund was at managing adverse impacts.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund adhered to explicit guidelines which excluded issuers that failed as per UNGC Principles and OECD Guidelines. The Investment Manager's engagement with issuers was built on the principles of UNGC Principles and OECD Guidelines. Issuers that were deemed to fail as per UNGC Principles and OECD Guidelines were added to the Investment Manager's ESG Red List which was then utilised to exclude issuers from being an eligible investment in the Fund. Where relevant, the Investment Manager sought to engage with issuers where it had concerns, which may or may not have explicitly failed as per the underlying guidelines.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The manner in which PAIs were considered and taken into account is set out in further detail above.

PAI indicators	Value	Coverage
GHG Intensity USD	121.00	95.90%
GHG Intensity of investee countries USD	235.40	100.00%
Violations of UNGC principles and OECD Guidelines	0.00%	95.00%
Exposure to controversial weapons	0.00%	95.00%

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2022-01-01 - 2022-12-31.

What were the top investments of this financial product?

The top investments of this Fund, excluding cash and derivatives, were:

Top investments	Sector	Proportion	Country
UNITED STATES OF AMERICA	Government bonds	1.95%	United States
UNITED STATES OF AMERICA	Government bonds	1.64%	United States
UNITED STATES OF AMERICA	Government bonds	1.37%	United States
UNITED STATES OF AMERICA	Government bonds	0.67%	United States
UNITED STATES OF AMERICA	Government bonds	0.59%	United States
FANNIE MAE POOL	Government bonds	0.57%	United States

ISRAEL FIXED BOND	Government bonds	0.42%	Israel
LONG BEACH MORTGAGE LOAN TRUST	Financials	0.41%	United States

What was the proportion of sustainability-related investments?

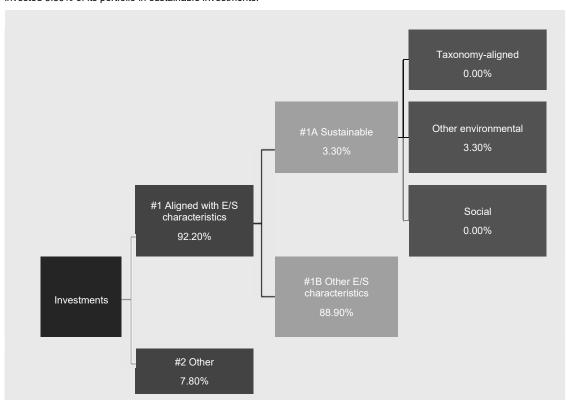

The proportion of sustainability-related investments was 3.30%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

92.20% of the Fund was aligned with the E/S characteristics promoted by the Fund. The remaining portion (7.80%) was not aligned with the promoted characteristics and consisted primarily of liquid assets or issuers for which no ESG rating was available.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 3.30% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Top sector	Proportion
Government bonds	40.47%
Financials	38.44%
Energy	4.54%
Communication Services	3.78%
Health Care	2.57%
Information Technology	1.97%

Internet & Direct Marketing Retail	0.84%
Insurance	0.71%
Biotechnology	0.68%
Semiconductors & Semiconductor Equipment	0.68%
Software	0.62%
Mortgage Real Estate Investment Trust	0.60%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

A	đ		b	
6		Y	1	a
£	Ņ	Ü	R	7

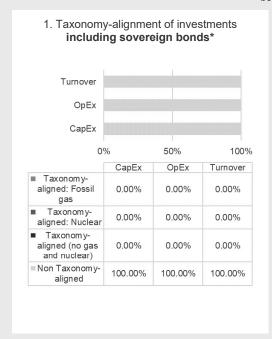

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

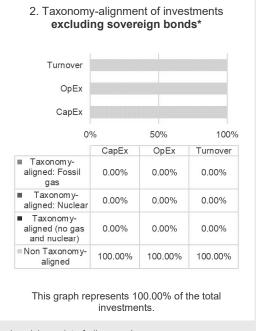

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

П	Yes	
	☐ In fossil gas	□ In nuclear energy
\boxtimes	No	

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

In line with its investment strategy, namely, the Fund's commitment to make a minimum proportion 'sustainable investments' with an environmental objective as per the SFDR art. 2(17) that do not qualify as environmentally sustainable under the EU Taxonomy Regulation, 3.30% of the Fund was comprised of 'sustainable investments' with an environmental objective that do not qualify as environmentally sustainable under the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under '#2 Other' was 7.80% and included cash and derivatives or other issuers for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Western Asset believes that ESG factors can affect the creditworthiness of fixed-income issuers' securities and therefore impact the performance of fixed-income investment portfolios. These factors are wholly consistent with the Firm's long-term, fundamental value-oriented investment philosophy. Western Asset's research analysts were responsible for providing fundamental analysis at the industry and issuer levels and for opining on industry and issuer risk/reward characteristics by incorporating material ESG considerations. Supported by this broader approach, the Fund aimed to meet its environmental and social characteristics by seeking to invest in issuers such that the overall portfolio met minimum ESG ratings, achieved its decarbonisation and SDG alignment, as well as avoided issuers which were identified through application of SRI exclusions, allocated to sectors and invested in issuers targeting.

In order to meet the environmental and/or social characteristics during the reference period, the Fund:

A. The Fund sought an average MSCI ESG rating of BBB or better.

- B. The Fund sought an overall Weighted Average Carbon Intensity ("WACI") that was at least 20% below the benchmark. This helped the Fund align with PAI 3 and PAI 15 (GHG Intensity).
- C. The Fund sought to align, better than the Benchmark, with regards to investments in securities of issuers whose activities contributed to at least 1 of 8 selected SDGs.
- D. The Fund excluded issuers that failed on a range of SRI goals such as outlined below:
- a. Issuers deriving over 5% of revenue from tobacco production and/or distribution and from the production of nuclear weapons;
- b. Issuers deriving over 10% of revenue from civilian firearms (manufacture or supply), conventional weapons or thermal coal mining (production or distribution);
- c. Issuers that manufacture controversial weapons (anti-personnel landmines, biochemical weapons, blinding laser weapons, depleted uranium, incendiary weapons, and non-detectable fragments), own a controversial weapons company, or are owned by a controversial weapons company, aligning with PAI indicator #14 (Controversial Weapons);
- d. Issuers that 'Fail' UNGC and OECD principles based on internal research which seeks to identify gaps in issuers meeting their goals, aligning with PAI indicator #10 (Social and Employee Matters).

As part of the minimum 1% investment in sustainable investments (defined to be green, social, sustainable and sustainability-linked bonds), the Fund had 3.3% invested by market value % as of 31st December 2022.

The Fund promoted environmental and/or sustainable by demonstrated guidelines above as highlighted below:

- A. The Fund was rated A as per MSCI ESG.
- B. The Fund's overall WACI was 63.6 % of the benchmark.
- C. The Fund's allocation to issuers and issues aligned with SDGs was 26.0% vs 17.4% for the benchmark.
- D. The Fund had 3.3 % invested in sustainable investments by market value % as of 31st December 2022.
- E. The Fund did not hold any issuers that were in breach of SRI guidelines.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not applicable

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective?				
•• □ YES	● ⊠ NO			
☐ It made sustainable investments with an environmental objective:%	☑ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 3.30% of sustainable investments			
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	□ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy			
in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy			
	□ with a social objective			
☐ It made sustainable investments with a social objective:%	☐ It promoted E/S characteristics, but did not make any sustainable investments			

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social characteristics:

- alignment with one or more UN Sustainable Development Goals ("SDGs") compared to the Fund's benchmark through investment in green, social, sustainable and sustainability-linked bonds and through best-in-class investments;
- alignment with the following PAI indicators:
 - o GHG Intensity (PAI #3 and PAI #15);
 - Social and Employee Matters (PAI #10); and
 - Controversial Weapons (PAI #14).

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the fund were:

- The PAI indicators mentioned in the answer above. Please refer to the values displayed in the section "How did
 this financial product consider principal adverse impacts on sustainability factors?" which represent the
 performance of the indicators during the reference period.
- the allocation to green, social, sustainable and sustainability-linked bonds was at 3.30%.

… And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The Fund's sustainable investments were in green, social, sustainable and sustainability-linked bonds which were achieved through a minimum allocation to issuers aligned with the SDGs compared to the Fund's benchmark and issuers that met best-in-class thresholds set by the Investment Manager. Such bonds had sustainability-linked KPIs, or had proceeds which were used for projects which included, but were not limited to:

- Green Projects: renewable energy, energy efficiency, pollution prevention and control, environmentally sustainable
 management of living natural resources and land use, biodiversity, clean transportation, sustainable water and
 wastewater management, climate change adaptation, circular economy and green buildings; and
- Social Projects: affordable housing, affordable infrastructure (clean drinking water, sanitation), employment
 programmes and socio-economic advancement such as, but not restricted to, education, diversity, equality and
 inclusion to name a few.

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used proprietary research and PAIs to ensure that sustainable investments did not cause significant harm to any environmental or social sustainable investment objective.

The Investment Manager's PAI tool used data from multiple sources (external third-parties such as, but not limited to, MSCI ESG, ISS, World Bank, BloombergNEF, S&P Trucost, Transition Pathway Initiative, NGOs, and academic institutions) which, together with its proprietary research, helped to identify issuers that demonstrated weak sustainability attributes/adverse impacts as measured by the reference to PAI indicators. This enabled the Investment Manager to invest in issuers which aligned with the PAI indicators while avoiding issuers which did not. As part of the Fund's investment in green, social, sustainable and sustainability-linked bonds, the Investment Manager applied this approach to determine whether a bond met sustainability criteria.

Additionally, sovereign issuers were subjected to tests based on their political liberties and/or corruption.

When deploying funds to sustainable investments, especially the minimum 1% of portfolio of the Fund committed towards environmental objectives, where relevant, the Investment Manager utilised additional qualitative assessment (based on internal research or on external third-party opinion) of the issuers and of the projects "do no significant harm" eligibility.

Further, a number of exclusions were applied to the Fund to preclude issuers that may cause significant harm, as detailed further below

--How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager developed a proprietary PAI tool which took into account material PAIs and which helped measure the Fund's alignment with respect to PAI indicators that were deemed to be material to the Fund. The PAI tool identified issuers that lagged their peers with respect to their PAIs and allowed the Investment Manager to assess the Fund's exposure to PAIs compared to its benchmark.

PAIs served as a useful barometer to gauge which issuers to seek to invest in. More specifically, PAI #3 was utilised for assessment of corporate GHG intensity and PAI #15 for sovereign GHG intensity respectively; PAI #10 was utilised to identify issuers that fail as per UNGC Principles and OECD Guidelines; and PAI #14 was utilised to identify issuers that fail controversial weapons screens across the whole Fund compared to those in the investable universe. In addition to the PAI components, the PAI tool also encompassed assessment of investee countries that were deemed ineligible based on the Investment Manager's own assessment and third-party data. As a result of the comprehensive nature of data points incorporated, the PAI tool supported identification of actions taken with respect to issuers, including, but not limited to engagements and divestments.

While the Fund did not commit to having a PAI average better than its benchmark, the difference between the two metrics helped to inform how successful the Fund was at managing adverse impacts.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund adhered to explicit guidelines which excluded issuers that failed as per UNGC Principles and OECD Guidelines. The Investment Manager's engagement with issuers was built on the principles of UNGC Principles and OECD Guidelines. Issuers that were deemed to fail as per UNGC Principles and OECD Guidelines were added to the Investment Manager's ESG Red List which was then utilised to exclude issuers from being an eligible investment in the Fund. Where relevant, the Investment Manager sought to engage with issuers where it had concerns, which may or may not have explicitly failed as per the underlying guidelines.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The manner in which PAIs were considered and taken into account is set out in further detail above.

PAI indicators	Value	Coverage
GHG Intensity USD	149.90	93.20%
GHG Intensity of investee countries USD	232.10	100.00%
Violations of UNGC principles and OECD Guidelines	0.00%	92.00%
Exposure to controversial weapons	0.00%	92.00%

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2022-01-01 - 2022-12-31.

What were the top investments of this financial product?

The top investments of this Fund, excluding cash and derivatives, were:

Top investments	Sector	Proportion	Country
UNITED STATES OF AMERICA	Government bonds	1.87%	United States
UNITED STATES OF AMERICA	Government bonds	1.55%	United States
UNITED STATES OF AMERICA	Government bonds	1.54%	United States

What was the proportion of sustainability-related investments?

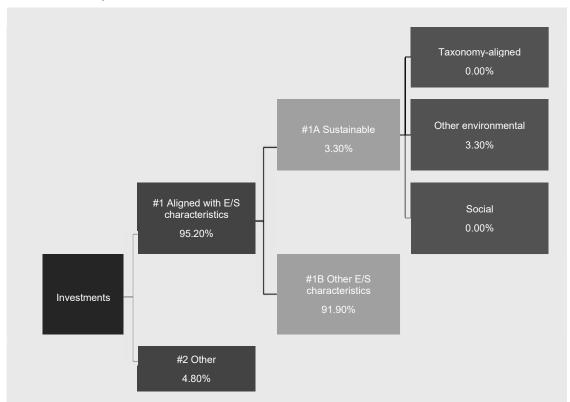

The proportion of sustainability-related investments was 3.30%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

95.20% of the Fund was aligned with the E/S characteristics promoted by the Fund. The remaining portion (4.80%) was not aligned with the promoted characteristics and consisted primarily of liquid assets or issuers for which there was no ESG Rating.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 3.30% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Top sector	Proportion
Government bonds	46.13%
Financials	27.14%
Communication Services	4.45%
Energy	4.37%
Health Care	3.79%
Consumer Discretionary	3.27%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

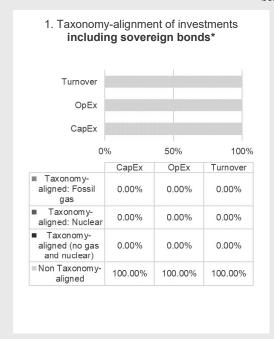

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

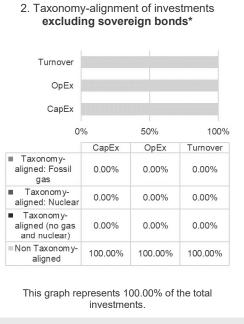

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

П	Yes		
	□ In fossil gas	□ In nuclear energy	
\boxtimes	No		

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

^{*} For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

In line with its investment strategy, namely, the Fund's commitment to make a minimum proportion 'sustainable investments' with an environmental objective as per the SFDR art. 2(17) that do not qualify as environmentally sustainable under the EU Taxonomy Regulation, 3.30% of the Fund was comprised of 'sustainable investments' with an environmental objective that do not qualify as environmentally sustainable under the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under '#2 Other' was 4.80% and included cash and derivatives or issuers for which there were no ESG Ratings for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Western Asset believes that ESG factors can affect the creditworthiness of fixed-income issuers' securities and therefore impact the performance of fixed-income investment portfolios. These factors are wholly consistent with the Firm's long-term, fundamental value-oriented investment philosophy. Western Asset's research analysts are responsible for providing fundamental analysis at the industry and issuer levels and for opining on industry and issuer risk/reward characteristics by incorporating material ESG considerations. Supported by this broader approach, the Fund aimed to meet its environmental and social characteristics by seeking to invest in issuers such that the overall portfolio met minimum ESG ratings, achieved its decarbonisation and SDG alignment, as well as avoided issuers which were identified through application of SRI exclusions, allocated to sectors and invested in issuers targeting.

In order to meet the environmental and/or social characteristics during the reference period, the Fund:

A. The Fund sought an average MSCI ESG rating of BBB or better.

- B. The Fund sought an overall Weighted Average Carbon Intensity ("WACI") that is at least 20% below the benchmark. This helped the Fund align with PAI #3 and PAI #15 (GHG Intensity).
- C. The Fund sought to align, better than the Benchmark, with regards to investments in securities of issuers whose activities contribute to at least 1 of 8 selected SDGs.
- D. The Fund excluded issuers that failed on a range of SRI goals such as outlined below:
- a. Issuers deriving over 5% of revenue from tobacco production and/or distribution and from the production of nuclear weapons;
- b. issuers deriving over 10% of revenue from civilian firearms (manufacture or supply), conventional weapons or thermal coal mining (production or distribution);
- c. Issuers that manufacture controversial weapons (anti-personnel landmines, biochemical weapons, blinding laser weapons, depleted uranium, incendiary weapons, and non-detectable fragments), own a controversial weapons company, or are owned by a controversial weapons company, aligning with PAI indicator #14 (Controversial Weapons);
- d. Issuers that 'Fail' UNGC and OECD principles based on internal research which seeks to identify gaps in issuers meeting their goals, aligning with PAI indicator #10 (Social and Employee Matter).

As part of the Minimum 1% investment in sustainable investments (defined to be green, social, sustainable and sustainability-linked bonds), the Fund had 3.3% invested by market value % as of 31st December 2022.

The Fund promoted environmental and/or sustainable by demonstrated guidelines above as highlighted below:

- A. The Fund was rated A as per MSCI ESG.
- B. The Fund's overall WACI was 70.0 % of the benchmark.
- C. The Fund's allocation to issuers and issues aligned with SDGs was 27.2% vs 17.4% for the benchmark.
- D. The Fund had 3.3 % invested in sustainable investments by market value % as of 31st December 2022.
- E. The Fund did not hold any issuers that were in breach of SRI guidelines.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not applicable

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? ☐ YES \bowtie NO promoted Environmental/Social ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: ___% objective a sustainable investment, it had a proportion of 2.20% of sustainable investments in economic activities that qualify as with an environmental objective in economic activities that qualify environmentally sustainable under the EU as environmentally sustainable under the EU Taxonomy in economic activities that do not qualify as with an environmental objective in economic activities that do not qualify as environmentally environmentally sustainable under the EU sustainable under the EU Taxonomy Taxonomy with a social objective ☐ It promoted E/S characteristics, but did not make ☐ It made sustainable investments with a social objective: % any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social characteristics:

- alignment with one or more UN Sustainable Development Goals ("SDGs") compared to the Fund's benchmark through investment in green, social, sustainable and sustainability-linked bonds and through best-in-class investments;
- alignment with the following PAI indicators:
 - GHG Intensity (PAI #3 and PAI #15);
 - Social and Employee Matters (PAI #10); and
 - Controversial Weapons (PAI #14).

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the fund were:

- The PAI indicators mentioned in the answer above. Please refer to the values displayed in the section "How did this financial product consider principal adverse impacts on sustainability factors?" which represent the performance of the indicators during the reference period.
- the allocation to green, social, sustainable and sustainability-linked bonds was at 2.20%

… And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The Fund's sustainable investments were in green, social, sustainable and sustainability-linked bonds which were achieved through a minimum allocation to issuers aligned with the SDGs compared to the Fund's benchmark and issuers that met best-in-class thresholds set by the Investment Manager. Such bonds had sustainability-linked KPIs, or had proceeds which were used for projects which included, but were not limited to:

- Green Projects: renewable energy, energy efficiency, pollution prevention and control, environmentally sustainable
 management of living natural resources and land use, biodiversity, clean transportation, sustainable water and
 wastewater management, climate change adaptation, circular economy and green buildings; and
- Social Projects: affordable housing, affordable infrastructure (clean drinking water, sanitation), employment
 programmes and socio-economic advancement such as, but not restricted to, education, diversity, equality and
 inclusion to name a few.

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used proprietary research and PAIs to ensure that sustainable investments did not cause significant harm to any environmental or social sustainable investment objective.

The Investment Manager's PAI tool used data from multiple sources (external third-parties such as, but not limited to, MSCI ESG, ISS, World Bank, BloombergNEF, S&P Trucost, Transition Pathway Initiative, NGOs, and academic institutions) which, together with its proprietary research, helped to identify issuers that demonstrated weak sustainability attributes/adverse impacts as measured by the reference to PAI indicators. This enabled the Investment Manager to invest in issuers which aligned with the PAI indicators while avoiding issuers which did not. As part of the Fund's investment in green, social, sustainable and sustainability-linked bonds, the Investment Manager applied this approach to determine whether a bond met sustainability criteria.

Additionally, sovereign issuers were subjected to tests based on their political liberties and/or corruption.

When deploying funds to sustainable investments, especially the minimum 1% of portfolio of the Fund committed towards environmental objectives, where relevant, the Investment Manager utilised additional qualitative assessment (based on internal research or on external third-party opinion) of the issuers and of the projects "do no significant harm" eligibility.

Further, a number of exclusions were applied to the Fund to preclude issuers that may cause significant harm, as detailed further below

--How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager developed a proprietary PAI tool which took into account material PAIs and which helped measure the Fund's alignment with respect to PAI indicators that were deemed to be material to the Fund. The PAI tool identified issuers that lagged their peers with respect to their PAIs and allowed the Investment Manager to assess the Fund's exposure to PAIs compared to its benchmark.

PAIs served as a useful barometer to gauge which issuers to seek to invest in. More specifically, PAI #3 was utilised for assessment of corporate GHG intensity and PAI #15 for sovereign GHG intensity respectively; PAI #10 was utilised to identify issuers that fail as per UNGC Principles and OECD Guidelines; and PAI #14 was utilised to identify issuers that fail controversial weapons screens across the whole Fund compared to those in the investable universe. In addition to the PAI components, the PAI tool also encompassed assessment of investee countries that were deemed ineligible based on the Investment Manager's own assessment and third-party data. As a result of the comprehensive nature of data points incorporated, the PAI tool supported identification of actions taken with respect to issuers, including, but not limited to engagements and divestments.

While the Fund did not commit to having a PAI average better than its benchmark, the difference between the two metrics helped to inform how successful the Fund was at managing adverse impacts.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund adhered to explicit guidelines which excluded issuers that failed as per UNGC Principles and OECD Guidelines. The Investment Manager's engagement with issuers was built on the principles of UNGC Principles and OECD Guidelines. Issuers that were deemed to fail as per UNGC Principles and OECD Guidelines were added to the Investment Manager's ESG Red List which was then utilised to exclude issuers from being an eligible investment in the Fund. Where relevant, the Investment Manager sought to engage with issuers where it had concerns, which may or may not have explicitly failed as per the underlying guidelines.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The manner in which PAIs were considered and taken into account is set out in further detail above.

PAI indicators	Value	Coverage

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

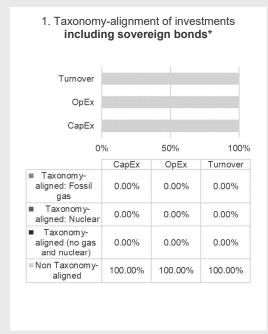

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

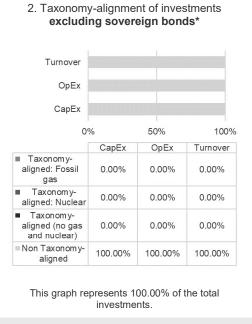

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

П	Yes			
	☐ In fossil gas	□ In nuclear energy		
\boxtimes	No			

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

^{*} For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

In line with its investment strategy, namely, the Fund's commitment to make a minimum proportion 'sustainable investments' with an environmental objective as per the SFDR art. 2(17) that do not qualify as environmentally sustainable under the EU Taxonomy Regulation, 2,20% of the Fund was comprised of 'sustainable investments' with an environmental objective that do not qualify as environmentally sustainable under the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under '#2 Other' was 14.40% and included cash and derivatives or issuers without an ESG rating for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Western Asset believes that ESG factors can affect the creditworthiness of fixed-income issuers' securities and therefore impact the performance of fixed-income investment portfolios. These factors are wholly consistent with the Firm's long-term, fundamental value-oriented investment philosophy. Western Asset's research analysts are responsible for providing fundamental analysis at the industry and issuer levels and for opining on industry and issuer risk/reward characteristics by incorporating material ESG considerations. Supported by this broader approach, the Fund aimed to meet its environmental and social characteristics by seeking to invest in issuers such that the overall portfolio met minimum ESG ratings, achieved its decarbonisation and SDG alignment, as well as avoided issuers which were identified through application of SRI exclusions, allocated to sectors and invested in issuers targeting.

In order to meet the environmental and/or social characteristics during the reference period, the Fund:

A. The Fund sought an average MSCI ESG rating of BBB or better.

- B. The Fund sought an overall Weighted Average Carbon Intensity ("WACI") that is at least 20% below the proxy benchmark. This helped the Fund align with PAI #3 and PAI #15 (GHG Intensity).
- C. The Fund sought to invest a minimum of 20% in investments in securities of issuers whose activities contribute to at least 1 of 8 selected SDGs.
- D. The Fund excluded issuers that failed on a range of SRI goals such as outlined below:
- a. Issuers deriving over 5% of revenue from tobacco production and/or distribution and from the production of nuclear weapons;
- b. Issuers deriving over 10% of revenue from civilian firearms (manufacture or supply), conventional weapons or thermal coal mining (production or distribution);
- c. Issuers that manufacture controversial weapons (anti-personnel landmines, biochemical weapons, blinding laser weapons, depleted uranium, incendiary weapons, and non-detectable fragments), own a controversial weapons company, or are owned by a controversial weapons company, aligning with PAI indicator #14 (Controversial Weapons);
- d. Issuers that 'Fail' UNGC and OECD principles based on internal research which seeks to identify gaps in issuers meeting their goals, aligning with PAI indicator #10 (Social and Employee Matters).

As part of the minimum 1% investment in sustainable investments (defined to be green, social, sustainable and sustainability-linked bonds), the Fund had 2.2% invested by market value % as of 31st December 2022.

The Fund promoted environmental and/or sustainable by demonstrated guidelines above as highlighted below:

- A. The Fund was rated BBB as per MSCI ESG.
- B. The Fund's overall WACI was 69.7% of the proxy benchmark.
- C. The Fund's allocation to issuers and issues aligned with SDGs was 31.8%.
- D. The Fund did not hold any issuers that were in breach of SRI guidelines.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

								with a social objective
				ade sustainable investments with a al objective:%				omoted E/S characteristics, but did not make sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social characteristics:

- alignment with one or more UN Sustainable Development Goals ("SDGs") compared to the Fund's benchmark through investment in green, social, sustainable and sustainability-linked bonds and through best-in-class investments;
- alignment with the following PAI indicators:
 - GHG Intensity (PAI #3 and PAI #15);
 - Social and Employee Matters (PAI #10);
 - Controversial Weapons (PAI #14); and
- Investee Countries subject to Social Violations (PAI #16).

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the fund were:

- The PAI indicators mentioned in the answer above. Please refer to the values displayed in the section "How did this financial product consider principal adverse impacts on sustainability factors?" which represent the performance of the indicators during the reference period.

 The allocation to green, social, sustainable and sustainability-linked bonds was at 5.30%.

... And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The Fund's sustainable investments were in green, social, sustainable and sustainability-linked bonds which were achieved through a minimum allocation to issuers aligned with the SDGs compared to the Fund's benchmark and issuers that met bestin-class thresholds set by the Investment Manager. Such bonds had sustainability-linked KPIs, or had proceeds which were used for projects which included but were not limited to:

- Green Projects: renewable energy, energy efficiency, pollution prevention and control, environmentally sustainable management of living natural resources and land use, biodiversity, clean transportation, sustainable water and wastewater management, climate change adaptation, circular economy and green buildings; and
- Social Projects: affordable housing, affordable infrastructure (clean drinking water, sanitation), employment programmes and socio-economic advancement such as, but not restricted to, education, diversity, equality and inclusion to name a few.

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used proprietary research and PAIs to ensure that sustainable investments did not cause significant harm to any environmental or social sustainable investment objective.

The Investment Manager's PAI tool used data from multiple sources (external third-parties such as, but not limited to, MSCI ESG, ISS, World Bank, BloombergNEF, S&P Trucost, Transition Pathway Initiative, NGOs, and academic institutions) which, together with its proprietary research, helped to identify issuers that demonstrated weak sustainability attributes/adverse impacts as measured by the reference to PAI indicators. This enabled the Investment Manager to invest in issuers which aligned with the PAI indicators while avoiding issuers which did not. As part of the Fund's investment in green, social, sustainable and sustainability-linked bonds, the Investment Manager applied this approach to determine whether a bond met sustainability

Additionally, sovereign issuers were subjected to tests based on their political liberties and/or corruption.

When deploying funds to sustainable investments, especially the minimum 1% of portfolio of the Fund committed towards environmental objectives, where relevant, the Investment Manager utilised additional qualitative assessment (based on internal research or on external third-party opinion) of the issuers and of the projects "do no significant harm" eligibility.

Further, a number of exclusions were applied to the Fund to preclude issuers that may cause significant harm, as detailed

--How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager developed a proprietary PAI tool which took into account material PAIs and which helped measure the Fund's alignment with respect to PAI indicators that were deemed to be material to the Fund. The PAI tool identified issuers that lagged their peers with respect to their PAIs and allowed the Investment Manager to assess the Fund's exposure to PAIs compared to its benchmark.

PAIs served as a useful barometer to gauge which issuers to seek to invest in. More specifically, PAI #3 was utilised for assessment of corporate GHG intensity and PAI #15 for sovereign GHG intensity, respectively; PAI #10 was utilised to identify issuers that fail as per UNGC Principles and OECD Guidelines; PAI #14 was utilised to identify issuers that fail on controversial weapons screens across the whole Fund compared to those in the investable universe; and PAI #16 was utilised to identify investee countries that fail at being designated as free by the Freedom House. As a result of the comprehensive nature of data points incorporated, the PAI tool supported identification of actions taken with respect to issuers, including, but not limited to engagements and divestments.

While the Fund did not commit to having a PAI average better than its benchmark, the difference between the two metrics helped to inform how successful the Fund was in managing adverse impacts.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund adhered to explicit guidelines which excluded issuers that failed as per UNGC Principles and OECD Guidelines. The Investment Manager's engagement with issuers was built on the principles of UNGC Principles and OECD Guidelines. Issuers that were deemed to fail as per UNGC Principles and OECD Guidelines were added to the Investment Manager's ESG Red List which was then utilised to exclude issuers from being an eligible investment in the Fund. Where relevant, the Investment Manager sought to engage with issuers where it had concerns, which may or may not have explicitly failed as per the underlying guidelines.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The manner in which PAIs were considered and taken into account is set out in further detail above.

PAI indicators	Value	Coverage
GHG Intensity USD	230.20	72.90%
GHG Intensity of investee countries USD	175.30	100.00%
Violations of UNGC principles and OECD Guidelines	0.00%	72.00%
Exposure to controversial weapons	0.00%	73.00%
Investee countries subject to social violations	0.00	100.00%

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2022-01-01 - 2022-12-31.

What were the top investments of this financial product?

The top investments of this Fund, excluding cash and derivatives, were:

Top investments	Sector	Proportion	Country

What was the proportion of sustainability-related investments?

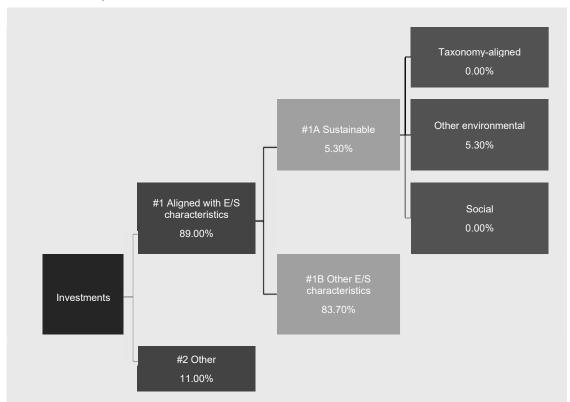

The proportion of sustainability-related investments was 5.30%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

89.00% of the Fund was aligned with the E/S characteristics promoted by the Fund. The remaining portion (11.00%) was not aligned with the promoted characteristics and consisted primarily of liquid assets or issuers for which there was no ESG rating.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 5.30% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Top sector	Proportion

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

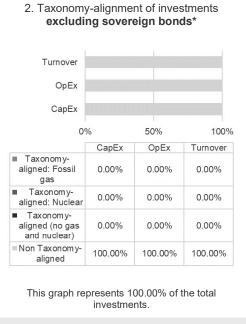

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

П	Yes	
	☐ In fossil gas	□ In nuclear energy
\boxtimes	No	

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

In line with its investment strategy, namely, the Fund's commitment to make a minimum proportion 'sustainable investments' with an environmental objective as per the SFDR art. 2(17) that do not qualify as environmentally sustainable under the EU Taxonomy Regulation, 5.30% of the Fund was comprised of 'sustainable investments' with an environmental objective that do not qualify as environmentally sustainable under the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under '#2 Other' was 11.00% and included cash and derivatives or other issuers for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Western Asset believes that ESG factors can affect the creditworthiness of fixed-income issuers' securities and therefore impact the performance of fixed-income investment portfolios. These factors are wholly consistent with the Firm's long-term, fundamental value-oriented investment philosophy. Western Asset's research analysts were responsible for providing fundamental analysis at the industry and issuer levels and for opining on industry and issuer risk/reward characteristics by incorporating material ESG considerations. Supported by this broader approach, the Fund aimed to meet its environmental and social characteristics by seeking to invest in issuers such that the overall portfolio met minimum ESG ratings, achieved its decarbonisation and SDG alignment, as well as avoided issuers which were identified through application of SRI exclusions, allocated to sectors and invested in issuers targeting.

In order to meet the environmental and/or social characteristics during the reference period, the Fund:

- A. The Fund sought an overall Weighted Average Carbon Intensity ("WACI") that was at least 20% below the benchmark. This helped the Fund align with PAI #3 and PAI #15 (GHG Intensity).
- B. The Fund sought to align, better than the Benchmark, with regards to investments in securities of issuers whose activities contributed to at least 1 of 8 selected SDGs.
- C. The Fund excluded issuers that failed on a range of SRI goals such as outlined below:
- a. Issuers deriving over 5% of revenue from tobacco production and/or distribution and from the production of nuclear weapons;
- b. Issuers deriving over 10% of revenue from civilian firearms (manufacture or supply), conventional weapons or thermal coal mining (production or distribution);
- c. Issuers that manufacture controversial weapons (anti-personnel landmines, biochemical weapons, blinding laser weapons, depleted uranium, incendiary weapons, and non-detectable fragments), own a controversial weapons company, or are owned by a controversial weapons company, aligning with PAI indicator #14 (Controversial Weapon);
- d. Issuers that 'Fail' UNGC and OECD principles based on internal research which seeks to identify gaps in issuers meeting their goals, aligning with PAI indicator #10 (Social and Employee Matters);
- e. State and/or sovereign issuers that fail to be designated as "free" by the Freedom House Index, aligning with PAI indicator #16 (Investee Countries subject to Social Violations).

