OUR POLICY ON MARKET TIMING

The Fund is designed and managed to support medium to long-term investments. In this regard, we take a serious view of, and strongly discourage the practice of market timing (that is, investors conducting short-term buying or selling of Units to gain from inefficiencies in pricing) as such practices may cause an overall detriment to the long-term interests of other investors. In addition, short-term trading in Units increases the total transaction costs of the Fund, such as trading commission and other costs which are absorbed by all other investors. Moreover, the widespread practice of market timing may cause large movements of cash in the Fund which may disrupt the investment strategies to the detriment of long-term investors. For the reasons set out above, we strongly discourage the practice of market timing and may implement internal measures to monitor and control such practice to the extent of our powers available under the Deed. We intend to review our policy on market timing from time to time in a continuous effort to protect your long-term interests in the Fund.

The auditors of the accounts relating to the Fund are PricewaterhouseCoopers LLP of 7 Straits View, Marina One East Tower, Level 12, Singapore 018936 (the “**Auditors**”).

6. THE ADMINISTRATOR

The administrator of the Fund is HSBC Institutional Trust Services (Singapore) Limited, whose registered office is at 10 Marina Boulevard, Marina Bay Financial Centre, Tower 2, #48-01, Singapore 018983.

7. STRUCTURE OF THE FUND

The Fund is constituted as a stand-alone open-ended unit trust scheme established under the laws of Singapore and has no fixed duration. We are currently offering three Classes of Units, namely, a Singapore dollar-denominated Class (“**SGD Class**”), a US dollar-denominated Class (“**USD Class**”) and a Singapore dollar-denominated Hedged Class (“**SGD-Hedged Class**”) (each a “**Class**” and collectively, the “**Classes**”).

There are no material differences between the SGD Class Units, SGD-Hedged Class Units and the USD Class Units save for the currency of denomination and hedging policy.

SGD-Hedged Class

In respect of the SGD-Hedged Class, we have the ability to hedge the Units of such Class in relation to the currency of the underlying investments in such manner as we deem appropriate.

Where hedging of this kind is undertaken, we may engage, for the exclusive account of the Fund, in, amongst other things, currency forwards, currency futures, currency option transactions and currency swaps in order to preserve the value of the SGD-Hedged Class against the currency of the underlying investments.

Where undertaken, the effects of this hedging will be reflected in the Net Asset Value of the SGD-Hedged Class, and, therefore, in the performance of the SGD-Hedged Class. Similarly, any expenses arising from such hedging transactions will be borne by the SGD-Hedged Class.

These hedging transactions may be entered into whether the SGD (in the case of SGD-Hedged Class) is declining or increasing in value relative to the currency of the underlying investments. We endeavour to undertake such hedging with the intention of protecting your investment in the SGD-Hedged Class against a decrease in the value of the currency of the underlying investments relative to the SGD. However, it may also preclude you from benefiting from an increase in the value of the currency of the underlying investments. You should note that there is no guarantee that such a strategy will be able to achieve its objective.

8. INVESTMENT OBJECTIVE, FOCUS & APPROACH

8.1 Investment Objective

The investment objective of the Fund is to provide total return of capital growth and income over the medium to long-term, through an actively managed portfolio of bonds, high quality interest rate securities, convertible bonds, real estate investment trusts (“**REITs**”), business trusts and other related securities issued by issuers predominantly in the Asian region or issuers with significant business presence or exposure in the Asian region. There is no target industry or sector.

8.2 Investment Focus and Approach

(a) Investment Philosophy

We aim to deliver consistent outperformance on a risk adjusted basis through market cycles. As an active asset manager, we seek to add value through the effective combination of research driven investment ideas and rigorous portfolio construction disciplines. In addition, we will manage five principal areas of risks, namely, country, duration, interest, currency and credit.

(b) Investment Process

The investment process incorporates both the ‘top-down’ and ‘bottom-up’ approaches.

The top-down approach employs three forms of analysis - fundamental, technical and valuation and leads to macro decisions, on country allocation, duration, yield curve positioning and currency.

The bottom-up approach involves research into each company’s business, financial and credit position and aims to enhance the portfolio’s return via active credit selection and on-going credit monitoring.

Please note that Units of the Fund are Excluded Investment Products and prescribed capital markets products. Accordingly, the Fund will not invest in any product or engage in any transaction which may cause the Units of the Fund not to be regarded as Excluded Investment Products and prescribed capital markets products.

8.3 Investment style and benchmark usage

The benchmark of the Fund is the JP Morgan Asia Credit Index. The Fund uses its benchmark for performance comparison. The Fund is actively managed and the investment of the Fund may deviate significantly from components of and their respective weightings in the benchmark.

8.4 Authorised Investments

The Fund may invest in the following Authorised Investments (as defined in the Deed):

- (a) fixed and floating rate bonds and debt securities, convertible bonds, REITs, business trusts and other debt-related securities issued by governments, quasi-government, government agencies, supranationals and corporates predominantly in the Asian region. These may or may not be listed and may be non-investment grade or unrated, and will be denominated primarily in Asian currencies, US Dollars and other major currencies;
- (b) currency deposits and short-term money market instruments including but not limited to convertible and non-convertible corporate debt securities including bonds, debentures, loan stock, notes, certificates of deposit, variable rate certificates of deposit, bankers’ acceptances, commercial paper issued by corporations or government bodies including short term unsecured promissory notes, treasury bills, all other fixed or floating rate instruments or interest rate futures and options which may be selected by us for the purpose of investment of the Deposited Property (as defined in the Deed) or which may for the time being form part thereof; and
- (c) any other investment not covered by Paragraphs (a) and (b) above but approved by the Trustee,

provided that each of such Authorised Investments falling within Paragraphs (a) to (c) of this definition shall be a Permissible Investment under the Code on Collective Investment Schemes (as may be amended from time to time) issued by the Authority (the “**Code**”), and to the extent allowed under the Notice on the Sale of Investment Products, the Notice on Recommendations on Investment Products and the Securities and Futures (Capital Markets Products) Regulations 2018 for the purpose of classifying Units of the Fund as Excluded Investment Products and prescribed capital markets products.

“**Permissible Investment**” is defined in the Deed to mean such investment as may be permitted to be made by the Fund under the Code.

8.5 Product Suitability

The Fund is only suitable for investors who:

- are seeking a steady return over time;
- are seeking capital growth and income over the medium to long-term; and
- are comfortable with the risks of investing in a bond fund.

Such switching fee which may be up to 1% would, in the case of a new Fund or new Class (as the case may be) which normally imposes a Preliminary

Charge of more than 1%, effectively translates to a discount of the Preliminary Charge of the new Fund or new Class (as the case may be). Currently, no switching fee is charged for a switch of Units to units in a money market fund managed by us.

You should note that the fees and charges applicable to the Fund (including fees based on the Net Asset Value of the Fund) will be based on the Net Asset Value before Swing Pricing adjustment (if any) is applied. Please refer to paragraph 22.13 of this Prospectus for further details.

