COMMENTARY

Market review

2023 started with declining expectations for global growth and elevated fears of an onset of a recession amid the higher-for-longer rate environment. The global economy turned out to be in a better shape. This was despite the Middle East tensions, bond sell-offs, regional banking crisis and central banks' relentless policy rate hikes. Across the major regions, labour market stayed tight, inflation continued to trend lower and consumer spending remained strong. The year soon ended with a Santa rally amidst growing excitement that central banks will cut interest rates sooner in 2024 than previously expected. The end of "high-for-longer" rates fears boosted returns across major asset classes towards the end of the year. Equity markets as represented by the S&P 500 returned +26.3% for the year. Fixed income markets also ended the period in the green; Asia credit markets returned +7.0% while Asia local currency bonds came in at +5.8%. Although US Treasury yields rallied in the last quarter, the curve bear-flattened with long-end yields little changed at the end of 2023.

Throughout 2023, the US economy has proved remarkably resilient, particularly from consumer that has overcome headwinds of falling real incomes, higher interest rates and tighter credit conditions. Streams of data surprises were enough to lift risk markets and point the market towards the possibility of a soft landing scenario. Q4 GDP advance estimates surpassed expectations and continued to show an upward trajectory, increasing 3.3% quarter over quarter (q/q). Resilient private domestic final demand was the key driver. Consumer spending reaccelerated at the close of 2023 while December new home sales rose to 664k amid declining mortgage rates. The Federal Reserve's (Fed) preferred inflation measure, core Personal Consumption Expenditures, continued to moderate lower to 3.2% year over year (y/y) in November while the labour market remains tight and growth resilient, paving the path for a soft landing for the US economy. During the last Federal Open Market Committee meeting, Fed chair Jerome Powell indicated that the central bank was aware of the risk of keeping rates at restrictive levels for too long. Minutes from the latest policy meeting showed policymakers expect rates to end next year at 4.50%-4.75%, down from the current 5.25%-5.50% range.

In contrast, the year was a mixed bag for Europe. The composite Purchasing Managers Index was revised up in the final report, removing entirely the decline that had initially been reported for December. On inflation, while headline inflation rose to 2.9% in December reflecting a base effect in Germany, core inflation eased to 3.6%. Bank loan perked up in November as loans to nonfinancial corporates jumped 0.4% and loans to households rose by 0.1%. The European Central Bank's Q4 BLS suggests that the pass-through of monetary policy tightening is still working its way through financing conditions.

China's post-reopening recovery path has been bumpy and uneven. Following a strong recovery in Q1, economic activity slumped in Q2, before bottoming after August. Despite the staggering start, China's economy pulled off growth of 5.2% y/y in the last quarter. This placed the calendar year 2023 growth right on target at 5.2%. Across sectors, activity outperformed in policy tailwind areas (for example: green sectors, manufacturing upgrade) and reopening beneficiary sectors (for example: catering, tourism). But elsewhere activity has been soft. The divergent performance has largely been policy driven, as the government has pushed for structural transformation. Policy has been in favour of hightech, manufacturing upgrade, new energy and green technology, and new infrastructure, as the government shifts from over-reliance on the property sector. Policy tone has been accommodative since the Politburo meeting where policymakers emphasised their priority on growth. A series of easing measures including a 1-trillion yuan additional fiscal deficit, the People's Bank of China's rate cut and reserve requirement ratio cut, housing stabilisation measures, and a trillion-yuan package to address liquidity stresses for local government hidden debt were introduced. That said, the road ahead for China will remain bumpy as it tackles challenges such as deflationary pressures, weak sentiment in the housing market and local government hidden debt issue.

The Asian Investment Grade (IG) credit market was up 7.42% in 2023, led by falling treasury yields (+3.92%) and narrowing credit spreads (+3.37%). The top performing sectors in IG segment include Oil & Gas, Consumer and Industrial.