As part of the minimum 1% investment in sustainable investments (defined to be green, social, sustainable and sustainability-linked bonds), the Fund had 5.3% invested by market value % as of 31st December 2022.

The Fund promoted environmental and/or sustainable by demonstrated guidelines above as highlighted below:

- A. The Fund's overall WACI was 82.8% of the benchmark.
- B. The Fund's allocation to issuers and issues aligned with SDGs was 33.0% vs 31.8% for the benchmark.
- C. The Fund had 5.3% invested by market value % in sustainable investments as of 31st December 2022.
- D. The Fund did not invest in any issuer that was in breach of SRI guidelines.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social characteristics:

- alignment with one or more UN Sustainable Development Goals ("SDGs") compared to the Fund's benchmark through investment in green, social, sustainable and sustainability-linked bonds and through best-in-class investments;
- alignment with the following PAI indicators:
 - GHG Intensity (PAI #3 and PAI #15);
 - Social and Employee Matters (PAI #10); and
 - Controversial Weapons (PAI #14).

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the fund were:

- The PAI indicators mentioned in the answer above. Please refer to the values displayed in the section "How did this financial product consider principal adverse impacts on sustainability factors?" which represent the performance of the indicators during the reference period.

 The allocation to green, social, sustainable and sustainability-linked bonds was at 6.90%

... And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The Fund's sustainable investments were in green, social, sustainable and sustainability-linked bonds which were achieved through a minimum allocation to issuers aligned with the SDGs compared to the Fund's benchmark and issuers that met bestin-class thresholds set by the Investment Manager. Such bonds had sustainability-linked KPIs, or had proceeds which were used for projects which included but were not limited to:

- Green Projects: renewable energy, energy efficiency, pollution prevention and control, environmentally sustainable management of living natural resources and land use, biodiversity, clean transportation, sustainable water and wastewater management, climate change adaptation, circular economy and green buildings; and
- Social Projects: affordable housing, affordable infrastructure (clean drinking water, sanitation), employment programmes and socio-economic advancement such as, but not restricted to, education, diversity, equality and inclusion to name a few.

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used proprietary research and PAIs to ensure that sustainable investments did not cause significant harm to any environmental or social sustainable investment objective.

The Investment Manager's PAI tool used data from multiple sources (external third-parties such as, but not limited to, MSCI ESG, ISS, World Bank, BloombergNEF, S&P Trucost, Transition Pathway Initiative, NGOs, and academic institutions) which, together with its proprietary research, helped to identify issuers that demonstrated weak sustainability attributes/adverse impacts as measured by the reference to PAI indicators. This enabled the Investment Manager to invest in issuers which aligned with the PAI indicators while avoiding issuers which did not. As part of the Fund's investment in green, social, sustainable and sustainability-linked bonds, the Investment Manager applied this approach to determine whether a bond met sustainability

Additionally, sovereign issuers were subjected to tests based on their political liberties and/or corruption.

When deploying funds to sustainable investments, especially the minimum 1% of portfolio of the Fund committed towards environmental objectives, where relevant, the Investment Manager utilised additional qualitative assessment (based on internal research or on external third-party opinion) of the issuers and of the projects "do no significant harm" eligibility.

Further, a number of exclusions were applied to the Fund to preclude issuers that may cause significant harm, as detailed

--How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager developed a proprietary PAI tool which took into account material PAIs and which helped measure the Fund's alignment with respect to PAI indicators that were deemed to be material to the Fund. The PAI tool identified issuers that lagged their peers with respect to their PAIs and allowed the Investment Manager to assess the Fund's exposure to PAIs compared to its benchmark.

PAIs served as a useful barometer to gauge which issuers to seek to invest in. More specifically, PAI #3 was utilised for assessment of corporate GHG intensity and PAI #15 for sovereign GHG intensity respectively; PAI #10 was utilised to identify issuers that fail as per UNGC Principles and OECD Guidelines; and PAI #14 was utilised to identify issuers that fail controversial weapons screens across the whole Fund compared to those in the investable universe. In addition to the PAI components, the PAI tool also encompassed assessment of investee countries that were deemed ineligible based on the Investment Manager's own assessment and third-party data. As a result of the comprehensive nature of data points incorporated, the PAI tool supported identification of actions taken with respect to issuers, including, but not limited to engagements and divestments.

While the Fund did not commit to having a PAI average better than its benchmark, the difference between the two metrics helped to inform how successful the Fund was at managing adverse impacts.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund adhered to explicit guidelines which excluded issuers that failed as per UNGC Principles and OECD Guidelines. The Investment Manager's engagement with issuers was built on the principles of UNGC Principles and OECD Guidelines. Issuers that were deemed to fail as per UNGC Principles and OECD Guidelines were added to the Investment Manager's ESG Red List which was then utilised to exclude issuers from being an eligible investment in the Fund. Where relevant, the Investment Manager sought to engage with issuers where it had concerns, which may or may not have explicitly failed as per the underlying guidelines.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The manner in which PAIs were considered and taken into account is set out in further detail above.

PAI indicators	Value	Coverage

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

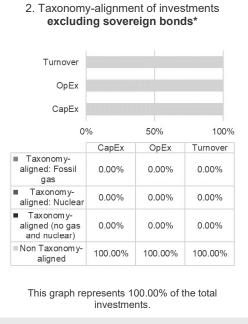

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

П	Yes	
	□ In fossil gas	□ In nuclear energy
\boxtimes	No	

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

^{*} For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

In line with its investment strategy, namely, the Fund's commitment to make a minimum proportion 'sustainable investments' with an environmental objective as per the SFDR art. 2(17) that do not qualify as environmentally sustainable under the EU Taxonomy Regulation, 6.90% of the Fund was comprised of 'sustainable investments' with an environmental objective that do not qualify as environmentally sustainable under the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under '#2 Other' was 14.40% and included cash and derivatives or issuers for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Western Asset believes that ESG factors can affect the creditworthiness of fixed-income issuers' securities and therefore impact the performance of fixed-income investment portfolios. These factors are wholly consistent with the Firm's long-term, fundamental value-oriented investment philosophy. Western Asset's research analysts are responsible for providing fundamental analysis at the industry and issuer levels and for opining on industry and issuer risk/reward characteristics by incorporating material ESG considerations. Supported by this broader approach, the Fund aimed to meet its environmental and social characteristics by seeking to invest in issuers such that the overall portfolio met minimum ESG ratings, achieved its decarbonisation and UN SDG alignment, as well as avoided issuers which were identified through application of SRI exclusions, allocated to sectors and invested in issuers targeting.

In order to meet the environmental and/or social characteristics during the reference period, the Fund:

- A. The Fund sought an overall Weighted Average Carbon Intensity ("WACI") that was at least 20% below the benchmark. This helped the Fund align with PAI #3 and PAI #15 (GHG Intensity).
- B. The Fund sought to align, better than the Benchmark, with regards to investments in securities of issuers whose activities contributed to at least 1 of 8 selected SDGs..
- C. The Fund excluded issuers that failed on a range of SRI goals such as outlined below:
- a. Issuers deriving over 5% of revenue from tobacco production and/or distribution and from the production of nuclear weapons;
- b. Issuers deriving over 10% of revenue from civilian firearms (manufacture or supply), conventional weapons or thermal coal mining (production or distribution);
- c. Issuers that manufacture controversial weapons (anti-personnel landmines, biochemical weapons, blinding laser weapons, depleted uranium, incendiary weapons, and non-detectable fragments), own a controversial weapons company, or are owned by a controversial weapons company, aligning with PAI indicator #14 (Controversial Weapons);
- d. Issuers that 'Fail' UNGC and OECD principles based on internal research which seeks to identify gaps in issuers meeting their goals, aligning with PAI indicator #10 (Social and Employee matters).

As part of the minimum 1% investment in sustainable investments (defined to be green, social, sustainable and sustainability-linked bonds), the Fund had 6.9% invested by market value % as of 31st December 2022

The Fund promoted environmental and/or sustainable by demonstrated guidelines above as highlighted below:

- A. The Fund's overall WACI was 82.8% of the benchmark.
- B. The Fund's allocation to issuers and issues aligned with SDGs was 31.9% vs 30.5% for the benchmark.
- C. The Fund had 6.9% invested by market value % in sustainable investments as of 31st December 2022.
- D. The Fund had a position in a single issuer that was found to be in breach of SRI guidelines as a result of a transition from Article 6 to Article 8 status. Upon discovery, this issuer was sold off.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not applicable

FTGF Western Asset Short Duration Blue Chip Bond Fund

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? ☐ YES \bowtie NO promoted Environmental/Social ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: ___% objective a sustainable investment, it had a proportion of 12.30% of sustainable investments in economic activities that qualify as with an environmental objective in economic environmentally sustainable under the EU activities that qualify as environmentally sustainable under the EU Taxonomy in economic activities that do not qualify as with an environmental objective in economic environmentally sustainable under the EU activities that do not qualify as environmentally sustainable under the EU Taxonomy Taxonomy with a social objective ☐ It promoted E/S characteristics, but did not make ☐ It made sustainable investments with a social objective: ____% any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social characteristics:

- alignment with one or more UN Sustainable Development Goals ("SDGs") compared to the Fund's benchmark through investment in green, social, sustainable and sustainability-linked bonds and through best-in-class investments;
- · alignment with the following PAI indicators:
 - GHG Intensity (PAI #3 and PAI #15);
 - Social and Employee Matters (PAI #10);
 - Controversial Weapons (PAI #14); and
 - o Investee Countries subject to Social Violations (PAI #16).

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the fund were:

- The PAI indicators mentioned in the answer above. Please refer to the values displayed in the section "How did
 this financial product consider principal adverse impacts on sustainability factors?" which represent the
 performance of the indicators during the reference period.
- the allocation to green, social, sustainable and sustainability-linked bonds was at 12.30%

… And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The Fund's sustainable investments were in green, social, sustainable and sustainability-linked bonds which were achieved through a minimum allocation to issuers aligned with the SDGs compared to the Fund's benchmark and issuers that met best-in-class thresholds. The proceeds of such bonds were used for projects, or had sustainability-linked KPIs, including, but not limited to:

- Green Projects: renewable energy, energy efficiency, pollution prevention and control, environmentally sustainable
 management of living natural resources and land use, biodiversity, clean transportation, sustainable water and
 wastewater management, climate change adaptation, circular economy and green buildings; and
- Social Projects: affordable housing, affordable infrastructure (clean drinking water, sanitation), employment
 programmes and socio-economic advancement such as, but not restricted to, education, diversity, equality and
 inclusion to name a few.

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used proprietary research and PAIs to ensure that sustainable investments did not cause significant harm to any environmental or social sustainable investment objective.

The Investment Manager's PAI tool used data from multiple sources (external third-parties such as, but not limited to, MSCI ESG, ISS, World Bank, BloombergNEF, S&P Trucost, Transition Pathway Initiative, NGOs, and academic institutions) which, together with its proprietary research, helped to identify issuers that demonstrated weak sustainability attributes/adverse impacts as measured by the reference to PAI indicators. This enabled the Investment Manager to invest in issuers which aligned with the PAI indicators while avoiding issuers which did not. As part of the Fund's investment in green, social, sustainable and sustainability-linked bonds, the Investment Manager applied this approach to determine whether a bond met sustainability criteria.

Additionally, sovereign issuers were subjected to tests based on their political liberties and/or corruption.

When deploying funds to sustainable investments, especially the minimum 1% of portfolio of the Fund committed towards environmental objectives, where relevant, the Investment Manager utilised additional qualitative assessment (based on internal research or on external third-party opinion) of the issuers and of the projects "do no significant harm" eligibility.

Further, a number of exclusions were applied to the Fund to preclude issuers that may cause significant harm, as detailed further below

--How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager developed a proprietary PAI tool which took into account material PAIs and which helped measure the Fund's alignment with respect to PAI indicators that were deemed to be material to the Fund. The PAI tool identified issuers that lagged their peers with respect to their PAIs and allowed the Investment Manager to assess the Fund's exposure to PAIs compared to its benchmark.

PAIs served as a useful barometer to gauge which issuers to seek to invest in. More specifically, PAI #3 was utilised for assessment of corporate GHG intensity and PAI #15 for sovereign GHG intensity, respectively; PAI #10 was utilised to identify issuers that fail as per UNGC Principles and OECD Guidelines; PAI #14 was utilised to identify issuers that fail on controversial weapons screens across the whole Fund compared to those in the investable universe; and PAI #16 was utilised to identify investee countries that fail at being designated as free by the Freedom House. As a result of the comprehensive nature of data points incorporated, the PAI tool supported identification of actions taken with respect to issuers, including, but not limited to engagements and divestments.

While the Fund did not commit to having a PAI average better than its benchmark, the difference between the two metrics helped to inform how successful the Fund was in managing adverse impacts.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund adhered to explicit guidelines which excluded issuers that failed as per UNGC Principles and OECD Guidelines. The Investment Manager's engagement with issuers was built on the principles of UNGC Principles and OECD Guidelines. Issuers that were deemed to fail as per UNGC Principles and OECD Guidelines were added to the Investment Manager's ESG Red List which was then utilised to exclude issuers from being an eligible investment in the Fund. Where relevant, the Investment Manager sought to engage with issuers where it had concerns, which may or may not have explicitly failed as per the underlying guidelines.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The manner in which PAIs were considered and taken into account is set out in further detail above.

PAI indicators	Value	Coverage
GHG Intensity USD	63.20	94.60%
GHG Intensity of investee countries USD	247.50	100.00%
Violations of UNGC principles and OECD Guidelines	0.00%	95.00%
Exposure to controversial weapons	0.00%	95.00%
Investee countries subject to social violations	0.00	100.00%

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2022-01-01 - 2022-12-31.

What were the top investments of this financial product?

The top investments of this Fund, excluding cash and derivatives, were:

Top investments	Sector	Proportion	Country
UNITED STATES OF AMERICA	Government bonds	3.34%	United States
UNITED STATES OF AMERICA	Government bonds	1.77%	United States
KREDITANSTALT FUER WIEDERAUFBAU	Government bonds	1.76%	Germany

What was the proportion of sustainability-related investments?

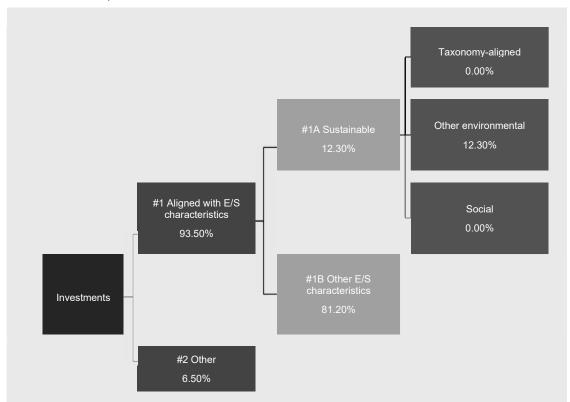

The proportion of sustainability-related investments was 12.30%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

93.50% of the Fund was aligned with the E/S characteristics promoted by the Fund. The remaining portion (6.50%) was not aligned with the promoted characteristics and consisted primarily of liquid assets or issuers for which there was no ESG rating.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 12.30% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Top sector	Proportion
Financials	39.40%
Government bonds	15.60%
Health Care	8.72%
Industrials	6.45%
Consumer Staples	5.02%
Information Technology	4.59%

Utilities	2.10%
Materials	1.65%

Top sub-sector	Proportion
Banks	19.36%
Government Bonds	14.63%
Financial Services	10.68%
Pharmaceuticals	6.46%
Capital Markets	5.76%
Oil Gas & Consumable Fuels	3.20%
Real Estate Management & Development	2.22%
Beverages	2.08%
Consumer Finance	1.99%
Electric Utilities	1.77%
Cash Equivalents	1.65%
Chemicals	1.65%
Industrial Conglomerates	1.61%
Textiles Apparel & Luxury Goods	1.46%
Semiconductors & Semiconductor Equipment	1.37%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

A			DA.
B		Y	1
E	NI	ŭ	w

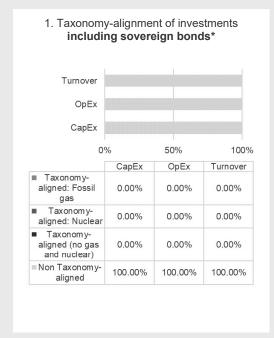

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

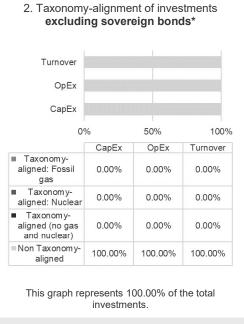

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

П	Yes	
	☐ In fossil gas	☐ In nuclear energy
\boxtimes	No	

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

^{*} For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

In line with its investment strategy, namely, the Fund's commitment to make a minimum proportion 'sustainable investments' with an environmental objective as per the SFDR art. 2(17) that do not qualify as environmentally sustainable under the EU Taxonomy Regulation, 12,00% of the Fund was comprised of 'sustainable investments' with an environmental objective that do not qualify as environmentally sustainable under the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under '#2 Other' was 6.50% and included cash and derivatives for which there were no minimum environmental or social safeguards. It also included issuers for which there was no ESG rating.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Western Asset believes that ESG factors can affect the creditworthiness of fixed-income issuers' securities and therefore impact the performance of fixed-income investment portfolios. These factors are wholly consistent with the Firm's long-term, fundamental value-oriented investment philosophy. Western Asset's research analysts were responsible for providing fundamental analysis at the industry and issuer levels and for opining on industry and issuer risk/reward characteristics by incorporating material ESG considerations. Supported by this broader approach, the Fund aimed to meet its environmental and social characteristics by seeking to invest in issuers such that the overall portfolio met minimum ESG ratings, achieved its decarbonisation and SDG alignment, as well as avoided issuers which were identified through application of SRI exclusions, allocated to sectors and invested in issuers targeting.

In order to meet the meet the environmental and/or social characteristics during the reference period, the Fund:

A. The Fund sought an average MSCI ESG rating of BBB or better.

- B. The Fund sought an overall Weighted Average Carbon Intensity ("WACI") that was at least 20% below the proxy benchmark. This helped the Fund align with PAI #3 and PAI #15 (GHG Intensity).
- C. The Fund sought to invest a minimum of 20% in investments in securities of issuers whose activities contribute to at least 1 of 8 selected SDGs.
- D. The Fund excluded issuers that failed on a range of SRI goals such as outlined below:
- a. Issuers deriving over 5% of revenue from tobacco production and/or distribution and from the production of nuclear weapons;
- b. Issuers deriving over 10% of revenue from civilian firearms (manufacture or supply), conventional weapons or thermal coal mining (production or distribution);
- c. Issuers that manufacture controversial weapons (anti-personnel landmines, biochemical weapons, blinding laser weapons, depleted uranium, incendiary weapons, and non-detectable fragments), own a controversial weapons company, or are owned by a controversial weapons company, aligning with PAI indicator #14 (Controversial Weapons);
- d. Issuers that 'Fail' UNGC and OECD principles based on internal research which seeks to identify gaps in issuers meeting their goals, aligning with PAI indicator #10 (Social and Employee Matters);
- e. State and/or sovereign issuers that fail to be designated as "free" by the Freedom House Index, aligning with PAI indicator #16 (Investee Countries subject to Social violation).

As part of the minimum 1% investment in sustainable investments (defined to be green, social, sustainable and sustainability-linked bonds), the Fund had 12.3% invested by market value % as of 31st December 2022.

The Fund promoted environmental and/or sustainable by demonstrated guidelines above as highlighted below:

- A. The Fund was rated AA as per MSCI ESG.
- B. The Fund's overall WACI was 47.1% of the proxy benchmark.
- C. The Fund's allocation to issuers and issues aligned with SDGs was 61.5%.
- D. The Fund had 12.3% invested by MV% as of 31st December 2022.
- E. The Fund did not hold any issuers that were in breach of SRI guidelines.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? ☐ YES \bowtie NO promoted Environmental/Social ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: ___% objective a sustainable investment, it had a proportion of 1.60% of sustainable investments in economic activities that qualify as with an environmental objective in economic activities that qualify environmentally sustainable under the EU as environmentally sustainable under the EU Taxonomy in economic activities that do not qualify as with an environmental objective in economic activities that do not qualify as environmentally environmentally sustainable under the EU sustainable under the EU Taxonomy Taxonomy with a social objective ☐ It promoted E/S characteristics, but did not make ☐ It made sustainable investments with a social objective: % any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social characteristics:

- alignment with one or more UN Sustainable Development Goals ("SDGs") compared to the Fund's benchmark through investment in green, social, sustainable and sustainability-linked bonds and through best-in-class investments;
- alignment with the following PAI indicators:
 - GHG Intensity (PAI #3 and PAI #15);
 - Social and Employee Matters (PAI #10); and
 - Controversial Weapons (PAI #14).

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the fund were:

- The PAI indicators mentioned in the answer above. Please refer to the values displayed in the section "How did
 this financial product consider principal adverse impacts on sustainability factors?" which represent the
 performance of the indicators during the reference period.
- the allocation to green, social, sustainable and sustainability-linked bonds was at 1.60%

… And compared to previous periods?

Not applicable as there were no prior reference periods

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The objective of the Fund's sustainable investments was to reduce GHG emissions as measured through weighted average carbon intensity. The Fund's sustainable investments were in green, social, sustainable and sustainability-linked bonds which were achieved through a minimum allocation to issuers aligned with the SDGs compared to the Fund's benchmark and issuers that met best-in-class thresholds set by the Investment Manager. Such bonds had sustainability-linked KPIs, or had proceeds which were used for projects which included, but were not limited to:

- Green Projects: renewable energy, energy efficiency, pollution prevention and control, environmentally sustainable
 management of living natural resources and land use, biodiversity, clean transportation, sustainable water and
 wastewater management, climate change adaptation, circular economy and green buildings; and
- Social Projects: affordable housing, affordable infrastructure (clean drinking water, sanitation), employment
 programmes and socio-economic advancement as, but not restricted to, education, diversity, equality and inclusion
 to name a few.

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used proprietary research and PAIs to ensure that sustainable investments did not cause significant harm to any environmental or social sustainable investment objective.

The Investment Manager's PAI tool used data from multiple sources (external third-parties such as, but not limited to, MSCI ESG, ISS, World Bank, BloombergNEF, S&P Trucost, Transition Pathway Initiative, NGOs, and academic institutions) which, together with its proprietary research, helped to identify issuers that demonstrated weak sustainability attributes/adverse impacts as measured by the reference to PAI indicators. This enabled the Investment Manager to invest in issuers which aligned with the PAI indicators while avoiding issuers which did not. As part of the Fund's investment in green, social, sustainable and sustainability-linked bonds, the Investment Manager applied this approach to determine whether a bond met sustainability criteria.

Additionally, sovereign issuers were subjected to tests based on their political liberties and/or corruption.

When deploying funds to sustainable investments, especially the minimum 1% of portfolio of the Fund committed towards environmental objectives, where relevant, the Investment Manager utilised additional qualitative assessment (based on internal research or on external third-party opinion) of the issuers and of the projects "do no significant harm" eligibility.

Further, a number of exclusions were applied to the Fund to preclude issuers that may cause significant harm, as detailed further below.

--How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager developed a proprietary PAI tool which took into account material PAIs and which helped measure the Fund's alignment with respect to PAI indicators that were deemed to be material to the Fund. The PAI tool identified issuers that lagged their peers with respect to their PAIs and allowed the Investment Manager to assess the Fund's exposure to PAIs compared to its benchmark.

PAIs served as a useful barometer to gauge which issuers to seek to invest in. More specifically, PAI #3 was utilised for assessment of corporate GHG intensity and PAI #15 for sovereign GHG intensity respectively; PAI #10 was utilised to identify issuers that fail as per UNGC Principles and OECD Guidelines; and PAI #14 was utilised to identify issuers that fail controversial weapons screens across the whole Fund compared to those in the investable universe. In addition to the PAI components, the PAI tool also encompassed assessment of investee countries that were deemed ineligible based on the Investment Manager's own assessment and third-party data. As a result of the comprehensive nature of data points incorporated, the PAI tool supported identification of actions taken with respect to issuers, including, but not limited to engagements and divestments.

While the Fund did not commit to having a PAI average better than its benchmark, the difference between the two metrics helped to inform how successful the Fund was at managing adverse impacts.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund adhered to explicit guidelines which excluded issuers that failed as per UNGC Principles and OECD Guidelines. The Investment Manager's engagement with issuers was built on the principles of UNGC Principles and OECD Guidelines. Issuers that were deemed to fail as per UNGC Principles and OECD Guidelines were added to the Investment Manager's ESG Red List which was then utilised to exclude issuers from being an eligible investment in the Fund. Where relevant, the Investment Manager sought to engage with issuers where it had concerns, which may or may not have explicitly failed as per the underlying guidelines.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The manner in which PAIs were considered and taken into account is set out in further detail above.

PAI indicators	Value	Coverage
GHG Intensity USD	67.50	88.80%
GHG Intensity of investee countries USD	231.40	100.00%
Violations of UNGC principles and OECD Guidelines	0.00%	87.00%
Exposure to controversial weapons	0.00%	87.00%

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2022-01-01 - 2022-12-31.

What were the top investments of this financial product?

The top investments of this Fund, excluding cash and derivatives, were:

Top investments	Sector	Proportion	Country
UNITED STATES OF AMERICA	Government bonds	9.18%	United States

What was the proportion of sustainability-related investments?

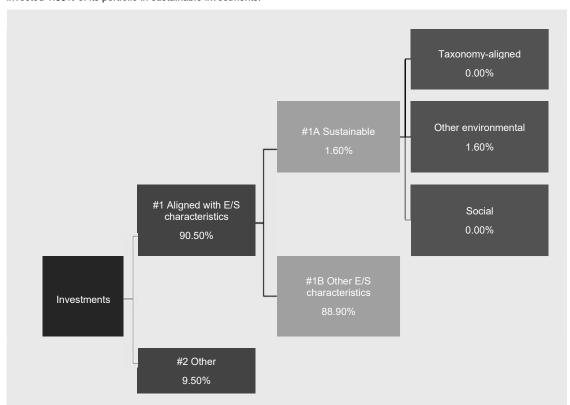

The proportion of sustainability-related investments was 1.60%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

90.45% of the Fund was aligned with the E/S characteristics promoted by the Fund. The remaining portion (9.55%) was not aligned with the promoted characteristics and consisted primarily of liquid assets or issuers without an ESG rating.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 1.60% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

E	1999

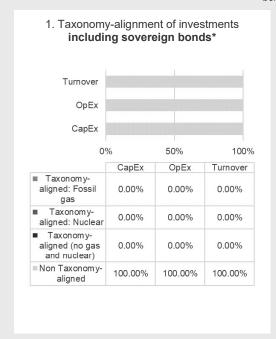

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

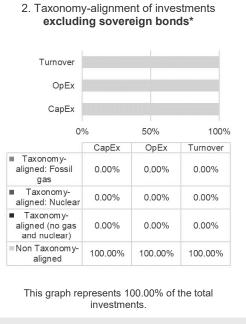

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

	Yes		
	□ In fossil gas	☐ In nuclear energy	
\boxtimes	No		

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

^{*} For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

In line with its investment strategy, namely, the Fund's commitment to make a minimum proportion 'sustainable investments' with an environmental objective as per the SFDR art. 2(17) that do not qualify as environmentally sustainable under the EU Taxonomy Regulation, 1,60% of the Fund was comprised of 'sustainable investments' with an environmental objective that do not qualify as environmentally sustainable under the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under '#2 Other' was 9.55% and included cash and derivatives or issuers without an ESG rating for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Western Asset believes that ESG factors can affect the creditworthiness of fixed-income issuers' securities and therefore impact the performance of fixed-income investment portfolios. These factors are wholly consistent with the Firm's long-term, fundamental value-oriented investment philosophy. Western Asset's research analysts were responsible for providing fundamental analysis at the industry and issuer levels and for opining on industry and issuer risk/reward characteristics by incorporating material ESG considerations. Supported by this broader approach, the Fund aimed to meet its environmental and social characteristics by seeking to invest in issuers such that the overall portfolio met minimum ESG ratings, achieved its decarbonisation and SDG alignment, as well as avoided issuers which were identified through application of SRI exclusions, allocated to sectors and invested in issuers targeting.

In order to meet the environmental and/or social characteristics during the reference period, the Fund:

A. The Fund sought an average MSCI ESG rating of BBB or better.

- B. The Fund will sought an overall Weighted Average Carbon Intensity ("WACI") that is at least 20% below the benchmark. This helped the Fund align with PAI #3 and PAI #15 (GHG Intensity).
- C. The Fund sough to align, better than the Benchmark, with regards to investments in securities of issuers whose activities contribute to at least 1 of 8 selected SDGs.
- D . The Fund excluded issuers that fail on a range of SRI goals such as outlined below:
- a. Issuers deriving over 5% of revenue from tobacco production and/or distribution and from the production of nuclear weapons;
- b. Issuers deriving over 10% of revenue from civilian firearms (manufacture or supply), conventional weapons or thermal coal mining (production or distribution):
- c. Issuers that manufacture controversial weapons (anti-personnel landmines, biochemical weapons, blinding laser weapons, depleted uranium, incendiary weapons, and non-detectable fragments), own a controversial weapons company, or are owned by a controversial weapons company, aligning with PAI indicator #14 (Controversial Weapons);
- d. Issuers that 'Fail' UNGC and OECD principles based on internal research which seeks to identify gaps in issuers meeting their goals, aligning with PAI indicator #10 (Social and Employee Matters);

As part of the minimum 1% investment in sustainable investments (defined to be green, social, sustainable and sustainability-linked bonds), the Fund had 1.6 % invested by market value % as of 31st December 2022.

The Fund promoted environmental and/or sustainable by demonstrated guidelines above as highlighted below:

- A. The Fund was rated A as per MSCI ESG.
- B. The Fund's overall WACI was 79.5% of the benchmark.
- C. The Fund's allocation to issuers and issues aligned with SDGs was 21.1% vs 14.6% for the benchmark.
- D. The Fund had 1.6% invested by MV% as of 31st December 2022.
- E. The Fund did not hold any issuers that were in breach of SRI guidelines.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not applicable

Entity LEI: 549300XEBUFPR86JA985

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective?				
•• □ YES	●○ ⊠ NO			
☐ It made sustainable investments with an environmental objective:%	□ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 8.80% of sustainable investments			
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy			
in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy			
☐ It made sustainable investments with a social objective:%	☐ with a social objective ☐ It promoted E/S characteristics, but did not make any sustainable investments			

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social characteristics:

- alignment with one or more UN Sustainable Development Goals ("SDGs") compared to the Fund's benchmark through investment in green, social, sustainable and sustainability-linked bonds and through best-in-class investments;
- alignment with the following PAI indicators:
 - GHG Intensity (PAI #3 and PAI #15);
 - Social and Employee Matters (PAI #10); and
 - Controversial Weapons (PAI #14).

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- The PAI indicators mentioned in the answer above. Please refer to the values displayed in the section "How did
 this financial product consider principal adverse impacts on sustainability factors?" which represent the
 performance of the indicators during the reference period.
- the allocation to green, social, sustainable and sustainability-linked bonds was at 8.80%.

… And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The Fund's sustainable investments were in green, social, sustainable and sustainability-linked bonds which were achieved through a minimum allocation to issuers aligned with the SDGs compared to the Fund's benchmark and issuers that met best-in-class thresholds set by the Investment Manager. Such bonds had sustainability-linked KPIs, or had proceeds which were used for projects which included, but were not limited to:

- Green Projects: renewable energy, energy efficiency, pollution prevention and control, environmentally sustainable
 management of living natural resources and land use, biodiversity, clean transportation, sustainable water and
 wastewater management, climate change adaptation, circular economy and green buildings; and
- Social Projects: affordable housing, affordable infrastructure (clean drinking water, sanitation), employment
 programmes and socio-economic advancement such as, but not restricted to, education, diversity, equality and
 inclusion to name a few.

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used proprietary research and PAIs to ensure that sustainable investments did not cause significant harm to any environmental or social sustainable investment objective.

The Investment Manager's PAI tool used data from multiple sources (external third-parties such as, but not limited to, MSCI ESG, ISS, World Bank, BloombergNEF, S&P Trucost, Transition Pathway Initiative, NGOs, and academic institutions) which, together with its proprietary research, helped to identify issuers that demonstrated weak sustainability attributes/adverse impacts as measured by the reference to PAI indicators. This enabled the Investment Manager to invest in issuers which aligned with the PAI indicators while avoiding issuers which did not. As part of the Fund's investment in green, social, sustainable and sustainability-linked bonds, the Investment Manager applied this approach to determine whether a bond met sustainability criteria.

Additionally, sovereign issuers were subjected to tests based on their political liberties and/or corruption.

When deploying funds to sustainable investments, especially the minimum 1% of portfolio of the Fund committed towards environmental objectives, where relevant, the Investment Manager utilised additional qualitative assessment (based on internal research or on external third-party opinion) of the issuers and of the projects "do no significant harm" eligibility.

Further, a number of exclusions were applied to the Fund to preclude issuers that may cause significant harm, as detailed further below

--How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager developed a proprietary PAI tool which took into account material PAIs and which helped measure the Fund's alignment with respect to PAI indicators that were deemed to be material to the Fund. The PAI tool identified issuers that lagged their peers with respect to their PAIs and allowed the Investment Manager to assess the Fund's exposure to PAIs compared to its benchmark.

PAIs served as a useful barometer to gauge which issuers to seek to invest in. More specifically, PAI #3 was utilised for assessment of corporate GHG intensity and PAI #15 for sovereign GHG intensity respectively; PAI #10 was utilised to identify issuers that fail as per UNGC Principles and OECD Guidelines; and PAI #14 was utilised to identify issuers that fail controversial weapons screens across the whole Fund compared to those in the investable universe. In addition to the PAI components, the PAI tool also encompassed assessment of investee countries that were deemed ineligible based on the Investment Manager's own assessment and third-party data. As a result of the comprehensive nature of data points incorporated, the PAI tool supported identification of actions taken with respect to issuers, including, but not limited to engagements and divestments.