The fees and charges payable by the Holders and the Fund may be raised from the current rate to a higher rate, but always subject to the maximum rate, by us upon giving at least one month's written notice to the Trustee and the Holders.

10. RISKS

10.1 General risks

You should consider and satisfy yourself as to the risks of investing in the Fund. Generally, some of the risk factors which should be considered by you are market, derivatives, liquidity, economic, political, repatriation, regulatory, currency and emerging market risks and risks associated with investments in debt securities which are interest rate and default risks.

An investment in the Fund is meant to produce returns over the long term. You should not expect to obtain short-term gains from such investments. You should note that the value of Units and the income accruing to the Units, may fall or rise and that you may not get back your original investment.

10.2 Risks specific to the Fund

(a) Market Risks

The risks of investing and participating in listed and unlisted securities apply. Prices of securities may go up or down in response to changes in economic conditions, interest rates, and the market's perception of securities. These may cause the price of Units in the Fund to go up or down as the price of Units in the Fund is based on the current market value of the investments of the Fund.

There are risks of investing in bonds and other fixed income securities. Bond prices may go up or down in response to interest rates with increases in interest rate leading to falling bond prices.

The market prices of bonds and other fixed income securities are also affected by credit risks, such as risk of default by issuers, and liquidity risk.

(b) Derivatives Risks

The Fund may, subject to applicable investment and borrowing guidelines in the Code and the Deed, from time to time invest in derivatives such as futures, options, warrants, forwards and swaps, which are financial contracts whose value depends on, or is derived from, the value of an underlying asset, reference rate or index. Such assets, rates and indices may include (but not limited to) bonds, shares, interest rates, currency exchange rates, bond indices and stock indices.

While the judicious use of derivatives by professional investment managers can be beneficial, derivatives involve risks different from, and, in some cases, greater than, the risks presented by more traditional securities investments. Some of the risks associated with derivatives are market risk, management risk, credit risk, liquidity risk and leverage risk.

As the viability of exercising derivative instruments depend on the market price of the investments to which they relate, we may from time to time consider it not viable to exercise certain derivatives held by the Fund within the prescribed period, in which case any costs incurred in obtaining the derivatives will not be recoverable. There is also the risk that the market price of the relevant investment will not exceed the exercise price attached to the derivative instrument at any time during the exercise period or at the time at which the derivative instrument is exercised and this may result in an immediate loss to the Fund.

Please refer to Paragraph 22.8 below for further information on financial derivative instruments.

(c) Political Risks

The political situation in the countries in which the Fund invests may have an effect on the value of the securities of companies involved, which may in turn impact on the value of the Units in the Fund.

(d) Currency Risks

As the investments of the Fund may be denominated in foreign currencies, fluctuations of the exchange rates of foreign currencies against the base currency of the Fund (i.e. the Singapore Dollar) may affect the value of Units in the Fund. We may from time to time employ currency hedging techniques to manage the impact of the exchange rate fluctuations on the Fund and/or for the purpose of efficient portfolio management. If we intend to hedge foreign currency risks, we will adopt an active currency management approach.

(e) Repatriation Risks

Investments in emerging markets could be adversely affected by delays in, or refusal to grant, relevant approvals for the repatriation of funds or by any official intervention affecting the process of settlement of transactions. Consents granted prior to investments being made in any particular country may be varied or revoked, and new restrictions may be imposed.

(f) Interest Rate Risks

Investments in debt securities are also subject to the risk of interest rate fluctuations, and the prices of debt securities may go up or down in response to such fluctuations in interest rates.

(g) Credit and Default Risks

The Fund may invest in debt obligations of governments and companies. Adverse changes in the country or company may cause the Fund to suffer a loss of interest or principal on any of its holdings of such debt. The government entity or company that controls the servicing of debt obligations may be unwilling or unable to repay the obligations in accordance with their terms.

(h) Other Risks

The Fund's investments are also subject to liquidity and regulatory risks, for example, the introduction of new laws, the imposition of exchange controls, the adoption of restrictive provisions by individual companies or where a limit on the holding of the Fund in a particular company, sector or country by non-residents (individually or collectively) has been reached.

Investments by the Fund in some Asian and/or emerging markets often involve a greater degree of risk due to the nature of such markets which do not have fully developed services such as custodian and settlement services which are often taken for granted in more developed markets. There may be a greater degree of volatility in such markets because of the speculative element, significant retail participation and the lack of liquidity which are inherent characteristics of these Asian and/or emerging markets.

In addition, the Fund will be exposed to credit risk on parties with whom it trades and will bear the risk of settlement default. The Trustee may also be instructed by us to settle transactions on a delivery free of payment basis where we believe and the Trustee agrees

that this form of settlement is common market practice. You should be aware that this may result in a loss to the Fund if a transaction fails to settle, and the Trustee will not be liable to the Fund for such loss.

The above should not be considered as an exhaustive list of the risks which you should consider before investing in the Fund. You should be aware that an investment in the Fund may be exposed to other risks of an exceptional nature from time to time.

11. SUBSCRIPTION OF UNITS

11.1 How to purchase Units

Applications for Units may be made to us on the application form prescribed by us or through any of our appointed agents or distributors or through any other sales channels, if applicable.

You have a choice of paying for SGD Class Units and SGD-Hedged Class Units with cash or Supplementary Retirement Scheme (“**SRS**”) monies. If you have purchased SGD Class Units and/or SGD-Hedged Class Units using your SRS monies, you may not be registered as Joint Holders of the Units.

If you are paying with SRS monies, you shall instruct the relevant SRS operator bank to withdraw monies from your SRS account in respect of the SGD Class and SGD-Hedged Class Units applied for. You should also indicate on the application form that you wish to use your SRS monies to purchase Units.

No transfer is permitted in respect of Units purchased by you with SRS monies unless required or permitted by applicable laws or the relevant authorities.

You may pay for USD Class Units only with cash or such other mode of payment acceptable to us.

Notwithstanding receipt of the application forms, we shall retain the absolute discretion to accept or reject any application for Units in accordance with the provisions of the Deed. If an application for Units is rejected by us, the application monies shall be refunded (without interest) to you within a reasonable time in such manner as we or the relevant authorised distributor shall determine. Any applicable bank and related charges would be borne by you.

Units will only be issued when the funds are cleared, although we may at our discretion issue Units before receiving full payment in cleared funds.

11.2 Minimum initial subscription and minimum subsequent subscription

Class	Minimum Initial Subscription	Minimum Subsequent Subscription
SGD Class	S\$1,000	S\$100
SGD-Hedged Class	S\$1,000	S\$100
USD Class	US\$1,000	US\$100

We have the discretion, subject to the relevant provisions of the Deed, to change the minimum initial subscription and minimum subsequent subscription amounts for the Units from time to time and on a case by case basis, upon giving prior written notice to the Trustee.

