### **Prohibition against U.S. investors**

Units are being offered and sold outside the United States to persons that are not:

- (i) U.S. Persons (as defined in Regulation S promulgated under the Securities Act of 1933 of the U.S., as amended (the “**U.S. Securities Act**”)) in reliance on Regulation S promulgated under the U.S. Securities Act; or

- (ii) “United States persons” (as defined in Section 7701(a)(30) of the U.S. Internal Revenue Code, as amended, and referred to herein as “**U.S. Taxpayers**”). Currently, the term “**U.S. Taxpayer**” includes: a U.S. citizen or resident alien of the United States (as defined for U.S. federal income tax purposes); any entity treated as a partnership or corporation for U.S. tax purposes that is created or organized in, or under the laws of, the United States or any state thereof (including the District of Columbia); any other partnership that may be treated as a U.S. Taxpayer under future U.S. Treasury Department regulations; any estate, the income of which is subject to U.S. income taxation regardless of source; and any trust over whose administration a court within the United States has primary supervision and all substantial decisions of which are under the control of one or more U.S. fiduciaries. Persons who have lost their U.S. citizenship and who live outside the United States may nonetheless, in some circumstances, be treated as U.S. Taxpayers. Persons who are aliens as to the United States but who have spent 183 days or more in the United States in any of the last two years should check with their tax advisors as to whether they may be considered residents of the United States.

Units are not and may not be offered, made available, sold to or for the account of any U.S. Persons or U.S. Taxpayers. You may be required to declare that you are not a U.S. Taxpayer and that you are neither acquiring Units on behalf of U.S. Taxpayers nor acquiring Units with the intent to sell or transfer them to U.S. Taxpayers.

### **Foreign Account Tax Compliance Act and Common Reporting Standard (“CRS”)**

#### **FATCA**

FATCA was enacted in 2010 by the United States Congress as part of the U.S. Hiring Incentives to Restore Employment (HIRE) Act to target non-compliance with tax laws by U.S. Taxpayers using overseas accounts. Under FATCA, financial institutions outside of the U.S. are required to regularly submit information on financial accounts held by U.S. Taxpayers to the U.S. tax authorities. Failure to comply with FATCA may, amongst other things, subject the relevant Fund to U.S. withholding tax on certain types of payments made to the Fund. Accordingly, it is intended that the Funds comply with FATCA.

For the purpose of complying with FATCA, we, the Trustee, and/or other service providers of the relevant Fund may be required to report and disclose information on certain investors in the relevant Fund to the U.S. tax authorities and/or such Singapore authority as may be required under Singapore laws and regulations to be implemented as part of any IGA entered into between the U.S. and Singapore<sup>1</sup> in connection with FATCA and/or withhold certain payments to such investors.

#### **CRS**

CRS, endorsed by the Organisation for Economic Co-operation and Development (OECD) and the Global Forum for Transparency and Exchange of Information for Tax Purposes, is an internationally agreed standard for the automatic exchange of information on financial accounts between jurisdictions with the objective of detecting and deterring tax evasion through the use of offshore bank accounts.

In Singapore, the Income Tax (International Tax Compliance Agreements) (Common Reporting Standard) Regulations 2016 require financial institutions such as us to conduct due diligence (including the collection, review and retention of financial account information) and report financial account information relating to specified persons from jurisdictions with which Singapore has a “competent authority agreement” (“**CAA**”) to the Inland Revenue Authority of Singapore (IRAS). Such information may subsequently be exchanged with Singapore’s CAA partners. Singapore may enter into further IGAs, or the relevant authorities may enact further legislation or impose further requirements, which will form part of the CRS.

\* \* \*

You are required to:

- (a) provide such information, documents and assistance in connection with the above or any other tax or other information reporting regime as we and/or the Trustee may require from time to time; and

---

<sup>1</sup> Pursuant to the IGA entered into between Singapore and the U.S. on 9 December 2014, Singapore-based financial institutions (such as us) will report information on financial accounts held by U.S. Taxpayers to the Inland Revenue Authority of Singapore (IRAS), which will in turn provide the information to the U.S. tax authorities.

- (b) notify us or any of our authorised agents or distributors in writing immediately if you are or become a U.S. Taxpayer, or are holding Units for the account of or benefit of a U.S. Taxpayer.

You are also deemed to have consented to us, the Trustee and/or other service providers to the relevant Fund carrying out our/their obligations in reporting and disclosing information on you and your investments to the relevant authorities as described above or pursuant to any other tax or other information reporting regime.

\* \* \*

We may compulsorily realise all or any of your Units in any of the circumstances set out under paragraph 21.2 of this Prospectus.

You may direct your enquiries in relation to the Funds to us or our authorised agents or distributors.

### **4. The Trustee, custodian and administrator**

#### **4.1 The Trustee**

The Trustee of the Funds is State Street Trust (SG) Limited, a trust company approved by the Authority under Section 289(1) of the SFA to act as a trustee for collective investment schemes which are authorised under Section 286 of the SFA and constituted as unit trusts. The Trustee is regulated in Singapore by the Authority.

See the relevant Deed for details on the Trustee's role and responsibilities.

## **4.2 The custodian**

The Trustee has appointed State Street Bank and Trust Company (“**SSBT**”), a trust company organised under the laws of the Commonwealth of Massachusetts and, in respect of such appointment, acting through its Singapore Branch, as the global master custodian of each of the Funds.

SSBT was founded in 1792 and is a wholly owned subsidiary of State Street Corporation. It is licensed and regulated by the Federal Reserve Bank of Boston. State Street Bank and Trust Company, Singapore Branch, holds a wholesale bank license issued by the Authority and is regulated by the Authority.

SSBT provides custodian services in over 100 markets by utilising its local market custody operations and through its network of sub-custodian banks. SSBT will appoint sub-custodians in those markets where the relevant Fund invests where SSBT does not itself act as the local custodian. SSBT has processes for the initial selection, and ongoing monitoring of its sub-custodians, each of which is chosen based upon a range of factors including securities processing and local market expertise, and must satisfy specific operating requirements in terms of structure, communications, asset servicing and reporting capabilities. All sub-custodians appointed by SSBT must be licensed and regulated under applicable law to provide custodian and related asset administration services, and carry out relevant related or ancillary financial activities, in the relevant market jurisdiction. SSBT will typically seek to select local branches or affiliates of major global financial institutions that provide sub-custodian services in multiple markets, although unique market service requirements may result in the selection of an entity as sub-custodian that is more local in scope.

Other custodians may be appointed from time to time in respect of any of the Funds or any of their assets.

See [paragraph 21.3](#) below for further details of the custodial arrangement in respect of the assets of the Funds.

## **4.3 The administrator**

The administrator of the Funds is State Street Bank and Trust Company, acting through its Singapore Branch, which has been appointed by the Managers to provide (i) certain administration and valuation services including accounting and net asset value calculation pursuant to an Administrative Services Agreement, and (ii) certain transfer agency services pursuant to a Transfer Agency and Services Agreement, to the Funds.

## **5. Other parties**

### **5.1 The registrar**

State Street Bank and Trust Company, acting through its Singapore Branch, has been appointed by the Trustee as registrar of the Funds and will be responsible for keeping each Register. Any Holder of a Fund may inspect its Register at 168 Robinson Road #33-01, Capital Tower, Singapore 068912 during normal business hours subject to such reasonable restrictions as the registrar may impose.

