 institutions; and (vii) Asian currencies and derivatives on those currencies. The Fund invests in Investment Grade, below Investment Grade and unrated debt securities; however, the Fund will only purchase debt securities that are rated at least B by S&P or its equivalent by another NRSRO or, if unrated, deemed to be of comparable quality by the Investment Manager and Sub-Investment Managers (collectively, 'Western Asset'). The Fund may invest in certain types of derivatives for efficient portfolio management purposes and/or investment purposes. The Fund may be leveraged to up to 100% of its net asset value as a result of its use of derivatives. The Fund will not take direct short positions on individual securities. The Fund may have exposure to Reverse Repurchase Agreements for efficient portfolio management purposes. The Fund's maximum notional exposure to total return swaps and SFTs is 100% of its net asset value (expected exposure in the range of 0% to 20% of its net asset value). Western Asset expects to invest the Fund's portfolio in debt securities of issuers located in several different Asian countries, but may, when opportunities arise to further the Fund's investment objective, invest in securities of a small number of issuers, or may at times concentrate its assets in the securities of a small number of issuers, or may at times concentrate its assets in the securities of a fulferent maturities and durations when purchasing debt securities for the Fund, and may adjust the average duration, depending on their asseesment of the relative yields of securities of different maturities and durations and their expectations of future changes in interest rates. The Fund's benchmark. The Investment Manager is not constrained by the Benchmark is the Markit IBoxx Asian Local Bond Index (the "Benchmark"). The Fund is actively managed, and the Investment Manager is massuring and managing investment fisk. The Fund's investments wild indude to promable of t	
volatile performance. Parties Involved