11.3 Dealing Deadline and Pricing Basis

11.3.1 Dealing deadline

As Units are issued on a forward pricing basis, the issue price (“**Issue Price**”) of Units shall not be ascertainable at the time of application. In purchasing Units, you pay a fixed amount of money e.g., S\$1,000 for SGD Class Units. Based on this fixed amount of S\$1,000, you will get the number of Units (including fractions of Units) to be rounded to the nearest two (2) decimal places or such other number of decimal places or such other method of rounding as we may determine with the approval of the Trustee obtained from dividing S\$1,000 (after deducting the relevant preliminary charge) by the Issue Price when it has been ascertained later.

The dealing deadline is 3 p.m. (Singapore time) on each Dealing Day (“**Dealing Deadline**”). Units in respect of applications received and accepted by us before the Dealing Deadline will be issued at that Dealing Day’s Issue Price.

Applications received and accepted by us after the Dealing Deadline on a Dealing Day or on a day which is not a Dealing Day shall be treated as having been received on the next Dealing Day.

“**Dealing Day**” means every Business Day or such Business Day or Business Days at such intervals as we may from time to time determine provided that reasonable notice of any such determination shall be given by us to all Holders at such time and in such manner as the Trustee may approve.

A “**Business Day**” means any day (other than Saturday, Sunday or a gazetted public holiday) on which commercial banks are open for business in Singapore or any other place or places we may determine (with prior written notice to the Trustee) or any other days as we and the Trustee may agree in writing.

11.3.2 Pricing basis

The Issue Price per Unit applicable to any Dealing Day shall be ascertained by us by:

- (a) determining the value equal to the Net Asset Value per Unit (as defined in Paragraph 22.6(b) of this Prospectus) as at the Valuation Point² on the relevant Dealing Day; and
- (b) adjusting such figure downwards to three (3) decimal places (or such other number of decimal places or such other method of rounding as we may from time to time determine after consultation with the Trustee).

The Preliminary Charge shall be retained by us or our appointed distributors and the amount of the adjustment shall be retained by the Fund.

The Issue Price of Units will vary from day to day in line with the Net Asset Value of the Fund (calculated in accordance with the provisions of the Deed).

We may, subject to the prior approval of the Trustee, change the method of determining the Issue Price in accordance with the provisions of the Deed, and the Trustee shall determine if the Holders should be informed of such change.

11.4 Calculation of number of Units allotted

The following is an illustration of the number of Units that you will receive based on an investment amount of \$1,000, a notional Issue Price of \$1.000 and a Preliminary Charge of 3%:

\$1,000.00*	-	\$30.00*	=	\$970.00*	/	\$1.000*	=	970.00 Units
Your investment		Preliminary Charge (currently 3%)		Investment amount after Preliminary Charge		Notional Issue Price (= Net Asset Value per Unit)		No. of Units

* In Singapore Dollars or US Dollars, as the case may be.

You should note that the notional Issue Price is for illustrative purposes only and is not indicative of any future or likely performance of the Fund.

11.5 Confirmation of purchase

A confirmation note detailing your investment amount and the number of Units allocated to you will be sent to you within ten (10) Business Days of the date of issue of such Units.

² “**Valuation Point**” means the close of business of the last relevant market on a Dealing Day or such time as we with the prior approval of the Trustee may from time to time determine and we shall notify the Holders of such change if required by the Trustee.

11.6 No Certificates to be issued

As provided in the Deed, no certificates shall be issued in respect of Units issued in respect of the Fund.

11.7 Cancellation of Units

If you are subscribing for Units in the Fund for the first time, subject to the provisions of the Deed and to cancellation terms and conditions contained in the Notice to Cancel Form, you have the right to cancel your subscription of Units within 7 calendar days from the date of your subscription (or such longer period as may be agreed between us and the Trustee or such other period as may be prescribed by the Authority) by giving notice in writing to us or our authorised distributors in such form as we may prescribe. Subject to the provisions of the Deed, you will be refunded the lower of the market value of the Units held on the day of receipt and acceptance of such form or the original amount paid by you. Where the market value of the Units held is greater than the original amount paid by you, we are not obliged to pay the excess amount to you and the excess amount shall be retained in the Fund.

Any applicable bank and related charges incurred in cancellation and returning the proceeds would be borne by you.

Full details relating to the cancellation of Units may be found in the cancellation terms and conditions contained in the Notice to Cancel Form.

12. **REGULAR SAVINGS PLAN**

Holders of at least 1,000 Units in the SGD Class, SGD-Hedged Class and USD Class (or the number of Units which were or would have been purchased for S\$1,000 in respect of the SGD Class Units and SGD-Hedged Class Units or US\$1,000 in respect of the USD Class Units at the prevailing Issue Price at the time of their initial subscription or purchase of Units), may participate in our Regular Savings Plan by investing a monthly minimum of S\$100 in respect of the SGD Class Units, S\$100 in respect of the SGD-Hedged Class Units or US\$100 in respect of the USD Class Units on a fixed day per month through direct debit. We may, at our discretion and on a case by case basis, permit a Holder to invest a monthly minimum of (i) less than S\$100 in respect of the SGD Class Units and the SGD-Hedged Class Units or (ii) less than US\$100 in respect of the USD Class Units.

Units are allotted and payment will be debited from the Holder's bank account or SRS account (as the case may be) on the 25th day of each month (or such other day as the distributors may stipulate) commencing on the month following activation of the Holder's direct debit instructions. Where the 25th day of a month (or such other day as the distributors may stipulate) is not a Business Day, the Holder's bank or SRS account (as the case may be) will be debited on the next Business Day.

USD Class Units may not be paid using SRS monies. USD Class Units shall be paid for in cash or such other mode of payment acceptable to us. Any applicable bank and related charges incurred shall be borne by you.

A Holder may terminate his participation in the Regular Savings Plan without suffering any penalty upon giving 30 days' prior written notice (or such other period of notice as we may determine provided that such period of notice shall not be longer than the period between the regular subscriptions) to us or our appointed agents or distributors.

If a Holder is in breach of his obligations under the Regular Savings Plan or fails to maintain sufficient funds in his bank account or SRS account, we may terminate the participation of that Holder in the Regular Savings Plan upon serving a written termination notice to such Holder.

We shall not assume any liability for any losses arising from a Holder's payment for the Regular Savings Plan via direct debit transactions. Any applicable bank and related charges incurred shall be borne by the Holder.

13. REALISATION OF UNITS

13.1 How Units may be sold or realised

(a) Realisation Procedure

Holders may realise their Units on any Dealing Day by submitting realisation forms to us or through our appointed agents or distributors. Holders may realise their Units in full or partially, subject to Paragraph 13.1(b) below. A copy of the realisation form may be obtained from us upon request or through any of our appointed agents or distributors.

You should note that any realisation of Units of a Class may be limited by the total number of Units in relation to the Fund or Class to be realised on any Dealing Day and may not exceed 10% of the total number of Units relating to such Fund or Class then in issue, such limitation to be applied proportionately to all Holders. Any Units not realised shall be realised on the next Dealing Day, subject to the same limitation.