While the Fund did not commit to having a PAI average better than its benchmark, the difference between the two metrics helped to inform how successful the Fund was at managing adverse impacts.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund adhered to explicit guidelines which excluded issuers that failed as per UNGC Principles and OECD Guidelines. The Investment Manager's engagement with issuers was built on the principles of UNGC Principles and OECD Guidelines. Issuers that were deemed to fail as per UNGC Principles and OECD Guidelines were added to the Investment Manager's ESG Red List which was then utilised to exclude issuers from being an eligible investment in the Fund. Where relevant, the Investment Manager sought to engage with issuers where it had concerns, which may or may not have explicitly failed as per the underlying guidelines.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The manner in which PAIs were considered and taken into account is set out in further detail above.

PAI indicators	Value	Coverage
GHG Intensity USD	67.60	95.50%
GHG Intensity of investee countries USD	159.20	100.00%
Violations of UNGC principles and OECD Guidelines	0.00%	95.00%
Exposure to controversial weapons	0.00%	95.00%

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2022-01-01 - 2022-12-31.

What were the top investments of this financial product?

The top investments of this Fund, excluding cash and derivatives, were:

Top investments	Sector	Proportion	Country
UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND	Government bonds	2.01%	United Kingdom
EUROPEAN INVESTMENT BANK	Government bonds	1.85%	Supranational

What was the proportion of sustainability-related investments?

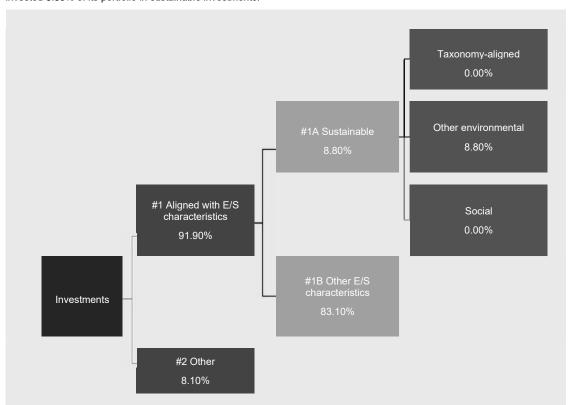

The proportion of sustainability-related investments was 8.80%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

91.90% of the Fund was aligned with the E/S characteristics promoted by the Fund. The remaining portion (8.10%) was not aligned with the promoted characteristics and primarily consisted of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 8.80% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Top sector	Proportion
Financials	46.01%
Real Estate	11.39%
Government bonds	9.37%

Water Utilities	1.48%
Cash Equivalents	1.48%
Hotels Restaurants & Leisure	1.41%
Mortgage Real Estate Investment Trust	1.40%
Media	1.35%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

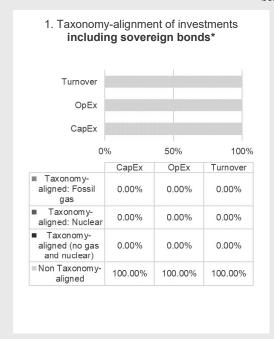

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

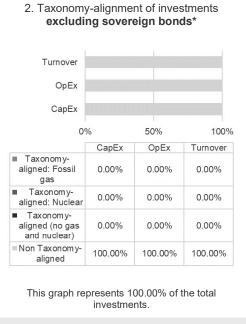

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

	Yes		
	□ In fossil gas	□ In nuclear energy	
×	No		

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

^{*} For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

In line with its investment strategy, namely, the Fund's commitment to make a minimum proportion 'sustainable investments' with an environmental objective as per the SFDR art. 2(17) that do not qualify as environmentally sustainable under the EU Taxonomy Regulation, 8.80% of the Fund was comprised of 'sustainable investments' with an environmental objective that do not qualify as environmentally sustainable under the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under '#2 Other' was 8.10% and included cash and derivatives or issuers without an ESG rating for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Western Asset believes that ESG factors can affect the creditworthiness of fixed-income issuers' securities and therefore impact the performance of fixed-income investment portfolios. These factors are wholly consistent with the Firm's long-term, fundamental value-oriented investment philosophy. Western Asset's research analysts were responsible for providing fundamental analysis at the industry and issuer levels and for opining on industry and issuer risk/reward characteristics by incorporating material ESG considerations. Supported by this broader approach, the Fund aimed to meet its environmental and social characteristics by seeking to invest in issuers such that the overall portfolio met minimum ESG ratings, achieved its decarbonisation and SDG alignment, as well as avoided issuers which were identified through application of SRI exclusions, allocated to sectors and invested in issuers targeting.

In order to meet the environmental and/or social characteristics during the reference period:

- A. The Fund sought an average MSCI ESG rating of BBB or better;
- B. The Fund sought an overall Weighted Average Carbon Intensity ("WACI") that was at least 20% below the benchmark;
- C. The Fund sought to align, better than the Benchmark, with regards to investments in securities of issuers whose activities contribute to at least 1 of 8 selected SDGs.
- D. The Fund excludes issuers that fail on a range of SRI goals such as outlined below:
 - Issuers that did not follow good governance practices, as determined by Western Asset.
 - Issuers deriving over 5% of revenue from tobacco production and/or distribution and from the production of nuclear weapons.
 - Issuers deriving over 10% of revenue from civilian firearms (manufacturing/ supply), involvement in conventional weapons, thermal coal mining (production/distribution).

As part of the minimum 1% investment in sustainable investments (defined to be green, social, sustainable and sustainability-linked bonds), the Fund had 8.8% invested by market value % as of 31st December 2022.

The Fund promoted environmental and/or sustainable by demonstrated guidelines above as highlighted below:

- A. The Fund was rated AA as per MSCI ESG.
- B. The Fund's overall WACI was 73.2% of the benchmark.
- C. The Fund's allocation to issuers and issues aligned with SDGs was 63.7% vs 50.9% for the benchmark.
- D. The Fund had 8.8% invested by market value % in sustainable investments as of 31st December 2022.
- E. The Fund did not hold any issuers that were in breach of SRI guidelines.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social characteristics:

- alignment with one or more UN Sustainable Development Goals ("SDGs") compared to the Fund's benchmark through investment in green, social, sustainable and sustainability-linked bonds and through best-in-class investments;
- alignment with the following PAI indicators:
 - GHG Intensity (PAI #3 and PAI #15);
 - Social and Employee Matters (PAI #10);
 - Controversial Weapons (PAI #14); and
 - o Investee Countries subject to Social Violations (PAI #16).

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the fund were:

- The PAI indicators mentioned in the answer above. Please refer to the values displayed in the section "How did
 this financial product consider principal adverse impacts on sustainability factors?" which represent the
 performance of the indicators during the reference period.
- the allocation to green, social, sustainable and sustainability-linked bonds was at 6.90%.

… And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The Fund's sustainable investments were in green, social, sustainable and sustainability-linked bonds which were achieved through a minimum allocation to issuers aligned with the SDGs compared to the Fund's benchmark and issuers that met best-in-class thresholds set by the Investment Manager. Such bonds had sustainability-linked KPIs, or had proceeds which were used for projects which included, but were not limited to:

- Green Projects: renewable energy, energy efficiency, pollution prevention and control, environmentally sustainable
 management of living natural resources and land use, biodiversity, clean transportation, sustainable water and
 wastewater management, climate change adaptation, circular economy and green buildings; and
- Social Projects: affordable housing, affordable infrastructure (clean drinking water, sanitation), employment
 programmes and socio-economic advancement such as, but not restricted to, education, diversity, equality and
 inclusion to name a few.

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used proprietary research and PAIs to ensure that sustainable investments did not cause significant harm to any environmental or social sustainable investment objective.

The Investment Manager's PAI tool used data from multiple sources (external third-parties such as, but not limited to, MSCI ESG, ISS, World Bank, BloombergNEF, S&P Trucost, Transition Pathway Initiative, NGOs, and academic institutions) which, together with its proprietary research, helped to identify issuers that demonstrated weak sustainability attributes/adverse impacts as measured by the reference to PAI indicators. This enabled the Investment Manager to invest in issuers which aligned with the PAI indicators while avoiding issuers which did not. As part of the Fund's investment in green, social, sustainable and sustainability-linked bonds, the Investment Manager applied this approach to determine whether a bond met sustainability criteria.

Additionally, sovereign issuers were subjected to tests based on their political liberties and/or corruption.

When deploying funds to sustainable investments, especially the minimum 1% of portfolio of the Fund committed towards environmental objectives, where relevant, the Investment Manager utilised additional qualitative assessment (based on internal research or on external third-party opinion) of the issuers and of the projects "do no significant harm" eligibility.

Further, a number of exclusions were applied to the Fund to preclude issuers that may cause significant harm, as detailed further below

--How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager developed a proprietary PAI tool which took into account material PAIs and which helped measure the Fund's alignment with respect to PAI indicators that were deemed to be material to the Fund. The PAI tool identified issuers that lagged their peers with respect to their PAIs and allowed the Investment Manager to assess the Fund's exposure to PAIs compared to its benchmark.

PAIs served as a useful barometer to gauge which issuers to seek to invest in. More specifically, PAI #3 was utilised for assessment of corporate GHG intensity and PAI #15 for sovereign GHG intensity, respectively; PAI #10 was utilised to identify issuers that fail as per UNGC Principles and OECD Guidelines; PAI #14 was utilised to identify issuers that fail on controversial weapons screens across the whole Fund compared to those in the investable universe; and PAI #16 was utilised to identify investee countries that fail at being designated as free by the Freedom House. As a result of the comprehensive nature of data points incorporated, the PAI tool supported identification of actions taken with respect to issuers, including, but not limited to engagements and divestments.

While the Fund did not commit to having a PAI average better than its benchmark, the difference between the two metrics helped to inform how successful the Fund was in managing adverse impacts.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund adhered to explicit guidelines which excluded issuers that failed as per UNGC Principles and OECD Guidelines. The Investment Manager's engagement with issuers was built on the principles of UNGC Principles and OECD Guidelines. Issuers that were deemed to fail as per UNGC Principles and OECD Guidelines were added to the Investment Manager's ESG Red List which was then utilised to exclude issuers from being an eligible investment in the Fund. Where relevant, the Investment Manager sought to engage with issuers where it had concerns, which may or may not have explicitly failed as per the underlying guidelines.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. What was the proportion of sustainability-related investments?

The proportion of sustainability-related investments was 6.90%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

96.50% of the Fund was aligned with the E/S characteristics promoted by the Fund. The remaining portion (3.50%) was not aligned with the promoted characteristics and consisted primarily of liquid assets or issuers which did not have an ESG rating.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 6.90% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Top sector	Proportion
Financials	40.83%
Energy	9.73%
Communication Services	6.99%
Industrials	6.78%
Consumer Discretionary	6.60%
Health Care	6.17%

Materials	2.43%
Real Estate	1.75%
Consumer Staples	1.35%
Municipal bonds	0.76%

Top sub-sector	Proportion
Banks	22.27%
Capital Markets	9.52%
Oil Gas & Consumable Fuels	9.18%
Financial Services	6.01%
Government Bonds	4.76%
Health Care Providers & Services	3.95%
Airlines	3.33%
Electric Utilities	3.17%
Diversified Telecommunication Services	2.93%
Hotels Restaurants & Leisure	2.30%
Metals & Mining	2.27%
Media	2.27%
Automobiles	2.10%
Insurance	1.90%
Biotechnology	1.41%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

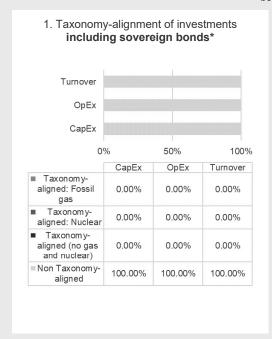

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

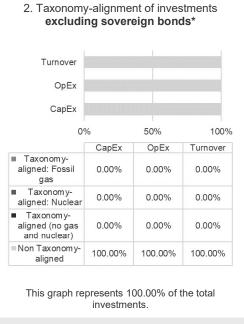

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

П	Yes	
□ In f	☐ In fossil gas	□ In nuclear energy
\boxtimes	No	

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

^{*} For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

In line with its investment strategy, namely, the Fund's commitment to make a minimum proportion 'sustainable investments' with an environmental objective as per the SFDR art. 2(17) that do not qualify as environmentally sustainable under the EU Taxonomy Regulation, 6.90% of the Fund was comprised of 'sustainable investments' with an environmental objective that do not qualify as environmentally sustainable under the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under '#2 Other' was 3.50% and included cash and derivatives or issuers without an ESG rating for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Western Asset believes that ESG factors can affect the creditworthiness of fixed-income issuers' securities and therefore impact the performance of fixed-income investment portfolios. These factors are wholly consistent with the Firm's long-term, fundamental value-oriented investment philosophy. Western Asset's research analysts are responsible for providing fundamental analysis at the industry and issuer levels and for opining on industry and issuer risk/reward characteristics by incorporating material ESG considerations. Supported by this broader approach, the Fund aimed to meet its environmental and social characteristics by seeking to invest in issuers such that the overall portfolio met minimum ESG ratings, achieved its decarbonisation and SDG alignment, as well as avoided issuers which were identified through application of SRI exclusions, allocated to sectors and invested in issuers targeting.

In order to meet the environmental and/or social characteristics during the reference period, the Fund:

A. The Fund will seek an average MSCI ESG rating of BBB or better.

- B. The Fund will seek an overall Weighted Average Carbon Intensity ("WACI") that is at least 20% below the benchmark. This helped the Fund align with PAI #3 and PAI #15 (GHG Intensity).
- C. The Fund will seek to align, better than the Benchmark, with regards to investments in securities of issuers whose activities contribute to at least 1 of 8 selected SDGs.
- D. The Fund excludes issuers that failed on a range of SRI goals such as outlined below:
- a. Issuers deriving over 5% of revenue from tobacco production and/or distribution and from the production of nuclear weapons;
- b. Issuers deriving over 10% of revenue from civilian firearms (manufacture or supply), conventional weapons or thermal coal mining (production or distribution);
- c. Issuers that manufacture controversial weapons (anti-personnel landmines, biochemical weapons, blinding laser weapons, depleted uranium, incendiary weapons, and non-detectable fragments), own a controversial weapons company, or are owned by a controversial weapons company, aligning with PAI indicator #14 (Controversial Weapons);
- d. Issuers that 'Fail' UNGC and OECD principles based on internal research which seeks to identify gaps in issuers meeting their goals, aligning with PAI indicator #10 (Social and Employee Matters);
- e. State and/or sovereign issuers that fail to be designated as "free" by the Freedom House Index, aligning with PAI indicator #16 (Investee Countries subject to Social Violations).

As part of the minimum 1% investment in sustainable investments (defined to be green, social, sustainable and sustainability-linked bonds), the Fund had 6.9% invested by market % as of 31st December 2022.

The Fund promoted environmental and/or sustainable by demonstrated guidelines above as highlighted below:

- A. The Fund was rated A as per MSCI ESG.
- B. The Fund's overall WACI was 69.1% of the benchmark.
- C. The Fund's allocation to issuers and issues aligned with SDGs was 59.8% vs 61.8 for the benchmark.
- D. The Fund had 6.9% invested by market value % as of 31st December 2022.
- E. The Fund did not hold any issuers that were in breach of SRI guidelines.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not applicable

FTGF Western Asset Sustainable Global Corporate Bond Fund

Entity LEI: 254900H2PG4695EB6Y14

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? ☐ YES \bowtie NO promoted Environmental/Social ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: ___% objective a sustainable investment, it had a proportion of 8.38% of sustainable investments in economic activities that qualify as with an environmental objective in economic environmentally sustainable under the EU activities that qualify as environmentally sustainable under the EU Taxonomy in economic activities that do not qualify as with an environmental objective in economic activities that do not qualify as environmentally environmentally sustainable under the EU sustainable under the EU Taxonomy Taxonomy with a social objective ☐ It promoted E/S characteristics, but did not make ☐ It made sustainable investments with a social objective: % any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social characteristics:

- alignment with one or more UN Sustainable Development Goals ("SDGs") compared to the Fund's benchmark through investment in green, social, sustainable and sustainability-linked bonds and through best-in-class investments;
- alignment with the following PAI indicators:
 - GHG Intensity (PAI #3 and PAI #15);
 - Social and Employee Matters (PAI #10);
 - Controversial Weapons (PAI #14); and
 - Investee Countries subject to Social Violations (PAI #16).

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the fund were:

- The PAI indicators mentioned in the answer above. Please refer to the values displayed in the section "How did
 this financial product consider principal adverse impacts on sustainability factors?" which represent the
 performance of the indicators during the reference period.
- the allocation to green, social, sustainable and sustainability-linked bonds was at 8.38%.

… And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The Fund's sustainable investments were in green, social, sustainable and sustainability-linked bonds which were achieved through a minimum allocation to issuers aligned with the SDGs compared to the Fund's benchmark and issuers that met best-in-class thresholds. The proceeds of such bonds were used for projects, or had sustainability-linked KPIs, including, but not limited to:

- Green Projects: renewable energy, energy efficiency, pollution prevention and control, environmentally sustainable management of living natural resources and land use, biodiversity, clean transportation, sustainable water and wastewater management, climate change adaptation, circular economy and green buildings; and
- Social Projects: affordable housing, affordable infrastructure (clean drinking water, sanitation), employment
 programmes and socio-economic advancement such as, but not restricted to, education, diversity, equality and
 inclusion to name a few.

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used proprietary research and PAIs to ensure that sustainable investments did not cause significant harm to any environmental or social sustainable investment objective.

The Investment Manager's PAI tool used data from multiple sources (external third-parties such as, but not limited to, MSCI ESG, ISS, World Bank, BloombergNEF, S&P Trucost, Transition Pathway Initiative, NGOs, and academic institutions) which, together with its proprietary research, helped to identify issuers that demonstrated weak sustainability attributes/adverse impacts as measured by the reference to PAI indicators. This enabled the Investment Manager to invest in issuers which aligned with the PAI indicators while avoiding issuers which did not. As part of the Fund's investment in green, social, sustainable and sustainability-linked bonds, the Investment Manager applied this approach to determine whether a bond met sustainability criteria.

Additionally, sovereign issuers were subjected to tests based on their political liberties and/or corruption.

When deploying funds to sustainable investments, especially the minimum 1% of portfolio of the Fund committed towards environmental objectives, where relevant, the Investment Manager utilised additional qualitative assessment (based on internal research or on external third-party opinion) of the issuers and of the projects "do no significant harm" eligibility.

Further, a number of exclusions were applied to the Fund to preclude issuers that may cause significant harm, as detailed further below

--How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager developed a proprietary PAI tool which took into account material PAIs and which helped measure the Fund's alignment with respect to PAI indicators that were deemed to be material to the Fund. The PAI tool identified issuers that lagged their peers with respect to their PAIs and allowed the Investment Manager to assess the Fund's exposure to PAIs compared to its benchmark.

PAIs served as a useful barometer to gauge which issuers to seek to invest in. More specifically, PAI #3 was utilised for assessment of corporate GHG intensity and PAI #15 for sovereign GHG intensity, respectively; PAI #10 was utilised to identify issuers that fail as per UNGC Principles and OECD Guidelines; PAI #14 was utilised to identify issuers that fail on controversial weapons screens across the whole Fund compared to those in the investable universe; and PAI #16 was utilised to identify investee countries that fail at being designated as free by the Freedom House. As a result of the comprehensive nature of data points incorporated, the PAI tool supported identification of actions taken with respect to issuers, including, but not limited to engagements and divestments.

While the Fund did not commit to having a PAI average better than its benchmark, the difference between the two metrics helped to inform how successful the Fund was in managing adverse impacts.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund adhered to explicit guidelines which excluded issuers that failed as per UNGC Principles and OECD Guidelines. The Investment Manager's engagement with issuers was built on the principles of UNGC Principles and OECD Guidelines. Issuers that were deemed to fail as per UNGC Principles and OECD Guidelines were added to the Investment Manager's ESG Red List which was then utilised to exclude issuers from being an eligible investment in the Fund. Where relevant, the Investment Manager sought to engage with issuers where it had concerns, which may or may not have explicitly failed as per the underlying guidelines.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The manner in which PAIs were considered and taken into account is set out in further detail above.

PAI indicators	Value	Coverage
GHG Intensity USD	136.80	98.10%
GHG Intensity of investee countries USD	192.50	100.00%
Violations of UNGC principles and OECD Guidelines	0.00%	98.00%
Exposure to controversial weapons	0.00%	98.00%
Investee countries subject to social violations	0.00	100.00%

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2022-01-01 - 2022-12-31.

What were the top investments of this financial product?

The top investments of this Fund, excluding cash and derivatives, were:

Top investments	Sector	Proportion	Country
UBS GROUP AG	Financials	2.32%	Switzerland
DANSKE BANK AS	Financials	2.25%	Denmark

What was the proportion of sustainability-related investments?

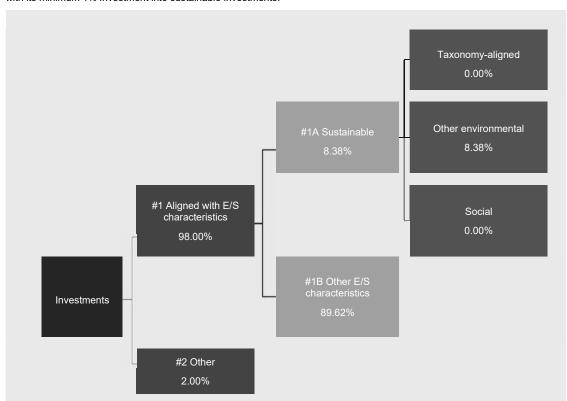

The proportion of sustainability-related investments was 8.38%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

98.00% of the Fund was aligned with the E/S characteristics promoted by the Fund. The remaining portion (2.00%) was not aligned with the promoted characteristics and consisted primarily of liquid assets or of issuers for which no ESG rating was available.

Out of the Fund's segment which was aligned with the promoted environmental and/or social characteristics, the Fund complied with its minimum 1% investment into sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

w		Ľ	=	N

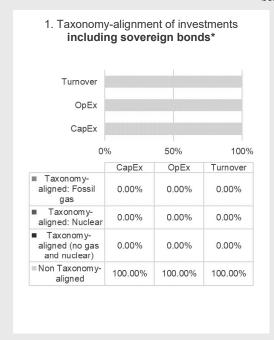

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

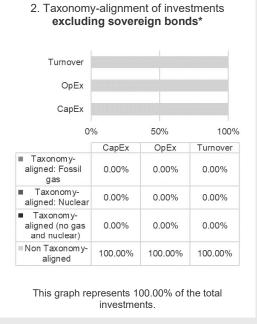

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

П	Yes	
Ц	□ In fossil gas	□ In nuclear energy
\boxtimes	No	

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

In line with its investment strategy, namely, the Fund's commitment to make a minimum proportion 'sustainable investments' with an environmental objective as per the SFDR art. 2(17) that do not qualify as environmentally sustainable under the EU Taxonomy Regulation, 8.38% of the Fund was comprised of 'sustainable investments' with an environmental objective that do not qualify as environmentally sustainable under the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under '#2 Other' was 2.00% and included cash and derivatives for which there were no minimum environmental or social safeguards. This also included issuers for which no ESG rating was available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Western Asset believes that ESG factors can affect the creditworthiness of fixed-income issuers' securities and therefore impact the performance of fixed-income investment portfolios. These factors are wholly consistent with the Firm's long-term, fundamental value-oriented investment philosophy. Western Asset's research analysts were responsible for providing fundamental analysis at the industry and issuer levels and for opining on industry and issuer risk/reward characteristics by incorporating material ESG considerations. Supported by this broader approach, the Fund aimed to meet its environmental and social characteristics by seeking to invest in issuers such that the overall portfolio met minimum ESG ratings, achieved its decarbonisation and SDG alignment, as well as avoided issuers which were identified through application of SRI exclusions, allocated to sectors and invested in issuers targeting.

In order to meet the environmental and/or social characteristics during the reference period:

A. The Fund sought an average MSCI ESG rating of BBB or better – The Fund was rated AA.

- B. The Fund sought an overall Weighted Average Carbon Intensity ("WACI") that was at least 20% below the benchmark The Fund's overall WACI was 62.9% of the benchmark. This helped the Fund align with PAI #3 and PAI #15 (GHG Intensity).
- C. The Fund sought to align, better than the Benchmark, with regards to investments in securities of issuers whose activities contributed to at least 1 of 8 selected SDGs The Fund's allocation to issuers and issues aligned with SDGs was 68.2% vs 68.4% for the benchmark.
- D. The Fund excluded issuers that failed on a range of SRI goals such as outlined below:
- a. Issuers deriving over 5% of revenue from tobacco production and/or distribution and from the production of nuclear weapons;
- b. Issuers deriving over 10% of revenue from civilian firearms (manufacture or supply), conventional weapons or thermal coal mining (production or distribution);
- c. Issuers that manufacture controversial weapons (anti-personnel landmines, biochemical weapons, blinding laser weapons, depleted uranium, incendiary weapons, and non-detectable fragments), own a controversial weapons company, or are owned by a controversial weapons company, aligning with PAI indicator #14 (Controversial Weapons);
- d. Issuers that 'Fail' UNGC and OECD principles based on internal research which seeks to identify gaps in issuers meeting their goals, aligning with PAI indicator #10 (Social and Employee Matters) and
- e. State and/or sovereign issuers that fail to be designated as "free" by the Freedom House Index, aligning with PAI indicator #16 (Investee Countries subject to Social Violations);.

The Fund did not own any issuer that was in breach of the aforementioned guidelines.

F. As part of the minimum 1% investment in sustainable investments (defined to be green, social, sustainable and sustainability-linked bonds), the Fund had 8.4% invested by market value percent as of 31st December 2022.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable

FTGF Brandywine Global Fixed Income Fund

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective?		
• U YES	● NO	
☐ It made sustainable investments with an environmental objective:%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 0.00% of sustainable investments	
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy	
in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	
	□ with a social objective	
☐ It made sustainable investments with a social objective:%	☑ It promoted E/S characteristics, but did not make any sustainable investments	

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Not every environmental and/or social characteristic listed below was promoted by each investment or by the Fund at any one time.

The environmental characteristics promoted were:

- Air Quality
- Biodiversity and Protected Areas (Marine)
- Biodiversity and Protected Areas (Terrestrial)
- Climate Change Adaptive Capacity
- Climate Change Exposure
- Climate Change Sensitivity
- Climate Change Vulnerability
- CO2 Emissions from Energy Use
- CO2 Emissions from Land Use Change and Forestry
- Carbon Policy Sovereign
- Dependence on Fossil Fuel Exports
- Deforestation
- Drought Hazard
- Energy Security
- Environmental Pressure
- Total Greenhouse Gas (GHG) Emissions
- GHG Emissions Reduction: Progress Towards Targets
- Low Carbon Economy
- Resource Security
- Waste Management
- Water Pollution
- Water Security

The social characteristics promoted were:

- Access to Remedy Risk
- Child Labour
- Civil Unrest

- Discrimination in the Workplace
- Decent Wages
- Education
- Freedom of Association and Collective Bargaining

- Freedom of Association and Food Security Healthcare Capacity Human Capital Indigenous Peoples' Rights Informal Workforce Migrant Workers Minority Rights

- Modern Slavery
 Occupational Health and Safety
- Poverty
- Sexual Minorities
- Working-Age Population Trends Women's and Girls' Rights
- Young Workers

Issuers in the lowest scoring 10% (the bottom decile) were excluded from the investable universe during the reporting period.

Issuers in 10-20% worst scoring (2nd lowest decile) were treated as engagement candidates during the reporting period.

Derivative instruments were not used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of the environmental or social characteristics promoted by the Fund were:

- A. Specific Inputs into the ESG scoring methodology employed by the Investment Manager which aligned with the environmental or social characteristics by the Fund. These inputs derived from:
- 1. The application of the ESG exclusions.

The Fund commits to excluding issuers in the lowest scoring decile of the investment universe. No divestments were made as no holdings fell into the bottom decile. The bottom decile remained excluded.

- 2. The Fund treats those issuers scoring in the second lowest decile as engagement candidates. As a result, the following engagements were conducted: Malaysia.
- B. Tracking of the mandatory Principle Adverse Impact (PAI) indicators. Please, refer to the values displayed under the section "How did this financial product consider principal adverse impacts on sustainability factors?"

... And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

Not applicable. The Fund does not commit to have sustainable investments.

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-

bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable. The Fund does not commit to have sustainable investments.

-How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Fund does not commit to have sustainable investments.

_Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Fund does not commit to have sustainable investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Mandatory PAIs for sovereigns were tracked, measured, and reported; the Investment Manager also used changes in PAIs and related KPIs to assess opportunity for and realized improvement, which informed investments and position sizes. The Investment Manager assessed "do not significant harm" thresholds on fundamental, sector/industry, country, and portfolio levels to make investment decisions. The two sovereign PAIs (PAI #15 (GHG intensity) and PAI #16 (Investee countries subject to social violations)) were included in the Investment Manager's proprietary ESG scoring methodology.

PAI indicators	Value	Coverage
GHG Intensity of investee countries USD	488.87	86.14%
Investee countries subject to social violations	0.00	86.14%

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2022-01-01 - 2022-12-31.

What were the top investments of this financial product?

The top investments of this Fund, excluding cash and derivatives, were:

What was the proportion of sustainability-related investments?

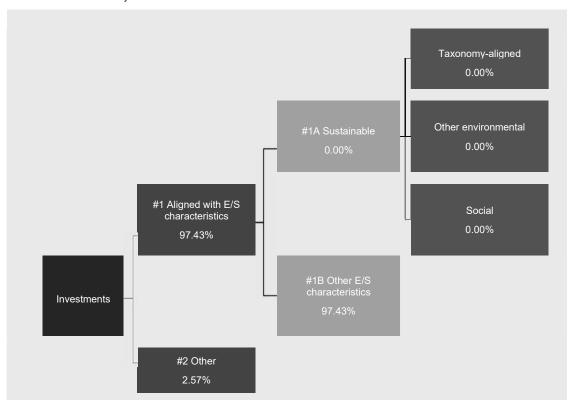

The proportion of sustainability-related investments was 0%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 97.43% of the portfolio was aligned with the E/S characteristics promoted by the Fund. The remaining portion (2.57%) was not aligned with the promoted characteristics and primarily consisted of liquid assets.

The Fund did not make any sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Top sector	Proportion
Government bonds	96.35%
Derivatives	0.89%

Top sub-sector	Proportion
SOVEREIGN	84.56%
SUPRANATIONAL BANK	9.14%
REGIONAL AGENCIES	2.65%
DERVIS	0.89%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

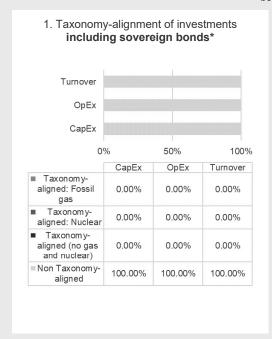

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

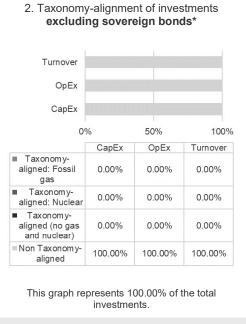

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

П	Yes		
	☐ In fossil gas	□ In	nuclear energy
\boxtimes	No		

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

0% of the Fund's investments were in sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

0% of the Fund's investments were in socially sustainable investments.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under "#2 Other" was 2.57% and comprised of cash held on deposit and derivative instruments used for hedging and derivatives for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- 1. The fund commits to excluding issuers in the lowest scoring decile of the investment universe. No divestments were made as no holdings fell into the bottom decile. The bottom decile remained excluded.
- 2. The fund treats those issuers scoring in the second lowest decile as engagement candidates. As a result, the following engagements were conducted: Malaysia
- 3. Up to 90% of investments were tracked and monitored for environmental and social factor deterioration or improvements

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable

FTGF Brandywine Global Income Optimiser Fund

Entity LEI: 549300373IZ316KVU890

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective?		
•• □ YES	●○ ⊠ NO	
☐ It made sustainable investments with an environmental objective:%	☑ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 1.18% of sustainable investments	
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	□ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy	
in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	
	□ with a social objective	
☐ It made sustainable investments with a social objective:%	☐ It promoted E/S characteristics, but did not make any sustainable investments	

To what extent were the environmental and/or social characteristics promoted by this financial product met?

As the Fund pursued an unconstrained strategy, the environmental and/or social characteristics promoted by the Fund reflected multiple fixed income sectors and accounted for on a country-, fundamental and sector-basis. Not every environmental and/or social characteristic listed below was promoted by each investment or by the Fund at any one time.

The sovereign environmental characteristics promoted by the Fund in respect of its investments in sovereign bonds were:

- Air Quality
- Biodiversity and Protected Areas (Marine)
- Biodiversity and Protected Areas (Terrestrial)
- Climate Change Adaptive Capacity
- Climate Change Exposure
- Climate Change Sensitivity
- Climate Change Vulnerability
- CO2 Emissions from Energy Use
- CO2 Emissions from Land Use Change and Forestry
- Carbon Policy Sovereign
- Dependence on Fossil Fuel Exports
- Deforestation
- Drought Hazard
- Energy Security
- Environmental Pressure
- Total GHG Emissions
- GHG Emissions Reduction: Progress Towards Targets
- Low Carbon Economy
- Resource Security
- Waste Management
- Water Pollution
- Water Security

The sovereign social characteristics promoted by the Fund in respect of its investments in sovereign bonds were:

Access to Remedy Risk

- Child Labour
- Civil Unrest
- Discrimination in the Workplace
- Decent Wages
- Education
- · Freedom of Association and Collective Bargaining
- Food Security
- Healthcare Capacity
- Human Capital
- Indigenous Peoples' Rights
- Informal Workforce
- Migrant Workers
- Minority Rights
- Modern Slavery
- Occupational Health and Safety
- Poverty
- Sexual Minorities
- Working-Age Population Trends
- Women's and Girls' Rights
- Young Workers

The corporate environmental and social characteristics promoted by the Fund in respect of its investments in corporate bonds were:

- GHG emissions
- Carbon footprint
- GHG intensity of investee companies
- Exposure to companies active in the fossil fuel sector
- · Share of non-renewable energy consumption and production
- Energy consumption intensity per high impact climate sector
- Activities negatively affecting biodiversity sensitive areas
- Emissions to water
- · Hazardous waste ratio
- Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD)
 Guidelines for Multinational Enterprises
- Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
- Unadjusted gender pay gap
- Board gender diversity
- Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)

Issuers in the lowest scoring 10% (the bottom decile) were excluded from the investable universe during the reporting period.