Performance of the Fund

The Schroder Asian Investment Grade Credit returned 5.78% (SGD A Inc share class, net of fees) for the one-year period from 1 January 2023 to 31 December 2023. The Fund outperformed its benchmark (CPF-OA rate +1%) which returned 3.57%, and trailed its reference benchmark (JP Morgan Asia Credit IG Index SGD-hedged) which delivered 5.81%.

Relative to JP Morgan Asia Credit Index IG, country allocation, security selection & sector allocation and FX positioning boosted relative performance. These positive returns more than offset the detraction from rates. Our overweight US duration detracted largely due to the US rate sell-off in H1 2023. In terms of country allocation, off-benchmark allocation to Australia and Japan, and overweight to India and Hong Kong SAR were the largest contributors, more than offsetting the detraction from the underweight to Mainland China and Indonesia. As for security selection & sector allocation, Singapore Real Estate, Indonesia Sovereign and Financials (South Korea, Australia and Thailand) aided returns.

Market outlook

Despite lingering macro uncertainties on global growth, we believe the outlook appears more optimistic for Asia credit going into 2024. The asset class is expected to be supported by strong technicals, resilient IG corporate fundamentals, and attractive all-in yields. With Asian IG yields still trading above historical averages, the carry offered in this segment well-compensates investors for potential downside risks and volatility.

Our key investment themes are: 1) China's growth rebalancing; 2) Structural growth stories outside of China; 3) Rising divergence amid tighter credit conditions; and 4) Geopolitics.

In China, the rebalancing towards quality growth continues, and we continue to focus on less levered and strategic sectors that are expected to benefit from the nation's growth priorities. It is, however, key to highlight that Asia Pacific is highly diverse and more than just China. Several markets within the region, such as India, Indonesia and Korea continue to power ahead and present ample opportunities for credit selection. India, in particular, remains a market darling for many investors as macro resiliency and a solid services sector set a supportive backdrop for Indian credits.

That said, heading into the third year of tight financing conditions, selectivity remains key as debt servicing pressure is building up for weaker and levered borrowers.

2024 is a big election year. While the base case outcomes appear more benign than previous election cycles, we will closely monitor the elections in the US and within the region as this may potentially lead to volatility.

Despite a volatile macro environment, the search for carry should continue to support flows into the Asian credit market, particularly in IG. For investors with a medium to longer term horizon, we believe looking past short-term volatility and staying the course will allow them to lock in compelling risk-adjusted income and capital gains potential.

Key segments we favour include high quality Financials (South Korea, Hong Kong, Japan), TMT (technology, media, and telecom), Quasi-sovereigns (China, South Korea), and Chinese internet platforms.

REPORT OF THE TRUSTEE

For the financial year ended 31 December 2023

The Trustee is under a duty to take into custody and hold the assets of Schroder Asian Investment Grade Credit (the "Fund") in trust for the unitholders. In accordance with the Securities and Futures Act 2001, its subsidiary legislation and the Code on Collective Investment Schemes, the Trustee shall monitor the activities of the Manager for compliance with the limitations imposed on the investment and borrowing powers as set out in the Trust Deed in each annual accounting year and report thereon to unitholders in an annual report.

To the best knowledge of the Trustee, the Manager has, in all material respects, managed the Fund during the financial year covered by these financial statements, set out on pages 10 to 48, in accordance with the limitations imposed on the investment and borrowing powers set out in the Trust Deed.

For and on behalf of the Trustee HSBC Institutional Trust Services (Singapore) Limited

(a sub-fund of Schroder International Opportunities Portfolio)

Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006

STATEMENT BY THE MANAGER

For the financial year ended 31 December 2023

In the opinion of Schroder Investment Management (Singapore) Ltd, the accompanying financial statements set out on pages 10 to 48, comprising the Statement of Total Return, Statement of Financial Position, Statement of Movements of Unitholders' Funds, Statement of Portfolio and Notes to the Financial Statements are drawn up so as to present fairly, in all material respects, the financial position and portfolio holdings of Schroder Asian Investment Grade Credit (the "Fund") as at 31 December 2023, and the financial performance and movements of unitholders' funds for the financial year then ended in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants. At the date of this statement, there are reasonable grounds to believe that the Fund will be able to meet its financial obligations as and when they materialise.