You should note that Units cancelled according to Paragraph 11.7 of this Prospectus will be included in determining whether this 10% limit is exceeded.

(b) Minimum Holding and Minimum Realisation Amount

The minimum holding and minimum realisation amount for each Class are set out in the table below. We may, from time to time, (i) set such other number of Units in each Class as the minimum holding in accordance with the Deed or (ii) set such lower amount for each Class as the minimum realisation amount in any particular case.

Class	Minimum Holding	Minimum Realisation Amount
SGD Class Units	1,000 Units	100 Units
SGD-Hedged Class Units	1,000 Units	100 Units
USD Class Units	1,000 Units	100 Units

A Holder shall not be entitled to realise only part of his holding of Units if his holding would thereby be reduced to less than the minimum holding, without our and the Trustee's approval.

(c) Dealing Deadline and Pricing Basis

As Units are realised on a forward pricing basis, the Realisation Price of Units is not ascertainable at the time of realisation. Units in respect of realisation forms received and accepted by us by the Dealing Deadline shall be realised at that Dealing Day's Realisation Price calculated in accordance with the provisions of the Deed. Realisation forms received after the Dealing Deadline or on a day which is not a Dealing Day shall be treated as having been received on the next Dealing Day.

The Realisation Price applicable to any Dealing Day shall be determined by:

- (i) calculating the Net Asset Value per Unit as at the Valuation Point either (a) in respect of the Dealing Day on which the realisation request is received or (b) if the realisation of Units is suspended according to Paragraph 16 of this Prospectus, in respect of the Dealing Day immediately following the cessation of such suspension; and
- (ii) adjusting the resultant figure downwards to the nearest three (3) decimal places (or such other number of decimal places or such other method of rounding as we may from time to time determine after consulting with the Trustee).

The Realisation Charge (if any) will be deducted from the gross realisation proceeds upon the realisation of Units to arrive at the net realisation proceeds. We may, subject to the prior written approval of the Trustee, change the method of determining the Realisation Price in accordance with the provisions of the Deed and the Trustee shall determine if the Holders should be informed of such changes.

The Realisation Charge (if any) shall be retained by us and the amount of the adjustment shall be retained by the Fund.

13.2 How the realisation proceeds are calculated

The following is an illustration of the realisation proceeds that you will receive based on a holding of 100 Units, at a notional Realisation Price of \$1.000:

100 Units	x	\$1.000*	=	\$100.00*
Units realised		Notional Realisation Price (=Net Asset Value per Unit)		Gross realisation proceeds
\$100.00*	-	Nil	=	\$100.00*
Gross realisation proceeds		Realisation Charge^		Net realisation proceeds

* In Singapore Dollars or US Dollars, as the case may be.

^ No Realisation Charge is currently being imposed.

You should note that the notional Realisation Price is for illustrative purposes only and is not indicative of any future or likely performance of the Fund.

13.3 Payment of realisation proceeds

Realisation proceeds shall be paid within 7 Business Days (or such other period as may be permitted by the Authority) of receipt and acceptance of the relevant realisation form by us, unless the realisation of Units has been suspended in accordance with Paragraph 16 of this Prospectus.

If you are a resident outside Singapore, we shall be entitled to deduct from the total amount which would otherwise be payable on the purchase from you an amount equal to the excess of the expenses actually incurred over the amount of expenses which would have been incurred if you had been resident in Singapore.

Any applicable bank and related charges incurred in the payment of realisation proceeds shall be borne by you.

13.4 Realisation of Units by us

We may compulsorily realise your holding of Units in certain circumstances. Please see Paragraph 22.11 for further details.

14. **SWITCHING OF UNITS**

We may at our discretion and on such terms and conditions as we may impose, subject to the terms of the relevant trust deed, permit each Holder of Units from time to time to switch all or any of the Units of the Fund (the “**original Fund**”) or Class within the Fund (the “**original Class**”) held by him into units of a new Fund or new Class (as the case may be). Any switching shall be effected by way of realisation of Units in the original Fund or original Class and followed by issuance of units in the new Fund or the new Class (as the case may be) subject to the terms of the relevant trust deed of the new Fund upon the receipt of cleared funds.

No switching of Units may be made which would result in the relevant Holder holding in respect of either the original Fund or the original Class or the new Fund or new Class (as the case may be), fewer units than the relevant minimum holding of such original Fund or the original Class or the new Fund or new Class (as the case may be). If the number of units of the new Fund or new Class so produced shall include any fraction of more than two decimal places, such fraction shall be ignored and any moneys arising from such fraction shall be forfeited and retained as part of the new Fund or new Class.

Units of the original Fund purchased with cash or SRS monies may only be switched to units of the new Fund or new Class (as the case may be) purchased with cash or SRS monies respectively.

Switching shall only be permitted between the same currency of units between the original Fund or the original Class and the new Fund or new Class (as the case may be), unless otherwise permitted by us at our absolute discretion.

An application to switch may be made by a Holder by giving to us such application form as we may from time to time require. Such switching request shall not be revocable without our consent.

No Units shall be switched during any period when the right of Holders to require the realisation of Units is suspended according to Paragraph 16 of this Prospectus or on any Dealing Day on which the number of Units of the original Fund that can be realised is limited according to Paragraph 13.1(a) of this Prospectus.

15. OBTAINING PRICES OF UNITS

The Fund will be valued on each Dealing Day. The indicative prices for the SGD Class Units, the SGD-Hedged Class Units and USD Class Units are quoted on a forward pricing basis and will likely be available 2 Business Days in Singapore after each relevant Dealing Day (subject to the publication policies of the relevant publisher). The prices are published on our website at www.lionglobalinvestors.com. The prices may also be published in the Straits Times, The Business Times and selected major wire services or such other sources as we may decide upon.

In the case of the USD Class, the Issue Price and Realisation Price will be converted into its equivalent amount in US Dollars based on the prevailing foreign exchange rate to be determined by us.

You should note that, other than in respect of our publications, we do not accept any responsibility for any errors on the part of the relevant publishers in the prices published in the newspapers and wire services mentioned above, or for any non-publication or late publication of prices by such publisher and shall incur no liability in respect of any action taken or loss suffered by you in reliance upon such publication.