Issuers in 10-20% worst scoring (2nd lowest decile) were treated as engagement candidates during the reporting period.

Derivative instruments were not used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of the environmental or social characteristics promoted by the Fund were:

- A. Specific Inputs into the ESG scoring methodology employed by the Investment Manager which aligned with the environmental or social characteristics by the Fund. These inputs derived from:
- 1. The application of the ESG exclusions.

The Fund commits to excluding issuers in the lowest scoring decile of the investment universe. The following divestments were made as a result: Hercules Capital, Weibo Corp, Meta Platforms.

- 2. The Fund treats those issuers scoring in the second lowest decile as engagement candidates. As a result, the following engagements were conducted: Carnival Cruise Corp., Dish Network Corp., Taseko Mines Ltd., Owl Rock Capital Corporation, and Brazil
- B. Tracking of the mandatory Principle Adverse Impact (PAI) indicators relevant to each issuer. Please, refer to the values displayed under the section "How did this financial product consider principal adverse impacts on sustainability factors?"
- C. Exposure to Green, Social and Sustainability (GSS) Bonds at 1.18%. The use of proceeds of these bonds were specified by the issuer (and verified by a third party or the Investment Manager) and benefited underlying environmental or social projects such as, but not limited to:
 - GHG emissions reduction
 - Increased product availability in low- and middle-income countries
 - Creating sustainable cities and communities funding clean transportation, energy, water & sanitation
 - Diversity, equity and inclusion initiatives

… And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The Fund invested at least 1% of its net assets in green and/or social bonds which are sustainable investments. The Fund made such investments only where the use of the proceeds of such bonds were specified by the issuer (and verified by a third party or the Investment Manager) and benefited underlying environmental or social projects such as, but not limited to:

- · GHG emissions reduction
- Increased product availability in low- and middle-income countries
- Creating sustainable cities and communities funding clean transportation, energy, water & sanitation
- Diversity, equity and inclusion initiatives

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-

bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

When evaluating the DNSH principle, the Investment Manager relied on a combination of internal fundamental research, sell-side research, news, PAIs, and ESG data from third party providers.

The Investment Manager reviewed any public sanctions flagged up via screens provided by a third-party provider, related to UN Global Compact (UNGC) failures, as well as measurements and KPIs related to the mandatory PAIs for both corporates and sovereigns. For sustainable investments in securities issued by corporates, the Investment Manager evaluated the DNSH principle at the level of the corporate issuer. For sustainable investments in securities issued by governments or supranational organisations (which such supranational organisation does not have a specific mission statement that indicates that all the activities/projects being financed are sustainable), the Investment Manager evaluated the DNSH principle at use-of-proceeds level

The Fund tracked mandatory PAIs to identify adverse impact exposures.

--How were the indicators for adverse impacts on sustainability factors taken into account?

Mandatory PAIs for corporates and sovereigns were tracked, measured, and reported. The Investment Manager assessed DNSH thresholds on a fundamental, sector/industry, country, and portfolio levels to make investment decisions. The Investment Manager's policy is to engage with issuers and then divest as a last resort. The Investment Manager divested immediately if a material short-term risk was uncovered.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Manager tracked OECD/UNGC violations (sourced from a third party on an automated basis from January 2022) and failures; companies that failed were excluded from the portfolio/investment universe.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Mandatory PAIs for corporates and sovereigns were tracked, measured, and reported. The Investment Manager also used changes in PAIs and related KPIs to assess opportunity for and realized improvement, which informed investments and position sizes.

The Investment Manager assessed DNSH thresholds on a fundamental, sector/industry, country, and portfolio levels to make investment decisions.

The mandatory PAIs were not all inherently included in the proprietary ESG scoring for this Fund. However, the Investment Manager tracked and monitored the PAIs.

PAI indicators	Value	Coverage
GHG Emission: Scope 1 USD	47,610.47	60.85%

What was the proportion of sustainability-related investments?

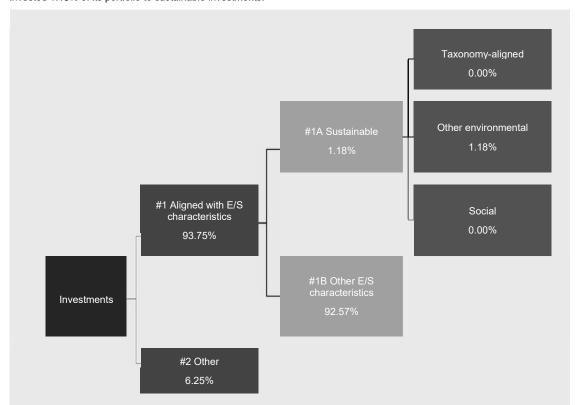

The proportion of sustainability-related investments was 1.18%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 93.75% of the portfolio was aligned with the E/S characteristics promoted by the Fund. The remaining portion (6.25%) was not aligned with the promoted characteristics and primarily consisted of liquid assets.

Out of the Fund's portfolio segment which is aligned with the promoted environmental and/or social characteristics, the Fund invested 1.18% of its portfolio to sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Top sector	Proportion

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

A	đ		b	
B		Y	1	a
É	Ņ	N	B	7

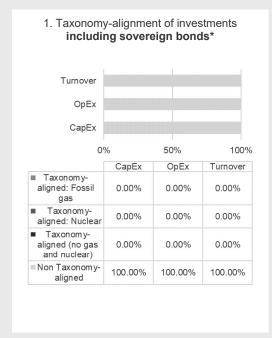

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

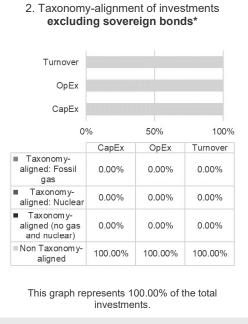

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

П	Yes	
	☐ In fossil gas	□ In nuclear energy
\boxtimes	No	

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

^{*} For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy and, accordingly, as of the end of February 2023, 1.18% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

0% of the Fund's investments were in socially sustainable investments.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under "#2 Other" was 6.25% and comprised of cash held on deposit and derivative instruments used for hedging and derivatives for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- 1. The Fund commits to excluding issuers in the lowest scoring decile of the investment universe. Accordingly, the following divestments were made as a result: Hercules Capital, Weibo Corp, Meta Platforms.
- 2. The Fund treats those issuers scoring in the second lowest decile as engagement candidates. As a result, the following engagements were conducted: Carnival Cruise Corp., Dish Network Corp., Taseko Mines Ltd., Owl Rock Capital Corporation, and Brazil
- 3. Up to 80% of investments were tracked and monitored for environmental and/or social factor deterioration or improvements.
- 4. The Fund invested over 1% of its net assets in sustainable investments with environmental/social objectives, as outlined above.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable

FTGF Brandywine Global Multi-Sector Impact Fund

Entity LEI: 254900QDA77XG4LVMI92

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

	inancial product have a sustai YES		; iiive ⊠ I	·
☐ It made sustainable investments with an environmental objective:%		☑ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 18.30% of sustainable investments		
	in economic activities that qualify as environmentally sustainable under the EU Taxonomy			with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
	in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy		×	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
				with a social objective
☐ It made sustainable investments with a social objective:%				omoted E/S characteristics, but did not make sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social characteristics:

Environmental:

- · Climate mitigation;
- Climate adaptation;
- · Water; and
- Biodiversity.

Social:

Equity.

Issuers in the lowest scoring 10% (the bottom decile) were excluded from the investable universe during the reporting period.

Issuers in 10-20% worst scoring (2nd lowest decile) were treated as engagement candidates during the reporting period.

Derivative instruments were not used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- A. Specific Inputs into the ESG scoring methodology employed by the Investment Manager which aligned with the environmental or social characteristics by the Fund. These inputs derived from:
- 1. The application of the ESG exclusions.

The Fund commits to excluding issuers in the lowest scoring decile of the investment universe. No divestments were made as no holdings fell into the bottom decile. The bottom decile remained excluded.

- 2. The Fund treats those issuers scoring in the second lowest decile as engagement candidates. As a result, the following engagements were conducted: Taseko Mines Ltd., Owl Rock Capital Corporation, and Brazil.
- B. Tracking of the mandatory Principle Adverse Impact (PAI) indicators. Please, refer to the values displayed under the section "How did this financial product consider principal adverse impacts on sustainability factors?"
- C.Furthermore, the Investment Manager measured the share of portfolio aligned with Sustainability Key Performance Indicators (KPIs) relevant to the issuers as displayed in the following table:

Sustainability KPI Name	Value
CO2 Scope 1 -> Lower	1.21%
Electricity Used -> Lower	1.22%
Energy Per Unit Production -> Lower	2.38%
Fair Remuneration Policy / Implementation (Y/N)	0.95%
Gender Pay Gap Breakout / Implementation (Y/N)	2.33%
GHG Intensity Per Sales -> Lower	11.16%
GHG Intensity Per Vehicle -> Lower	1.25%
GHG Scope 1 -> Lower	9.44%
GHG Scope 3 -> Lower	1.99%
Human Rights Policy / Implementation (Y/N)	0.76%
Investments In Sustainability -> Higher	2.30%
Percent Gender Pay Gap Empl Incl Mgmt -> Lower	1.24%
Percent Minority Management -> Higher	0.97%
Percent Recycled Materials -> Higher	1.00%
Policy Against Child Labor / Implementation (Y/N)	0.78%
Renew Energy Use -> Higher	4.15%
Sustainable ESG Assets Under Mgmt -> Higher	2.57%
Sustainable ESG Lending Field Score -> Higher	1.32%
Total Water Use -> Lower	0.97%
Waste Recycled -> Higher	1.01%
Water Policy / Implementation (Y/N)	0.75%

… And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The Fund invested at least 15% of its net assets in green/social/sustainable/sustainablility-linked bonds which are sustainable investments, as well as certain issuers identified as sustainable investments by the manager. The Fund made such investments only where the use of the proceeds of such bonds were specified by the issuer (and verified by a third party or the Investment Manager) and benefited underlying environmental or social projects such as, but not limited to:

- Environmental:
 - Climate change mitigation
 - Climate adaptation
 - Water conservation
 - Conservation/usage/recycling
 - Biodiversity tracking and protection

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

When evaluating the do no significant harm (DNSH) principle, the Investment Manager relied on a combination of internal fundamental research, sell-side research, news, PAIs, and ESG data from third party providers. For sustainable investments in securities issued by corporates, the Investment Manager evaluated the DNSH principle at the level of the corporate issuer. For sustainable investments in securities issued by governments or supranational organisations (which such supranational organisation does not have a specific mission statement that indicates that all the activities/projects being financed are sustainable), the Investment Manager evaluated the DNSH principle at use-of-proceeds level.

The Investment Manager reviewed any public sanctions flagged up via screens provided by third-party provider, related to UN Global Compact (UNGC) failures, as well as measurements and key performance indicators (KPIs) related to the mandatory PAIs for both corporates and sovereigns.

--How were the indicators for adverse impacts on sustainability factors taken into account?

Mandatory PAIs for corporates and sovereigns were tracked, measured, and reported. The Investment Manager also used changes in PAIs and related KPIs to assess opportunity for improvement and impact, which therefore informed investments and position sizes.

Mandatory PAIs were considered in the context of identifying sustainable investments or where improvements in sustainability profile were needed. With the exception of PAI #10 (violations of the UNGC principles and OECD Guidelines for Multinational Enterprises) and PAI #14 (exposure to controversial weapons), PAI indicators were used as KPIs to track and monitor progress of investee issuers as further described below in this annex. The deterioration or lack of improvements of the PAI indicators lead to compulsory engagement and, if required, divestment and/or exclusion from the investment universe.

Corporates PAI #10 or with exposure to PAI #14, and sovereign countries subjected to social violations (PAI #16) were excluded from the investment universe.

The Investment Manager assessed DNSH thresholds on a fundamental, sector/industry, country, and portfolio levels to make investment decisions. Optional PAIs and data related to the EU Taxonomy were included into DNSH assessment as those metrics become available with suitable coverage.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The investment manager tracked OECD/UNGC violations (sourced from a third party on an automated basis) and failures; companies that failed were excluded from the portfolio/investment universe.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Mandatory PAIs for corporates and sovereigns were tracked, measured, and reported.

The Investment Manager assessed DNSH thresholds on a fundamental, sector/industry, country, and portfolio levels to make investment decisions.

The mandatory PAIs were not all inherently included in the proprietary ESG scoring for this Fund. However, the Investment Manager tracked and monitored the PAIs.

PAI indicators	Value	Coverage
GHG Emissions: Scope 1 USD	736.47	66.42%

What was the proportion of sustainability-related investments?

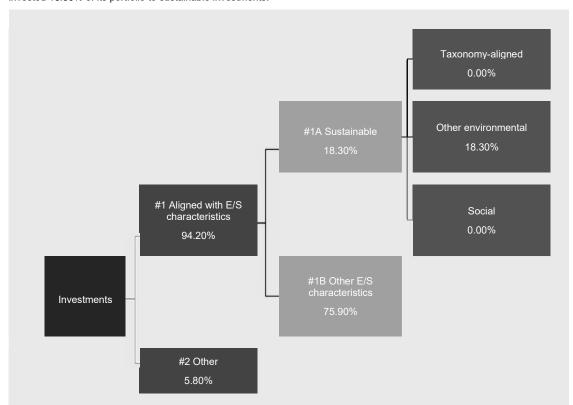

The proportion of sustainability-related investments was 18.30%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 94.20% of the portfolio was aligned with the E/S characteristics promoted by the Fund. The remaining portion (5.80%) was not aligned with the promoted characteristics and primarily consisted of liquid assets.

Out of the Fund's portfolio segment which is aligned with the promoted environmental and/or social characteristics, the Fund invested 18.30% of its portfolio to sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

A	đ		b	
B		Y	1	a
É	Ņ	N	B	7

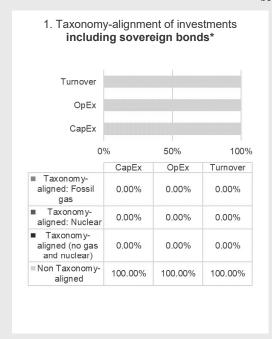

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

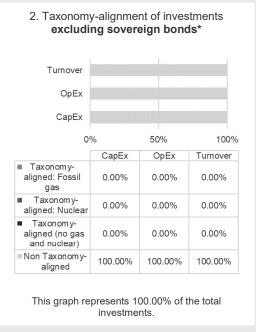

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

П	Yes	
	□ In fossil gas	□ In nuclear energy
\boxtimes	No	

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

^{*} For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy and, accordingly, as of the end of the reference period, 18.30% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

0% of the Fund's investments were in socially sustainable investments.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under "#2 Other" was 5.80% and comprised of cash held on deposit and derivative instruments used for hedging and derivatives for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- 1. The Fund committed to exclude issuers in the lowest scoring decile of the investment universe. No divestments were made as no holdings fell into the bottom decile. The bottom decile remained excluded.
- 2. The Fund treats those issuers scoring in the second lowest decile as engagement candidates. As a result, the following engagements were conducted: Taseko Mines Ltd., Owl Rock Capital Corporation, and Brazil.
- 3. A minimum of 90% of debt and/or debt related issuances tracked and monitored for environmental and social factor deterioration or improvements
- 4. The Fund invested over 15% of its net assets in sustainable investments with environmental/social objectives, as outlined above.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable

FTGF ClearBridge Value Fund

Entity LEI: 5493000ZGGIQZ97B7W66

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? YES **⋈ NO** 00 Environmental/Social promoted ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: ___% objective a sustainable investment, it had a proportion of 29.00% of sustainable investments in economic activities that qualify as with an environmental objective in economic environmentally sustainable under the EU activities that qualify as environmentally sustainable under the EU Taxonomy Taxonomy in economic activities that do not qualify as with an environmental objective in economic activities that do not qualify as environmentally environmentally sustainable under the EU sustainable under the EU Taxonomy Taxonomy with a social objective ☐ It promoted E/S characteristics, but did not make ☐ It made sustainable investments with a social objective: % any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

In selecting securities during the reporting period the Investment Manager used an established proprietary research and engagement process to determine a company's profile on environmental, social and governance ("ESG") issues. This proprietary process generated an ESG ratings system that utilized a materiality map to identify specific ESG characteristics that pertained to the investment.

The environmental and/or social characteristics promoted by the Fund were:

- Environmental factors such as a company's environmental practices, Greenhouse Gas (GHG) emissions and energy
 efficiency initiatives;
- Social factors such as a company's approach to community relations, occupational safety and health, and reliability and pricing of services

Amongst its investments, the Fund maintained its committed 5% percent "sustainable investment" minimum.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- all Principal Adverse Impact (PAI) indicators which were material to the company being rated, specifically PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity), PAI #10 (Violations of UN Global Compact (UNGC) and OECD Guidelines), PAI #13 (Board Gender Diversity) and PAI #14 (Exposure to Controversial Weapons). Please refer to the values disclosed in the section "How did this financial product consider principal adverse impacts on sustainability factors?";
- the percentage of the portfolio rated B under the Investment Manager's proprietary ESG rating that was equal to 0%
- proprietary methodologies to assess the progress of the Investment Manager's ESG engagement meetings;
 ClearBridge conducted periodic ESG engagements with its portfolio companies. Investment team's views of progress discussed during these meetings were reflected in their proprietary ESG ratings, proxy voting decisions, and investments decisions.
- Fund is considered in-scope for ClearBridge's Net Zero target and were measured against the proportion of
 companies that have set, and have committed to set, science-based targets for greenhouse gas emissions
 reductions or are climate solutions providers:

Sustainability KPI Name	Value
Net-Zero Aligned	20.65%
Committed To Set Net-Zero Aligned Target	16.06%

… And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The sustainable investments made by the Fund were in equity securities issued by companies which contributed to one or both of the following:

- through their products and services, to any one or more of the environmental or social objectives of the UN Sustainable Development Goals (SDGs) and their underlying targets and indicators determined through the Investment Manager's assessment for contribution; 22% of the portfolio
- GHG intensity and emissions reduction targets across a firm's economic activities determined through a third party verified decarbonization target aligned to the Paris Agreement. Issuers were monitored for progress against targets through our engagement process. 20% of the portfolio

In addition to contributing to one of the environmental or social objectives listed above, companies were evaluated by the Investment Manager's proprietary good governance screen and passed the Do No Significant Harm (DNSH) criteria as further detailed below.

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-

bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used a combination of third party severe risk controversy scores, third party global norms based screening including UN Global Compact (UNGC) compliance, PAI consideration* and other material environmental, social, and governance factors, which were embedded in the Investment Manager's fundamental research and proprietary ESG ratings process, which included a good governance evaluation, to review if investments caused significant harm to any sustainable investment objective.

Additionally, the Investment Manager used its engagement process to identify best in class securities.

*The PAIs taken into consideration were dependent on the Investment Manager's proprietary ESG materiality assessment by sub-sector which was applied during its ESG rating process or on data availability.

--How were the indicators for adverse impacts on sustainability factors taken into account?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process.

The manner in which PAIs were considered and taken into account is set out in further detail below.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Manager supports the principles of the UNGC. Therefore, the Fund did not invest in companies that violated any of the ten principles in each of the four areas (human rights, labor, environment, and anti-corruption) of the UNGC.

The Investment Manager used a third-party data provider who monitored compliance with UNGC principles. In instances where there were discrepancies or disagreements between the Investment Manager's research and the provider's assessment of a specific controversy, the Investment Manager, along with the compliance team and members of the ESG team engaged the company on the issue. Where the Investment Manager reached a consensus that the company had taken the necessary steps to address the controversy, or had effectively remediated the issue, the Investment Manager provided a detailed explanation for why the company continued to be invested in.

To ensure sustainable investments were aligned with the OECD guidelines, the Investment Manager used a third-party provider as a best effort to monitor compliance and potential violations.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process, specifically:

PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity)

The Investment Manager assessed the specific climate-related risks and opportunities faced by individual companies as part of its stock selection process, which integrated these considerations, among other environmental, social and governance considerations;

While the Investment Manager assessed each sector on a specific set of criteria that was pertinent to its business operations, the assessment generally included careful consideration of climate-related factors such as: the regulatory/policy environment; the geographic location of assets and operations; the ability to pass on costs to customers; technology alternatives and advancements; changing customer preferences; commodity prices; future capital expenditure and R&D plans; long-term business strategy; overall quality of the management team; and other factors; and

The Investment Manager used MSCI Carbon Portfolio Analytics to assess exposure to companies with fossil fuel reserves. The Investment Manager conducted carbon intensity analysis on the firm's investments in aggregate to understand the carbon intensity of the firm's total assets relative to the global equity markets. The Investment Manager also conducted analysis on carbon intensity at the portfolio level.

PAI #10 (Violation of UNGC / OECD Guidelines)

Please refer to "Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?"

PAI #13 (Board gender diversity)

The Investment Manager used third-party data for board gender diversity monitoring. Further, the Investment Manager has a provision in its Proxy Voting Policy to vote against the nominating committee members and chair if the company does not have at least one female board director. The Investment Manager also considered Diversity, Equality and Inclusion as a component of its ESG analysis and rating, as well as a firm-wide theme for company engagement.

PAI #14 (Exposure to controversial weapons)

The Fund did not invest in companies that generate any turnover from (a) banned weapons according to (i) The Convention of the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction and (ii) The Convention on the Prohibition of Cluster Munitions and (b) weapons classed as either B- or C- weapons pursuant to the United Nations Biological Weapons Convention and the United Nations Chemical Weapons Convention respectively.

Principal Adverse Indicator metrics below are as of 31 December 2022.

PAI indicators	Value	Coverage
GHG Emissions: Total Emissions USD	747,211.99	96.45%
Carbon Footprint USD	877.12	96.45%
GHG Intensity USD	1,977.90	98.96%
Violations of UNGC principles and OECD Guidelines	0.00%	98.96%
Board gender diversity	34.34%	94.40%
Exposure to controversial weapons	0.00%	94.40%

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2022-01-01 - 2022-12-31.

What were the top investments of this financial product?

The top investments of this Fund, excluding cash and derivatives, were:

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

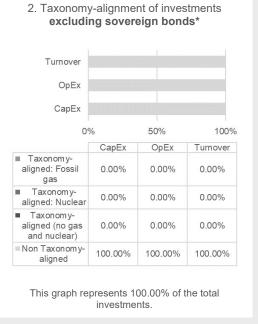

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

	Yes	
	☐ In fossil gas	□ In nuclear energy
\boxtimes	No	

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

^{*} For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities as defined in Article 16 and Article 10(2) of the EU Taxonomy Regulation.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy and, accordingly, as of the end of February 2023, 16.00% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 13.00%.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under "#2 Other" was 1.04% and comprised of cash held on deposit and derivative instruments used for hedging and derivatives for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

1. The Investment Manager utilized its proprietary rating system and fundamental research to assess how a company managed its ESG risks and opportunities, including a good governance screen. The rating system consisted of four rating levels: AAA, AA, A and B, which were assigned to companies based on their sustainability strategy and performance key ESG issues. All companies in the Fund were rated. The rating distribution for this Fund as of 12/31/22 was:

AAA: 13%

AA: 50%

A: 37%

B: 0%

- 2. The Investment Manager continuously engaged with its portfolio companies. ESG engagement at ClearBridge generally had two overlapping objectives:
 - · Research: Gaining a better understanding of ESG issues that could impact our investment thesis
 - Impact: Encouraging specific changes at the company that could lead to positive real-world impact

Additionally, the Investment Manager engaged directly with the "B" rated companies held by the Fund on a regular basis, with the goal of improving on the material environmental and/or social attributes of those companies.

For more details on our engagement approach, please refer to our Engagement and Stewardship policy found here: https://franklintempletonprod.widen.net/content/qz5ty08kfn/original/engagementstewardshippolicy.pdf

3.The Fund did not invest in its set revenue thresholds, as outlined in the prospectus, for the following industries:

- Tobacco
- Controversial weapons
- 4. The Fund did not invest in companies that violate one or several of the ten principles under the four areas covered by UNGC (human rights, labour, environment and anti-corruption).

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable

To what extent were the environmental and/or social characteristics promoted by this financial product met?

In selecting securities during the reporting period, the Investment Manager used an established proprietary research and engagement process to determine a company's profile on environmental, social and governance ("ESG") issues. This proprietary process generated an ESG ratings system that utilized a materiality map to identify specific ESG characteristics that pertained to the investment. The environmental and/or social characteristics promoted by the Fund were key (ESG) issues deemed material to the specific company and the sector in which the company operates which included, but were not limited to, health and safety, gender diversity, climate risk, corporate governance risk and data security.

Additionally, the fund has maintained its committed 5% percent "sustainable investment" minimum.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- the proportion of the Fund held in sustainable investments as defined under the Investment Manager's proprietary sustainable investments methodology which includes product and/or service alignment with the United Nations Sustainable Development Goals ("SDG"), which was 41%, and consideration of Do No Significant Harm (DNSH);
- specific Principal Adverse Impact (PAI) indicators, namely: PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint),
 PAI #3 (GHG Intensity), PAI #10 (Violations of UN Global Compact and OECD Guidelines), PAI #13 (Board Gender
 Diversity) and PAI #14 (Exposure to controversial weapons) were calculated. Please refer to the values disclosed
 in the section "How did this financial product consider principal adverse impacts on sustainability factors?";
- proprietary methodologies to assess the progress of the Investment Manager's ESG engagement meetings ClearBridge conducted periodic ESG engagements with its portfolio companies. Investment team's views of progress discussed during these meetings were reflected in their proprietary ESG ratings, proxy voting decisions, and investments decisions.
- portfolio exposure to best-in-class companies as determined by the Investment Manager's proprietary ESG rating.
 The rating distribution for this Fund as of 12/31/22 is:
 - o AAA:42%
 - o AA: 41%
 - o A: 17%
 - o B: 0%

… And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The sustainable investments made by the Fund were in equity securities issued by companies which contributed to at least one of the following:

- through their products and services, to any one or more of the environmental or social objectives of the SDGs and their underlying targets and indicators determined through the Investment Manager's assessment for contribution; 41% of the portfolio
- GHG intensity and emissions reduction targets across a firm's economic activities determined through a third party verified decarbonization target aligned to the Paris Agreement. Issuers are monitored for progress against targets through our engagement process. 45% of the portfolio

In addition to contributing to one of the environmental or social objectives listed above, companies were evaluated by the Investment Manager's proprietary good governance screen and passed the Do No Significant Harm (DNSH) criteria as further detailed below.

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used a combination of third party severe risk controversy scores, third party global norms based screening including UN Global Compact (UNGC) compliance, PAI consideration* and other material environmental, social, and governance factors, which were embedded in the Investment Manager's fundamental research and proprietary ESG ratings process, which included a governance evaluation, to review if investments cause significant harm to any sustainable investment objective

Additionally, the Investment Manager used its engagement process to identify best in class securities.

*The PAIs taken into consideration were dependent on the Investment Manager's proprietary ESG materiality assessment by sub-sector which was applied during its ESG rating process or on data availability.

-How were the indicators for adverse impacts on sustainability factors taken into account?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process.

The manner in which PAIs were considered and taken into account is set out in further detail below.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

The Investment Manager supports the principles of the UNGC. Therefore, the Fund did not invest in companies that violated any of the ten principles in each of the four areas (human rights, labor, environment, and anti-corruption) of the UNGC.

The Investment Manager used a third-party data provider who monitored compliance with UNGC principles. In instances where there were discrepancies or disagreements between the Investment Manager's research and the provider's assessment of a specific controversy, the Investment Manager, along with the compliance team and members of the ESG team engaged the company on the issue. Where the Investment Manager reached a consensus that the company had taken the necessary steps to address the controversy, or had effectively remediated the issue, the Investment Manager provided a detailed explanation for why the company continued to be invested in.

To ensure sustainable investments were aligned with the OECD guidelines, the Investment Manager used a third-party provider as a best effort to monitor compliance and potential violations.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process, specifically:

PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity)

The Investment Manager assessed the specific climate-related risks and opportunities faced by individual companies as part of its stock selection process, which integrated these considerations, among other environmental, social and governance considerations;

While the Investment Manager assessed each sector on a specific set of criteria that was pertinent to its business operations, the assessment generally included careful consideration of climate-related factors such as: the regulatory/policy environment; the geographic location of assets and operations; the ability to pass on costs to customers; technology alternatives and advancements; changing customer preferences; commodity prices; future capital expenditure and R&D plans; long-term business strategy; overall quality of the management team; and other factors; and

The Investment Manager used MSCI Carbon Portfolio Analytics to assess exposure to companies with fossil fuel reserves. The Investment Manager conducted carbon intensity analysis on the firm's investments in aggregate to understand the carbon intensity of the firm's total assets relative to the global equity markets. The Investment Manager can also conduct analysis on carbon intensity at the portfolio level.

PAI #10 (Violation of UNGC / OECD Guidelines)

Please refer to "Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?".

PAI #13 (Board gender diversity)

The Investment Manager uses third-party data for board gender diversity monitoring. Further, the Investment Manager has a provision in its Proxy Voting Policy to vote against the nominating committee members and chair if the company does not have at least one female board director. The Investment Manager also considered Diversity, Equality and Inclusion as a component of its ESG analysis and rating, as well as a firm-wide theme for company engagement.

PAI #14 (Exposure to controversial weapons)

The Fund did not invest in companies that generate any of their turnover from the production and/or distribution of controversial weapons (i.e., antipersonnel mines, nuclear weaponry, biological & chemical weaponry, and cluster munitions).

Principal Adverse Indicator metrics below are as of 31 December 2022.

PAI indicators	Value	Coverage
GHG Emissions: Total Emissions USD	67,906.15	95.72%
Carbon Footprint USD	381.67	95.72%
GHG Intensity USD	886.78	95.72%
Violations of UNGC principles and OECD Guidelines	0.00%	95.72%
Board gender diversity	35.65%	95.72%
Exposure to controversial weapons	0.00%	95.72%

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2022-01-01 - 2022-12-31.

What were the top investments of this financial product?

The top investments of this Fund, excluding cash and derivatives, were:

Top investments	Sector	Proportion	Country
MICROSOFT CORP	Information Technology	7.57%	United States
APPLE INC	Information Technology	6.05%	United States
UNITEDHEALTH GROUP INC	Health Care	3.54%	United States
BERKSHIRE HATHAWAY INC	Financials	3.36%	United States
AMAZON.COM INC	Consumer Discretionary	3.15%	United States
JPMORGAN CHASE & CO	Financials	2.74%	United States
JOHNSON & JOHNSON	Health Care	2.71%	United States
VISA INC	Information Technology	2.69%	United States
TRAVELERS COS INC	Financials	2.57%	United States
THERMO FISHER SCIENTIFIC INC	Health Care	2.53%	United States

MERCK & CO INC	Health Care	2.49%	United States
ALPHABET INC	Communication Services	2.44%	United States
HONEYWELL INTERNATIONAL INC	Industrials	2.44%	United States
AUTOMATIC DATA PROCESSING INC	Information Technology	2.06%	United States

What was the proportion of sustainability-related investments?

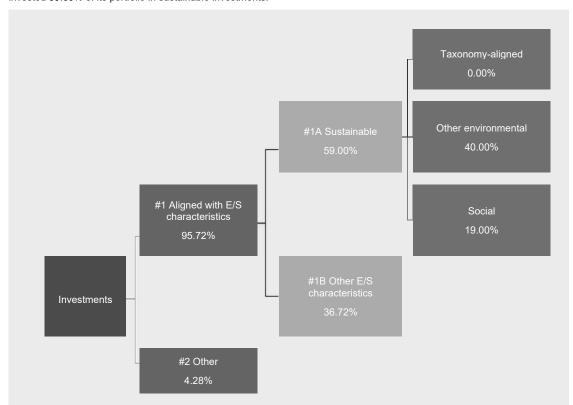

The proportion of sustainability-related investments was 59.00%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 95.72% of the Fund's portfolio was aligned with the E/S characteristics promoted by the Fund. The remaining portion (4.28%) was not aligned with the promoted characteristics and consisted primarily of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 59.00% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Top sector	Proportion
Information Technology	21.54%
Health Care	16.88%
Financials	14.34%
Industrials	9.21%
Consumer Discretionary	7.44%
Materials	7.30%
Consumer Staples	7.22%
Communication Services	7.11%
Energy	2.39%
Real Estate	1.34%
Utilities	0.94%

Top sub-sector	Proportion
Software	9.19%
Pharmaceuticals	8.73%
IT Services	5.24%
Banks	5.08%
Chemicals	4.89%
Technology Hardware Storage & Peripheral	4.86%
Insurance	4.35%
Specialty Retail	4.32%
Health Care Providers & Services	3.64%
Financial Services	3.53%
Interactive Media & Services	3.21%
Beverages	3.07%
Industrial Conglomerates	2.81%
Oil Gas & Consumable Fuels	2.39%
Internet & Direct Marketing Retail	2.26%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

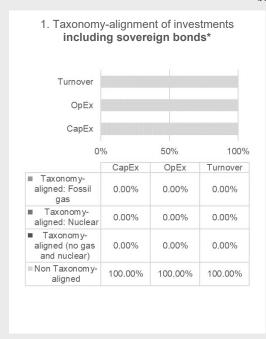

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

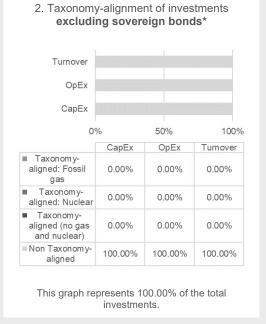

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

	Yes	
	☐ In fossil gas	□ In nuclear energy
\boxtimes	No	

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

^{*} For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities as defined in Article 16 and Article 10(2) of the EU Taxonomy Regulation.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy and, accordingly, as of the end of February 2023, 40.00% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 19.00%.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under "#2 Other" was 4.28% and comprised of cash held on deposit and derivative instruments used for hedging and derivatives for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

1. The Investment Manager utilized its proprietary rating system and fundamental research to assess how a company manages its ESG risks and opportunities, including good governance. The rating system consisted of four rating levels: AAA, AA, A and B, which were assigned to companies based on their sustainability strategy and performance key ESG issues. All companies in the Fund were rated. The rating distribution for this Fund as of 12/31/22 was:

AAA:42%

AA: 41%

A: 17%

B: 0%

- 2. The Investment Manager continuously engaged with its portfolio companies. ESG engagement at ClearBridge generally had two overlapping objectives:
 - · Research: Gaining a better understanding of ESG issues that could impact our investment thesis
 - Impact: Encouraging specific changes at the company that could lead to positive real-world impact

For more details on our engagement approach, please refer to our Engagement and Stewardship policy found here: https://franklintempletonprod.widen.net/content/qz5ty08kfn/original/engagementstewardshippolicy.pdf

- 3. The Fund did not invest in its set revenue thresholds, as outlined in the prospectus, for the following industries:
 - Tobacco
 - Controversial weapons
 - Gambling
 - Adult entertainment

4.The Fund did not invest in companies that violate one or several of the ten principles under the four areas covered by UNGC (human rights, labour, environment and anti-corruption).