For and on behalf of the Manager Schroder Investment Management (Singapore) Ltd

INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF SCHRODER ASIAN INVESTMENT GRADE CREDIT

(a sub-fund of Schroder International Opportunities Portfolio)

Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Schroder Asian Investment Grade Credit Fund (the "Fund"), which comprise the Statement of Financial Position and Statement of Portfolio as at 31 December 2023, the Statement of Total Return and Statement of Movements of Unitholders' Funds for the year then ended, and notes to the financial statements, including a summary of material accounting policy information, as set out on pages 10 to 48.

In our opinion, the accompanying financial statements are properly drawn up in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants so as to present fairly, in all material respects, the financial position and portfolio holdings of the Fund as at 31 December 2023 and the financial performance and movements in unitholders' funds for the year ended on that date.

Basis for opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the 'Auditors' responsibilities for the audit of the financial statements' section of our report. We are independent of the Fund in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other matter

The financial statements of the Fund for the year ended 31 December 2022 were audited by another auditor who expressed an unmodified opinion on those financial statements on 30 March 2023.

INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF SCHRODER ASIAN INVESTMENT GRADE CREDIT

(a sub-fund of Schroder International Opportunities Portfolio)

Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006

Other information

Schroder Investment Management (Singapore) Ltd, the Manager of the Fund (the "Manager"), is responsible for the other information contained in the annual report. Other information is defined as all information in the annual report other than the financial statements and our auditors' report thereon.

We have obtained all other information prior to the date of this auditors' report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Manager for the financial statements

The Manager is responsible for the preparation and fair presentation of these financial statements in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants, and for such internal control as the Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to terminate the Fund or to cease the Fund's operations, or has no realistic alternative but to do so.

The Manager's responsibilities include overseeing the Fund's financial reporting process.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF SCHRODER ASIAN INVESTMENT GRADE CREDIT

(a sub-fund of Schroder International Opportunities Portfolio)

Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

1. General

Schroder Asian Investment Grade Credit (the "Fund") is a sub-fund of Schroder International Opportunities Portfolio, a Singapore umbrella fund constituted by a Deed of Trust dated 3 January 2006 (and as amended, restated and supplemented from time to time) (thereafter referred to as "Trust Deed"). The Trust Deed is governed in accordance with the laws of the Republic of Singapore. The Manager of the Fund is Schroder Investment Management (Singapore) Ltd and the Trustee is HSBC Institutional Trust Services (Singapore) Limited.

The Fund, which was launched on 8 February 2007, aims to provide a return of capital growth and income primarily (i.e. approximately two-thirds of its assets) through investment in a portfolio of investment grade (i.e. at or greater than BBB-rated by Standard & Poor's or Fitch Ratings or Baa3 rated by Moody's) debt securities denominated in local and foreign currencies, issued by governments, government agencies, supra-national and corporate borrowers across Asia (ex Japan) debt markets. The Fund is also permitted to make tactical investments (up to 30% maximum including cash) in G7 Government bonds for diversification and capital preservation purposes.

The Fund is single priced and may suffer a reduction in value as a result of the transaction costs incurred in the purchase and sale of its underlying investments and the spread between the buying and selling prices of such investments caused by subscriptions, redemptions and/or switching in and out of the Fund. This is known as "dilution". In order to counter this and to protect unitholders' interests, with effect from 1 October 2018, the Manager will apply "dilution adjustment" as part of its daily valuation policy. This will mean that in certain circumstances the Manager (if in its opinion in good faith it is in the interest of unitholders to do so) will make adjustments in the calculations of the net asset value per unit, to counter the impact of dealing and other costs on occasions when these are deemed to be significant.

