PRODUCT HIGHLIGHTS SHEET

Right By You

• The Fund may from time to time invest its Japan portfolio into United Japan Growth Fund, a Singapore-authorised open-ended collective investment scheme constituted and domiciled in Singapore which is also managed by the Managers. The Managers may invest such proportion of the Fund into United Japan Growth Fund at their discretion and such investment may be substantial (i.e. 30% or more of NAV). • The Fund may use or invest in FDIs for the purposes of hedging existing positions in a portfolio, efficient portfolio management or a combination of both purposes. • The Fund is actively managed with reference to its benchmark (MSCI AC Asia Pacific) which is used for performance comparison purposes only. • Units are EIP and the Fund will not invest in any product or engage in any transaction which may cause the Units not to be regarded as EIP.	
Parties Involved	
WHO ARE YOU INVESTING WITH? • The Managers are UOB Asset Management Ltd. • The Trustee is State Street Trust (SG) Limited. • The Custodian is State Street Bank and Trust Company, Singapore Branch.	Refer to paragraphs 2, 4 and 20.4 of the Prospectus for further information on these entities and what happens if they become insolvent.
KEY RISKS	
WHAT ARE THE KEY RISKS OF THIS INVESTMENT? **The value of the Fund and its distributions (if any) may rise or fall. These risk factors may cause you to lose some or all of your investment:**	Refer to paragraph 8 of the Prospectus for further information on risks of the product.
Market and Credit Risks	
• **You are exposed to market risks in the Asia Pacific markets.** o Prices of the securities that the Fund invests in may be affected by changes in economic conditions, interest rates and the market's perception of the securities, which in turn may affect the value of your investment. • **You have greater exposure to market risks as this is an equity fund.** o The Fund invests in stocks and other equity securities that historically have greater price volatility than bonds and other fixed income securities. This in turn may affect the value or volatility of the Fund.	
Liquidity Risks	
• **The Fund is not listed and you can redeem only on Dealing Days.** o There is no secondary market for the Fund. All realisation forms should be submitted to the Managers' authorised agents or distributors. • **You are exposed to liquidity risk in the Fund's investments.** o Investments by the Fund in some Asian and/or emerging markets often involve a greater degree of risk due to the nature of such markets which do not have fully developed services such as custodian and settlement services. There may be a greater degree of volatility in such markets because of the speculative element, significant retail participation and lack of liquidity.	
Product-Specific Risks	
• **You are exposed to the risk of investing in an Asia Pacific regional fund.** o Investment in a regional fund which may present greater opportunities and potential for capital appreciation may also be subject to higher risks as it may be less diversified than a global portfolio. • **You are exposed to foreign exchange / currency risk.** o Where investments are denominated in foreign currency, fluctuations of the exchange rates of such currencies against the Fund's base currency (Singapore dollar) may affect the value of Units. The Managers may hedge the foreign currency exposure of the Fund and may adopt an active currency management approach. Foreign currency exposure may not be fully hedged depending on the circumstances of each case, including the outlook, hedging costs and market liquidity of the relevant currency. • **You are exposed to political risk.** o Investments by the Fund may be adversely affected by political instability as well as exchange controls, changes in taxation, foreign investment policies, restrictions on repatriation of investments and other restrictions and controls which may be imposed by the relevant authorities in the relevant countries.	

- **You are exposed to derivatives risk.**
  - The Fund may use or invest in FDIs which may require the deposit of an initial margin and additional deposit of margin on short notice if the market moves against the investment position. If the required margin is not provided in time, the investment may be liquidated at a loss. Controls and systems for investments in FDIs are in place to monitor the FDI positions of the Fund.

You should be aware that the Fund may be exposed to other risks of an exceptional nature from time to time.