Each Register is conclusive evidence of the number of Units in the relevant Fund held by a Holder. The entries in each Register shall prevail over the details appearing on any statement of holding, unless the Holder proves to the Trustee’s and our satisfaction that the relevant Register is incorrect.

### **5.2 The auditors**

The auditors of the accounts of the Funds are PricewaterhouseCoopers LLP.

## 6. Investment considerations

### 6.1 Investment objective

#### (a) Singapore Growth Fund

The investment objective of Singapore Growth Fund is to achieve medium to long term capital appreciation and to receive regular income distributions during the investment period through investing in shares of companies listed or quoted on SGX-ST.

See [paragraph 6.6](#) for the distribution policy of the Singapore Growth Fund.

#### (b) Japan Growth Fund

The investment objective of Japan Growth Fund is to achieve long term capital growth through investing in companies with assets in, or revenues derived from, Japan.

### 6.2 Investment focus for Singapore Growth Fund

We may invest, from time to time, in any industry or sector which in our opinion offers good growth opportunity and investment value. The Fund will invest primarily in equity securities. As defensive measures or in times of extreme volatility in the markets, we may from time to time hold cash deposits, money market instruments or liquid instruments to safeguard the investment portfolio. We may also hold cash deposits or liquid instruments for liquidity purposes.

### 6.3 Investment approach for Singapore Growth Fund

- (a) Our research process is bottom-up in nature and is valuation-driven. Our analysts are organised according to global industry groups (e.g. consumers, financials, technology, etc.). Notable exceptions are for Singapore, Malaysia and Japan where the analysts are organised principally on a sectorial and country basis. The respective country analysts, however, do participate in our broader global sector approach by providing the necessary input to the respective sector teams.
- (b) The overall research process starts with basic stock screens run mainly on a regional basis. This screening process is used to narrow the universe of companies for further research. We screen from a universe of companies in a broader benchmark according to a range of factors:
  - (i) **Operating** (earnings growth, profitability, etc.);
  - (ii) **Valuation** (price/earnings ratio, price/book value, dividend yield, etc.);
  - (iii) **Momentum** (estimate revisions, share price performance, etc.); and
  - (iv) **Suitability** (market capitalisation, liquidity levels, etc.).
- (c) We rely on both external and internal research, but emphasise independence of our investment opinion, especially for companies included in the model portfolios. For regions closer to home, the majority of research is conducted internally. For practical purposes, for regions further away, we also rely on a wide range of external research. This includes sell-side research, independent research and financial data resources.
- (d) Internal research is aimed at evaluating both fundamental and valuation aspects of companies via the use of our own internal financial models. The key thrust of this analysis is to identify companies:
  - (i) which have differentiated themselves in their respective industry groups in terms of operating and financial performance (frequently referred to as shareholder value added); and

- (ii) which in our view are undervalued in relation to our internally established target price.
- (e) On a broader basis, the analyst will track developments in the industry to the extent that these developments affect his stock selection. Portfolios are generally constructed from the stock contained in the analyst's model portfolios. We believe that rigorous bottom-up research, which taps into the in-depth industry knowledge of our analyst team is a key contributing factor to the favourable performance of our funds and institutional mandates.

#### 6.4 Investment focus and approach for Japan Growth Fund

- (a) The Sub-Manager believes that inefficiencies lie in the market and they can be grasped through fundamental analysis of individual stocks. Acting on this belief, the Sub-Manager evaluates corporate values based on the fundamentals of individual companies, focusing on the differences in market evaluation.
- (b) The Sub-Manager believes that excess returns could come from the following sources:
  - Stock selection: 70 - 80%
  - Sector allocation: 20 - 30%
  - (i) Stock selection  
The Sub-Manager constructs the portfolio by investing into stocks with higher expected rates of return within each sector based on the information gap between the fair price calculated by its analysts' bottom-up approach and the market price of the stocks.
  - (ii) Industrial sector allocation  
The Sub-Manager combines a top-down approach with a bottom-up approach and organizationally defines the allocation policy based on discussions within the investment team (which consists of its Head of Equity Department, strategist, fund managers and analysts). The Sub-Manager decides the sector allocation by considering factors such as the macro-economic environment, structural changes to industries and/or anticipation of stock price movements, together with the circumstances of the individual companies that constitute each sector.
- (c) A summary of the Fund's investment process is as follows:

- (i) **Investment research**  
The Sub-Manager selects approximately 400 stocks from the viewpoint of liquidity, creditworthiness, research availability, etc. mainly from stocks listed on the Tokyo Stock Exchange. The Sub-Manager's analysts focus on bottom-up research and calculate fair stock prices by calculating premiums based on comprehensive evaluation of earning forecasts, valuations and qualitative evaluations.
- (ii) **Creating a buy-list**  
Based on the fair stock prices calculated by the analysts, the expected rates of return (i.e. the deviation from the market price) are calculated on a daily basis. The expected rates of return in each sector are then ranked: the top 35% as Rating 3, middle 30% as Rating 2 and bottom 35% as Rating 1. The top 35% (Rating 3) from all sectors will constitute the buy-list and that consists of approximately 200 stocks.
- (iii) **Construction of model portfolio**  
A model portfolio is constructed organizationally as a result of collaborative work in the equity team which consists of the Head of Equity Department, strategist, analysts and fund managers.

**(iv) Criteria for selecting stocks**

“Stocks with high attractiveness” are selected from the buy-list after consultation between the analysts and fund managers. The expected rates of return and rankings within the relevant sector are important factors in determining the degree of attractiveness. However, the feasibility to achieve the expected rate of return and risks such as fluctuations of stock prices and variability of corporate earnings are also considered.

With respect to the weight of individual stocks, fund managers will consider liquidity and the entire risk of the portfolio, and generally allocate higher active weights to highly attractive stocks.

**(v) Construction (customisation) of an executable portfolio**

Based on the model portfolio, the buy-list and the investment policy, the Sub-Manager will construct (customise) an executable portfolio according to the assets of the Fund.

## 6.5 Investment style and benchmark usage

**(a) Singapore Growth Fund**

The Fund is **actively managed with reference to its benchmark** (as set out in [paragraph 15.1](#)), which is used for **performance comparison** purposes. The benchmark is neither used as a constraint on how the Fund’s portfolio is to be constructed nor set as a target for the Fund’s performance to beat.

However, the majority of the Fund’s holdings could likely be components of the benchmark. As an actively managed fund, the Managers have absolute discretion over portfolio construction in terms of following the benchmark weights and investing in securities not included in the benchmark. As a result, it is expected that the risk-return characteristics of the Fund may deviate from the benchmark over time.

**(b) Japan Growth Fund**

The Fund is **actively managed with reference to its benchmark** (as set out in [paragraph 15.1](#)), which is used for **performance comparison** purposes. The benchmark is neither used as a constraint on how the Fund’s portfolio is to be constructed nor set as a target for the Fund’s performance to beat.

However, the majority of the Fund’s holdings could likely be components of the benchmark. As an actively managed fund, the Managers have absolute discretion over portfolio construction in terms of following the benchmark weights and investing in securities not included in the benchmark. As a result, it is expected that the risk-return characteristics of the Fund may deviate from the benchmark over time.