The need to make a dilution adjustment will depend upon the net value of subscriptions, switching and redemptions received by the Fund for each dealing day. The Manager therefore reserves the right to make a dilution adjustment where the Fund experiences a net cash movement which exceeds a threshold of the previous dealing day's total net asset value.

Any dilution adjustment as at the last dealing day of the year will be disclosed under units in issue.

(a sub-fund of Schroder International Opportunities Portfolio)

Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

2. Material accounting policies

2.1 Changes in material accounting policies - material accounting policy information

The Fund adopted Amendments to FRS 1: Presentation of Financial Statements for the first time for the annual period beginning 1 January 2023. Although the amendments did not result in any changes to the accounting policies themselves, they impacted the accounting policy information disclosed in the financial statements.

The amendments require the disclosure of 'material', rather than 'significant' accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policies, assisting entities to provide useful, entity-specific accounting policy information that users need to understand other information in the financial statements.

Management reviewed the accounting policies and made updates to the information disclosed in Material accounting policies (2022: Significant accounting policies) in certain instances in line with the amendments.

2.2 The accounting policies set out below have been applied consistently to all periods presented in these financial statements, except as explained in note 2.1, which addressed changes in material accounting policies. The Fund has applied new FRSs, amendments to and interpretations of the FRSs that became effective for the annual period beginning on 1 January 2023. Other than described in note 2.1, the application of these new FRSs, amendments to and interpretations of the FRSs does not have a material effect on the Fund's financial statements.

(a) Basis of preparation

The financial statements have been prepared under the historical cost basis, as modified by the revaluation of financial instruments at fair value through profit or loss, and in accordance with the Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" ("RAP 7") revised and issued by the Institute of Singapore Chartered Accountants.

(b) Recognition of income

Interest income on deposits is recognised on a time proportion basis using the effective interest method.

(a sub-fund of Schroder International Opportunities Portfolio)

Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

2. Material accounting policies (continued)

(c) <u>Investments</u>

Investments are classified as financial assets held at fair value through profit or loss. Purchases of investments are recognised on trade date. Investments are recorded at fair value on initial recognition, and subsequently carried at fair value.

The fair value of financial assets and liabilities traded in active markets is based on market mid prices for debt securities on the reporting date. Accrued interest or discount or premium on debt securities at the reporting date are included in the fair value of debt securities. Interest income on debt securities is presented within net gains or losses on investments on the Statement of Total Return. Net changes in fair value of investments are included in the Statement of Total Return in the year in which they arise.

Investments are derecognised on the trade date of disposal. Net gains or losses on investments are taken up in the Statement of Total Return.

(d) Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Receivables are initially recognised at their fair value and subsequently carried at amortised cost using the effective interest method, less accumulated impairment losses.

(e) Sales and purchases awaiting settlement

Sales and purchases awaiting settlement represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the statement of financial position date respectively. These amounts are recognised initially at fair value and subsequently measured at amortised cost.

(f) Bank balances

Bank balances comprise cash at banks which are subject to an insignificant risk of changes in value.

(g) Payables

Payables are recognised initially at fair value and subsequently stated at amortised cost using the effective interest method.

(a sub-fund of Schroder International Opportunities Portfolio)

Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

2. Material accounting policies (continued)

(h) Foreign currency translation

The Fund may hold assets and liabilities denominated in currencies other than Singapore dollars. The financial statements are presented in Singapore dollars, which is the Fund's functional and presentation currency.

Foreign currency transactions during the year are translated into Singapore dollars at the rates of exchange ruling on the transaction dates. Foreign currency monetary assets and liabilities are translated into Singapore dollars at the rates of exchange ruling at the reporting date. Foreign exchange gains or losses resulting from the settlement of foreign currency transactions and from the translation at year end exchange rates of foreign currency monetary assets and liabilities, are taken to the Statement of Total Return.