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable

FTGF ClearBridge US Large Cap Growth Fund

Entity LEI: 5493003YRBLHS9UVBW79

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did	Did this financial product have a sustaina				e in	vestment objective?

	[in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy		×	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
					×	with a social objective
			ade sustainable investments with a all objective:%]		promoted E/S characteristics, but did not make ny sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

In selecting securities during the reporting period, the Investment Manager used an established proprietary research and engagement process to determine a company's profile on environmental, social and governance ("ESG") issues. This proprietary process generated an ESG ratings system that utilized a materiality map to identify specific ESG characteristics that pertained to the investment. The environmental and/or social characteristics promoted by the Fund were key (ESG) issues deemed material to the specific company and the sector in which the company operates which included, but were not limited to, health and safety, gender diversity, climate risk, corporate governance risk and data security.

Additionally, the fund has maintained its committed 20% percent "sustainable investment" minimum.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- the proportion of the Fund held in sustainable investments as defined under the Investment Manager's proprietary sustainable investments methodology which includes product and/or service alignment with the United Nations Sustainable Development Goals ("SDG"), which was 39%, and consideration of Do No Significant Harm (DNSH);
- specific Principal Adverse Impact (PAI) indicators, namely PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity), PAI #10 (Violations of UN Global Compact and OECD Guidelines), PAI #13 (Board Gender Diversity) and PAI #14 (Exposure to controversial weapons). Please refer to the values disclosed in the section "How did this financial product consider principal adverse impacts on sustainability factors?";
- proprietary methodologies to assess the progress of the Investment Manager's ESG engagement meetings.
 ClearBridge conducted periodic ESG engagements with its portfolio companies. Investment team's views of progress discussed during these meetings were reflected in their proprietary ESG ratings, proxy voting decisions, and investments decisions.
- portfolio exposure to best-in-class companies as determined by the Investment Manager's proprietary ESG rating.
 The rating distribution for this Fund as of 12/31/22 was:
 - o AAA: 48%
 - o AA: 34%
 - o A: 18%
 - B: 0%

Fund is considered in-scope for ClearBridge's Net Zero target and is therefore measured against the proportion of companies that have set, and have committed to set science-based targets for greenhouse gas reductions or are climate solutions providers

Sustainability KPI Name	Value
Net-Zero Aligned	44.24%
Committed To Set Net-Zero Aligned Target	23.62%

… And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The sustainable investments made by the Fund were in equity securities issued by companies which contributed to at least one of the following:

- through their products and services, to any one or more of the environmental or social objectives of the SDGs and their underlying targets and indicators determined through the Investment Manager's assessment for contribution; 39% of the portfolio
- GHG intensity and emissions reduction targets across a firm's economic activities determined through a third party verified decarbonization target aligned to the Paris Agreement. Issuers were monitored for progress against targets through our engagement process. 44% of the portfolio

In addition to contributing to one of the environmental or social objectives listed above, companies were evaluated by the Investment Manager's proprietary good governance screen and passed the Do No Significant Harm (DNSH) criteria as further detailed below

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used a combination of third party severe risk controversy scores, third party global norms based screening including UN Global Compact (UNGC) compliance, PAI consideration* and other material environmental, social, and governance factors, which were embedded in the Investment Manager's fundamental research and proprietary ESG ratings process, which included a governance evaluation, to review if investments cause significant harm to any sustainable investment objective.

Additionally, the Investment Manager used its engagement process to identify best in class securities.

*The PAIs taken into consideration were dependent on the Investment Manager's proprietary ESG materiality assessment by sub-sector which was applied during its ESG rating process or on data availability.

--How were the indicators for adverse impacts on sustainability factors taken into account?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process.

The manner in which PAIs were considered and taken into account is set out in further detail below.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Manager supports the principles of the UNGC. Therefore, the Fund did not invest in companies that violated any of the ten principles in each of the four areas (human rights, labor, environment, and anti-corruption) of the UNGC.

The Investment Manager used a third-party data provider who monitored compliance with UNGC principles. In instances where there were discrepancies or disagreements between the Investment Manager's research and the provider's assessment of a specific controversy, the Investment Manager, along with the compliance team and members of the ESG team engaged the company on the issue. Where the Investment Manager reached a consensus that the company had taken the necessary steps to address the controversy, or had effectively remediated the issue, the Investment Manager provided a detailed explanation for why the company continued to be invested in.

To ensure sustainable investments were aligned with the OECD guidelines, the Investment Manager used a third-party provider as a best effort to monitor compliance and potential violations.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process, specifically:

PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity)

The Investment Manager assessed the specific climate-related risks and opportunities faced by individual companies as part of its stock selection process, which integrated these considerations, among other environmental, social and governance considerations;

While the Investment Manager assessed each sector on a specific set of criteria that was pertinent to its business operations, the assessment generally includes careful consideration of climate-related factors such as: the regulatory/policy environment; the geographic location of assets and operations; the ability to pass on costs to customers; technology alternatives and advancements; changing customer preferences; commodity prices; future capital expenditure and R&D plans; long-term business strategy; overall quality of the management team; and other factors; and

The Investment Manager used MSCI Carbon Portfolio Analytics to assess exposure to companies with fossil fuel reserves. The Investment Manager conducted carbon intensity analysis on the firm's investments in aggregate to understand the carbon intensity of the firm's total assets relative to the global equity markets. The Investment Manager also conducted analysis on carbon intensity at the portfolio level.

PAI #10 (Violation of UNGC / OECD Guidelines)

Please refer to "Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?"

PAI #13 (Board gender diversity)

The Investment Manager used third-party data for board gender diversity monitoring. Further, the Investment Manager has a provision in its Proxy Voting Policy to vote against the nominating committee members and chair if the company does not have at least one female board director. The Investment Manager also considered Diversity, Equality and Inclusion as a component of its ESG analysis and rating, as well as a firm-wide theme for company engagement.

PAI #14 (Exposure to controversial weapons)

The Fund did not invest in companies that generate any of their turnover from the production and/or distribution of controversial weapons (i.e., antipersonnel mines, nuclear weaponry, biological & chemical weaponry, and cluster munitions).

Principal Adverse Indicator metrics below are as of 31 December 2022.

PAI indicators	Value	Coverage
GHG Emissions: Total Emissions USD	106,503.87	95.26%
Carbon Footprint USD	97.02	95.26%
GHG Intensity USD	465.22	95.26%
Violations of UNGC principles and OECD Guidelines	0.00%	95.26%
Board gender diversity	34.89%	95.26%
Exposure to controversial weapons	0.00%	95.26%

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2022-01-01 - 2022-12-31.

What were the top investments of this financial product?

The top investments of this Fund, excluding cash and derivatives, were:

Top investments	Sector	Proportion	Country
AMAZON.COM INC	Consumer Discretionary	4.14%	United States
MICROSOFT CORP	Information Technology	3.62%	United States
VISA INC	Information Technology	2.61%	United States
UNITEDHEALTH GROUP INC	Health Care	2.38%	United States
APPLE INC	Information Technology	2.29%	United States

What was the proportion of sustainability-related investments?

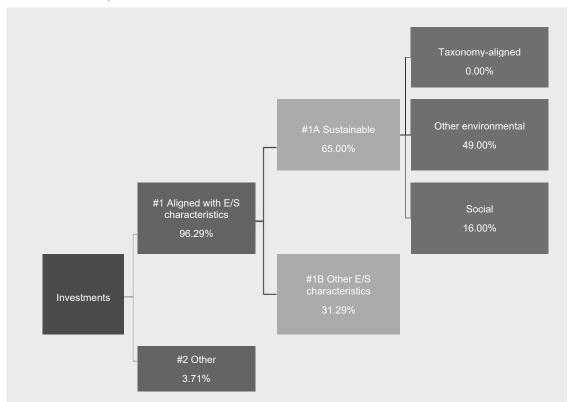

The proportion of sustainability-related investments was 65.00%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 96.29% of the Fund's portfolio was aligned with the E/S characteristics promoted by the Fund. The remaining portion (3.71%) was not aligned with the promoted characteristics and consisted primarily of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 65.00% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Top sector	Proportion
Information Technology	35.09%
Health Care	19.69%

Auto Parts	5.52%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

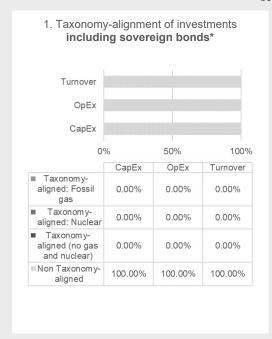

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

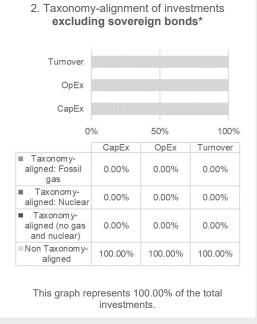

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

	Yes		
	□ In fossil gas	☐ In nuclear energy	
\boxtimes	No		

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities as defined in Article 16 and Article 10(2) of the EU Taxonomy Regulation.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy and, accordingly, as of the end of February 2023, 49.00% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 16.00%.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under "#2 Other" was 3.71% and comprised of cash held on deposit and derivative instruments used for hedging and derivatives for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

1. The Investment Manager utilized its proprietary rating system and fundamental research to assess how a company managed its ESG risks and opportunities, including a good governance screen. The rating system consisted of four rating levels: AAA, AA, A and B, which were assigned to companies based on their sustainability strategy and performance key ESG issues. All companies in the Fund were rated. The rating distribution for this Fund as of 12/31/22 was:

AAA: 48%

AA: 34%

A: 18%

B: 0%

- 2. The Investment Manager continuously engaged with its portfolio companies. ESG engagement at ClearBridge generally had two overlapping objectives:
 - · Research: Gaining a better understanding of ESG issues that could impact our investment thesis
 - Impact: Encouraging specific changes at the company that could lead to positive real-world impact

For more details on our engagement approach, please refer to our Engagement and Stewardship policy found here: https://franklintempletonprod.widen.net/content/qz5ty08kfn/original/engagementstewardshippolicy.pdf

- 3. The Fund did not invest in its set revenue thresholds, as outlined in the prospectus, for the following industries:
 - Tobacco
 - Controversial weapons
 - Adult entertainment
- 4. The Fund did not invest in companies that violate one or several of the ten principles under the four areas covered by UNGC (human rights, labour, environment and anti-corruption).

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable

FTGF ClearBridge US Aggressive Growth Fund

Entity LEI: 5493007ZJMPVPNDQMY52

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective?			
•• □ YES	●○ ⊠ NO		
☐ It made sustainable investments with an environmental objective:%	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 46.00% of sustainable investments		
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	□ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy		
in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy		
	☑ with a social objective		
☐ It made sustainable investments with a social objective:%	☐ It promoted E/S characteristics, but did not make any sustainable investments		

To what extent were the environmental and/or social characteristics promoted by this financial product met?

In selecting securities during the reporting period, the Investment Manager used an established proprietary research and engagement process to determine a company's profile on environmental, social and governance ("ESG") issues. This proprietary process generated an ESG ratings system that utilized a materiality map to identify specific ESG characteristics that pertained to the investment. The environmental and/or social characteristics promoted by the Fund were key (ESG) issues deemed material to the specific company and the sector in which the company operates which included, but were not limited to, health and safety, gender diversity, climate risk, corporate governance risk and data security.

Additionally, the fund has maintained its committed 5% percent "sustainable investment" minimum.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- the proportion of the Fund held in sustainable investments as defined under the Investment Manager's proprietary sustainable investments methodology which includes product and/or service alignment with the United Nations Sustainable Development Goals ("SDG"), which was 35%, and consideration of Do No Significant Harm (DNSH);
- specific Principal Adverse Impact (PAI) indicators, namely: PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint),
 PAI #3 (GHG Intensity), PAI #10 (Violations of UN Global Compact and OECD Guidelines), PAI #13 (Board Gender
 Diversity) and PAI #14(Exposure to controversial weapons). Please refer to the values disclosed in the section "How
 did this financial product consider principal adverse impacts on sustainability factors?";
- proprietary methodologies to assess the progress of the Investment Manager's ESG engagement meetings.
 ClearBridge conducted periodic ESG engagements with its portfolio companies. Investment team's views of progress discussed during these meetings were reflected in their proprietary ESG ratings, proxy voting decisions, and investments decisions.
- portfolio exposure to best-in-class companies as determined by the Investment Manager's proprietary ESG rating.
 The rating distribution for this Fund as of 12/31/22 was:
- AAA: 21%
- AA: 59%
- A: 20%
- B: 0%

… And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The sustainable investments made by the Fund were in equity securities issued by companies which contributed to at least one of the following:

- through their products and services, to any one or more of the environmental or social objectives of the SDGs and their underlying targets and indicators determined through the Investment Manager's assessment for contribution; 35% of the portfolio
- GHG intensity and emissions reduction targets across a firm's economic activities determined through a third party verified decarbonization target aligned to the Paris Agreement. Issuers are monitored for progress against targets through our engagement process. 24% of the portfolio

In addition to contributing to one of the environmental or social objectives listed above, companies were evaluated by the Investment Manager's proprietary good governance screen and passed the Do No Significant Harm (DNSH) criteria as further detailed below.

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used a combination of third party severe risk controversy scores, third party global norms based screening including UN Global Compact (UNGC) compliance, PAI consideration* and other material environmental, social, and governance factors, which were embedded in the Investment Manager's fundamental research and proprietary ESG ratings process, which included a governance evaluation, to review if investments cause significant harm to any sustainable investment objective.

Additionally, the Investment Manager used its engagement process to identify best in class securities.

*The PAIs taken into consideration were dependent on the Investment Manager's proprietary ESG materiality assessment by sub-sector which was applied during its ESG rating process or on data availability.

--How were the indicators for adverse impacts on sustainability factors taken into account?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process.

The manner in which PAIs were considered and taken into account is set out in further detail below.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

The Investment Manager supports the principles of the UNGC. Therefore, the Fund did not invest in companies that violated any of the ten principles in each of the four areas (human rights, labor, environment, and anti-corruption) of the UNGC.

The Investment Manager used a third-party data provider who monitored compliance with UNGC principles. In instances where there were discrepancies or disagreements between the Investment Manager's research and the provider's assessment of a specific controversy, the Investment Manager, along with the compliance team and members of the ESG team engaged the company on the issue. Where the Investment Manager reached a consensus that the company had taken the necessary steps to address the controversy, or had effectively remediated the issue, the Investment Manager provided a detailed explanation for why the company continued to be invested in.

To ensure sustainable investments were aligned with the OECD guidelines, the Investment Manager used a third-party provider as a best effort to monitor compliance and potential violations.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process, specifically:

PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity)

The Investment Manager assessed the specific climate-related risks and opportunities faced by individual companies as part of its stock selection process, which integrated these considerations, among other environmental, social and governance considerations;

While the Investment Manager assessed each sector on a specific set of criteria that was pertinent to its business operations, the assessment generally included careful consideration of climate-related factors such as: the regulatory/policy environment; the geographic location of assets and operations; the ability to pass on costs to customers; technology alternatives and advancements; changing customer preferences; commodity prices; future capital expenditure and R&D plans; long-term business strategy; overall quality of the management team; and other factors; and

The Investment Manager used MSCI Carbon Portfolio Analytics to assess exposure to companies with fossil fuel reserves. The Investment Manager conducted carbon intensity analysis on the firm's investments in aggregate to understand the carbon intensity of the firm's total assets relative to the global equity markets. The Investment Manager also conducted analysis on carbon intensity at the portfolio level.

PAI #10 (Violation of UNGC / OECD Guidelines)

Please refer to "Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?".

PAI #13 (Board gender diversity)

The Investment Manager uses third-party data for board gender diversity monitoring. Further, the Investment Manager has a provision in its Proxy Voting Policy to vote against the nominating committee members and chair if the company does not have at least one female board director. The Investment Manager also considered Diversity, Equality and Inclusion as a component of its ESG analysis and rating, as well as a firm-wide theme for company engagement.

PAI #14 (Exposure to controversial weapons)

The Fund did not invest in companies that generate any of their turnover from the production and/or distribution of controversial weapons (i.e., antipersonnel mines, nuclear weaponry, biological & chemical weaponry, and cluster munitions).

Principal Adverse Indicator metrics below are as of 31 December 2022.

PAI indicators	Value	Coverage
GHG Emissions: Total Emissions USD	137,578.85	98.79%
Carbon Footprint USD	667.17	98.79%
GHG Intensity USD	9,124.64	98.79%
Violations of UNGC principles and OECD Guidelines	0.00%	98.79%
Board gender diversity	31.64%	98.79%
Exposure to controversial weapons	0.00%	98.79%

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2022-01-01 - 2022-12-31.

What were the top investments of this financial product?

The top investments of this Fund, excluding cash and derivatives, were:

Top investments	Sector	Proportion	Country
UNITEDHEALTH GROUP INC	Health Care	8.53%	United States
VERTEX PHARMACEUTICALS INC	Health Care	8.23%	United States
BROADCOM INC	Information Technology	7.73%	United States
TE CONNECTIVITY LTD	Information Technology	6.88%	United States
COMCAST CORP	Communication Services	5.74%	United States
WOLFSPEED INC	Information Technology	4.54%	United States
AUTODESK INC	Information Technology	4.20%	United States
BIOGEN INC	Health Care	3.33%	United States
CROWDSTRIKE HOLDINGS INC	Information Technology	3.20%	United States
JOHNSON CONTROLS INTERNATIONAL PLC	Industrials	3.14%	United States
MADISON SQUARE GARDEN SPORTS CORP	Communication Services	2.90%	United States
SEAGATE TECHNOLOGY HOLDINGS PLC	Information Technology	2.83%	United States
HUBSPOT INC	Information Technology	2.53%	United States
TWITTER INC	Information Technology	2.39%	United States
IONIS PHARMACEUTICALS INC	Health Care	2.16%	United States

What was the proportion of sustainability-related investments?

The proportion of sustainability-related investments was 46.00%.

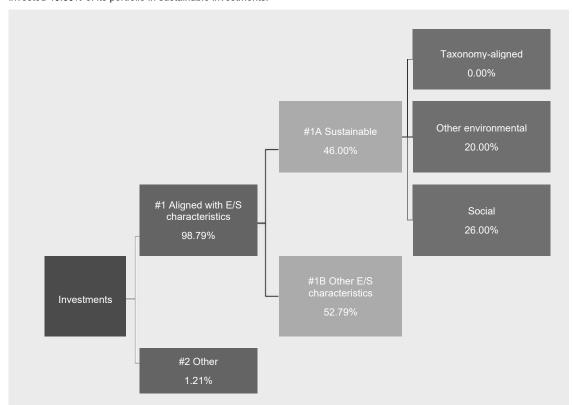

Asset allocation describes the share of investments in specific

assets.

What was the asset allocation?

A portion of 98.79% of the Fund's portfolio was aligned with the E/S characteristics promoted by the Fund. The remaining portion (1.21%) was not aligned with the promoted characteristics and consisted primarily of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 46.00% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Top sector	Proportion
Information Technology	37.58%
Health Care	33.15%
Communication Services	16.29%
Industrials	4.87%
Consumer Discretionary	3.78%
Consumer Staples	1.64%

Software	13.24%
Semiconductors & Semiconductor Equipment	12.80%
Health Care Providers & Services	9.32%
Media	7.99%
Elec. Equipment Instruments & Component	7.65%
Entertainment	7.25%
Building Products	4.28%
Technology Hardware Storage & Peripheral	2.91%
Internet & Direct Marketing Retail	2.54%
Health Care Equipment & Supplies	2.41%
Life Sciences Tools & Services	2.23%
Beverages	1.64%
Hotels Restaurants & Leisure	1.24%
Health Care Technology	1.19%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

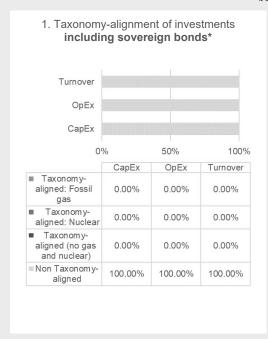

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

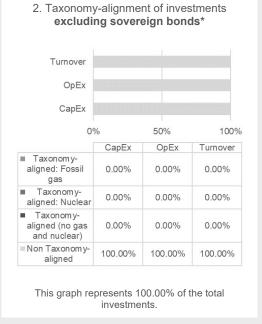

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

П	Yes	
	☐ In fossil gas	□ In nuclear energy
\boxtimes	No	

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

^{*} For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities as defined in Article 16 and Article 10(2) of the EU Taxonomy Regulation.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy and, accordingly, as of the end of February 2023, 20.00% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 26.00%.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under "#2 Other" was 1.21% and comprised of cash held on deposit and derivative instruments used for hedging and derivatives for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

1. The Investment Manager utilized its proprietary rating system and fundamental research to assess how a company managed its ESG risks and opportunities, including a good governance screen. The rating system consisted of four rating levels: AAA, AA, A and B, which were assigned to companies based on their sustainability strategy and performance key ESG issues. All companies in the Fund were rated. The rating distribution for this Fund as of 12/31/22 was:

AAA: 21%

AA: 59%

A: 20%

B: 0%

- 2. The Investment Manager continuously engaged with its portfolio companies. ESG engagement at ClearBridge generally had two overlapping objectives:
 - Research: Gaining a better understanding of ESG issues that could impact our investment thesis
 - Impact: Encouraging specific changes at the company that could lead to positive real-world impact

For more details on our engagement approach, please refer to our Engagement and Stewardship policy found here: https://franklintempletonprod.widen.net/content/qz5ty08kfn/original/engagementstewardshippolicy.pdf

- 3. The Fund did not invest in its set revenue thresholds, as outlined in the prospectus, for the following industries:
 - Tobacco
 - Controversial weapons
 - Gambling
 - Adult entertainment
- 4. The Fund did not invest in companies that violate one or several of the ten principles under the four areas covered by UNGC (human rights, labour, environment and anti-corruption).

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable

FTGF ClearBridge US Equity Sustainability Leaders Fund

Entity LEI: 549300RLIXEW79ZFOB12

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? YES ⊠ NO promoted Environmental/Social ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: ___% objective a sustainable investment, it had a proportion of 81.00% of sustainable investments in economic activities that qualify as with an environmental objective in economic environmentally sustainable under the EU activities that qualify as environmentally sustainable under the EU Taxonomy in economic activities that do not qualify as with an environmental objective in economic environmentally sustainable under the EU activities that do not qualify as environmentally sustainable under the EU Taxonomy Taxonomy with a social objective ☐ It promoted E/S characteristics, but did not make ☐ It made sustainable investments with a social objective: ____% any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

During the reporting period, as part of its investment policy, the Investment Manager invested in companies across market capitalizations promoting strong or improving environmental, social and governance ("ESG") characteristics. The Fund used an established proprietary research and engagement process to determine whether a company is a Sustainability Leader. This proprietary process includes generating an ESG ratings system that utilized a materiality map to identify specific ESG characteristics that pertained to the investment. These characteristics included, but were not limited to:

- Energy efficiency;
- Clean power;
- Carbon mitigating enabling technologies;
- Water efficiency;
- Material waste reduction processes;
- · Workforce diversity;
- Health and wellness;
- · Fair wages;
- · Supply chain monitoring; and
- Community involvement.

Additionally, the Fund has maintained its committed 50% percent "sustainable investment" minimum.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- the proportion of the Fund held in sustainable investments as defined under the Investment Manager's proprietary sustainable investments methodology which includes product and/or service alignment with the United Nations Sustainable Development Goals ("SDG"), which was 63%, and consideration of Do No Significant Harm (DNSH);
- specific principal adverse impact ("PAI") indicators, specifically PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity), PAI #4 (Exposure to companies active in the fossil fuel sector), PAI #7 (Activities negatively affecting biodiversity-sensitive areas), PAI #10 (Violations of the UN Global Compact and OECD Guidelines), PAI #13 (Board Gender Diversity), and PAI #14 (Exposure to controversial weapons) were calculated. Please refer to the values disclosed in the section "How did this financial product consider principal adverse impacts on sustainability factors?";
- proprietary methodologies to assess the progress of the Investment Manager's ESG engagement meetings;
 ClearBridge conducted periodic ESG engagements with its portfolio companies. Investment team's views of progress discussed during these meetings were reflected in their proprietary ESG ratings, proxy voting decisions, and investments decisions.
- portfolio exposure to best-in-class issuers, as defined by proprietary ESG ratings; The rating distribution for this Fund as of 12/31/22 is:
 - o AAA: 63%
 - o AA: 35%
 - o A: 2%
 - o B: 0%
- Fund is considered in-scope for ClearBridge's Net Zero target and is therefore measured against the proportion of companies that have set, and have committed to set, science-based targets for greenhouse gas emissions reductions or are climate solutions providers:

Sustainability KPI Name	Value
Net-Zero Aligned	50.51%
Committed To Set Net-Zero Aligned Target	12.07%

… And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The sustainable investments made by the Fund were in equity securities issued by companies which contributed to one of the following:

- through their products and services, to any one or more of the environmental or social objectives of the SDGs and their underlying targets and indicators determined through the Investment Manager's assessment for contribution; or
- GHG intensity and emissions reduction targets across a firm's economic activities determined through a third party verified decarbonization target aligned to the Paris Agreement. Issuers are monitored for progress against targets through our engagement process.

In addition to contributing to one of the environmental or social objectives listed above, companies must go through a proprietary good governance evaluation and must pass the Do No Significant Harm (DNSH) criteria as further detailed below.

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used a combination of third party severe risk controversy scores, third party global norms based screening including UN Global Compact (UNGC) compliance, PAI consideration* and other material environmental, social, and governance factors, which were embedded in the Investment Manager's fundamental research and proprietary ESG ratings process, which included a governance evaluation, to review if investments cause significant harm to any sustainable investment objective.

Additionally, the Investment Manager used its engagement process to identify best in class securities.

*The PAIs taken into consideration were dependent on the Investment Manager's proprietary ESG materiality assessment by sub-sector which was applied during its ESG rating process or on data availability.

--How were the indicators for adverse impacts on sustainability factors taken into account?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process.

The manner in which PAIs were considered and taken into account is set out in further detail below.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Manager supports the principles of the UNGC. Therefore, the Fund did not invest in companies that violated any of the ten principles in each of the four areas (human rights, labor, environment, and anti-corruption) of the UNGC.

The Investment Manager used a third-party data provider who monitored compliance with UNGC principles. In instances where there were discrepancies or disagreements between the Investment Manager's research and the provider's assessment of a specific controversy, the Investment Manager, along with the compliance team and members of the ESG team engaged the company on the issue. Where the Investment Manager reached a consensus that the company had taken the necessary steps to address the controversy, or had effectively remediated the issue, the Investment Manager provided a detailed explanation for why the company continued to be invested in.

To ensure sustainable investments were aligned with the OECD guidelines, the Investment Manager used a third-party provider as a best effort to monitor compliance and potential violations.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process, specifically:

PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity)

The Investment Manager assessed the specific climate-related risks and opportunities faced by individual companies as part of its stock selection process, which integrated these considerations, among other environmental, social and governance considerations;

While the Investment Manager assesses each sector on a specific set of criteria that was pertinent to its business operations, the assessment generally included careful consideration of climate-related factors such as: the regulatory/policy environment; the geographic location of assets and operations; the ability to pass on costs to customers; technology alternatives and advancements; changing customer preferences; commodity prices; future capital expenditure and R&D plans; long-term business strategy; overall quality of the management team; and other factors; and

The Investment Manager used MSCI Carbon Portfolio Analytics to assess exposure to companies with fossil fuel reserves. The Investment Manager conducted carbon intensity analysis on the firm's investments in aggregate to understand the carbon intensity of the firm's total assets relative to the global equity markets. The Investment Manager also conducted analysis on carbon intensity at the portfolio level.

PAI #4 (Exposure to companies active in the fossil fuel sector)

The Fund did not invest in a company whose primary business involved the extraction of fossil fuels.

PAI #7 (Activities negatively affecting biodiversity-sensitive areas)

While the fund does not currently have formal thresholds on exclusions related to biodiversity issues, it was taken into consideration among the broader environmental and climate impact assessment for investments and potential investments of the Fund. The Fund expects all companies invested in to have a positive biodiversity profile and any transgressions could result in exclusion from investment.

PAI #10 (Violation of UNGC / OECD Guidelines)

Please refer to "Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?"

PAI #13 (Board gender diversity)

The Investment Manager uses third-party data for board gender diversity monitoring. Further, the Investment Manager has a provision in its Proxy Voting Policy to vote against the nominating committee members and chair if the company does not have at least one female board director. The Investment Manager considered Diversity, Equality and Inclusion as a component of its ESG analysis and rating, as well as a firm-wide theme for company engagement.

PAI #14 (Exposure to controversial weapons)

The Fund did invest in companies that generate any of their turnover from the production and/or distribution of controversial weapons (i.e., antipersonnel mines, nuclear weaponry, biological & chemical weaponry, cluster munitions, white phosphorus).

Principal Adverse Indicator metrics below are as of 31 December 2022.

PAI indicators	Value	Coverage
GHG Emissions: Total Emissions USD	1,514,149.99	98.66%
Carbon Footprint USD	973.99	98.66%
GHG Intensity USD	1,881.15	98.66%
Exposure to companies active in the fossil fuel sector.	3.78%	98.66%
Activities negatively affecting biodiversity-sensitive areas	0.00%	98.66%
Violations of UNGC principles and OECD Guidelines	0.00%	98.66%
Board gender diversity	34.46%	98.66%
Exposure to controversial weapons	0.00%	98.66%

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2022-01-01 - 2022-12-31.

What were the top investments of this financial product?

The top investments of this Fund, excluding cash and derivatives, were:

Top investments	Sector	Proportion	Country
MICROSOFT CORP	Information Technology	6.40%	United States
APPLE INC	Information Technology	5.11%	United States

What was the proportion of sustainability-related investments?

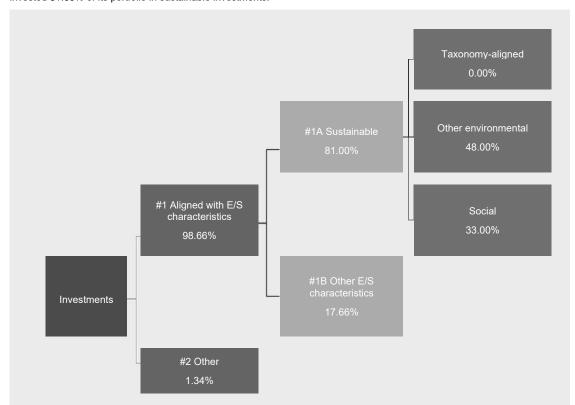

The proportion of sustainability-related investments was 81.00%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 98.66% of the Fund's portfolio was aligned with the E/S characteristics promoted by the Fund. The remaining portion (1.34%) was not aligned with the promoted characteristics and consisted primarily of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 81.00% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Top sector	Proportion
Information Technology	27.91%
Health Care	19.46%
Financials	14.41%
Industrials	11.17%
Consumer Discretionary	9.60%
Consumer Staples	4.35%
Communication Services	3.41%
Real Estate	2.92%
Materials	2.76%
Utilities	2.68%

Top sub-sector	Proportion
Software	8.52%
Health Care Providers & Services	6.40%
Electrical Equipment	5.88%
Capital Markets	5.77%
Semiconductors & Semiconductor Equipment	5.46%
Technology Hardware Storage & Peripheral	4.62%
Insurance	4.41%
Banks	4.22%
Life Sciences Tools & Services	3.97%
Elec. Equipment Instruments & Component	3.86%
Pharmaceuticals	3.79%
Biotechnology	3.76%
IT Services	3.56%
Specialty Retail	3.48%
Building Products	2.97%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

.0				PA,
Bi	F	Y	7	Ы
ш		2		

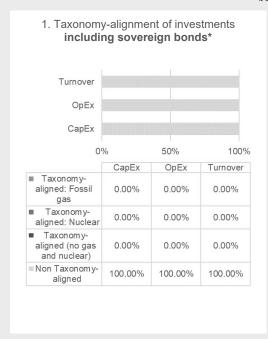

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

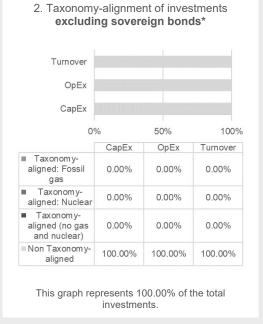

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

П	Yes	
	□ In fossil gas	□ In nuclear energy
\boxtimes	No	

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

^{*} For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities as defined in Article 16 and Article 10(2) of the EU Taxonomy Regulation.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy and, accordingly, as of the end of February 2023, 48.00% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 33.00%.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under "#2 Other" was 1.34% and comprised of cash held on deposit and derivative instruments used for hedging and derivatives for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

1. The Investment Manager utilized its proprietary rating system and fundamental research to identify Sustainability Leaders, including a good governance screen. The rating system consisted of four rating levels: AAA, AA, A and B, which were assigned to companies based on their sustainability strategy and performance key ESG issues. All companies in the Fund have been rated. The Investment Manager considers AAA and AA to be "best-in-class". The rating distribution for this Fund as of 12/31/22 was:

AAA: 63%

AA: 35%

A: 2%

B: 0%

- 2. The Investment Manager continuously engaged with its portfolio companies. ESG engagement at ClearBridge generally had two overlapping objectives:
 - Research: Gaining a better understanding of ESG issues that could impact our investment thesis
 - Impact: Encouraging specific changes at the company that could lead to positive real-world impact

For more details on our engagement approach, please refer to our Engagement and Stewardship policy found here: https://franklintempletonprod.widen.net/content/qz5ty08kfn/original/engagementstewardshippolicy.pdf

- 3. The Fund did not invest in its set revenue thresholds, as outlined in the prospectus, for the following industries:
 - Fossil fuels
 - Tobacco
 - · Controversial weapons
 - · Conventional weapons
 - Nuclear Power
 - Gambling
 - Adult entertainment

4. The Fund did not invest in companies that violate one or several of the ten principles under the four areas covered by UNGC (human rights, labour, environment and anti-corruption).