## 6.6 Distribution policy

	<b>Distribution policy</b>
<b>Japan Growth Fund</b>	There is currently no distribution policy for the Japan Growth Fund.
<b>Singapore Growth Fund</b>	<p>The current distribution policy is to make semi-annual distributions of between 0.25% and 3.50% p.a. (or such rate as we may from time to time determine) of the NAV per Unit as at the last Business Day of the month June and December or such other date as we may from time to time determine (“<b>Distribution Date</b>”).</p> <p>Distributions shall be based on the number of Units you hold as at the Distribution Date as evidenced by the Register. Distributions will be made to you within 30 Business Days from the relevant Distribution Date.</p>

	<p><i>The making of distributions is at our absolute discretion and are not guaranteed. The making of any distribution does not mean that further distributions will be made. We reserve the right to vary the frequency and/or amount of distributions. Distributions from Singapore Growth Fund may be made out of income and/or net capital gains, and if income or net capital gains are insufficient, (with the prior approval of the Trustee) out of capital. You should also note that the declaration and/or payment of distributions (whether out of income, net capital gains, capital or otherwise) may have the effect of lowering the NAV of the relevant Fund. Moreover, distributions out of capital may amount to a return of part of your original investment and may result in reduced future returns.</i></p>

## 6.8 Authorised Investments

The authorised investments of each Fund (“**Authorised Investments**”), which Units are Excluded Investment Products, are as follows:

- (a) any Quoted Investment;
- (b) any Unquoted Investment;
- (c) for purposes of hedging and efficient portfolio management only, any derivative including but not limited to any swap, futures contract, forward contract, option, index futures, foreign exchange transaction and forward rate transaction (including but not limited to currency options) or any combination or variation of these derivatives; and
- (d) any other Investments not covered by sub-paragraphs (a) to (c) of this paragraph but approved by the Trustee (such approval to be confirmed in writing),

only to the extent allowed under the CMP Regulations for the purposes of classifying the Units of the relevant Fund as Excluded Investment Products.

See the Deed for the full meaning of the terms **Quoted Investment, Investment and Unquoted Investment**.

***Each Fund intends to use or invest in FDIs. Further information is set out in paragraph 6.10 of this Prospectus.***

## **6.9 Investment restrictions**

- (a) The investment guidelines and borrowing limits set out under Appendix 1 of the Code apply to the Funds.
- (b) Units of Japan Growth Fund and Singapore Growth Fund are Excluded Investment Products. Accordingly, the relevant Fund will not invest in any product or engage in any transaction which may cause the Units of the relevant Fund not to be regarded as Excluded Investment Products.
- (c) Currently, the Funds do not intend to carry out securities lending or repurchase transactions but may do so in the future in accordance with the provisions of the Code. Accordingly, the relevant Fund may at such time in the future become subject to the provisions on securities lending and repurchase transactions as set out in the Code. Where the Units of a Fund are Excluded Investment Products, the Managers shall not engage in securities lending or repurchase transactions for such Fund, except where such securities lending or repurchase transactions are carried out solely for the purpose of efficient portfolio management and do not amount to more than 50% of the NAV of the Fund

## **6.10 Risk management procedures of the Managers on certain investments**

- (a) Subject to the provisions on FDIs set out in the CMP Regulations for the purpose of classifying the Units of the relevant Fund as Excluded Investment Products, the Funds may use or invest in FDIs for the purposes of hedging existing positions in a portfolio, efficient portfolio management or a combination of both purposes.
- (b) We will use the commitment approach to determine each Fund's global exposure to FDIs by converting its positions in the FDIs into equivalent positions in the FDIs' underlying assets. Such exposure will be calculated in accordance with the provisions of the Code. We will ensure that the global exposure of each Fund to FDIs or embedded FDIs will not exceed 100% of the relevant Fund's NAV.
- (c) Below is a description of risk management and compliance procedures and controls adopted by us:
  - (i) We will implement various procedures and controls to manage the risk of each Fund's assets. Our decision to invest in any particular security or instrument on behalf of a Fund will be based on our judgment of the benefit of such transactions to the relevant Fund and will be consistent with the relevant Fund's investment objective in terms of risk and return.
  - (ii) *Execution of trades.* Prior to each trade, we will ensure that the intended trade will comply with the stated investment objective, focus, approach and restrictions (if any) of the relevant Fund, and that best execution and fair allocation of trades are done. Our Governance and Compliance department will conduct periodic checks to ensure compliance with the investment objective, focus, approach and restrictions (if any) of the relevant Fund. If there is any non-compliance, our Governance and Compliance department is empowered to instruct the relevant officers to rectify the same. Any non-compliance will be reported to higher management and monitored for rectification.
  - (iii) *Liquidity.* If there are any unexpectedly large realisations of Units in a Fund, it is possible that the Assets of the Fund may be forced to be liquidated at below their fair and expected value, especially in illiquid public exchanges or over-the-counter markets. Also, under certain market conditions such as during volatile markets, crisis situations or trading disruptions, it may be difficult or impossible to liquidate or rebalance positions. While we will ensure that a sufficient portion of each Fund will be in liquid assets such as cash and cash-equivalents to meet expected realisations (net of new subscriptions), we may in certain situations employ liquidity management tools such as limiting or suspending realisations in accordance with paragraphs 11.3 or 14. If such tools are employed, you may not be able to realise your Units during any suspension period or the realisation of your Units may be delayed.

- (iv) *Counterparty exposure.* A Fund may have credit exposure to counterparties by virtue of positions in FDIs and other financial instruments held by that Fund. To the extent that a counterparty defaults on its obligations and the relevant Fund is delayed or prevented from exercising its rights with respect to the investments in its portfolio, it may experience a decline in the value of its assets and in its income stream and incur extra costs associated with the exercise of its financial rights. Subject to the provisions of the Code, we will restrict our dealings with counterparties to entities that have a minimum long-term issuer credit rating of above BB+ by Standard and Poor's, an individual rating of above C or viability ratings of above bbb by Fitch Inc., a baseline credit assessment of above a3 by Moody's Investors Service or an equivalent rating from any other reputable rating agency. If any approved counterparty fails this criterion subsequently, we will take steps to unwind the relevant Fund's position with that counterparty as soon as practicable.
- (v) *Volatility.* To the extent that a Fund has exposure to FDIs that allow a larger amount of exposure to a security for no or a smaller initial payment than the case where the investment is made directly into the underlying security, the value of the relevant Fund's assets will have a higher degree of volatility. A Fund may use FDIs for hedging purposes to reduce the overall volatility of the value of its assets. At the same time, we will ensure that the global exposure of each Fund to FDIs and embedded FDIs will not exceed the NAV of that Fund, as stated in sub-paragraph (b) above.
- (vi) *Valuation.* A Fund may have exposure to over-the-counter FDIs that are difficult to value accurately, particularly if there are complex positions involved. We will ensure that independent means of verifying the fair value of such instruments are available, and will conduct such verification at an appropriate frequency.
- (d) We will ensure that the risk management and compliance procedures and controls adopted by us are adequate and have been implemented, and that we have the necessary expertise to control and manage the risks relating to the use of FDIs. We may modify the risk management and compliance procedures and controls as we deem fit and in the interests of each Fund, but subject always to the requirements under the Code.
- (e) Each Fund may net its over-the-counter derivative positions with a counterparty through bilateral contracts for novation or other bilateral agreements with the counterparty, provided that such netting arrangements satisfy the relevant conditions described in the Code.
- (f) Where any Fund uses or invests in FDIs on commodities, all such transactions shall be settled in cash at all times.