16. SUSPENSION OF DEALINGS

16.1 We or the Trustee may, subject to the provisions of the Code and at any time, after consultation with the other, suspend the issue and realisation of Units according to this Paragraph 16.1 during:

- (a) any period when any Recognised Stock Exchange for any Authorised Investments for the time being constituting the Deposited Property is closed otherwise than for ordinary holidays or during which dealings are restricted or suspended; or
- (b) any period when, in our and the Trustee's opinion, there exists any state of affairs as a result of which withdrawal of deposits held for the account of the Fund or the realisation of any material proportion of the Authorised Investments for the time being constituting the Deposited Property cannot be effected normally or without prejudicing the interests of Holders as a whole; or
- (c) any period when there is, in our and the Trustee's opinion, any breakdown in the means of communication normally employed in determining the value of any of the Authorised Investments or the current price on that Recognised Stock Exchange or when for any reason the prices of any of such Authorised Investments cannot be promptly and accurately ascertained (including any period when the fair value of a material portion of the Authorised Investments cannot be determined); or
- (d) during any period when, in our and the Trustee's opinion, the transfer of funds which will or may be involved in the realisation of or payment for such Authorised Investments for the time being constituting the Deposited Property cannot be effected promptly at normal rates of exchange; or
- (e) any period of forty-eight (48) hours (or such longer period that we and the Trustee may agree) prior to the date of any meeting (or adjourned meeting) of Holders of the Fund or Class convened in accordance with the provisions of the Deed; or
- (f) any period where the dealing of Units is suspended according to any order or direction by the Authority; or

(g) any period when our business operations or the business operations of the Trustee in relation to the operation of the Fund is substantially interrupted or closed as a result of or arising from pestilence, acts of war, terrorism, insurrection, revolutions, civil unrest, riots, strikes or acts of God; or

(h) any period as may be required under the provisions of the Code,

19. CONFLICTS OF INTEREST

We and the Trustee are not in any positions of conflict in relation to the Fund. We and the Trustee shall conduct all transactions with or for the Fund at arm's length. We are of the view that we are not in a position of conflict in managing our other funds and the Fund as each of the other funds and the Fund has its own investment universe, investment objectives and investment restrictions, separate and distinct from each of the other funds. We are obligated by the provisions of each respective trust deed to observe strictly such separate and distinct investment mandate for each of our funds. If the various funds place the same orders for the same securities as the Fund, we shall try as far as possible to allocate such securities among the funds in a fair manner based on a proportionate basis.

Our affiliates and the Trustee's affiliates are or may be involved in other financial, investment and professional activities which may sometimes give rise to possible conflict of interest within the management of the Fund. We and the Trustee will each ensure that the performance of our respective duties will not be impaired by any such involvement. If a conflict of interest does arise, we and/or the Trustee shall try to ensure that it is resolved fairly and in the interest of the Holders.

Associates of the Trustee may be engaged to provide financial, banking or brokerage services to the Fund or buy, hold and deal in any investments, enter into contracts or other arrangements with the Trustee and make profits from these activities. Our associates may also be engaged to provide financial, banking or brokerage services to the Fund and make profits from these activities. - (d) Any indemnity expressly given to the Trustee or us in the Deed is in addition to and without prejudice to any indemnity allowed by law; Provided Nevertheless That any provision of the Deed shall be void insofar as it would have the effect of exempting it/us from or indemnifying it/us against any liability for breach of trust or any liability which by virtue of any rule of law

would otherwise attach to it/us in respect of any negligence, default, breach of duty or trust of which it/we may be guilty in relation to its/our duties where it/we fail to show the degrees of diligence and care required of it/us having regard to the provisions of the Deed.

- (e) Nothing contained in the Deed shall be construed so as to prevent us and the Trustee in conjunction or us or the Trustee separately from acting as managers or trustee of trusts separate and distinct from the Fund and neither we nor the Trustee shall in any way be liable to account to the Fund or any other person for any profit or benefit made or derived thereby or in connection therewith.
- (f) Neither we nor the Trustee shall be responsible for acting upon any resolution purporting to have been passed at any meeting of the Holders in respect whereof minutes shall have been made and signed even though it may be subsequently found that there was some defect in the constitution of the meeting or the passing of the resolution or that for any reason the resolution was not binding upon all the Holders.
- (g) The Trustee may act upon any advice of or information obtained from us or any bankers, accountants, brokers, lawyers, agents or other persons acting as agents or advisers of the Trustee or us and the Trustee shall not be liable for anything done or omitted or suffered in reliance upon such advice or information provided that it has acted in good faith, without negligence and with due care. The Trustee shall not be responsible for any misconduct, mistake, oversight, error of judgment, forgetfulness or want of prudence on our part or the part of any such banker, accountant, broker, lawyer, agent or other person mentioned above provided that the Trustee has acted in good faith and with due care in the appointment thereof (where such person is appointed by the Trustee). - (ii) not quoted on any Recognised Stock Exchange, shall be calculated by reference to (a) the last available price, quoted by reputable institutions in the over-the-counter or telephone market at the time of calculation; (b) initial value thereof being the amount expended in the acquisition thereof (including in each case the amount of the stamp duties, commissions and other expenses in the acquisition thereof and the vesting thereof in the Trustee); or (c) the price of the relevant investment as quoted by a person, firm or institution making a market in that investment, if any (and if there shall be more than one such market maker then such market maker as we may designate);

For the purposes of this proviso, "fair value" shall be determined by us in consultation with an Approved Broker (as defined in the Deed) or an Approved Valuer (as defined in the Deed) and with the consent of the Trustee, in accordance with the Code.

In exercising in good faith the discretion given by the proviso above, we shall not, subject to the provisions of the Code, assume any liability towards the Fund, and the Trustee shall not be under any liability, in accepting our opinion, notwithstanding that the facts may subsequently be shown to have been different from those assumed by us.

- (b) **"Net Asset Value"** means the Value of all assets of the Fund less liabilities and **"Net Asset Value per Unit"** means the Net Asset Value divided by the number of Units of the Fund in issue or deemed to be in issue immediately prior to the relevant Dealing Day (rounded down to the nearest \$0.001 or such other number of decimal places or any other method of rounding as we may determine with approval of the Trustee).

- (ii) where Authorised Investments have been agreed to be purchased or otherwise acquired or sold but such purchase, acquisition or sale has not been completed, such Authorised Investments shall be included or excluded and the gross purchase, acquisition or net sale consideration excluded or included as the case may require as if such purchase, acquisition or sale had been duly completed;

 - (D) the aggregate amount for the time being outstanding of any borrowings effected under the provisions of the Deed together with the amount of any interest and expenses thereon accrued and remaining unpaid;
- (v) there shall be taken into account such sum as we estimate will fall to be paid or reclaimed in respect of taxation related to income down to the relevant date;
- (vi) there shall be added the amount of any tax, if any, on capital gains estimated to be recoverable and not received;
- (vii) any Value (whether of an Authorised Investment or cash) otherwise than in Singapore dollars and any non-Singapore dollar borrowing shall be converted into Singapore dollars at the rate (whether official or otherwise) which we shall after consulting with or in accordance with a method approved by the Trustee deem appropriate to the circumstances having regard to, amongst others, any premium or discount which may be relevant and to the costs of exchange; and
- (viii) where the current price of an Authorised Investment is quoted "ex" dividend, interest or other payment but such dividend, interest or other payment has not been received the amount of such dividend, interest or other payment shall be taken into account.

We may, to the extent permitted by the Authority, and subject to the prior approval of the Trustee, change the method of valuation provided in this Paragraph 22.6(b) and the Trustee shall determine if the Holders should be informed of such change.