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable

FTGF ClearBridge Global Growth Fund

Entity LEI: 549300S2ND6DHQ60NF78

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustain					nab	пе	inve	estment objective?
4	00	[YES	00		⊠ I	NO
				ade sustainable investments with an ronmental objective:%		×	char objec	promoted Environmental/Social (E/S) acteristics and while it did not have as its citive a sustainable investment, it had a proportion 0.00% of sustainable investments
				in economic activities that qualify as environmentally sustainable under the EU Taxonomy				with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
				in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy				with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
							\boxtimes	with a social objective
				nade sustainable investments with a ial objective:%				omoted E/S characteristics, but did not make sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

In selecting securities during the reporting period, the Investment Manager used an established proprietary research and engagement process to determine a company's profile on environmental, social and governance ("ESG") issues. This proprietary process generated an ESG ratings system that utilized a materiality map to identify specific ESG characteristics that pertained to the investment. The environmental and/or social characteristics promoted by the Fund are key (ESG) issues deemed material to the specific company and the sector in which the company operates which included, but are not limited to, health and safety, gender diversity, climate risk, corporate governance risk and data security.

Additionally, the fund has maintained its committed 5% percent "sustainable investment" minimum.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- the proportion of the Fund held in sustainable investments as defined under the Investment Manager's proprietary sustainable investments methodology which includes product and/or service alignment with the United Nations Sustainable Development Goals ("SDG"), which was 35%, and consideration of Do No Significant Harm (DNSH);
- specific Principal Adverse Impact (PAI) indicators, namely: PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity), PAI #10 (Violations of UN Global Compact and OECD Guidelines), PAI #13 (Board Gender Diversity) and PAI #14 (Exposure to controversial weapons) were calculated. Please refer to the values disclosed in the section "How did this financial product consider principal adverse impacts on sustainability factors?";
- proprietary methodologies to assess the progress of the Investment Manager's ESG engagement meetings;
 ClearBridge conducted periodic ESG engagements with its portfolio companies. Investment team's views of progress discussed during these meetings were reflected in their proprietary ESG ratings, proxy voting decisions, and investments decisions
- portfolio exposure to best-in-class companies as determined by the Investment Manager's proprietary ESG rating.
 The rating distribution for this Fund as of 12/31/22 is:
 - o AAA: 38%
 - o AA: 44%
 - o A: 18%
 - o B: 0%

… And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The sustainable investments made by the Fund were in equity securities issued by companies which contributed to at least one of the following:

through their products and services, to any one or more of the environmental or social objectives of the SDGs and their underlying targets and indicators determined through the Investment Manager's assessment for contribution; 35% of the portfolio

and/or

 GHG intensity and emissions reduction targets across a firm's economic activities determined through a third party verified decarbonization target aligned to the Paris Agreement. Issuers were monitored for progress against targets through our engagement process. 48% of the portfolio

In addition to contributing to one of the environmental or social objectives listed above, companies were evaluated by the Investment Manager's proprietary good governance screen and passed the Do No Significant Harm (DNSH) criteria as further detailed below.

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used a combination of third party severe risk controversy scores, third party global norms based screening including UN Global Compact (UNGC) compliance, PAI consideration* and other material environmental, social, and governance factors, which were embedded in the Investment Manager's fundamental research and proprietary ESG ratings process, which included a governance evaluation, to review if investments caused significant harm to any sustainable investment objective.

Additionally, the Investment Manager used its engagement process to identify best in class securities.

*The PAIs taken into consideration were dependent on the Investment Manager's proprietary ESG materiality assessment by sub-sector which was applied during its ESG rating process or on data availability.

--How were the indicators for adverse impacts on sustainability factors taken into account?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process.

The manner in which PAIs were considered and taken into account is set out in further detail below

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Manager supports the principles of the UNGC. Therefore, the Fund did not invest in companies that violated any of the ten principles in each of the four areas (human rights, labor, environment, and anti-corruption) of the UNGC.

The Investment Manager used a third-party data provider who monitored compliance with UNGC principles. In instances where there were discrepancies or disagreements between the Investment Manager's research and the provider's assessment of a specific controversy, the Investment Manager, along with the compliance team and members of the ESG team engaged the company on the issue. Where the Investment Manager reached a consensus that the company had taken the necessary steps to address the controversy, or had effectively remediated the issue, the Investment Manager provided a detailed explanation for why the company continued to be invested in.

To ensure sustainable investments were aligned with the OECD guidelines, the Investment Manager used a third-party provider as a best effort to monitor compliance and potential violations.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process, specifically:

PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity)

The Investment Manager assessed the specific climate-related risks and opportunities faced by individual companies as part of its stock selection process, which integrated these considerations, among other environmental, social and governance considerations;

While the Investment Manager assessed each sector on a specific set of criteria that was pertinent to its business operations, the assessment generally included careful consideration of climate-related factors such as: the regulatory/policy environment; the geographic location of assets and operations; the ability to pass on costs to customers; technology alternatives and advancements; changing customer preferences; commodity prices; future capital expenditure and R&D plans; long-term business strategy; overall quality of the management team; and other factors; and

The Investment Manager used MSCI Carbon Portfolio Analytics to assess exposure to companies with fossil fuel reserves. The Investment Manager conducted carbon intensity analysis on the firm's investments in aggregate to understand the carbon intensity of the firm's total assets relative to the global equity markets. The Investment Manager can also conduct analysis on carbon intensity at the portfolio level.

PAI #10 (Violation of UNGC / OECD Guidelines)

Please refer to "Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?".

PAI #13 (Board gender diversity)

The Investment Manager uses third-party data for board gender diversity monitoring. Further, the Investment Manager has a provision in its Proxy Voting Policy to vote against the nominating committee members and chair if the company does not have at least one female board director. The Investment Manager also considered Diversity, Equality and Inclusion as a component of its ESG analysis and rating, as well as a firm-wide theme for company engagement.

PAI #14 (Exposure to controversial weapons)

The Fund did not invest in companies that generate any of their turnover from the production and/or distribution of controversial weapons (i.e., antipersonnel mines, nuclear weaponry, biological & chemical weaponry, and cluster munitions).

Principal Adverse Indicator metrics below are as of 31 December 2022.

PAI indicators	Value	Coverage
GHG Emissions: Total Emissions USD	1,295.82	96.85%
Carbon Footprint USD	104.70	96.85%
GHG Intensity USD	486.01	98.22%
Violations of UNGC principles and OECD Guidelines	0.00	98.22%
Board gender diversity	36.36	95.59%
Exposure to controversial weapons	0.00	95.59%

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2022-01-01 - 2022-12-31.

What were the top investments of this financial product?

The top investments of this Fund, excluding cash and derivatives, were:

Top investments	Sector	Proportion	Country
MICROSOFT CORP	Information Technology	4.22%	United States
APPLE INC	Information Technology	3.58%	United States
ALPHABET INC	Communication Services	2.63%	United States
UNION PACIFIC CORP	Industrials	2.42%	United States
AMAZON.COM INC	Consumer Discretionary	2.31%	United States
DIAGEO PLC	Consumer Staples	2.30%	United Kingdom

RAYMOND JAMES FINANCIAL INC	Financials	1.58%	United States

What was the proportion of sustainability-related investments?

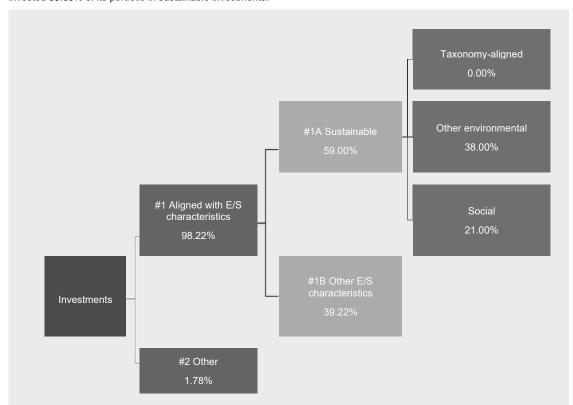

The proportion of sustainability-related investments was 59.00%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 98.22% of the Fund's portfolio was aligned with the E/S characteristics promoted by the Fund. The remaining portion (1.78%) was not aligned with the promoted characteristics and consisted primarily of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 59.00% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Top sector	Proportion
Health Care	20.17%
Information Technology	18.86%
Financials	13.96%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

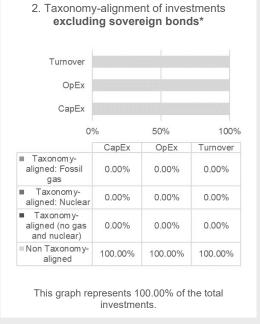

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

П	Yes				
	☐ In fossil gas	□ In nuclear energy			
\boxtimes	No				

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

^{*} For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities as defined in Article 16 and Article 10(2) of the EU Taxonomy Regulation.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy and, accordingly, as of the end of February 2023, 38.00% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 21.00%.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under "#2 Other" was 1.78% and comprised of cash held on deposit and derivative instruments used for hedging and derivatives for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

1. The Investment Manager utilized its proprietary rating system and fundamental research to assess how a company manages its ESG risks and opportunities, including good governance screen. The rating system consisted of four rating levels: AAA, AA, A and B, which were assigned to companies based on their sustainability strategy and performance key ESG issues. All companies in the Fund were rated. The rating distribution for this Fund as of 12/31/22 was:

AAA: 38%

AA: 44%

A: 18%

B: 0%

- 2. The Investment Manager continuously engaged with its portfolio companies. ESG engagement at ClearBridge generally had two overlapping objectives:
 - · Research: Gaining a better understanding of ESG issues that could impact our investment thesis
 - Impact: Encouraging specific changes at the company that could lead to positive real-world impact

For more details on our engagement approach, please refer to our Engagement and Stewardship policy found here: https://franklintempletonprod.widen.net/content/qz5ty08kfn/original/engagementstewardshippolicy.pdf

- 3. The Fund did not invest in or its set revenue thresholds, as outlined in the prospectus, for the following industries:
 - Tobacco
 - Controversial weapons
 - Gambling
 - Adult entertainment
- 4. The Fund did not invest in companies that violate one or several of the ten principles under the four areas covered by UNGC (human rights, labour, environment and anti-corruption).

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable

FTGF ClearBridge Infrastructure Value Fund

Entity LEI: 549300C63RJNQRH38W57

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustai	nable investment objective?		
•• □ YES	●○ ⊠ NO		
☐ It made sustainable investments with an environmental objective:%	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 57.35% of sustainable investments		
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	□ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy		
in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy		
	□ with a social objective		
☐ It made sustainable investments with a social objective:%	☐ It promoted E/S characteristics, but did not make any sustainable investments		

To what extent were the environmental and/or social characteristics promoted by this financial product met?

In selecting securities during the reporting period, the Investment Manager used an established proprietary research and engagement process to determine a company's profile on environmental, social and governance ("ESG") issues. This proprietary process includes an ESG ratings system that utilizes a materiality map to identify specific ESG characteristics that pertain to the investment.

Included amongst those ESG characteristics identified are:

- Environmental factors such as a company's environmental practices, Greenhouse Gas (GHG) emissions, and climate
 mitigation actions such as decarbonisation plans and investments that support the transition to a lower carbon economy;
- Social factors such as a company's approach to community relations, occupational safety and health, and provision of fair access to essential services

The Investment Manager applied its ESG process to all investments during the period. In addition, the Fund met its committed 15% percent "sustainable investment" minimum.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each environmental or social characteristic promoted by the Fund were:

- the proportion of the Fund held in sustainable investments as defined by the Investment Manager's proprietary sustainable investments methodology was 57%; and
- the Fund's portfolio ESG rating (7.31) compared to the ESG rating of the investment universe (6.45), as seen in the table below

Where the ESG scores are based on MSCI data, equal weighted for the "Investable universe ESG rating" and portfolio weighted for the "Fund ESG rating". Additionally, we note, the Fund performance exceeds the Investable universe rating utilising other external ESG rating providers. The Fund's "investable universe" includes 200 infrastructure stocks collectively called the RARE200, reviewed quarterly as part of the investment process.

Sustainability KPI Name	Value
Fund ESG rating	7.31
Investable universe ESG rating	6.45

… And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

Given the Fund's infrastructure mandate to invest in core infrastructure assets and the important role infrastructure plays in both the provision of essential services and energy transition, the Fund held investments that contributed to the sustainable objectives relating to climate change mitigation and/or adaptation objectives, and/or made a positive social contribution.

Of the Sustainable Investments the key contributions to the objectives included:

- · Electric utility companies supporting the transition to a low carbon economy and thus climate change mitigation (32%)
- Lower emission mobility infrastructure supporting the transition to a lower carbon economy and thus climate change mitigation (38%)
- Water utilities that support adaptation to climate change and social impact by providing access to essential clean reliable water (18%)
- Communications infrastructure that may provide an alternative to transport as well as social impact by providing access to essential services (12%)

The above was initially assessed by considering the contributions to one of both of the following:

- SDG alignment of products and services (45% of the portfolio)
- GHG intensity and emissions reduction targets across a firm's economics activities determined through a third party verified decarbonization target aligned to the Paris Agreement (48% of the portfolio)

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-

bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used a combination of third party severe risk controversy scores, third party global norms based screening including UN Global Compact (UNGC) compliance, PAI consideration* and other material environmental, social, and governance factors, which were embedded in the Investment Manager's fundamental research and proprietary ESG ratings process, which included a good governance evaluation, to review if investments caused significant harm to any sustainable investment objective.

Additionally, the Investment Manager used its engagement process to identify best in class securities.

*The PAIs taken into consideration were dependent on the Investment Manager's proprietary ESG materiality assessment by sub-sector which was applied during its ESG rating process or on data availability.

--How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager's investment process integrated ESG via a bottom-up research-driven approach that utilised many data sources, including PAIs. PAI's were considered in the context of the relevant infrastructure sub-sector.

The manner in which PAIs were considered and taken into account is set out in further detail below.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Manager supports the principles of the UNGC. Therefore, the Fund did not invest in companies that violated any of the ten principles in each of the four areas (human rights, labor, environment, and anti-corruption) of the UNGC.

The Investment Manager used a third-party data provider who monitored compliance with UNGC principles. In instances where there were discrepancies or disagreements between the Investment Manager's research and the provider's assessment of a specific controversy, the Investment Manager, along with the compliance team and members of the ESG team engaged the company on the issue. Where the Investment Manager reached a consensus that the company had taken the necessary steps to address the controversy, or had effectively remediated the issue, the Investment Manager provided a detailed explanation for why the company continued to be invested in.

To ensure sustainable investments were aligned with the OECD guidelines, the Investment Manager used a third-party provider as a best effort to monitor compliance and potential violations.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAIs were considered as part of the Investment Manager's broad ESG process as well as the consideration of the do no significant harm (DNSH) principle. The ESG processes where PAIs were considered were: (i) the proprietary ESG score; (ii) controversy monitoring and ongoing engagement; and (iii) qualitative ESG considerations.

The following PAIs were considered:

PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity)

The Investment Manager assessed the specific climate-related risks and opportunities faced by individual companies as part of its bottom-up stock selection process, which integrated GHG data, among other environmental, social and governance considerations. Each infrastructure sub-sector was assessed against a weighting of factors relevant to its business operations. Company management of GHG emissions, including credible reduction plans, is also considered as part of this process.

PAI #5 (Share of non-renewable energy production)

The Investment Manager assessed energy generation mix as part of its bottom-up research assessment, particularly as it pertains to climate change and Net Zero goals. The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria. The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities. Any other sustainable investments must also not significantly harm any environmental or social objectives.

PAI #10 (Violations of UNGC / OECD Guidelines)

Please refer to "Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?".

PAI #14 (Exposure to controversial weapons)

The Fund does not, and did not, invest in companies that generate any turnover from (a) banned weapons according to (i) The Convention of the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction and (ii) The Convention on the Prohibition of Cluster Munitions and (b) weapons classed as either B- or C- weapons pursuant to the United Nations Biological Weapons Convention and the United Nations Chemical Weapons Convention respectively.

Principal Adverse Indicator metrics below are as of 31 December 2022.

PAI indicators	Value	Coverage
GHG Emissions: Total Emissions USD	319,510.77	92.41%
Carbon Footprint USD	313.64	92.41%
GHG Intensity USD	2,125.77	95.98%
Exposure to companies active in the fossil fuel sector.	43.82%	92.41%
Activities negatively affecting biodiversity-sensitive areas	0.00%	92.41%
Violations of UNGC principles and OECD Guidelines	0.00%	95.98%
Board gender diversity	37.37%	92.41%
Exposure to controversial weapons	0.00%	92.41%

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2022-01-01 - 2022-12-31.

What were the top investments of this financial product?

The top investments of this Fund, excluding cash and derivatives, were:

Top investments	Sector	Proportion	Country
NEXTERA ENERGY INC	Utilities	4.63%	United States
GETLINK SE	Industrials	3.81%	France
AMERICAN TOWER CORP	Real Estate	3.78%	United States
PUBLIC SERVICE ENTERPRISE GROUP INC	Utilities	3.59%	United States
EAST JAPAN RAILWAY CO	Industrials	3.55%	Japan
SSE PLC	Utilities	3.46%	United Kingdom
CHENIERE ENERGY INC	Energy	3.14%	United States
ENBRIDGE INC	Energy	3.13%	Canada
TRANSURBAN GROUP	Industrials	3.07%	Australia
IBERDROLA SA	Utilities	2.99%	Spain
CONSTELLATION ENERGY CORP	Utilities	2.92%	United States
PEMBINA PIPELINE CORP	Energy	2.89%	Canada
CELLNEX TELECOM SA	Communication Services	2.87%	Spain
UNION PACIFIC CORP	Industrials	2.87%	United States
FERROVIAL SA	Industrials	2.85%	Spain

What was the proportion of sustainability-related investments?

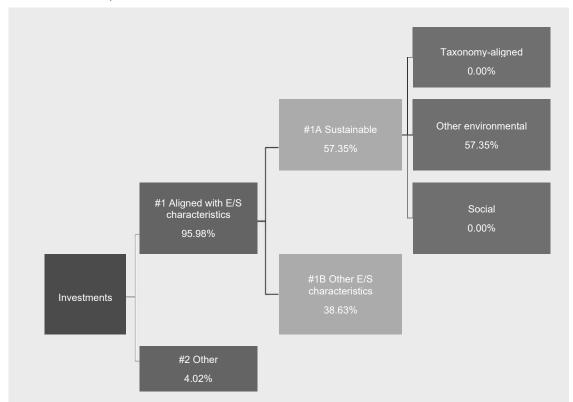

The proportion of sustainability-related investments was 57.35%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 95.98% of the Fund's portfolio was aligned with the E/S characteristics promoted by the Fund. The remaining portion (4.02%) was not aligned with the promoted characteristics and consisted primarily of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 57.35% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Top sector	Proportion
Utilities	51.68%
Industrials	24.64%
Energy	13.18%
Real Estate	3.73%
Communication Services	2.75%

Top sub-sector	Proportion	
Electric Utilities	36.83%	
Oil Gas & Consumable Fuels	13.18%	
Ground Transportation	11.44%	
Water Utilities	9.85%	
Transportation Infrastructure	9.02%	
Construction & Engineering	4.18%	
Equity Real Estate Investment Trusts	3.73%	
Multi-Utilities	3.12%	
Diversified Telecommunication Services	2.75%	
Gas Utilities	1.87%	

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

4	đ		b	k.
6		Y		P
E	Ņ	M	B	7

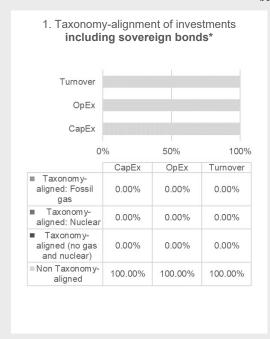

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

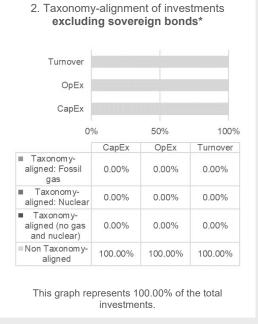

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

	Yes				
	□ In fossil gas	□ In nuclear energy			
\boxtimes	No				

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities as defined in Article 16 and Article 10(2) of the EU Taxonomy Regulation.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy and, accordingly, as of the end of February 2023, 57.35% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 0.00%.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under "#2 Other" was 4.02% and comprised of cash held on deposit and derivative instruments used for hedging and derivatives for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

1. The Investment Manager consistently applied its ESG process, that is integrated and considered in all key elements of the investments process.

This included:

- Negative screens at investable universe construction to respect limits for extraction and productions of fossil fuels, tobacco, weapons and UNGC failures
- Applied its Three Pillar process for ESG integration, namely:
 - Forecasted cashflow adjustments based on ESG factors
 - Required return adjustment based on ESG risk as assessed by the Managers proprietary scorecard (see below)
 - Engagement, including controversy monitoring
- Other ESG analysis and processes including, but not limited to, Sustainability Reviews of company ESG scorecards, energy mix analysis and decarbonisation plans, PAI consideration and so on.

Some of the above actions are further described with outcomes below.

- 2. The Investment Manager utilized its proprietary rating system and fundamental research to assess how a company manages its ESG risks and opportunities. The rating system consisted of four rating levels: AAA, AA, A and B, which are assigned to companies based on their sustainability strategy and performance key ESG issues. All companies in the fund have been rated. The rating distribution for this fund as of 12/31/22 is:
 - AAA: 25%
 - AA: 60%
 - A: 15%
 - B: 0%
- 3. The Investment Manager engaged with its portfolio companies on an ongoing basis. ESG engagement at ClearBridge generally had two overlapping objectives:
 - · Research: Gaining a better understanding of ESG issues that could impact our investment thesis
 - Impact: Encouraging specific changes at the company that could lead to positive real-world impact

The Fund's engagements over the reporting were as follows:

- Environmental: 48%
- Social: 22%
- Governance: 30%
- 4. The result was the Fund respected the binding elements of its investment strategy.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social

characteristics that they promote.

Not applicable

FTGF Clearbridge Global Infrastructure Income Fund

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? YES ⊠ NO promoted Environmental/Social ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: ___% objective a sustainable investment, it had a proportion of 35.52% of sustainable investments in economic activities that qualify as with an environmental objective in economic environmentally sustainable under the EU activities that qualify as environmentally sustainable under the EU Taxonomy in economic activities that do not qualify as with an environmental objective in economic environmentally sustainable under the EU activities that do not qualify as environmentally sustainable under the EU Taxonomy Taxonomy with a social objective ☐ It promoted E/S characteristics, but did not make ☐ It made sustainable investments with a social objective: ____% any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted a positive impact with respect to:

- Climate change mitigation;
- · Climate change adaptation; and/or
- Social impact.

The promotion of a positive impact in the above areas resulted in the Fund promoting the following environmental and/or social characteristics during the reference period:

- investments that support the transition to a low carbon economy, either through direct reduction in emissions, enabling
 of lower emission alternatives or the provision of lower emissions substitute products or services such as rail transport
 versus air or road alternatives;
- · infrastructure investments supporting adaptation to climate change;
- infrastructure that supports social impact, such as provision of fair access to essential services, for example access to water, energy and communications; and
- · compliance with the UN Global Compact (UNGC) principles.

In selecting securities during the reporting period, the Investment Manager used an established proprietary research and engagement process to determine a company's profile on environmental, social and governance ("ESG") issues. This proprietary process includes an ESG ratings system that utilizes a materiality map to identify specific ESG characteristics that pertain to the investment.

The Investment Manager applied its ESG process to all investments during the period. In addition, the Fund met its committed 15% percent "sustainable investment" minimum.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each environmental or social characteristic promoted by the Fund were:

- the proportion of the Fund held in sustainable investments as defined by the Investment Manager's proprietary sustainable investments methodology was 35.5%; and
- the Fund's portfolio ESG rating (7.89) compared to the ESG rating of the investment universe (6.58), as seen in the table below

Where the ESG scores are based on MSCI data, equal weighted for the "Investable universe ESG rating" and portfolio weighted for the "Fund ESG rating". Additionally we note the Fund performance exceeds the Investable universe rating utilising other external ESG rating providers.

Sustainability KPI Name	Value
Fund ESG rating	7.89
Investable universe ESG rating	6.58

… And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

Given the Fund's infrastructure mandate to invest in core infrastructure assets and the important role infrastructure plays in both the provision of essential services and energy transition, the Fund held investments that contributed to sustainable objectives relating to climate change mitigation and/or adaptation objectives, as well as made a positive social contribution.

Of the Sustainable Investments the key contributions to the objectives included:

- Electric utilities and renewables companies supporting the transition to a low carbon economy and thus climate change mitigation (60%)
- Lower emission mobility infrastructure supporting the transition to a lower carbon economy and thus climate change mitigation (24%)
- Water utilities that support adaptation to climate change and social impact by providing access to essential clean reliable water (15%)

The above was initially assessed by considering the contributions to one of both of the following:

- SDG alignment of products and services (36.5% of the portfolio)
- GHG intensity and emissions reduction targets across a firm's economics activities determined through a third party verified decarbonization target aligned to the Paris Agreement (34.4% of the portfolio)

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used a combination of third party severe risk controversy scores, third party global norms based screening including UN Global Compact (UNGC) compliance, PAI consideration* and other material environmental, social, and governance factors, which were embedded in the Investment Manager's fundamental research and proprietary ESG ratings process, which included a good governance evaluation, to review if investments caused significant harm to any sustainable investment objective.

Additionally, the Investment Manager used its engagement process to identify best in class securities.

*The PAIs taken into consideration were dependent on the Investment Manager's proprietary ESG materiality assessment by sub-sector which was applied during its ESG rating process or on data availability.

--How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager's investment process integrated ESG via a bottom-up research-driven approach that utilised many data sources, including PAIs. PAI's were considered in the context of the relevant infrastructure sub-sector.

The manner in which PAIs were considered and taken into account is set out in further detail below.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

The Investment Manager supports the principles of the UNGC. Therefore, the Fund did not invest in companies that violated any of the ten principles in each of the four areas (human rights, labor, environment, and anti-corruption) of the UNGC.

The Investment Manager used a third-party data provider who monitored compliance with UNGC principles. In instances where there were discrepancies or disagreements between the Investment Manager's research and the provider's assessment of a specific controversy, the Investment Manager, along with the compliance team and members of the ESG team engaged the company on the issue. Where the Investment Manager reached a consensus that the company had taken the necessary steps to address the controversy, or had effectively remediated the issue, the Investment Manager provided a detailed explanation for why the company continued to be invested in.

To ensure sustainable investments were aligned with the OECD guidelines, the Investment Manager used a third-party provider as a best effort to monitor compliance and potential violations.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAIs were considered as part of the Investment Manager's broad ESG process as well as the consideration of the do no significant harm (DNSH) principle. The ESG processes where PAIs were considered were: (i) the proprietary ESG score; (ii) controversy monitoring and ongoing engagement; and (iii) qualitative ESG considerations.

The following PAIs were considered:

PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity)

The Investment Manager assessed the specific climate-related risks and opportunities faced by individual companies as part of its bottom-up stock selection process, which integrated GHG data, among other environmental, social and governance considerations. Each infrastructure sub-sector was assessed against a weighting of factors relevant to its business operations. Company management of GHG emissions, including credible reduction plans, were also considered as part of this process.

PAI #5 (Share of non-renewable energy production)

The Investment Manager assessed energy generation mix as part of its bottom-up research assessment, particularly as it pertains to climate change and Net Zero goals.

PAI #10 (Violations of UNGC / OECD Guidelines)

Please refer to " « Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?".

PAI #14 (Exposure to controversial weapons)

The Fund does not, and did not, invest in companies that generate any turnover from (a) banned weapons according to (i) The Convention of the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction and (ii) The Convention on the Prohibition of Cluster Munitions and (b) weapons classed as either B- or C- weapons pursuant to the United Nations Biological Weapons Convention and the United Nations Chemical Weapons Convention respectively.

Principal Adverse Indicator metrics below are as of 31 December 2022.

PAI indicators	Value	Coverage
GHG Emissions: Total Emissions USD	139,114.60	96.67%
Carbon Footprint USD	351.77	96.67%
GHG Intensity USD	2,500.32	98.02%
Exposure to companies active in the fossil fuel sector.	61.11%	94.59%
Activities negatively affecting biodiversity-sensitive areas	0.00%	94.59%
Violations of UNGC principles and OECD Guidelines	0.00%	98.02%
Board gender diversity	37.07%	94.59%
Exposure to controversial weapons	0.00%	94.59%

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2022-01-01 - 2022-12-31.

What were the top investments of this financial product?

The top investments of this Fund, excluding cash and derivatives, were:

Top investments	Sector	Proportion	Country
IBERDROLA SA	Utilities	4.72%	Spain
PUBLIC SERVICE ENTERPRISE GROUP INC	Utilities	4.36%	United States
NATIONAL GRID PLC	Utilities	4.34%	United Kingdom

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

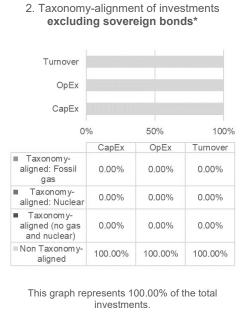

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

П	Yes	
	□ In fossil gas	□ In nuclear energy
\boxtimes	No	

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities as defined in Article 16 and Article 10(2) of the EU Taxonomy Regulation.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy and, accordingly, as of the end of February 2023, 35.52% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 0.00%.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under "#2 Other" was 1.98% and comprised of cash held on deposit and derivative instruments used for hedging and derivatives for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

1. The Investment Manager consistently applied its ESG process, that is integrated and considered in all key elements of the investments process.

This included:

- Negative screens at investable universe construction to respect limits for extraction and productions of fossil fuels, tobacco, weapons and UNGC failures
- The application of its Three Pillar process for ESG integration, namely:
 - $\circ \qquad \text{Forecasted cashflow adjustments based on ESG factors}$
 - Required return adjustment based on ESG risk as assessed by the Managers proprietary scorecard (see below)
 - Engagement, including controversy monitoring
- Other ESG analysis and processes including, but not limited to, Sustainability Reviews of company ESG scorecards, energy mix analysis and decarbonisation plans, PAI consideration and so on.

Some of the above actions are further described with outcomes below.

- 2. The Investment Manager utilized its proprietary rating system and fundamental research to assess how a company manages its ESG risks and opportunities. The rating system consisted of four rating levels: AAA, AA, A and B, which are assigned to companies based on their sustainability strategy and performance key ESG issues. All companies in the fund have been rated. The rating distribution for this fund as of 12/31/22 is:
 - AAA: 11%
 - AA: 73%
 - A: 16%
 - B: 0%
- 3. The Investment Manager engaged with its portfolio companies on an ongoing basis. ESG engagement by the Investment Manager generally had two overlapping objectives:
 - · Research: Gaining a better understanding of ESG issues that could impact our investment thesis
 - Impact: Encouraging specific changes at the company that could lead to positive real-world impact

The Fund's engagements over the reference period were as follows:

- Environmental: 48%
- Social: 22%
- Governance: 30%
- 4. The result was the Fund respected the binding elements of its investment strategy.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable

FTGF Martin Currie Asia Long-Term Unconstrained Fund

Entity LEI: 549300E56Y0Z3ZFW4W35

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? ☐ YES \bowtie NO promoted Environmental/Social ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: ___% objective a sustainable investment, it had a proportion of 73.90% of sustainable investments in economic activities that qualify as with an environmental objective in economic environmentally sustainable under the EU activities that qualify as environmentally sustainable under the EU Taxonomy in economic activities that do not qualify as with an environmental objective in economic environmentally sustainable under the EU activities that do not qualify as environmentally sustainable under the EU Taxonomy Taxonomy with a social objective ☐ It promoted E/S characteristics, but did not make ☐ It made sustainable investments with a social objective: % any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

To meet the environmental and/or social characteristics promoted by the financial product, the fund included investments in companies:

- which are reducing and managing their carbon emissions;
- · with limited to no exposure to the fossil fuel industry;
- with a focus on the efficient use of energy and water;
- which are limiting pollution and managing biodiversity risk;
- with good track-records on human rights and employee matters; and
- with no exposure to controversial weapons.

Not all holdings in the fund necessarily promoted all characteristics. These factors were considered as part of the analysis of each company and where material incorporated into the investment analysis.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

At the end of the reference period, 73.9% of the Fund was held in sustainable investments, as defined by the Investment Manager's proprietary framework based on United Nations Sustainable Development Goals (SDG).

All the 14 PAI mandatory indicators and two additional indicators were taken into account and measured. Please refer to the values disclosed in the section "How did this financial product consider principal adverse impacts on sustainability factors?".

At the end of the period, 5% of the portfolio's Net Asset Value (NAV) was invested in companies that had approved science-based targets under the Science-Based Targets Initiative, with a further 24% invested in companies committed to setting targets within the next two years.