(1) If you switch your Units to units of another fund managed by us (“**New Fund**”), we will charge you the Switching Fee instead of the subscription fee for the New Fund. If the subscription fee for the New Fund is more than the Switching Fee, you are effectively receiving a discount on the New Fund’s subscription fee.

(2) For Singapore Growth Fund: Fees payable out of the Fund (including fees based on the NAV of the Fund) will be based on the NAV before any Swing Pricing adjustment is applied (i.e. unswung NAV). See [paragraph 20.5](#) of this Prospectus for further details.

- 7.3** Any Subscription and Realisation Charges will be retained by us for our own benefit and will not form part of the Assets of the relevant Fund. All or part of the Subscription Charge may also be paid to or retained by our authorised agents or distributors. We will also pay any other commission, remuneration or sum payable to such authorised agents or distributors in respect of the marketing of Units. Moreover, the authorised agents and distributors through whom you subscribe for Units may (depending on the specific nature of services provided) impose other fees and charges that are not disclosed in this Prospectus, and you should check with the relevant agent or distributor on such fees and charges, if any.
- 7.4** We may at any time differentiate between investors as to the amount of the Subscription Charge, Realisation Charge, Switching Fee and other charges (if any) payable to us upon the issue, realisation or switch of Units, or apply such discounts or waivers as we think fit (provided that such discounts will be borne by us and not by the relevant Fund).

## **8. Risks**

### **8.1 General risks**

You should consider and satisfy yourself as to the risks of investing in the Funds.

Generally, some of the risk factors you should consider are market risks, interest rate risks, foreign exchange risks, currency risks, political risks, repatriation risks, liquidity risks and derivatives risks.

You should be aware that the price of Units and the income accruing from them may fall or rise and you may not get back your original investment. There is no guarantee that the investment objectives of the Funds will be achieved.

Investments in the Funds are not meant to produce returns over the short term and you should not expect to obtain short-term gains from such investments.

***The general and specific risks described in this paragraph 8 are not exhaustive and you should be aware that the Funds may be exposed to other risks of an exceptional nature from time to time.***

### **8.2 Specific risks**

(a) Market risk

You should consider and satisfy yourself as to the usual risks of investing and participating in publicly traded securities. Prices of securities may go up or down in response to changes in economic conditions, interest rates and the market's perception of securities which in turn may cause the value of Units in the Funds to rise or fall.

(b) Equity risk

The Funds may invest in stocks and other equity securities which are subject to market risks that historically have resulted in greater price volatility than that experienced by bonds and other fixed income securities. This in turn may affect the value or volatility of the Funds.

(c) Foreign exchange / currency risk

The Funds are denominated in SGD. Where the Funds make investments which are denominated in foreign currencies, fluctuations of the exchange rates of other foreign currencies against the SGD may affect the value of the Units. In our management of the Funds, we may hedge the foreign currency exposure of the Funds and may adopt an active currency management approach. However, the foreign currency exposure of the Funds may not be fully hedged depending on the circumstances of each case. Such circumstances include but are not limited to the outlook, hedging costs and market liquidity of the relevant currency.

(d) Political risk

The Funds' investments may be adversely affected by political instability as well as exchange controls, changes in taxation, foreign investment policies, restrictions on repatriation of investments and other restrictions and controls which may be imposed by the relevant authorities in the relevant countries.

(e) Derivatives risk

Funds which use or invest in FDIs will be subject to risks associated with such FDIs. FDIs include foreign exchange forward contracts and equity index future contracts. An investment in a FDI may require the deposit of an initial margin and additional deposit of margin on short notice if the market moves against the investment position. If the required margin is not provided in time, the investment may be liquidated at a loss. Therefore, it is essential that investments in FDIs are monitored closely. We have controls for investments in FDIs and have in place systems to monitor the FDI positions of the Funds. See [paragraph 6.10](#) for more information on our risk management procedures on certain investments.

(f) Liquidity risk of investments

Investments by the Funds in some Asian and/or emerging markets often involve a greater degree of risk due to the nature of such markets which do not have fully developed services such as custodian and settlement services often taken for granted in more developed markets. There may be a greater degree of volatility in such markets because of the speculative element, significant retail participation and lack of liquidity which are inherent characteristics of these markets.

(g) Single country, sector and regional risk

You should be aware that while investments in single country, sector or regional funds may present greater opportunities and potential for capital appreciation, such funds may be subject to higher risks as they may be less diversified than a global portfolio.

(h) Small and medium capitalisation companies risk

Investments in small and medium capitalisation companies, if any, generally carry greater risk than is customarily associated with larger capitalisation companies. Examples of such risks are less public information, more limited financial resources and product lines, greater volatility, higher risk of failure than larger companies and less liquidity. This may result in greater volatility in the share prices of such companies.

(i) Counterparty risks

A Fund is exposed to the risk that a counterparty may default on its obligations to perform under a particular contract. If a counterparty becomes bankrupt or insolvent, a Fund could experience delays in liquidating an investment and may therefore incur significant losses, including losses resulting from a decline in the value of the investment during the period in which the Fund seeks to enforce its rights. The Fund may also be unable to realise any gains on the investment during such period and may incur fees and expenses to enforce its rights. There is also a risk that counterparty contracts may be terminated earlier due to, for instance, bankruptcy, supervening illegality or change in the tax or accounting laws relative to those laws existing at the time the contracts were entered into.

(j) Exceptional market conditions risk

Under certain market conditions such as during volatile markets or crisis situations or where trading on the relevant stock exchange is suspended, restricted or otherwise impaired, it may be difficult or impossible to liquidate or rebalance positions. During such times, a Fund may be unable to dispose of certain assets due to thin trading or lack of a market or buyers. Placing a stop-loss order may not necessarily limit a Fund's losses to intended amounts as market conditions may make it impossible to execute such order at the ideal price. In addition, such circumstances may force a Fund to dispose of assets at reduced prices, thereby adversely affecting that Fund's performance. Investments may also be difficult to value with any degree of accuracy or certainty. The dumping of securities in the market could further deflate prices. If a Fund incurs substantial trading losses, the need for liquidity could rise sharply at the same time that access to liquidity is impaired. Further, in a market downturn, the financial conditions of a Fund's counterparties could be weakened, thereby increasing that Fund's credit risk.

(k) Actions of institutional investors

A Fund may accept subscriptions from institutional investors and such subscriptions may constitute a large portion of the total investments in the Fund. While these institutional investors will not have any control over the investment decisions for the Fund, the actions of such investors may have a material effect on the relevant Fund. For example, substantial realisations of Units by an institutional investor over a short period of time could necessitate the liquidation of the relevant Fund's assets at a time and in a manner which does not provide maximum economic advantage to the Fund and which could therefore adversely affect the value of the Fund's assets.

(l) Broker risk

We may engage the services of third party securities brokers and dealers to acquire or dispose the investments of the Funds and to clear and settle their exchange traded securities trades. In selecting brokers and dealers and in negotiating any commission involved in our transactions with them, we consider, amongst other things, the range and quality of the professional services provided by such brokers and dealers and their credit standing and licensing or regulated status.

It is possible that the brokers or dealers engaged for a Fund may encounter financial difficulties that may impair the Fund's operational capabilities. If a broker or dealer fails or becomes insolvent, there is a risk that the Fund's orders may not be transmitted or executed and its outstanding trades made through the broker or dealer may not settle.

(m) Risks relating to distributions

Where a Fund makes distributions to Holders, such distributions are at our absolute discretion and are not guaranteed. Distributions may be made from dividend/interest income and capital gains derived from the investments of the relevant Fund. Dividend/interest income may be adversely affected by events such as (but not limited to) investee entities suffering unexpected losses and/or paying lower than expected dividends, and adverse currency exchange rate fluctuations. Subject to the distribution policy of the relevant Fund, distributions may also be made out of capital. The declaration and/or payment of distributions (whether out of income, net capital gains, capital or otherwise) may have the effect of lowering the NAV of the relevant Fund. Moreover, distributions out of capital may amount to a reduction of your original investment and may also result in reduced future returns to you.

(n) Investment management risk

Investment performance depends on the portfolio management team and the team's investment strategies. If the investment strategies do not perform as expected, if opportunities to implement those strategies do not arise, or if the team does not implement its investment strategies successfully, an investment portfolio may underperform or suffer significant losses.

(o) Risk of using rating agencies and other third parties

Credit ratings of instruments invested into by a Fund represent our and/or rating agencies' opinion regarding the credit quality of the instrument or the institution and are not a guarantee of quality. Rating methodologies generally rely on historical data, which may not be predictive of future trends and adjustments to credit ratings in response to subsequent changes in circumstances may take time. When a debt security is rated, the downgrading of such debt security could decrease the value and liquidity of the security.

Where we rely on ratings issued by credit rating agencies, we have established a set of internal credit assessment standards and have put in place a credit assessment process to ensure that the relevant Fund's investments are in line with these standards. Information on our credit assessment process will be made available to investors upon request.

We may rely, without independent investigation, upon pricing information and valuations furnished to a Fund by third parties, including pricing services and independent brokers/dealers. Their accuracy depends on these parties' methodology, due diligence and timely response to changing conditions. We will not be responsible for any failures by such parties in their valuations.

S\$950.00	÷	S\$1.000*	=	950.00**
Net Investment Amount		Issue price		Number of Units allotted

\* Based on an issue price of S\$1.000 and a Subscription Charge of 5%. This example is a hypothetical and is not indicative of any future issue price. The actual issue price will fluctuate according to the NAV of the relevant Fund.

\*\* The number of Units to be issued will be rounded down to 2 decimal places.

Pricing basis:	<p>Units are realised on a forward pricing basis.</p>
Realisation price:	<p>The realisation price per Unit of a Fund shall be ascertained by:</p> <ul style="list-style-type: none"><li>(i) calculating the value as at the Valuation Point in relation to the Dealing Day on which the realisation request is transacted of the proportion of the assets of such Fund then represented by one Unit of such Fund; and</li><li>(ii) truncating the resultant amount to 3 decimal places.</li></ul> <p>We may use another method of determination or adjustment or number of decimal places with the approval of the Trustee.</p> <p>Any adjustments shall be retained by the relevant Fund. For Singapore Growth Fund: We may apply Swing Pricing which, if applied, will impact the realisation price of Units. See <a href="#">paragraph 20.5</a> of this Prospectus for further details.</p>
Deduction of Realisation Charge:	<p>A Realisation Charge may be deducted from the Gross Realisation Proceeds, and the Net Realisation Proceeds will be paid to you.</p>

## 11.2 Numerical example of calculation of Net Realisation Proceeds

The Net Realisation Proceeds payable to you on the realisation of 1,000 Units will be calculated as follows:

1,000 Units	x	S\$0.900*	=	S\$900.00
Your realisation request		Realisation price		Gross Realisation Proceeds
S\$900.00	-	S\$0.00	=	S\$900.00
Gross Realisation Proceeds		Realisation Charge (0%)*		Net Realisation Proceeds

\* Based on a realisation price of S\$0.900. There is currently no Realisation Charge payable for the Fund. This example is a hypothetical and is not indicative of any future realisation price. The actual realisation price will fluctuate according to the NAV of the relevant Fund.

### 11.3 Limitation on realisation

We may, with the approval of the Trustee and subject to the provisions of the relevant Deed, limit the total number of Units to be realised by the Holders or cancelled by us on any Dealing Day up to 10% of the total number of Units of the relevant Fund then in issue. Such limitation will be applied proportionately to all Holders who have validly requested realisations on such Dealing Day and to us.

Any Units which are not realised or cancelled will be realised or cancelled on the next Dealing Day, provided that if the number of Units to be realised or cancelled still exceeds such limit, we may continue to carry forward the realisation/cancellation requests in the same manner, until such time as the total number of Units to be realised or cancelled on a Dealing Day falls within such limit.

If realisation requests are so carried forward and you are affected, we will notify you within 7 Business Days. Realisation requests which have been carried forward from an earlier Dealing Day shall be dealt with in priority to later requests.

### 11.4 Compulsory realisations

We may compulsorily realise your holding of Units in certain circumstances. See [paragraph 21.2](#) for further details.

How switches are carried out:	<p>A switch of Units will be effected as follows:</p> <ul style="list-style-type: none"><li>(i) your Units will be realised at the realisation price calculated under <a href="#">paragraph 11</a>;</li><li>(ii) the net realisation proceeds shall then be used (after deducting any switching fee payable) to subscribe for new units at the prevailing issue price of such new units. For the purposes of the switch, we may waive in whole or in part the subscription fee for the new units and/or the Realisation Charge (if any).</li></ul>

Other salient terms:	<ul style="list-style-type: none"> <li>• Switches will be at our discretion.</li> <li>• You may withdraw a switching request only with our consent.</li> <li>• Switching is subject to the terms of the relevant Deed, including the provisions relating to the issue and realisation of Units and the constitutive documents of the Group Fund.</li> <li>• Switches will not be allowed if it results in you holding Units below any applicable minimum holding.</li> <li>• Switches will not be allowed during any period where the realisation of Units has been limited or suspended in accordance with <u>paragraphs 11.3 or 14</u>, or when the issue of units of the Group Fund is suspended.</li> <li>• Units purchased with cash or SRS monies (as the case may be) may only be switched to new units which may be purchased with the same payment method.</li> <li>• Neither we nor the Trustee shall have responsibility or liability to ensure that the provisions of the constitutive documents of the Group Fund relating to the issue, realisation or switching of units are complied with.</li> </ul>

### 14. Suspension of dealings

**14.1** Subject to the provisions of the Code and the Deed, we may, with the Trustee's approval, suspend the issue and/or realisation of Units pursuant to the provisions of the relevant Deed during:

- (a) any period when the SGX-ST (in the case of the Singapore Growth Fund) or any stock exchange on which investments forming part of the assets of the relevant Fund for the time being are listed or dealt in (in the case of the Japan Growth Fund) is closed (otherwise than for ordinary holidays) or during which dealings are restricted or suspended;

- (b) the existence of any state of affairs which, in our opinion, constitutes an emergency as a result of which disposal of investments would not be reasonably practicable or might seriously prejudice the interest of the Holders as a whole and of the relevant Fund;
- (c) any breakdown in the means of communication normally employed in determining the value of any investment or when for any reason whatsoever the value of any investment cannot, in our opinion, be promptly and accurately ascertained (including any period when the fair value of a material portion of the Authorised Investments cannot be determined);
- (d) any period when remittance of moneys which will or may be involved in the realisation of investments or payment for investments cannot, in our opinion, be reasonably carried out;
- (e) any 48-hour period (or such other longer period as the Trustee and us may agree) prior to the date of any meeting of Holders (or adjourned meeting thereof);
- (f) any period when the dealing of Units is suspended pursuant to any order or direction of the relevant authority;

- (i) such other circumstances as may be required under the provisions of the Code.

**14.2** We and/or the Trustee may from time to time also suspend the issue and/or realisation of Units in certain situations as set out in the relevant Deed.

**14.3** Subject to the provisions of the Code, any such suspension will take effect upon our written declaration to the Trustee (or vice versa, as the case may be) and will end as soon as practicable when the condition giving rise to the suspension no longer exists and no other condition under which suspension is authorised under this [paragraph 14](#) or the applicable provisions of the relevant Deed exists upon our (or, as the case may be, the Trustee's) written declaration of the same and in any event, within such period as may be prescribed by the Code. The period of suspension may be extended in accordance with the Code. ## **16. Soft dollar commissions/arrangements**

Subject to the provisions of the Code, we may from time to time receive or enter into soft dollar commissions/arrangements in our management of the relevant Fund. We will comply with applicable regulatory and industry standards on soft dollars. The soft dollar commissions/arrangements may include specific advice as to the advisability of dealing in, or the value of any investments, research and advisory services, economic and political analyses, portfolio analyses including valuation and performance measurements, market analyses, data and quotation services, computer hardware and software or any other information facilities to the extent that they are used to support the investment decision making process, the giving of advice, or the conduct of research or analysis, and custodial service in relation to the investments managed for clients.

Soft dollar commissions/arrangements will not include travel, accommodation, entertainment, general administrative goods and services, general office equipment or premises, membership fees, employees' salaries or direct money payment.

We do not, and are not entitled to, retain cash or commission rebates for our own account in respect of rebates earned when transacting in securities for account of any Fund.

The Sub-Manager does not receive or enter into soft-dollar commissions/arrangements in respect of the sub-management of the Japan Growth Fund.

## 17. Conflicts of interest

### 17.1 Managers' conflicts of interest disclosures

We are of the view that there is no conflict of interest in our management of other funds and each Fund because of the following structures in place:

- (a) Investment decisions for each fund are made impartially. There are no preferred customers or funds and all accounts are treated equally.
- (b) All investment ideas are shared equally among fund managers.
- (c) We subscribe to the Code of Ethics and the Standards of Professional Conduct as prescribed by the Chartered Financial Analyst Institute ("**CFA Institute**") in the United States of America. The CFA Institute is the primary professional organisation for security analysts, investment managers and others who are involved in the investment decision-making process. All charter holders of the CFA Institute and candidates who are in pursuit of the charter, including those from Singapore, are expected to comply with CFA Institute standards. The Code of Ethics and the Standards of Professional Conduct are in place to ensure high ethical and professional standards of investment professionals as well as fair treatment of the investing public.
- (d) Despite the possible overlap in the scope of investments, none of the funds are identical to one another and investment decisions are made according to the individual risk-return characteristic of the relevant fund.
- (e) Most importantly, our usual fair and unbiased practice is to allocate investments proportionately between various funds which place the same orders simultaneously. However, if there are any potential conflicts of interests due to competing orders for the same securities, we will adopt an average pricing policy whereby orders that are partially fulfilled on a particular day will be allotted proportionately among the funds based on their respective initial order size and such quantity allotted will be at the average price of such investments on that particular day.

We shall conduct all transactions with or for each Fund on an arm's length basis.

Save as provided in the relevant Deed, our associates may be engaged to provide banking, brokerage, financial or other services to any Fund or buy, hold and deal in any investments, enter into contracts or other arrangements with the Trustee or us and make profits or derive benefits from these activities. Such services to the relevant Fund, where provided, and such activities with the Trustee or us, where entered into, will be on an arm's length basis.

We and our related entities, officers or employees may from time to time invest and deal in Units in any Fund for each of our respective individual accounts or (in our case and in the case of our related entities) for the account of another person (including, without limitation, our and our related entities' other clients).

In such an event, we will have regard to our obligations to the relevant Fund and, in particular, our obligation to act in the best interests of the relevant Fund and its Holders so far as practicable, having regard to applicable laws and our obligations to our other clients. If a conflict of interest does arise, we will endeavour to ensure that such conflict is resolved fairly.

Subject to the provisions of the Code, we may from time to time:

**17.3 Trustee's conflicts of interest disclosures**

The Trustee shall conduct all transactions with or for each Fund on an arm's length basis.

The Trustee, the registrar and the custodian may from time to time act as trustee, administrator, registrar or custodian or otherwise as may be required from time to time in relation to, or be otherwise involved in or with, other funds and clients which have similar investment objectives to those of the relevant Fund. It is, therefore, possible that any of them may, in the course of business, have potential conflicts of interest with the relevant Fund. Each will, at all times, have regard in such event to its obligations to the relevant Fund and will endeavour to ensure that such conflicts are resolved fairly and taking into account Holders' interests.

The services of the Trustee provided to each Fund are not deemed to be exclusive and the Trustee shall be free to render similar services to others (including those that may compete with (or have a similar objective to) the business of the relevant Fund) so long as its services hereunder are not impaired thereby and to retain for its own use and benefit all appropriate fees and benefits. Conflicts of interest will likely arise from the fact that State Street is engaged in a wide variety of businesses and will provide services to many clients with the same or different objectives. The Trustee and its related parties shall not be deemed to be affected with notice of or to be under any duty to disclose to the relevant Fund any fact or information which comes to the notice of the Trustee in the course of the Trustee rendering similar services to other parties or in the course of its business in any other capacity, otherwise than in the course of carrying out its duties under the Deed or as required by any applicable laws and regulations for the time being in force.

Save as provided in the relevant Deed, the associates of the Trustee may be engaged to provide banking, brokerage, financial or other services to any Fund or buy, hold and deal in any investments, enter into contracts or other arrangements with the Trustee or the Managers and make profits or derive benefits from these activities. Such services to the relevant Fund, where provided, and such activities with the Trustee or the Managers, where entered into, will be on an arm's length basis. In particular:

- (a) State Street Bank and Trust Company, acting through its Singapore Branch, a party related to the Trustee, has been appointed as custodian of the Funds. The custodian may also appoint related parties as sub-custodians. Cash will be placed with the custodian as banker or may, at the discretion of the Managers, be invested in certificates of deposit or banking instruments issued by a related party of the Trustee, including the custodian. Money may also be borrowed by the relevant Fund from a State Street entity. In its capacities as custodian and banker, State Street will earn fees/interest for such services and may receive other benefits in connection with such services.
- (b) Where foreign exchange transactions, including but not limited to spot, forward or swap transactions (collectively "**foreign exchange transactions**"), are entered into for or on behalf of the relevant Fund with an affiliate of the Trustee (a "**State Street counterparty**"), the State Street counterparty will enter into such transaction as principal counterparty and not as agent or fiduciary for the Trustee, the Managers or the relevant Fund and such State Street counterparty shall be entitled to retain for its own use and benefit any benefit which it may derive from any such foreign exchange transactions or the holding of any cash in connection with such transactions. Foreign exchange transactions may also be entered into for or on behalf of the relevant Fund with counterparties other than a State Street counterparty.