(i) Financial derivatives

Financial derivatives are recognised at fair value on the date in which a financial derivative contract is entered into and are subsequently re-measured at their fair values. Fair values are obtained from quoted market prices in active markets, including recent market transactions. A financial derivative is carried as an asset when its fair value is positive, and as a liability when its fair value is negative.

Net gains or losses on financial derivatives held for protection or enhancement of investments are taken to the Statement of Total Return as gains or losses on financial derivatives.

(j) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Fund or the counterparty.

(k) <u>Distribution</u>

The Manager shall have the absolute discretion to determine whether a distribution is to be made. In the event that the Manager determines that a distribution will be made, an amount required to effect such a distribution shall be transferred to a distribution account for payment on distribution date. This amount shall not be treated as part of the property of the Fund.

Distribution is accrued for at the reporting date if the necessary approvals have been obtained and a legal or constructive obligation has been created.

(a sub-fund of Schroder International Opportunities Portfolio)

Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

3. Income tax

The Fund has been approved by the Monetary Authority of Singapore (MAS) under the Enhanced-Tier Fund (ETF) Scheme (section 13U of the Income Tax Act 1947 and the relevant regulations) and is included in the Central Provident Fund Investment Scheme. Subject to certain conditions being met on an annual basis, the Fund enjoys Singapore corporate income tax exemption on "specified income" derived from "designated investments" for the life of the Fund. The tax exemption does not apply in the year when the relevant conditions are not met. Losses from "designated investments" are correspondingly disregarded. The terms "specified income" and "designated investments" are defined in the relevant income tax regulations.

	2023	2022
	\$	\$
Foreign income tax	(5,000)	5,000

The foreign income tax represents withholding taxes imposed by certain countries on bond interest income. Such interest income is recorded gross of withholding tax in the Statement of Total Return. Withholding taxes are shown as a separate item in the Statement of Total Return.

4. Distributions

The Fund distributed a total of \$9,098,038 (2022: \$7,444,769) to Class SGD A Distribution, Class RMB Hedged A Distribution and Class USD Hedged A Distribution unitholders on the register during the year as disclosed below.

For the financial year ended 31 December 2023

8. Units in issue (continued)

Net assets attributable to unitholders ("NAV") is apportioned between all 4 Classes of units based on the proportion of NAV of each Class, which is determined by computing the equivalent number of units of Class SGD A Dis, Class SGD I Acc, Class RMB Hedged A Dis and Class USD Hedged A Dis units in issue. Any expense, income and/or gain which is attributable to a particular Class shall be deducted from or added to the net assets attributable to that Class.

Acc: Accumulation Dis: Distribution

A reconciliation of the net assets attributable to unitholders per unit per the financial statements and the net assets attributable to unitholders per unit for issuing/redeeming units at the financial year end date is presented below:

Class SGD A Distribution	2023	2022
	\$	\$
Net assets attributable to unitholders per unit per the financial statements	0.74	0.73
Effect of distribution payable per unit	*	0.73
Net assets attributable to unitholders per unit		0.01

		_
Class RMB Hedged A Distribution	2023	2022
	RMB	RMB
Net assets attributable to unitholders per unit per the financial statements	9.61	9.60
Effect of distribution payable per unit	0.03	0.12
Net assets attributable to unitholders per unit	0.03	0.12
for issuing/redeeming of units	9.64	9.72
Class USD Hedged A Distribution		2023
		US\$
Not accete attributable to unithelders per unit		
Net assets attributable to unitholders per unit per the financial statements		1.00
Effect of distribution payable per unit		*
Net assets attributable to unitholders per unit		
for issuing/redeeming of units		1.00

^{*} Less than 0.01

There is no difference between the net assets attributable to unitholders per unit per the financial statements and the net assets attributable to unitholders per unit for issuing/redeeming of units for the Class SGD I Accumulation units.

(a sub-fund of Schroder International Opportunities Portfolio)

Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

9. Financial risk management

The Fund's activities expose it to a variety of risks including but not limited to market risk (including price risk, interest rate risk and currency risk), liquidity risk and credit risk.