The decision of the Trustee in any of the events specified in this Paragraph 22.7(b) shall be final and binding upon all the parties concerned but the Trustee shall be under no liability on account of any failure to terminate the Fund according to this Paragraph or otherwise. We shall accept the decision of the Trustee and relieve the Trustee of any liability to it and hold it harmless from any claims whatsoever on its part for damages or for any other relief.

- (c) The Fund or any Class of the Fund may be terminated by us in our absolute discretion by notice in writing on any date (i) if on such date the aggregate Net Asset Value attributable to such Class shall be less than S\$5,000,000 in the case of the SGD Class, S\$5,000,000 in the case of the SGD-Hedged Class or US\$5,000,000 in the case of the USD Class or (ii) if any law shall be passed, any authorisation revoked or the Authority issues any direction which renders it illegal or in our opinion impracticable or inadvisable to continue the Fund or such Class.
- (d) The party terminating the Fund or the relevant Class shall give notice thereof to the Holders fixing the date at which such termination is to take effect which date shall not be less than six months after the service of such notice and we shall give notice thereof to the Authority not less than seven days before such termination.

22.8 Financial Derivative Instruments

- (a) Use and types of financial derivative instruments

The Fund may make use of financial derivative instruments for the purposes of hedging and efficient portfolio management.

The financial derivative instruments which may be used by the Fund include, but are not limited to, options on securities, stock index options, forward currency contracts, currency futures, currency swap agreements, currency options, interest rate futures or options or

interest rate swaps, financial or index futures, over-the-counter (“**OTC**”) options, credit default swaps, swaps, futures or options on any kind of financial instrument, provided that any financial derivative instrument to be used by the Fund shall meet the relevant requirements relating to financial derivative instruments set out in the Code.

(b) Exposure to financial derivative instruments

The exposure of the Fund to financial derivatives will not exceed 100% of the Net Asset Value of the Fund at any time. The global exposure relating to derivative instruments is calculated using the commitment approach by converting the derivative positions into equivalent positions in the underlying assets embedded in those derivatives. In determining the Fund’s exposure to financial derivative instruments, we will adopt the calculation methods set out under paragraph 4.10 of Appendix 1 of the Code.

(c) Risk management and compliance procedures

Risk Management Framework

(i) Portfolio risks

Derivative instruments are highly volatile instruments and their market values may be subject to wide fluctuations and subject the Fund to potential gains and losses. Where such instruments are used, we will ensure that the risk management and compliance procedures and controls adopted are adequate and have been or will be implemented and that we have the necessary experience to manage the risks relating to the use of these financial derivative instruments. Depending on the severity, non-compliance or deviation from established controls or limits will be escalated to senior management and monitored for rectification. We have a dedicated team which oversees portfolio risk management.

Additionally, all open positions/exposure in derivatives will be marked to market at the frequency at least equal to the frequency of the Net Asset Value calculation of the Fund.

(ii) Compliance risks

We have a structured Compliance Monitoring Program (“**CMP**”). There is a dedicated compliance team to implement the CMP. Our investment compliance team separately monitors the portfolios for compliance with the investment guidelines. Investment guidelines will be reviewed by the investment compliance team and checks will be programmed into our automated pre-trade compliance system as far as possible. In addition, guidelines which cannot be electronically monitored will be manually checked for compliance. We may modify the risk management and compliance procedures and controls at any time as we deem fit and in the interest of the Fund.

We will ensure that the risk management and compliance procedures and controls adopted are adequate. We have the requisite expertise, experience and quantitative tools to manage and contain such investment risks. We will attempt to minimize the risks through careful selection of reputable counterparties and constant monitoring of the Fund’s derivative positions.

(d) Risks associated with the use of financial derivative instruments

While the prudent use of financial derivative instruments can be beneficial, financial derivative instruments also involve risks different from, and, in certain cases, greater than, the risks presented by more traditional investments. The following is a general discussion of important risk factors and issues concerning the use of financial derivative instruments:

(i) Market Risk

This is a general risk that applies to all investments meaning that the value of a particular derivative may change in a way which may be detrimental to the Fund’s interests.

(ii) Liquidity Risk

Derivative products are highly specialised instruments that require investment techniques and risk analysis different from those associated with equity and fixed income securities. The use of derivative techniques requires an understanding not only of the underlying assets of the derivative but also of the derivative itself, without the benefit of observing the performance of the derivative under all possible market conditions. In particular, the use and complexity of derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the Fund and the ability to forecast the relative price, interest rate or currency rate movements correctly.

(iii) Counterparty Risk

The Fund may enter into transactions in OTC markets, which will expose the Fund to the credit of its counterparty and its ability to satisfy the terms of such contracts. If a bankruptcy or insolvency of a counterparty occurs, the Fund could experience delays in liquidating the position and significant losses, including declines in the value of its investment during the period in which the Fund seeks to enforce its rights, inability to realise any gains on its investment during such period and fees and expenses incurred in enforcing its rights. There is also a possibility that the above agreements and derivative techniques are terminated due, for instance, to bankruptcy, supervening illegality or change in the tax or accounting laws relative to those at the time the agreement was originated.

(iv) Other Risks

Other risks in using financial derivative instruments include the risk of differing valuations of financial derivative instruments arising out of different permitted valuation methods and the inability of financial derivative instruments to correlate perfectly with underlying securities, rates and indices. Many financial derivative instruments, in particular OTC derivatives, are complex and often valued subjectively and the valuation can only be provided by a limited number of market professionals which often are acting as counterparties to the transaction to be valued. Inaccurate valuations can result in increased cash payment requirements to counterparties or a loss of value to the Fund.

Derivatives do not always perfectly or even highly correlate or track the value of the securities, rates or indices they are designed to track. Consequently, the Fund's use of derivative techniques may not always be an effective means of, and sometimes could be counterproductive to, following the Fund's investment objective.

In addition to the provisions on derivatives as set out in Appendix 1 of the Code, the Fund shall comply with the Notice on Sale of Investment Products, the Notice on Recommendations on Investment Products and the Securities and Futures (Capital Markets Products) Regulations 2018 for the purpose of classifying Units of this Fund as Excluded Investment Products and prescribed capital markets products.

22.9 Securities Lending

Subject to the provisions on securities lending as set out in Appendix 1 of the Code, we may engage in securities lending transactions. We currently do not intend to engage in securities lending or repurchase transactions but may do so in the future.

In addition to the provisions on securities lending as set out in Appendix 1 of the Code, the Fund shall comply with the Notice on Sale of Investment Products, the Notice on Recommendations on Investment Products and the Securities and Futures (Capital Markets Products) Regulations 2018 for the purpose of classifying Units of this Fund as Excluded Investment Products and prescribed capital markets products.

22.10 Use of credit rating agencies

Please note that as we may rely on ratings issued by credit rating agencies on our investments:

- (i) we have established a set of internal credit assessment standards and have in place a credit assessment process to ensure that our investments are in line with these standards; and
- (ii) information on our credit assessment process will be made available to you upon request.