Over the reference period the portfolio management team conducted 25 engagements on Environmental, Social and Governance (ESG) topics for information or with the aim of influencing behavior, covering topics such as board composition, companies' greenhouse gas emissions (GHG) reduction plans, and the promotion of greater company disclosure. As at the end of the year the engagements were at the stages of completion as shown below.

Furthermore, the Investment Manager relied on external Data Metrics (e.g. MSCI), including Carbon Footprint and ESG scoring, its internal research (including carbon cost analysis and modern slavery risk factors), as inputs to inform its analysis and internal proprietary governance and sustainability risk ratings, which were used as a basis for security selection, exclusions and engagement process.

Sustainability KPI Name	Value
Contact company on the issues	0.00%

3. Discussion on issues take place	44.00%
Company sets out plan to address issue	44.00%
5. Company addresses issue	0.00%

… And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The sustainable investments of the Fund comprised equity securities issued by companies which contributed, through their products or services, to the environmental or social objectives of a relevant subset of targets underlying the 17 Sustainable Development Goals (SDGs). As at the 31st December 2022 the 82.10% of the Fund was invested in sustainable investments, in excess of the 50% minimum requirement.

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

In addition to identifying potential sustainable investments by mapping companies to a specific subset of targets of the SDGs as detailed above, potential investee companies were subject to the Investment Manager's assessment of the DNSH principle which was conducted in two ways:

- 1. an assessment of compliance with global norms, based on the United Nations Global Compact (UNGC) principles, and controversies related to the other environmental aspects of the PAI indicators.
- 2. an assessment of DNSH in relation to climate change-related factors highlighted by the PAI indicators, including areas such as business exposure to fossil fuel extraction and a high and unmanaged carbon footprint in a high-emitting industry.

When assessing climate change-related DNSH, the Investment Manager also considered the nature of a company's operations as well as the presence of controversies or signals from the PAI indicators. For each grouping of PAI indicators, the Investment Manager assessed the materiality of each PAI indicator and the presence of potential significant harm, which assessment was conducted using proprietary analysis. The findings from the DNSH assessment may have influenced the Governance and Sustainability risk ratings assigned by the Investment Manager, however the DNSH assessment is designed to operate as a parallel process to the risk ratings in order to meet the commitment to make 'sustainable investments' under SFDR. The key output of the DNSH assessment is to determine whether any evidence of significant harm existed that would exclude an investment from being considered a sustainable investment.

----How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager took into account all 14 PAI mandatory indicators and two additional indicators in its management of the Fund. The two additional indicators were:

- Environmental: Investments in companies without carbon emission reduction initiatives; and
- Social: Lack of a human rights policy.

The Investment Manager's analysis of companies took these factors into account and where the Investment Manager identified potential material adverse impacts, it engaged with the companies. Under the specific requirements of SFDR,

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

the Investment Manager also reported on the PAI indicators using company sourced data or looked for proxies where these were not available.

For further information on how the Investment Manager's analysis of companies took these factors into account, please refer to the section below titled "How did this financial product consider principal adverse impacts on sustainability factors?".

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?

Any potential sustainable investments that were identified were subject to the Investment Manager's broader ESG analysis that looked at management, culture, social and environmental risk. This analysis was framed around the OECD Guidelines for Multinational Enterprises and the Investment Manager had a specific additional focus on social exploitation risk framed around the UN Guiding Principles on Business and Human Rights.

The UNGC (on which the Fund has binding criteria) sets out 10 principles that set out minimum responsibilities in the areas of human rights, labour, environment and anti-corruption as derived from established conventions.

There is significant overlap between the principles of the UNGC and the OECD Guidelines that are effectively captured by the Investment Manager's UNGC screen. Material other multilateral instruments cited in the guidelines are also building blocks of the OECD guidelines, namely the ILO (International Labour Organisation) Fundamental Principles and the Universal Declaration of Human Rights. These effectively cover potential controversies related to the OECD's key pillars of human rights, labour, environment, anticorruption & consumer protection.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Sustainability factors can have an impact on the companies in which the Fund invests, and the Investment Manager also recognises that companies themselves can have an adverse impact on, for example, the environment, their employees or the communities in which they operate. These adverse impacts include, but are not limited to, the generation of greenhouse gas (GHG) emissions and other forms of pollution or potential violations of the UNGC. The Investment Manager's analysis of companies took these factors into account and where it identified potential material adverse impacts, the Investment Manager engaged with the companies concerned as set out in more detail in the Investment Manager's Stewardship and Engagement Policy. Under the specific requirements of SFDR, the Investment Manager also reported on the PAI indicators using company sourced data or proxies where these were not available.

Analysis of the PAIs was incorporated in the Investment Manager's due diligence on each company. The assessment of the 14 mandatory PAIs and two additional PAIs are grouped into six key areas for assessing materiality. Not all PAIs were material for every company. The Investment Manager assessed whether any of the six areas were material for the investee company and, where material, incorporated these areas into its risk ratings, investment thesis and, if relevant, planned engagement activity.

The six key groupings of the PAIs are as follows:

- Carbon Emissions and Management (PAIs #1 (GHG emissions), #2 (Carbon footprint) & #3 (GHG intensity of investee companies) as well as optional PAI on companies without carbon emissions reduction initiatives);
- Exposure to companies in the fossil fuel industry (PAI #4 (Exposure to companies active in the fossil fuel sector));
- Energy & Water Efficiency (PAIs #5 (Share of non-renewable energy consumption and production) & #6 (Energy consumption intensity per high impact sector));
- Pollution & Biodiversity (PAIs #7 (Activities negatively affecting biodiversity-sensitive areas), #8 (Emissions to water) & #9 (Hazardous waste ratio));
- Human Rights and Employee Matters (PAIs #10-13 (Violations of UNGC and OECD Guidelines; Lack of processes and compliance mechanisms to monitor compliance with UNGC and OECD Guidelines; Unadjusted pay gap; and Board diversity)); and
- Exposure to controversial weapons (PAI #14 (Exposure to controversial weapons)).

In some instances, such as PAI #10 (Violations of UNGC and OECD Guidelines), the Fund has binding criteria and will not invest in companies that are assessed as 'fail' under the UNGC. In line with the Investment Manager's Controversial Weapons Policy, the Fund will not hold companies with exposure to controversial weapons.

Information on PAIs on sustainability factors can be found in the manager's Responsible Investment Policy.

PAI indicators	Value	Coverage
GHG Emissions: Total Emissions EUR	4,751.00	96.54%
Carbon Footprint EUR	347.32	96.54%

JARDINE MATHESON HOLDINGS LTD	Industrials	2.95%	Hong Kong
MINTH GROUP LTD	Consumer Discretionary	2.74%	China

What was the proportion of sustainability-related investments?

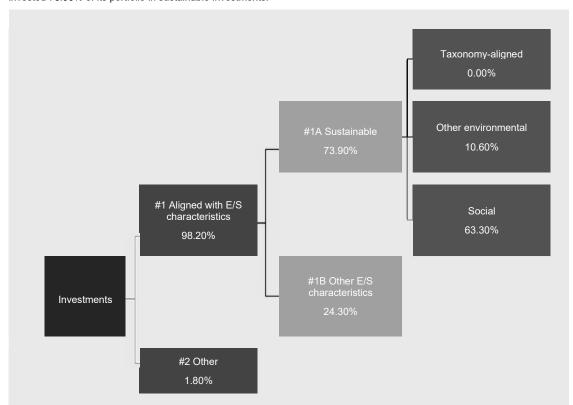

The proportion of sustainability-related investments was 73.90%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 98.20% of the Fund's portfolio was aligned with E/S Characteristics promoted by the Fund. The remaining portion (1.80%) was not aligned with the promoted characteristics and primarily consisted of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 73.90% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Top sector	Proportion
Consumer Discretionary	21.13%
Information Technology	19.85%

Insurance	8.24%
Semiconductors & Semiconductor Equipment	7.06%
Internet & Direct Marketing Retail	6.92%
Diversified Telecommunication Services	6.43%
Interactive Media & Services	6.37%
Chemicals	5.08%
IT Services	4.97%
Textiles Apparel & Luxury Goods	4.85%
Automobiles	3.95%
Elec. Equipment Instruments & Component	3.84%
Gas Utilities	3.55%
Aerospace & Defense	3.54%
Pharmaceuticals	3.44%
Auto Components	2.91%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

1		ы		A
B	r	Y	7	Ы
w		Ľ	=	N

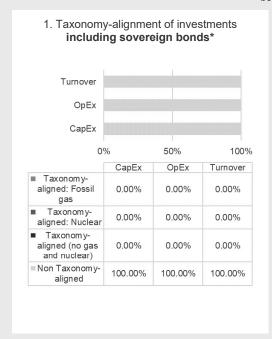

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

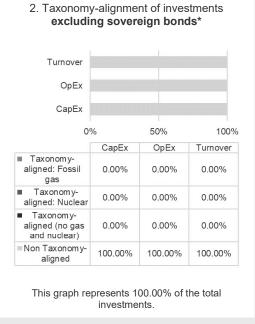

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

П	Yes	
	□ In fossil gas	□ In nuclear energy
\boxtimes	No	

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

^{*} For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU taxonomy and, accordingly, as of the end of February 2023, 10.60% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 63.30%.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The portion of investments under '#2 Other' was 1.80% and included cash for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- · Engaged with portfolio companies on the setting or implementation of greenhouse gas emissions reductions targets.
- Adhered to the exclusions as set out in the prospectus regarding proprietary sustainability risk ratings, UN Global Compact violations, tobacco production, controversial weapons and fossil fuel extraction.
- Considered all 14 mandatory PAIs, and two additional PAIs as part of investment analysis which includes indicators on energy and water efficiency, pollution and biodiversity risk.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable

FTGF Martin Currie Global Long-Term Unconstrained Fund

Entity LEI: 5493007B7CQP4E08O434

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? ☐ YES \bowtie NO promoted Environmental/Social ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: ___% objective a sustainable investment, it had a proportion of 88.00% of sustainable investments in economic activities that qualify as with an environmental objective in economic environmentally sustainable under the EU activities that qualify as environmentally sustainable under the EU Taxonomy in economic activities that do not qualify as with an environmental objective in economic environmentally sustainable under the EU activities that do not qualify as environmentally sustainable under the EU Taxonomy Taxonomy with a social objective ☐ It promoted E/S characteristics, but did not make ☐ It made sustainable investments with a social objective: % any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

To meet the environmental and/or social characteristics promoted by the financial product, the fund included investments in companies:

- which are reducing and managing their carbon emissions;
- · with limited to no exposure to the fossil fuel industry;
- with a focus on the efficient use of energy and water;which are limiting pollution and managing biodiversity risk;
- with good track-records on human rights and employee matters; and
- with no exposure to controversial weapons.

Not all holdings in the fund necessarily promoted all characteristics. These factors were considered as part of the analysis of each company and where material incorporated into the investment analysis.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

At the end of the reference period, 88% of the Fund was held in sustainable investments, as defined by the Investment Manager's proprietary framework based on United Nations Sustainable Development Goals (SDG).

All the 14 PAI mandatory indicators and two additional indicators were taken into account and measured. Please refer to the values disclosed in the section "How did this financial product consider principal adverse impacts on sustainability factors?".

At the end of the period, approximately 60% of the portfolio's Net Asset Value (NAV) was invested in companies that had approved science-based targets under the Science-Based Targets Initiative, with a further 7% invested in companies committed to setting targets within the next two years.

Over the period the fund's management team conducted 5 engagements on Environmental, Social and Governance (ESG) topics with the aim of influencing behavior, covering topics including board composition, carbon emission reduction plans, and human rights. As at the end of the year the engagements were at the stages of completion as shown below.

Furthermore, the Investment Manager relied on external Data Metrics (e.g. MSCI), including Carbon Footprint and ESG scoring, its internal research (including carbon cost analysis and modern slavery risk factors), as inputs to inform its analysis and internal proprietary governance and sustainability risk ratings, which were used as a basis for security selection, exclusions and engagement process.

Sustainability KPI Name	Value
1. Contact company on the issues	40.00%
Company acknowledges contact	0.00%
3. Discussion on issues takes place	0.00%
4. Company sets out plan to address issue	40.00%
5. Company addresses issue	20.00%

… And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The sustainable investments of the Fund comprised equity securities issued by companies which contributed, through their products or services, to the environmental or social objectives of a relevant subset of targets underlying the 17 Sustainable Development Goals (SDGs). As at the 31st December 2022 the 88% of the Fund was invested in sustainable investments, in excess of the 50% minimum requirement.

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

In addition to identifying potential sustainable investments by mapping companies to a specific subset of targets of the SDGs as detailed above, potential investee companies were subject to the Investment Manager's assessment of the DNSH principle which was conducted in two ways:

- 1. an assessment of compliance with global norms, based on the United Nations Global Compact (UNGC) principles, and controversies related to the other environmental aspects of the PAI indicators.
- 2. an assessment of DNSH in relation to climate change-related factors highlighted by the PAI indicators, including areas such as business exposure to fossil fuel extraction and a high and unmanaged carbon footprint in a high-emitting industry.

When assessing climate change-related DNSH, the Investment Manager also considered the nature of a company's operations as well as the presence of controversies or signals from the PAI indicators. For each grouping of PAI indicators, the Investment Manager assessed the materiality of each PAI indicator and the presence of potential significant harm, which assessment was conducted using proprietary analysis. The findings from the DNSH assessment may have influenced the Governance and Sustainability risk ratings assigned by the Investment Manager, however the DNSH assessment is designed to operate as a parallel process to the risk ratings in order to meet the commitment to make 'sustainable investments' under SFDR. The key output of the DNSH assessment is to determine whether any evidence of significant harm existed that would exclude an investment from being considered a sustainable investment.

-----How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager took into account all 14 PAI mandatory indicators and two additional indicators in its management of the Fund. The two additional indicators were:

- Environmental: Investments in companies without carbon emission reduction initiatives; and
- Social: Lack of a human rights policy.

The Investment Manager's analysis of companies took these factors into account and where the Investment Manager identified potential material adverse impacts, it engaged with the companies. Under the specific requirements of SFDR,

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

the Investment Manager also reported on the PAI indicators using company sourced data or looked for proxies where these were not available.

For further information on how the Investment Manager's analysis of companies took these factors into account, please refer to the section below titled "How did this financial product consider principal adverse impacts on sustainability factors?".

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?

Any potential sustainable investments that were identified were subject to the Investment Manager's broader ESG analysis that looked at management, culture, social and environmental risk. This analysis was framed around the OECD Guidelines for Multinational Enterprises and the Investment Manager had a specific additional focus on social exploitation risk framed around the UN Guiding Principles on Business and Human Rights.

The UNGC (on which the Fund has binding criteria) sets out 10 principles that set out minimum responsibilities in the areas of human rights, labour, environment and anti-corruption as derived from established conventions.

There is significant overlap between the principles of the UNGC and the OECD Guidelines that are effectively captured by the Investment Manager's UNGC screen. Material other multilateral instruments cited in the guidelines are also building blocks of the OECD guidelines, namely the ILO (International Labour Organisation) Fundamental Principles and the Universal Declaration of Human Rights. These effectively cover potential controversies related to the OECD's key pillars of human rights, labour, environment, anticorruption & consumer protection.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Sustainability factors can have an impact on the companies in which the Fund invests, and the Investment Manager also recognises that companies themselves can have an adverse impact on, for example, the environment, their employees or the communities in which they operate. These adverse impacts include, but are not limited to, the generation of greenhouse gas (GHG) emissions and other forms of pollution or potential violations of the UNGC. The Investment Manager's analysis of companies took these factors into account and where it identified potential material adverse impacts, the Investment Manager engaged with the companies concerned as set out in more detail in the Investment Manager's Stewardship and Engagement Policy. Under the specific requirements of SFDR, the Investment Manager also reported on the PAI indicators using company sourced data or proxies where these were not available.

Analysis of the PAIs was incorporated in the Investment Manager's due diligence on each company. The assessment of the 14 mandatory PAIs and two additional PAIs are grouped into six key areas for assessing materiality. Not all PAIs were material for every company. The Investment Manager assessed whether any of the six areas were material for the investee company and, where material, incorporated these areas into its risk ratings, investment thesis and, if relevant, planned engagement activity.

The six key groupings of the PAIs are as follows:

- Carbon Emissions and Management (PAIs #1 (GHG emissions), #2 (Carbon footprint) & #3 (GHG intensity of investee companies) as well as optional PAI on companies without carbon emissions reduction initiatives);
- Exposure to companies in the fossil fuel industry (PAI #4 (Exposure to companies active in the fossil fuel sector));
- Energy & Water Efficiency (PAIs #5 (Share of non-renewable energy consumption and production) & #6 (Energy consumption intensity per high impact sector));
- Pollution & Biodiversity (PAIs #7 (Activities negatively affecting biodiversity-sensitive areas), #8 (Emissions to water) & #9 (Hazardous waste ratio));
- Human Rights and Employee Matters (PAIs #10-13 (Violations of UNGC and OECD Guidelines; Lack of processes and compliance mechanisms to monitor compliance with UNGC and OECD Guidelines; Unadjusted pay gap; and Board diversity) as well as an additional PAI focused on companies that lack a human rights policy); and
- Exposure to controversial weapons (PAI #14 (Exposure to controversial weapons)).

In some instances, such as PAI #10 (Violations of UNGC and OECD Guidelines), the Fund has binding criteria and will not invest in companies that are assessed as 'fail' under the UNGC. In line with the Investment Manager's Controversial Weapons Policy, the Fund will not hold companies with exposure to controversial weapons.

Information on PAIs on sustainability factors can be found in the manager's Responsible Investment Policy.

PAI indicators	Value	Coverage
GHG Emissions: Total Emissions EUR	8,716.25	99.49%
Carbon Footprint EUR	67.27	99.49%

HEXAGON AB	Information Technology	3.56%	Sweden
COLOPLAST A/S	Health Care	3.46%	Denmark

What was the proportion of sustainability-related investments?

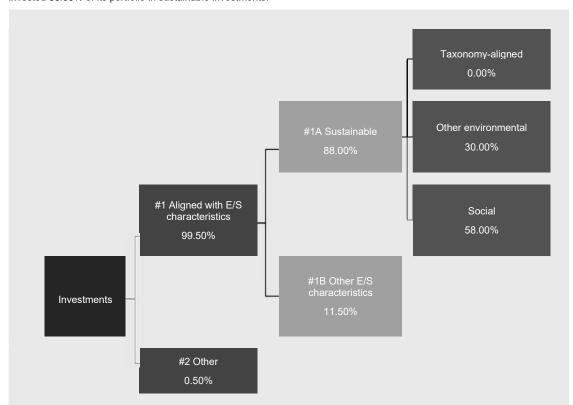

The proportion of sustainability-related investments was 88.00%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 99.50% of the Fund's portfolio was aligned with E/S Characteristics promoted by the Fund. The remaining portion (0.50%) was not aligned with the promoted characteristics and primarily consisted of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 88.00% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Top sector	Proportion
Information Technology	30.33%
Health Care	26.33%
Consumer Discretionary	14.51%

Life Sciences Tools & Services	5.86%
Personal Products	4.29%
IT Services	4.24%
Machinery	4.23%
Automobiles	3.81%
Biotechnology	3.55%
Insurance	3.53%
Elec. Equipment Instruments & Component	3.28%
Pharmaceuticals	2.94%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

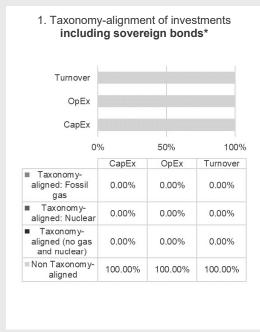

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

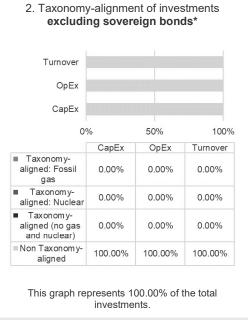

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

П	Yes	
	☐ In fossil gas	□ In nuclear energy
\boxtimes	No	

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU taxonomy and, accordingly, as of the end of February 2023, 30.00% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 58.00%.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The portion of investments under '#2 Other' was 0.50% and included cash for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- · Engaged with portfolio companies on the setting or implementation of greenhouse gas emissions reductions targets.
- Adhered to the exclusions as set out in the prospectus regarding proprietary governance and sustainability risk ratings, UN
 Global Compact violations, controversial weapons, and all other business activities for which exclusions are in place.
- Considered all 14 mandatory PAIs, and two additional PAIs as part of investment analysis which includes indicators on energy and water efficiency, pollution and biodiversity risk.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable

FTGF Martin Curie Asia Pacific Urban Trends Income Fund

Entity LEI: 549300REHT50ARB1IW32

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? ☐ YES \bowtie NO promoted Environmental/Social ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: ___% objective a sustainable investment, it had a proportion of 80.40% of sustainable investments in economic activities that qualify as with an environmental objective in economic environmentally sustainable under the EU activities that qualify as environmentally sustainable under the EU Taxonomy in economic activities that do not qualify as with an environmental objective in economic environmentally sustainable under the EU activities that do not qualify as environmentally sustainable under the EU Taxonomy Taxonomy with a social objective ☐ It promoted E/S characteristics, but did not make ☐ It made sustainable investments with a social objective: % any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

To meet the environmental and/or social characteristics promoted by the financial product, the fund included investments in companies:

- which are reducing and managing their carbon emissions;
- · with limited to no exposure to the fossil fuel industry;
- with a focus on the efficient use of energy and water;
 which are limiting pollution and managing biodiversity ris
- which are limiting pollution and managing biodiversity risk;
 with good track-records on human rights and employee matters; and
- with no exposure to controversial weapons.

Not all holdings in the fund necessarily promoted all characteristics. These factors were considered as part of the analysis of each company and where material incorporated into the investment analysis.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

At the end of the reference period, 80.40% of the Fund was held in sustainable investments, as defined by the Investment Manager's proprietary framework based on United Nations Sustainable Development Goals (SDG).

All the 14 PAI mandatory indicators and two additional indicators were taken into account and measured. Please refer to the values disclosed in the section "How did this financial product consider principal adverse impacts on sustainability factors?".

At the end of the period, 12% of the portfolio's Net Asset Value (NAV) was invested in companies that had approved science-based targets under the Science-Based Targets Initiative, with a further 16% invested in companies committed to setting targets within the next two years.

Over the period the management team conducted 8 engagements on Environmental Social and Governance (ESG) topics with the aim of influencing behavior, covering topics including board composition and companies' net zero carbon transition plans.

Furthermore, the Investment Manager relied on external Data Metrics (e.g. MSCI), including Carbon Footprint and ESG scoring, its internal research (including carbon cost analysis and modern slavery risk factors), as inputs to inform its analysis and internal proprietary governance and sustainability risk ratings, which were used as a basis for security selection, exclusions and engagement process.

… And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The sustainable investments of the Fund comprised equity securities issued by companies which contributed, through their products or services, to the environmental or social objectives of a relevant subset of targets underlying the 17 Sustainable Development Goals (SDGs). As at the 31st December 2022 the 80% of the Fund was invested in sustainable investments, in excess of the 50% minimum requirement.

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

In addition to identifying potential sustainable investments by mapping companies to a specific subset of targets of the SDGs as detailed above, potential investee companies were subject to the Investment Manager's assessment of the DNSH principle which was conducted in two ways:

- 1. an assessment of compliance with global norms, based on the United Nations Global Compact (UNGC) principles, and controversies related to the other environmental aspects of the PAI indicators.
- 2. an assessment of DNSH in relation to climate change-related factors highlighted by the PAI indicators, including areas such as business exposure to fossil fuel extraction and a high and unmanaged carbon footprint in a high-emitting industry.

When assessing climate change-related DNSH, the Investment Manager also considered the nature of a company's operations as well as the presence of controversies or signals from the PAI indicators. For each grouping of PAI indicators, the Investment Manager assessed the materiality of each PAI indicator and the presence of potential significant harm, which assessment was conducted using proprietary analysis. The findings from the DNSH assessment may have influenced the Governance and Sustainability risk ratings assigned by the Investment Manager, however the DNSH assessment is designed to operate as a parallel process to the risk ratings in order to meet the commitment to make 'sustainable investments' under SFDR. The key output of the DNSH assessment is to determine whether any evidence of significant harm existed that would exclude an investment from being considered a sustainable investment.

--How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager took into account all 14 PAI mandatory indicators and two additional indicators in its management of the Fund. The two additional indicators were:

- · Environmental: Investments in companies without carbon emission reduction initiatives; and
- Social: Lack of a human rights policy.

The Investment Manager's analysis of companies took these factors into account and where the Investment Manager identified potential material adverse impacts, it engaged with the companies. Under the specific requirements of SFDR, the Investment Manager also reported on the PAI indicators using company sourced data or looked for proxies where these were not available.

For further information on how the Investment Manager's analysis of companies took these factors into account, please refer to the section below titled "How did this financial product consider principal adverse impacts on sustainability factors?".

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Any potential sustainable investments that were identified were subject to the Investment Manager's broader ESG analysis that looked at management, culture, social and environmental risk. This analysis was framed around the OECD Guidelines for Multinational Enterprises and the Investment Manager had a specific additional focus on social exploitation risk framed around the UN Guiding Principles on Business and Human Rights.

The UNGC (on which the Fund has binding criteria) sets out 10 principles that set out minimum responsibilities in the areas of human rights, labour, environment and anti-corruption as derived from established conventions.

There is significant overlap between the principles of the UNGC and the OECD Guidelines that are effectively captured by the Investment Manager's UNGC screen. Material other multilateral instruments cited in the guidelines are also building blocks of the OECD guidelines, namely the ILO (International Labour Organisation) Fundamental Principles and the Universal Declaration of Human Rights. These effectively cover potential controversies related to the OECD's key pillars of human rights, labour, environment, anticorruption & consumer protection.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Sustainability factors can have an impact on the companies in which the Fund invests, and the Investment Manager also recognises that companies themselves can have an adverse impact on, for example, the environment, their employees or the communities in which they operate. These adverse impacts include, but are not limited to, the generation of greenhouse gas (GHG) emissions and other forms of pollution or potential violations of the UNGC. The Investment Manager's analysis of companies took these factors into account and where it identified potential material adverse impacts, the Investment Manager engaged with the companies concerned as set out in more detail in the Investment Manager's Stewardship and Engagement Policy. Under the specific requirements of SFDR, the Investment Manager also reported on the PAI indicators using company sourced data or proxies where these were not available.

Analysis of the PAIs was incorporated in the Investment Manager's due diligence on each company. The assessment of the 14 mandatory PAIs and two additional PAIs are grouped into six key areas for assessing materiality. Not all PAIs were material for every company. The Investment Manager assessed whether any of the six areas were material for the investee company and, where material, incorporated these areas into its risk ratings, investment thesis and, if relevant, planned engagement activity.

The six key groupings of the PAIs are as follows:

- Carbon Emissions and Management (PAIs #1 (GHG emissions), #2 (Carbon footprint) & #3 (GHG intensity of investee companies) as well as optional PAI on companies without carbon emissions reduction initiatives);
- Exposure to companies in the fossil fuel industry (PAI #4 (Exposure to companies active in the fossil fuel sector));
- Energy & Water Efficiency (PAIs #5 (Share of non-renewable energy consumption and production) & #6 (Energy consumption intensity per high impact sector));
- Pollution & Biodiversity (PAIs #7 (Activities negatively affecting biodiversity-sensitive areas), #8 (Emissions to water) & #9 (Hazardous waste ratio));
- Human Rights and Employee Matters (PAIs #10-13 (Violations of UNGC and OECD Guidelines; Lack of processes and compliance mechanisms to monitor compliance with UNGC and OECD Guidelines; Unadjusted pay gap; and Board diversity) as well as an additional PAI focused on companies that lack a human rights policy); and
- Exposure to controversial weapons (PAI #14 (Exposure to controversial weapons)).

In some instances, such as PAI #10 (Violations of UNGC and OECD Guidelines), the Fund has binding criteria and will not invest in companies that are assessed as 'fail' under the UNGC. In line with the Investment Manager's Controversial Weapons Policy, the Fund will not hold companies with exposure to controversial weapons.

Information on PAIs on sustainability factors can be found in the manager's Responsible Investment Policy.

PAI indicators	Value	Coverage
FAI IIIUICALOIS	value	Coverage
GHG Emissions: Total Emissions EUR	19,032.27	88.06%
Carbon Footprint EUR	854.37	88.06%
GHG Intensity EUR	1,411.15	88.06%
Exposure to companies active in the fossil fuel sector.	15.95%	88.06%

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2022-01-01 - 2022-12-31.

What were the top investments of this financial product?

The top investments of this Fund, excluding cash and derivatives, were:

Top investments	Sector	Proportion	Country
EMBASSY OFFICE PARKS REIT	Real Estate	5.04%	India
TRANSURBAN GROUP	Industrials	5.02%	Australia
LINK REIT	Real Estate	4.90%	Hong Kong
GUANGDONG INVESTMENT LTD	Utilities	4.82%	China
POWER GRID CORP OF INDIA LTD	Utilities	4.56%	India
NHPC LTD	Utilities	4.48%	India
CHARTER HALL RETAIL REIT	Real Estate	4.30%	Australia
SCENTRE GROUP	Real Estate	3.96%	Australia
CAPITALAND INTEGRATED COMMERCIAL TRUST	Real Estate	3.87%	Singapore
DIGITAL TELECOMMUNICATIONS INFRASTRUCTURE FUND	Real Estate	3.61%	Thailand
VICINITY LTD	Real Estate	3.59%	Australia
AURIZON HOLDINGS LTD	Industrials	3.36%	Australia
AGL ENERGY LTD	Utilities	3.25%	Australia
CLP HOLDINGS LTD	Utilities	3.20%	Hong Kong
FORTUNE REAL ESTATE INVESTMENT TRUST	Real Estate	3.04%	Hong Kong

What was the proportion of sustainability-related investments?

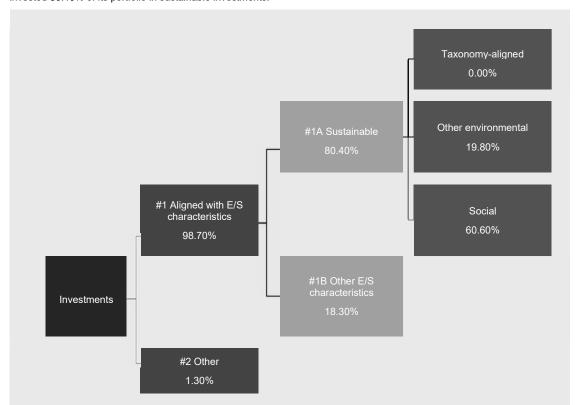

The proportion of sustainability-related investments was 80.40%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 98.70% of the Fund's portfolio was aligned with E/S Characteristics promoted by the Fund. The remaining portion (1.30%) was not aligned with the promoted characteristics and primarily consisted of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 80.40% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Top sector	Proportion
Real Estate	48.80%
Utilities	27.72%
Industrials	15.82%
Communication Services	6.68%

Top sub-sector	Proportion
Equity Real Estate Investment Trusts	41.45%
Electric Utilities	12.91%
Transportation Infrastructure	12.45%
Real Estate Management & Development	7.30%
Diversified Telecommunication Services	6.68%
Water Utilities	5.35%
Ground Transportation	3.37%
Multi-Utilities	3.36%
Independent Power & Renewable Electricit	3.11%
Gas Utilities	2.99%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

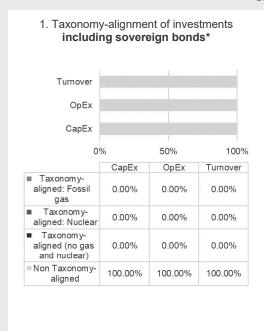

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

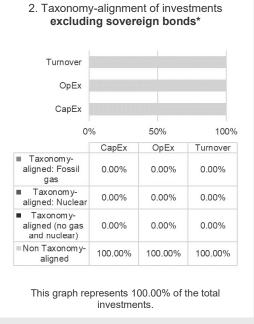

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

	Yes	
	☐ In fossil gas	□ In nuclear energy
\boxtimes	No	

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU taxonomy and, accordingly, as of the end of February 2023, 19.80% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 60.60%.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The portion of investments under '#2 Other' was 1.30% and included cash for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- · Engaged with portfolio companies on the setting or implementation of greenhouse gas emissions reductions targets.
- Adhered to the exclusions as set out in the prospectus regarding proprietary sustainability risk ratings, UN Global Compact violations, controversial weapons and other excluded business activities.
- Considered all 14 mandatory PAIs, and two additional PAIs as part of investment analysis which includes indicators on energy and water efficiency, pollution and biodiversity risk.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable

FTGF Martin Currie Global Emerging Markets Fund

Entity LEI: 549300Y8TPNIB3NAMF62

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective?				
•• □ YES	● ⊠ NO			
☐ It made sustainable investments with an environmental objective:%	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 73.00% of sustainable investments			
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	□ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy			
in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy			
	with a social objective			
☐ It made sustainable investments with a social objective:%	☐ It promoted E/S characteristics, but did not make any sustainable investments			

To what extent were the environmental and/or social characteristics promoted by this financial product met?

To meet the environmental and/or social characteristics promoted by the financial product, the fund included investments in companies:

- · which are reducing and managing their carbon emissions;
- with limited to no exposure to the fossil fuel industry;
- with a focus on the efficient use of energy and water;
 which are limiting pollution and managing hindiversity risk
- which are limiting pollution and managing biodiversity risk;
 with good track-records on human rights and employee matters; and
- with no exposure to controversial weapons.

Not all holdings in the fund necessarily promoted all characteristics. These factors were considered as part of the analysis of each company and where material incorporated into the investment analysis.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

At the end of the reference period, 73% of the Fund was held in sustainable investments, as defined by the Investment Manager's proprietary framework based on United Nations Sustainable Development Goals (SDG).

All the 14 PAI mandatory indicators and two additional indicators were taken into account and measured. Please refer to the values disclosed in the section "How did this financial product consider principal adverse impacts on sustainability factors?".

At the end of the period, approximately 4% of the portfolio's Net Asset Value (NAV) was invested in companies that had approved science-based targets under the Science-Based Targets Initiative, with a further 20% invested in companies committed to setting targets within the next two years.

