Currently, the term “**U.S. Taxpayer**” includes: a U.S. citizen or resident alien of the United States (as defined for U.S. federal income tax purposes); any entity treated as a partnership or corporation for U.S. tax purposes that is created or organized in, or under the laws of, the United States or any state thereof (including the District of Columbia); any other partnership that may be treated as a U.S. Taxpayer under future U.S. Treasury Department regulations; any estate, the income of which is subject to U.S. income taxation regardless of source; and any trust over whose administration a court within the United States has primary supervision and all substantial decisions of which are under the control of one or more U.S. fiduciaries. Foreign Account Tax Compliance Act and Common Reporting Standard (“CRS”)

FATCA

FATCA was enacted in 2010 by the United States Congress as part of the U.S. Hiring Incentives to Restore Employment (HIRE) Act to target non-compliance with tax laws by U.S. Taxpayers using overseas accounts. Under FATCA, financial institutions outside of the U.S. are required to regularly submit information on financial accounts held by U.S. Taxpayers to the U.S. tax authorities. Failure to comply with FATCA may, amongst other things, subject the Fund to U.S. withholding tax on certain types of payments made to the Fund. Accordingly, it is intended that the Fund complies with FATCA.

For the purpose of complying with FATCA, we, the Trustee and/or other service providers of the Fund may be required to report and disclose information on certain investors in the Fund to the U.S. tax authorities and/or such Singapore authority as may be required under Singapore laws and regulations to be implemented as part of any IGA entered into between the U.S. and Singapore¹ in connection with FATCA and/or withhold certain payments to such investors.

CRS

CRS, endorsed by the Organisation for Economic Co-operation and Development (OECD) and the Global Forum for Transparency and Exchange of Information for Tax Purposes, is an internationally agreed standard for the automatic exchange of information on financial accounts between jurisdictions with the objective of detecting and deterring tax evasion through the use of offshore bank accounts.

In Singapore, the Income Tax (International Tax Compliance Agreements) (Common Reporting Standard) Regulations 2016 require financial institutions such as us to conduct due diligence (including the collection, review and retention of financial account information) and report financial account information relating to specified persons from jurisdictions with which Singapore has a “competent authority agreement” (“**CAA**”) to the Inland Revenue Authority of Singapore (IRAS). Such information may subsequently be exchanged with Singapore’s CAA partners. Singapore may enter into further IGAs, or the relevant authorities may enact further legislation or impose further requirements, which will form part of the CRS.

* * *

You are required to:

- (a) provide such information, documents and assistance in connection with the above or any other tax or other information reporting regime as we and/or the Trustee may require from time to time; and

¹ Pursuant to the IGA entered into between Singapore and the U.S. on 9 December 2014, Singapore-based financial institutions (such as us) will report information on financial accounts held by U.S. Taxpayers to the Inland Revenue Authority of Singapore (IRAS), which will in turn provide the information to the U.S. tax authorities.

- (b) notify us or any of our authorised agents or distributors in writing immediately if you are or become a U.S. Taxpayer, or are holding Units for the account of or benefit of a U.S. Taxpayer.

You are also deemed to have consented to us, the Trustee and/or other service providers to the Fund carrying out our/their obligations in reporting and disclosing information on you and your investments to the relevant authorities as described above or pursuant to any other tax or other information reporting regime.

* * *

We may compulsorily realise all or any of your Units in any of the circumstances set out under paragraph 21.2 of this Prospectus.

You may direct your enquiries in relation to the Fund to us or our authorised agents or distributors.

Different Classes may have different characteristics such as the Class currency, minimum threshold amounts for subscription, holding and realisation, distribution policy, eligibility requirements, mode of investment and the availability of a RSP. A separate NAV per Unit (in the relevant Class currency), which may differ as a consequence of such variable factors, will be calculated for each Class. We may re-designate the Units in any existing Class so long as there is no prejudice to the existing Holders of such Class or the Fund as a whole. The following Classes of Units have been established:

Environmental, social, and governance ("**ESG**") considerations

Wellington Management became a signatory to the UN-backed Principles for Responsible Investment (PRI) in April 2012.

At Wellington Management, environmental, social, and corporate governance criteria is considered as one set of factors among many that should be weighed appropriately to inform investment decision making. It views ESG analysis and integration as both return enhancing and risk mitigating. To help its portfolio managers and investment teams better assess risks and opportunities in client portfolios, it has integrated the analysis of ESG factors into its investment and risk-management processes firmwide. It does this by producing ESG research and ratings, conducting ESG portfolio reviews with investment teams, and, in coordination with other investors, engaging with companies on ESG issues for the benefit of its clients. ESG analysts specialize by sector and work with its sector-focused equity and credit analysts as sector teams focused on research agenda, materiality assessment, engagement strategy, and voting recommendations. This helps its investment professionals to consider common material ESG risks and opportunities across the sector as well as the relative performance of potential investments against a relevant peer set.

In its community of boutiques structure, each of its portfolio managers and investment teams is charged with having a well-articulated philosophy and process and a genuine and credible answer to how ESG considerations factor into their philosophy and process. Wellington Management believes it is important for ESG assessments to be intrinsically integrated into the investment philosophy and process rather than externally imposed. This can manifest itself within the investment thesis or portfolio weighting for a particular security, as well as within its proxy voting and company engagement efforts.

SSBT has processes for the initial selection, and ongoing monitoring of its sub-custodians, each of which is chosen based upon a range of factors including securities processing and local market expertise, and must satisfy specific operating requirements in terms of structure, communications, asset servicing and reporting capabilities. All sub-custodians appointed by SSBT must be licensed and regulated under applicable law to provide custodian and related asset administration services, and carry out relevant related or ancillary financial activities, in the relevant market jurisdiction. SSBT will typically seek to select local branches or affiliates of major global financial institutions that provide sub-custodian services in multiple markets, although unique market service requirements may result in the selection of an entity as sub-custodian that is more local in scope.

Other custodians may be appointed from time to time in respect of the Fund or any of its assets.

See paragraph 21.3 below for further details of the custodial arrangement in respect of the Deposited Property.

4.3 The administrator

The administrator of the Fund is State Street Bank and Trust Company, acting through its Singapore Branch, which has been appointed by the Managers to provide (i) certain administration and valuation services including accounting and net asset value calculation pursuant to an Administrative Services Agreement, and (ii) certain transfer agency services pursuant to a Transfer Agency and Services Agreement, to the Fund.

5. OTHER PARTIES

5.1 The registrar

State Street Bank and Trust Company, acting through its Singapore Branch, has been appointed by the Trustee as registrar of the Fund and will be responsible for keeping the Register. Any Holder may inspect the Register at 168 Robinson Road #33-01, Capital Tower, Singapore 068912 during normal business hours subject to such reasonable restrictions as the registrar may impose.

The Register is conclusive evidence of the number of Units held by a Holder. The entries in the Register shall prevail over the details appearing on any statement of holding, unless the Holder proves to the Trustee's and our satisfaction that the Register is incorrect.

5.2 The auditors

The auditors of the accounts of the Fund are PricewaterhouseCoopers LLP.

6. INVESTMENT CONSIDERATIONS

6.1 Investment objective

The investment objective of the Fund is to seek total return consisting of capital appreciation and income over the long term by investing primarily in equity and equity-related securities of companies listed and traded on stock exchanges globally.

6.2 Investment focus and approach

The Fund's investment strategy is based on the belief that durable companies provide investors with steady returns that compound over time, and do so at lower than average levels of volatility.

Durable companies are defined as companies with stable businesses and which typically exhibit the following characteristics:

- (i) moderate but predictable revenue growth, generally due to good management practices such as skilled execution and capital allocation;
- (ii) companies with steady competitive dynamics and limited economic sensitivity i.e. companies whose future earnings outlook does not depend on bold predictions or macro-economic trends;
- (iii) companies with moderate returns on invested capital and typically trading at between 8-12% free cash flow yield.

The merits of stability are widely appreciated by the market and are often reflected in the valuations of well-known stable businesses. The Sub-Manager believes stable businesses bought at reasonable valuations can deliver attractive risk-adjusted returns with lower volatility across different market environments. In order to identify these businesses at more reasonable or attractive valuations, the Sub-Manager typically looks at:

- (a) industry sectors which may be perceived to be more volatile, leading to more reasonable

valuations;

- (b) geographies that are typically less favoured by the investment industry; and
- (c) companies that may not grow fast enough for growth investors, which may lack the blue chip financial characteristics sought by quality investors and may not be cheap enough for value investors.

The Fund may be concentrated in specific industries, sectors, regions and countries.

The Fund invests primarily in equity securities. Subject to the foregoing, the Fund may invest in other securities including, without limitation, equity-related securities such as depositary receipts.

FDIs may be used or invested in for the purposes of hedging existing positions, efficient portfolio management, or a combination of both purposes.

As defensive measures or in times of extreme volatility in the markets, we may from time to time hold cash deposits, money market instruments or liquid instruments to safeguard the Fund. A portion of the Fund's assets may be retained in liquid instruments and cash for liquidity purposes.

6.3 Investment style and benchmark usage

The Fund is actively managed without reference to its benchmark (as set out in paragraph 15.1). Its benchmark is used as a reference for performance comparison purposes and to provide market context, and is neither used as a constraint on how the Fund's portfolio is to be constructed nor set as a target for the Fund's performance to beat.

6.4 Distribution policy

Distributions (if any) will only be made in respect of the Distribution Classes of the Fund.

The current distribution policy is to make regular monthly distributions of up to 5.50% per annum (or such other frequency or percentage as we may from time to time determine) of the initial issue price of the relevant Distribution Class or of the NAV per Unit of the relevant Distribution Class as at such date as we may from time to time determine. Distributions will commence only after a period of at least three months following the inception of the relevant Distribution Class (or at such other time as we may determine at our discretion).

In addition, we may make annual bonus distributions as at the last Business Day of December of each year of such amount as we may from time to time determine.

Distributions shall be based on the number of Units held by each Holder as at the relevant Distribution Date as evidenced by the Register. Distributions will be made to Holders within 30 Business Days from the relevant Distribution Date.

The making of distributions is at our absolute discretion and distributions are not guaranteed. The making of any distribution does not mean that further distributions will be made. We reserve the right to vary the frequency and/or amount of distributions. Distributions may be made out of income, capital gains or capital. The declaration or payment of distributions (whether out of income, capital gains, capital or otherwise) may have the effect of lowering the NAV of the Fund or the relevant Class. Moreover, distributions out of capital may amount to a reduction of part of your original investment and may result in reduced future returns.

6.5 Product suitability

The Fund is only suitable for investors who:

- seek total return over the long term; and
- are comfortable with the volatility and risks of a global equity fund.

6.6 Authorised Investments

The authorised investments of the Fund (“**Authorised Investments**”) are as follows:

- (i) any Quoted Investment which is selected by us for the purpose of investment of the Deposited Property;
- (ii) any Investment in respect of which an application for listing or permission to deal has been made to a Recognised Market and the subscription for or purchase of which is either conditional upon such listing or permission to deal being granted within a specified period not exceeding 12 weeks (or such other period as may be agreed between the Trustee and us) or in respect of which we are satisfied that the subscriptions or other transactions will be cancelled if the application is refused;
- (iii) any Unquoted Investment which is selected by us for the purpose of investment of the Deposited Property;
- (iv) any Investment which is a unit in any unit trust scheme or a share or participation in an open-ended mutual fund or other collective investment scheme;
- (v) the currency of any country or any contract for the spot purchase or sale of any such currency or any forward contract of such currency;
- (vi) any Investment denominated in any currency;
- (vii) any Investment which is a future, option, forward, swap, collar, floor or other derivative; and
- (viii) any Investment which is not covered by sub-paragraphs (i) to (vii) above, as selected by us and approved by the Trustee in writing,

only to the extent allowed under the CMP Regulations for the purposes of classifying the Units as Excluded Investment Products.

See the Deed for the full meaning of the terms **Quoted Investment**, **Recognised Market**, **Unquoted Investment** and **Investment**.

The Fund intends to use or invest in FDIs. Further information is set out in paragraph 6.8 of this Prospectus.

6.7 Investment restrictions

- (a) The investment guidelines and borrowing limits set out under Appendix 1 of the Code apply to the Fund.
- (b) The Units are Excluded Investment Products. Accordingly, the Fund will not invest in any product or engage in any transaction which may cause the Units not to be regarded as Excluded Investment Products.
- (c) Currently, the Fund does not intend to carry out securities lending or repurchase transactions but may do so in the future in accordance with the provisions of the Code. Accordingly, the Fund may at such time in the future become subject to the provisions on securities lending and repurchase transactions as set out in the Code. The Managers shall not engage in securities lending or repurchase transactions for the Fund, except where such securities lending or repurchase transactions are carried out solely for the purpose of efficient portfolio management and do not amount to more than 50% of the NAV of the Fund.

6.8 Risk management procedures of the Managers on certain investments

- (a) Subject to the provisions on FDIs set out in the CMP Regulations for the purpose of classifying Units of the Fund as Excluded Investment Products, the Fund may use or invest in FDIs for the purposes of hedging existing positions, efficient portfolio management or a combination of both purposes.

- (b) We will use the commitment approach to determine the Fund's global exposure to FDIs by converting its positions in the FDIs into equivalent positions in the FDIs' underlying assets. Such exposure will be calculated in accordance with the provisions of the Code. We will ensure that the global exposure of the Fund to FDIs or embedded FDIs will not exceed 100% of the Fund's NAV.
- (c) Below is a description of risk management and compliance procedures and controls adopted by us:
- (i) We will implement various procedures and controls to manage the risk of the Fund's assets. Our decision to invest in any particular security or instrument on behalf of the Fund will be based on our judgment of the benefit of such transactions to the Fund and will be consistent with the Fund's investment objective in terms of risk and return.
 - (ii) *Execution of trades.* Prior to each trade, we will ensure that the intended trade will comply with the stated investment objective, focus, approach and restrictions (if any) of the Fund, and that best execution and fair allocation of trades are done. Our Governance and Compliance department will conduct periodic checks to ensure compliance with the investment objective, focus, approach and restrictions (if any) of the Fund. If there is any non-compliance, our Governance and Compliance department is empowered to instruct the relevant officers to rectify the same. Any non-compliance will be reported to higher management and monitored for rectification.
 - (iii) *Liquidity.* If there are any unexpectedly large realisations of Units, it is possible that the assets of the Fund may be forced to be liquidated at below their fair and expected value, especially in illiquid Recognised Markets. Also, under certain market conditions such as during volatile markets, crisis situations or trading disruptions, it may be difficult or impossible to liquidate or rebalance positions. While we will ensure that a sufficient portion of the Fund will be in liquid assets such as cash and cash-equivalents to meet expected realisations (net of new subscriptions), we may in certain situations employ liquidity management tools such as limiting or suspending realisations in accordance with paragraphs 11.3 or 14. If such tools are employed, you may not be able to realise your Units during any suspension period or the realisation of your Units may be delayed.
 - (iv) *Counterparty exposure.* The Fund may have credit exposure to counterparties by virtue of positions in FDIs and other financial instruments held by the Fund. To the extent that a counterparty defaults on its obligations and the Fund is delayed or prevented from exercising its rights with respect to the investments in its portfolio, it may experience a decline in the value of its assets and in its income stream and incur extra costs associated with the exercise of its financial rights. Subject to the provisions of the Code, we will restrict our dealings with counterparties to entities that have a minimum long-term issuer credit rating of above BB+ by Standard and Poor's, an individual rating of above C or viability ratings of above bbb by Fitch Inc., a baseline credit assessment of above a3 by Moody's Investors Service or an equivalent rating from any other reputable rating agency. If any approved counterparty fails this criterion subsequently, we will take steps to unwind the Fund's position with that counterparty as soon as practicable.
 - (v) *Volatility.* To the extent that the Fund has exposure to FDIs that allow a larger amount of exposure to a security for no or a smaller initial payment than the case where the investment is made directly into the underlying security, the value of the Fund's assets will have a higher degree of volatility. The Fund may use FDIs for hedging purposes to reduce the overall volatility of the value of its assets. At the same time, we will ensure that the global exposure of the Fund to FDIs and embedded FDIs will not exceed the NAV of the Fund, as stated in sub-paragraph (b) above.
 - (vi) *Valuation.* The Fund may have exposure to over-the-counter FDIs that are difficult to value accurately, particularly if there are complex positions involved. We will ensure that independent means of verifying the fair value of such instruments are available, and will conduct such verification at an appropriate frequency.

- (d) We will ensure that the risk management and compliance procedures and controls adopted by us are adequate and have been implemented, and that we have the necessary expertise to control and manage the risks relating to the use of FDIs. We may modify the risk management and compliance procedures and controls as we deem fit and in the interests of the Fund, but subject always to the requirements under the Code.
- (e) The Fund may net its over-the-counter derivative positions with a counterparty through bilateral contracts for novation or other bilateral agreements with the counterparty, provided that such netting arrangements satisfy the relevant conditions described in the Code.
- (f) Where the Fund uses or invests in FDIs on commodities, all such transactions shall be settled in cash at all times.

⁽¹⁾ If you switch your Units to units of another fund managed by us ("**New Fund**"), we will charge you the Switching Fee instead of the subscription fee for the New Fund. All or part of the Subscription Fee may also be paid to or retained by our authorised agents or distributors. We will also pay any other commission, remuneration or sum payable to such authorised agents or distributors in respect of the marketing of Units. Moreover, the authorised agents and distributors through whom you subscribe for Units may (depending on the specific nature of services provided) impose other fees and charges that are not disclosed in this Prospectus, and you should check with the relevant agent or distributor on such fees and charges, if any.
- 7.4 We may at any time differentiate between investors as to the amount of the Subscription Fee, Realisation Fee, Switching Fee and other charges (if any) payable to us upon the issue, realisation or switch of Units, or apply such discounts or waivers as we think fit (provided that such discounts will be borne by us and not by the Fund).

8. RISKS

8.1 General risks

You should consider and satisfy yourself as to the risks of investing in the Fund.

Generally, some of the risk factors that you should consider are market risk, interest rate risk, foreign exchange risk, political risk, liquidity risk and derivatives risk. The degree to which these risks affect investments in the Fund varies depending on the Fund's investment objective, approach and focus, and you should also consider the risks specific to the Fund.

You should be aware that the price of Units and the income accruing from them may fall or rise and you may not get back your original investment. There is no guarantee that the investment objective of the Fund will be achieved.

Investment in the Fund is not meant to produce returns over the short term and you should not expect to obtain short-term gains from such investment.

The general and specific risks described in this paragraph 8 are not exhaustive and you should be aware that the Fund may be exposed to other risks of an exceptional nature from time to time.

8.2 Specific risks

(a) Market risk

You should consider and satisfy yourself as to the usual risks of investing and participating in publicly traded securities. Prices of securities may go up or down in response to changes in economic conditions, interest rates and the market's perception of securities which in turn may cause the value of Units to rise or fall.

Furthermore, some of the markets or exchanges on which the Fund may invest may prove to be illiquid or highly volatile from time to time and this may affect the price at which the Fund may liquidate its positions to meet realisation requests.

(b) Equity risk

The Fund invests in stocks and other equity securities which are subject to market risks that historically have resulted in greater price volatility than that experienced by bonds and other fixed income securities. This in turn may affect the value or volatility of the Fund.

(c) Concentration risk

Concentration of investments in a relatively small number of securities, sectors or industries, or geographical regions may significantly affect performance.

(d) Foreign exchange and currency risk

The Fund is denominated in SGD while each Class is denominated in the relevant Class currency.

Where the Fund makes investments which are denominated in a currency that is different from the currency of denomination of the Fund or (as the case may be) the relevant Class, fluctuations of the exchange rates between the currency of the Fund or Class (as the case may be) and the currency of the Fund's investments may affect the value of the relevant Units.

In our management of the Fund, we may hedge the foreign currency exposure of the Fund or Class (as the case may be) and may adopt an active or passive currency management approach. However, the foreign currency exposure of the Fund or Class (as the case may be) may not be fully hedged depending on the circumstances of each case. Such circumstances include but are not limited to the outlook, hedging costs and market liquidity of the relevant currency.

Additionally, where a Class is denominated in a different currency from that of the Fund, changes in the exchange rate between the Class currency and the denominated currency of the Fund may adversely affect the value of the Units of such Class, as expressed in the Class currency. Subject to the same considerations in the sub-paragraph above, we may or may not mitigate the exchange rate risks to the extent of the value of the assets of the Fund attributed to such Class by hedging such exchange rate risks, and to the extent that we do not do so, investors will be exposed to exchange rate risks.

Although a financial instrument used to mitigate the exchange rate risks of a Class may not be used in relation to the other Classes of Units within the Fund, the financial instrument will comprise the assets (or liabilities) of the Fund as a whole. The gains (or losses) on and the costs of the relevant financial instruments will, however, accrue solely to the relevant Class of Units of the Fund.

(e) Foreign market risks (includes emerging markets)

Investments in foreign markets may present risks not typically associated with domestic markets. These risks may include changes in currency exchange rates; less-liquid markets and less available information; less government supervision of exchanges, brokers, and issuers; increased social, economic, and political uncertainty; and greater price volatility. These risks may be greater in emerging markets, which may also entail different risks from developed markets.

(f) Issuer specific risk

A security issued by a particular issuer may be impacted by factors that are unique to that issuer and thus may cause that security's return to differ from that of the market.

(g) Political, regulatory and legal risk

The value and price of the Fund's investments may be adversely affected by international political developments, changes in exchange controls, taxation policies, monetary and fiscal policies, foreign investment policies, government policies, restrictions on repatriation of investments and other changes in the laws, regulations, restrictions and controls in the relevant countries.

(h) Small and medium capitalisation companies risk

The Fund may invest in small and medium capitalisation companies which generally carry greater risk than is customarily associated with larger capitalisation companies. Examples of such risks are less public information, more limited financial resources and product lines, greater volatility, higher risk of failure than larger companies and less liquidity. This may result in greater volatility in the share prices of such companies.

(i) Derivatives risk

As the Fund may use or invest in FDIs, it will be subject to risks associated with such FDIs. FDIs include foreign exchange forward contracts and equity index future contracts. An investment in a FDI may require the deposit of an initial margin and additional deposit of margin on short notice if the market moves against the investment position. If the required margin is not provided in time, the investment may be liquidated at a loss. Therefore, it is essential that investments in FDIs are monitored closely. We have controls for investments in FDIs and have in place systems to monitor the FDI positions of the Fund. See [paragraph 6.8](#) for more information on our risk management procedures on the use of FDIs.

(j) Counterparty risk

The Fund is exposed to the risk that a counterparty may default on its obligations to perform under a particular contract. If a counterparty becomes bankrupt or insolvent, the Fund could experience delays in liquidating an investment and may therefore incur significant losses, including losses resulting from a decline in the value of the investment during the period in which the Fund seeks to enforce its rights. The Fund may also be unable to realise any gains on the investment during such period and may incur fees and expenses to enforce its rights. There is also a risk that counterparty contracts may be terminated earlier due to, for instance, bankruptcy, supervening illegality or change in the tax or accounting laws relative to those laws existing at the time the contracts were entered into.

(k) Exceptional market conditions risk

Under certain market conditions such as during volatile markets or crisis situations or where trading on the relevant stock exchange is suspended, restricted or otherwise impaired, it may be difficult or impossible to liquidate or rebalance positions. During such times, the Fund may be unable to dispose of certain assets due to thin trading or lack of a market or buyers. Placing a stop-loss order may not necessarily limit the Fund's losses to intended amounts as market conditions may make it impossible to execute such order at the ideal price. In addition, such circumstances may force the Fund to dispose of assets at reduced prices, thereby adversely affecting the Fund's performance. Investments may also be difficult to value with any degree of accuracy or certainty. The dumping of securities in the market could further deflate prices. If the Fund incurs substantial trading losses, the need for liquidity could rise sharply at the same time that access to liquidity is impaired. Further, in a market downturn, the financial conditions of the Fund's counterparties could be weakened, thereby increasing the Fund's credit risk.

(l) Actions of institutional investors

The Fund may accept subscriptions from institutional investors and such subscriptions may constitute a large portion of the total investments in the Fund. While these institutional investors will not have any control over the investment decisions for the Fund, the actions of such investors may have a material effect on the Fund. For example, substantial realisations of Units by an institutional investor over a short period of time could necessitate the liquidation of the Fund's assets at a time and in a manner which does not provide maximum economic advantage to the Fund and which could therefore adversely affect the value of the Fund's assets.

(m) Liquidity risk of investments

Investments by the Fund in some Asian and/or emerging markets often involve a greater degree of risk due to the nature of such markets which do not have fully developed services such as custodian and settlement services often taken for granted in more developed markets. There may be a greater degree of volatility in such markets because of the speculative element, significant retail participation and lack of liquidity which are inherent characteristics of these markets.

(n) Investment management risk

Investment performance depends on the portfolio management team and the team's investment strategies. If the investment strategies do not perform as expected, if opportunities to implement those strategies do not arise, or if the team does not implement its investment strategies successfully, an investment portfolio may underperform or suffer significant losses.

(o) Broker risk

We may engage the services of third party securities brokers and dealers to acquire or dispose the investments of the Fund and to clear and settle its exchange traded securities trades. In selecting brokers and dealers and in negotiating any commission involved in our transactions with them, we consider, amongst other things, the range and quality of the professional services provided by such brokers and dealers and their credit standing and licensing or regulated status.

It is possible that the brokers or dealers engaged for the Fund may encounter financial difficulties that may impair the Fund's operational capabilities. If a broker or dealer fails or becomes insolvent, there is a risk that the Fund's orders may not be transmitted or executed and its outstanding trades made through the broker or dealer may not settle.

(p) Emerging markets risk

Investments by the Fund in emerging markets may involve a high degree of risk and may be considered speculative. Such risks include (i) greater risk of expropriation, confiscatory taxation, nationalisation, and social, political and economic instability; (ii) the current small size of the markets for securities of emerging market issuers and the currently low or non-existent volume of trading, resulting in lack of liquidity and in price volatility, (iii) certain national policies which may restrict the Fund's investment opportunities including restrictions on investing in issuers or industries deemed sensitive to relevant national interests; and (iv) the absence of developed legal structures governing private or foreign investment and private property.

(q) Risks relating to distributions

Where the Fund makes distributions to Holders, such distributions are at our absolute discretion and are not guaranteed. Distributions may be made from dividend/interest income and capital gains derived from the investments of the Fund. Dividend/interest income may be adversely affected by events such as (but not limited to) investee entities suffering unexpected losses and/or paying lower than expected dividends, and adverse currency exchange rate fluctuations. Distributions may also be made out of capital. The declaration and/or payment of distributions (whether out of income, capital gains, capital or otherwise) may have the effect of lowering the NAV of the Fund or the relevant Class. Moreover, distributions out of capital may amount to a reduction of part of your original investment and may also result in reduced future returns to you.

(r) Convertible securities risk

Convertible securities may be exchanged or converted into a predetermined number of the issuer's underlying shares, the shares of another company, or shares that are indexed to an unmanaged market index at the option of the holder during a specified time period. Although to a lesser extent than with fixed income securities generally, the market value of convertible securities tends to decline as interest rates rise. Because of the conversion feature, the market value of convertible securities also tends to vary with fluctuations in the market value of the underlying shares and thus is subject to equity market risk as well.

(s) Real estate securities risk

Risks associated with investing in the securities of companies principally engaged in the real estate industry such as Real Estate Investment Trust securities include: the cyclical nature of real estate values; risk related to general and local economic conditions; overbuilding and increased competition; demographic trends; and increases in interest rates and other real estate capital market influences.

(t) Risk of using rating agencies and other third parties

Credit ratings of instruments invested into by the Fund represent our and/or rating agencies' opinion regarding the credit quality of the instrument or the institution and are not a guarantee of quality. Rating methodologies generally rely on historical data, which may not be predictive of future trends and adjustments to credit ratings in response to subsequent changes in circumstances may take time. When a debt security is rated, the downgrading of such debt security could decrease the value and liquidity of the security.

Where we rely on ratings issued by credit rating agencies, we have established a set of internal credit assessment standards and have put in place a credit assessment process to ensure that the Fund's investments are in line with these standards. Information on our credit assessment process will be made available to investors upon request.

We may rely, without independent investigation, upon pricing information and valuations furnished to the Fund by third parties, including pricing services and independent brokers/dealers. Their accuracy depends on these parties' methodology, due diligence and timely response to changing conditions. We will not be responsible for any failures by such parties in their valuations.

Pricing basis:	Units are issued on a forward pricing basis.
Issue price:	<p>The issue price per Unit shall be ascertained by:</p> <p>(a) determining the NAV as at the Valuation Point in relation to the Dealing Day on which such issue occurs of the proportion of the Deposited Property of the Fund or the relevant Class represented by one Unit; and</p> <p>(b) truncating the resultant amount to 3 decimal places.</p> <p>We may use another method of determination or adjustment or number of decimal places with the approval of the Trustee.</p> <p>Any adjustments shall be retained by the Fund.</p>
Deduction of Subscription Fee:	A Subscription Fee may be deducted from the Gross Investment Amount and the Net Investment Amount will be applied towards your subscription of Units.
Conversion of issue price:	<p>We will generally only accept payment in the relevant Class currency, and we will quote the issue price in the relevant Class currency.</p> <p>If we decide to accept subscriptions in any other currency in the future, we will quote the issue price in such currency at the applicable rate of exchange determined by us.</p> <p>Acceptance of subscriptions in currencies other than the relevant Fund currency or relevant Class currency is at our discretion and subject to such additional terms as we may impose from time to time.</p>
Confirmation of purchase:	A confirmation of your purchase will be sent to you within 5 Business Days for cash applications, and 11 Business Days for SRS applications, from the date of issue of Units.

Other salient terms:	<ul style="list-style-type: none"> You shall bear any costs incurred (including currency exchange costs) if you pay for your Units in a currency other than the relevant Class currency. We may, in consultation with the Trustee, make fixed price offers of Units from time to time in accordance with the provisions of the Deed. No certificates for Units will be issued. Subject to the prior approval of the Trustee, we may change the method of determining the issue price and the Trustee shall determine if the affected Holders should be informed of such change.

9.4 Numerical example of calculation of Units allotted

The number of Units you will receive with an investment of S\$1,000.00 will be calculated as follows:

S\$1,000.00	-	S\$50.00	=	S\$950.00
Gross Investment Amount		Subscription Fee (5%)*		Net Investment Amount
S\$950.00	÷	S\$1.000*	=	950.00**
Net Investment Amount		Issue price		Number of Units allotted

* Based on an issue price of S\$1.000 and a Subscription Fee of 5%. This example is a hypothetical and is not indicative of any future issue price. The actual issue price will fluctuate according to the NAV of that Class. Units in some Classes may not be denominated in SGD.

** The number of Units to be issued will be rounded down to 2 decimal places. We may use another method of calculation and adjustment or number of decimal places with the approval of the Trustee.

9.5 Cancellation of subscription

Subject to the provisions of the Deed and the terms and conditions for cancellation of subscription in the cancellation form provided together with the application form for Units, you may cancel your subscription for Units by giving written notice or by submitting the cancellation form (whichever is applicable) to us or our authorised agents or distributors within 7 calendar days⁴. However, you will take the risk of any change in the price of your Units since the date of your subscription and pay any bank charges, administrative or other fees imposed by the relevant authorised agent or distributor.

Instead of cancelling your subscription, you may choose to realise your Units in accordance with paragraph 11, but you will not enjoy the benefits of cancellation under this paragraph (i.e. the Subscription Fee will not be refunded and a Realisation Fee (if any) may be imposed). Further, the Net Realisation Proceeds may be lower than the cancellation proceeds if any appreciation in the value of the Units is less than the aggregate of the Subscription Fee and Realisation Fee (if any) imposed.

See the terms and conditions for cancellation of subscriptions in the cancellation form before subscribing for Units.

⁴ or such longer period as we and the Trustee may agree or such other period as the Authority may prescribe. Where the last day of such time period falls on a Sunday or public holiday in Singapore, the time period shall be extended to the next calendar day that is not a Sunday or public holiday in Singapore.

9.6 Conditions for launch of a Class

We reserve the right not to proceed with the launch of any Class if we are of the view that it is not in the interest of investors or it is not commercially viable to proceed with the relevant Class.

In such event, we may at our discretion declare the relevant Class to be deemed not to have commenced, and shall notify the relevant investors of the same and return the subscription monies received (without interest) to the relevant investors no later than 30 Business Days after the close of the relevant initial offer period.

11. REALISATION OF UNITS

11.1 How to realise Units

How to request for realisation:	<p>You may request to realise your Units through the following channels:</p> <ul style="list-style-type: none"> • authorised agents and distributors through whom your Units were originally purchased • ATMs (as and when available) • designated websites • other channels made available by us

Dealing Deadline:	<p>3 p.m. Singapore time on any Dealing Day.</p> <p>For requests received and accepted by us or our authorised agents or distributors by the Dealing Deadline of a Dealing Day, Units will be realised at the realisation price applicable to that Dealing Day.</p> <p>For requests received and accepted after the Dealing Deadline or on a day that is not a Dealing Day, Units will be realised at the realisation price applicable to the next Dealing Day.</p>
Pricing basis:	Units are realised on a forward pricing basis.

Realisation price:	<p>The realisation price per Unit shall be ascertained by:</p> <p>(a) determining the NAV as at the Valuation Point in relation to the Dealing Day on which the realisation request is received and accepted of the proportion of the Deposited Property of the Fund or Class represented by one Unit; and</p> <p>(b) truncating the resultant amount to 3 decimal places.</p> <p>We may use another method of determination or adjustment or number of decimal places with the approval of the Trustee.</p> <p>Any adjustments shall be retained by the Fund.</p>
Deduction of Realisation Fee:	A Realisation Fee may be deducted from the Gross Realisation Proceeds, and the Net Realisation Proceeds will be paid to you.
Conversion of realisation price:	<p>We will generally only permit realisation of Units in the relevant Class currency, and we will quote the realisation price in the relevant Class currency.</p> <p>If we decide to permit realisations in any other currency in the future, we will quote the realisation price in such currency at the applicable rate of exchange determined by us.</p>

Other salient terms:	<ul style="list-style-type: none"> You will bear all bank charges incurred for any telegraphic transfer of realisation proceeds to your designated bank account. If you are resident outside Singapore, we will deduct from your Gross Realisation Proceeds any expenses actually incurred by us over the amount of expenses which we would have incurred if you had been resident in Singapore. If we receive and accept a realisation request for Units before the Trustee receives your subscription monies for such Units, we may refuse to realise such Units until the next Dealing Day after the Dealing Day on which your subscription monies for such Units are received by the Trustee. Subject to the prior approval of the Trustee, we may change the method of determining the realisation price and the Trustee shall determine if the affected Holders should be informed of such change.

11.2 Numerical example of calculation of Net Realisation Proceeds

The Net Realisation Proceeds payable to you on the realisation of 1,000 Units will be calculated as follows:

1,000 Units	x	S\$0.900*	=	S\$900.00
Your realisation request		Realisation price		Gross Realisation Proceeds
S\$900.00	-	S\$0.00	=	S\$900.00
Gross Realisation Proceeds		Realisation Fee (0%)*		Net Realisation Proceeds

* Based on a realisation price of S\$0.900. There is currently no Realisation Fee payable for the Fund. This example is a hypothetical and is not indicative of any future realisation price. The actual realisation price will fluctuate according to the NAV of the relevant Class. Units in some Classes may not be denominated in SGD.

11.3 Limitation on realisation

We may, with the approval of the Trustee and subject to the provisions of the Deed, limit the total number of Units to be realised by the Holders or cancelled by us on any Dealing Day to 10% of the total number of Units of the Fund or Class then in issue. Such limitation will be applied proportionately to all Holders who have validly requested realisations on such Dealing Day and to us.

Any Units which are not realised or cancelled will be realised or cancelled on the next Dealing Day, provided that if the number of Units to be realised or cancelled still exceeds such limit, we may continue to carry forward the realisation/cancellation requests in the same manner, until such time as the total number of Units to be realised or cancelled on a Dealing Day falls within such limit.

If realisation requests are so carried forward and you are affected, we will notify you within 7 Business Days. Realisation requests which have been carried forward from an earlier Dealing Day shall be dealt with in priority to later requests.

11.4 Compulsory realisations

We may compulsorily realise your holding of Units in certain circumstances. See [paragraph 21.2](#) for further details.

12. SWITCHING OF UNITS

How to switch your Units:	You may request to switch your Units for Units in a different Class, or for units of any other Group Fund (the “ new units ”) by giving us or our authorised agents or distributors a switching request in the prescribed form.
When switches are made:	<p>Switches will only be made on a day (“Common Dealing Day”) which is both a Dealing Day for your Units and a dealing day for the new units.</p> <p>For requests received and accepted by us or our authorised agents or distributors by the Dealing Deadline of a Common Dealing Day, Units will be switched on that Common Dealing Day.</p> <p>For requests received and accepted after the Dealing Deadline or on a day that is not a Common Dealing Day, Units will be switched on the next Common Dealing Day.</p>

How switches are carried out:	<p>A switch of Units will be effected as follows:</p> <p>(a) your Units will be realised at the realisation price calculated under <u>paragraph 11</u>;</p> <p>(b) the net realisation proceeds shall then be used (after deducting any Switching Fee payable) to subscribe for new units at the prevailing issue price of such new units. For the purposes of the switch, we may waive in whole or in part the subscription fee for the new units and/or the Realisation Fee (if any).</p>
Other salient terms:	<ul style="list-style-type: none"> • Switches will be at our discretion. • You may switch into Class Z Units only with our prior written approval. • You may withdraw a switching request only with our consent. • Switching is subject to the terms of the Deed and the constitutive documents of the Group Fund (where applicable), including the provisions relating to the issue and realisation of Units. • Switches will not be allowed if it results in you holding Units below any applicable minimum holding. • Switches will not be allowed between Units denominated in different currencies. • Switches will not be allowed during any period where the realisation of Units has been limited or suspended in accordance with <u>paragraphs 11.3 or 14</u>, or when the issue of new units is suspended. • Units purchased with cash or SRS monies (as the case may be) may only be switched to new units which may be purchased with the same payment method. • Neither we nor the Trustee shall have responsibility or liability to ensure that the provisions of the constitutive documents of the Group Fund relating to the issue, realisation or switching of units are complied with.

13. OBTAINING PRICES OF UNITS

You may obtain indicative prices of Units:

Except for our own publications, we do not accept any responsibility for errors made by any publisher, whether in the published prices or for any non-publication or late publication of prices. We will not be liable in respect of any action taken or loss suffered by you arising from any publication by such publishers.

14. SUSPENSION OF DEALINGS

14.1 Subject to the provisions of the Code, we or the Trustee may, with the prior written approval of the other, suspend the issue and realisation of Units of the Fund or any Class during:

- (a) any period when the Recognised Market on which a material part of the Authorised Investments forming part of the Deposited Property of the Fund for the time being are listed, quoted or dealt in is closed (otherwise than for public holidays) or during which dealings are substantially restricted or suspended;
- (b) the existence of any state of affairs which, in the Trustee's and our opinion, might seriously prejudice the interests of the Holders in relation to the Fund or Class as a whole or of the Deposited Property of the Fund;
- (c) any period when a state of emergency prevents a practicable disposal of such Authorised Investments by or on behalf of the Trustee;
- (d) any breakdown in the means of communication normally employed in determining the price of any of such Authorised Investments, or the current price on the relevant Recognised Market, or when for any reason the prices of any of such Authorised Investments, or the amount of any of our liability and/or the liability of the Trustee for the account of the Fund, cannot be promptly and accurately ascertained (including any period when the fair value of a material portion of the Authorised Investments cannot be determined);
- (e) any period when remittance of moneys which will or may be involved in the realisation of such Authorised Investments or in the payment for such Authorised Investments for the time being constituting the Deposited Property is not possible or cannot, in the Trustee's and our opinion, be carried out at normal rates of exchange;
- (f) upon the occurrence of any event causing us to liquidate a substantial percentage of the assets comprised in the Deposited Property (as determined in our absolute discretion), or to terminate the Fund;
- (g) any period whereby dealing of Units has to be suspended to effect the subdivision or consolidation of Units;
- (h) any period when the dealing of Units is suspended pursuant to any order or direction of the Authority or any judicial or governing authority of competent jurisdiction;
- (i) any 48 hour period (or such longer period as may be agreed between the Trustee and us) prior to the date of any meeting of Holders of the Fund or Class (or any adjourned meeting thereof);
- (j) any period when the Trustee's or our business operations in relation to the operation of the Fund are substantially interrupted or closed as a result of or arising from pestilence, acts of war, terrorism, insurrection, revolutions, civil unrest, riots, strikes or acts of God;
- (k) exceptional circumstances, where we have determined that such suspension is in the best interest of the Holders;
- (l) any period when dealings in any one or more of the underlying entities in which the Fund has invested a substantial portion of its assets are suspended; or
- (m) such other circumstances as may be required under the provisions of the Code.

- 14.2 Without prejudice to [paragraph 14.1](#) above, the Trustee may, with the prior approval of the Authority, suspend the issue and realisation of Units of the Fund or any Class if:
- (a) we go into liquidation (except a voluntary liquidation for the purpose of reconstruction or amalgamation upon terms previously approved in writing by the Trustee, such approval not to be unreasonably withheld or delayed);
 - (b) a receiver or trustee is appointed of the whole or of any substantial part of our assets or undertaking; or
 - (c) we convene a meeting of our creditors or make or propose to make any arrangement or composition with or any assignment for the benefit of our creditors.
- 14.3 Subject to the provisions of the Code, we and/or the Trustee may from time to time also suspend the issue and/or realisation of Units in certain situations as set out in the Deed, including suspending the realisation of Units for such reasonable period as may be necessary to effect an orderly redemption of investments in accordance with [Clause 16.8](#) of the Deed.
- 14.4 Subject to the provisions of the Code, any such suspension will take effect upon our written declaration to the Trustee (or vice versa, as the case may be) and will end as soon as practicable when the condition giving rise to the suspension no longer exists and no other condition under which suspension is authorised under this [paragraph 14](#) or the applicable provisions of the Deed exists upon our (or, as the case may be, the Trustee's) written declaration of the same and in any event, within such period as may be prescribed by the Code. The period of suspension may be extended in accordance with the Code. Subject to the provisions of the Code, any payment for any Units realised before the commencement of any such suspension which has not been paid before the commencement thereof may, if we and the Trustee agree, be deferred until immediately after the end of such suspension.

The following expenses (where applicable) as set out in the IMAS Guidelines (as may be updated from time to time), are excluded from the calculation of the expense ratio:

- (a) brokerage and other transaction costs associated with the purchase and sales of investments (such as registrar charges and remittance fees);
- (b) foreign exchange gains and losses, whether realised or unrealised;
- (c) front-end loads, back-end loads and other costs arising on the purchase or sale of other funds;
- (d) tax deducted at source or arising on income received, including withholding tax;

15.2 Turnover ratio

The turnover ratio of the Fund for the financial year ended 31 December 2022 is 21.91%.

The turnover ratio is calculated based on the lesser of purchases or sales of the Fund's underlying investments expressed as a percentage of the daily average NAV of the Fund.

16. SOFT DOLLAR COMMISSIONS/ARRANGEMENTS

16.1 Managers' soft dollar disclosures

Subject to the provisions of the Code, we may from time to time receive or enter into soft dollar commissions/arrangements in our management of the Fund. We will comply with applicable regulatory and industry standards on soft dollars. The soft dollar commissions/arrangements may include specific advice as to the advisability of dealing in, or the value of, any investments, research and advisory services, economic and political analyses, portfolio analyses including valuation and performance measurements, market analyses, data and quotation services, computer hardware and software or any other information facilities to the extent that they are used to support the investment decision making process, the giving of advice, or the conduct of research or analysis, and custodial service in relation to the investments managed for clients.

Soft dollar commissions/arrangements will not include travel, accommodation, entertainment, general administrative goods and services, general office equipment or premises, membership fees, employees' salaries or direct money payment.

We will not accept or enter into soft dollar commissions/arrangements unless (a) such soft dollar commissions/arrangements can reasonably be expected to assist us in the management of the Fund, (b) best execution is carried out for the transactions, and (c) no unnecessary trades are entered into in order to qualify for such soft dollar commissions/arrangements.

We do not, and are not entitled to, retain cash or commission rebates for our own account in respect of rebates earned when transacting in securities for account of the Fund.

16.2 Sub-Manager's and Wellington Sub-Investment Managers' soft dollar disclosures

Wellington Management utilizes external research from broker/dealers and independent or "third party" research firms ("**Research Services**") in its investment decision-making process. The Research Services Wellington Management obtains include written research material and access to company management and experts in a variety of fields. These Research Services assist Wellington Management in its efforts to maximize investment returns in client accounts. In some cases, Wellington Management pays directly for Research Services. In most cases, however, Wellington Management obtains Research Services using client commissions. When Wellington Management obtains Research Services using client commissions, it does so in a manner designed to comply with applicable securities regulations, which differ significantly by jurisdiction. In some instances, a portion of the cost of Research Services is bundled with trade execution services provided by broker/dealers. In other instances, broker/dealers provide Wellington Management with research from independent firms as a result of trade executions it places with those broker/dealers. The commissions its clients pay on these trades are higher than the lowest available rates. While the commissions on these trades are paid for by Wellington Management's clients, these commissions pay for Research Services provided to Wellington Management. Wellington Management places orders with broker/dealers that provide Research Services to Wellington Management, but only when Wellington Management's Global Trading department judges that the broker/dealer is capable of providing best execution for that transaction. Research Services paid for through client commissions are not linked directly to particular transactions. Some Research Services may benefit Wellington Management's clients as a whole, while others may benefit a specific segment of clients. Where permitted by applicable law, Research Services received through client commissions can be used by all of Wellington Management's investment personnel, including those who have no direct involvement with the client account whose trading activity generated the commissions. In the case of client accounts invested in wholly systematic strategies Wellington Management has negotiated reduced commission rates for algorithmic executions that it deems eligible. These rates reflect the limited use of research in the investment decision-making processes employed by these strategies.

17. CONFLICTS OF INTEREST

17.1 Managers' conflicts of interest disclosures

We are of the view that there is no conflict of interest in our management of other funds and the Fund because of the following structures in place:

- (a) Investment decisions for each fund are made impartially. There are no preferred customers or funds and all accounts are treated equally.
- (b) All investment ideas are shared equally among fund managers.
- (c) We subscribe to the Code of Ethics and the Standards of Professional Conduct as prescribed by the Chartered Financial Analyst Institute ("**CFA Institute**") in the United States of America. The CFA Institute is the primary professional organisation for security analysts, investment managers and others who are involved in the investment decision-making process. All charter holders of the CFA Institute and candidates who are in pursuit of the charter, including those from Singapore, are expected to comply with CFA Institute standards. The Code of Ethics and the Standards of Professional Conduct are in place to ensure high ethical and professional standards of investment professionals as well as fair treatment of the investing public.
- (d) Despite the possible overlap in the scope of investments, none of the funds are identical to one another and investment decisions are made according to the individual risk-return characteristic of the relevant fund.
- (e) Most importantly, our usual fair and unbiased practice is to allocate investments proportionately between various funds which place the same orders simultaneously. However, if there are any potential conflicts of interests due to competing orders for the same securities, we will adopt an average pricing policy whereby orders that are partially fulfilled on a particular day will be allotted proportionately among the funds based on their respective initial order size and such quantity allotted will be at the average price of such investments on that particular day.

We shall conduct all transactions with or for the Fund on an arm's length basis.

Save as provided in the Deed, our associates may be engaged to provide banking, brokerage, financial or other services to the Fund or buy, hold and deal in any investments, enter into contracts or other arrangements with the Trustee or us and make profits or derive benefits from these activities. Such services to the Fund, where provided, and such activities with the Trustee or us, where entered into, will be on an arm's length basis.

We and our related entities, officers or employees may from time to time invest and deal in Units in the Fund for each of our respective individual accounts or (in our case and in the case of our related entities) for the account of another person (including, without limitation, our and our related entities' other clients).

In such an event, we will have regard to our obligations to the Fund and, in particular, our obligation to act in the best interests of the Fund and its Holders so far as practicable, having regard to applicable laws and our obligations to our other clients. If a conflict of interest does arise, we will endeavour to ensure that such conflict is resolved fairly.

Subject to the provisions of the Code, we may from time to time:

- (i) invest monies of the Fund in the securities of any of our related corporations (as defined in Section 4 of the Companies Act 1967) (each, a "**related corporation**");
- (ii) invest monies of the Fund in other collective investment schemes managed by us or our related corporations; and
- (iii) deposit monies of the Fund in the ordinary course of business of the Fund with our related corporations which are banks licensed under the Banking Act 1970, finance companies licensed under the Finance Companies Act 1967, merchant banks approved as financial institutions under

Section 28 of the Monetary Authority of Singapore Act 1970 or any other deposit-taking institution licensed under an equivalent law in a foreign jurisdiction.

We will endeavour to ensure that such investments and deposits are made on normal commercial terms and are consistent with the investment objective, focus and approach of the Fund.

17.2 Sub-Manager's and Wellington Sub-Investment Managers' conflicts of interest disclosures

Conflicts may arise in the ordinary course of business conducted by WMS and the Wellington Sub-Investment Managers. Some of those conflicts are inherent in any large, global investment management business, while others are a result of their business model. WMS and the Wellington Sub-Investment Managers will seek to avoid or minimise these conflicts where reasonably possible. However, some conflicts cannot be avoided, and although others could be, WMS and the Wellington Sub-Investment Managers have in some instances determined that doing so would require changes to business or investment practices that, on balance, do not provide a significant benefit to their firm and/or their clients. Any conflicts that WMS and the Wellington Sub-Investment Managers cannot or have chosen not to avoid are managed through policies and procedures that WMS and the Wellington Sub-Investment Managers each believe are sufficient to protect the interests of, and fulfill their fiduciary obligations to their respective clients, including the Fund while providing high quality investment services to all of their clients.

WMS and the Wellington Sub-Investment Managers have adopted and implemented policies and procedures, including brokerage and trade allocation policies and procedures, which they believe address the conflicts associated with managing multiple accounts for multiple clients. In addition, WMS, the Wellington Sub-Investment Managers and the Wellington Management group monitor a variety of areas, including compliance with primary account guidelines, the allocation of initial public offers, and compliance with their Code of Ethics, and place additional investment restrictions on investment professionals who manage hedge funds and certain other accounts. Furthermore, senior investment and business personnel of WMS, the Wellington Sub-Investment Managers and the Wellington Management group conduct periodic reviews of the performance of investment professionals.

17.3 Trustee's conflicts of interest disclosures

The Trustee shall conduct all transactions with or for the Fund on an arm's length basis.

The Trustee, the registrar and the custodian may from time to time act as trustee, administrator, registrar or custodian or otherwise as may be required from time to time in relation to, or be otherwise involved in or with, other funds and clients which have similar investment objectives to those of the Fund. It is, therefore, possible that any of them may, in the course of business, have potential conflicts of interest with the Fund. Each will, at all times, have regard in such event to its obligations to the Fund and will endeavour to ensure that such conflicts are resolved fairly and taking into account Holders' interests.

The services of the Trustee provided to the Fund are not deemed to be exclusive and the Trustee shall be free to render similar services to others (including those that may compete with (or have a similar objective to) the business of the Fund) so long as its services hereunder are not impaired thereby and to retain for its own use and benefit all appropriate fees and benefits. Conflicts of interest will likely arise from the fact that State Street is engaged in a wide variety of businesses and will provide services to many clients with the same or different objectives. The Trustee and its related parties shall not be deemed to be affected with notice of or to be under any duty to disclose to the Fund any fact or information which comes to the notice of the Trustee in the course of the Trustee rendering similar services to other parties or in the course of its business in any other capacity, otherwise than in the course of carrying out its duties under the Deed or as required by any applicable laws and regulations for the time being in force.

Save as provided in the Deed, the associates of the Trustee may be engaged to provide banking, brokerage, financial or other services to the Fund or buy, hold and deal in any investments, enter into contracts or other arrangements with the Trustee or the Managers and make profits or derive benefits from these activities. Such services to the Fund, where provided, and such activities with the Trustee or the Managers, where entered into, will be on an arm's length basis. In particular:

- (a) State Street Bank and Trust Company, acting through its Singapore Branch, a party related to the Trustee, has been appointed as custodian of the Fund. The custodian may also appoint related parties as sub-custodians. Cash will be placed with the custodian as banker or may, at the discretion of the Managers, be invested in certificates of deposit or banking instruments issued by a related party of the Trustee, including the custodian. Money may also be borrowed by the Fund from a State Street entity. In its capacities as custodian and banker, State Street will earn fees/ interest for such services and may receive other benefits in connection with such services.
- (b) Where foreign exchange transactions, including but not limited to spot, forward or swap transactions (collectively “**foreign exchange transactions**”), are entered into for or on behalf of the Fund with an affiliate of the Trustee (a “**State Street counterparty**”), the State Street counterparty will enter into such transaction as principal counterparty and not as agent or fiduciary for the Trustee, the Managers or the Fund and such State Street counterparty shall be entitled to retain for its own use and benefit any benefit which it may derive from any such foreign exchange transactions or the holding of any cash in connection with such transactions. Foreign exchange transactions may also be entered into for or on behalf of the Fund with counterparties other than a State Street counterparty.

20. OTHER MATERIAL INFORMATION

20.1 Market timing

The Fund is not designed and managed to support short term investments. In this regard, we take a serious view of, and strongly discourage the practice of market timing (that is, investors conducting short-term buying or selling of Units to gain from inefficiencies in pricing) as such practices may cause an overall detriment to the interests of other investors.

In addition, short-term trading in Units increases the total transaction costs of the Fund, such as trading commission and other costs which are absorbed by all other investors. Moreover, the widespread practice of market timing may cause large movements of cash in the Fund, which may disrupt the investment strategies to the detriment of other investors.

For the reasons set out above, we may implement internal measures to monitor and control the practice of market timing. If any internal measure to restrict the practice of market timing amounts to a significant change to the Fund (as provided in the Code), we will inform Holders of such internal measure not later than one month before its implementation. We intend to review our policy on market timing from time to time in a continuous effort to protect the interests of investors in the Fund.

20.2 Information on investments

At the end of each quarter, you will receive a statement showing the value of your investments in the Fund. If you conduct any transaction(s) within a particular month, you will receive an additional statement at the end of that month.

20.3 Indemnities

We and the Trustee are entitled to be indemnified out of or have recourse to the Deposited Property in accordance with the terms of the Deed. See the Deed for further details.

20.4 Liquidation of the Managers, the Trustee, the Sub-Manager, the Sub-Investment Managers or the custodian

Subject to the provisions of the Deed, if the Managers or the Trustee go into liquidation (except for a voluntary liquidation for the purpose of reconstruction or amalgamation), new managers or a new trustee (as the case may be) may be appointed or the Fund may be terminated. See the Deed for further details on what happens if the Managers or the Trustee go into liquidation.

Subject to the provisions of the relevant sub-management agreement between the Managers and the Sub-Manager, if the Sub-Manager becomes insolvent (except for a voluntary liquidation for the purpose of reconstruction or amalgamation or merger on terms previously approved in writing by the Managers), the Managers may appoint a new sub-manager for the Fund or decide to manage the Fund themselves.

Subject to the provisions of the relevant sub-management agreement between the Managers and the relevant sub-manager, if any of the sub-investment managers becomes insolvent, the relevant sub-manager may appoint (with the approval of the Managers) a new sub-investment manager for the Fund.

Custodial Risk

There are risks involved in dealing with the custodian who holds the Fund's investments or settles the Fund's trades. It is possible that, in the event of the insolvency or bankruptcy of the custodian, the Fund would be delayed or prevented from recovering its assets from the custodian, or its estate, and may have only a general unsecured claim against the custodian for those assets. In recent insolvencies of financial institutions, the ability of certain customers to recover their assets from the insolvent financial institution's estate has been delayed, limited, or prevented, often unpredictably, and there is no assurance that any assets held by the Fund with the custodian will be readily recoverable by the Fund. In addition, there may be limited recourse against non-U.S. sub-custodians in those situations in which the Fund invests in markets where custodial and/or settlement systems and regulations are not fully developed, including emerging markets, and the assets of the Fund have been entrusted to such non-U.S. sub-custodians.

21. PROVISIONS OF THE DEED

Some of the provisions of the Deed are set out below. ***See the Deed for the full terms and conditions of the Fund.***

21.1 Valuation

Except where otherwise expressly stated in the Deed and subject always to the requirements of the Code, the value of the assets comprised in the Deposited Property of the Fund with reference to any Authorised Investment which is:

- (a) a Quoted Investment, shall be calculated, as the case may be, by reference to the official closing price, the last known transacted price or the last transacted price (or, with the prior approval of the Trustee, the last bid price) as at the last official close on the relevant Recognised Market (or at such other time as the Managers may from time to time determine with the prior agreement of the Trustee). Where such Quoted Investment is listed, dealt or traded in more than one Recognised Market, the Managers (or such person as the Managers may appoint for the purpose) may in their absolute discretion select any one of such Recognised Markets for the foregoing purposes and, if there is no such official closing price, last known transacted price or last transacted price, the value shall be calculated by reference to the last available prices quoted by responsible firms, corporations or associations on a Recognised Market at the time of calculation (or at such other time as the Managers may from time to time determine with the prior agreement of the Trustee), and where there is no Recognised Market, the price of the relevant Investment as quoted by a person, firm or institution making a market in that Investment, if any (and if there shall be more than one such market maker, then such market maker as the Managers shall designate);
- (b) an Unquoted Investment, shall be calculated by reference to, where applicable: (i) the initial value thereof being the amount expended in the acquisition thereof; (ii) the price of the relevant Investment as quoted by a person, firm or institution making a market in that Investment, if any (and if there shall be more than one such market maker then such market maker as the Managers may designate), as may be determined by the Managers to represent the fair value of such Investment; or (iii) the sale prices of recent public or private transactions in the same or similar Investments, valuations of comparable companies or discounted cash flow analysis, as may be determined to represent the fair value of such Investment. In the valuation of such Investment, the Managers may take into account relevant factors including, without limitation, significant recent events affecting the issuer such as pending mergers and acquisitions and restrictions as to saleability or transferability;
- (c) cash, deposits and similar assets shall be valued (by a person approved by the Trustee as qualified to value such cash, deposits and similar assets) at their face value (together with accrued interest) unless, in the opinion of the Managers (after consultation with the Trustee), any adjustment should be made to reflect the value thereof;
- (d) a unit or share in a unit trust scheme or mutual fund or collective investment scheme shall be valued at the latest published or available net asset value per unit or share, or if no net asset value per unit or share is published or available, then at their latest available realisation price; and
- (e) an Investment other than as described above, shall be valued by a person approved by the Trustee as qualified to value such an Investment in such manner and at such time as the Managers shall from time to time determine with the prior agreement of the Trustee,

provided that, if the quotations referred to in paragraphs 21.1(a) to 21.1(e) above are not available, or if the value of the Authorised Investment determined in the manner described in paragraphs 21.1(a) to 21.1(e) above is determined by the Managers with due care and in good faith to not be representative of the value of such Authorised Investment, then the value shall be such value as the Managers may with due care and in good faith consider in the circumstance to be the fair value and is approved by the Trustee. The Managers shall notify the Holders of such change if required by the Trustee. For the purposes of this proviso, the **“fair value”** shall be determined by the Managers in consultation with a stockbroker or an approved valuer and with the approval of the Trustee in accordance with the Code. Where the fair value of a material portion of the Deposited Property of the Fund cannot be determined,

the Managers shall, subject to the provisions of the Code, suspend valuation and dealing in the Units of the Fund.

The Managers may from time to time, with the prior written approval of the Trustee, amend the method of valuation set out above and the Trustee shall determine if the Holders should be informed of such amendment.

21.2 Compulsory realisations

The Managers have the right (in consultation with the Trustee) to compulsorily realise any holdings of Units held by:

- (a) any Holder:
 - (i) whose subscription for or holding of Units, in the opinion of the Managers, is or may be in breach of any applicable law or regulation in any jurisdiction; or
 - (ii) where such realisation is, in the opinion of the Managers, necessary or desirable for the compliance of the Managers or the Fund with any applicable law or regulation in any jurisdiction (including any regulatory exemption conditions); or
- (b) any Holder whose holdings, in the opinion of the Managers:
 - (i) may cause the Fund to lose its authorised or registered status with any regulatory authority in any jurisdiction; or
 - (ii) may cause the offer of the Units of the Fund, the Fund, this Prospectus, the Deed, the Managers or the Trustee to become subject to any authorisation, recognition, approval or registration requirements under any law or regulation in any other jurisdiction; or
- (c) any Holder whose holdings, in the opinion of the Managers:
 - (i) may cause a detrimental effect on the tax status of the Fund in any jurisdiction or on the tax status of the Holders of the Fund; or
 - (ii) may result in the Fund or other Holders of the Fund suffering any other legal or pecuniary or administrative disadvantage which the Fund or Holders might not otherwise have incurred or suffered; or
- (d) any Holder who fails any anti-money laundering, anti-terrorist financing or know-your-client checks, or where information and/or documentary evidence requested by the Managers and/or the Trustee for the purposes of any anti-money laundering, anti-terrorist financing or know-your-client checks cannot be obtained from the Holder (or the Holder has failed to provide the same) in a timely manner; or
- (e) any Holder, where information (including but not limited to information regarding tax status, identity or residency), self-certifications or documents as may be requested by the Managers and/or the Trustee pursuant to laws, regulations, guidelines, directives or contractual obligations with other jurisdictions' authorities (including, without limitation, the FATCA and/or any Singapore laws, regulations, guidelines and directives implemented as part of any IGA entered into between the U.S. and Singapore in connection with FATCA) cannot be obtained from the Holder, or the Holder has failed to provide the same, in a timely manner; or
- (f) any Holder who does not consent, or withdraws his consent, for the Managers or the Trustee to collect, use and/or disclose information or data relating to the Holder, where (in the opinion of the Managers or the Trustee) such information or data is necessary or desirable for the Managers, the Trustee, their respective related corporations and/or other service providers to perform their respective services and/or duties to or in respect of the Fund and/or the Holder.

Any compulsory realisation under this paragraph may be carried out by the Managers on any Dealing Day, with prior notice to the relevant Holder, and shall be carried out in accordance with, and at the Realisation Price determined under, the applicable provisions on realisations in the Deed.

If the Managers and/or the Trustee are required to account to any duly empowered fiscal authority of Singapore or elsewhere for any income or other taxes, charges or assessments whatsoever on the value of any Units held by a Holder, the Managers (in consultation with the Trustee) shall be entitled, at any time with prior notice to that Holder, to realise such number of Units held by that Holder as may be necessary to discharge the liability arising. The Managers and/or the Trustee (as the case may be) shall be entitled to apply the proceeds of such realisation in payment, reimbursement and/or set-off against the liability.

The Managers, the Trustee and their respective delegates, agents or associates shall not be liable for any loss (whether direct or consequential and including, without limitation, loss of profit or interest) or damage suffered by any Holder or any party arising out of or caused in whole or in part by any actions which are taken by the Managers, Trustee and/or any of their respective delegates, agents or associates under this paragraph 21.2.

21.3 Custody of Deposited Property

(a) The Trustee shall be responsible for the safe custody of the Deposited Property. Any Authorised Investments forming part of the Deposited Property shall, whether in bearer or registered form, be paid or transferred to or to the order of the Trustee forthwith on receipt by the Managers and be dealt with as the Trustee may think proper for the purpose of providing for the safe custody thereof. The Trustee may act as custodian itself or may appoint such persons (including any Associate of the Trustee) as custodian or joint custodians (with the Trustee if acting as custodian or with any other custodian appointed by the Trustee) of the whole or any part of the Deposited Property and (where the Trustee is custodian) may appoint or (where the Trustee appoints a custodian) may empower such custodian or joint custodian (as the case may be) to appoint with prior consent in writing of the Trustee, sub-custodians. The fees and expenses of any such custodian, joint custodian or sub-custodian shall be paid out of the Deposited Property. The Trustee may at any time procure that:

- (i) the Trustee;
- (ii) any officer of the Trustee jointly with the Trustee;
- (iii) any nominee appointed by the Trustee;
- (iv) any such nominee and the Trustee;
- (v) any custodian, joint custodian or sub-custodian appointed;
- (vi) any company operating a depository or recognised clearing system in respect of the Deposited Property of the Fund; or
- (vii) any broker, financial institution or other person with whom the same is deposited in order to satisfy any requirement to deposit margin or security,

takes delivery of and retains and/or is registered as proprietor of any Authorised Investment in registered form held upon the trusts of the Deed.

(b) Subject always to the applicable laws, regulations, guidelines and directions, the Trustee shall not be liable:

- (i) for any loss, damage, claim, cost or expense resulting from or caused by the liquidation, bankruptcy, insolvency, administration or other equivalent process in relation to any custodian, sub-custodian or central securities depository or clearing system or settlement system or clearing system depository with which any Authorised Investments and other property or assets acquired in relation to the Fund are deposited;

- (ii) for any loss, damage, claim, cost or expense resulting from or caused by the act or omission of, any central securities depository or clearing system or settlement system or clearing system depository or any other person with which any Authorised Investments and other property or assets acquired in relation to the Fund are deposited;
 - (iii) for any loss, damage, claim, cost or expense resulting from or caused by the Authorised Investments and other property or assets acquired in relation to the Fund which have been placed with any portfolio managers, futures commission merchants, bankers, lenders, agents, nominees, brokers or other intermediaries upon the instructions of the Managers or the Managers' delegates;
 - (iv) for any loss, damage, claim, cost or expense resulting from or caused by the Authorised Investments and other property or assets acquired in relation to the Fund not registered in the name of the Trustee or its nominee;
 - (v) for any loss, damage, claim, cost or expense caused by any central securities depository or clearing system or settlement system or clearing system depository;
 - (vi) in respect of nor shall the Trustee be responsible for (i) any loss incurred through the insolvency of any nominee, custodian, joint custodian or sub-custodian appointed by the Trustee except where such appointee is an Associate of the Trustee or (ii) any act or omission of any nominee, custodian, joint custodian or sub-custodian appointed by the Trustee except where the loss caused by such act or omission is a direct result of fraud or wilful default of the Trustee;
 - (vii) for any loss, damage, claim, cost or expense caused by the act or omission of any sub-custodian not appointed by it.
- (c) The Managers may from time to time instruct the Trustee to open account(s) with any bank or other financial institutions. Notwithstanding any other provisions in the Deed, but subject to all applicable laws relating to and governing the Trustee and in the absence of any fraud, negligence, wilful default by the Trustee, the Trustee shall not be responsible for the safekeeping of Deposited Property deposited with or remaining in any such account(s) and will not be liable for any loss occasioned by reason of the liquidation, bankruptcy or insolvency of such bank or other financial institutions.

21.4 Additional indemnity

Any indemnity expressly given to the Managers or the Trustee in the Deed is in addition to and without prejudice to any indemnity allowed by law provided that no provision in the Deed shall in any case where the Trustee or the Managers have failed to show the degree of care and diligence required of them as trustee and manager of the Fund, exempt them or indemnify them against any liability for breach of trust.

21.5 Termination of the Fund

- (a) The Fund is of indeterminate duration and may be terminated as provided in this paragraph 21.5.
- (b) Either the Managers or the Trustee may in their absolute discretion terminate the Fund by giving not less than two months' prior written notice to the other provided that such termination shall take effect no earlier than three years after the date of the Deed.
- (c) Termination by the Trustee:
 - (i) Notwithstanding paragraph 21.5(b), the Fund may be terminated by the Trustee if:

 - (2) the Authority revokes or withdraws the authorisation of the Fund under Section 288 of the SFA;

- (6) all outstanding Units of the Fund have been redeemed whether through optional or compulsory redemption and the Trustee has obtained prior written agreement of the Managers to such termination.

Subject to paragraph 21.5(c)(i)(6), the decision of the Trustee in any of the events specified in this paragraph 21.5(c)(i) shall be final and binding upon the Managers and the Holders but the Trustee shall be under no liability on account of any failure to terminate the Fund pursuant to this paragraph 21.5(c)(i) or otherwise.

(d) Termination by the Managers:

(i) Notwithstanding paragraph 21.5(b), the Fund may be terminated by the Managers:

(e) Notice of Termination: The party terminating the Fund in accordance with paragraph 21.5 (other than any termination pursuant to paragraph 21.5(f)) shall give notice in writing of such termination to the Holders and by such notice fix the date at which such termination is to take effect which date shall not be less than two months or such other period as may be determined by the Managers with the Trustee's approval after the service of such notice (or such other date as may be necessary to comply with any law or directions given by the Authority).

- (f) Extraordinary Resolution: The Fund may at any time be terminated by the Holders by Extraordinary Resolution and such termination shall take effect on the date on which the Extraordinary Resolution is passed or on such later date (if any) as the Extraordinary Resolution may provide.

- (d) A Class may be terminated by the Managers:

- (f) A Class may at any time be terminated by the Holders of that Class by Extraordinary Resolution and such termination shall take effect on the date on which the Extraordinary Resolution is passed or on such later date (if any) as the Extraordinary Resolution may provide.

21.7 Voting

Subject to the relevant provisions of the Deed, the Managers may exercise or refrain from exercising any rights of voting conferred by any part of the Deposited Property in what they may consider to be the best interests of the Holders.

However, notwithstanding the above, in respect of voting rights where the Managers may face conflicts of interests, the Managers shall cause such voting rights to be exercised in consultation with the Trustee.

The phrase “**rights of voting**” or the word “**vote**” used in this paragraph 21.7 shall be deemed to include not only a vote at a meeting but any consent to or approval of any arrangement, scheme or resolution or any alteration in or abandonment of any rights attaching to any part of the Deposited Property and the right to requisition or join in a requisition to convene any meeting or to give notice of any resolution or to circulate any statement.