## **20. Other material information**

### **20.1 Market timing**

Each Fund is not designed and managed to support short-term investments. In this regard, we take a serious view of, and strongly discourage the practice of market timing (that is, investors conducting short-term buying or selling of Units to gain from inefficiencies in pricing) as such practices may cause an overall detriment to the long-term interests of other investors.

In addition, short-term trading in Units increases the total transaction costs of the relevant Fund, such as trading commission and other costs which are absorbed by all other investors. Moreover, the widespread practice of market timing may cause large movements of cash in the relevant Fund, which may disrupt the investment strategies to the detriment of long-term investors.

For the reasons set out above, we may implement internal measures to monitor and control the practice of market timing. If any internal measure to restrict the practice of market timing amounts to a significant change to any Fund (as provided in the Code), we will inform the relevant Holders of such internal measure not later than one month before its implementation. We intend to review our policy on market timing from time to time in a continuous effort to protect the long-term interests of investors in each Fund.

### **20.2 Information on investments**

At the end of each quarter, you will receive a statement showing the value of your investments in the relevant Fund. If you conduct any transaction(s) within a particular month, you will receive an additional statement at the end of that month.

### **20.3 Indemnities**

We and the Trustee are entitled to be indemnified out of or have recourse to the Assets of the relevant Fund in accordance with the terms of the relevant Deed. See the relevant Deed for further details.

### **20.4 Liquidation of the Managers, the Trustee, the Sub-Manager or the custodian**

Subject to the provisions of the relevant Deed, if the Managers or the Trustee go into liquidation (except for a voluntary liquidation for the purpose of reconstruction or amalgamation), new managers or a new trustee (as the case may be) may be appointed or the relevant Fund may be terminated. See the relevant Deed for further details on what happens if the Managers or the Trustee go into liquidation.

Subject to the provisions of the relevant sub-management agreement between the Managers and the Sub-Manager, if the Sub-Manager becomes insolvent (except for a voluntary liquidation for the purpose of reconstruction or amalgamation or merger on terms previously approved in writing by the Managers), the Managers may appoint a new sub-manager for the relevant Fund or decide to manage the relevant Fund themselves.

#### **Custodial Risk**

There are risks involved in dealing with the custodian who holds the relevant Fund's investments or settles the relevant Fund's trades. It is possible that, in the event of the insolvency or bankruptcy of the custodian, the relevant Fund would be delayed or prevented from recovering its assets from the custodian, or its estate, and may have only a general unsecured claim against the custodian for those assets. In recent insolvencies of financial institutions, the ability of certain customers to recover their assets from the insolvent financial institution's estate has been delayed, limited, or prevented, often unpredictably, and there is no assurance that any assets held by the relevant Fund with the custodian will be readily recoverable by the relevant Fund. In addition, there may be limited recourse against non-U.S. sub-custodians in those situations in which the relevant Fund invests in markets where custodial and/or settlement systems and regulations are not fully developed, including emerging markets, and the assets of the relevant Fund have been entrusted to such non-U.S. sub-custodians.

## 20.5 Swing Pricing for Singapore Growth Fund

The Fund is priced on a NAV (single pricing) basis and the NAV of the Fund may fall when they experience large volumes of realisations or subscriptions because of significant transaction costs<sup>4</sup> incurred in the purchase and sale of the Fund's underlying investments. This effect is known as "dilution".

### Swing pricing

To protect the interest of investors, we shall, in consultation with the Trustee, have the discretion to apply a technique known as "dilution adjustment" or "swing pricing" ("**Swing Pricing**") in certain circumstances which we deem appropriate. Swing Pricing involves making upward or downward adjustments in the calculation of the NAV per Unit of the Fund on a particular Dealing Day, so that such transaction costs are, as far as practicable, passed on to the investors who are subscribing, realising, switching and/or exchanging Units on that Dealing Day.

The need to apply Swing Pricing will depend upon various factors, including but not limited to:

- (a) the amount of subscriptions and/or realisations (including switches and/or exchanges) of Units on that Dealing Day;
- (b) the impact of any transaction costs incurred in the purchase and/or sale of underlying investments of the Fund;
- (c) the spread between the buying and selling prices of underlying investments of the Fund; and
- (d) market conditions such as financial turmoil,

provided that, any adjustments made by us shall be on a fair and equitable basis and with a view to protecting the interests of investors.

Typically, the NAV per Unit is adjusted if the net subscription or realisation (including switches and/or exchanges) on a particular Dealing Day reaches or exceeds a certain percentage (the "**Swing Threshold**") of the size of the Fund on such Dealing Day. The NAV of each Unit will swing upwards for a net subscription, and downwards for a net realisation.

In the usual course of business, to minimise the impact to the variability of the returns of the Fund, the application of Swing Pricing will be triggered mechanically and on a consistent basis and applied only when the net subscription or realisation for the Fund reaches or exceeds the Swing Threshold.

The Swing Threshold will be set with the objective of protecting investors' interest while minimising impact to the variability of the Fund's return by ensuring that the NAV per Unit is not adjusted where the dilution impact on the Fund is, in our opinion, not significant, and may be varied by us in our discretion.

Please note that applying Swing Pricing when the Swing Threshold is reached or exceeded only reduces the effect of dilution and does not eliminate it entirely. Where the net subscription or realisation for the Fund is below the Swing Threshold, no Swing Pricing will be applied and your investment in the Fund may be diluted.

The Swing Pricing policy (including the Swing Threshold) for the Fund will be subject to regular review and may change from time to time. Accordingly, our decision to apply Swing Pricing and the level of adjustment made to the NAV per Unit in particular circumstances may not result in the same decision in similar circumstances arising in the future.

### Maximum adjustment

The amount of adjustment at any future point in time may vary depending on (inter alia) market conditions, but will not, under normal circumstances, exceed 2% (the "**Maximum Adjustment**") of the NAV per Unit on a Dealing Day. We reserve the right to apply an adjustment of an amount not exceeding the Maximum Adjustment on a Dealing Day where we deem appropriate and have the discretion to vary

---

<sup>4</sup> For example, brokerage commissions, custody transaction costs, stamp duties and sales taxes.

the amount of adjustment up to the Maximum Adjustment, in consultation with the Trustee, from time to time without giving notice to the relevant investors.

Subject to the Deed and applicable laws and regulations, we may, in exceptional circumstances (including but not limited to volatile market conditions, market turmoil, illiquidity in the market, extraordinary market circumstances or significant unexpected changes in general market conditions) and in consultation with the Trustee, temporarily apply an adjustment beyond the Maximum Adjustment on a Dealing Day if, in our opinion, it is in the best interest of investors to do so. In such cases, if required by the Authority and/or the Trustee, we shall give notice to affected investors as soon as practicable in such manner as we and Trustee may agree.