Over the period the fund's management team conducted 52 engagements on Environmental, Social and Governance (ESG) topics with the aim of influencing behavior, covering topics including board composition, companies' net zero carbon transition plans, and workplace culture. As at the end of the year the engagements were at the stages of completion as shown below.

Furthermore, the Investment Manager relied on external Data Metrics (e.g. MSCI), including Carbon Footprint and ESG scoring, its internal research (including carbon cost analysis and modern slavery risk factors), as inputs to inform its analysis and internal proprietary governance and sustainability risk ratings, which were used as a basis for security selection, exclusions and engagement process.

Sustainability KPI Name	Value
1. Contact company on the issues	4.00%
Company acknowledges contact	12.00%
3. Discussion on issues takes place	58.00%
4. Company sets out plan to address issue	19.00%
5. Company addresses issue	8.00%

… And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The sustainable investments of the Fund comprised equity securities issued by companies which contributed, through their products or services, to the environmental or social objectives of a relevant subset of targets underlying the 17 Sustainable Development Goals (SDGs). As at the 31st December 2022 the 73% of the Fund was invested in sustainable investments, in excess of the 50% minimum requirement.

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

In addition to identifying potential sustainable investments by mapping companies to a specific subset of targets of the SDGs as detailed above, potential investee companies were subject to the Investment Manager's assessment of the DNSH principle which was conducted in two ways:

- 1. an assessment of compliance with global norms, based on the United Nations Global Compact (UNGC) principles, and controversies related to the other environmental aspects of the PAI indicators.
- 2. an assessment of DNSH in relation to climate change-related factors highlighted by the PAI indicators, including areas such as business exposure to fossil fuel extraction and a high and unmanaged carbon footprint in a high-emitting industry.

When assessing climate change-related DNSH, the Investment Manager also considered the nature of a company's operations as well as the presence of controversies or signals from the PAI indicators. For each grouping of PAI indicators, the Investment Manager assessed the materiality of each PAI indicator and the presence of potential significant harm, which assessment was conducted using proprietary analysis. The findings from the DNSH assessment may have influenced the Governance and Sustainability risk ratings assigned by the Investment Manager, however the DNSH assessment is designed to operate as a parallel process to the risk ratings in order to meet the commitment to make 'sustainable investments' under SFDR. The key output of the DNSH assessment is to determine whether any evidence of significant harm existed that would exclude an investment from being considered a sustainable investment.

-----How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager took into account all 14 PAI mandatory indicators and two additional indicators in its management of the Fund. The two additional indicators were:

- Environmental: Investments in companies without carbon emission reduction initiatives; and
- Social: Lack of a human rights policy.

The Investment Manager's analysis of companies took these factors into account and where the Investment Manager identified potential material adverse impacts, it engaged with the companies. Under the specific requirements of SFDR,

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

the Investment Manager also reported on the PAI indicators using company sourced data or looked for proxies where these were not available.

For further information on how the Investment Manager's analysis of companies took these factors into account, please refer to the section below titled "How did this financial product consider principal adverse impacts on sustainability factors?".

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?

Any potential sustainable investments that were identified were subject to the Investment Manager's broader ESG analysis that looked at management, culture, social and environmental risk. This analysis was framed around the OECD Guidelines for Multinational Enterprises and the Investment Manager had a specific additional focus on social exploitation risk framed around the UN Guiding Principles on Business and Human Rights.

The UNGC (on which the Fund has binding criteria) sets out 10 principles that set out minimum responsibilities in the areas of human rights, labour, environment and anti-corruption as derived from established conventions.

There is significant overlap between the principles of the UNGC and the OECD Guidelines that are effectively captured by the Investment Manager's UNGC screen. Material other multilateral instruments cited in the guidelines are also building blocks of the OECD guidelines, namely the ILO (International Labour Organisation) Fundamental Principles and the Universal Declaration of Human Rights. These effectively cover potential controversies related to the OECD's key pillars of human rights, labour, environment, anticorruption & consumer protection.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Sustainability factors can have an impact on the companies in which the Fund invests, and the Investment Manager also recognises that companies themselves can have an adverse impact on, for example, the environment, their employees or the communities in which they operate. These adverse impacts include, but are not limited to, the generation of greenhouse gas (GHG) emissions and other forms of pollution or potential violations of the UNGC. The Investment Manager's analysis of companies took these factors into account and where it identified potential material adverse impacts, the Investment Manager engaged with the companies concerned as set out in more detail in the Investment Manager's Stewardship and Engagement Policy. Under the specific requirements of SFDR, the Investment Manager also reported on the PAI indicators using company sourced data or proxies where these were not available.

Analysis of the PAIs was incorporated in the Investment Manager's due diligence on each company. The assessment of the 14 mandatory PAIs and two additional PAIs are grouped into six key areas for assessing materiality. Not all PAIs were material for every company. The Investment Manager assessed whether any of the six areas were material for the investee company and, where material, incorporated these areas into its risk ratings, investment thesis and, if relevant, planned engagement activity.

The six key groupings of the PAIs are as follows:

- Carbon Emissions and Management (PAIs #1 (GHG emissions), #2 (Carbon footprint) & #3 (GHG intensity of investee companies) as well as optional PAI on companies without carbon emissions reduction initiatives);
- Exposure to companies in the fossil fuel industry (PAI #4 (Exposure to companies active in the fossil fuel sector));
- Energy & Water Efficiency (PAIs #5 (Share of non-renewable energy consumption and production) & #6 (Energy consumption intensity per high impact sector));
- Pollution & Biodiversity (PAIs #7 (Activities negatively affecting biodiversity-sensitive areas), #8 (Emissions to water) & #9 (Hazardous waste ratio));
- Human Rights and Employee Matters (PAIs #10-13 (Violations of UNGC and OECD Guidelines; Lack of processes and
 compliance mechanisms to monitor compliance with UNGC and OECD Guidelines; Unadjusted pay gap; and Board
 diversity) as well as an additional PAI focused on companies that lack a human rights policy); and
- Exposure to controversial weapons (PAI #14 (Exposure to controversial weapons)).

In some instances, such as PAI #10 (Violations of UNGC and OECD Guidelines), the Fund has binding criteria and will not invest in companies that are assessed as 'fail' under the UNGC. In line with the Investment Manager's Controversial Weapons Policy, the Fund will not hold companies with exposure to controversial weapons.

Information on PAIs on sustainability factors can be found in the manager's Responsible Investment Policy.

PAI indicators	Value	Coverage
i Ai iliulcators	value	Coverage
GHG Emissions: Total Emissions EUR	11,085.00	96.39%

What was the proportion of sustainability-related investments?

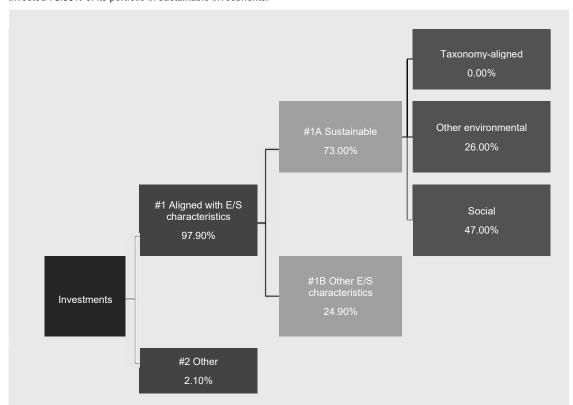

The proportion of sustainability-related investments was 73.00%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 97.90% of the Fund's portfolio was aligned with E/S Characteristics promoted by the Fund. The remaining portion (2.10%) was not aligned with the promoted characteristics and primarily consisted of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 73.00% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Top sector	Proportion
Financials	26.33%
Information Technology	25.33%

Metals & Mining	2.11%
Food & Staples Retailing	2.04%
Automobiles	1.70%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

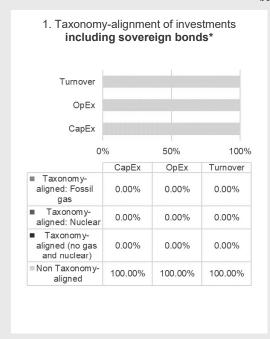

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

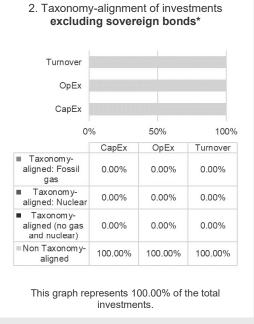

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

	Yes	
	☐ In fossil gas	□ In nuclear energy
\boxtimes	No	

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

^{*} For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU taxonomy and, accordingly, as of the end of February 2023, 26.00% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 47.00%.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The portion of investments under '#2 Other' was 2.10% and included cash for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- · Engaged with portfolio companies on the setting or implementation of greenhouse gas emissions reductions targets.
- Adhered to the exclusions as set out in the prospectus regarding proprietary governance and sustainability risk ratings, tobacco, UN Global Compact violations, controversial weapons and coal.
- Considered all 14 mandatory PAIs, and two additional PAIs as part of investment analysis which includes indicators on energy and water efficiency, pollution and biodiversity risk.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable

FTGF Martin Currie European Unconstrained Fund

Entity LEI: 5493001JP7YZEMZJTE31

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? ☐ YES \bowtie NO promoted Environmental/Social ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: ___% objective a sustainable investment, it had a proportion of 76.00% of sustainable investments in economic activities that qualify as with an environmental objective in economic environmentally sustainable under the EU activities that qualify as environmentally sustainable under the EU Taxonomy in economic activities that do not qualify as with an environmental objective in economic environmentally sustainable under the EU activities that do not qualify as environmentally sustainable under the EU Taxonomy Taxonomy with a social objective ☐ It promoted E/S characteristics, but did not make ☐ It made sustainable investments with a social objective: % any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

To meet the environmental and/or social characteristics promoted by the financial product, the fund included investments in companies:

- which are reducing and managing their carbon emissions;
- with limited to no exposure to the fossil fuel industry;
- with a focus on the efficient use of energy and water;
- · which are limiting pollution and managing biodiversity risk;
- with good track-records on human rights and employee matters; and
- with no exposure to controversial weapons.

Not all holdings in the fund necessarily promoted all characteristics. These factors were considered as part of the analysis of each company and where material incorporated into the investment analysis.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

At the end of the reference period, 76% of the Fund was held in sustainable investments, as defined by the Investment Manager's proprietary framework based on United Nations Sustainable Development Goals (SDG).

All the 14 PAI mandatory indicators and two additional indicators were taken into account and measured. Please refer to the values disclosed in the section "How did this financial product consider principal adverse impacts on sustainability factors?".

At the end of the period, approximately 64% of the portfolio's Net Asset Value (NAV) was invested in companies that had approved science-based targets under the Science-Based Targets Initiative, with a further 9% invested in companies committed to setting targets within the next two years.

The fund's management team conducted 26 engagements over the year on Environmental Social and Governance (ESG) topics with the aim of influencing behavior, covering topics including board composition and companies' net zero carbon transition plans.

Furthermore, the Investment Manager relied on external Data Metrics (e.g. MSCI), including Carbon Footprint and ESG scoring, its internal research (including carbon cost analysis and modern slavery risk factors), as inputs to inform its analysis and internal proprietary governance and sustainability risk ratings, which were used as a basis for security selection, exclusions and engagement process.

… And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The sustainable investments of the Fund comprised equity securities issued by companies which contributed, through their products or services, to the environmental or social objectives of a relevant subset of targets underlying the 17 Sustainable Development Goals (SDGs). As at the 31st December 2022 the 76% of the Fund was invested in sustainable investments, in excess of the 50% minimum requirement.

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

In addition to identifying potential sustainable investments by mapping companies to a specific subset of targets of the SDGs as detailed above, potential investee companies were subject to the Investment Manager's assessment of the DNSH principle which was conducted in two ways:

- 1. an assessment of compliance with global norms, based on the United Nations Global Compact (UNGC) principles, and controversies related to the other environmental aspects of the PAI indicators.
- 2. an assessment of DNSH in relation to climate change-related factors highlighted by the PAI indicators, including areas such as business exposure to fossil fuel extraction and a high and unmanaged carbon footprint in a high-emitting industry.

When assessing climate change-related DNSH, the Investment Manager also considered the nature of a company's operations as well as the presence of controversies or signals from the PAI indicators. For each grouping of PAI indicators, the Investment Manager assessed the materiality of each PAI indicator and the presence of potential significant harm, which assessment was conducted using proprietary analysis. The findings from the DNSH assessment may have influenced the Governance and Sustainability risk ratings assigned by the Investment Manager, however the DNSH assessment is designed to operate as a parallel process to the risk ratings in order to meet the commitment to make 'sustainable investments' under SFDR. The key output of the DNSH assessment is to determine whether any evidence of significant harm existed that would exclude an investment from being considered a sustainable investment.

--How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager took into account all 14 PAI mandatory indicators and two additional indicators in its management of the Fund. The two additional indicators were:

- · Environmental: Investments in companies without carbon emission reduction initiatives; and
- Social: Lack of a human rights policy.

The Investment Manager's analysis of companies took these factors into account and where the Investment Manager identified potential material adverse impacts, it engaged with the companies. Under the specific requirements of SFDR, the Investment Manager also reported on the PAI indicators using company sourced data or looked for proxies where these were not available.

For further information on how the Investment Manager's analysis of companies took these factors into account, please refer to the section below titled "How did this financial product consider principal adverse impacts on sustainability factors?".

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Any potential sustainable investments that were identified were subject to the Investment Manager's broader ESG analysis that looked at management, culture, social and environmental risk. This analysis was framed around the OECD Guidelines for Multinational Enterprises and the Investment Manager had a specific additional focus on social exploitation risk framed around the UN Guiding Principles on Business and Human Rights.

The UNGC (on which the Fund has binding criteria) sets out 10 principles that set out minimum responsibilities in the areas of human rights, labour, environment and anti-corruption as derived from established conventions.

There is significant overlap between the principles of the UNGC and the OECD Guidelines that are effectively captured by the Investment Manager's UNGC screen. Material other multilateral instruments cited in the guidelines are also building blocks of the OECD guidelines, namely the ILO (International Labour Organisation) Fundamental Principles and the Universal Declaration of Human Rights. These effectively cover potential controversies related to the OECD's key pillars of human rights, labour, environment, anticorruption & consumer protection.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Sustainability factors can have an impact on the companies in which the Fund invests, and the Investment Manager also recognises that companies themselves can have an adverse impact on, for example, the environment, their employees or the communities in which they operate. These adverse impacts include, but are not limited to, the generation of greenhouse gas (GHG) emissions and other forms of pollution or potential violations of the UNGC. The Investment Manager's analysis of companies took these factors into account and where it identified potential material adverse impacts, the Investment Manager engaged with the companies concerned as set out in more detail in the Investment Manager's Stewardship and Engagement Policy. Under the specific requirements of SFDR, the Investment Manager also reported on the PAI indicators using company sourced data or proxies where these were not available.

Analysis of the PAIs was incorporated in the Investment Manager's due diligence on each company. The assessment of the 14 mandatory PAIs and two additional PAIs are grouped into six key areas for assessing materiality. Not all PAIs were material for every company. The Investment Manager assessed whether any of the six areas were material for the investee company and, where material, incorporated these areas into its risk ratings, investment thesis and, if relevant, planned engagement activity.

The six key groupings of the PAIs are as follows:

- Carbon Emissions and Management (PAIs #1 (GHG emissions), #2 (Carbon footprint) & #3 (GHG intensity of investee companies) as well as optional PAI on companies without carbon emissions reduction initiatives);
- Exposure to companies in the fossil fuel industry (PAI #4 (Exposure to companies active in the fossil fuel sector));
- Energy & Water Efficiency (PAIs #5 (Share of non-renewable energy consumption and production) & #6 (Energy consumption intensity per high impact sector));
- Pollution & Biodiversity (PAIs #7 (Activities negatively affecting biodiversity-sensitive areas), #8 (Emissions to water) & #9 (Hazardous waste ratio));
- Human Rights and Employee Matters (PAIs #10-13 (Violations of UNGC and OECD Guidelines; Lack of processes and compliance mechanisms to monitor compliance with UNGC and OECD Guidelines; Unadjusted pay gap; and Board diversity) as well as an additional PAI focused on companies that lack a human rights policy); and
- Exposure to controversial weapons (PAI #14 (Exposure to controversial weapons)).

In some instances, such as PAI #10 (Violations of UNGC and OECD Guidelines), the Fund has binding criteria and will not invest in companies that are assessed as 'fail' under the UNGC. In line with the Investment Manager's Controversial Weapons Policy, the Fund will not hold companies with exposure to controversial weapons.

Information on PAIs on sustainability factors can be found in the manager's Responsible Investment Policy.

PAI indicators	Value	Coverage
GHG Emissions: Total Emissions EUR	12,594.31	96.22%
Carbon Footprint EUR	71.95	96.22%

What was the proportion of sustainability-related investments?

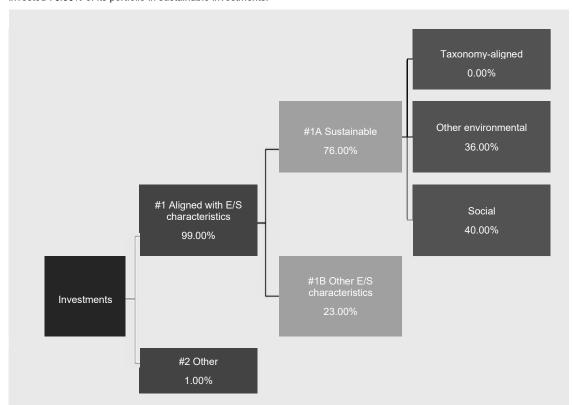

The proportion of sustainability-related investments was 76.00%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 99.00% of the Fund's portfolio was aligned with E/S Characteristics promoted by the Fund. The remaining portion (1.00%) was not aligned with the promoted characteristics and primarily consisted of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 76.00% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

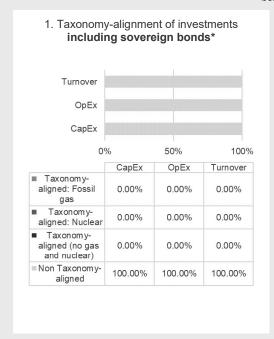

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

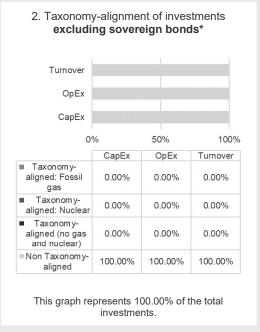

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

	Yes		
	☐ In fossil gas	□ In nuclear energy	
\boxtimes	No		

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

^{*} For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU taxonomy and, accordingly, as of the end of February 2023, 36.00% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 40.00%.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The portion of investments under '#2 Other' was 1.00% and included cash for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- · Engaged with portfolio companies on the setting or implementation of greenhouse gas emissions reductions targets.
- Adhered to the exclusions as set out in the prospectus regarding proprietary governance and sustainability risk ratings, UN Global Compact violations, controversial weapons, and all other business activities for which exclusions are in place.
- Considered all 14 mandatory PAIs, and two additional PAIs as part of investment analysis which includes indicators on energy and water efficiency, pollution and biodiversity risk.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable

Franklin Responsible Income 2028 Fund

Entity LEI: 254900FTK4TK4QA6CU84

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? YES **⋈ NO** 00 Environmental/Social promoted ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: ___% objective a sustainable investment, it had a proportion of 17.58% of sustainable investments in economic activities that qualify as with an environmental objective in economic environmentally sustainable under the EU activities that qualify as environmentally sustainable under the EU Taxonomy Taxonomy in economic activities that do not qualify as with an environmental objective in economic environmentally sustainable under the EU activities that do not qualify as environmentally sustainable under the EU Taxonomy Taxonomy with a social objective ☐ It promoted E/S characteristics, but did not make ☐ It made sustainable investments with a social objective: % any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Provided that the fund was launched on 23 January 2023, and is still in a process of raising funds and deploying capital, the intended portfolio composition has not been completed yet (and this initial stage can take up to 6 months). Yet, since the launch, the Fund promoted environmental and social characteristics in accordance with Article 8 of the Sustainable Finance Disclosure Regulation (the "SFDR"). The environmental and/or social characteristics promoted by the Fund were:

- promoting the transition to a low-carbon economy by avoiding investments in issuers that are lagging in the transition;
- implementing negative screens as part of its investment process.

Both characteristics listed above were met.

The Fund has a minimum allocation of 11% of its portfolio to sustainable investments. The Fund ensures that its sustainable investments did not cause significant harm to any environmental or social sustainable investment objective. As of 28th February, the fund's exposure to green and social bonds surpassed 17,5%. As of 28th February, the fund promoted a transition to a low-carbon economy by deploying c. 35% of assets in issuers classified under investment team's proprietary methodology as "champions". Further c. 26% was invested in issuers classified as overperformers. Thus, more than a half of fund's assets were deployed to invest in issuers, which carbon characteristic have been above fund's investable universe. By avoiding investing in securities involved in severe controversies or with exposure to adverse economic activities above rigorous thresholds, fund's exposure to Principle Adverse Impact Indicators, when compared with a benchmark. Please see the following sections for more detailed information

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The following sustainability indicators were used to measure the attainment of environmental or social characteristics promoted by the Fund:

- A. Exposure to Green, Social and Sustainability (GSS) Bonds and those issued by the Environmental Champions.
- 12.98% of investments in green bonds;
- 4.59% of investments in social bonds;
- 0% of investments in sustainability bonds;
- 35% of investments in bonds issued by best-in-class issuers ("Environmental Champions");

The total exposure to GSS bonds and those issued by the Environmental Champions is at 52% of NAV. The exposure to green and social bonds was exactly 17.58% of NAV. Therefore, the commitment to the binding element of the investment strategy – to invest at least 11% of the Fund's portfolio into sustainable investments – was met to the full extent.

B. The application of the ESG exclusions.

The fund has 0% of investment in issuers having exposure to or tying with excluded sectors described in the investment strategy. The exclusion of the bottom 20% of the investment universe based on the EETI and ESG Credit App has been assured. As of 28th February, the fund holds only one position classified as "a laggard". This name was bought as "an underperformer" eligible for an investment, but throughout investment period its carbon characteristics deteriorated, and the portfolio management is in a process of disposing this security within investment policy's timeframe.

C. Exposure to the Principle Adverse Impact (PAI) indicators.

A Fund-level weighted average of each of all the mandatory PAIs indicators under consideration was calculated for both the Fund and its benchmark. The Fund is not committing to have a Fund level PAIs average better than its benchmark's average.

D. The list of issuers, with which the Investment Manager engages.

The following issuers were engaged during the reference period:

- 1. CEZ AS
- 2. International Business Machines Corp
- 3. Italmatch Chemicals Spa
- 4. Morgan Stanley
- 5. Natwest Markets PLC

The engaged 5 out of 64 unique issuers (8%) constitute 9% of holdings and represent 9.5% of NAV of the fund as of 28 February 2023. All engagements included a focus on improving data disclosure & transparency related to the company's ESG reporting (incl. PAI indicators). The remaining themes discussed with the issuers were among others:

- Lowering GHG emissions (80% of engagements),
- UNGC compliance (60% of engagements),
- Biodiversity dependencies and impacts, including water use (40% of engagements).

More engagements are scheduled for the remaining part of 2023.

Sustainability KPI Name	Value	
Exposure to Green Bonds	12.98%	
Exposure to Social Bonds	4.59%	
Exposure to Sustainability Bonds	0.00%	
Exposure to Environmental Champions	34.59%	
Exposure to Excluded Sectors	0.00%	
Exposure to the Principle Adverse Impact (PAI) indicators	1.00	
List of issuers, with which the Investment Manager engages	1.00	

... And compared to previous periods?

Not applicable as there were no prior reference periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The objective of the sustainable investments were, amongst others, to fund and promote:

- a) the efficient use of energy, raw materials, water, and land;
- b) the production of renewable energy;
- c) the reduction of waste, and greenhouse gas (GHG) emissions, and lower impact of economic activities on biodiversity;
- d) the development of a circular economy;
- e) tackling inequalities and fostering social cohesion;
- f) social integration;
- g) good labour relations; or

h) investments in human capital, including disadvantaged communities.

The Fund's sustainable investments included a minimum allocation of 10% of its portfolio to sustainable investments in economic activities that contribute to environmental objectives.

This was achieved by investing in bonds labelled as "green" or in any other securities whose:

- A) proceeds were used on eligible environmental projects;
- B) framework adheres to international standards (including but not limited to, the International Capital Market Association (the "ICMA") Green Bond Principles, future European Union Green Bond Standard (the "EU GBS")); and
- C) issuers do not significantly harm other environmental and social objectives while demonstrating good governance practices.

The use of proceeds for these bonds was clearly defined and aligned with the objectives above.

Additionally, the Fund committed to include a minimum allocation of 1% of its portfolio to sustainable social activities. This was achieved by investing in bonds labelled as "social" or in any other securities, whose:

- A) proceeds were used on eligible social projects;
- B) framework adheres to international standards (including but not limited to, ICMA Social Bond Principles); and
- C) issuers do not significantly harm other environmental and social objectives while demonstrating good governance practices.

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used proprietary data tools and qualitative research to ensure alignment with the Do No Significant Harm (DNSH) principle across the portfolio.

Corporate issuers were monitored using the Principle Adverse Impact Risk App ("PAI Risk App"). The PAI Risk App used data from MSCI to identify issuers involved in harmful economic activities and/or controversies. Issuers deemed to violate PAI #7 (activities negatively affecting biodiversity-sensitive areas), #10 (violation of the UN Global Compact principles and the principles of the OECD Guidelines for Multinational Enterprises), and #14 (exposure to controversial weapons) were excluded from the Fund's investment universe.

The Investment Manager also used the Energy and Environmental Transition Index ("EETI") which ranks the remaining issuers in the Fund's investment universe according to their GHG emissions and intensity. Issuers falling within the bottom 20% of their peer groups with respect to PAI #1 (GHG emissions) and #3 (carbon footprint) (for corporates) and PAI #15 (GHG intensity) (for sovereigns) were excluded from the investment universe.

Additionally, sovereign issuers were subjected to tests based on their political liberties (PAI #16) and/or corruption.

When deploying funds to sustainable investments, especially with regards to the commitment to invest 11% of the Net Asset Value (NAV) in keeping with environmental and social objectives, the Investment Manager applied additional qualitative assessment (based on internal research or on external second party opinion) of the issuer's and of the projects' DNSH eligibility.

-How were the indicators for adverse impacts on sustainability factors taken into account?

Adverse impact indicators, including PAIs and other data points deemed by the Investment Manager as proxies for adverse impact, were used to:

a. remove issuers that were considered to do significant harm from the portfolio; and

b. inform the Investment Manager about the risk associated with adverse impact and take appropriate action – that included due diligence, qualitative scrutiny and/or engagement (for details of an engagement see sections "Principal Adverse Impact" and "Investment Strategy" of the Fund of this annex).

While assessing eligible green and social bonds, the Investment Manager reviewed and documented the materiality of relevant PAIs for the project as well as how the project's implementation affects the issuer's overall PAIs outlook.

For example, while investing in a green bond whose use of proceeds targets development of renewable energy sources, (e.g. solar/PV panels), the Investment Manager ascertained that financed projects score well on PAIs linked to GHG emissions.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

For bonds issued by sovereign countries, the Organisation for Economic Cooperation and Development (the "OECD") Guidelines for Multinational Enterprises and the United Nations Guiding Principles on Business and Human Rights were not applicable to such investments. For bonds issued by corporate issuers, the sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights.

Alignment was monitored using data from MSCI. Breaches identified by these service providers were flagged in the investment compliance system for subsequent investigation by the Investment Manager.

Where due diligence proved that the issuer was not aligned with OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, it was deemed un-investable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators were considered for the purpose of:

- (i) identifying issuers deemed to be "Best-in-class";
- (ii) restricting the Fund's investment universe; and
- (iii) guiding thematic engagement.

Identifying Best-in-class issuers

The Fund invested in bonds issued by corporates and sovereigns deemed by the Investment Manager to be "Environmental Champions". "Environmental Champions" were identified using two proprietary ESG rankings:

- The EETI ranks sovereign issuers energy efficiency, natural capital conservation, renewable energy performance, using various data points, including GHG Intensity (emissions normalized by gross domestic product, CO2e/GDP).
- The ESG Credit App ranks corporate issuers by their GHG emissions and GHG intensity using various data points such as scope 1 and 2 GHG emissions, emitters' historic trajectories.

Restricting Fund's investible universe

Sovereign issuers falling within the bottom 20% of the investment universe based on the EETI and corporate issuers falling within the bottom 20% (i.e. climate laggards) based on the ESG Credit App were also excluded from the portfolio.

Guiding thematic engagement

The Investment Manager committed to engage with 5% of active holdings which were considered as underperformers in terms of their aggregate exposure to applicable mandatory PAI metrics.

 $\label{eq:model} \mbox{More information on how the Fund considered its PAIs may be found in the periodic reporting of the Fund.}$

PAI indicators	Value	Coverage
GHG Emissions: Scope 1 EUR	1,109.46	64.71%
GHG Emissions: Scope 2 EUR	144.52	64.71%
GHG Emissions: Scope 3 Est EUR	6,075.57	64.71%
GHG Emissions: Scope 1 & 2 EUR	1,253.97	64.71%

Barclays PLC .877% 01/28/2028 *FIXED TO FLOAT* REG S	Financials	1.88%	United Kingdom

What was the proportion of sustainability-related investments?

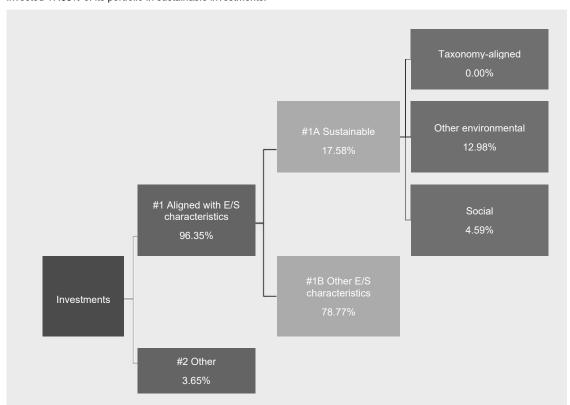

The portion of sustainability-related investments is 17.58%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 96.35% of the Fund's portfolio was aligned with the E/S characteristics promoted by the Fund. The remaining portion (3.65%) was not aligned with the promoted characteristics and consisted primarily of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and social characteristics, the Fund invested 17.53% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

The top sectors of this financial product as of 28 February 2023 were:

Top sector	Proportion	
Financials	53.77%	
Industrials	13.13%	
Utilities	7.01%	
Information Technology	6.81%	
Consumer Discretionary	3.79%	
Materials	3.10%	
Real Estate	2.38%	
Government Bonds	2.36%	
Communication Services	2.17%	
Health Care	2.06%	

Top sub-sector	Proportion
Banks	39.02%
Diversified Financials	13.71%
Utilities	7.01%
Transportation	6.51%
Software & Services	4.27%
Capital Goods	4.06%
Materials	3.10%
Commercial & Professional Services	2.56%
Technology Hardware & Equipment	2.54%
Real Estate	2.38%
Government Bonds	2.36%
Telecommunication Services	2.17%
Health Care Equipment & Services	2.06%
Consumer Durables & Apparel	2.00%
Retailing	1.78%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

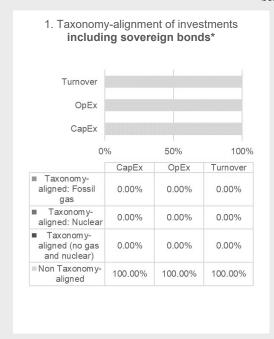

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

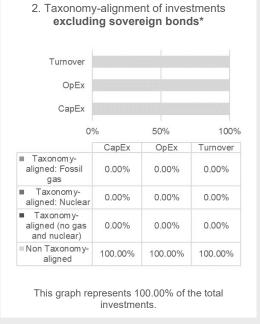

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ?¹

	Yes		
	□ In fossil gas	□ In nuclear energy	
\boxtimes	No		

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

^{*} For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As of the end of the reference period, 12.98% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU Taxonomy.

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 4.59%.

What investments were included under "#2 Other", what was their purpose and were there any minimum environmental or social safeguards?

The portion of investments under "#2 Other" was 3.65% and comprised of liquid assets (ancillary liquid assets, bank deposits, money market instruments and money market funds) held for the purposes of servicing the day-to-day requirements of the Fund.

No minimum environmental and/or social safeguards were put in place.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The following actions have been taken to meet the environmental and/or social characteristics during the reference period:

A. The sustainability indicators were used to measure the attainment of each environmental or social characteristic promoted by the Fund.

- B. The Investment Manager used proprietary data tools and qualitative research to ensure alignment with the Do No Significant Harm (DNSH) principle across the portfolio. Corporate issuers were monitored using the Principle Adverse Impact Risk App ("PAI Risk App"). The Investment Manager also used the Energy and Environmental Transition Index ("EETI"), which ranks the remaining issuers in the Fund's investment universe according to their GHG emissions and intensity.
- C. When deploying funds to sustainable investments, especially with regards to the commitment to invest 11% of the Net Asset Value (NAV) in keeping with environmental and social objectives, the Investment Manager applied additional qualitative assessment (i.e., the Sustainable Investment Evaluation Form based on internal research or on external second party opinion) of the issuer's and of the projects' DNSH eligibility.
- D. The Fund employed a proprietary ESG rating methodology with the aim to avoid investment in issuers that are lagging in the transition to support a low-carbon economy. The ESG rating methodology was applied to at least 90% of the Fund's portfolio and was binding for the portfolio construction. The Fund used a selectivity approach in order to exclude from its portfolio issuers (corporates and sovereigns) that scored in the bottom 20% of its investment universe in terms of these metrics.
- E. The engaged 5 out of 64 unique issuers (8%) constitute 9% of holdings and represent 9.5% of NAV of the fund as of 28 February 2023. We have done this via email, direct video calls, attending roadshows or during in person meetings. We continue to engage with the issuers we hold in the account. More information on engagements is provided in the sections above.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable
