PRODUCT SUITABILITY

WHO IS THE PRODUCT SUITABLE FOR?

- The Portfolio is only suitable for investors who:
 - are prepared to accept the general risks associated with investing in Emerging Market Countries and the risks of bond markets over the medium to long term; and
 - are prepared to accept medium to high levels of volatility due to the Portfolio's investment policies or portfolio management techniques.

You should consult your financial adviser if in doubt whether this product is suitable for you.

Further Information

Refer to "INVESTOR PROFILE" of the Singapore Prospectus for further information on product suitability.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in a sub-fund of Neuberger Berman Investment Funds plc, which is an investment company incorporated under the laws of Ireland and authorised as a UCITS umbrella fund by the Central Bank of Ireland. The Portfolio aims to achieve a target average return of 1-2% over its benchmark before fees over a market cycle (typically 3 years) by investing primarily in Hard Currency-denominated debt issued in Emerging Market Countries.
- Dividend policy:
 - Accumulating shares: No dividends will be paid.
 - Distributing shares: Dividends will be declared on a quarterly basis (and paid within 30 Business Days thereafter) or, in respect of (Monthly) Distributing Classes, declared on or prior to the last Business Day of each month (and paid within three Business Days thereafter) at the discretion of the Directors.

Refer to "THE COMPANY", "THE PORTFOLIOS" and "INVESTMENT OBJECTIVE, FOCUS AND APPROACH" of the Singapore Prospectus for further information on features of the product.

¹ The Singapore Prospectus is available at the offices of the Singapore representative during normal Singapore business hours or at www.nb.com.

² Annualised figures are provided for Share Classes that have been incepted for less than a year as at 31 December 2020.

Investment Strategy	
<ul style="list-style-type: none"> • The Portfolio will invest primarily in debt securities and money market instruments issued by public or private issuers in Emerging Market Countries which are denominated in Hard Currency. Public issuers include corporate issuers that are, either directly or indirectly, 100% government-owned. • With the exception of permitted investments in transferable securities and money market instruments which are unlisted, all securities invested in by the Portfolio will be listed, dealt or traded on Recognised Markets globally, without any particular focus on any one industrial sector or region. • Under normal market conditions, the manager and the sub-investment managers will invest at least two thirds of the Portfolio's NAV in Hard Currency debt securities and money market instruments issued by public or private issuers in Emerging Market Countries. • The manager and sub-investment managers implement a systematic and disciplined framework for analysing sovereign and corporate local currency and Hard Currency debt securities. • The maximum proportion of the Portfolio's NAV that can be subject to total return swaps is 10%. The expected proportion of the Portfolio's NAV that will be subject to total return swaps is 1%. • Repo Contracts and Securities Lending Agreements may be used subject to the conditions and limits set out in the Prospectus. The Portfolio will not utilise margin lending. • An aggregate maximum of 50% of the Portfolio's NAV may be invested in securities issued by issuers which are not governments. • The Portfolio may use FDIs for investment purposes, efficient portfolio management purposes and/or hedging purposes. • The Portfolio may or may be expected to have medium to high levels of volatility due to its investment policies or portfolio management techniques. 	<p>Refer to "INVESTMENT OBJECTIVE, FOCUS AND APPROACH" of the Singapore Prospectus for further information on the investment strategy.</p>
Parties Involved	
<p>WHO ARE YOU INVESTING WITH?</p> <ul style="list-style-type: none"> • You are investing in Neuberger Berman Investment Funds plc, an umbrella fund of which the Portfolio is a sub-fund. • The manager is Neuberger Berman Asset Management Ireland Limited and the sub-investment managers are Neuberger Berman Investment Advisers LLC, Neuberger Berman Singapore Pte. Limited and Neuberger Berman Europe Limited. • The depositary is Brown Brothers Harriman Trustee Services (Ireland) Limited. 	<p>Refer to "THE COMPANY", "MANAGEMENT", "OTHER PARTIES" and "INSOLVENCY OF THE PARTIES" of the Singapore Prospectus for further information on the role and responsibilities of these entities and what happens when they become insolvent.</p>
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT? The value of the product and its dividends or coupons (if any) may rise or fall. These risk factors may cause you to lose some or all of your investment:</p>	<p>Refer to "RISK FACTORS" of the Singapore Prospectus for further information on the risk of the product.</p>
Market and Credit Risks	
<p>• Fixed Income Securities and Downgrade Risk – Fixed income securities are subject to credit risk and price volatility. Fixed income securities are also exposed to the risk of being downgraded, which can cause a significant drop in the value of the Portfolio. The manager or sub-investment managers may or may not be able to</p>	

<p>dispose of the debt instruments that are being downgraded.</p> <ul style="list-style-type: none"> •Lower Rated Securities Risk – The Portfolio may invest in lower rated or unrated (i.e. non-investment grade or high yield) securities, which are more likely to react to developments affecting market and credit risk than are more highly rated securities. The Portfolio may therefore find it more difficult to sell such high yield securities or may be able to sell these securities only at prices lower than if such securities were widely traded. The Portfolio may experience difficulty in valuing certain securities at certain times. •Credit Risk – The Portfolio may invest in corporate fixed income securities. Corporate issuers of such fixed income securities may fail to meet their interest repayments, or repay debt, which may result the Portfolio suffering temporary or permanent losses. •Sovereign Debt Risk – The Portfolio may invest in government/sovereign fixed income securities. The Portfolio will be exposed to direct or indirect consequences of political, social and economic changes in various countries by investing in sovereign debts. •Emerging Market Economies Risk and Emerging Market Debt Securities Risk – Investing in emerging markets may involve heightened risks (some of which could be significant) such as greater social, economic and political uncertainty, and periods of extreme volatility. Debt securities of Emerging Market Countries may be subject to greater risk of loss of principal and interest, and be exposed to fluctuations in yields or prices, than debt securities issued by obligors in developed countries. •Risks Associated with Investment in the China Interbank Bond Market through Bond Connect - investing through Bond Connect in eligible bonds traded on the China Interbank Bond Market may expose to other risks including but not limited to suspension risk, operational risk, differences in trading day, regulatory risk and taxation risk, which may adversely affect the portfolio's ability to access PRC bond market to achieve his investment objectives. •Currency Risk – The base currency value of the investment of the Portfolio designated in another currency may rise and fall due to exchange rate fluctuations in respect of the relevant currencies. The currency exchange rates of Emerging Market Countries tend to be more volatile than those of more developed countries. As the base currency of the Portfolio is not in Singapore dollars, Singapore investors may be exposed to an additional currency risk. •Currency Hedging Risk – Currency hedging instruments may involve the risk of a default by a counterparty. 		
Liquidity Risks		
<ul style="list-style-type: none"> •The Portfolio is not listed in Singapore and you can redeem only on Dealing Days – There is no secondary market for the Portfolio. Your right to redeem may be suspended or deferred under certain circumstances. 		
Product-Specific Risks		
<ul style="list-style-type: none"> •Risks relating to the use of FDI – FDIs may be subject to various types of risks, including market risk, liquidity risk, counterparty credit risk, legal risk and operations risk. In addition, FDIs can involve significant economic leverage and may, in some cases, involve high risk of significant loss. The use of FDIs may lead to risk of loss of capital or increase the volatility of a Portfolio's NAV. •Risks relating to dividend payment – Dividends paid out of capital amount to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment which may result in an immediate decrease in the NAV of the relevant shares. An investment in high yield securities does not necessarily imply high dividend distribution for all share classes. 		
FEES AND CHARGES		
WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT? Payable directly by you – You will need to pay the following fees and charges:		Refer to "FEES AND CHARGES" of the Singapore Prospectus for further information
Initial sales charge	Up to 5% of the purchase price	
Realisation fee	Currently nil (Maximum 3%)	
Exchange charge	Up to 1% of the subscription price*	

Any other fee or charge	Duties and charges to cover dealing costs and to act as an anti-dilution levy may be imposed on a subscription or redemption	on fees and charges.																		
*The exchange charge may be charged by distributors. Additional fees may be payable by you to a Singapore distributor. Please contact the relevant Singapore distributor for details. <u>Payable by the Portfolio from invested proceeds</u> The Portfolio will pay the following fees (as a % of the Portfolio's NAV) in respect of the "A" Class Shares to the manager, depositary and other parties:																				
Management Fee (a) Retained by Manager (b) Paid by Manager to financial adviser (trailer fee)	1.40% per annum (a) 40% to 100% of Management Fee (b) 0% to 60% ³ of Management Fee																			
Custody Fee	Up to 0.02% per annum																			
Administration Fee	Up to 0.20% per annum																			
VALUATIONS AND EXITING FROM THIS INVESTMENT																				
HOW OFTEN ARE VALUATIONS AVAILABLE? The NAV per share in respect of each Dealing Day is normally available on www.nb.com on the following Business Day. HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COST IN DOING SO? <ul style="list-style-type: none">• The Company does not offer a right to cancel subscriptions into the Portfolio, but you should check if your Singapore distributor will allow you to do so. You can exit the Portfolio by submitting your redemption form to the Singapore distributor from whom you had originally purchased your shares. Shares may be redeemed on any Dealing Day.• Redemption proceeds will normally be made to Singapore distributors within 10 Business Days and you should check with your Singapore distributor when you can expect to receive your redemption proceeds.• The redemption price of your shares is determined as follows:<ul style="list-style-type: none">○ If your redemption form is received by the Administrator before 3 p.m. (Irish time) on a Dealing Day, your Shares will normally be redeemed at their NAV as of that Dealing Day.○ If your redemption form is received by the Administrator after 3 p.m. (Irish time) on a Dealing Day, your Shares will normally be redeemed at their NAV as of the next Dealing Day. (Please confirm with your Singapore distributor the applicable Singapore cut-off time for receiving your redemption form in order for your Shares to be redeemed at their NAV as of a particular Dealing Day) <ul style="list-style-type: none">• The redemption proceeds that you will receive will be the redemption price per share multiplied by the number of shares redeemed, less any charges. An example is as follows: <table><tr><td>1,000 shares</td><td>x</td><td>\$1.10</td><td>=</td><td>\$1,100</td><td>-</td><td>\$0</td><td>=</td><td>\$1,100</td></tr><tr><td>Redemption request</td><td></td><td>Redemption Price</td><td></td><td>Gross Redemption Proceeds</td><td></td><td>Redemption Charge*</td><td></td><td>Net Redemption Proceeds</td></tr></table>		1,000 shares	x	\$1.10	=	\$1,100	-	\$0	=	\$1,100	Redemption request		Redemption Price		Gross Redemption Proceeds		Redemption Charge*		Net Redemption Proceeds	Refer to "SUBSCRIPTION FOR SHARES - Cancellation of Subscription", "REDEMPTION OF SHARES" and "OBTAINING PRICE INFORMATION IN SINGAPORE" of the Singapore Prospectus for further information on valuation and exiting from the product.
1,000 shares	x	\$1.10	=	\$1,100	-	\$0	=	\$1,100