## 21. Provisions of the Deeds

Some of the provisions of the Deeds are set out below. ***See the Deed for the full terms and conditions of the Funds.***

### 21.1 Valuation

Except where otherwise expressly stated in the relevant Deed and subject always to the requirements of the Code, the value of the assets comprised in each Fund with reference to any Investment which is:

- (i) a quoted investment, shall be calculated, as the case may be, by reference to the official closing price, the last known transacted price or the last transacted price (or, with the prior approval of the Trustee, the last bid price) as at the last official close on the relevant Recognised Stock Exchange or OTC Market (or at such other time as the Managers may from time to time after consultation with the Trustee determine). Where such quoted investment is listed, dealt or traded in more than one Recognised Stock Exchange or OTC Market, the Managers (or such person as the Managers may appoint for the purpose) may in their absolute discretion select any one of such Recognised Stock Exchange or OTC Market for the foregoing purposes and, if there be no such official closing price, last known transacted price or last transacted price, the value shall be calculated by reference to the last available prices quoted by responsible firms, corporations or associations on a Recognised Stock Exchange or an OTC Market at the time of calculation (or at such other time as the Managers may from time to time after consultation with the Trustee determine);
- (ii) an unquoted investment, shall be calculated by reference to, where applicable: (a) the initial value thereof being the amount expended in the acquisition thereof; (b) the price of the relevant Investment as quoted by a person, firm or institution making a market in that Investment, if any (and if there shall be more than one such market maker, then such market maker as the Managers may designate), as may be determined by the Managers to represent the fair value of such Investment; (c) the sale prices of recent public or private transactions in the same or similar Investments, valuations of comparable companies or discounted cash flow analysis, as may be determined to represent the fair value of such Investment. In the valuation of such Investment, the Managers may take into account relevant factors including, without limitation, significant recent events affecting the issuer such as pending mergers and acquisitions and restrictions as to saleability or transferability;
- (iii) cash, deposits and similar assets shall be valued (by a person approved by the Trustee as qualified to value such cash, deposits and similar assets) at their face value (together with accrued interest) unless, in the opinion of the Managers (after consultation with the Trustee), any adjustment should be made to reflect the value thereof;
- (iv) a unit or share in a unit trust scheme or mutual fund or collective investment scheme shall be valued at the latest published or available net asset value per unit or share, or if no net asset value per unit or share is published or available, then at their latest available realisation price; and
- (v) an Investment other than as described above, shall be valued (by a person approved by the Trustee as qualified to value such an Investment) in such manner and at such time as the Managers after consultation with the Trustee shall from time to time determine,

Provided that if the quotations referred to in sub-paragraphs (i) to (v) above are not available, or if the value of the Investment determined in the manner described in sub-paragraphs (i) to (v) above, in the opinion of the Managers, is not representative of the value of such Investment, then the value shall be such value as the Managers may with due care and in good faith consider in the circumstance to be fair and is approved by the Trustee and the Managers shall notify the Holders of such change if required by the Trustee. For the purposes of this proviso, the “**fair value**” shall be determined by the Managers in consultation with an approved stockbroker or (with the approval of the Trustee) an approved valuer in accordance with the Code. Where the fair value of a material portion of the assets of a Fund cannot be determined, the Managers shall, subject to the provisions of the Code, suspend valuation and dealing in the Units of that Fund.

See the relevant Deed for the full meaning of the terms **Recognised Stock Exchange** and **OTC Market**.

## 21.2 Compulsory realisations

The Managers have the right (in consultation with the Trustee) to compulsorily realise any holdings of Units in a Fund held by:

- (a) any Holder:
  - (i) whose subscription for or holding of Units, in the opinion of the Managers, is or may be in breach of any applicable law or regulation in any jurisdiction; or
  - (ii) where such realisation is, in the opinion of the Managers, necessary or desirable for the compliance of the Managers or the Fund with any applicable law or regulation in any jurisdiction (including any regulatory exemption conditions); or
- (b) any Holder whose holdings, in the opinion of the Managers:
  - (i) may cause the Fund to lose its authorised or registered status with any regulatory authority in any jurisdiction; or
  - (ii) may cause the offer of the Units of the Fund, the Fund, this Prospectus, the relevant Deed, the Managers or the Trustee to become subject to any authorisation, recognition, approval or registration requirements under any law or regulation in any other jurisdiction; or
- (c) any Holder whose holdings, in the opinion of the Managers:
  - (i) may cause a detrimental effect on the tax status of the Fund in any jurisdiction or on the tax status of the Holders of the Fund; or
  - (ii) may result in the Fund or other Holders of the Fund suffering any other legal or pecuniary or administrative disadvantage which the Fund or Holders might not otherwise have incurred or suffered; or
- (d) any Holder who fails any anti-money laundering, anti-terrorist financing or know-your-client checks, or where information and/or documentary evidence requested by the Managers and/or the Trustee for the purposes of any anti-money laundering, anti-terrorist financing or know-your-client checks cannot be obtained from the Holder (or the Holder has failed to provide the same) in a timely manner; or
- (e) any Holder, where information (including but not limited to information regarding tax status, identity or residency), self-certifications or documents as may be requested by the Managers and/or the Trustee pursuant to laws, regulations, guidelines, directives or contractual obligations with other jurisdictions' authorities (including, without limitation, the FATCA and/or any Singapore laws, regulations, guidelines and directives implemented as part of any IGA entered into between the U.S. and Singapore in connection with FATCA) cannot be obtained from the Holder, or the Holder has failed to provide the same, in a timely manner; or

- (f) any Holder who does not consent, or withdraws his consent, for the Managers or the Trustee to collect, use and/or disclose information or data relating to the Holder, where (in the opinion of the Managers or the Trustee) such information or data is necessary or desirable for the Managers, the Trustee, their respective related corporations and/or other service providers to perform their respective services and/or duties to or in respect of the Fund and/or the Holder.

Any compulsory realisation under this paragraph may be carried out by the Managers on any Dealing Day, with prior notice to the relevant Holder, and shall be carried out in accordance with, and at the realisation price determined under, the applicable provisions on realisations in the relevant Deed.

If the Managers and/or the Trustee are required to account to any duly empowered fiscal authority of Singapore or elsewhere for any income or other taxes, charges or assessments whatsoever on the value of any Units held by a Holder, the Managers (in consultation with the Trustee) shall be entitled, at any time with prior notice to that Holder, to realise such number of Units held by that Holder as may be necessary to discharge the liability arising. The Managers and/or the Trustee (as the case may be) shall be entitled to apply the proceeds of such realisation in payment, reimbursement and/or set-off against the liability.

The Managers, the Trustee and their respective delegates, agents or associates shall not be liable for any loss (whether direct or consequential and including, without limitation, loss of profit or interest) or damage suffered by any Holder or any party arising out of or caused in whole or in part by any actions which are taken by the Managers, Trustee and/or any of their respective delegates, agents or associates under this [paragraph 21.2](#).

The Trustee shall be entitled, if it considers that it is expedient to do so, to cause to be deposited in safe custody with any banker or agent of the Trustee (including any associate of the Trustee) the documents of title to any Investment held upon the trusts of the Deeds and (where the Trustee is custodian) may appoint or (where the Trustee appoints a custodian) may empower such custodian to appoint with prior consent in writing of the Trustee, sub-custodians. Subject as aforesaid the Trustee or its agents upon payment of a fee to be agreed upon shall retain the documents of title to all Investments held upon the trusts of the Deeds in its possession in safe custody. Any expense of whatever nature incurred by the Trustee in effecting such registration or providing such safe custody shall be payable out of the Assets of the Funds. Notwithstanding the provisions of this paragraph, the Trustee may for the purpose of securing any borrowings made pursuant to the provisions of the Deeds, cause any Investment forming part of the Assets of the Funds to be deposited with or registered in the name of any banker or person approved by the Managers.

### **21.4 Protections accorded to the Trustee**