22.11 Realisation of Units by us

We (in consultation with the Trustee) shall have the right, by giving prior written notice to any Holder, to realise compulsorily Units held by:

- (i) any Holder who fails any anti-money laundering, anti-terrorist financing or know-your-client checks, or who is unable or unwilling to provide information and/or documentary evidence requested by us and/or the Trustee for the purposes of any anti-money laundering, anti-terrorist financing or know-your-client checks;
- (ii) any Holder who fails to provide any of the requested Personal Information and Account Information for compliance with FATCA (as defined in Schedule 2 of the Deed), the Common Reporting Standard issued by the Organisation for Economic Co-operation and Development or any similar legislation, regulation or guidance enacted in any other jurisdiction applicable to the Fund which seeks to implement equivalent tax reporting and/or withholding tax regimes and/or automatic exchange of information;
- (iii) any Holder whose holdings of Units, in our opinion:
 - (I) may cause the Fund to lose its authorised or registered status with any regulatory authority in any jurisdiction; or
 - (II) may cause the offer of the Units of the Fund, the prospectus of the Fund, the Deed, we and/or the Trustee to become subject to any authorisation, recognition, approval or registration requirements under any law or regulation in any other jurisdiction; or
 - (III) may cause a detrimental effect on the tax status of the Fund in any jurisdiction or on the tax status of the Holders of the Fund; or
 - (IV) may result in the Fund or other Holders of the Fund suffering any other legal or pecuniary or administrative disadvantage which the Fund or other Holders might not otherwise have incurred or suffered; or
- (iv) any Holder:
 - (I) who, in our opinion, is or may be in breach of any applicable law or regulation in any jurisdiction; or
 - (II) where such realisation is, in our opinion, necessary or desirable for our compliance or the Fund's compliance with any applicable law or regulation in any jurisdiction (including any regulatory exemption conditions) and inter-governmental agreements between Singapore and any foreign government.

Any compulsory realisation under this Paragraph shall be carried out by us on any Dealing Day, with prior written notice to the Holder, and shall be carried out in accordance with, and at the realisation price under, the applicable provisions on realisation in the Deed. For avoidance of doubt, a realisation under this Paragraph (be it a compulsory realisation by us or a realisation by the Holder in response to our written notice relating to a compulsory realisation) may also be subject to applicable fees and/or charges (including early Realisation Charge) as set out in this Prospectus and/or the Deed, and all such fees and/or charges (including early Realisation Charge) related to a realisation under this Paragraph shall be borne by the Holder.

We, the Trustee and their respective delegates, associates, employees or agents, shall not be liable for any loss (whether direct or consequential and including, without limitation, loss of profit or interest) or damage suffered by the Holder or any party arising out of or in connection with (whether in whole or in part) any actions which are taken by us, the Trustee and/or any of our/their respective delegates, associates, employees or agents under this Paragraph.

22.12 Liquidity Risk Management

We have established liquidity risk management policies which enable us to identify, monitor, and manage the liquidity risks of the Fund. Such policies, combined with the liquidity management tools available, seek to achieve fair treatment of Holders, and safeguard the interest of remaining Holders against the redemption behavior of other investors and mitigate against systemic risk.

Our liquidity risk management policies take into account the Fund's liquidity terms, asset class, liquidity tools and regulatory requirements.

The liquidity risk management tools available to manage liquidity risk include the following:

- (a) the Fund may, subject to the provisions of the Deed, borrow up to 10 per cent. of its latest available Net Asset Value (or such other percentage as may be prescribed by the Code) at the time the borrowing is incurred and the borrowing period should not exceed one month, provided always and subject to the borrowing restrictions in the Code;
- (b) we may, pursuant to the Deed, suspend the realisation of Units of the Fund, with the approval of the Trustee and defer payment for any Units realised before the commencement of such suspension but for which payment has not been made;
- (c) we may, with the approval of the Trustee, and pursuant to the Deed, limit the total number of Units in relation to the Fund or Class which Holders may realise to 10% of the total number of Units relating to such Fund or Class then in issue, whereby such limitation is to be applied pro-rated to all Holders in relation to the Fund or Class who have validly requested realisations on the relevant Dealing Day; and
- (d) we may, with a view to protecting the interests of all Holders, and pursuant to the Deed, elect that the Realisation Price (as defined in paragraph 13.1(c) of this Prospectus) in relation to all (but not some only) of the Units falling to be realised by reference to a relevant day shall be the price per Unit which, in our opinion, reflects a fairer value for the Deposited Property having taken into account the necessity of selling a material proportion of the Authorised Investments at that time constituting part of the Deposited Property, and by giving notice to the Holders within two (2) Business Days after the relevant day, we may with the approval of the Trustee suspend the realisation of those Units for such reasonable period as may be necessary to effect an orderly realisation of the Authorised Investments,

and in such circumstances (except paragraph 22.12(a)), the realisation of your Units may be delayed or the amount of the realisation proceeds that Holders will receive for their Units (upon application of Swing Pricing as described in paragraph 22.13 of this Prospectus) will be affected.

We may perform regular stress testing on the Fund.

Factors considered in stress tests (either independently or concurrently) include:-

- (i) a sudden increase in realisations;
- (ii) worsening of market liquidity for the underlying assets of the Fund; and
- (iii) realisation by the largest Holder / distributor of the Fund.

Our stress testing scenarios consider historical situations and forward-looking hypothetical scenarios, where appropriate.

The reasonableness and relevance of our stress test assumptions are regularly reviewed to ensure that stress tests are based on reliable and up-to-date information.

22.13 Swing Pricing

The Fund is single priced and the Net Asset Value of the Fund may fall as a result of, amongst others, the transaction costs (such as broker commissions, custody transaction costs, stamp duties or sales taxes) incurred in the purchase and/or sale of its Authorised Investments caused by subscriptions, realisations or switching of Units in the Fund and the spread between the buying and selling prices of such Authorised Investments. This effect is known as “dilution”.

To protect the interest of Holders, the Managers shall, in consultation with the Trustee, have the discretion to apply a technique known as “dilution adjustment” or “swing pricing” (“**Swing Pricing**”) in certain circumstances which the Managers deem appropriate. Swing Pricing involves making upward or downward adjustments in the calculation of the Net Asset Value per Unit of the Fund or Class on a particular Dealing Day so that such transaction costs and dealing spreads in respect of the Authorised Investments are, as far as practicable, passed on to the investors who are subscribing, realising, switching and/or exchanging Units on that Dealing Day.

Generally, the Net Asset Value is adjusted if the net subscription or realisation (including switching) on a particular Dealing Day reaches or exceeds a certain percentage (the “**Swing Threshold**”) of the size of the Fund on such relevant Dealing Day. The Net Asset Value will swing upwards for a net subscription and downwards for a net realisation. In relation to the application of Swing Pricing to Classes of Units in the Fund, the Net Asset Value of each Class will be calculated separately but any adjustment will, in percentage terms, affect the Net Asset Value of each Class in an equal manner.