The overall responsibility for the management of the Fund's financial risks lies with the Manager whom, among other things, will regularly assess the economic condition, monitor changes in market outlook and take appropriate measures accordingly to manage the Fund's exposure to these risks. The Manager may from time to time employ derivatives including but not limited to options, futures and currency forwards, subject to the terms of the Trust Deed, for the purpose of efficient portfolio management.

The data used and assumptions made in the sensitivity analyses below may not reflect actual market conditions, nor is it representative of any potential future market conditions. The sensitivity analyses can be complex and the disclosures made here are not exhaustive. The market exposures change regularly and the assumptions made below may not be representative of the risk taken throughout the year. The sensitivity analyses below should not be solely relied upon by investors in their investment decision making.

(a) Market risk

Market risk is the risk of potential adverse changes to the value of financial instruments because of changes in market conditions such as interest rate and currency rate movements and volatility in security prices.

The Fund's investments are monitored by the Manager on a regular basis so as to assess changes in fundamentals and valuation. Although the Manager conducts detailed analysis before making investment decisions, events beyond reasonable control of the Manager could affect the prices of the underlying investments and hence the net asset value of the Fund. The Manager may also select other financial instruments within the investment guidelines as set out in the Fund's Trust Deed. Guidelines are set to reduce the Fund's risk exposure to market volatility through diversifying the portfolio by investing across various geographies, industry sectors and issuers where permitted.

The benchmark which the performance of the Fund is measured against is the CPFIS-OA Interest Rate + 100 basis points per annum.

At reporting date, the Fund's assets principally consist of quoted debt securities and bank balances. The Fund's exposure to market risks are discussed below:

(i) Price risk

The Fund has insignificant exposure to price risk, therefore a sensitivity analysis has not been presented.

(a sub-fund of Schroder International Opportunities Portfolio)

Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

9. Financial risk management (continued)

(a) Market risk (continued)

(ii) <u>Interest rate risk</u>

The Fund's interest-bearing financial instruments expose it to risks associated with the effect of fluctuations in the prevailing levels of market interest rates, which will affect the value of these financial instruments and therefore the financial position and cash flows of the Fund. Interest rate risk represents a significant component of the market risk of the Fund.

The Manager will regularly assess the economic condition, monitor changes in interest rates outlook, and invest in debt securities with different maturity profiles and may use derivatives to manage the Fund's interest rate risk.

The table below summarises the Fund's exposure to interest rate risk. They include the Fund's trading assets and liabilities at fair value, categorised by the earlier of contractual re-pricing or maturity dates.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

9. Financial risk management (continued)

(a) Market risk (continued)

(ii) <u>Interest rate risk</u> (continued)

The table below summarises the potential impact increases/decreases in each of the Fund's reference interest rates on the Fund's net assets attributable to unitholders as at reporting date. The Fund's exposure to interest rate risks arises mainly from debt securities and the analysis is based on the assumption that each of the Fund's reference interest rates increases/decreases by a reasonable possible shift, with all other variables held constant, and that the fair value of the Fund's investments in debt securities moves inversely to the interest rate changes. This represents the Manager's best estimate of a reasonable possible shift in each of the reference interest rates, having regard to their historical movement.

	2023		2	022
Currency		Impact on		Impact on
denomination	Reasonable	net assets	Reasonable	net assets
of debt	possible	attributable to	possible	attributable to
securities	change	unitholders	change	unitholders

SGD	53	237,582	55	303,317
USD	63	16,652,359	53	11,383,113

(iii) Currency risk

The Fund may hold monetary and non-monetary assets and liabilities denominated in currencies other than Singapore dollars. Consequently, the Fund may be exposed to currency risk since the value of these assets and liabilities denominated in other currencies will fluctuate due to changes in exchange rates. The Manager monitors the exposure on all foreign currency denominated assets and liabilities and may manage the currency risks by hedging some or all of the currency risk exposure through derivatives such as forward currency contracts, currency futures, currency swap agreements or currency options, or alternatively increase exposure to preferred foreign currencies.

(a sub-fund of Schroder International Opportunities Portfolio)

Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

9. Financial risk management (continued)

(b) Liquidity risk

The Fund's liquidity risk arises mainly from redemptions of units. The Fund invests the majority of its assets in investments that are traded in active markets. However, liquidity may be poor in certain segments of the Asian bond markets (e.g. selective corporate bonds), particularly in times of risk aversion. Therefore, the Manager considers liquidity as one of the key risks in Asian fixed income investing. Given this, at all stages of the investment process, the Manager takes into account liquidity and its impact on the overall portfolio and emphasises diversification across the portfolio's credit exposures.

The Fund has the ability to borrow in the short-term for the purposes of meeting redemptions and short-term bridging requirements. Dedicated personnel are responsible for monitoring the Fund's liquidity position on a daily basis to ensure that sufficient cash resources and liquid assets are available to meet liabilities as and when they fall due.

Units are redeemable at the holder's option. However, the Manager also has the option to limit redemption requests to 10% of the total number of units then in issue on each dealing day, with the approval of the Trustee.

The table below analyses the Fund's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows. Balances due within 12 months approximate their carrying values as the impact of discounting is not significant.

	As at Less than 3 months	31 December 3 months to 1 year \$	r 2023 Total \$

(a sub-fund of Schroder International Opportunities Portfolio)

Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

9. Financial risk management (continued)

(b) Liquidity risk (continued)

All financial derivatives are disclosed above based on fair value as at the reporting date. Spot foreign exchange contracts are settled based on contractual notional amounts on settlement date. Realised gains or losses on forward foreign exchange, futures and swap contracts are settled on maturity date. The notional amounts of all financial derivatives are disclosed in Note 6.

(c) Credit risk

The Fund takes on exposure to credit risk arising mainly from its investments in debt securities where issuers may be unable to meet their financial obligations, such as payments of principal and/or interest on an instrument. In addition, an issuer may suffer adverse changes in its financial condition that could lower the credit quality of the security. A change in the credit rating of a security can also affect the security's liquidity and make it more difficult to sell.

The Fund invests in investment grade debt securities as rated by Standard & Poor's, Moody's or Fitch. The Fund may also invest in non-rated debt securities issued by Singapore-incorporated entities and Singapore statutory boards. An analysis of the credit ratings of the Fund's investments has been disclosed in the Statement of Portfolio.

Impairment allowances are made for losses that have been incurred by the reporting date, if any. The Manager has in place procedures for proper credit screening and monitoring of credit risk, including the use of approved counterparties with credit limits set and subject to specified financial strength criteria. Exposure against all counterparties is then monitored on a daily basis. In addition, the Manager uses detailed credit research processes in the investment processes employed in respect of the Fund.

The Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default, considering both historical analysis and forward looking information in determining any expected credit loss. As at 31 December 2023 and 31 December 2022, the Fund's financial assets (except portfolio of investments and/or financial derivatives) as disclosed in the Statement of Financial Position are realised within three months. The Manager considers the probability of default to be close to zero as the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Fund.

(a sub-fund of Schroder International Opportunities Portfolio)

Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

9. Financial risk management (continued)

(c) <u>Credit risk</u> (continued)

All transactions in quoted securities are settled/paid upon delivery using approved brokers. The risk of default is deemed to be low, as delivery of securities is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

The Fund's exposure to credit risk also arises from its bank balances and assets held with custodians and counterparties. The table below summarises the credit rating of banks, custodians and counterparties with whom the Fund's assets are held as at reporting date.

As at 31 December 2023	Credit rating	Source of credit rating

The credit ratings shown are the Baseline Credit Assessment ratings as published by Moody's.

The maximum exposure to credit risk at the reporting date is the carrying amount of the financial assets.

(d) Fair value estimation

The fair value of financial instruments is based on quoted market prices as at the reporting date. The quoted market price used for debt securities is the market mid price and the quoted market price used for other financial assets is the current bid price; the appropriate quoted market price used for financial liabilities is the current asking price.

The Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities

(a sub-fund of Schroder International Opportunities Portfolio)

Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

9. Financial risk management (continued)

(d) <u>Fair value estimation</u> (continued)

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices)

Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs)

The following table analyses within the fair value hierarchy the Fund's financial instruments measured at fair value at reporting date:

(a sub-fund of Schroder International Opportunities Portfolio)

Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

9. Financial risk management (continued)

(d) <u>Fair value estimation</u> (continued)

Investments in MAS Bills debt securities and exchange traded derivatives whose values are based on quoted market prices in active markets are classified within level 1. The quoted price for these financial instruments is not adjusted.

Financial instruments that trade in markets not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include government and corporate debt securities and over-the-counter derivatives.

There are no financial instruments classified within level 3.

Except for bank balances and margin account which are classified as level 1, the Fund's assets and liabilities not measured at fair value at reporting date have been classified as level 2. The carrying amounts of these assets and liabilities approximate their fair values as at the reporting date.

(e) Offsetting financial assets and financial liabilities

The following tables present the Fund's financial assets and liabilities subject to offsetting, enforceable master netting arrangements or similar agreements.

The gross and net positions of financial assets and liabilities that have been offset in the Statement of Financial Position are disclosed in the first three columns of the tables below.

(a sub-fund of Schroder International Opportunities Portfolio)

Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

9. Financial risk management (continued)

(f) Capital management

The Fund's capital is represented by the net assets attributable to unitholders. The Fund strives to invest the subscriptions of units in investments that meet the Fund's investment objectives while maintaining sufficient liquidity to meet unitholder redemptions.

10. Related party disclosure

The Manager of the Fund is Schroder Investment Management (Singapore) Ltd. The Trustee is HSBC Institutional Trust Services (Singapore) Limited. The Registrar for the Fund is The Hongkong and Shanghai Banking Corporation Limited. Both Trustee and Registrar are subsidiaries of the HSBC Group. The management fees paid to the Manager and registration fees paid to the Registrar; trustee fees, valuation fees and custodian fees charged by, and interest earned on deposits with, the HSBC Group are shown in the Statement of Total Return.

As at reporting date, the Fund maintained with the HSBC Group, the following bank balances:

		2023 \$	2022 \$
	Current accounts	4,386,416	6,417,496
11.	Margin account		
		2023 \$	2022 \$
	Margin account	800,453	1,006,241

Margin account represents the margin deposit amount held with a broker. The potential effect of offsetting arrangement is disclosed in Note 9(e).

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

12. Financial ratios

		2023	Class RMB	For the financial period from 19 Jan 2023 (date of inception) to 31 Dec 2023 Class USD
	Class SGD A Dis	Class SGD I Acc	Hedged A Dis	Hedged A Dis (annualised)
Expense ratio ¹	0.88%	0.10%	0.98%	0.98%
			2022	Class RMB
		Class SGD A Dis	Class SGD I Acc	Hedged A Dis
Expense ratio ¹		0.88%	0.10%	0.99%
		2023 Fund		2022 Fund
Turnover ratio ²		81.95%		88.39%

The expense ratio has been computed based on the guidelines laid down by the Investment Management Association of Singapore ("IMAS"). The calculation of the expense ratio was based on annualised total operating expenses divided by the average net asset values for each Class for the year. The total operating expenses do not include brokerage and other transaction costs, interest expense, distribution paid out to unitholders, foreign exchange gains/losses, front or back end loads arising from the purchase or sale of other funds and tax deducted at source or arising out of income received. Expenses which are common to all Classes are apportioned based on the proportion of NAV of each Class. The Fund does not pay any performance fee. The respective values used in the calculation of the expense ratio are disclosed below. The average net asset values are based on the daily balances.