The need to apply Swing Pricing will depend upon various factors, including but not limited to (i) the amount of subscriptions and/or realisations (including switching) of Units on that Dealing Day, (ii) the impact of any transaction costs incurred in the purchase and/or sale of Authorised Investments of the Fund (iii) the spread between the buying and selling prices of Authorised investments of the Fund and (iv) market conditions such as situations of financial turmoil provided that, any adjustments made by the Managers shall be on a fair and equitable basis and with a view to protecting the interests of Holders.

Please note that applying Swing Pricing when the Swing Threshold is reached or exceeded only reduces the effect of dilution and does not eliminate it entirely. Where the net subscription or realisation is below the Swing Threshold, no Swing Pricing will be applied and dilution will not be reduced.

The Swing Pricing policy for the Fund will be subject to regular review and may change from time to time. Accordingly, you should note that our decision to apply Swing Pricing and the level of adjustment made to the Net Asset Value per Unit of the Fund in particular circumstances may not result in the same decision in similar circumstances arising in the future.

Holders and potential investors into the Fund should also take note of the following:

- (i) the Fund's performance will be calculated based on the Net Asset Value of the Fund after the Swing Pricing adjustment has been applied and therefore the returns of the Fund may be influenced by the level of subscription and/or realisation activity;
- (ii) Swing Pricing could increase the variability of the returns of the Fund since the returns are calculated based on the adjusted Net Asset Value per Unit; and
- (iii) the fees and charges applicable to the Fund (including fees based on the Net Asset Value of the Fund) will be based on the Net Asset Value before the Swing Pricing adjustment is applied.

In the usual course of business, to minimise the impact to the variability of the return of the Fund, the application of Swing Pricing will be triggered mechanically and on a consistent basis and applied only when the net transaction reaches or exceeds the Swing Threshold.

The Swing Threshold will be set with the objective of protecting the Holders' interest while minimising impact to the variability of the Fund's return by ensuring that the Net Asset Value per Unit is not adjusted where the dilution impact on the Fund is, in the opinion of the Managers, not significant, and may be varied by the Managers in their discretion.

The amount of adjustment at any time may vary depending on, amongst other factors, market conditions, but will under normal circumstances not exceed 2% of the Net Asset Value per Unit of the Fund or Class on the relevant Dealing Day (the “**Maximum Adjustment**”). The Managers reserve the right to apply an adjustment of an amount not exceeding the Maximum Adjustment on the relevant Dealing Day where it deems appropriate and has the discretion to vary the amount of adjustment up to the Maximum Adjustment, in consultation with the Trustee, from time to time without giving notice to the Holders.

Subject to the Deed and applicable laws and regulations, the Managers may, in exceptional circumstances (including but not limited to volatile market conditions, market turmoil and illiquidity in the market, extraordinary market circumstances or significant unexpected changes in general market conditions) and in consultation with the Trustee, temporarily apply an adjustment beyond the Maximum Adjustment on the relevant Dealing Day if, in its opinion, it is in the best interest of investors to do so. In such cases, if so required by the Authority and/or the Trustee, the Managers shall give notice to the investors as soon as practicable in such manner as the Managers and Trustee may agree.

22.14 Liquidation of the Managers, the Trustee or the Custodian

Subject to the provisions of the Deed, if the Managers or the Trustee go into liquidation (except for a voluntary liquidation for the purpose of reconstruction or amalgamation), a new manager or a new trustee (as the case may be) may be appointed or the Fund may be terminated. Please refer to Clauses 31, 32 and 34 of the Deed for further details.

In the event the Custodian becomes insolvent, the Trustee may by notice in writing, terminate the custodian agreement entered into with the Custodian and, in accordance with the Deed, appoint such person as the new custodian to provide custodial services to the Fund globally.

Parties Involved	
WHO ARE YOU INVESTING WITH? • <u>The Managers</u> - o Lion Global Investors Limited • <u>The Trustee</u> - o HSBC Institutional Trust Services (Singapore) Limited • <u>The Custodian</u> - o The Hongkong and Shanghai Banking Corporation Limited • <u>The Registrar</u> - o HSBC Institutional Trust Services (Singapore) Limited • <u>The Auditors</u> - o PricewaterhouseCoopers LLP	Refer to Sections 2, 3, 4, 5 & 22.13 of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.
KEY RISKS	
WHAT ARE THE KEY RISKS OF THIS INVESTMENT? You should consider and satisfy yourself as to the risks of investing in the Fund. Generally, some of the risk factors that should be considered are market, derivatives, liquidity, economic, political, repatriation, regulatory, currency and emerging market risks and risks associated with investments in debt securities which are interest rate and default risks. An investment in the Fund is meant to produce returns over the long-term. You should not expect to obtain short-term gains from such investment. You should note that the value of Units, and the income accruing to the Units, may fall or rise and that you may not get back your original investment.	Refer to Section 10 of the Prospectus for further information on risks of the product.
Market and Credit Risks	
• <u>You are exposed to Market Risks in the Asian region</u> - o Prices of securities may go up or down in response to changes in economic conditions, interest rates and the market's perception of securities. These may cause the price of Units in the Fund to go up or down as the price of Units in the Fund is based on the current market value of the investments of the Fund. • <u>You are exposed to Currency Risks</u> - o As the investments of the Fund may be denominated in foreign currencies, fluctuations of the exchange rates of foreign currencies against the base currency of the Fund (i.e. the Singapore Dollar) may affect the value of the Units in the Fund. • <u>You are exposed to Credit and Default Risks</u> - o The Fund may invest in debt obligations of governments and companies. Adverse changes in the country or company may cause the Fund to suffer a loss of interest or principal on any of its holdings of such debt. The government entity or company that controls the servicing of debt obligations may be unwilling or unable to repay the obligations in accordance with their terms. • <u>You are exposed to Interest Rate Risks</u> - o Investments in debt securities are also subject to the risk of interest rate fluctuations, and the prices of debt securities may go up or down in response to such fluctuations in interest rates.	
Liquidity Risks	
• <u>You are exposed to Liquidity and Regulatory Risks</u> - o The Fund's investments are also subject to liquidity and regulatory risks, for example, the introduction of new laws, the imposition of exchange controls, the adoption of restrictive provisions by individual companies or where a limit on the holding of the Fund in a particular company, sector or country by non-residents (individually or collectively) has been reached. - o The Fund is not listed and you can redeem only on Dealing Days.	

Product-Specific Risks

• You are exposed to Derivatives Risks

- o The Fund may invest in financial derivative instruments such as futures, options, warrants, forwards and swaps for hedging purposes or for the purpose of efficient portfolio management. While the judicious use of derivatives by professional investment managers can be beneficial, derivatives involve risks different from, and, in some cases, greater than, the risks presented by more traditional securities investments.

• You are exposed to Emerging Market Risks

- o Investments by the Fund in some Asian and/or emerging markets often involve a greater degree of risk due to the nature of such markets which do not have fully developed services such as custodian and settlement services often taken for granted in more developed markets. There may be a greater degree of volatility in such markets because of the speculative element, significant retail participation and the lack of liquidity which are inherent characteristics of these Asian and/or emerging markets.
